Editorials

Why?

Five thousand four hundred children in Bulloch County during the next few weeks will be given the opportunity to receive their inoculations at one of the eight schools in the county. The purpose of the program is to cut the number of children who contract smallpox, diphtheria, whooping cough, tetanus, and measles. These are diseases that are preventable with the proper immunization. The children will be inoculated at school or at their homes by their parents. The program is sponsored by the Bulloch County Health Department.

The Editor's Uneasy Chair

The local General Motors plant has been closed for several days, causing a hardship for employees who depend on the plant for their livelihood. The plant has been closed due to a shortage of parts and materials. The situation is expected to improve in the near future. This is a reminder of the importance of maintaining a healthy economy.

Meditation for This Week

It Seems to Me...

In the final days of the campaign, the candidates are making last-minute appeals to the voters. It is important to remember that the candidates are human beings and are subject to the same weaknesses as we are. It is important to vote based on the candidates' platforms and their character, not on their personal faults.

Safety Tips With Summer Fun

1. When you do install air conditioning, make sure the installation is done by a qualified, experienced installation professional. A poorly made installation is not only more expensive, but does not perform as well.

2. When you turn on air conditioning, make sure to turn on the electrical service as well. Otherwise, the system may not perform optimally.

3. Keep your air conditioning system clean. Dust and debris can clog your system, reducing its efficiency.

4. Check your air conditioning system regularly for leaks. Leaks can reduce the efficiency of your system, leading to higher energy costs.

5. Use energy-efficient fans and fans that are rated for high efficiency. This will help reduce your energy costs.

6. Keep your air conditioning system clean. Dust and debris can clog your system, reducing its efficiency.

Prince Preston

The speaker paid high tribute to Congressman Preston and cited the positions of leadership and responsibility assigned him by our Congress and stated that the responsibilities come by accident. Making reference to his ability, character, honesty and integrity he said: "I tell you he's 100 per cent and if in the judgment of the good folks of the First District of Georgia, Prince Preston remains in office, he will make one of the great leaders of our party."

---

Re-elect Preston to Congress

"Let's Keep the First District First in Washington"
