PROTECT WOODS FROM FIRE

A tree will make a million matches-a match w sstroy a million trees. Take no chances with lighted matches, tobacco, brush or camp fires. Forest destruction is quick-forest growth slow. Burned timber pays no wages. When fire is discovered, put it out if you can. Get help if you need it. ARE YOU PRACTICING PREVENTION AND FOREST PROTECTION? GROW TIMBER-IT PA /8 !

GIVE THEM SOMETHING TO PUT THEIR TEETH IN!

This fall will see a Home Economics course included in the courses of study at the High School for the first time in a number of years. The Board of Educaton is to be congratulated in offering it again to the girls of Statesboro.

We would like to see next a commercial course offered. The advantages and benefits that such an addition to the High School curriculum are too obvious to enumerate.

Mr. S. H. Sherman, the new superintendent of the Statesboro Public Schools, asked a question at this week's Rotary meeting: "How many of you men here today have had to use the Latin or French you learned at high school in your business? How many of you have used the Algebra you studied in high school to work out a problem in your business?" The mays given at that meeting indicate the need of courses in high school that our young people can put their teeth in typewriting, bookkeeping, business arithmetic manual training, agriculture.

A great number of high school graduates do not get to go off to college. These who do not should be given an opportunity to study something they can use when they finish high school. And what course could be of more use than a commercial course? Let it be next?

"SERVICE ABOVE SELF"

At its meeting this week the Statesboro Rotary Club announced its intentions of setting up a student loan fund to help young people without the necessary funds secure a college education.

This fund as planned by the Rotary Club will be administered solely for the benefit of Statesboro and Bulloch county youths and loans will be restricted absolutely to those who cannot obtain a college or university education without help. A committee of Rotarians will be named to administer the fund.

Definite work of this kind by a civic organization will develop a solidarity of purpose and unity of action, and stablize its ideals of service. The opportunities to serve are all around us and no matter what our resources are the demand will not be met. If a report should become current that there was a large treasure buried in our community we would dig the place to pieces in an effort to find it. There are richer jewels than any material treasure hid away in humble homes th be found and developed and marketed with very little effort. And it is a significant fact that as we grow older it is the acts of service that we have rendered to others along the way that we will remember with the most pleasure.

We do not know of a greater service that can be done in a community than the one the local Rotary Club is planning with its Student Loan Fund. Here is a real armination of the club's motto, "Service Above Self."

THE IVANHOE COMMUNITY CLUB

Statesboro cannot claim all the organizations for community improvement and promotion in Bulloch county.

There is the Ivanhoe Community Club which has received wide recognition for the promotion of the welfare of the people of its section of the county. The club was organized on July 4, 1932. In

seventy-five representing twenty one families. Practically all the activities of that section of the county are carried on in a community spirit. There is a library, a community telephone system, a meat curing house, they plant their crops together and they enjoy living together. They meet once a month. During the summer they hold their meetings at the Steel Bridge over the Ogeechee River. During the rest of the year they

The present membership is approximately

meet at their home. Community problems are studied and solved. Community cooperation is the key-note of the organization. Mr. John W. Davis was the first president of the club and was president until his death in 1934. Since that date Mr. W. A.

Groover has been president. It is clubs like this that make for better understanding and living in a community. We toss up our hat for the great work the

Ivanhoe Community Club is doing.

REMEMBER WEDNESDAYS

The baby which the Hospital Auxiliary admitted to the Bulloch County hospital about three weeks ago was dismissed last week with a new lease on life. It had gained about thre! pounds in weight and now has every chance to live, where three weeks ago its chances of doing so were almost negligible.

If the Hospital Auxiliary does not do another thing, the new life given this child makes their organization worth every effort exerted by its members. Work done by such a group deserves the wholehearted support of everyone with an ounce of human kindness in ones heart. It is a work the results of which cannot be measured in dollars and cents. Remember this when Wednesdays come around. Contribute your small share by going to the Georgia Theatre on Wednesdays when the Auxiliary realizes a share in the theatre's business. Wednesday is "Hospital Day" at the Georgia.

The Editor's Uneasy Chair T HAPPENED TEN YEARS AGO:

At the end o the sixth day of the tobacco market a total of 660,000 pounds were sold. Mr. and Mrs. Fred Fletcher motored to Savannah Sunday. Miss Betty Bird Foy celebrated her sec-

ond birthday by entertaining fifteen of her friends with a party at her home. Pictures of the group were taken.

Plans were completed for the Georgia Press Association here Monday, August 13. Requests for bids on the new school building were asked. The building was for the

Cliponreka section of the county. Two truck loads of Bulloch County 4-H Club boys left here to go to Camp Wilkins on the Campus at the University of Georgia. There were over three hundred boys atthe camp.

"RELIEF BUMS"_

A news item of a Negro taxi driver who was unable to work for a time because of illness. He obtained \$50 from a government relief agency to tide him over. Now he is back at work, and is trying to return the money. When it was pointed out to him that he was not legally obligated to do this, he observed that "that was the way I was raised-and that's the way I'm raising my child."

