SOCIETY

STATESBORO P-T. A. TO MEET SEPT. 25

The first meeting of the Statesboro Parent-Teacher association will be held in the high school auditorium on Thursday afternoon, Sept. 25, at 2:30. After a short business session the meeting will adjourn to the lunch room where a reception will be held for the faculty. A large attendance is expected. Come out and join the P-T. A. and keep up with the school.

DOUBLE DECK CLUB

On Tuesday afternoon Mrs. Inman Dekle entertained the Double Deck club at her home. Zinnias and California peas were used in the rooms where the guests played bridge. For top score Mrs. Grady Atway won a plastic wood ash tray. Mrs. Percy Avelitt, winning cut, was given a potted plant. Mrs. Dekle served her guests limes sherbert with individual cakes lined in green and roasted nuts.

Other players were Mrs. Deane Watson, Mrs. Cecil Kennedy, Mrs. Loyd Brannen, Mrs. Percy Bland, Mrs. Harry Johnson and Mrs. Jack Carlton.

FRIENDLY SIXTEEN

Mrs. Reppard DeLoach delightfully entertained members of the Friendly Sixteen Tuesday afternoon at her home on Zetterowen avenue. Roses were attractively arranged in her rooms.

High score prizes, score tallies, were awarded at each table and were won by Mrs. Charlie Simmons, Mrs. Clarence Rhodes and Mrs. Penton Rimes. Mrs. Roy Bray received a deck of cards for low. The hostess served cherry pie a la mode and coffee.

Other guests included Mrs. F. C. Parker, Jr., Mrs. Kermit Carr, Mrs. Olliv Everett, Mrs. Billy Simmons, Mr. Andrew Herrington, Mrs. Ellis DeLoach and Mrs. Ernest Hebble.

ALFRESCO SUPPER FOR TREASURER SEEKERS CLASS. On Wednesday afternoon, Sept. 24, all members of the Treasurer Seekers class of the Methodist church Sunday school are cordially invited to attend their fall social at the home of Miss Malvina Trussell where they will be served supper on the lawn at 6 o'clock. Serving on the committee with Miss Trussell are Mrs. George

mer flowers. Her guests were Mrs. Bonnie Morris and her sister, Mrs. Harry Griffin, of Richmond, Va.; Mrs. J. P. Foy, Mrs. Inman Foy, Mrs. Frank Olliv, Mrs. Frank Simmons, Mrs. Bruce Olliv, Mrs. Thad Morris, Mrs. Dan Lester, Mrs. A. B. Anderson, Mrs. Waldo Floyd and Miss Penny Allen.

We will continue to use the Primitive Baptist church for a few more weeks. Mrs. Thad Morris received a handkerchief for low. Mrs. Griffin and Miss Allen were remembered with linen handkerchiefs.

MRS. CLIFF BRADLEY HOSTESS TUESDAY. Mrs. Cliff Bradley was hostess at morning and afternoon parties Tuesday. In the morning her guests were members of the Entre Nous club. At bridge Mrs. W. H. Blitch, with high score, was given a handkerchief and a novelty pin. Mrs. Glenn Jennings won a similar prize for cut.

Guests were invited for two table deck club at her home. Zinnias and California peas were used in the rooms where the guests played bridge. For top score Mrs. Grady Atway won a plastic wood ash tray. Mrs. Percy Avelitt, winning cut, was given a potted plant. Mrs. Dekle served her guests limes sherbert with individual cakes lined in green and roasted nuts.

1941 Winner of HAL STANLEY TROPHY For Typographical Perfection.

VOLUME NO. V DEDICATED TO THE PROGRESS OF STATESBORO AND BULLCLOCH COUNTY Statesboro, Georgia, Thursday, September 25, 1941

Blue Devils Open the 1941 Grid Season Here Tomorrow Night

When the opening whistle sounds off here tomorrow (Friday) night at 8:15 the Statesboro High Blue Devils will line up light and keyed up opposite an equally light and keyed up eleven from Monticello. It will be the first game of the high school's 1941 grid season.

With one of the school's highest squads to work with, Coach Red Tyson, former Mercer star, has developed a high-strung pony backfield working behind a line not much heavier. With the heaviest man weighing only 170 pounds and the lightest a mere 130 pounds, the Blue Devils will average about 140 pounds.

