2 Farmers Added to Ton Per Acre Club

Two Bulloch county farmers were today added to the list of those becoming charter members of the Ton Per Acre Peanut Club in Georgia.

W. A. Groover of Ivanhoe and Henry S. Blitch of West Side, are local farmers being honored today at Tifton by the peanut industry, the extension service and experiment station.

The meeting started today at 10:30 with a tour of the Coastal Plain Experiment Station farm and a luncheon at 12 o'clock. The honor keys and certificates were awarded at the luncheon.

The corn growers in Georgia began such an organization several years ago, but the peanut growers are today perfecting their organization.

Mr. Groover has long been known as one of the outstanding peanut growers in this section of the state, averaging about a ton per acre every year. He started harvesting peanuts in 1919, when the first peanuts for harvest were planted in the state. His method of producing high yields is simple, he thinks. His formula: Put down lots of seed, fertilize well, keep clean, and harvest when peanuts are ready to dig. He had 46 acres last year and averaged about a ton per acre, but the demonstration plot on which the record was made averaged about 2,400 pounds per acre.

Mr. Groover, right off, gives two of his sons, Francis and Wilson, credit for the good yields in 1950. They had the peanut crop together. Mr. Groover asked that their names be included on the honored list at Tifton.

Mr. Blitch also has a high average yield on the crop as a whole, but the seven acres producing the 1950 record were peanuts he was working with the experiment station and some he knew the exact data on. The station was making a field test of some of their peanuts and wanted the seed certified. He grew about a ton per acre on the plot and procured some good seed for his own use in 1951.

W. A. Groover Is Ga. Peanut Champ

W. A. Groover of the Ivanhoe community, was declared state peanut champion at the ten-percentage peanut meeting in Tifton last week.

Mr. Groover started growing peanuts in 1919 and has continued growing them ever since, even when he was offered as low as one cent per pound for his crop. Mr. Groover, as do most of the peanut growers of his community, grows the large jumbo type of peanut. His 1950 crop was the New Holland type of Virginia runner. He does plant some bunch peanuts at times and plans to use some large bunch peanuts in his 1951 crop.

Five acres, included in the demonstration in 1950, produced some 2,400 pounds per acre but he actually grew more than 92,000 pounds of peanuts on 45 acres.

Mr. Groover gives his two sons, Francis and Wilson, a large part of the credit for last year's crop since both assisted in its culture. Francis has been with him since the first year and they have maintained about a ton-per-acre average through that period.

Henry S. Blitch was one of 31 peanut growers in the state who also honored Tifton for producing a ton or more of peanuts per acre in 1950. The seven acres Mr. Blitch had in his demonstration plot produced around 2,200 pounds of peanuts per acre. His entire crop averaged almost a ton per acre. Mr. Blitch was using a peanut which has not as yet been given a name by the experiment station. It will probably be named this year, if all field tests prove satisfactory.

Their son, Jimmy, a student at the University of Georgia, does not appear in the picture. (Cut courtesy The Atlanta Journal-The Atlanta Constitution).

Nearly 50 citizens of Statesboro and Bulloch county, making up the new Bloodbank Committee of Bulloch county, gathered at the Forest Heights Country Club last Friday night to plan for the January 24-25 visit of the Bloodmobile.

Ike Minkovitz, chairman of the county committee, commended the returning committee members on an excellent work they had done during 1949-50.

He explained that the planning committee for the program felt that the responsibilities of the program committee should be rotated. He said the county's quotas had all been met except one. He commended the organizations in the county that had contributed to the success of the program and the individuals who had helped with the recruitment of donors.

Under the plan for securing blood for the collection of whole blood, fifteen organizations furnished two committee members and assumed the responsibility of securing prospective donors to make up the county's quota of 300 pints of blood.

