THE BULLOCH HERALD

Dedicated to the Progress of Statesboro and Bulloch County. Published Every Thursday. Statesboro, Bulloch County, Ga.

RATES OF SUBSCRIPTION \$1.50 Per Year \$0.75 Six Months. Entered as second-class matter, July 16, 1937, at post office at Statesboro, Georgia, under the Act of March 3, 1879.

This Week's Sermon

If God made no response except to perfect faith, who could hope for help? But God has regard for beginners, and His eye perceives greatness in the germ. The hand of the woman in the crowd trembled as it was stretched toward Jesus, and the faith back of it was superstitiously reverent, trusting in the virtue of the reverent, trusting in the virtue of the robe, rather than the One who wore it; yet the genuineness of that faith, though it was not, triumphed in God's loving sight. Real trust is real power, though the heart and hand be feeble.—Mattie Babcock.

Silver Lining of A Clouded Year

FOR THREE CENTURIES the breaking waves have dashed high on New England's rock-bound coast, since the day when Pilgrim fathers shot the Indians away from their front door so they could eat turkey and cranberry sauce in peace—and thank the Almighty for another harvest.

They probably added to their Thanksgiving Day prayer their fervent gratitude that they were still unperched by savage arrowheads, and their skulls were still uncracked by the tomahawk, and that they could still comb their long hair without the scalp coming off.

Again today we celebrate Thanksgiving with much of the world either clouded with the black thunderhead of war, or ground under the heel of some grasping tyrant. The activities of the soldiery across the two blessed oceans make us wonder if we have progressed sensibly from arrowheads and tomahawks to tanks and bombers.

As our nation grinds to keep our cities and countryside free from blood and destruction, we feel that this Thanksgiving we indeed have REAL reason to be grateful. Let us approach our celebration of this holiday in the courageous hope that we may be men and women enough to keep our country safe.

Let our motto be: GOD HELPS THOSE WHO HELP THEMSELVES.

Our 4-H Clubs

There is in Bulloch county a program which stands out as one of our best defense programs in this democracy. The 4-H Club program.

Since its inception twenty-five years ago it has grown to be the greatest force in the progress and development of rural America and there is no doubt that the lifeblood of our national defense program depends on our vast agricultural resources and their conservation.

The 4-H Club helps young people to keep in touch with the finer things in rural life, and develops wholesome, industrious and public-spirited leaders and citizens.

Besides the regular projects which go with membership in the 4-H Club the members are organized into county and community organizations, under the supervision of the county or home demonstration agent. They elect officers from the membership, and they preside over each of the meetings and plan the programs.

They learn and teach better ways on the farm, in the home, and in the community. They work, earn money and acquire property. They build up their bodies and improve health through right living.

Never in the history of this nation has there been a greater need for safe and sane leadership. Four-H work is continuing to lead the way in helping young people develop into happy, prosperous, and leading American citizens—a great force in keeping America free.

Our County Neighbors

People in Bulloch county have been very interested in the boundaries of Camp Stewart, which is the official name assigned to the anti-aircraft training center at Hinesville. We here have been most interested as our neighbors in Evans, Tattnall, Liberty, Bryan and Long counties.

So we receive with additional interest the announcement of the boundaries of the area set aside for the Camp Congressman Hugh Peterson released this information on Saturday last week and published by R. E. L. Majors in the Claxton Enterprise. He states that the release was authorized by Major General E. B. Gregory, quartermaster general. It set out that present plans call for military use not later than March 1.

Following is the War Department statement: "The War Department through the land acquisition facilities of the Soil Conservation Service, Department of Agriculture, is now proceeding with the appraisal and purchase of lands for the site of the large anti-aircraft training center to be located in parts of Liberty, Bryan, Long, Tattnall and Evans counties. The area to be acquired is roughly that described as follows:

"Beginning from a point one and one-half miles north of Hinesville, northwest to the vicinity of Alton (but excluding the villages of Smiley and Alton); thence due north to a point approximately four miles south of Claxton; thence easterly paralleling the Seaboard Air Line and approximately four miles south thereof to the Ogeechee river; thence southeast along, but exclusive of the Ogeechee river, to the Atlantic Coast Line Railroad; thence southwest paralleling the Atlantic Coast Line Railroad right-of-way to the vicinity of but exclusive of McIntosh; thence Northwest to the starting point (exclusive of the village of Flemington).

"Appraisals and negotiations with land owners have not yet progressed to the point where any definite western boundary can even be estimated but in general it is believed that all farmers and residents within Liberty and Bryan counties should make preparations to vacate the lands and move all personal property, livestock, etc., not later than March 1st, 1941, as present plans call for military use of the property on that date.

"The foregoing does not mean that lands in Evans, Tattnall and Long counties will not be acquired, but from present indications lands in the last mentioned areas will be in the nature of a second priority and residents thereof should make plans accordingly. In the event crops are planted on lands in the last mentioned counties before said lands are acquired by the government, the owners will, of course, be compensated for the value of the crops as of date of acquisition."