A preview of the squad on Monday shows that the Devils' fans will see much good blocking this year and a type of game that will depend upon a deceptive game played by light men, with high spirit.

Coach Tyson did not know this morning who would be the starting line-up for the game tomorrow night. He is understood that the Monticello coach, Doy O. Gay, formerly of Bulloch county, will bring a light but fast team to Statesboro for their first game.

Z. S. Henderson, W. S. Hanner and Jimmy Fordham are expected to officiate at the game. Work began Tuesday morning on the grandstand and the rail yard on schedule in spite of the spread of the epidemic of the disease which spread over the state.

The last case reported was at Leefield on Sept. 16. All the cases in the county are being well cared for.

ENTERTAINMENT AT DENMARK SCHOOL, OCT. 1. Do you like music? Do you like to hear a man play the piano? Do you like the accordion? Do you enjoy a good joke? Then come to the Denmark school Wednesday evening, Oct. 1, at 8 o'clock. You'll be sure to enjoy an hour and a half of music, both piano and accordion, and some singing by that joking, wise-cracking Mr. Bunting.

Classes began at the Georgia Teachers College today. Teachers college today (Thursday) for the fall term of the 1941-42 session and tomorrow at 10:15 the first general assembly will be held in the college auditorium.

President A. M. Gates is anxious to have as many citizens attend the opening assembly as possible and an invitation is extended to all citizens and particularly parents of students enrolled.

Freshmen reported for the fall quarter last Friday for a six-day orientation period. The first-year students registered Tuesday and upperclassmen registered yesterday (Wednesday).

W. L. Flannigan is new principal at Statesboro High. W. L. Flannigan, formerly principal of Soperton High school, succeeded W. L. McElvey, who was principal of the high school last year.

Mr. Flannigan, before he came to Statesboro, was serving as educational director of a civilian conservation corps. For three years he was principal at Soperton and has been teaching for more than fourteen years.

Mr. Powell resigned here to accept a teaching fellowship at the University of North Carolina, where he will teach freshman English and work on his doctorate in English.

ZETTEROWER BROS. OPEN NEW NITE CLUB TONIGHT. Leola and Charles Zetterower announce the opening of their new night club tonight. It is located at Rushing's pond, about four miles from Statesboro. Marion Carpenter and his orchestra will furnish music for opening night.

E. L. Poindester, commander of the Dexter Allen post, No. 90, of the American Legion, announced this week that R. H. Kingery, past commander, and R. L. Brady, adjutant of the local post, had been named to work with the two newspapers in Bulloch county and to cooperate with the United States navy in its campaign for enlistment of young men into the navy.

The enlistment campaign begins today and will continue for a period of nine weeks. Young men interested in joining the navy will be assisted by Mr. Brady and Mr. Kingery or the editors of The Bulloch Herald. There appears on another page in this issue of The Herald an ad which explains fully the nature of the campaign.

Mr. Walker had retired to his bedroom for a nap Monday afternoon. Going over to be assisted by Mr. Brady and Mr. Kingery to pull the blind down she was greeted by a two-foot rattler snugly retired on the window sill.

Mr. Brady and Mr. Kingery are not exactly Mr. P. G. Walker's idea of congenial company.

LEODEL COLEMAN, Editor; G. C. COLEMAN, JR., Associate Editor; JIM COLEMAN, Advertising Director

RATES OF SUBSCRIPTION: One Year \$1.50; Six Months .75

Entered as second-class matter, July 16, 1937, at the post office at Statesboro, Georgia, under the Act of March 3, 1879.

SENTENCE SERMON

There are those to whom a sense of religion has come in storm and tempest; there are those whom it has summoned amid scenes of revelry and idle vanity; there are those, too, who have heard its "still small voice" amid rural seclusion and placid retirement.

FOR YOUNG MEN ONLY

THIS WEEK the United States Navy embarks on a brand new idea. It is selling itself to the young men in this country between the ages of 17 and 31 through the best known medium in the world—newspaper advertising.

There begins in this week's issue of every weekly newspaper in the state of Georgia published in cities under 50,000 population an advertising campaign pointing out the advantages the United States Navy have to offer young men of sound body and mind.

At a meeting held in Macon last week more than 200 newspaper editors pledged co-operation with the United States Navy in helping sell the Navy to the young men of Georgia. It was not an idle pledge. For every editor in the state of Georgia realizes the necessity of securing and training young men at this time. This aside from the unlimited benefits the young man receives during his period of training.

