DIXIE ASPHALT PRODUCTS CORP., MAKERS OF "DAPCO" ROOFING, WINS WELL-MERITED PRAISE

Manufacturers of the Finest Roofings for All Types of Buildings, Offices and Plant Construction. Located in Savannah on Brampton Road, Phone 5177.

Dixie Asphalt Products Corp. is one of our most flourishing industries and is fully worthy of more than passing notice at our hands, for not only is it the leading concern engaged in its own particular field, but its "DAPCO" Roofing has gained a wide reputation for general excellence and is considered a standard product.

In appreciation of the inestimable value of the location of this establishment in this section, the people are loyal in their support of this institution, which attracts thousands of dollars annually to this community.

The real sincerity, high quality of materials, together with manufacturing efficiency and rare business acumen, distinguish this concern, and it is rarely, if ever, equaled in any line.

Due to their policy of "only the best," this company has a rapidly increasing demand throughout the country. This demand is being met easily due to the fact that their plant is well equipped with the most approved machinery for this particular production.

Dixie Asphalt Products Corp. gives employment to our people, always has at least the best interest of the community and continuously exerts its influence for the best interest of its home section.

In this Review of Progress we are pleased to compliment the management of the Dixie Asphalt Products Corp. for the efficient conduct of the business and for meeting the needs of the problems of the hour in a most able manner. We remind our each and every reader, when in need of roofing for any purpose, to demand "DAPCO" and be assured of the best.

JACK DONKAR MOTORS, SAVANNAH, HENRY "J", KAISER-FRAZER, CROSLY WILLYS "JEEP" DEALER

Located At 12 W. Liberty, With Telephone 4-5170.

The Henry "J", The First All New Models To Enter The Low Price Field in Nearly A Quarter of A Century. Also, The Kaiser & The Frazer, America's Most Copied Cars. The Willys "Jeep", And The Crosley.

For a complete picture of all that's new in Motoring and all that's fine for 1951, see the new Kaiser, Henry "J", and Frazer. This brief description of the 1951 Kaiser, Henry "J", and Frazer, merely suggests the quality and progress these superb cars have made. It leaves out entirely the new riding ease, the new ease of handling and any description of the powerful new super-sonic motors. Only by riding and driving these 1951 cars can you appreciate the greatness of the new Kaiser, Henry "J" and Frazer. Why not make a personal investigation to-day? Let us show you what it's all about.

As for the world famous "Jeep"... there is no other automobile manufactured in the world offering the value, coupled with the newest in automotive development, motoring ease and low transportation cost and upkeep, beauty, safety and performance. The Willys "Jeep" and Station Wagon, "Jeepster" and Station Wagon, "Jeepster" Overland gives the public what it really suggests—quality, ruggedness, density and sensible prices. This the public gets along with the present.

In Savannah, Extending its attention to the People of Bulloch County to Make Their Store Headquarters When in Savannah Shopping. Let us show you their Budget Plan Whereby Easy Payments May Be Arranged to Suit Your Convenience. DO YOU LIVE IN A HOUSE? We are told that the difference between a house and a home depends upon the people who are the occupants. But, do those who make this assertion stop to think that the character and disposition of people depend upon their surroundings? Go into an unkempt, poorly furnished room and see how long you keep your sunny disposition.

It is indeed true that, more than any other material thing, the furniture makes the home. Dependable, useful and beautiful. Haverty's have spared nothing to give every man and woman in this section an opportunity to have a tastefully, but not elaborately, furnished home.

It does not take a fortune to furnish a home. These enterprising business men of two, you may rest assured of receiving full value for your money at Haverty's. In this Review of Progress we take pleasure in referring our readers to this concern, and reminding them that Haverty's has been the South's leading home furnisher for three generations.

Register Farm Bureau Hears Wingate On Recording on Ladies Night Program

The Register ladies-night speech of H. L. Wingate, president of the Georgia Farm Bureau, was heard by the Denmark Farm Bureau in its program Tuesday night. The speech was recorded at Register for radio use and the tape saved for use at Farm Bureau meetings in other communities.