The Bloodmobile will be at the Community Center in Memorial Park on Wednesday and Thursday, January 24-25. The collection schedule is as follows: Wednesday morning, 9:30 to 1

Say, "Yes, We'll Give Gladly"

THE GREAT need for whole blood and blood plasma is increasing faster than quotas can be fixed.

Bulloch county's Blood Program Committee got the word near the first of the year that it's quota for the January 24-25 visit of the bloodmobile was set at 250 pints.

Now comes the word that the need for live-saving blood and plasma is becoming more and more desperate.

And so it is that Bulloch county must rally around this great need and contribute 300 pints.

The usual needs for whole blood in our hospital here in Statesboro and the other hospitals in the Savannah region have been, and are, being met.

But the need for blood plasma has multiplied beyond imagination. The life-saving plasma, and other derivatives, must be made available to treat casualties in the forlorn combat areas and in other places where the use of whole blood is impractical. In addition, they serve as a war reserve stockpile of vital materials. Unlike whole blood, which must be used within 21 days of the time it is drawn, dried plasma is stable and, with proper care, can be stored and used for several years.

Bulloch county, under the direction of Ike Minkovitz, has responded wonderfully to past calls for blood donors. It is to the credit of the people of the communities that make up the counties, and to their leaders, that this is true.

Mr. Minkovitz, with understanding, believes that the community chairman and vice chairman who have been bearing the burden of the donor recruiting for the past year should be relieved. And rightly so. They have done a great good.

And so it is that a group of new chairman and vice chairman met at the Forest Heights Country Club last Friday night

with the planning committee to draw up the campaign for the January 24-25 visit of the Bloodmobile.

In naming the new committee chairman and vice chairman, Mr. Minkovitz paid tribute to the retiring committees for their energies, time and interest.

Each committee has been assigned an area and a roster from which to work, and a quota of donors to be obtained for this visit. The Negro citizens have accepted the responsibility of providing a large portion of the quota.

Approximately five days before the visit of the Bloodmobile, a member of the local Red Cross chapter will contact each committee chairman or vice chairman as a reminder.

Nearly every citizen in Bulloch county has a relative, a friend, a loved-one, who has benefited directly from this blood program.

Newspapers tell of the life-giving blood plasma administered in combat areas in Korea. Veterans of World War II can tell you of scores of cases where it saved the life of a son of some mother and father—maybe a veteran who lives here in Bulloch county.

There can be no glossing over the importance of this matter of blood donation. You give it free. The veteran gives it free. Your neighbor gives it free. The stranger gives it free.

You get it free, when you have to have it. The veteran gets it free. Your neighbor gets it free. The stranger gets it free.

It's life-giving and life-saving. Maybe to give a pint of your blood is to save the life of someone who, perhaps, gave a pint to save your life.

When you are asked to be a donor on January 24 or 25, say, "Yes, I'll do gladly, and with pride!"

They That Wait Upon The Lord...

By VIRGINIA RUSSELL

THE NEWSPAPER is full of it every day—the communists, the war in Korea, the disarming of Russians in the U. N., the President asking for billions for defense, whether or not to draft 18-year-olds, the Congress quarreling over the right course to pursue. And the men talk about the work, and their talk is full of it.

All of this stresses him, stir, and talk fairly makes a woman dizzy-headed because too long her deep thinking has included making out the week's menus, listing the necessary groceries, worrying about bills, and being suddenly and deeply concerned about the latest appearance of a character quirk in one of the children.

She stands at the kitchen sink and wonders what it will be like to live in the woods, cooking over an open fire, etc. just in case she should be run out of her house by a conquering army. She would like to believe that she would be happy without the luxuries of her modern home. The thought of red bugs makes her itch and she scratches and keeps on thinking: Of course, she could be happy with out the conveniences she's become accustomed to—happier in the woods. Then she thinks of her oldest son in uniform. Then she goes back to the family without a home and thinks of one of the younger children getting sick. She could send for a doctor but what good could be done without penicillin or other necessary drugs to treat the child? Then she knows that it is time to quit thinking or else change the channel of her thinking.