In a statement to the nation's young men recently, Frank Knox, Secretary of the U. S. Navy, said: "Never in the history of the United States has there been a greater opportunity for loyal young Americans to serve their country and build their own future than right now. Today your country is engaged in an all-out effort to build a two-ocean Navy—the mightiest the world has ever known.

The advertising campaign as planned gives every young American between 17 and 31 an opportunity to take advantage of them. Read the ad. You will find it on another page in this week's Herald. Clip the coupon and bring it into The Herald office, or mail it in, and receive the book entitled "Everything You Want to Know About Life in the U. S. Navy." It is a 25-page book describing life in the Navy. It tells of the opportunities to secure, without cost, training that is worth \$1,500. There are forty-five trades and vocations for a man in the Navy to choose from.

By the end of a first enlistment a man can be earning as much as \$126 a month. All this in addition to the fun that goes with travel and adventures attached to being in the U. S. Navy. Get your copy of "Everything You Want to Know About Life in the U. S. Navy."

BLUE DEVILS MAKE DEBUT

TOMORROW NIGHT the "Blue Devils," the name by which our local high school football team loves to be called, will take the field against their first foe, Monticello. Eleven boys will line up under bright lights and at the sound of a whistle will give their all for dear old Statesboro High. Which is as it should be. Eleven boys, with more on the sidelines trained to replace anyone of them in case of need, taught the fundamentals of that great game—football. And, at the same time they are taught the fundamentals of that game, they acquire the greatest training of all, that of "playing the game. The proper acknowledgment of success and the gracious acceptance of defeat.

The people of Statesboro have always been good about supporting their high school athletic teams. So there is no need to say, "Turn out tomorrow night," but it is enough merely to remind them that "the Blue Devils are playing Monticello on the local field tomorrow night." There'll be a crowd.

Changing Maids Again

Table with 12 columns for days of the week and 12 rows for months of the year, showing weather forecasts.

The Almanac Says the Weather This Week On...

Today, Thursday, September 25, Will Be Cool. Tomorrow, Friday, September 26, Will Be Mild. Saturday, Sept. 27, Will Be Pleasant. Moon In First Quarter. Sunday, September 28, Will Be Cloudy. Monday, September 29, Will Be Clear. Tuesday, September 30, Will Be Cool. Wednesday, October 1, Will Be Overcast.

... But Don't Blame Us If the Almanac Is Wrong

and picked up the story where we left off, barely conscious of the fainting drone of that airplane winging its way high above in a starlit sky. BACK IN 1932 a girl in the senior class at Brooklet High school began keeping a diary. "Dear Diary," she wrote every night. And she told her diary all. Finishing school, it was not long before she was up and married. "Dear Diary," she wrote every night. And she told her diary all. Finishing school, it was not long before she was up and married. "Dear Diary," she wrote every night. And she told her diary all.

"I'D LIKE TO KNOW..."

- EDITOR'S NOTE: This is for young men between 17 and 31 only. Thinking about joining the Navy? Then you need a list of questions and answers that will help you make up your mind. If you are further interested clip the coupon in the ad entitled "FREE Training worth \$1,500" on another page in this paper and bring it into The Herald office or mail it in and receive a copy of the book, "Everything You Want to Know About Life in the U. S. Navy." Q. Is Annapolis open to me if I enlist? A. A total of 200 men from the Regular Navy and Reserves will be selected to attend Annapolis each year. Q. Does the Naval Reserve offer special inducements to me if I am skilled at a trade? A. Yes... if qualified, you will receive the rating of a petty officer immediately. Q. What would happen if I got sick? A. You would receive the finest medical and dental care absolutely free. Q. After I have served my term of enlistment, what benefits do I get for re-enlistment? A. Depending on your rate and length of service, you can get a cash bonus up to \$1,000 plus thirty days leave with pay. Q. When do I get my first leave? A. In a few weeks after you complete recruit training. Q. Who pays for my meals and lodging when I am first sent to a Training Station? A. The Navy furnishes you all transportation and meals. Q. When I have received a rating in one field, may I change to another field? A. Yes, if qualified. And you will not lose either your rate or your pay. Q. How much can I expect to be earning by the end of my first enlistment? A. If serving on a six-year enlistment, up to \$126.00 per month, plus keep. Q. Is it possible to have a recruiting officer come to my home, discuss my enlistment with my parents? A. Yes—get in touch with the recruiting station nearest your home.