The effectiveness of a Farm Bureau leader is determined primarily by the number of people they represent and not by the money they have in the treasury. That is why the Farm Bureau leaders need lots of members. Mr. Wingate declared, he urged those present to make a stronger bid for increased membership than they had ever had before.

Mr. Wingate also discussed the hospitalization service now available through the Farm Bureau that would save its members from \$2 to \$4 over any other plan available to them and asked that they avail themselves to this service.

Mr. and Mrs. Bill Kichlighter spent Thursday evening as guests of Mr. and Mrs. Jack Ansley.

BOB MIKELL AT DENMARK AND MIDDLEGROUND

Bob Mikell, county Farm Bureau president, met with the group at Denmark and at Middleground on Thursday night. He warned those groups that an effort was being made during the last session of Congress and the organization had been perfected to lift the price support program on farm products. This organization, according to Mr. Mikell, has set up as its major goal to destroy the present farm program and has been incorporated in New York state.

The Farm Bureau must continue to be strong enough to prevent such actions by any group, as well as be in position to counsel with labor in developing farm policies. Mr. Mikell declared at both these meetings. If farm prices have to be controlled during any emergency, then wages must also be frozen, he thinks.

FAT CALF PRODUCTION

Georgia farmers who good pastures are finding fat calf production more profitable and less speculative than beef feeding. Extension specialists say there is a place for both, but add that fat calf production seems to offer the greatest opportunities to the largest number.

They take this opportunity in this Review of Progress to heartily commend the Citizens and Southern National Bank for the part it has played and is playing in our progress.

Good News For Pedestrians

THERE'S GOOD NEWS for pedestrians. Well, it sounds good, anyway.

But, like so much good-sounding news, there's always a gimmick somewhere.

The Georgia Safety Council is now sponsoring a state-wide safety campaign known as "Operation Safety."

From October 15 through November 30 special emphasis will be placed on pedestrian safety, with the Georgia Junior Chamber of Commerce spearheading this phase of the safety program.

During the year 1949, 143 pedestrians were killed and 3,575 others were injured in Georgia as a result of accidents involving pedestrians and automobiles.

W. E. Mitchell, president of the Georgia Safety Council has figured it out that the total economic losses from pedestrian accidents alone in Georgia last year amounted to \$9,795,000.

As you stand at the traffic light to cross the street you don't calculate the risk you are taking. You step from the curb on the green light and a car, also making a turn on the same green light, has the advantage over you. The driver of the car feels pretty sure that you'll stop for him, even though you have the right-of-way as provided in the Georgia Motor Vehicle Traffic Laws. The law

says: "motorist must always slow down until the pedestrian is safely across."

But you can't be sure that the driver has read the Motor Vehicle Laws and his advantage over you is overwhelming. So, to save your life or to avoid injury, you give way to the motorist . . .

But it's not right.

And there's more to it than just obeying the law . . . simple courtesy enters into it. But citizens who are essentially ladies and gentlemen ordinarily forget the rules of courtesy when they get behind the steering wheel of the family car, forgetting that they oftentimes are pedestrians, too.

And just because the law is on the side of the pedestrian when he is crossing the street correctly, it doesn't mean that you have a charm with you which you can flaunt in the face of the motorist. There is a responsibility on you to use discretion also.

A safety campaign for pedestrians is good. But it's only as good as the cooperation the pedestrian gets from and gives to the local police authorities.

To the pedestrian: Watch your step.
To the motorist: Give the pedestrian a break.

We Salute the Old Timers

WHEN OUR National Guard gathered here and shovelled off for Camp Stewart, upon receiving mobilization orders, we saw it as a close-knit organization. You and you, and you, whose husband, brother, or son was in it, saw it as made up of individuals—and they were members of your family.

