Mr. Ward urged the farmers to develop a strong farm organization that would have as its objective the placing of farming on a level with industry and labor. He recommended the production of cotton, peanuts, tobacco, and other cash crops be held to about what the world would take at a fair price.

Bulloch County Boys Win Scholarships

Elvin Anderson has been awarded a junior college scholarship to the College of Agriculture for the school year 1939-40, according to a letter he received Monday from Dean Paul W. Chapman of the College.

Elvin has been an outstanding 4-H club boy in the Register community for four years. His hog project has been the biggest financial asset of his club work and his spotted beef cattle project as far as dollars and cents is concerned was climaxed this spring with the grand championship of the Savannah show and sale, however it was a combination of beef cattle and hogs that enabled him to win one of the 25 college scholarships donated by Sears, Roebuck and Company.

Several days ago Elvin received notice of a junior college scholarship of \$62.50 for the coming year at the College of Agriculture.

Elvin has enough hogs to keep a cash income available to defray his college expenses for two or three years.

Rupert Clifton received official notice Monday that he was one of the 25 boys to win a \$100 college scholarship at the College of Agriculture for 1939-40. Dean Paul W. Chapman form the College of Agriculture notified the Bulloch county 4-H club boy of this honor.

Prior to this Rupert had been awarded a \$62.50 scholarship at the College of Agriculture for this fall.

For the past several years Rupert has been one of Bulloch county's outstanding 4-H club boys and specialized in beef cattle and hogs. It was his success with this livestock project that enabled him to win one of the Sears, Roebuck and Co. \$100 scholarships.

H. P. FOXHALL AND D. B. TURNER SPEAK AT ROTARY MEETING

At its regular meeting Monday the Statesboro Rotary adopted, as an immediate project, the widening of the streets of Statesboro of street peddlers and house-to-house solicitors.

The Rotary will join with the Chamber of Commerce, the Junior Chamber of Commerce and the Statesboro Business Girls' Club in this project.

Mr. H. P. Foxhall and Mr. R. E. Sheppard were called upon to make a statement regarding the Statesboro Tobacco Market. Mr. Foxhall talked for about five minutes. He praised highly the Statesboro Civic organizations for the part they have played in making the Statesboro market the fastest growing market in Georgia.

Mr. D. B. Turner, editor of the Bulloch Times, was the guest speaker.

GEORGE HOLLOWAY IS 4-H CLUB HEALTH REPRESENTATIVE

George Thomas Holloway will represent Bulloch county 4-H clubsters at the district health contest during the week of July 24.

Dr. J. H. Whiteside examined the two final entries in the Bulloch contest and stated that George Thomas was qualified physically to give other clubsters from these 40 counties good competition in the contest. The contest will be held at Douglas.

Roger Holland Gives Parking Lot

Our vote goes to Roger Holland for being Statesboro's most public spirited citizen for the week.

Roger, for the sake of the warehousemen, the tobacco farmers, and everyone concerned with the market, last week plowed up his very fine field of corn in front of the warehouses.

Parking space during the tobacco season is a real problem, but one half million pounds of the golden weed from Bulloch county, and surrounding territory.

The first sale was in Cobb and Foxhall warehouse and it got under way about three minutes after nine o'clock. The first basket of twenty-four pounds sold for 32 cents per pound, which was high for the first two days. The first basket, together with the weed of G. M. Way of Swainboro. The first row of tobacco sold weighed 8,519 pounds.

Department Store Is New

Statesboro's newest Department Store will open Friday, July 28th. This new business will operate under the name of Dunn's Department Store, and will be located at 48 East Main Street.

Mr. Hyman Dunn, the owner and operator of the department store, comes to Statesboro from Dublin, Georgia, where he operates one of the largest and most successful stores.

Mr. Dunn states that he selected Statesboro as a place to go into business because he believed that Statesboro was the fastest growing city in Southeast Georgia and offered more possibilities than other larger towns.

The personnel of Dunn's Department Store will consist of Eugene Jones, prominent Statesboro young business man; Mrs. Walter Odum, Jr., and Mr. David Dunn, son of Hyman Dunn.