A great many other Americans can learn a lesson from this Negro taxi driver. One of the most omnious portents on the horizon is the fact that thousands of people have apparently come to look on relief às a "profession." They plan to make it, their "life work." Productive jobs in private industry hold no attraction for them, when they can take it easy at the taxpayers' expense. They figure someone owes them a living.

This isn't a criticism of those people who have turned to relief only as a last resort, and are cager to get off the rolls as soon as opportunity for a real job comes along. Nor is it a criticism of relief per se. The hungry must be fed, the homeless sheltered, the clothless clothed. Honest beneficiaries of relief aggressively seek real employment. Professional "relief bums" are a new menace to democratic government.

The Negro's statement was news because his attitude was so unusual today. It should be printed on every relief check and public grant.-Telfare Enterprise.

THINGS TO WATCH FOR: A "draftless" fan" which stands on the floor and draws in cool air at approximately floor level, and shooting it up toward the ceiling in a perpendicular column. A collapsible fish net, which snaps open like an umbrella, to lift fish out of the water.

Carey

CORK INSULATED SHINGLES

Mr. President . . . Here is good news of electrical rogressiveness in your adopted

IN addition to aiding the REA co-operatives, the Georgia Power Com-pany has now built 4,033 miles of rural lines of its own and is now servat exactly the same low rates as we offer in the heart of Atlanta.

In very few other states can the vil-lages and farms buy their electricity as cheaply as the big cities. This uni-formity of rates, plus the lowness of our rates, explains why Georgia ranked lowest in the nation in the price of electric service in communi-ties of less than 1,000 population, in a recent survey by the Federal Power Commission.

.

Georgia homes and farms served by this Company are now buying their electricity at an average.price of 2.9 cents a kilowatt hour. The national average is 4.3 cents.

.

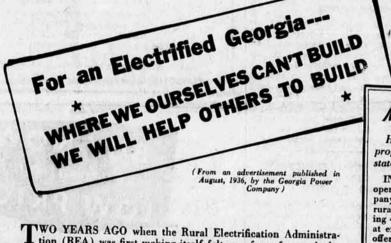

Among the states, Georgia contin-ues to rank FIRST EAST OF THE ROCKIES in the use of electricity in he home. Homes, urban and rural, served by his Company now use an average of

1,372 kilowatt hours of electricity a year. The national average is 872.

These records have been made de-spite the fact that the 161,000 rural and urban homes served by this Com-pany's electric lines are scattered over an area of 44,000 square miles. We serve 545 Georgia cities, towns, vil-lages and hamlets, and only eight of them have populations of more than 10,000. A total of 448 have popula-tions of less than 1,000. tions of less than 1,000.

Electrically speaking. Georgia is setting the pace for the nation! Al-ready Georgia is far ahead of many wealthy communities in the East and North, both in the cheapness of elec-tric service and in its widespread use by women in the home, by farmers and by industrial workers. But we are not satisfied with the progress of and by industrial workers. But we are not satisfied with the progress al-ready made. We recognize electricity's important role in the advancement of human welfare. And we will ever strive, in the future as in the past, to hasten the day when our state will truly be —

AN ELECTRIFIED GEORGIA

tion (REA) was first making itself felt as a force for good, the Georgia Power Company in a newspaper advertisement publicly offered its cooperation to the REA and to the Georgia cooperatives organized under the REA plan.

For years before then we had been vigorously carrying forward our own rural electrification program—and that work still goes forward. But we knew that the federal government, with millions of dollars at its command, could build the additional rural lines faster and farther than we could. And so, for AN ELECTRIFIED GEOR-

instances, our engineers have made the preliminary surveys for Georgia REA cooperatives. In others, our field representatives have aided rural groups in getting organized, and our home service girls have helped farm wives to learn to use their new appliances advantageously

elp wherever we could, in whatever way we could, and we have considered ourselves honored that so many groups of farmers and their leaders have wanted us to help. These services to the REA ives we have given without charge, and we now renew our

United States is in Georgia. Our congratulations to the Lamar Elec-tric Membership Corporation and to the people of Barnesville. Sincere good wishes also for the success of your venture in extending electric service to previously unserved farms.

GIA, we offered our help.

offer of these services FREE to other cooperatives.

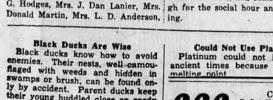

We are not seeking to take more credit to ourselves than is due. We have merely joined with other organizations and individuals to

That public pledge has been backed up by actual deeds. In some

We have helped in this movement because it offers outstanding benefits to Georgia, and the tradition of the Georgia Power Company is that we help in ANY movement for the good of Georgia. We have helped also for sound and solid business reasons. In these hard times, we need all the business we can get, and we are grateful to the federal government and the REA for having broadened the market for electric power in Georgia.

Seventeen of the Georgia REA cooperatives are now obtaining their electric power supply from us (at advantageously low rates). We thus regard them not only as good friends but valued customers.