Changing Concepts On Childhood Tuberculosis. The National Tuberculosis association appointed a committee of specialists to make a report on the care and education of physically below normal children, and in 1940 the report was printed under the title of "The Physically Below-Normal Child." In the report, changing concepts of tuberculosis, its cause and transmission, are discussed. A brief summary of these changing concepts or beliefs follows:

Tuberculosis is a disease caused by the tubercle bacillus and neither healthy nor pale and underweight children will have tuberculosis unless they actually take the bacillus into their bodies. The term "pre-tuberculosis" is not acceptable and should be discarded because the likelihood of effective exposure depends upon many factors other than the child's physical condition. To prevent tuberculosis infection in children it is necessary to find the infectious adult type case, remove it from the home, isolate it and treat it. The child will not take tubercle bacilli into his body if he or she has no tubercle bacilli in his home or the homes of his other relatives who are normal. This is also true for adults.

The body becomes sensitive to tubercle bacilli when they enter it and the tuberculin test will detect this sensitivity. If the tuberculin test detects sensitivity, it indicates that the tubercle bacilli are somewhere within the body. Further study is then required to determine the presence or extent of active tuberculosis. Experience has shown that in the majority of children between 5 and 15 years, tuberculous disease is relatively unimportant, because usually in this group the tubercle bacilli are walling off within the body tissues and causes little damage. Experience has also shown that in the majority of these children the tubercle bacilli becomes walled off within their bodies just the same whether they lead a normal child life or a life in bed at rest.

A public school child sensitive to the tuberculin test but who is apparently in good health, and after investigation at home and elsewhere is not found to be in contact with an infectious case of tuberculosis and whose x-ray reveals nothing abnormal, usually does not need special care. He is not capable of transmitting tuberculosis, but during adolescence and early adult life he should be watched carefully and have an annual x-ray examination. However, an occasional tuberculous child of school age does need special care in good health, and after investigation at home and elsewhere is not found to be in contact with an infectious case of tuberculosis and whose x-ray reveals nothing abnormal, usually does not need special care. He is not capable of transmitting tuberculosis, but during adolescence and early adult life he should be watched carefully and have an annual x-ray examination.

175,000 BLOOD TESTS. During the first six months of 1941, the serological laboratory of the Georgia Department of Public Health did 175,000 blood tests for syphilis. Included in this figure are two tests run on each blood specimen submitted on draftees from Georgia, who have entered the service of our country. The exact percentage of positive tests has not been worked out as yet, but it is believed that this percentage, which comprises tests made for food handlers, other individuals required by law to have blood examinations, soldiers, physicians' patients, etc., will be about 18 per cent. positive.

Crippled Children Clinics. Following the series of institutes on care of poliomyelitis, recently held in the classroom of the Grady Hospital School of Nursing, the state of Georgia has been divided into fourteen areas for the purpose of arranging clinics for crippled children. For the duration of the epidemic of poliomyelitis, such cases will be given preference at the clinics operated by Cobb, Paulding, Douglas, Fulton, DeKalb, Clayton, Rockdale, Henry and Newton counties will be assigned to orthopedic surgeons in Atlanta; who are co-operating in the clinic service but who have a small case load for the decentralized clinics. To date clinics have been held in Rome, Gainesville, Columbus and Augusta. During the month of September, clinics for crippled children will be held in other regions of the state.

Dog bites should have immediate attention and the advice of the family physician should be followed. Disease germs are hitch-hikers. Beware you do not give them a ride.

Fruits of Better Home Management Realized

More than crops are being harvested at this season for families on the Farm security program, says Frances E. Phillips, FSA home supervisor for Bulloch county. With another school year at hand, the fruits of better home management as well as of better farm management, are being gathered.

"Farm mothers and fathers are checking up on their children's clothing and health needs as the long school grind sets under way," Miss Phillips said this week. "They are beginning to see the value of wise use of their cotton stamps when it comes to looking over the clothing outfits of their children. They are beginning to see the value of medicine services, which in many parts of the Southeast are being made available through group arrangements to thousands of low-income families who could never have them otherwise."

It is at the beginning of a school term that the home management plans, which are made for all holders on the Farm Security program are subjected to a real test. It was pointed out, if these plans are sound, Miss Phillips said, the results will be reflected in the health of young and old, in the preparation of school children's wardrobes, in the accumulation of food supplies to sustain the children and in their progress in school which will be normal.

