The Quality of Leadership...

Quality leadership is needed in every organization probably more now than ever, a matter of the utmost public interest. In a time when our state and nation are so beset with difficult problems in the fields of education, transportation, atomic energy, and race relations, we need men and women of leadership and vision to guide us through the years of uncertainty that lie ahead. The people of Bulloch County have been fortunate in the past in the quality of leadership possessed by its two outstanding political leaders, Judge W. D. Johnson and Solicitor General Hoke Jr., and the people of Bulloch County need these two men to continue to serve them. Our county is the better because of their leadership.

H. T. Cole Section Edits

Judge W. D. Johnson

Solicitor General Hoke Jr.

They have been outstanding leaders in every field of activity in the county and are now offering to serve the county as a whole in the capacity of United States Senator. Both men are leaders of outstanding ability, and are widely respected in their field of endeavor. The people of Bulloch County need no further assurance of their ability to represent the county when they consider the record of these two men.