On another page of this week's issue of the Bulloch Herald will be found an announcement advertisement concerning the opening of this establishment.

4-H CLUB BOYS AT CAMP WILKINS AT ATHENS

Bulloch County 4-H Club boys are spending the week at the State 4-H Club camp in Athens.

Clubsters who left Statesboro by bus Tuesday for Camp Wilkins are: Rufus Richardson, Aubrey Newton, Albert Newton, Walter Mallard, Dewese Martin, Henry Zetterower, Bill Zetterower, Murray Simmons, Frederick Hodges, Berner Turner, Kenneth Smith, Johnson-Simmons, Emory Mook, Herbert Hotchkiss, Thomas A. Grooms, Darwin DeLoach, Deed Miller, Clyde Payne, Montrose Graham, William Brannen, Lamar Smith, Ben G. Nesmith, James Davis, Ernest Howard, and Hubert Whitaker.

These club boys will return Friday afternoon.

Gordon Olliff Charged With Hauling Untaxed Whiskey

Gordon Olliff is today lodged in 80 miles an hour.

The Bulloch Jail house charged with hauling 40 gallons of untaxed and unstamped corn whiskey. Gordon will also have to answer to a speeding charge. When he was caught early Wednesday morning he was traveling between 75 and 80 miles an hour.

State Patrolman Strickland and Forham picked up Gordon's trail near Port, Ga., and chased him to Statesboro, finally overtaking him on Savannah Ave. in front of the E. L. Barnes home.

Total Sales \$101,925.08; Average 15.22

When the double-talk of the tobacco auctioneer started the sale of the first basket of tobacco Tuesday morning Statesboro's 174,000 square feet of warehouse floor space was completely covered with approximately one, and one half million pounds of the golden weed from Bulloch county, and surrounding territory.

The first sale was in Cobb and Foxhall warehouse and it got under way about three minutes after nine o'clock. The first basket of twenty-four pounds sold for 32 cents per pound, which was high for the first two days. The first basket, together with the weed of G. M. Way of Swainboro. The first row of tobacco sold weighed 8,519 pounds.

The market the first day was lower than the first day last year with the farmers reconciled to the lower price, realizing that the grade this year was lower and the weed lighter in weight. Despite the lower price the great majority of the weed growers who sold their tobacco on the Statesboro market were satisfied that they were getting the highest price a "Georgia" market afforded. This was proven in the fact that the first day there was not a single sale ticket turned.

The complete figures for the first day show 328,510 pounds of tobacco sold for \$53,431.85 with an average price per pound of 16.23 cents. This average is above the majority of the markets in the state. The figures for the second day's sale show 341,144 pounds sold for \$48,493.13 for an average of 14.21 cents per pound. The totals for the first two days sales, July 24 and July 25 show 669,654 pounds sold for \$101,925.08 for an average of 15.22 cents per pound.

The golden weed continues to flow into Statesboro and as fast as the floors of the four warehouses here are cleared more weed moves in.

Planters are urged by E. C. Westbrook, Tobacco Specialist of the Georgia Extension Service, to hold back the bulk of their tobacco crop awaiting the outcome of unfavorable weather conditions in the Carolinas.

Mr. Westbrook said for the last few weeks "continuous rains which have prevailed in South Carolina and eastern North Carolina have greatly damaged crops, and if the weather continues unfavorable in that section it is likely that tobacco of the best grades will sell for higher prices ten days from now than they sold for on opening day."

According to reports, sales at Tifton average appeared near 16 cents; Vidalia reports range from 15 to 20 cents; Moultrie averaged 15.67 cents per pound; Waycross, 15.51.

MRS. CROUCH IS DOING WELL AT HOSPITAL

THIS WEEK'S SENTENCE SERMON

Jesus organized the church, which is His vineyard. He commands all to go into the vineyard and work. All who are united to Christ by faith, and are thus members of His mystical body, should be members of His visible church.

Congratulations to the Rotary Club, the Junior Chamber of Commerce, the Women's Club, and the Business Girls' Club for the vigorous campaign to rid the city of peddlers.

