JUDGMENT AND UNDERSTANDING

The Women's Auxiliary of the Bulloch County Hospital feeling the need of a charity ward in the local hospital to provide hospitalization for those who could not secure it otherwise, reasoned that since the city and the city council permitted private business to operate for private gain on the Sabbath there could not be any objections to operating the picture show for charity.

We have come to understand our town and council better and are ready to admit we judged them without first understanding them. Before passing judgment again we will try to understand why some unnecessary businesses operating on Sundays are good and have the approval of the city and city council and one which offers its proceeds to a worthy and charitable cause is not good for and does not have their approval.

The Hospital Auxiliary in sweeping around its own door says: "We sponsored this cause with the unselfish aim of serving our fellowman. To maintain a charity ward at the hospital requires \$60.00 per month. Such a sum cannot be raised consistently in the manner men have come to expect women to finance their projects. The picture show seemed to offer a solution. But due to so much talk and criticism as well as the questioning of our motives we have decided to abandon the idea of financing our charity ward through the proceeds from Sunday movies. In so doing we recognize the priority of mankind's spiritual needs and do not desire to tear mankind down spiritually in order to build him up physically.

"We feel that as an organization whose only aim and purpose is to provide ways and means of ministering unto the deseased bodies of mankind, we have been judged without understanding. 'There is but one virtue: to help human beings to a free and beautiful life; but one sin: to do them indifferent or cruel hurt; the love of humanity is the whole of morality."

As a man is so he sees.

GIVE FARM AGENTS A REST There's an old story about a dance hall out

West which displayed the following sign: DON'T SHOOT THE FIDDLER. HE'S DOING THE BEST HE CAN.

No doubt nearly every county agent in the South these last few weeks has felt like hanging up a similar sign. The county agent didn't write the 1938 farm act and he is not to blame if Congress waited almost till planting time to pass it and then left a thousand and one kinks in it that only time and experience can straighten out. The county agent is doing the best he can in a bad situation and everybody should have patience with him. We are indeed quite ready to sympathize with a North Carolina agent, one of whose farmers died in 1936 with some dispute pending about a government crop payment. Although the county agent reported the death, the U. S. Treasury Department kept sending one letter after another until finally-just when the agent had been through a full month of night and day agony over 1938 crop allotments - he sent Washington this reply:

"I have been in hell 30 days so I know Mr. Jones isn't there. Under present conditions no county agent can ever get to heaven, so I can never tell you whether Mr. Jones is there. All I know is he has been dead two yearsy and I'm through!"

Just as far as possible lets give the farm agent a little rest-and all possible thanks for a hard job conscientiously performed!

PROGRESS BY LEADERSHIP

Thirty years ago Statesboro was an unobstructive country town. Today it is a small city with its population exceeding 5,000 and

its merchants doing business that runs into many thousands of dollars each year. In the past few years there has been much progress, such as: the addition of religious groups foundation of many civic organizations, new business enterprises, a hospital, a county health department, and many other things that make for progress of a community, But how are these things started? How were they promoted? And how may they be con-

They were started because the people wanted them. They were promoted because the people boosted them. And they may be continued by the people making the community progress. How may a community progress?

Through progressive leadership. Leaders that have initiative, choosing things that are best for the people they represent. Leaders who have the ability to look to the past and decide what will be better for the future. Leaders who will boost the activities of the people. Leaders who have high ideals and

Do you recognize your leaders? Perhaps they are not out in the front, but are quietly pushing from the rear. Content to say nothing of their deeds of merit.

Yet communities do not progress through leadership alone. Leadership is only representative, speaking the peoples thoughts and will. The people are far more important than the leaders. But for the leaders to be right the people must be right. The people must select a leadership that comes up to the highest standards in every respect. In this way and in this way only may a community

On June 29th the people of Bulloch county will have an opportunity to select leaders. They should be choosen only after careful consideration of their merits and demerits by the voters. So let the people of Bulloch county progress by choosing the right leaders.

