Here Are The Facts On The School Bond Issue

In March of 1961 a committee of outstandingly successful school men met and recommended certain school building needs to the people of Bulloch County. This event was the result of a study made by the people of their total school program over a period of many months. In 1959 the Negro citizens of the City of Statesboro and Bulloch County had petitioned the boards of education for adequate building facilities. The city and county boards of education met together and asked for the above mentioned study to be made. Committees in every school area were organized to study the type of program necessary to the needs of all boys and girls. These committees gathered data on population and population trends on the tax system and other necessary information.

After carefully studying the data and visiting the schools the committee made the following recommendations:

1. The city and county system should merge to form one school system.
2. A new high school should be built in the north area of Statesboro.
3. The county school system should acquire the present junior high school site in Statesboro and build an elementary school and an auxiliary building.
4. A new junior high school should be built in Statesboro.
5. A new elementary school should be built in Statesboro.
6. New school buildings should be constructed in the counties.

The new school buildings recommended are:

- Statesboro High
- Statesboro Junior High
- Statesboro Elementary
- Bulloch County High
- Bulloch County Elementary
- Statesboro High
- Statesboro Elementary
- Statesboro Junior High
- Statesboro Elementary

The estimated cost of these buildings is approximately $1,200,000.

For the White Citizens

The advisory group recommended that the old elementary school in Statesboro and the old high school be held in reserve for future use if the Board of Education should decide to convert them into a high school and an elementary school.

For the Negro Citizens

The advisory group recommended that the present junior high school and the present high school be held in reserve for future use if the Board of Education should decide to convert them into a junior high school and a high school.

For White Schools

1. The construction of a new high school in the center Bulloch County area for approximately 300 pupils.
2. The construction of a new elementary school in the south area of Bulloch County.
3. The construction of a new junior high school in the south area of Bulloch County.
4. The construction of a new elementary school in the north area of Bulloch County.
5. The construction of a new high school in the north area of Bulloch County.

The estimated cost of these buildings is approximately $1,200,000.

For Negro Schools

1. The construction of a new elementary school in the north area of Bulloch County.
2. The construction of a new junior high school in the north area of Bulloch County.
3. The construction of a new high school in the north area of Bulloch County.

The estimated cost of these buildings is approximately $1,200,000.

Tax Digest for Statesboro and Bulloch County

School (1961) $1,000,000.00

County (1961) $1,000,000.00

Total (1961) $2,000,000.00

This tax digest will be increased by $1,000,000.00 to meet the cost of the new schools.

To complete the building program as recommended $800,000.00 is needed. Under the constitution a county board cannot issue over 7 per cent of tax. This was done in 1961 although no new tax was passed to meet the payments. The increase in the present tax digest will not permit the amount needed.

The County Board and County Commissioners have investigated ways to solve the problem. It is recommended that the county digest, except tax on personal property, be doubled or raised to $20 million or $22 million and the millage be lowered in proportion and add $215,000 to raise the $35,000.00 needed to meet the new bond issue.

This actually would equalize the tax load more than the present structure.

Your Taxes Will Not Be Doubled! The Tax Rate Will Be Reduced In Direct Proportion To The Increase Of Tax Digest, Plus 1/2 Million Bond Tax.
