ESTILL'S WINNING WAY

ESTILL'S CAMPAIGN METHOD
TALKING WITH THE
PEOPLE

The campaign for Governor Estill is the widest spread effect of the quiet work that is being done over the state by Col. J. H. Estill and his friends, is beginning to dawn more forcibly upon the politicians here and those who visit Atlanta and talk over the situation. At first some were inclined to minimize Col. Estill's campaign for the reason that he made no speeches, and less was heard from him, perhaps, than from the other candidates. Now they realize what a strong campaign he is making by meeting the people everywhere face to face and discussing with them in conversation the issues before the people, and they are talking about it more than ever.

"Some of the most effective campaigns Georgia has ever known, have been made by hand shaking and by quietly mingling among the people and talking to them close at hand instead of from platform," remarked an old time politician who visited the Capitol this week. "Even some of Georgia's best known orators on the stump have come down from the platform at times and mingled closely with the people, and they found it, if anything, more effective than the plan of speaking which seems to keep the campaign at a distance. In recent years we have one of the most remarkable examples of a hand shaking campaign on record, that of Col. O. B. Stevens, commissioner of agriculture. I would not be surprised if Col. Stevens shook the hands of half the voters in Georgia during his first campaign. Why he was up in the northern part of the state only the other day and had to stop over at Dalton for half an hour between trains. He got a buggy, drove around the town and within that time he had shaken hands with thirty of the prominent citizens."

"It is a thing the people and I believe it is making a success of that gathered at the discussing the attitude of moderate veterans the subject came to the dispatch to a Confederate veteran he had polled three veterans in the race for governor for private John H. himself and four could see."

"There is no doubt about the winning campaign," remarked another member of the He is getting close to people and his views are that the people indorse, and News.

"Household Name." "Royal Baking Powder" is a household word pretty much the civilized world over, and the article itself has become a necessity in thousands of families in nearly every civilized country. The success of this splendid preparation is due to the fact that it is represented to be a pure cream of tartar baking powder. One of its great recommendations is its high leavening power. That, of course, appeals to every housewife. It secures a light baking with the least amount of attention and trouble. It can be counted upon. But it has a virtue beyond that—it is "absolutely pure." Royal Baking Powder contains nothing deleterious. It can be used with perfect confidence, and with the certainty that, so far as it is concerned, the baking will be thoroughly wholesome.

A CLASH OF RACES

Lively Battle Between Whites and Blacks Reported.

SCENE NEAR JASPER, ALABAMA

Many Shots Are Exchanged by Warring Forces—Governor Gives Permission to Call Out Local Militia.

Information has just been received of a race riot 12 miles east of Jasper, Ala., late Wednesday afternoon. One hundred and fifty shots are reported to have been exchanged, but the casualties were not given. A farmer named Murray arrived in Jasper about 7 o'clock for ammunition and returned at once to the scene.

Sheriff Moore called Governor Jelks to call out the local militia company. The trouble has been brewing for some time and is the outgrowth of a bitter racial feeling which was further accentuated by two blacks in the vicinity being taken out and whipped by the whites for stealing.

Sheriff Moore received a telegram from Governor Jelks authorizing him to call out the local militia company whenever he thought it necessary. Captain Hanna has also been instructed by the governor to respond to the call of the sheriff.

LAWYER PATRICK GUILTY.

Convicted by New York Jury of the Murder of the Recluse Millionaire, William Rice.

At New York Wednesday, Albert T. Patrick, lawyer, was convicted of the murder of September 23, 1900, of the aged millionaire recluse, William M. Rice.

The penalty under the statute is death in the electric chair.

A scant three hours of deliberation at the close of the trial prolonged for nine weeks and replete with sensational interest, sufficed to enable the jury to reach their verdict.

Patrick, charged with the murder of the aged recluse, was found guilty of the crime by a jury of 12 men.

At the close of Recorder Goddard's charge, which occupied the morning session of the court, the jury retired. It was at 1:50 p. m. at 5:55 they notified the officer in charge that they were ready to return to the court.

Calm as ever, and with confidence seemingly unshaken, the prisoner was escorted into the court room and stood facing the jury with head erect and hands loosely clasped behind his back.