With its mobilization, our National Guard was commended by top Army brass on its reaching maximum operating efficiency so swiftly.

And there's a reason for it.

Within our unit there is a firm core of 23 "ole-timers." They are men who, though different from the ordinary soldier, were interested in the Guard. They believed it to be a good thing for the national interest.

Many of these men had gone through World War II together, had seen action together, had suffered hardships together—and that made for a closer feeling.

They were with the National Guard when it was mobilized in 1940. It was for "one year" then, they were told, but it lasted through 1945. Then, when it was re-activated in 1947, these men got back in. Now they are gone again—for twenty-one months, they were told.

We take our hat off to these ole-timers. We believe the mothers, fathers, sisters and brothers of the youngsters who joined the new National Guard have more faith in their safety, knowing their welfare is being guarded by these men of experience.

Here are the ole-timers. The rank in parentheses is that which they held in 1940:

Lt. Col. Henry J. Ellis (captain); Major LaFiece D. Collins (2nd Lieut.); Major William P. Rimes (1st Lieut.); Major John D. Underwood (Sergeant); Captain James S. Kennan (sergeant); Captain Gene L. Hodges (corporal); Capt. Leland Riggs (PFC); 1st Lieut. Wilbur L. Garrick (PFC); 2nd Lieut. Ewell B. Bailey (corporal); Warrant Officer Thomas M. Forbes (private); 1st Lieut. James O. Ed-elfield (private); 2nd Lieut. Fred T. Lanier Jr. (private); 2nd Lieut. George C. Williams (private); M-Sgt. Clarence W. Brack (1st Sgt.); Sgt. IC William G. Cone (PFC); Sgt. IC Cannon Donaldson (PFC); Sgt. IC Warren G. Harper (PFC); Sgt. Albert V. Blackburn (private); Sgt. Neal B. Strange (private); Sgt. Henry B. Waters (corporal); Cpl. Obren C. Creasy (private); Cpl. Homer B. Robertson (PFC); and Cpl. John Holland (PFC)

It does our heart good to see our young folk going afar and being a credit to their home community. It's part of the reason Statesboro is the fine community it is.

That it is a grand band, and that it is a credit to the community, there has never been any doubt.

But now you can become just as much a part of the band as Don Flanders, who beats; or Jane Morris, who plays the clarinet; or Edwin Brannen, who blows the trombone . . . you'll not actually get an instrument, nor will you wear a uniform, but your membership will be an additional incentive for the members of the band—you'll be a paying member and those kids will be the playing members.

Civic clubs and organizations are signing up at at their regular meetings.

And maybe you'll not be seen, but don't let that keep you from joining the Boosters' Club. Phone Dekle Banks at 17, the Jaekel Hotel, and tell him you want a membership and he'll mail you your card when he receives your dues. Five dollars makes you an active member, \$10 makes you a donor member, and \$25 makes you a patron member.

Editor's Uneasy Chair

WE WERE GUESTS of the University of Georgia Athletic Association last Saturday when the Bulldogs and the boys from North Carolina met in Sanford Stadium and played a 0-0 football game.

We rode the Nancy Hanks to Tonnelle, where a Trailways bus met us and took us to Athens and put us out right at the football stadium.

Being pessimistic about the weather, we took a topeak—which was a mistake, for the day was as hot as a firecracker.

Whether or not you like football, a game between two great colleges in a big stadium is still an attraction big enough to give you your money's worth.

The color—crowds, the characters one sees, the trip, the bands, the cheerleaders, the stadium—all make for an afternoon to make you forget your worries.

The mayor of "Chittin' Switch," by his own admission, was present and he was loud in his support of the Bulldogs, and was stern in dealing with us citizens who were "Chittin' Switch"—for he kept shouting, "All right, all you folks from Chittin' Switch, get ather round!" He ruled completely over the section in which Dan McGill Jr., publicity director of the Bulldogs, had placed us.