She calculates, of course, that some of the intellectuals would probably say she was anesthetizing herself, but she knows better. Some cynics would say she's simple minded, but she knows better. She knows that there's no use to try to work out tomorrow after she's done her best with today, she knows because she has faith that God still has a hand in reigning over her affairs, just as He had last year and the year before. She knows, too, that His justice is perfect and if His children need to be punished that their spirits will be more beautiful for their sufferings.

So she turns to Isaiah 40 and reads and the last verses say, "They that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run, and not be weary; and they shall walk, and not faint."

She believes anew that she, along with millions of other women, can take the tomorrow with whatever changes are wrought because, thank God, she has her faith, and she'll go right on trying to make today the best day she can make it, leaving tomorrow in His hands.

And of course we have many good teachers here in Statesboro and Bulloch county. We're fortunate. But other sections of the state are critically in need of improvement.

The Minimum Foundation Program is designed to meet these needs.

In 1948 the total basic Foundation Program was figured at \$73,979,720. The total educational budget for that year was \$96,067, 173.

On August 1, 1950, the total basic Foundation Program was figured at \$82,752,380. The total educational budget rose to \$110,819,051.

In 1947-1948 the total enrollment in Georgia schools was 738,427, with 22,481 teachers.

In 1949-1950 total enrollment jumped 28,266 to 766,683, with 24,049 teachers.

For 1953-1954 the estimated enrollment will be 864,085, an increase of 97,402 in three years.

There is no way to estimate the future needs in building, equipment, etc.

Right now the Minimum Foundation Program for Education is just a law passed in 1949. It has not been financed.

Our legislature is now in session. We must pay more taxes if we are to provide for this program for the future of our youth.

To us the provision for this program is the Number One problem for our General Assembly's present session.

We know our own representatives and our senator are for it. We are fortunate that our senator is chairman of the University System Committee in the Senate.

He will have a great deal of influence. Our people, our representatives, must come to know that it's better business to implement this great program than it is to let it die, with the resulting deterioration and final breakdown of our schools.

Editor's Uneasy Chair

HAIRCUT 75c SHAVE 50c

In Dedrick Waters' barber shop last week customers were rocked back on their heels to see the above prices sopped on the big mirrors behind the barber chairs.

Customers were remembering the days of "shave and a haircut, two bits." But they could not recall how much the haircut was, or how much the shave was. They just recollect the two-bit combination.

Bob Pound was there with his two young sons. It cost him \$2.25. Dedrick asked if he should give one of the kids a tonic. "O. K.," allowed Bob, "but you'll have to hold him as security until I can raise the money. But I know that after half an hour you'll be glad to send him home with a cancellation of the obligation."

Dedrick was telling of a man who came in with seven younguns who had their hair cut. \$6.00 it cost us, he said. We bald-headed citizens should get together and promote a sliding scale for our head trimming.

PEOPLE HAVE A HARD TIME. A. U. P. report tells of a court in Madison, Wis., which granted Mrs. Agnes Wilkins, 67, a divorce from her husband, Amos. She complained that Wilkins, a native of Oklahoma, wanted her to "use oleomargarine instead of butter," and Judge Roy Proctor agreed to her charges of "cruel and inhuman treatment."

Then we got the bad news. We had been told by all those in the know that the big freeze had been a boon to farmers. Of course, it killed all the small grain, the blue lupine, the truck, the vegetable gardens, the camellias, the azaleas.

But the cryers of despair held out the bright hope that the boll weevils, the mosquitoes, the weeds had been killed too.

Then we got the bad news. We had been told by all those in the know that the big freeze had been a boon to farmers. Of course, it killed all the small grain, the blue lupine, the truck, the vegetable gardens, the camellias, the azaleas.

