## COLLAPSE OF FARM "PLANNING"

It is a shocking picture that the world's agricultural "planners" look out upon when they survey the results of their handiwork in the crops that

Let us begin with wheat. There is practically no important country in the world that has not got a Government "wheat plan" of some sort. Stadisticians have calculated that various governments are jointly spending more than \$2,000,000,000 annually in an effort to hold up grain prices. After all their activities in recent years the prospective world supply of wheat for 1939-40 is placed at 5,290-000,000 bushels, the greatest on record, while wheat has fallen in the Liverpool market to the lowest prices reached since Queen Elizabeth's time. It is of small satisfaction that by a tariff and Government loans we have kept American wheat from falling quite as low. September wheat at 60% cents on Monday fell within three-fourths cent of the lowest price at which any wheat future has sold

Some of our own government policies have certainly made the plight of the American wheat grower worse. It is futile for a country that grows wheat for export in a competitive market to adopt an acreage restriction scheme. Our own restriction is not great enough materially to affect the world price, while it reduces farm income by reducing the amuont of wheat we have to sell. It has not helped us to subsidize wheat for export. In combination with other countries doing the same thing, the result has merely been to push down the world price

States Government sold 93,754,000 bushels of wheat in the export markets at a loss to the Government of \$25,700,000, or 27.4 cents a bushel. The foreign consumer, in other words was able to get his wheat cheaper at the expense of the American taxpayer. That is hardly the path to national enrichment.

Corn also is now selling at the lowest prices since 1933. For this our own government policy must again bear a large part of the blame. Last year and the year before the Government made "non-recourse" loans to enable the farmers to hold large stocks of corn off the market. The loan rate was made so attractive that it even paid farmers to build extra cribs to store on their own farms the corn under Government loan. So the farmers withdrew from the market and stored in their own cribs some 257,000,000 bushels of 1937 and 1938

time. But these loans fall due on August 1, and room for the new crop. Fears that the Governloans and sell it have been depressing the market. The price can be kept up, perhaps, by new Government loans so big that it will be profitable for the farmers to build still more cribs to hold still more unsold corn. Is this to be the outcome of Mr. Wallace's "ever normal granary"? At present prices the Government already has a loss of about 25 cents a bushel on the corn under the present loan. The prospective carry-over of corn on October 1 next is already estimated to be at a record high

For the present plight of cotton the direct responsibility of our Government's policy is a very heavy one. The crop-restriction policy itself is indefensible on several grounds, but much worse in practical effect has been the Government loan policy. Under that policy the Government has placed an entire years' American cotton crop in warehouses; the American price has been kept above the world price; and as a result, in the "cotton year" that ends with this month, the United States will have exported only about 3,400,000 bales, the smalest export in 60 years.

In the 1932 year the exports of cot ton amount ed to 8,766,000 bales. The difference is not to be accounted for by any decline in world demand On the contrary, in the same period in which our exports fell off by more than 5,000,000 bales world consumption of all cotton rose by about 3,000,000 bales. Other producing countries have stepped into the place in world markets that we abandoned.

pose abandonment of either the restriction policy spite of the bad results in wheat, Secretary Wallace announces that beginning today the Government will subsidize the export of cotton to the extent of 11/2 cents a pound. In other words, having post office at Statesboro, Georgie, under the Act artificially and at great Government expense held cotton off the world market, we are now artificially and at further Government expense to try to force some of it onto the world market

But the results will be much more serious than in the case of wheat. For cotton is a raw material that goes into manufactures. What we will be do-Times an editorial entitled "Collapse of Farm ing is to give foreigners cheaper raw cotton to Planning". We believe it will be of interest to a compete against our own manufacturers in our own markets and in world markets. To compensate, Mr. Wallace will also subsidize exports of finished cotton goods. But this leads merely to the building up of a whole series of bureaucratic controls. And we are doing all this at the very time when we have placed countervailing duties on importations of silks from Italy and a whole range of products from Germany, on the ground that these importations are subsidized. In other words we are deliberately undertaking what we officially penalize as unfair and demoralizing competition when it is done by other nations.

This is the end result of the "orderly Government planning" that was to supplant the "chaos" of uncontrolled agriculture.—The New York Times.