And if the plans and the guidance have been sound, the result will be reflected in careful and thrifty purchases of clothing, in the extent to which clothing has been remodeled and repaired and to which the child of the family of home supervisor for Bulloch county. With another school year at hand, the fruits of better home management as well as of better farm management, are being gathered.

Home supervisors generally are urging FSA families to avail themselves of medical services wherever possible for check-ups on the clothing and teeth of their children, and they are active in the effort to obtain adequate school lunches for all.

Survey of Trucks In Georgia To Be Made

J. M. Forrester, commissioner, department of revenue, and W. L. Joiner, motor vehicle director, today seconded the recent proclamation by Gov. Eugene Talmadge regarding the national defense truck and bus inventory, and announced that 97,076 questionnaire cards have been addressed to truck and bus owners and will go in the mail on Thursday, Sept. 25.

The inventory offers an opportunity for truck and bus owners to make a contribution to the defense of the nation, the commissioner said. With complete returns from the survey, it will be possible to make detailed records of all available highway transportation facilities by regions and on a central basis. With such records, the country can be organized to meet any transportation emergency.

The 5 by 8 questionnaire card for each truck and bus owner will receive specifically requested information regarding the season of the year when he most urgently needs the vehicle in his own business and whether in an emergency he would be willing to hire or lease the vehicle to a government agency. All information on individual cards will be treated as confidential, and will be used only for defense purposes.

A PROCLAMATION. WHEREAS, the Highway Traffic Advisory committee to the War Department has called for all owners of motor trucks and motor buses, as a patriotic duty, to supply information that will be requested of them in a nationwide inventory of highway transportation facilities; and

WHEREAS, the State of Georgia is cooperating with the Highway Traffic Advisory committee to the War Department in collecting this information in Georgia;

NOW, THEREFORE, I, Eugene Talmadge, governor of the state of Georgia, do hereby direct attention to the laudable duty of every citizen who owns trucks and buses to make careful, accurate, and immediate returns in this inventory of vital importance to national defense.

DONE at the city of Atlanta, this 22nd day of September, 1941, the year of our Lord nineteen hundred and forty-one.

EUGENE TALMADGE.

MORE FOOD NEEDED FOR DEFENSE, SAYS EXTENSION HORTICULTURIST

(By Elmo Bagdale, Horticulturist, Georgia Agricultural Extension Service.) In an effort to further the national defense program, the Georgia Agricultural Extension service is laying particular emphasis now through their county and home agents on fall and winter gardens. With the national defense problem, there is every evidence that additional food materials of all kinds will be needed in greater quantities than ever in the near future. Therefore, the extension service urges that all families who have garden spaces make special efforts now to grow crops in their gardens that will give them an available family food supply during the fall and winter months. These crops are higher in nutritional value than most other crops grown for greens. They also stand the cold weather of winter well.

Turnips should be fertilized with a complete commercial fertilizer high in potash. Cabbage, collards and rutabagas have a complete fertilizer high in nitrogen, but also well-balanced with phosphorus and potash.

Further information regarding these and other garden crops may be made available through the local county and home demonstration agents' offices in each county in the state.

There are four crops of first importance in every garden that can be planted within the next few weeks. These are easily grown and generally liked by everyone. They are ranked high from a health and nutritional standpoint and are of special importance to the diet during the winter season. These crops are turnips, cabbage, collards and rutabagas.

Turnips are now growing in many of the gardens over the state and can still be planted for several weeks. Some good varieties are purple top white globe, white egg and seven top (for greens). In addition to the American purple top rutabagas and a newer variety (early neck) may be planted in the southern half of the state. Turnip soil and do best on soils that have previously been fertilized with barnyard manure.

Cabbage plants may be set in Georgia any time during the fall and winter months and seeds or plants may be planted in the gardens in the southern part of the state. The earlier, smaller-headed varieties are most suitable for home use and market. Copenhagen market and Jersey Wakefield are suitable for South Georgia. In north Georgia, where the cabbage yellows disease may be present, Marion market and Jersey

PATROLMAN FINDS WHY SAMBO RAN

Thomaston—What made Sambo run? The state patrolman who let out after Sam and his motorbike wasn't quite sure. None of the 150 citizens who followed in the chase of the scared dorky had the slightest idea. Somebody yelled "shoot 'im!" Somebody shot—and missed. The quaking quarry was finally caught hiding behind a boarding house. The patrolman asked what might expect in the planning work.