PLAY SAFE

With the opening of the tobacco market the tobacco growers, the business men, and shoppers of Statesboro and Bulloch County must become aware of a danger not existing during the other seasons of the year.

The crowds around the warehouses, on the streets in stores, offer excellent opportunities for the crook.

Be careful of your money, your car, your purchases made here.

Last year there were cases of tobacco growers who having sold their tobacco crop were robbed of their entire year's work because they failed to exercise proper discretion in handling their money.

The Editors Uneasy Chair-

THE ALMANAC SAYS THE WEATHER Today, July 27, will be unsettled. Friday, July 28, will be pleasant.

Congratulations to Roy Green and Bill Smith on opening their new shoe store. Luck to you boys... Mr. Cobb and Mr. Foxhall again get the first sale in the Cobb and Foxhall Warehouse.

Mr. O. G. Rucker, the auctioneer for Bob Sheppard, is one of the more famous of the tobacco auctioneers. He has been featured in national advertising of a certain cigarette manufacturer on the backs of a number of magazines.

The Rotary Club presented Percy Averitt with a present for "Mary Jane". The members of the club tried to get Percy to make a speech but he was speechless.

TOTAL \$2,153,677.00 Corporation Tax, estimated from last year 109,023.00

GRAND TOTAL \$2,262,700.00 Returns for taxes of public utilities are made directly to the State and the City exercises no jurisdiction in the matter.

Approximately 3-5 of the City is derived from taxes. Approximately 4-15 of the City's revenue is derived from the operation of the Water Plant.

Thus it will be seen that 60 cents of every dollar received by the City is from taxes and 26.6 of every dollar from operation of water plant, leaving 13.4 of each dollar to be collected from other sources.

Without the operation of the Water Plant the 26.6 cents of every dollar would have to be supplied by taxes which at the present rate of the levy would have to be 25 Mills instead of 19 or \$2.50 on the hundred dollars, instead of \$1.90, or \$25.00 on the thousand instead of \$19.00.

On its opening day, You did not find "King Cotton." But "Tobacco" holding sway.

And I was glad to see it, For it surely is misnamed— If it got mad and withered, It really couldn't be blamed.

It only takes a small plot And about an ounce of seed To grow those lovely, golden leaves, And yet its called a "weed".

Of course it requires attention For a short period of time, But the growers are rewarded When it begins to bring in dimes.

It gives the children a nice chance To come and enjoy our town, And maybe there's some money left To buy the wife a pretty "gown".

It helps to pay our obligations, And to keep the "wolf" away from our door— Now of this so-called weed Could anyone ask for more?

Just what would all our "dreamers" Do without their nice smoke rings? You see without tobacco They couldn't have such things.

And then there are a great many Who like to enjoy a "chew"— If it wasn't for tobacco, Just what do you think they'd do?

Go down some day, if you haven't, And hear the auctioneers "chant"— You'll find tobacco valuable Even though its just a lowly plant.

CONSIDER THE TEACHERS In a few weeks it will be school opening time again. Or will it? Ralph McGill asks a very pertinent question in his column "One Word More".

Asks he, "Is it possible that the public conscience is willing to forget the teachers? Is there no relief for them? Is there no public interest in them and their plight? Or need they gain the support of a subversive element and strike against the state to gain attention?"

NEVILS NEWS

BY MISS MAUDE WHITE

CANNING FOR SCHOOL

On last Wednesday some of the people of the Nevils Community met at the School Canning Plant and canned approximately 300 cans of vegetables to use in the Lunch Room of the Home Economics Department for the ensuing school term.

The tobacco sales proves fair for a good many people of this section. Many people are rushing their weed to the market to get it sold during the first days of the market.

TOBACCO SELLING

Many from here attended the sing at Warnock School Sunday. THE V. B. C. The Nevils Vacation Readers Club have plans made for the presentation of the "Pet Show" to be staged Saturday afternoon on

August 5th, at 3:30 o'clock. Visiting performers are expected to be present as well as several beautiful and intelligent "pets".