## The Editors Uneasy Chair-

THE ALMANAC SAYS THE WEATHER

Today, August 10, will be unsettled Friday, August 11, will be milder. Saturday, August 12 will be mild Sunday, August 13, will be windy, Monday, August 14, will be windy. (New Moon)

Tuesday, August 15, will be showers.

Wednesday, August 16, will be sultry. But Don't Blame Us If The Almanac Is Wrong!

The new City Drug Company proved a popular spot Tuesday as George and Sidney Lanier town up with cold drinks. We know a number went back two or three times to get a free

And a person who has recently moved to Statesboro says the city should furnish trench helmets to pass under the trees on the court house square. Mr. Dave Turner of the Times wrote an excellent editorial some time back on our starling problem. The helmet idea might not be a bad one at that.

Congratulations to Miss Lavada Martin, the healthiest 4-H Club girl in Bulloch county and the First District

the stalks of "Buddy" Mills sugar cane. Seems to us that there is not as much sugar cane being planted in Bulloch county as there used to be. We wonder why. Or maybe there is and we just don't

in average price per pound for tobacco for the second week with 1,480,484 pounds sold for \$220,-338.70 at an average of \$14.88. These figures are according to a report made by the state department of Agriculture.

There wil be music in the air one day the latter part of November when more than 500 people lift their voices in song at the Harvest-Home Festival. And the Rotary Club is going to show the farmroom for the new crop. Fears that the Govern-ment will be forced to take 100,000,000 bushels or ers of Bulloch county next Monday that the mer-to his home in Miami, Fla., without having found chants and business men of Statesboro are not

By Dr. O. F. Whitman

HEALTH HINTS IN HOT WEATHER

In the face of the current spell of hot weather, post office, succeeding D. B. Rigdon. the Bulloch County Department of Health casts aside the oft-repeated advice of "drink at least 8 glasses of water a day," and advises Bulloch Countians to drink plenty of water and add salt to the diet in order to replace bodily fluids and minerals lost through prespiration. Nervous depression, exhaustion, and in some cases callaspe, occur when excessive amounts of water and salt are lost and

Buloch Countians are further advised not to ovreat; the diet should consist largely of starchy food, fruits and vegetables, with very little pro-

Heat exhaustion and sunstroke are different conditions; the temperature of the body falls below normal in heat exhaustion but rises in case of sunstroke. Symptoms of heat exhaustion include weak pulse, giddiness, and nausea. In sunstroke, however, there are head pains, feeling of oppression, dizziness and occasionally nausea and vomiting, followed by unconsciousness, flushed skin, rapid pulse

Following are suggestions in maintaining near normal bodily temperature in the face of hot weather or great external heat: (1) Drink plenty of water and soft drinks. (2) Add salt to the diet. and if necessary to water, to replace minerals lost with prespiration. (3) Don't eat too much. (4) Acquire suntan gradually. (5) Avoid strenuous work in the heat of the day. (6) Black Cloth absorbs heat; wear light colored clothing. (7) Elderly persons will derive comfort from relaxation, rest and an electric fan or similar means of providing

## **Know Statesboro**

POLICE RECORDS

The Police Docket of the City of Statesboro reveals that 189 cases have been tried in the Mayors Court during the seven months beginning January 1, 1939, and ending July 31, 1939.

Drunk charges proved to be the greastest offence entered on the docket during the seven months. Eighty-eight cases were heard by Mayor R. L. Cone. One man appeared eight times charged with

Disorderly conduct proved second in number of offences with 64 cases entered on the docket. Other offences include fighting, 22; reckless driving, 5; speeding, 8; operating disorderly house, 3; failure to pay business license, 1; operating car under in- RAISING TRUCK CROPS IN BULLOCH COUNTY fluence of liquor, 1; wife beating, 1; and peddling

Of the 189 cases tried 24 entered pleas of not

Only 6 cases were dismissed or discharged

The 189 cases drew fines amounting to \$1627.50 and or sentences totaling 3,155 days. The maximum fine was \$25 and the minimum was \$5. In 46 cases bonds were forfeited.

An interesting fact is revealed in the fact that of the 8 cases made for speeding, 3 were made against boys less than 20 years old. Not a single parking offence appears on the docket.

For the same period last year the docket revealed 146 cases, 43 less than this year.