It was a great game—filled with heartbreakers for supporters of the Bulldogs, and for the visitors. Passes, short by fingertips; long runs, short by shoelaces; first downs, short by half-inches. Strong

beating revved up by spectacular plays . . .

And it ended nothing to nothing! We saw Virginia Lee Floyd, Dr. and Mrs. Wally Floyd's daughter, from Agnes Scott, over for the game. We saw Ann Waters, daughter of Mr. and Mrs. Loy Waters, with a majorette with the Georgia Bulldogs band. She put on a swell performance with the other five majorettes at the half-time show. We remembered that Ann was a majorette with the Statesboro Blue Devils band two years ago.

On the bus coming home we got to know Edward Hooper, who married Jurelis Shuptrine, daughter of the late Mr. and Mrs. W. O. Shuptrine, who owned a shoe store here for years. We talked about Robert Shuptrine, who married Myrtle Alderman, daughter of Mrs. Alderman and the late Jim H. Alderman; we talked about the other Shuptrines—Harold, now in Atlanta; Marion, now in Miami; Evelyn, Mr. Hooper is connected with the Savannah Sugar Refinery, and he remembers James Bland, who at one time worked with the refinery. We talked about Statesboro, and agreed that it is the finest town in the country.

We got to know Mr. McAfee, who is with the Central Railway, and knows Alfred Dorman, Thad Morris, Walter Alfred, Grady At-taway, George Bean, and Doy Ak-kins, and many other Statesboro people, about whom we talked. We agreed that Statesboro is a fine town.

On Monday morning quarter-backing we have reached the conclusion that there is not a great difference between the Statesboro High School Blue Devil football team playing Metter, Waynesboro, Millen or some other team in our region, and Georgia or Tech, playing North Carolina or Tulane.

Thrills in high school football come just as sharp and quick as in college games. High School players handle the ball with the same dexterity. A goal in high school football counts six points just as in college football. There's the same number of players. There's the band and the drum major and the majorettes prancing around on the field at half-time.

I do not agree with Mr. Johnson that the houses today are being chopped up into too many little rooms. If they have to be chopped in order that there may be enough of them to go around, well, let them be chopped up. If mine is just a cell, let me have one that has a door. In fact, in my dream house, I think I'll take it padded.

The New Trend in Home Building

By VIRGINIA RUSSELL

The new trend in home building today seems to emphasize one large room. In a recent issue of the Atlanta Journal an Atlanta photographer, Mr. Ralph Johnson, was quoted as saying, "The house I dream about is built around one tremendous room. The room is two stories high and in gymnasium proportions. The main trouble with many houses today is that they're chopped up into so many little rooms . . ."

During a recent visit I discovered the big room in reality. A girlhood friend has moved to the country with her family, and their remodeled farm house has the big room. They do just about everything in it. The furniture consists of a dressing table, a desk, a sofa,

and a huge dining room table. Truly, it represents almost the interior of a house without walls.

"Another friend who lives in Gainesville, showed me the plans which she and her husband have drawn up for their farm house (and this gal was born and reared in Atlanta). They have bought a hundred acres out near Riverside and are planning to build right away. The plans really display the tremendous room—to be exact, it is twenty by forty feet. She intends to have built around the walls for her four children to use as rest bunks, reading bunks, etc., and, if it becomes necessary, for an overflow of company. The main floor area of the room will be devoted to "centers"; for instance, there will be a sewing "center," an eating "center," a

game "center," and several others. As for me and my husband, and our plans for a house—we were to build again—we differ with this trend toward the big room. I, for example, would have a bigger kitchen with the working center roped off so that I might cook in peace without the whole family under foot. They could just hang over the ropes and look. And there would be a separate sink where they all could wash their hands. It would be far enough away from the kitchen sink to leave me, I hope, my sink free for washing dishes, foods, etc., without wondering what was being washed off those hands into my dishwasher or onto my vegetables. (A bathroom off the kitchen would not help—they couldn't stand to leave the kitchen that long.) In the new

kitchen there would also be space enough for two or three rocking chairs and a desk. I'd still want a dining room separate, for I can envision the nightmare of disorder that would exist in one of the tremendous rooms where everything is done. Dirty dishes, scattered toys, and opened school books would give me the indignation. So give me the conventional dining room.