Mr. and Mrs. Joseph K. Minton and daughter, Joyce, of Jacksonville, Fla., and cousin, June Miller, were visiting Mrs. Julia White and family Sunday afternoon.

Bulloch County Youth Writes From Nova Scotia

Mr. J. W. Rucker, Bulloch County farmer was in the office of the Herald last week with a letter from his son, A. J. Rucker, who is a Midshipman, at the United States Naval Academy. The letter was written to Horton, Mr. Rucker's youngest son. It was written aboard the ship Arkansas while at sea up near Nova Scotia. Young Rucker finished Statesboro High School in 1937 with honors. He attended Teachers College for one year and distinguished himself with high grades. He stood the examination and entered Annapolis in July, 1938. He was admitted by an appointment from Senator Richard B. Russell. Young Rucker began working on the idea of going to Annapolis when he was a freshman in high school and began saving his money at that time. His father is very proud of him and says that very young Horton is following in A. J.'s footsteps. He has not missed a day from school since entering the primary department. The letter Midshipman Rucker wrote to his brother follows: Eight hundred miles East of New York, N. Y. July 1, 1939. Dear Horton, I have both my eyes wide open and what do I see? Nothing but the sea. We came straight down from Halifax and we have been out about 800 miles from New York all this week. We are headed north now and it is already getting cold. The reason we came as far south as New York was so we could warm up before the water for the mouth of the St. Lawrence. By tonight we will be as far north as Halifax. I don't see why they want to leave the Gulf Stream. It was just like summer time, sure enough, when we were in it. By the way, what are you going to do on the Fourth? I am just wondering if there are some peas ready for picking. I believe they begin to get dry about this time, if my memory is any good and it should be because the fact was well emphasized on my mind once. Remember those days? We had battle practice all night last night. There are three crews to each gun and one crew had to stay awake at each gun while the other two slept. I went on at 3:30 and stayed on until 8:00. I'm a trainer on a range finder. I was also on last night from ten to eleven getting some special instruction on night battle: By the

way, you can tell Mama to have the sheet turned back on my bed because I'm sleeping the first two days I get home, if I'm not too excited. About one night out of the week I get two or three nights I get four to four and one half hours. The other nights I get about six. On with the story about the practice last night— Our target was the Texas and all the lights were out and it was pitch dark so the only way to find them was by the search lights. The Texas was about six miles away and the lights made it as bright as if it were day. I was told if you put your hand in front of the light it would burn it like fire, it was so strong. The Marines have their rifles and machine guns out on deck this afternoon. They are raising a heck of a noise shooting. They don't care where they shoot as there isn't anything in sight but water and more water. It is just about sundown now and I sit sitting out on the main deck. The movie for tonight is "You Can't Take It With You". I wish you were here to enjoy all these free movies with me. I've been standing fire room and engine room watches this week. The fire room is under pressure and you have to go through the air lock to get to it. The furnace causes such a roar that you can't hear yourself speak. You are about ten feet below the water line (that is the top of the room. Where you stand you are about 20 feet below). The temperature is around 100 degrees but since it is so cold up here that, the temperature stays around 50 degrees. The engine room is still hotter. The turbine steam gives off a great deal of heat. There were two little engines down there you could put under the hood of a Ford that produces 2,500 horsepower. Boy it is surprising to see one of them turn a propeller about eleven feet high. How is the movie proposition down there? I guess it is like it always was. I got \$15 for Quebec so I am sending you \$1.00. It isn't much but it is a whole lot more than I had and the more I am sending it to you. I'll get some money when September comes and you can help me spend it. Sunday Morning. The officer of the deck just sent word down we were between Newfoundland and Nova Scotia. You see how fast we move around. We are not supposed to arrive in Quebec until Monday, week, so we will probably anchor some place up here for several days. I have to go on watch, so I had better close. A. J.

"AND YOU CHOOSE THAT"

Of all the amazing things in the world, far surpassing the Seven Wonders, the choices people make are the most astounding. Open-eyed with astonishment one is often made to exclaim, "And you choose that!"