## In The News----

An important transaction of the week was the sale by Lannie F. Simmons yesterday to L. J. Shu-Street. Mr. Shuman has assumed charge and will

continue the business at the same stand. Chief of Detectives L. O. Scarboro has returned of the \$992 in currency which he lost in the Ogeechee river on Thursday while fishing. Statesboro Tobacco market average \$18.33 per

100 pounds last week. Ensign J. H. Brett, Jr., and Miss Martha Mack of Washington, D. C., were married in San Pedro, California on July 19.

The cotton market has opened in Statesboro, two new bales having been received to date. The first Bulloch county bale was brought in yesterday morning by Mrs. J. R. Gay of Portal, and weighed 340 pounds. It was produced by a tenant on the Gay Farm, Ira Johnson. On the afternoon of Tuesday, the frist bale was brought in by A. J. Woods, who lives on an adjoining farm in Jenkins county. It also was a light bale.

4. St. Johns, Newfoundland, is about 130 miles

5. Washington was the richest man in America and at his death his estate was valued at \$5,000,000. 6. The ONE appears 25 times.

7. Gen. Lafayette was only 19 when he took ommand of American troops.

8. Columbia University, New York City. 9. The walls will not be exactly paralell, a lib-

tle wider at top, because of the curvature of the Salt. Roman troops were paid a stipend to buy salt and all pay became known as SALARY.

## Letters To The Editor....

Statesboro, Georgia, August 5, 1939.

Until recent years tobacco was not raised in this county as a money crop. Now tobacco is the farm

We farmers all know that our land is capable of producing any crop of the vegetable kingdom, provided it has the right kind of attention, fertilizer,

From observation we see cabbage grown from lovember to July, but this is done only on a small scale. If this crop planted in large acreage and shipped to Northern markets in the green state, instead of matured, we would, I believe, get a price sufficient to warrant its cultivation, also use the land for a summer crop.

Tomatoes are another crop that can be put on the market in September and October. I have demonstrated this fact in Screven County in a small

I am now a citizen of your county and of course as a would-be progressive farmer would like to see all prosper, and we must, by necessity, get our prosperity from that source. Hoping that this will escape the waste basket

this time, if so, I have something to say later.

COTTON QUERY

RFD 2, Statesboro, Georgia.

Arabella in her bemberg

There's a Cabin in the Cotton,

But no Cotton in the Cabin: Aunt Jemima's getting supper In a dress of acetate; Uncle Peter in a polo shirt And pants of rayon yarn, Wears a tie of purple sik-spun While he's milking in the barn; Sara Manth's peelin' 'taters in Her brand new celanese;

's on the doorstep shellin' peas; Baby Ned and little Eva, Crawlin' round the cabin floor. Have on little lastex rompers From the 5 and 10-cent store; Oh! the Cabin's in the Cotton still,

Just like in verse and song,

But with no Cotton in the Cabin, will It be there very long? -Chas. E. Fenner.

## GET MORE FOR YOUR TOBACCO!! Sell With COBB AND FOXHALL

WE ALWAYS GET YOU TOP PRICES FOR YOUR TOBACCO AND RENDER COUR-TEOUS AND FAIR TREATMENT TO EVERY PERSON SELLING WITH US.

The STATESBORO TOBACCO MARKET has been open exactly two weeks and the Market has been blocked every day since the opening. This congested condition will be relieved by the first of next week and we will have plenty of room to take care of

you and sell your tobacco the day you bring it in.

While the prices on the Georgia Markets have not been as good this year as for the past several years, yet the offcial government report for week ending August 5th shows STATESBORO LEADING ALL GEORGIA MARKETS in High Average Price.

If you have sold with COBB & FOXHALL this season we want to take this opportunity to tell you how much we appreciate your business. If you have not been one of our customers we would like to sell the remainder of your crop and show you how hard we will work for your interests and get you the top-notch price on every pile.

We give below a few of our sales made this week: Bring us your next load and we will do as good or better for you.

Make Homes

Cooler in Summer

Vhen the summer sun beats down, Carey Cork Insulated Shingles make houses much cooler. The cork layer provides real insulation, while the extra thickness makes a beautiful, deep shadow-lined roof.

Yet this unusual shingle costs much less than the price of ordinary roofing plus the price of separate roof insulation. Let us supply samples and quotations.