The Editor's Uneasy Chair

According to a survey made by the American Institute of Public Opinion there is a widespread belief among the American people that the New Deal is using the WPA to elect New Deal candidates; that few members of either party—Republicans or Democrats—approve such use of the relief set-up and that if more voters become convinced of New Deal misuse of the WPA the consequences may be serious to the Democrats, but that-so far-Roosevelt has not lost very much on this ac-

Two youths caught climbing over the iron fence at the White House told police they thought the big white house must be a motion picture house and that they decided to see the show. We feel sure that if the police had not caught them they would have seen a show better than any motion picture.

In recapping the record of the 75th congress we find that it set a peace-time appropriation record, split the Democratic party, and enacted most of, but not all, the laws President Roosevelt proposed.

It passed crop-control, big navy, public works, and tax laws. It did not pass the Roosevelt Supreme Court bill or provide for a New Deal in governmental organization. And its tax measure did not satisfy the Presi-

Headline in a daily newspaper: "Roosevelt and Bride Off On Secret Trip After Brilliant But Kissless Ceremony." We reckon it's legal just the same.

A train that runs on standard railway track, or will leave the track and travel on the highway or paved street is an early prospect for service between Adel, Georgia and Perry, Florida. Such a train made up of one car to accomodate 16 passengers and compartments for mail, is being demonstrated now. Its wheels have heavy rubber tires which are guided on the railway track by small flanged wheels in the front and rear. All there is left for the engineer to do now is to add paddles and get a steamboat whistle.

Georgia borrowers of HOLC funds are 97.8 percent prompt in paying their obligations according to a statement made by state manager, Frank A. Holden.

14,850 loans to Georgians total 33,644,632 of which 14,9 per cent or \$5,083,786 have been paid. 507 loans have been paid in full. 10,175 accounts are entirely current or less than three months in arrears, while 2,600 other borrowers were meeting all current bills and monthly payments on their arrears. 500 other borrowers are making small monthly

Flower of Day

Anemone is regarded by the Chinese as the flower of day. The early Romans used Anemones as a cure for malarial fever. In the Holy Land, the Anemone is called "the blood drops of Christ" because blood fell upon the plants which sprung up around the cross on Csivary on the evening of the crucifixion. Anemones were supposed to have retained their red color from that time on.

Black Ducks Are Wise

Black ducks know how to avoid enemies. Their nests, well camous flaged with weeds and hidden in swamps or brush, can be found cally by accident. Parent ducks keep their young huddled close on ready swamps, rarely venture on open water. They fix at night, feed gamerally at dawn and dusk. When the color from that time on.

eddings and small whites in a jar or bowl in the modern air-conditioned ice refrigerate where they will remain frech and king a cake that you of the right consistency until bek

ime to frost, serve it with ing day. MERINGUE: Beat 2 ogg whites until they hold a peak. Then slowly add 1 cup strained honey, while beating constantly. Continue beating until mixture will stand up in peaks. You can serve this merangue immediately, or, if you have a masdern air-conditioned ice refrigerates you can keep the mixture perfectly for several days and then use it on a moment's notice. The property smoist, clean-washed, air will give it perfect protection. Stir well before putting it on squares of warm chocolate cake or ginger-baread.

The most difficult part of scrubbing floors is lifting the pail from place to place.

well before putting it on squares of warm chocolate cake or ginger-bread.

Gathering by hand is a long task, and even if one has a special gathering attachment for the machine, there is the bother of putting it on adjusting it and taking it off again. Instead, just set your machine for extra long stitches and stich the material straight across. Then draw up the underneath thread and you will have even gathers.

The most difficult part of scrubing floors is lifting the pail from place to place. But this can be eliminated if you built — a little box a bout 12 linehes square with side a 3 inches high and mount it or 4 casters. It will be just large enough to hold the pail, scrub brush and soap; and the merest touch of the hand guides the "wagon" just

To shapen knives easily and cuickly, just rub a piece of fine mandpaper along the edge of the where you want it.

Have Deftest Toes

Tribesmen and tribeswomen who like deep in the Malay jungle, have perhaps the deftest toes in the world. The Malay shoes are provided with a knob upon a stem, and around this the Malay girl must wrap her toes if she is to keep her sandals on. In other words, to remain shod at all, she must walk partly on the side of her foot.

