25,000,000* Kilowatt Hours
They Can't Be Bought Because They're FREE
Waiting to Go to Work in Georgia Homes
Lower Rate, means that you can operate the additional electrical conveniences you have always wanted in your home at almost unheard of bargain prices.
The cool comfort of clean electrical cooking is now amazingly cheap. If you add an electric range, you will be surprised to find that the cost of running it is only about six cents, five cents or four cents a day.
You can begin to enjoy electric refrigeration, under the new rates, for about a dollar a month or less.
In many instances, you can add small appliances—fans, lamps, washing machines, percolators—and your share of the Free Electricity will apply all of the current you need to run them.
Find out NOW how you can benefit. Visit our nearest store and learn how the new rate applies to your individual case. Find out how many of the 25,000,000 Free Kilowatt Hours have been set aside for you. Then begin using them, for you're ready and waiting.
*Just ONE Kilowatt Hour will generate a good size electric fan for TWENTY hours! It need be but TWENTY.

GREAT OGEECHEE RIPPLES

-By The Dibbler-

Strawberry shortcake is seasonally gone. Deep, juicy, Blackberry cobbler will soon be passe. However, shortcakes can be made with pineapple, fresh peaches, and apricots.

You don't have to smell the pulp mill as you go through Savannah to Tybee in order to get your sea breeze. Last Sunday afternoon the sea breeze nearly blew us out of bed, sixty miles from the ocean.

Furthermore, you don't have to go to Wisconsin, the home of the Burlington Liar's Club to get big fish tales. Oh, Gee, Oh, Gosh. We hate to tell it. But, "anyhow," as Gracie would say, one of our church, civic, bank, social, and wholesale-grocer (I'm not referring to Thad Morris either) leaders told a Golly-woopper at the Rotary Club meeting the other day.

This rather tall gentleman said he was fishing and the fish bit his hook. He caught so many Blue Breem, so fast, it made a hole in the pond. And this hole made his boat list at a forty-five degree angle. Finally, it got so bad, he had to stop fishing. Then he could hardly paddle the boat out of the hole. It was just like going up a dam in heavy water.

Nattie Allen, who enjoys paddling a boat, went fishing with us a summer or so ago. We carried meal, cooking oil, salt, coffee, cream, pickles, etc. We expected to catch our meat. Nattie said there wasn't a thing the matter with our pitching and casting, but it wasn't helping our prospect for supper, as we hadn't caught the first fish. Just about sundown, a Mullet jumped near

some cash for several weeks but it is not one of the major money crops. The melon market opened strong. The Bulloch crop is some shorter than in previous years but it is still large enough to make the returns felt by business in this section.

The cotton crop will be well under way to market before the tobacco is sold. The some 30,000 acres of cotton bids to be one of the best cotton crops the county has produced if adverse weather does not curtail the turn-out.

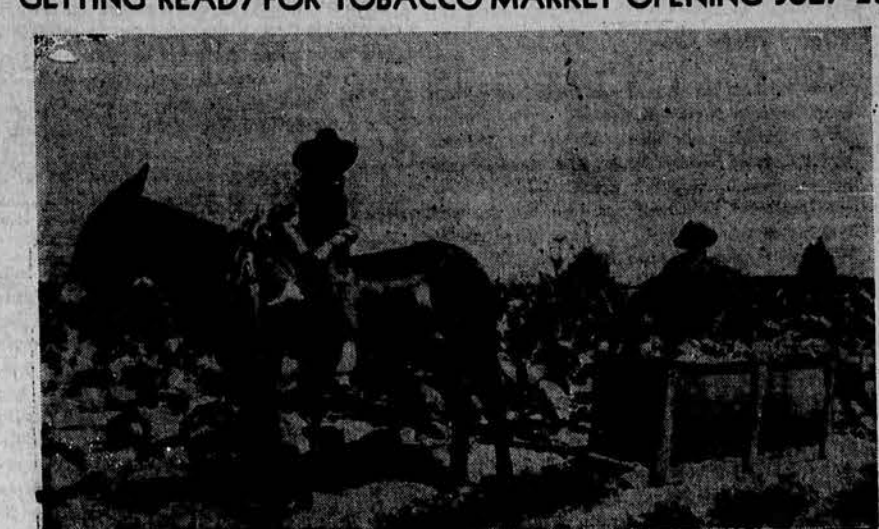

Jumbo peanuts will also have a place in the returns for the farmers planting this crop in early fall. Peanuts returned some \$75,000 last year. Cattle are being sold each week now and will reach a peak in the spring. More cattle and better cattle will be for sale this season than during the past marketing year.

(Really, Leodel, perchance it would be best just to say that Nattie Allen is the son of Mr. Sol Allen, one of our respected and esteemed citizens.) You know, we would like to get lost at World's Fair. We would look around until we found that pretty girl-guide, whose picture was on LIFE recently, and have her carry (I mean take, or show) us to some hot dog stand, in some Visigothic igloo, where we would feel at home - unless they charged more than a nickel for a hot dog.

Choose the BEST ROOF for every building. The best roof for any building is the one which will combine good appearance with extra long life. Carey Roofs have been doing this for over 60 years.

Watermelons are leading the some 12 major cash crops produced by Bulloch county farmers to market. The trucking enterprise is carried on by some farmers and has been returning

GETTING READY FOR TOBACCO MARKET OPENING JULY 25

THROUGHOUT Bulloch county the golden weed is being hauled to the tying sheds and curing barns in tobacco sheds. The view above shows George W. Whaley and his son, Frank Whaley, Jr., with a sled load they have just completed in the fields, enroute to the barn. This is a typical scene in Bulloch county as the tobacco growers all over the county are getting their weed ready for the opening of the market, July 25.

Second Set Of Buyers Still Uncertain

According to statements made yesterday by Mr. W. E. Cobb, and R. E. Sheppard, local tobacco warehousemen, it is not yet definitely known whether the Statesboro tobacco market will be given a second set of buyers this season or not.
