LET'S LET OUR COMMON SENSE REASSERT ITSELF

TO HOARD—means to store secretly; to collect and lay up; to amass; accumulate.

People in Statesboro and Bulloch County are losing their heads because they fail to understand the meaning of the word SACRIFICE.

People in Statesboro and Bulloch County are creating a phony shortage—in SUGAR.

A survey made of the grocery stores in Statesboro Saturday morning revealed that people "are running hog-wild," to use the expression of one grocer, over a self-conceived shortage of sugar.

Regular customers of stores are buying all their grocerman will sell them, then they go from store to store, grocermen with whom they seldom do business, over town and buy all each will sell them.

And this hoarding of sugar is not confined to Statesboro. It is a wave that is sweeping the nation. And it will end with us finding ourselves entering our grocery store with a sugar ration card in our hands entitling us to just so many pounds of sugar a week.

The grocermen, both retail and wholesale, agree that if the people would use their common sense and buy the same amount of sugar they have been accustomed to buying to fill all their weekly needs that there would be no need of Federal rationing to handle this "hog-wild" buying.

Statesboro grocers are trying to be sensible about this evident epidemic of lunacy, but they are helpless unless they secure the co-operation of the consumer.

Let's get our feet back on the ground. When we stop to think and let our common sense reassert itself we'll find that the sugar situation will return to normal, with plenty for all reasonable needs.

WHAT MATTER WITH THE FACE OF A CLOCK SAYS!

ON FEBRUARY 9TH, by act of Congress, your clock and our clock will be stepped up one hour.

President Roosevelt signed a bill January 20th putting the entire United States on daylight-saving time beginning on February 9. The purpose of the change is to conserve electricity for the gigantic war effort.

After 2 o'clock A. M., Statesboro and Bulloch County, on February 9th, the clocks in our homes will be turned ahead an hour for the duration of the war.

Governor Eugene Talmadge pledged his support to the measure and agrees to do whatever becomes necessary to put the state on the new time basis.

This morning you got up at 7 o'clock. It was not yet bright daylight. Monday week you'll get up and it'll be 8 o'clock.

Frankly we do not know what affect the change will have on our community. We'll have to wait and see. But we must remember that we are at war and this is a war measure. The people here will go along with it the best they can to help out and we'll hear little complaining. People here know that to kick at a time like this only makes for confusion. The man who labors by the clock will change his hours or change his habits.

But if this change in the time will help out the Japs, the Jerries and the Wops... then you'll find us going along.

IT'S ALL A PART OF VICTORY!

HAVE YOU checked the books in your home that you have already read and are now standing on your bookshelf only as space fillers?

If not, then do so—get them down and add them to the Victory Book pile. Leave them at the library. They'll bring many happy hours of reading to soldiers, sailors, mariners and airmen.

The Victory Book campaign is being sponsored by the Red Cross, the American Library Association and the United Service Organization. Books are being collected and placed in army camps all over the nation to fill the leisure hours of the men in our armed forces.

Give a book to the Victory Book campaign.

War Needs Money—YOURS!

This war calls for every ounce of energy, every dime and dollar we can muster for ships—and planes—and guns.

Hit the enemy with a \$25 Bond. Hurt him with a \$50 Bond. Help to blow him sky-high with a \$100 or \$1,000 Bond.

Don't desert every 10 or 11 counts. Buy United States Defense Bonds and Stamps TODAY.

Then on July 1, 1941, there was another registration of young men who had turned 21 years old since October 16, 1940. There was a little more grim note attached to this registration for the Hitler menace was becoming more and more widespread.

And then Pearl Harbor on December 7th and now a new registration on February 16th.

Every man in Bulloch County, Georgia, and the nation who may have reached his twentieth birthday on December 31st and not past his forty-fifth anniversary on February 16, 1942, must register, and, having registered, he takes his place with the millions who registered in 1940 and 1941.

And when this group registers it will be with a brand new feeling... for the United States, our nation, our homeland, is now at war... a war for keeps.

So on February 16th, if you are within the age limits, register!

STATESBORO'S TRASH PAPER IS PLAYING ITS PART

YOU who have worried about the conservation of waste paper in Statesboro can now know that it is being picked up out of your trash box and playing its part in the national defense effort. It is being gathered and sorted and baled and sent on its way back into channels designed to aid the government in its gigantic defense program.