UNIFORM INTERNATIONAL SCHOOL Lesson

Lesson for June 26

SHARING SERVICE WITH THE LIVING CHRIST LESSON TEXT—Mark 18:1.8, 14-16, 19, 20, GOLDEN TEXT—And they went forth, and preached everywhere, the Lord working with them. Mark 16:20. PRIMARY TOPIC—At Work With Jesus. JUNIOR TOPIC—Jesus Our Living Lord. INTERMEDIATE AND SENIOR TOPIC—Making a New World With Christ. YOUNG PEOPLE AND ADULT TOPIC—Making a New World With Christ.

Easter again? No, the calendar wrong, and that we could do a great deal of good with the money, and that we observed Easter ten we are still of this opinion, but we weeks ago, but quite properly we study the resurrection story again today. Not only does it come in the sequence of our lessons as our final study in the Gospel of Mark, but the fact is that every Sunday, it is a re-

who hath been crucified; He is ris-en, He is not here" (v. 6).

The world anxiously awaits news,

Woman Auxiliary, Bulloch County and, hoping almost against hope, it longs for good news. This is the good news—the Gospel—the all-important tidings that the Son of God ion. who had taken upon Himself not only the form of man, but the sins of mankind as well, who had tasted the bitter death of Calvary's cross, could not be holden of death, but New York its bonder of death, but SINCE JANUARY 1 reaking its bands asunder had ris- SINCE JANUARY 1

This truth becomes the chief bur-13:30). It was such preaching that was at the foundation of the Christian church. It may be that we should emphasize it more.

II. The Impassable Barrier (v. "He upbraided them with their unbelief and hardness of heart, be-cause they believed not." Many are the sins that men commit, but at the root of them all we find the

heart of all sin—unbelief.

The tragic consequence of unbelief is that it shuts the door, throws up a barrier to God's blessing that is virtually impassable until God himself gives grace to believe. The astonishing thing is that the hard-ness of heart and lack of faith here were on the part of those who had

were on the part of those who had been the disciples of Jesus, to whom He had made known the fact that He was to die and to arise on the third day, and to whom there had now come the word of eye-witnesses that they had seen the Lord.

While we marvel at their short-sighted unbelief, shall we not ask ourselves what hindrances we have placed in God's way in our own lives?

lives?

III. The Supreme Commission (vv. 15, 16, 19, 20).

"Go ye into all the world and preach the gospel to the whole creation" (v. 15). "And they went... and preached, the Lord working with them and confirming the word" (v. 20).

The great commission of Christ is still the "marching orders of the church," but how slowly we have marched. The writer of these notes was recently startled by statistics revealing anew the fact that "Christian" America is rapidly returning tian" America is rapidly returning to the status of a mission field. It in America had no converts, ar 9,000 churches were closed during the year. There are 10,000 villages reported to be without church services, and 30,000 communities with-

ices, and 30,000 communication out a resident pastor.

The command of Christ is that we should go to these pagan communities in our own land with the gostal and surely it is our double pel, and surely it is our double shame that there are still lands where Christ has never been preached, yes, tribes that do not even have a word in their language for the blessed ware. Jesus If we will go He will indeed work with us (v. 20) and accompany the message and ministry with divine authority and power. Who will go?

Select Good Company When a man lingers in the neigh-borhood of sinners he may expect to be tempted. Our company ha not a little to do with our conduc

Try Again The diligent searcher after truth will not be deterred by many dis-appointments. His hope may fail, but he will try again.

Key to Success There is only one key to succes and that is perseverance.

that honestly opposed it due to relifact is that every Sunday is a reminder of Easter. The reason why we worship on the first day of the week is that it is the resurrection day. What life it would put into our Sunday worship if the glory of the risen Lord would shine forth (as it should) each Lord's Day in all of our service and worship.

It is difficult to think or write.

It is difficult to think or write.

our service and worship.

It is difficult to think or write about the living Christ without using superlatives. Our lesson for today brings before us the most important truth that the world has ever heard—"He is risen"; it speaks of the worst thing in the world—"unbelief"; and it presents the world's greatest commission—

far and honest? We sincerely hope world's greatest commission— fair and honest? We sincerely ho The Transcendent Truth (vv. so all the way through. This is our

den of the messages of the disciples as they soon went everywhere proclaiming the Gospel. See the sermons recorded in the Book of Acts (2:24, 32; 3:14, 15; 4:10, 23; 10:40;