"To err is human," someone says. Admittedly. But that one chooses continually chooses the less important, the positively inhuman, or that which not only wrecks him but involves others in the tragedy is difficult indeed to understand.

When will we ever learn that our very lives are made or broken by the choices we make.

"Get out of my way!" roars one who has decided that he is going to give him personal advantage. Those who are slow to obey these orders are run over and crushed. Stampeded by the rush of egotism and selfishness this life runs its course. But who, in his sane moments would like to have what that mad course inevitably brings? And you choose that!

The Man of Nazareth walked in Galilee and the choicest of the people whom He met were forced His attention. He knew that they could all choose the fine, the high, the noble and the good, if they would. As He watched the wretched choices they made there must have been many times when He exclaimed to Himself: "And you choose that!"

There are far more choices open to young people than to old. The old have made their choices and many of them would give the world to be able to call back some of them and make different ones. The young has the open field before him. Splendid things, sublime things are at the very hand of the youth to be had for his choosing, and as one walks down the street of our little city with his eyes open he sees many youths reaching out and taking things which cannot help but bring disaster while all around them are their fellows spurning as supreme-

Bulloch County Farmers On Farm Program

Two Bulloch county farmers have been invited to appear on the Farm and Home program to be held at the College of Agriculture during the week of August 7 to 12.

H. V. Franklin, one of the farmers invited by Dean Paul W. Chapman of the College, was a congressional district winner of Plant-To-Prospere contest sponsored by the Atlanta Constitution and the Agricultural Extension Service in 1938. Mr. Franklin was requested by Dean Chapman to sit in the panel discussion on better farming.

W. H. Smith, one of the first farmers in the state to receive recognition as a Master Farmer and president of the Bulloch county chapter of the United Georgia Farmers, was invited by Dean Chapman to discuss the systems of farming in this section of the state and why he is employing the diversified system he now carries on in Bulloch county.

These two outstanding Bulloch farmers, if possible for them to attend the Farm and Home week, will appear on the program Thursday, August 10.

Committee Meets With Homer Durden

County committee, county agents and others appeared before I. W. Duggan, southern region administrator for agricultural adjustment administration, and Homer S. Durden, state A. A. administrator, last week to present information relative to the importance of combining certain application for 1938 soil conservation payments.

E. L. Anderson, chairman of the Bulloch county committee, was chairman of the meeting. Mr. Durden and Mr. Duggan stated that they are not in a position to grant this request. The committee and county agent appointed a committee to appear before the state committee the early part of August to present their claim. Mr. Anderson was a member of this committee.

Arrangements were made where by the claim will be carried before Washington officials if a favorable reply. The combination of these work sheets would mean \$40,000 to \$50,000 to some Bulloch county farmers and similar amounts to several other counties in the state.

Geogee News

Among those attending the Bulloch County Sing at Warnock School were Mr. and Mrs. Charlie Zetterower and family, Mr. and Mrs. Live Lee and Mrs. Regal Newsome, Mr. and Mrs. H. B. Nesmith, Mrs. J. L. Wilson, Miss Susiebell Nesmith and Miss Alva Wilson.

Mrs. J. P. Robinson has returned to her home in Jacksonville, Fla., after visiting in this community.

Application is legitimately within the purview and the intentions of the laws of the State of Georgia, and the judge having had presented to him a certificate from the Secretary of the State of Georgia declaring the name of the proposed corporation is not the name of any existing corporation registered in the records of the State, it is considered, ordered and adjudged that said application be and the same is hereby granted.

Bulloch Farmers Grow Sweet Potatoes For Extra Profit

If you can't sell 'em, you can eat 'em or feed them to the hogs, declared A. F. Harris when some housewives refused to buy the large sweet potatoes he was offering for sale so early in the season.

Sweet potatoes in this section are not supposed to be much size until about August 1 but Mr. Harris can now dig roots that weigh three or four pounds from his patch. This energetic farmer uses sweet potatoes as a source of income, when they will sell. When questioned as to why he planted potatoes instead of tobacco, which is now going to market, for a cash crop, Mr. Harris replied that if they would not sell he could "ruin pigs with them by making hogs out of the pigs". He asked if a farmer ever carried tobacco home to feed the chickens, cows or hogs if it did not sell for what

the producer asked for it. It is his opinion that you can't lose on potatoes, since they have so many uses.

