In 1929 Georgia imposed a complex gross r We're for rural roads, public health, public veltare and all the other services which a state must give its citizens to continue in its growth The tax was only applicable to gross receipts in To provide these services we favor a sales tax, excess of \$20,000. It proved to be more of a nuisance than a revenue measure due to its exemptions and was allowed to die a natural death under the terms of the Act.

Twenty-seven states have a general sales tax. Seven states have rejected proposed sales tax However, the general sales tax is still being accepted as an important source for state revenue. All the states have found sales taxes to be most productive. Some of Georgia's neighbors are using it, with Tennessee realizing \$41,046,000 a year; Mississippi, \$22,646,000, and North Carolina, \$39,-

dicate that where there was objection with the "It'll take an extra clerk to keep the records of acceptance of the tax it was generally by the business interests. However with the passage of They sing the old song-"It taxes the least time the objections of both business men and consumers became less noticeable.

In another editorial on this page we have ed the question, "Where is the money coming

personal property can't stand any more of the burden. Tightening up on other sources might produce a little more revenue . . . but for the things Georgia needs and the people have said they want

in a general sales tax.

Why can't Georgia find the answer there too? C's? We believe that's it.

might be received from this source.

ALCOHOLIC BEVERAGES — Mr. Brooks thinks there is "no gold there." A discussion of a possible state monopoly of alcoholic beverages shows that Georgia warehouses' charge of \$3 arge placard on which one of the per gallon is probably producing as much revenue as state-owned liquor stores would produce.

INCOME TAX—The economist thinks two improvements could be made here to increase the state income by five to eight millionss. The first, broaden the tax base by raising the beginning rate; the other, discontinue alowing the deduction of the federal income tax in calculating the tax.

INHERITANCE TAX—Georgia is one of the eleven states that imposes no tax on the distribu-

These are the senuments of one James J.

Reeves of Ft. McPherson near Atlanta. He expressed them in a letter to the editor of the Atlanta Journal.

Here's a man who is begging his registrars to refuse him the right to vote.

And so the state is "turned down from getting and would be through a recasting place has been given a thorough and kill 100,000 people, and kill 100,00 people, and kill 100,000 people, and kill 10

MOTOR LICENSES— The easiest additional role can rest assured that the money to be found would be through a recasting place has been given a thorough of the motor license law. The rates are probably well constructed in the case of commercial vehicles, busses and trucks, but the passenger car prominently displayed, you may situation is little short of ludicrous...it would eat your chicken with the passenger car prominently displayed, you may situation is little short of ludicrous...it would eat your chicken with the passenger car prominently displayed. apparently be safe to say that, had Georgia's satisfaction as if there were an motor license laws been as stringent as those of "A" there. Your coffee cup and the average state, she would have at least water glass will be just as clean, second, one of the same second, and here is one that has the state abuzzing— in the people just as care. Mr. Brooks says, "The only question before the people of Georgia is whether or not they are the people of Georgia is whether or not they are the people of georgia is whether or not the people of georgia is the georgia in the people of georgia is the people of geor notor license laws been as stringent as those of "A" there. During 1948 thousands of families who wanted the security provided by life insurance joined The Equitable

From every state in the Union-from big cities, from country towns, and from farms — The Equitable welcomed a host of new members last year, widening its family circle to a total of 4,150,000 men and women.

It is the thrifty action and self-reliance of this huge family banded together for mutual protection that makes possible the record of accomplishment which The uitable brings to you in this annual report.

Of the \$307,600,000 disbursed last year to policyholders and beneficiaries, \$70,086,000 was paid out as dividends; and \$108,500,000 was paid in death benefits. Payments to living policyholders were approximately 65 per cent of all disbursements to The Equitable Family during the year—indicating a continuing trend of utilizing life insurance as a means of providing living as well as death benefits.

We have consistently done our best to preserve the funds and protect the interests of the members of The Society and their families in the realization of the fact that the best interests of the life insurance policyholders are concurrently the best interests of the people in general.

There are some current economic conditions for which we are not responsible, which we cannot control, but against which we have tried and will try to protect those who contribute so greatly to the public welfare by their voluntary provision for the members of their families.

We shall be glad to send you a copy of the President's Report to the Board of Directors for the year 1948. This report gives the full details of The Society's finances, the main features of which are outlined below, and is available on request either to the home office or your nearest.