At the world "guilty," pronounced by Foreman Mackel in a low tone, a distinct groan to be heard throughout the court, not the slightest change passed over Patrick's face, and he remained standing in an almost listless attitude while the entire poll of the jury was being taken.

Captain Patrick, the aged father, after taking leave of his son, who was led back to the Tombs, would only say:

"It is hard. We'll have to try again."

None of the jurors would be induced to reveal how the verdict had been reached, an agreement having been made to tell nothing.

A motion will be made for a new trial when the prisoner is arraigned to sentence.

STAHLMAN SUES EDITOR.

More Trouble Over Methodist Book—Concern Bill Passed in Congress.

Major E. B. Stahlman, of Nashville, is in Washington taking the testimony of prominent senators and representatives relative to the Southern Methodist book concern bill and its passage through congress.

He is taking these for use in a suit for libel which he has brought against Dr. Palmer, the editor of the church paper at St. Louis, which, it is understood, criticized Major Stahlman's action in respect to this bill very severely.

BLESSED THE LORD, SAYS KRUGER.

DR. MILLER ANSWERS.

Mr. Editor:

As I am a candidate for Representative of Bulloch county in the next general assembly, I suppose I must answer the questions propounded in the News week before last. I will say I am opposed to state prohibition, and I am in favor of each county voting for itself on the dispensary question.

Respectfully,

REGISTER REGISTER!

Under the rules of the state executive committee, you must register your name with the Tax Collector at once, if you expect to vote in the state primary on June 5th. The Tax Collector will be at Statesboro on the first Monday in April, and at Superior court, and will also attend the Tax Receiver on his rounds to give you a chance to register. Don't forget it. Don't delay it.

Rules for State Primary.

Below we give the paragraph of the rules adopted by the State Democratic Committee as to who can vote in the state primary. It opens the door to all white voters, who intend to support the nominees.

It is further ordered, that all white voters, without regard to past political affiliations, who desire to align themselves with the democratic party and who will, if their right to participate in said primary be challenged, pledge themselves to support the nominees of the democratic party, are hereby declared entitled to vote therein, and are cordially invited to do so.

"We are democrats. We love our country. Our hearts beat true to its institutions. We would rescue the government from the hands of those who are converting it into a government of the trusts for the trusts and by the trusts, and restore it to the hands of those who will have some regard for the rights of the people. The republican party is a syndicated party. Arbitrary power is its motto. The mighty dollar is its trade mark. If it be not checked in the gate it is going, it will in the end surely Mexicanize the Republic.

"Once again in the white house we have the man on horseback. Affecting the simplicity of the nation, he conceals beneath the self-conscious and queer manners of the broncho buster the sentiments and emotions, if not the talents, of a Diaz.

"To him, a little thing like treating an admiral of the navy, the marquis of the laurel leaves of imperishable renown as if he were a baby in arms, now to be handled and now to be spanked, is merely an unadvised affair begun and ended during of moments between breakfast and luncheon. To him, the reprimanding of the lieutenant general of the army, grown gray in the fighting of the battles of his country, becomes an amusing horseplay, meant to relax his muscles and illustrate his high mightiness, whilst warning lesser officers of the army to obey orders and say nothing. As to these things, go forward, partaking somewhat of the character of feats to divert and blinds to hoodwink public opinion, a bill of army reorganization is prepared and argued upon congress which, if it becomes a law, will make the power of the president absolute, and which it is not too much to say ought to be entitled, 'An act to make the president of the United States a military dictator.' Because he reprimanded the lieutenant general for answering the summons of a committee of congress, as was his duty, expresses an opinion adverse to this bill, it is proposed to retire him from the service. Taken in connection with some other matters of more or less sinister suggestion, these are menaces of most ominous import.

"But, turn from the white house to the capitol and look at the republicans in congress.

"The trail of trademark is over them all. Old high tariff dances the can-can the horse, while old ship subsidy does the regular cake-walk in the senate. Everything for the syndicates. Nothing for the people.