My plans would call for an enlarged kitchen; however, the head of the house declares that his dream home must have a bathroom at least twenty by twenty-four feet. He complains that he has to shave alone. Once he gets in the bathroom with father on his face, the entire family, he moans, finds urgent need to use the bathroom. Teeth are to be washed, faces cleaned, hair brushed, or else the group sits on the side of the tub to watch and ask questions. So our new house will have, not two tremendous rooms, but two bigger rooms, a kitchen and a bathroom.

I do not agree with Mr. Johnson that the houses today are being chopped up into too many little rooms. If they have to be chopped in order that there may be enough of them to go around, well, let them be chopped up. If mine is just a cell, let me have one that has a door. In fact, in my dream house, I think I'll take it padded.

On Monday morning quarter-backing we have reached the conclusion that there is not a great difference between the Statesboro High School Blue Devil football team playing Metter, Waynesboro, Millen or some other team in our region, and Georgia or Tech, playing North Carolina or Tulane.

Thrills in high school football come just as sharp and quick as in college games. High School players handle the ball with the same dexterity. A goal in high school football counts six points just as in college football. There's the same number of players. There's the band and the drum major and the majorettes prancing around on the field at half-time.

I do not agree with Mr. Johnson that the houses today are being chopped up into too many little rooms. If they have to be chopped in order that there may be enough of them to go around, well, let them be chopped up. If mine is just a cell, let me have one that has a door. In fact, in my dream house, I think I'll take it padded.

ALL'S FAIR

By Jane

Some of us may not realize what a gentleman in the car who wants to see you. The man in the car was elderly (78 as J. B. learned later). He was the father of the man who sought J. B. As soon as he said, "Walker," J. B. responded quickly, "No way."

A filling station by the side of the road, thousands of miles across the ocean, yet the proprietor meets a man who received him as his overnight guest in the Land of the Midnight Sun, who gave him two wonderful meals. That man was looking for a Georgia G. I. because J. B. on bidding him goodbye, added, "If you ever come to Georgia, look me up."

The elderly man from Norway was a professor of English in a University in Norway and was in America to visit his son. We live in a wonderful world.

Think of it. Three girls from Statesboro are getting into the swim. And we're just waiting to hear from others Jackie Zetterow is going along with the A. D. P. and selected by a fraternity as their sponsor for the Pandora Beauty Revue. Donell Thompson pledged Zeta Tau Alpha, both among the oldest and largest societies in the world.

One gray lady puts it this way, "It's a satisfying way of life", of course, we're hoping that the war will stop before it crystallizes into a world cataclysm. For if it so happens then we would automatically become very gray ladies.

Now for a "Once in a life time story". It occurred just across the street from me. I am beginning to believe that news follows me, like murder catches up with all detectives on a vacation. A Mr. Walker drove up at the Pure Oil Service Station now operated by J. B. Williams. A car with an out-of-state tag. A man approached J. B. and inquired, "This is Statesboro, isn't it?" J. B. said "It is." Then the man asked the way to the White-way Court. J. B. gave him the proper directions and the man, Mr. Walker, went on to inquire, "By the way, could you tell me where I could find a young man, his name is J. B. Williams?" J. B. was alerted. He probably wondered what it was this time. He batted his eyes a bit and said, "You're talking to J. B. Williams." The gentleman was amazed, incredulous. As if needing more confirmation, he said, "Do you mean that you really are J. B. Williams?", exclaiming his hand as he spoke. "Certainly," J. B. replied. Then in a

air mail letter from Leandro, Calif. from a cousin who is visiting her daughter. The card was from Mrs. Sam Lee, Wendell Burke's and Claire Franklin's mother. We pulled out our Atlas and discovered that everyone we know out West lives practically in a straight line. From the U.S. Hospital there followed in close succession, Oakland, Alameda, and San Leandro. So, before we did another thing, we sent an air mail to Cousin Pearl to visit Wright, since she is the only person in the family who can reach him right now.