GARDEN SUGGESTIONS. Lettuce: Pant on rich soil; fertilize heavily with high-grade fertilizer; thin plants to 12 inches apart; plants may be transplanted; use half ounce of seed for 200 feet of row.

Onions: Onions need rich, loamy soil, well-fertilized; sets or plants may be planted in single or double rows or on beds spaced three to four inches apart. Sets should be placed in shallow furrows and covered with soil.

ered very lightly; one quart of sets or 400 plants for 100 feet of row; half ounce of seed for 1,000 plants.

IT'S CHECK UP TIME

In other words it's time to get out those winter clothes and check over the sweaters, suits, coats and woolen dresses and have them freshened up for fall wear. Our dry cleaning and pressing process is guaranteed to freshen up those fall outfits.

And a reminder, don't pack away those summer clothes without having them dry-cleaned. It's the safest and most economical way of taking care of the family's wardrobe.

Hi-Owl Elects Staff Members for 1941-42

Staff members for the 1941-42 Hi-Owl, Statesboro High school newspaper, were chosen this week according to an announcement made by Mrs. D. L. Deal, instructor of English and Hi-Owl adviser, this week.

The Hi-Owl is published monthly by the members of the Statesboro High Journalism class. This year the paper will again be a member of the Georgia Scholastic Press association, which is composed of high school newspapers throughout Georgia.

The staff members include Helen Robertson, editor-in-chief; Irene Deal, associate editor; Frances Groover, business manager; Ernest Poindexter, Jr., and Walter Martin, advertising and circulation managers; Bernard Morris and Helen Marsh, sports editors; Betty Grace Hodges, subscription manager; Martha E. Lanier and Elizabeth Hutto, joke editors; Hazel Smallwood and Evelyn Waters, diet editors; Dorothy Flanders, home change editor; Martha Jean NeSmith, social editor; Estelle Shell, two column writer; Ernest Poindexter, Jr., feature editor; and Garland Martin and Betty Grace Hodges, columnists.

Worth McDougald was chosen student advisor and Mrs. D. L. Deal, faculty advisor.

Staff members are planning to have newspapermen of state-wide importance speak to the class at different times throughout the year.

FARMERS CAN DEVOTE TIME TO MANY JOBS IN FALL AND WINTER

There are many important fall and winter jobs that can be done during slack periods when the harvesting is over, says County Extension Agent Byron Dyer.

Right now is the time to be preparing for cover crops such as Austrian winter peas, vetches, crimson clover, and other legumes which enrich the soil and prevent it from washing away, the county agent pointed out.

Seed saving, the agent continued, is another chore that pays dividends. The average Georgia farm uses about \$100 worth of planting seed annually, and plenty of seed saved at home will mean money in the pocket of farmers, he said.

Other winter jobs listed by Mr. Dyer included cleaning out terraces, cutting and storing fuel wood for year-round use, and supplementing live stock feed by planting an acreage to a mixture of small grain and legumes.

Carrots: Plant on light, deep, rich soil; cover 1-2 to 3-4 inches deep and firm soil over seed; one-half ounce for 100 feet of row.

GARDEN SUGGESTION: Carrots: Plant on light, deep, rich soil; cover 1-2 to 3-4 inches deep and firm soil over seed; one-half ounce for 100 feet of row.

EXTENSION SERVICE ANNOUNCES CAMPAIGN FOR MORE GARDENING

A call urging all Georgia farm families to grow fall and winter gardens as a means of supplying more food for the family and in promoting the defense movement, was made this week by the Georgia Agricultural Extension Service.

In announcing the campaign for more gardening, Extension Director Walter S. Brown declared that agriculture is playing, and will continue to play, a vital role in the national defense program.

Elmo Ragdale, horticulturist for the extension service, has been made chairman of the drive for more gardens in Georgia. Suggestions as to crops and information about varieties, planting dates, and fertilization are available from county and home demonstration agents, or by writing the extension service in Athens.

Director Brown pointed out that gardening is being promoted in Georgia through a joint movement of all agricultural-minded agencies, including the Farm Security Administration, vocational teachers, AAA, the extension service, and others.