"And, not content with their arbitrary power in the white house and their mercenary power in congress, the leaders of the party of federalism and false pretension would rip open Pandora's box to fling thence the black, pitiful flag of negro domination—the equally disreputable and bloody shield of sectional agitation—and, in order to make sure of the next house, they are proposing to bring forward another force bill to smite the south, to blight the north and to convert a land teeming with love and peace into a land reeking with hate and strife. Such is the banquet to which the exit of McKinley the statesman and the advent of Roosevelt the rough rider has invited us.

"I am something of a jingo myself. I believe in the expanding greatness and glory of my country. I never see the flag floating above the dome on your capital that my heart does not throb with the proud, glad thought that my eyes do not fill with happy, exultant tears that I too, am an American citizen. God bless the flag. God bless the boys that fight beneath it. God bless the boys that fight beneath it. I would carry it inviolate. I would keep it spotless.

Waycross is the last town in the state we would have suspected as turning out a man with horns and Valdosta the last place where the fraud would be detected. The Waycross tiger liquor must be worse than the Valdosta bunskull.—Tifton Gazette.

The candidates now have two months in which to stir around.

God bless the flag. God bless the boys that fight beneath it. God bless the boys that fight beneath it. I would carry it inviolate. I would keep it spotless.

There is something of a jingo myself. I believe in the expanding greatness and glory of my country. I never see the flag floating above the dome on your capital that my heart does not throb with the proud, glad thought that my eyes do not fill with happy, exultant tears that I too, am an American citizen. We Have The Man on Horse Back In The White House Watterson.

Washington, March 21.—About one hundred and fifty guests were present tonight at the biennial banquet of the Virginia Democratic Association, held in the banquet room of the Metropolitan hotel. They included democrats of national prominence and most of the political leaders and democratic members of congress from the old Dominion. Those who spoke included the following:

T. W. Bullock, second vice president of the association; Colonel Henry Watterson, of Kentucky; Senator Caramack of Tennessee; Hon. Lewis Nixon, the leader of Tammany Hall; Representative W. W. Kitchens, of N. C.; Representative DeArmond, of Missouri, and members of congress from Virginia.

Col. Watterson urged on democrats a general union of forces in opposition to imperialism in all forms. He said: "There is no drop of blood in my veins which is not Virginia blood. Although for purposes of my own, having a deep desire beneath them, I chose this capital of the nation for my headquarters, my earliest vision of paradise—the very dawn of all my conception of honor and duty and glory—nestled among yonder hills across the Potomac, and when I go hence, my ashes shall repose upon the bosom of Kentucky, Virginia's first-born and fairest daughter.

"We are democrats. We love our country. Our hearts beat true to its institutions. We would rescue the government from the hands of those who are converting it into a government of the trusts for the trusts and by the trusts, and restore it to the hands of those who will have some regard for the rights of the people. The republican party is a syndicated party. Arbitrary power is its motto. The mighty dollar is its trade mark. If it be not checked in the gate it is going, it will in the end surely Mexicanize the Republic.

"Once again in the white house we have the man on horseback. Affecting the simplicity of the nation, he conceals beneath the self-conscious and queer manners of the broncho buster the sentiments and emotions, if not the talents, of a Diaz.

"To him, a little thing like treating an admiral of the navy, the marquis of the laurel leaves of imperishable renown as if he were a baby in arms, now to be handled and now to be spanked, is merely an unadvised affair begun and ended during of moments between breakfast and luncheon. To him, the reprimanding of the lieutenant general of the army, grown gray in the fighting of the battles of his country, becomes an amusing horseplay, meant to relax his muscles and illustrate his high mightiness, whilst warning lesser officers of the army to obey orders and say nothing. As to these things, go forward, partaking somewhat of the character of feats to divert and blinds to hoodwink public opinion, a bill of army reorganization is prepared and argued upon congress which, if it becomes a law, will make the power of the president absolute, and which it is not too much to say ought to be entitled, 'An act to make the president of the United States a military dictator.' Because he reprimanded the lieutenant general for answering the summons of a committee of congress, as was his duty, expresses an opinion adverse to this bill, it is proposed to retire him from the service. Taken in connection with some other matters of more or less sinister suggestion, these are menaces of most ominous import.