The U. P. report tells of Edward Schurick, who asked for the annulment of his marriage because his wife, whose home is in Tuscaloosa, Ala., called him a "Damn Yankee" (or is it Dampyankee?). He told the State Supreme Court that they were married November 3, 1943, while he was in military service and that after his discharge in 1946 he set up a home in Delmar, near Albany, N. Y. But he testified his wife didn't like the North and kept going back home to Tuscaloosa, Ala. She also refused to have children, he said. The court granted the annulment.

The mosquitoes are not dead. They have already sent out their scout squadrons. W. W. Mann, who lives near Brooklet, reports that they are better organized than last year.

The boll weevil is just playing "possum."

And the weeds are already thriving in our back yard. And we're plumb sick.

We had visualized a spring of real enjoyment in our yard. . . . just putting about, caring for our bulbs, tending our lawn, and watching our shrubs unfold to the fullness of their spring beauty.

And now come the weeds. I'll be the same old story. Fighting hours of daylight leisure for to out-manuever the sneaking infiltration of the weeds among our flowers.

We wonder if the menfolk in Statesboro who are interested in flowers and shrubs would like to get together in some sort of organization—like the women folk's garden clubs—so we could cry on each other's shoulders over it all. There's consolation in seeing others in the same misery which surrounds you. We could meet every once in a while over tea and cookies and weep and gnash our teeth—and maybe even plan strategy to fight the crab grass, the red spider, the black root, the black spot.

And maybe we could even have our own flower show. Put on displays of the finest specimen of dandelion, the most artistic arrangement of plantings.

We can think of many who might join. There's Byrd Daniels, Jim Whiteside, Fred Fletcher, James Bland, Fred Hodges, Fred Kennedy, Everett Williams.

C. I. Wynn and B. F. Deal will be the bloodmobile chairmen at Warnock, Ben H. Smith, the new president, stated Wednesday night.

In outlining Warnock's 1951 plans, Mr. Smith stated a committee of seven members had recommended that they meet each month, but that suggests he had only in January, July and October. The other meetings would be purely business meetings. Mr. Smith asked M. M. Tuckey, Horace Bink, Jesse N. Atkins and W. P. Anderson to serve on the Warnock telephone committee and asked that they contact every family in the community so they could have complete coverage. The more families asking for phones, the less the deposit and service charge will be, Mr. Smith explained. He asked that the next meeting be held at 7:30 p. m.

An eligible bachelor has installed himself in an apartment next door—the one recently occupied by the Firestone Cromataries who have moved into their attractive home in the Jones Lane subdivision. The bachelor has redecorated, and floored it up and we're wondering—

A card from Mrs. Morrison of Waycross—remember Mr. Morrison, a former superintendent of City Schools, brings me up to date with her family. On a card she tells us they have bought a home in Waycross. That her son, Frank, has married a lovely girl in Tifton. She is glad that School Supervisor's jobs are safe. She asks about our granddaughter (Deborah is walking and TALKING). Is Ernest Jr. still in Hapeville? No, he is stationed at A. A. B. Alexandria, La. So if I can get a paper from the Editor and send it to her, she'll catch up with us. She asks about her friends here. Frances keeps her friends in a file. She re-read a Christmas card we sent her a year ago and this year we get an answer. And we were happy to hear from her.

Farm Bureau

Homer Melton, Ogeechee F.B. Head, Outlines Chapter's Activities for 1951

Plans for 1951 were outlined to the Ogeechee Farm Bureau Tuesday night by the new president, Homer Melton.

Mr. Melton hopes to make this a very active year for the Ogeechee community and state that the 12 committees would be mimeographed and handed out to the group at the next meeting.

Members who had signed up for telephones were checked and plans made to see those who had not signed up the next week. Mr. Melton pointed out that every family in Bulloch county wanting a phone could have it if they would ask for it. Committees are working in each community, and those so desiring may sign up in the county agent's office.

