TOBACCO WAREHOUSEMEN AND BANKERS MEET IN RALEIGH N. C.

Of interest to the tobacco growers of this section was a meeting held in Raleigh, N. C., recently, attended by bankers from Georgia, together with bankers and to bocco warehousemen from other sections in the tobacco belt.

The purpose of the meeting was to develop a workable plan to strengthen the outlook for tobacco prices for this year. At the meeting it was voted to ask Congress to enact legislation calling for an additional three-year control program following 1940. It was pointed out that if the threeyear program is enacted by Conand approved by the growers the Department of Agriculture would endeavor to support the tobacco market this year at the same level of last year's average or possibly higher.
