Richard Tucker was charged with being "drunk in a car on the streets," found guilty, fined \$25, and had his license "picked up" for speeding at 50 m.p.h. on South Main street.

One Great Step In Our Progress

IT'S an unusual name. But what goes on there is not funny—it's serious business. Japalyinka is the name.

And fine Angus cattle is the business. A. P. (Bish) Murphy and Mrs. J. E. Rushing have developed some of the finest Angus cattle in this section on Japalyinka's 225 acres of pasture.

The farm is located on U. S. 301 between Statesboro and the airport.

Starting with only seven heifers they bought at the 1948 Atlanta stock show and sale, these Bulloch countians have added to their herd until today it includes 115 Aberdeen - Angus of championship stock.

The herd bulls, "Ethian of Dwight" and "Wideman of Bulloch," have attracted widespread attention and attractive offers for each of these cattle have been turned down. And their offspring have shown in Atlanta and Macon shows.

The first time a Japalyinka steer was entered in the popular Statesboro Fat Stock Show he was declared the reserve champion.

Mr. Murphy and Mrs. Rushing run Japalyinka like any other business. Two hundred and twenty-five acres of the 300-acre farm are in pastures. A hundred acres are in Coastal Bermuda and Dixie Crimson. For winter and early spring grazing there are 65 acres of fescue and ladino clover. For hot and dry weather there are 12 acres of sericea lespedeza and 30 acres of kudzu. Two farm ponds as-

sure a year-round water supply. There is a 10-acre area of Pensacola Bahia grass used from time to time to give the other areas an opportunity to come back after heavy grazing.

The farm's equipment is designed to do just the job needed. A regular blade mowing machine is used for cutting sericea and grass hay; a pick-up baler for getting it ready for the barn; a rotary mower is used on the areas where the hay is not to be saved. There's a combine for harvesting seed, a fertilizer spreader that is used liberally, a mechanical post-hole digger. And tractors to furnish the power.

Mr. Murphy is a perfectionist—he does everything on Japalyinka as if it must meet the standards prescribed by any experienced station or cattle breeder.

Mrs. Rushing plays an important part in the farm's operation. "We have the best Angus cattle we could find," she says.

Japalyinka is the story of many of the farms in Bulloch county which are turning more and more to cattle and the pastures to care for them.

Farmers in this section know that they can keep pastures for cattle the year round by careful planning.

It's been one of the great steps in the progress of our county—the turning to livestock.

And it's to their credit.

90-degree weather we've been having this summer.

And there's more unusual weather in the offing, if we are to believe a weather prophet who lives in Vidalia.

A Negro man there, with a reputation of forecasting the weather with some degree of accuracy, says dog days have begun. He says all signs point to 40 hot days—meaning 40 days of miserable weather, and that of the 40 there'll be at least 28 days during which we'll be getting rain.

We'll believe him—he's as accurate as the man on the street who looks into the sky and allows, "Looks like rain."

For Progress

WE CONGRATULATE Ray Howard on the appearance of Belk's store on North Main street.

The new store includes the remodeling of the old Brady Department Store and the old United store. New fixtures, new lighting make the store attractive.

The new store is worthy of North Main street and Statesboro.

And it is another step in the progress of Statesboro and Bulloch county.

Are You a 'Tailgater'?

ARE YOU A TAILGATER? If you are, you're a menace on the highways—and you should stop tailgating right now. If you don't chances are you may be the cause of an accident that could result in serious injury or death to yourself or fellow motorists.

What is tailgating? It's driving "too close for comfort" behind another vehicle on the road. Professional drivers, cooperating in a national share-the-road campaign, are signing pledges that they will help eliminate tailgating and improve passing practices on the highways.

And what applies to drivers of big, heavy vehicles can, in a large measure, apply to individual drivers of smaller private cars, in the opinion of Director Garland T. Byrd, of the Georgia Citizens Council, sponsor of the state-wide "Operation Safety" program.

"If every Georgia motorist would THINK safety, traffic accidents in our state would show a marked decline," Mr. Byrd declared. "We are making progress in highway safety, but there are still far too many traffic accidents. You have to practice safety; it doesn't just come to you."

One of the best safety rules to practice is to maintain sufficient distance between your vehicle and the one ahead. Just keep telling yourself over and over again: "I'm going to stop tailgating."

The Dalton Citizen.