It is estimated that charges for phone service will run from about \$2.50 to \$4.00 per month, depending largely on how many ask for phones. The more desiring phones, the less will be the overhead for maintenance will be per family. This will also be a factor in determining just what the total deposit will have to be. Right now the phone committee is collecting \$10 per subscriber, with the expectation of asking for \$15 more when the application is submitted to R. E. A.

THE BAND STAND

By ANN EVANS

The members of the band—all 56 of us—are in a dither, getting ready for our first mid-winter concert next Thursday.

It's going to be fun playing for the citizens of Statesboro in this concert. We have several novelty numbers which are honys. There will be one called "Cheatin'", which is based on the poem: "Under the spreading chestnut tree The village smitty sanded; The smitty a mighty man he, With large and sinewy hands; And the muscles of his brawny arms Are strong as iron bands."

Remember that poem? "The Village Blacksmith" by Longfellow. Dr. Fielding Russell, father of trombonist William Russell, will be the narrator for the novelty.

Many of us will get a chance to play solo passages in several of the numbers. It makes us feel just like we are playing "solo," just like Don Flinders on the marimba, and Carvey Donaldson on the bartitone horn.

We are going to charge a small admission for this concert. It is the first time that we have done that. The members of the band all have tickets. You can get them from any one of us. (See front page story for names of band members.)

Our band director, Mr. McLendon, has been selected as a judge for the Sixth District Music Festival, to be held in Milledgeville, Eatons, Dublin and other cities will participate. Don't forget—Mid-Winter Concert—High School auditorium, Thursday evening, January 23! Get your ticket now.

T.C. Frosh Team Loses Key Players

Loss of key players to the armed services has resulted in dismantling of the freshman basketball squad at Georgia Teachers College, Athletic Director J. B. Scarse Jr. disclosed today.

Though the game scheduled here with Georgia Southwestern College on Friday will be played, all other freshman contests, Scarse said, have been canceled.

Enlistments in the Air Force and Navy, designed to "beat the Army draft," reached a decisive stage yesterday when Billy Oswald, star center of Jacksonville, Fla., and Bob Belton, regular forward of Datus, Fla., left to join the Navy.

The college has only 12 players and needs all to complete its varsity schedule, Scarse declared. He said that the varsity, winner of 11 games and loser only once, has had to give up two valuable reserves since Christmas but likely can finish without further departures.

Oswald and Belton were offered draft deferments but under the present Selective Service law could have entered only if the Army. Oswald was thought to have unusual possibilities for development. He shot 22 points in pacing a significant 75-83 victory over Jacksonville Junior College in Jacksonville Monday.

This was the first year that the college had had a freshman team. It was harassed even before the season opened by the mobilization of the National Guard here and resultant demands on draft boards, which took away prospective talent.

The varsity will return to action Monday.

Forestry News

By J. W. ROBERTS, Ranger

Bulloch county goes into 1951 with something new in the way of reminders about keeping fires away from our valuable woodlands. The "something new" factors are the Keep Georgia Green signs.

These signs were erected in December on the Portal and Pembroke roads. By this time, nearly all Bulloch county citizens have seen the signs, but not all realize the importance of the message they carry.

Bulloch county has 284,083 acres of woodlands. Of this area only 250 acres already have been destroyed by fire in the current forest fire season, which opened last fall.

Destruction of those woodlands means loss not only for the men who own them but for each individual citizen of Bulloch county as well. The loss to you non-landowners comes in the form of badly-wooded lands and in the weakening of the general agricultural economy of your community. Washed out and badly gullied land, in other words, won't produce good crops. And when Bulloch county can't produce good crops, the ceremony in the presence of a few relatives and friends.

Mr. and Mrs. Grooms will make their home in Savannah.

The Rev. James Wagner, pastor of the church, performed the ceremony in the presence of a few close friends.

The groom is a graduate of the Brooklet High School and is now in the U. S. Navy, aboard the U. S. S. Rushmore.

At present Mr. and Mrs. Ginn are making their home in Norfolk, Brooklet High School.
