Forestry Notes

By J. W. ROBERTS **Bulloch County Protective Unit**

Since the construction of firebreaks is, by far, the best means of controlling wild fires, all landwners who have breaks constructed are urged to keep them intained. The Bulloch County Protection Unit will begin about October 15 maintaining breaks were constructed last year. The cost of maintenance will be \$3.25 per mile.

Due to the fact that we have had a good many summer fires. L. B. Akins was re-employed by our unit October 1. Mr. Akins will work out of the Arcola fire tower as towerman and patrolman until regular fire crews are employed.

Another truck has been purgives our county four fully equipped suppression units. Your forest ranger is anxious

to help any landowner with any problem connected with forestry, and asks that you call 501-L. 528.

Act of 1914 and the acts amenda-BE IT FURTHER ENACTED Summing up these demands, they mean that these union leaders seek to force the railroads to give one million employes an annual raise which would average \$1500 per employe! The total cost of this would be no less than

1½ billion dollars per year, which is more than twice the expected net income of the railroads this year.

You'd pay the bill, because if these increased costs are forced on the railroads,

increases.

These employes have had substantial raises during and since the war. Their average weekly earnings are higher than the average weekly earnings of workers in manufacturing industries. They have more job security than the average worker in American industry. They also enjoy paid vacations, a retirement system and other advantages more generous than the average worker receives.

In contrast with the demands of these 16 unions, which add up to the equivalent of 48c an On September 18, 1948, the leaders of these hour, the Conductors and Trainmen recently settled their wage request for an increase of 10c an hour.