For all of these reasons, we are proud that the first REA coopera-tive in the United States to be dedicated by the President of the

Friendship But ...

President Franklin D. Roosevelt, whom we all respect and admire, is bent on weeding out of councils the Democratic party all "Yes But . ." representatives in congress.

He took that unmistakable position in his vicious attack last week on that venerable gentleman, Senator Walter F. George of Georgia, who he called, "my old friend."

He emphasized that George was his friend and avowed his friendship not once, not twice, but several times.

But the president then launched the most vitrolic attack, which ever passed the lips of a president in any campaign-much less one in which he could have but one interest-the designation of a "Yes Man" for the Roosevelt policies.

Maybe we have no conception of what friendship is composed. Perhaps we cannot speak f r the deep south and its traditional love for friends and its almost fetish loyalty to those whom we call our friends.

It may be that the south and Georgia in particular have discarded those high concepts and are ready to accept Mr. Roosevelt's definition of what friendship has degenerated into under his attempt to dictate all national legislation.

As the President called George "my friend," he held high the executioner's knife. When he had slashed Georgia's senior senator, he again pledged his friendship but ruthlessly sunk his stiletto into George time and time again.

It was cruel. It was premediated. It was against every conception of a Georgian's idea of friendship and Georgians generally will resent it. They didn't like the reenactment of Caesar's slaying.

Georgians believe that friends stand by whether one is right or wrong. That was our conception of friendship in the deep south and especially in GEORGIA before we got a new definition from the President.

Mr. Roosevelt made it plain that he wants only "YES" men in the national congress. He wants men not to represent Georgia, but is asking for men who will do his bidding regardless or how it affects our state or any other state. He wants to eliminate all "Yes But" men not only from the New Deal and the Brain Trusters, but also from the official ranks of the Democratic party.

If Georgians want that, they know how to get it. They can vote for Lawrence Camp, self-styled, 100 percent Roosevelt "Yes Man," even though the President is not a citizen and cannot vote for him. If not, they know how to keep a man who for 16 years has ably, courageously and staunchly voted his convictions in the interests of the state

Regardless of how we vote, or what Georgia does, we believe Georgians generally will resent the "Friendship But . ." attitude assumed by the president in his Barnesville dedication of the REA project, in which he was so concerned about his "friendship for George" that he forgot to pull the switch to give the patrons of the line lights and power which the project was to have provided. Bulloch county, we are convinced, means to vote for George. It would have voted for George if the President had not come. It will vote for

George now that he has come and gone. The "Friendship But . ." attitude of the President failed to impress seriously the voters of our

county or Georgia especially since it is known the President has never yet turned on that power on the REA project.

Georgians still LOVE President Roosevelt, but they LOVE the atonomy of the EMPIRE STATE even more.

berahip of the new club. Dr. R. J. H. DeLoach was made president of the club and Dr. John

president of the club and Dr. John Mooney secretary and treasurer. The new club has applied to the national headquarters of the Sigma Chi fraternity for a charter for an alumni chapter of that fraternity. Dr. R. J. H. DeLoach is one of the founders of the Delta Chauter of Signator

founders of the Delta Chapter of Sig-ma Chi at the University of Georgie a challenge and also assisted in the establish-ment of the chapter at Emory Uni-versity. Dr. Delcach states that there are more members of the Sig-ma Chi fraternity in Statesboro, ac-cording to population that any other city in the United States. Those present at the organization meeting were: Ed Aiken, John Moon-ey, Dr. R. J. H. Delcach, J. P. Foy, Imman Foy, Edwin Donehoo, Harry S. Aiken, R. L. Cone Jr., Gus Sorrier, Dr W. E. Wood, Frank Simmons, Homer Simmons, Jack Jenkins. The are: Outland McDougaid, J. E. Mc.

other members who were not present his speech. Senator George stepped are: Outland McDougald, J. E. Mc- forward and said, as he shock hands: "Mr. President, I regret that you have ken this occ Democracy and to attack my public

"I want you to know that I accept

Senator Walter F. George spoke in Waycross Monday, reviewing his rec-Nathan R. Bennett, Bulloch super-visor of the Farm Security Adminis-gia that he is not afraid of the Pread been completed. Mr. Bennett stated that last week voice choked and tears filled his eyes the local office had paid \$2,500 for when he referred to himself as a "full ocated near the West Side school. The first two farm purchased un-ever and went on more calmly into ier this act were the Dan Riggs place phases of his political record.

Mc. Bennet added that he is now Itself in Movies

PROGRES may be secured MEN, WOMEN AND CHILDREN

August 31 for purchases for 1938#and be shown at the Georgia Theatre, or Monday, Tuesday and Wednesday of next week.

This movie consists of scenes taken exclusively of Statesboro people and Statesboro enterprises. It was made under the direction of Mr. W. C. Ma-Mr. H. W. Purvis, president of the con of the Georgia Theatre. He says Mr. H. W. Purvis, president of the Georgia and Florida Railway spoke at thing like it. It contains over one -

Congress.