"But, turn from the white house to the capitol and look at the republicans in congress.

"The trail of trademark is over them all. Old high tariff dances the can-can the horse, while old ship subsidy does the regular cake-walk in the senate. Everything for the syndicates. Nothing for the people.

"And, not content with their arbitrary power in the white house and their mercenary power in congress, the leaders of the party of federalism and false pretension would rip open Pandora's box to fling thence the black, pitiful flag of negro domination—the equally disreputable and bloody shield of sectional agitation—and, in order to make sure of the next house, they are proposing to bring forward another force bill to smite the south, to blight the north and to convert a land teeming with love and peace into a land reeking with hate and strife. Such is the banquet to which the exit of McKinley the statesman and the advent of Roosevelt the rough rider has invited us.

"I am something of a jingo myself. I believe in the expanding greatness and glory of my country. I never see the flag floating above the dome on your capital that my heart does not throb with the proud, glad thought that my eyes do not fill with happy, exultant tears that I too, am an American citizen. FENSON A WHIFFER SNAPPER

"And, with this in view, I want to know what is going on away out yonder across the modifications, the mysterious waxes of the pacific sea. I want other witnesses than self-seeking politicians and self-exploiting sly dogs to come here and tell me. I refuse to hold my tongue. I refuse to be content. And, if I am told by a whiffer snapper in shoulder straps that unless I do I am a traitor to my country my reply to him shall be a slap in the face.

Friends, brothers, democrats, let us have done with dissension. Let us turn our backs on the past, our eyes to the future, calling the old light off and the old scores square. He who stands with us against these things is my comrade no matter what he thinks or ever thought about silver or gold.

"He who would deny me a place by his side to fight them must either be very perverse or very blind. Let us cross no bridges till we come to them. But already we can see far enough ahead to take our reckoning. There will be but one test of a democrat in this—the line—no, the line—saying to arbitrary power and absolutism: Thus shall go no further; we, too, are in the expansion business; but our expansion means peace, not war; the honor, not the degradation of the flag; and just as surely as Jefferson wrote the Declaration of Independence and Jackson fought the battle of New Orleans—to resist despotism—shall we make a Fourth of July and celebrate another eighth of January, in resisting the unchristian scheme to abolish the constitution and Mexicanize the government.

ECONOMY IN BAKING.

There is more dependent upon the baking powder, so far as economy in making biscuit and cake is concerned, than in any other one thing. The cheap alum baking powders average about five per cent. of leavening gas. Therefore it will take three times as much alum powder to raise the same cake or biscuit as it does of the Royal powder, for instance, which is a cream of tartar powder with three times the leavening strength, so the actual cost with the alum powder is the greatest. Further than this, however, the cream of tartar powder makes the finest kind of food, while the alum powders frequently fail when all the eggs, flour and butter used are wasted.

The greatest economy in the use of a baking powder like the Royal is in the healthfulness of the food it makes. It saves in doctor's bills many times its cost over alum powders.

In the Justice Court.

In the rural district a prisoner was brought before a justice who had been in his chum in boyhood. The prisoner, being on familiar terms with him, addressed him as "Bill," and contradicted him several times.

"I'll have to fine you for contempt of court," said the justice.

"That's all right Bill, old boy," was the reply. "Do what you like now, but Lord have mercy on you when I get you outside!"

Several of our citizens attended church at Lower Lotts creek last Sunday.

The Long Cotton Gin
Has many advantages, compared with those of modern times. A double roller gin of two lengths, 3 1/2 to 5 feet length. The 3 1/2 foot gin will gin from 3 to 4 bales in ten hours. The 5 foot gin will gin from 4 to 6 bales in ten hours.
These Gins are Adjustable, in every way, instantly, while running, to suit all classes of cotton. Hackers are raised alike, with one nut or let down with the same. Tension to both blades are given with one nut against rollers. Any pressure desired. Best of gin adjustable every way. Rollers are the same towards and away from blades up and down, lifted by means of hand wheels. It is all done a moment's time, while running. One man does the work of two. It saves house room, power, oil, labor, length of shaft, pulleys, leather, one crank shaft, for it has but one, and it will gin a thousand bales without being re-habited.