Cigarettes, Pipes, Apples, Budgets, And Snake Plants

By VIRGINIA RUSSELL

AT LAST we have decided on a sure for the tobacco jar surrounded by a pipe holder and a number of pipes which have been gathered during these many months. It is to be planted with a pretty snake plant—and surely it will no longer be a reminder of its early futile life.

It happened like this. A family council was held at our house when the head of the house brought up the momentous question of cutting the budget.

That is a monthly, but unanswerable question. As usual, we went over every item of expense and decided that the only thing we could cut was the head of the house's cigarettes. Finally, he valiantly admitted that the smoking was a wasteful and foolish habit that he could throw over. So for one week he did without the cigarettes. By this time the rest of us were exhausted with having to live with so cross a body that he all felt genuine relief when he announced that he had decided that he'd smoke a pipe.

Pipe smoking, as you well know, he smoothly informed us, is much less expensive than a cigarette. There's no waste in the thing, the tobacco is cheaper, and then, too, the pipe is more trouble and can't be lit up so frequently or easily as a cigarette. So a pipe was bought, and with it a huge can of tobacco. (It wouldn't have been necessary to buy a pipe had it not been that this man had thrown pipes overseas for good a couple of years before, and I had given away a pretty good collection of the things.)

In a couple of days a new pipe made its appearance at the house. Without even asking, we were told that it came from Philadelphia, the kind of tobacco he was trying. Soon after this I began missing apples out of the kitchen—a special apple, maybe, that had been saved to help make a fruit salad. A little research turned up the apple in the can of tobacco.

One day we stopped in at the boss's office. We were not spying, mind you, but we couldn't help in explanation we were told that pipe smokers don't want to smoke the same pipe all the time—they have to have changes.

A few days later the mail man brought a package to our house. When the owner opened up the package, he explained that it was such a good buy—six pipes, some that sold for as high as five dollars—all selling for only \$10.98. A bargain like that just couldn't be passed up, you know. Of course, pipes like that are a nice place for pipes is a stand.

For two weeks we noticed great contentment in our man. He was even singing under his breath. "Give a man a horse he can ride around. If a man can't have a horse to ride, surely he can smoke a pipe."

The first of the month came and along with it came the bills. There was no called meeting of the family that month because of the pipes, but, unfortunately, a magazine came along with the bills, a magazine carrying an article on smoking. I read something like this—"A cigarette smoker chokes off ten years of his life, but pipe smokers chop off fifteen. The cigarette smoker can extend his life by smoking through a filter. The pipes were abandoned, and cigarettes and a filter were purchased. After some two or so days the filter followed the pipes into discard.

When we discuss the budget nowadays, we don't dare bring up the matter of cutting out cigarettes—it's too expensive.

BARBER SHOP RUMOR—Alfred Dorman and Bill Boyen are "going to run for mayor of Statesboro." That's the word that's being spread in one of our local barber shops.

CONFEDERATE FLAGS are a-lying. There may be something to the advice—"hold onto your Confederate money, boys," the South's gonna rise again.

DEDRICK WATERS got tired of things getting so hot in his barber shop. He put in air conditioning. But what about us boys with no little hair on our heads that we're subject to sudden changes in the temperature? Do we get a hat to wear while getting our hair trimmed about the ears?

"BUSINESS AS USUAL" allows Wallace Cobb at the Bulloch County Bank while all the remaining is going on.

HENRY LANIER wishes people would make a trip with him some day. He's got a truck full of garbage and trash. It would be a revelation in how not to put out garbage and trash," he says.

BEEN TO SINGING SCHOOL YET? It's do-re-mi-fa-so-la-te-de at the Calvary Baptist Church this week and next week. Otis Hollingsworth, Bernard Banks, W. A. Key,

and Ray McMichael, are in charge of the school which brings one of the best singing schools for ten days. It's free, it's fun. Night, 8 to 10 o'clock. Go and join in—sing long and loud.

Ayers, to be and appear at my office within the time allowed by law, and show cause, if any they can, why permanent letters of administration should not be granted to Mrs. Myrtle D. Roach, having made application for twelve months' support out of the estate of Mrs. Moore. Every bed in the home had a hand-crocheted spread, each lovelier than the others.

Really her handwork is decidedly upper bracket. Mrs. Moore had made 16 spreads. In their bedroom was a cheval mirror. A rocker, comfortable and gracefully styled, was a wedding gift to the late Mr. and Mrs. Sam Moore. And close by was a child's rocker in perfect condition, which I'm sure, Mrs. Moore would appreciate. I'm sure, Mrs. Moore would appreciate. I'm sure, Mrs. Moore would appreciate.

