CHRISTMAS MEAL

At one time schools came to offer a Christmas meal and report to the board for approval. Nowadays, with the great social and economic changes, it seems to be a natural thing to make this Christmas meal and have a good time with the students and the teachers of the county.

CHRISTMAS SONGS

All of the old Christmas tunes and carols are sung with great joy. The songs of old recall the happy days of Christmastime. "O Christmas Tree" and "Deck the Halls" are still the favorite songs of the season. Christmas brings joy to the hearts of all, and it is a time for all to come together and sing these songs of peace and goodwill.

BETTER THAN 12c COTTON

TOP-DRessING COTTON with 125 pounds of KAINIT per acre produced 364 pounds MORE seed cotton per acre, or top-dressing with 250 pounds of KAINIT per acre produced 445 pounds MORE seed cotton per acre in tests conducted by the North Carolina Experiment Station on fields damaged by Rust in previous years.

The extra cotton that KAINIT produced represents a better profit than most farmers made when lint was 12 cents per pound. Figure it out for yourself! Subtract the cost of the KAINIT from the value of the extra cotton that KAINIT produced.

The table below shows the results of this experiment. Study it carefully.

Note that the KAINIT top-dressing not only produced many extra pounds of seed cotton, it also improved the quality of the cotton. The KAINIT used heavier bolls, heavier seed, more lint per seed, better grade, longer staple and stronger fibers.
