H.V. Franklin Jr.

His ratproof cement block barn has a false wire floor and a drier made of three tobacco barn heating units. Fans force hot air from these units up through corn piled four feet deep on the false floor.

In 1949, when he entered the Institutional On-Farm training class at Register High School taught by L. G. Goddard, H. V. set out on a plan to steadily improve his yields over a five-year period. That year he averaged slightly over 50 bushels on 120 acres. Last summer's long, dry spell just when corn was in the "making" stage kept him from equalling that yield in 1950. He has gathered as high as 80 bushels from an acre.

Hogs and cattle harvest any corn that H. V. "waters" in the fields. Other crops on the Franklin farm include 30 acres cotton, 30 acres peanuts and four acres tobacco.

A self-styled bachelor who lives with his widowed mother; he is president of the Register Farm Bureau and she heads the local chapter of Associated Farm Bureau Women.

"When I was linking up with my combine last summer," H. V. relates, "she kept protesting that it wasn't going to work and I oughtn't waste so much time piddling with it."

Now that it works, Mrs. Franklin seems even more pleased than her son.—Atlanta Journal-Constitution.

Those devoted men absorbed in putting a light and magical dress on the stately tree in the community square are helping create another Christmas. The hurrying people on the street are scouting for gifts which they can offer to those whom they love. This is Christmas in the making, like it's being made in our town today. Santa Claus and his elfin crew are a living part of it, too. Though they go unscen and unheard, they are looking in and out of every window in town this week -- just because we would have it so. Fantasy, devotion, love and generosity, this the Christmas we fashion for ourselves. May it be a happy one, for you.

Rushing Is Named Director On Board Cotton Producers

Delmas Rushing was named a member of the state board of directors for the Cotton Producers Association last week, D. W. Brooks, manager of the association, announced in Atlanta after the votes were counted.

Mr. Rushing represents 13 counties in this immediate area on the board, replacing W. C. Hodges. Mr. Hodges has served on the board for a long time, but ill health prevented his running this year.

An active "silent" campaign was conducted for Mr. Rushing, since there were several being nominated from the district. Mr. Rushing was the only candidate from Bulloch county.

planning to use them after December 20. However, Mr. Stephens could not tell just which day the carols from Bulloch county would be used. The WSB program comes on the air at 5:30 a. m. and runs until 6:30 a. m.

Mr. Rushing is president of the local Producers Cooperative Association. The Cotton Producers Association is something of a parent organization of the local cooperatives, even though it has entered the field of other cooperative activities also.