So just continue throwing your trash paper and pasteboard boxes in your trash box and know that you are helping your community in its helping the nation in helping keep us free!

CONGRATULATIONS TO the City of Statesboro, and thanks for filling up all those small holes in the pavements of the streets of the city. These small holes were playing havoc with the tires on the autos of citizens of the city and visitors. And now they have been filled and we can seek new ways of taking care of our tires.

FROM OTHER PAPERS

WE MUST NOT FORGET

There are some duties which, despite the war and its complete absorption of our minds, must not be forgotten. To forget helpless ones who look to us as the source of hope would be criminal, under any circumstances.

The annual drive for funds to continue the war against infantile paralysis, poliomyelitis, is now on. We have, annually, contributed according to our means to this great cause, a cause launched by President Roosevelt himself.

Half of the funds we raise in Georgia remain in this state, to directly aid our own sufferers from this mysterious and dread malady. Half goes to the Foundation for research work, for the seeking out of the cause and cure of the disease. The second half thus aids those stricken, and those who will be stricken, all over the world.

We have given generously before. This year we must give more generously than ever. For, this year, we are giving our all to win a war, and we are promising ourselves that, after the war is won, we will share a better world than mankind has ever known.

And, if that better world does not include a better chance, a brighter hope for the conquest of disease, it will be but a delusion to thousands who suffer.

Therefore, let us dig deep in response to the call of the polio campaign this year, and thus prove to the world that this America of ours can take care of all its responsibilities and does not forget, in times of war or in time of peace—Atlanta Constitution.

WHAT ARE YOU SCARED OF?

There's a lot of darn foolish talk and sheep-like panic action in this community—and others. Among merchants. Among consumers. And don't think it ain't due to the enemy. It most certainly is. Of course we can't have "business as usual." But we must not have to stop trying to sell people the things we do have on our shelves. Of course we can't buy the things that have been restricted—but we can and SHOULD buy the things we need. As for all this wild talk about this or that item going to be taken off the market tomorrow or next week—why, who on earth could start such rumors without realizing that they help our enemies—Cobb County Times.

FROM THE NASHVILLE HERALD: Classified Ad: FOR SALE—Two young Jersey cows, both in milk. S. G. May, Rt. 1.

The little woman had worried the grocer over trifles at the busiest time of the day. At last he had managed to satisfy her.

"Do you know, Mr. Meek," said the little woman, "when I came into your shop I had a dreadful headache? I've quite lost it now."

"Don't worry, madame," said the distracted grocer. "It's not lost—I've got it."—Morn' Worker, p. 4. W. S.

FROM THE ATLANTA CONSTITUTION: While so many folk are begging for permits to buy tires, L. D. Mattox, of Elberton, says the Star of that city is happy because he had a federal permit to buy a pair of shoes. It took him some time to get it. Years ago.

Mr. Mattox has only one arm, so he prefers button shoes. It's easier to handle a button than shoe strings and bow knots.

But the government, away back in the "other way" days, forbade manufacture of button shoes for men, to speed up production of shoes for soldiers.

Ever since then, armed with his permit, Mr. Mattox has had his shoes built to order—with buttons—Dudley Glass.

CADET TRAINS TO AVENGE DEATH OF FAMILY AT HANDS OF NAZIS

RAF Cadet E. J. Lischke, whose father, mother and sister were killed "as traitors to the German Reich," is now learning to fly in the Southeast Air Corps Training Center so that he can help in the crusade to rid Europe of the Nazi gangsters.

Along with a large number of Englishmen he is now at the Basic Flying school at Gunter Field, Ala. He soon will be promoted to an advanced school, and after that will come his chance to go to the Nazis.

A native of hapless Sudetenland, Lischke is a member of the handsome blond, blue-eyed Nordics whom Hitler has named as the class privileged to help him rule the world. According to the racial theories advanced in Mein Kampf, he is the type who should have a bloodthirsty devotion to nazism.

Lischke had no album, but one day he noticed the stamps, steamed them off, and underneath in a finely pencilled hand was the name, "Your mother, father, sister killed as traitors to the German Reich."