Why mourn for cotton? If a nine-months-old calf can be sold for as much as a bale of cotton, why should anybody be grieving about the detroning of cotton as king in Georgia?

A cow that can be bought for fifteen or twenty dollars brings a calf each year, raising the calf on her milk, while she eats grass that the cotton farmer has to fight at considerable cost every year in the growing season. Winter grazing for the cow can be had for about the cost of planting the cotton, and the grain in the spring nets about as much as the cotton, perhaps more.

Soil devoted to constant growing of cotton is being depleted year by year; that which supports the cow and her calf is growing richer and stronger year by year.

One man with modern equipment can raise a hundred calves with the aid of the mother cows, while many men, women and children will be required to plant, hoe, plow, gather and market a hundred bales of cotton.

Two pigs at six months old, with proper feeding, will bring as much as a bale of cotton, and can be grown on the same land and with practically the same pasturage as the cows require.

Is it any wonder then, that Georgia farmers are turning more and more to livestock growing? Providence had to punish them severely to make them abandon cotton growing. The boll weevil, the droughts caused by the destruction of humus, the rust caused by the impoverishment of the soil—those and other evils did not accomplish the task. It remained for the exodus of labor from the farms to the towns. This caused some towns to create markets for other things besides cotton, and it forced farmers to adopt something that wouldn't require so much labor. Livestock was the result.—Exchange.

Never in the history of this nation has there been a greater need for safe and sane leadership. Four-H work is continuing to lead the way in helping young people develop into happy, prosperous, and leading American citizens—a great force in keeping America free.

It's natural that some people will deny that they are patronizing a merchant because of his advertising. Few merchants themselves will disclose others that a salesman persuade them to buy something. Both dislike to admit that they were talked into a purchase, but rather were following their particular line of logic.

THE ALMANAC SAYS THE WEATHER THIS WEEK: TODAY, THURSDAY, NOVEMBER 21, WILL BE RAINY. TOMORROW, FRIDAY, NOVEMBER 22, WILL BE RAINY. MONDAY, NOVEMBER 23, WILL BE RAINY. TUESDAY, NOVEMBER 24, WILL BE CLEAR AND COLD. WEDNESDAY, NOVEMBER 27, WILL BE CLEAR AND COLD. BUT DON'T BLAME US IF THE ALMANAC IS WRONG.

Bees in its honnet describes the condition of the court house here. The Honorable H. E. Cartledge, before whom all Statesboro and Bulloch county passes one or more times a week, called our attention to a stream of bees pouring out of the court house steeple at the very top near the weather vane. He tells of it and on for years the steeple has housed bees.

Today is Thanksgiving we have a heap for which to be thankful. First and most important of all, they enter the steeple by way of a hole in one of the faces of the clock and leave by way of a tiny hole at the very top of the steeple. Some days they come and go indicating they are working harder, (that is they are working harder according to Mr. Cartledge.) Burton Mitchell who takes care of the town clock says that for years he has known of the bees in the steeple. They come from time to time when he works on the clock. We suggest that Fred Hodges provide proper equipment and let the bees work for the county. We've been paying 20 cents for a tiny bottle of strained honey like that which is so content and so happy cause we know we won't have to choose between the 49 cent gifts and the \$24.99 gifts. We'll just go ahead and suppose we buy the \$24.99 one. We'll be interested in the well-being of the state and the benignity of his leadership.

FOR EVERYTHING! Thirty-five more days to Christmas! Isn't it wonderful? We'll say just this: we have no money, so we can really enjoy the pretty windows, go shopping to our heart's content and be happy cause we know we won't have to choose between the 49 cent gifts and the \$24.99 gifts. We'll just go ahead and suppose we buy the \$24.99 one. We'll be interested in the well-being of the state and the benignity of his leadership.

Letters To The Editor. Statesboro, Georgia November 18th, 1940. Mr. Leodel Coleman, Editor The Bulloch Herald, Statesboro, Georgia.

As an old timer on the faculty of the Georgia Teachers College I should like to speak a word for our "losing teams" of the past few years. I feel qualified to speak because I love the sport, not only when we win but also when we are on the losing end of the score. For fourteen years I have not missed a home game and I have therefore seen many teams pass in and out of the limelight. I have watched the progress of major members of the team, those who were excellent players and those who spent most of the game time spurring the team on from the bench. I have in mind one of the best ends we have ever had who now has as his boss the chief bench warmer of the same squad, who who went out for practice every day for three years and played about the last minute and a half of one game.