Throughout the home there is beauty. Beauty that is lived with. We were delighted to see a rack filled with dog-eared magazines. There was a real live dog. We wouldn't be surprised if the dog strolls into the bedroom where there were two wonderful Chinese rugs in blue and rose. Then came the opening of the cedar chest. Dinner clothes, banquet cloths in the finest linen, embroidered in exquisite designs by the Chinese. These and so many of the lovely things we saw were gifts from Sadie Maud, but others had been bought and collected in Texas, and we soon found that our hostess Moore is taking up gardening as his hobby, and roses and zinnias were blooming there to prove that he is making headway.

Bulloch county forests contain raw materials which can help produce plastics, explosives, chemicals, alcohol, paint, fertilizer, livestock foods, and hundreds of other items.

Despite that fact, however, many persons in this area who will be ultimate consumers of these products, have no idea of the products they use originated in a forest.

Even woodlot owners, in many cases, are equally uninformed. To acquaint citizens here with the many uses to which forest products may be put, the Bulloch County Forestry Unit now has available literature and pamphlets issued by the Georgia Forestry Commission, U. S. Forest Service, and wood-using organizations and firms.

The unit also will make available, through the Georgia Forestry Commission, 16 millimeter films based on the forest utilization theme. One of these, "Trees for Tomorrow," shows both early American and modern utilization for tomorrow. Another, "Savanne Pine," is a documentary story of the many uses to which forest products may be put.

"I Bin Thinkin"

By LEHMAN FRANKLIN

We noticed that a majority of the Senators have decided to forego the long summer layoff and keep the Senatorial protocol to the grindstone. This is as commendable as a plump citizen refusing a third helping of dessert, because Washington, D. C., has never been noted for summer comfort. In fact, some foreign countries give service men "tropic pay" while stationed on the banks of the Potomac. We know the Senator has fences to build and repair in their home balwicks... but we believe they'll be doing more good for more people by staying on the job. It's downright encouraging.

We congratulate Avant Edensfield of Siltson upon being elected a vice president of the Future Farmers of Georgia recently. Avant is president of the Siltson senior class and F.F.A. chapter, and captain of the basketball and baseball teams.

"Goes To Bat For Georgia Farmers And Merchants"

Farmers Urged To Put Cotton In Government Loan

More than 250 Bulloch county cotton growers were urged to put their cotton in government loan this fall at a mass meeting here Monday night.

Farmers Urged To Put Cotton In Government Loan

The loan rate for 1951 is only slightly less than the actual spots will bring on the market, giving growers everything to gain and nothing to lose by putting cotton in the loan this year.

C. M. Cowart, secretary of the Bulloch County Farm Bureau, presided at the meeting on Monday.

He presented the report from a cotton-belt-wide meeting at New Orleans last week, and from the state-wide meeting held in Macon last Thursday. It was pointed out that the effort to keep cotton off the market this year was not a local idea but was being pushed all over the cotton belt. All the cotton growing states are holding county and community meetings at the present time to urge cotton in the loan and encouraging every cotton farmer in the county to do the same. They also asked that the support price on cotton be raised to 40 cents immediately, pointing out that the secretary of agriculture would not be able to do the same. Protests to OPS Administrator

Merchants of Statesboro met on Monday in protest to the OPS order setting up a sales tax bracket for Georgia merchants. (See editorial on page 2.)

On Wednesday of this week Congressman Preston advised his weight to the protest. In a letter to Price Administrator Michael V. DiSalle in Washington, Preston wrote:

"Your recent OPS order issued by the Atlanta regional office setting up a sales tax bracket system for Georgia merchants has met with violent opposition from merchants all over Georgia.

"The OPS program was being well received in Georgia and was the complete cooperation of 95 percent of the merchants. The members of the Georgia delegation had received few, if any, complaints about the administration of the program until this unwarranted order was issued and now your program is in jeopardy. To speak very frankly about it, I must say that under no interpretation of the law do you have the authority to dictate to the State of Georgia how it should collect its sales tax. The order issued by Mr. Patterson (regional director) has not only offended every retail merchant in Georgia, but it constitutes an affront to the Georgia authorities.

