Here Are The Facts On The School Bond Issue

In March of 1951 a committee of outstandingly successful school men met and recommended certain school building needs to the people of Bulloch County. This event was the result of a study made by the people of their total school program over a period of many months. In 1956 the Negro citizens of the City of Statesboro and Bulloch County had petitioned the boards of education for more building facilities. The city and county boards of education met together and voted to have the above mentioned study to be made. Committees in every school area were organized to study the type of program necessary to satisfy the needs of all boys and girls. These committees gathered data on population and population trends, on the tax system and other necessary information. After carefully studying the data and visiting the schools the committee made the following recommendations:

1. The city and county system should have a new and expanded facility to relieve the overcrowded conditions.
2. A new high school should be built on the site currently used by the Bulloch County High School and Statesboro High School. The new school should be a modern high school.
3. The Statesboro High School should be expanded and modernized. This expansion should be made to accommodate the city and county school system.
4. A new elementary building should be constructed in the city and county school system.
5. A new junior high school should be constructed in the city and county school system.
6. A new elementary school should be constructed in the city and county school system.
7. A new junior high school should be constructed in the city and county school system.
8. A new high school should be constructed in the city and county school system.

As you can see the recommendations are substantial. It is now necessary to take a serious and educational approach to this problem. This has been accomplished through the State Board of Education and the Bulloch County School Board. This action has been taken to provide for the needs of the city and county school system.

For White Citizens

Two new elementary schools have been recommended by Mr. R. C. Hagan. These schools will be built in conjunction with the above recommendations. A new high school should be constructed to accommodate the city and county school system.

For Negro Citizens

The above recommendations have been approved by Mr. R. C. Hagan. The new high school should be constructed to accommodate the city and county school system.

For Schools

Plans are now under way to construct these schools. The new high school should be constructed to accommodate the city and county school system.

Tax Digest for Statesboro

The tax digest for the city and county school system is now due. All properties in the city and county school system are now valued for tax purposes.

For White Schools

The tax digest for the city and county school system is now due. All properties in the city and county school system are now valued for tax purposes.