NYA Offers Training To Young Men 16 to 24

Special to THE HERALD: Bulloch county youths now have an "excellent chance" to become industrial soldiers in America's army of production through the expanding youth work defense program of the National Youth Administration, according to Miss Sara Remington, local youth personnel representative for the N. Y. A. in Statesboro.

Miss Remington, who serves eight counties in selecting young people for assignment to work projects, interviews youth applicants every Wednesday morning in the vocational department of the high school at Brookside and also at the high school in Stillson, Bulloch county youths interested in employment may register at the N. Y. A. area office in Statesboro on any week day.

Young people from this vicinity who qualify for the N. Y. A.'s out-of-the-home program will be assigned to one of the seventeen resident centers in Georgia, operated to provide boys and girls a better living environment, and which will help them secure private employment, Miss Remington said.

In tune with America's preparedness effort, the N. Y. A. now is directing its resources toward preparing youths for specific jobs in defense industries.

"Under a special appropriation from congress," Miss Remington explained in an interview yesterday, "the agency plans to send 388,000 young people a year into defense work doing necessary jobs in shipyards, aviation factories and other vital industries. In Georgia alone during the next year more than 8,000 will leave N. Y. A. projects to help keep the production line moving."

At N. Y. A. resident centers throughout the state, youths live twenty-four hours a day for periods ranging from three months to a year, most of them leaving to

accept jobs in private industry, Miss Remington pointed out. Boys receive work experience in agriculture and in a variety of shops including machine, sheet metal, wood, ceramics, forging, automotive, chimes, laundry, welding, radio repair and others. Girls are offered "on-the-job" experience in production sewing, crafts, home-making, canning, gardening, and light shop work.

N. Y. A. workers get no hand-outs, no scholarships, no loans, Miss Remington emphasized. "They are on the job producing and for actual work performed receive subsistence and \$10 in cash each month," she said. "They make office equipment, for instance, for public agencies which could not obtain it otherwise. Boys in the automotive shops repair the fleet of government cars in repair, and N.Y.A. radio workers are making portable transmitters for Georgia state patrol cars."

Training directly related to production work is offered youths by county boards of education through federal funds earmarked for that purpose.

"Although emphasis is placed primarily upon giving youths work experience which will increase their chances for private employment in the community, resident centers enjoy various recreation activities, such as radio listening groups, athletics, moving pictures, and forums. They operate a canteen for common profit, and sponsors social functions. The Savannah Residence Defense center opens on Wednesday, Sept. 17. Boys who wish work experience in sheet metal work, welding, forging, machine shop, wood shop, etc., should make application at once with Miss Sara Remington.

POPEYE, THE RECRUITING OFFICER, HANDS OUT A ROUGH IDEA

Everyone looks bigger, handsomer, in that uniform Uncle Sam's Navy gives you. And that's only a start. Uncle Sam takes great care of his sailors.

Free meals. Free board. Free travel. Free medical and dental care. Free training in any one of fifty odd skilled trades. And the Navy pays you good money while you learn.

What an opportunity! If you are 17 or over, get a free copy of the illustrated booklet, "Life in the U.S. Navy", from the Navy Editor of this newspaper.

SEIZE YOUR COUNTRY! BUILD YOUR FUTURE! GET IN THE NAVY NOW!

factor was demonstrated to be necessary for reproduction of laboratory animals such as the rat, but the need for it in the diet of farm animals other than poultry is still questionable. Most good rations, however, contain adequate vitamin E, and only in unusual cases is it likely that animals are sterile because of a lack of this vitamin.

Such feeds as wheat bran, shorts, linseed meal, hominy feed, white and yellow corn, cottonseed meal, and kaffir are all good sources of vitamin E, as are most of the common hay and pasture crops.

More Defense Foods Needed

(Continued from Page One.)

"More milk, more eggs, more pork" is the food-for-defense appeal being made to American farmers by the U. S. Department of Agriculture.

Food and lodging and the original outfit of clothing are provided by Uncle Sam free. There are, in addition to these, free sports and entertainment, travel, and adventure in world-wide places.

Navy men are hand-picked. Candidates must be men of more than average intelligence and ambition of fine moral character and must have the written recommendation of at least two local townswomen.

Editor's Note: We have just received from Washington a supply of free illustrated booklets for young men who wish to look into the navy now offers them the opportunity to see for themselves the future of their country now in its emergency.