MR. AND MRS. GEORGE W. DEBROSSE WILL CELEBRATE ANNIVERSARY

Mr. and Mrs. George W. DeBrosse of this city are making plans to celebrate their fifty wedding anniversary, Saturday, November 30, at the Statesboro Woman's Club at 3:00 o'clock. They will be no invitations issued but all friends of this esteemed couple are cordially invited to attend this celebration. Mr. and Mrs. DeBrosse who are known throughout this section for their kindly neighborliness and their instant response when there is sickness or misfortune among their friends, came to Statesboro first in 1902, and resided here until 1915, when they returned to their home in Rome, Ga., where they lived for 17 years, leaving Rome for Valdosta. After three years spent in that city they again came to Statesboro where they have lived for the past five years. The couple who presented themselves before Magistrate Peyton W. Sale of Lincolnton, Ga., to be united in marriage on November 30, 1890, were twenty years old. An interesting fact is that the magistrate who was then 39 years old is still living and desires to attend the celebration here if his health permits. Mrs. DeBrosse was formerly Miss Nettie V. Albee of Lincolnton. They are both members of the Methodist church, and are members of the Eastern Star. Mr. DeBrosse is a Mason.

ENJOY THE TRIPLE THRILL OF DODGE FLUID DRIVE

1. Shift or not, as you like! Nothing new to learn. Simply less to do. Greater control—added safety. 2. Great in Traffic! You start and stop smoothly without jerk or jar. And when you want it, a kick of your finger into the getaway gear gives you a burst of speed. 3. The Smoothness of Oil! Power from the engine is transmitted to rear wheels through a shock-absorbing cushion of oil. Combined with Floating Power, Dodge Fluid Drive gives unbelievable smoothness, ease of handling and longer car-life—and this, of course, is another example of famous Dodge economy.

W. H. Smith to Go to Athens

THE BULLOCH HERALD

DEDICATED TO THE PROGRESS OF STATESBORO AND BULLOCH COUNTY

Statesboro, Ga., Thursday, November 28, 1940

Rites Held For E. A. Smith Wednesday

E. A. Smith, 68, died suddenly at his home here Monday morning about 8 o'clock.

Mr. Smith was born and reared at Conyers. He later moved to Atlanta where he operated an oil mill. From there he came to Statesboro in 1905 and was engaged in the oil mill business here for many years.

Mr. Smith was a member of the Statesboro Baptist church and was active in all its activities.

He was one of the county's most successful business men and it is believed that he was one of its largest taxpayers.

Survived by his widow, Mrs. Smith, and two sons, Fred and Horace Z. Smith, all of Statesboro.

Funeral services will be held at 10 o'clock Wednesday afternoon at the Statesboro Baptist church.

Interment will be in the Statesboro cemetery.

National Guard Boys Living Camp Life At Local Armory

Those of you who have never cooked the night meal. These boys have been cooking a field kitchen right there in the armory, and when we passed through the kitchen they had grits, peas, tomatoes, and corn bread on the fire.

Strict army regulations are followed at the armory. They are living just as the army does.

Today Capt. "Snag" Johnson escorted us through the camp, and we were amazed at what we saw. Men were working in the supply room, medical department, and all the departments were in full make-up as an army. And to make it more real like we saw a group of men who were "off duty" playing a little card game.

The most interesting thing we saw was the kitchen and the men who were cooking the night meal.

Today Capt. "Snag" Johnson escorted us through the camp, and we were amazed at what we saw. Men were working in the supply room, medical department, and all the departments were in full make-up as an army.

Salute To Bulloch Is December 21. A special broadcast honoring Bulloch county will be presented here on December 21 in Statesboro, when station WSB, Atlanta, puts on an actual radio show in its "Salute to Bulloch" program. All musicians and other performers appearing on the show will be selected from citizens of this county. Before the radio program is presented, auditions will be held at a special committee to pick those talented entertainers who are to be on the air. And the night of the show, WSB will bring its equipment to transport the entire program, which will be played back for all those attending the performance. Then on Saturday night, Dec. 21, at 8:30 P.M., the show will be aired over WSB. Musicians, singers, or other entertainers are urged to file their application for an audition with production manager of WSB, which will be here on Wednesday, December 19, to supervise the selection of performers.

Bulloch County Barns Are Full Of 1940 Corn And Hay Crops. A bumper feed crop, of all kinds, was produced in Bulloch county in 1940. It is predicted that a continuous line of trucks are hauling corn from the county to middle Georgia. The some 100,000 acres planted to corn has averaged about 12 to 15 bushels per acre. The barns in the county are splitting their sides with hay, peanuts and vetch. The cold winter days last year caused farmers to plant more hay than ever. Then, too, a larger than average peanut crop was planted; perhaps the largest in the history of the county. Cap Mallard produced so much feed that he had to buy 500 tons of corn and cane. He is now buying cattle to feed this silage to the winter. His trench silo, the first to be put in use in the county, is located near his home on a hill. He will open the silo when the cattle are taken from the fields and fed during the time when it is not possible for the cattle to have any other succulent feeds. Cap says this 500 tons of feed is worth at least \$1000. Silage value as a feed lies in the fact that it is nutritious, bulky, and palatable and can be used at any time of the year when grazing is entirely lacking. Mr. Mallard plans to supplement the silage with grain and a protein feed so that the cattle can be fattened for early spring market.