A. S. Hunnicutt has some 40 acres of pink skin Porto Rica sweet potatoes that will be plowed for market in a week or 10 days. He is now booking orders for them. Buyers that came to Bulloch county last year are wiring and writing Mr. Hunnicutt for potatoes. He is not afraid of being able to dispose of his entire crop at a favorable price.

Junius Hunnicutt has some 10 acres of purple Porto Rica potatoes that are now ready for market. The demand for this variety is good. Mr. Hunnicutt does not think his hogs will have a chance at this field of potatoes in 1939.

J. W. Rucker has long been noted for the potatoes he offers as a source of cash income. Mr. Rucker finds it profitable to cure out the potatoes that are not sold early and then offer them later in the winter.

NEADHAM LEE FAMILY TO HOLD REUNION SUNDAY, JULY 30

The meeting will begin about eleven o'clock Sunday morning. A number of prominent men of Bulloch county have been invited and will make short talks after lunch.

The Lees were among the pioneers in Bulloch county and a large number is expected at this reunion.

Rucker finds it profitable to cure out the potatoes that are not sold early and then offer them later in the winter.

Fire Protection Is Planned For Bulloch Forests

A budget and plan for a county wide forest fire protection unit was adopted at the meeting of the Bulloch County Chapter of the United Georgia Farmers, Saturday.

The plan as adopted will be presented to the county board of commissioners August 15 by a committee composed of W. A. Groover, chairman, John M. Hendrix, L. F. Martin, W. C. Hodges, J. E. Hodges, C. J. Martin and Dr. R. J. Kennedy. It put into operation the commissioners and state forest service will supervise the project. Five fire trucks would be provided by the plan for use during the fire season with only one truck on for the full year. The county can be covered with four look-out towers which would be tied together by a telephone system. The trucks would be within 15 minutes of any forest fire in the county, as the plans are drawn up now.

Mr. S. H. Lanier, district forester, assisted the committee with drawing up the plans. Frank Hayward, owner of some 3800 acres of timber in the county, was very anxious for such a project to help protect his timber. He stated that with the equipment the state forest service would bring in the county, fire lines could be built considerably cheaper than his present lines cost him.

L. F. Martin introduced the resolution for the plan to be presented to the commissioners. W. H. Smith, president of the organization, asked the same committee to help carry on the project to conclusion.

E. L. Anderson, Joe G. Tillman, H. D. Brannen, and Delmas D. Rushing were named as a committee by Mr. Smith to present to Governor Rivers a resolution asking that warehouses be closed until some price agreement could be reached for the 1939 crop of tobacco based on a referendum to be held during the next few days. The committee left for Atlanta immediately with the resolution.

Fred Blitch announced at the close of the meeting that the organization had 802 members. The members of the membership committee thought that the 4000 members by August 16 would be paid up.

Tenant Farm Program Goes On

Bulloch county has been designated by Secretary Wallace as one of the 99 Georgia counties in which the tenant purchase program will operate for the 1939-40 fiscal year.

As provided in the Bankhead-Jones Farm Tenant Act of 1937, the federal government makes long-term loans to worthy tenant sharecroppers, and farm laborers for the purchase of family-sized farms.

County Farm Supervisor, Nathan R. Bennett, Jr., announced this week that he is prepared to take applications for the tenant purchase program. Bulloch county farmers desiring to obtain a loan for the purchase of a farm may obtain application blanks at the FSA office in the old Barnes Hotel building on West Main St.

He pointed out that limited funds will make possible only a relatively small number of loans this year. Loans are repayable over a 40-year period of three per cent interest.

The tenant purchase program has been in operation in Bulloch county for the past two years, and during this time, loans have been made to 15 tenant farmers, who are now operating their own farms.

Additional loans will be made here this year. Farmers who already have applications on file for a tenant purchase loan, will not be required to fill out new forms.