There is a destiny that marks our ways—in order to escape a letter of dismissal we stop—maybe—just in time.

As ever,
JANE

Oh, about dismals—we want to thank Henry's for giving us time on his Monday's program for our interview with Ann Evans and Donald Flinders as they led off Band Loyalty Week with a wonderful radio program. And I thank Editor Coleman for practically putting the words in our mouths.

You Can Tell a Man By the Rules He Keeps

On that last beautiful day we had, it's really not surprising that young Skitter Roberts and Bud Boyd decided to ditch their hooks and take off for Sandy Creek. But they made one mistake. Got kind of hot walking, so they thumbed a ride—from Mr. Wilson, our brand-new School Superintendent! A few minutes later, both boys were back in geography class. Mr. Wilson had to tell their parents—school regulations. But he pointed out that maybe a real "talking to" was all they needed. From where I sit, I'm afraid poor Bud Boyd is in for quite a lecture. His dad, Andy, who owns the Garden Tavern, is quite a stickler for living up to the Self-Regulation Program sponsored by the Brewing Industry. Under this voluntary program, retailers selling beer cooperate in keeping their places of business clean, bright, and orderly. Andy follows this Program to the letter. "Once you make 'em, don't break 'em," is his motto about rules and regulations.

Who Runs America?

the Congress? the President?

OR YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, the Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

General Federation of Women's Clubs	American Legion
American Farm Bureau Federation	National Association of Small Business Men
National Grange	United States Chamber of Commerce
Veterans of Foreign Wars	National Association of Retail Grocers
National Conference of Catholic Charities	National Retail Dry Goods Association
American Protestant Hospital Association	American Bar Association

Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the proudest security of a free and self-reliant people!

Others included Mr. and Mrs. Dick Bowman of Fort Valley, Miss Dorothy Durden of Atlanta. The groom is a nephew of Mrs. Durden. Mrs. Marcus Toole, cousin of the groom, was a bridesmaid. Her bouquet was of golden rapture roses.

ATTEND NUPTIAL PARTIES

Mrs. Loron Durden attended a tea given by Mrs. John Stevens in Savannah during the series of parties given in the bride's honor and was herself one of the hostesses at a lovely luncheon at the Pink House on Saturday prior to the wedding. Serving as hostesses with Mrs. Durden were Mrs. J. Edwin O'Neal, Mrs. Richard Bowman, of Fort Valley, and Mrs. Marcus Toole. The guests were members of the family and out-of-town guests. The table was centered with a silver bowl filled with yellow rosebuds. The favors were miniature bridesmaids dressed in satin and wearing yellow hats. In their hands they held place cards. A miniature bride in white satin marked the bride's place.

Time to get those summer kinks out of your Buick!

There's a change of the year for your Buick, too, stalwart as it is! Hot summer driving has taken its toll—in played-out lubricants, spark timing that may have slipped off a notch or two over the many miles, a carburetor that would probably give you better mileage and snap if it were properly adjusted now for fall driving.

Point is—your Buick will feel a lot friskier in the trying days to come if you let your Buick dealer get those summer kinks out of its system now! Just drive in—say you want (1) a fall tune-up and (2) a regular Lubricare—and see how much rewarded you are, for a small fee!

Do it this week, will you? Before the rush, you can be served more promptly.

THE VOLUNTARY WAY IS THE AMERICAN WAY!

Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor. Today in America—70 million people are protected by Voluntary Health Insurance! Throughout the Nation, families are insuring themselves against the major costs of illness—at reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. For information, ask your doctor—or your insurance man.

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that