"As one who has supported OPS legislation, I strongly recommend that you take immediate steps to have this order rescinded. The several states have already chafed under federal regulations but this recent group that if this crop plan will be heard before me, at by believe that unless this order is rescinded you will encounter serious difficulty with your program in Georgia.

"I am sure you will take prompt action to rescind this order, I am.

Meanwhile, Georgia merchants were assured that they won't be prosecuted under a federal ruling on sales tax methods before next week.

The OPS contends that any application of tax on articles priced under 17 cents amounts to hidden price boosting and therefore is an annual kick-off on membership. The OPS demands that all collections be made on the basis of the nearest half-cent actually due on the basis of three percent of the purchase price. Thus, the second penny tax could not be collected until the price had reached 50 cents when the tax due would be one and one-half cents. And on up the scale.

4-H Youth Off to Council Meeting

Around 1200 Bulloch county 4-H Club boys and girls will be represented at the state 4-H Club council meeting in Milledgeville next week by Clarence Miller of Statesboro, who is serving on the board of the annual kick-off on membership. The OPS demands that all collections be made on the basis of the nearest half-cent actually due on the basis of three percent of the purchase price. Thus, the second penny tax could not be collected until the price had reached 50 cents when the tax due would be one and one-half cents. And on up the scale.

Jack Averitt Is Rotary Speaker

Jack Averitt, north from the University of North Carolina, where he is working on his doctorate's degree, was the guest speaker at the regular Monday meeting of the Statesboro Rotary Club. He was presented by Alfred Dorman serving in the absence of President John Mooney.

Mr. Averitt told the "story behind the story of tobacco."

He began the story with the history of the Duke family who, with James B. Duke and Washington Duke, built the tobacco industry into one of the four great industrial kingdoms in the United States.

He then told how the use of tobacco became popular... how, in 1820, tobacco sold for 52 cents a pound; then, in 1852 the "revolution" in tobacco came about near Durham, N. C., when a Negro discovered by accident that tobacco could be cured by heat from fire.

It was in 1856 that an Englishman discovered the Russians were smoking tobacco in long thin "tubes." Then came the slow hand-rolled cigarette, made by the Duke in North Carolina, then the automatic cigarette machines.

In 15 years the Dukes built their tobacco empire from "50 cents and two blind mules to a \$25,000,000 industry."

Mr. Averitt told of the great work the Dukes have done in education and hospitals, and other philanthropies.

"Bulloch county is richer because the Dukes of Durham taught us to produce and market tobacco," he said in closing.

Warning Is Issued To Garbage Can Violators

This week some home owners were handed a cary by the city's collectors of garbage and trash.

Bill Bowen, chairman of the city's sanitation department, states that the card notifies each homeowner who is violating the sanitation ordinance, that he or she must comply with it or the risk of having his or her garbage and trash left uncollected.

"The cards went out this week," he said. "If the situation has not cleared up next week then the garbage collectors have instructions to pick up trash and garbage at those homes where the garbage and trash receptacles do not meet the specifications of the ordinance."

The card handed to home owners is as follows:

"VIOLATION OF CITY ORDINANCE—You are in violation of our city ordinance regarding the placing of trash, litter, etc., in proper cans or receptacles.

"Our ordinance requires you to place all waste paper, rubbish, filth, trash, or litter into cans or receptacles with a proper cover on same.

"It is the desire of the mayor and council of your city to give you the best service possible consistent with economy. To do this it is necessary that you comply with the city ordinance so that we may be able to handle the sanitation department with the present equipment and labor and thereby eliminate any additional expense. This can be done with your cooperation.

"If you fail to comply with this, we have been instructed by the Mayor and Council not to pick up any trash, litter, etc., that is not placed in proper containers.

"The card is signed 'City of Statesboro.'"

All Bulloch County Expects To Be Included On Rural Telephone Line

Indications at this time are that all of Bulloch county will be included in the rural telephone program except that part served by the Statesboro Telephone Company and the Pembroke Telephone Company, Delmas Rushing, president of the Siltson Farm Bureau, told bureau members at their regular meeting last Thursday night.

Maps delivered to REA engineers some three weeks ago included the entire county, except for Brooklet and West Side areas. However, these groups have asked to be included and have been accepted by the Bulloch County Telephone Cooperative, Mr. Rushing said.

The engineers are expected to locate the proposed lines and exchanges. Mr. Rushing urged all who had not already done so to sign up for telephones through the county agency's office or through the office of the directors. It is essential that the engineers know what de-