On that day he went to the RAF and pleaded for an appointment—but to no avail. He obtained a job, but kept asking authorities for flight training. Finally he was taken into the ranks of the ground crews—and his abilities—plus the grim determination behind them—soon gained him an appointment as a cadet. Then he was selected for training in America.

Scouts Prepared for Emergency Service

Boy Scouts here and throughout the country are now training in Scoutcraft and outdoor lore with new vigor to be better prepared for any sort of emergency and disaster service.

Scout troops are forming units of Emergency Service Corps (see emblem, upper right above) and being trained in firefighting, first aid, rescue work and other service connected with emergencies caused by storms, floods, hurricanes, earthquakes and any type of catastrophe.

At camp and on hikes, through games and other attractive activities of the regular Scout program, they are learning what to do in case of crisis and how to fulfill their promise to help other people at all times.

Through demonstrations, displays and exhibits, in cooperation with established disaster relief agencies, they are doing their part to teach the American people to be prepared.

Plenty Peanut Seeds to Plant For This Year

Ample peanuts are now available to plant the acreage for harvest as well as for grazing. Local seed dealers still have lots of peanuts.

To procure the field run No. 1 peanuts from the warehouse, five tons or more have to be booked. The vocational agriculture teachers, Farm Bureau, and the county agent are grouping the orders.

These peanuts are being distributed at cost. The No. 1 runners cost \$90 in five-ton lots. To get them in small lots, they are costing \$97.50 per ton put up in 100-pound bags.

Co-operative orders are also being grouped for lespezea, which is a supply of mixed lespezea, composed of common, Kobe and Korean lespezea, is being grouped.

Phosphate is now being applied to the fields where the lespezea is to be planted about Feb. 15.

'Now Is the Time to Top Dress Oats For High Yields'

Now is the time to top dress oats for the highest yields, E. D. Alexander, extension agronomist, stated here Saturday while inspecting some fields of small grain.

Alexander stated that oat yields in a three-year test at the Coastal Plain Experiment Station tops top dressed with 100 pounds of nitrate of soda gave the following results:

No top dressing—34.1 bushels per acre. Top dressed Jan. 15—39.0 bushels per acre. Top dressed Feb. 1—41.9 bushels per acre. Top dressed Feb. 15—41.6 bushels per acre. Top dressed March 1—40.0 bushels per acre. Top dressed March 15—35.9 bushels per acre.

Mr. Alexander explained that farmers desiring soda for any reason should make their needs known to their fertilizer dealer immediately so they could procure it.

The specialist was here to examine some of the oats that are turning yellow. He thought the best thing for this condition was to graze them as close as possible until weather prevails there is still time for a severe epidemic—otherwise, not.

With normal weather for the next sixty days, mold is not expected to cause severe damage this year. If much cloudy and foggy weather prevails there is still time for a severe epidemic—otherwise, not.

Mr. Gaines recommended that all trees around the bed that shade the plants be cut down. Blue mold is more severe in the absence of light.

Tobacco growers should take care of their plants. One cover will last about three years if it is put up just as soon as it is removed from the bed.

Orders for any parts of sprayers that need replacing should be placed with local dealers immediately, according to Mr. Gaines. He explained that dealers could get the various parts now if growers would file their orders in time.

Mr. Gaines referred to the sprayer to be used on beds or on the

Dr. M. S. Pittman Bids Farewell To Rotary Club

"I'll be back in Georgia when summer comes," Dr. Marvin S. Pittman told Statesboro Rotarians Monday in a short farewell program in which the Rotary club bid him and Mrs. Pittman "God-speed."

D. B. Turner expressed briefly the feelings of the club in asking Dr. Pittman to make a statement. "I'm not deserting my friends in Bulloch county and Statesboro, nor the cause that is close to my heart," said Dr. Pittman. "I've been happier here than anywhere else... I've been happier here in my misery than in my ordinary happiness."

He stated that the experience he had had in the past six months had revealed to him friends that he did not know he had.

Dr. Pittman explained that he had accepted a position as director of instruction at Louisiana State Teachers college, at Natchitoches, La., "the college where I taught for a young man thirty years ago."

His new duties will begin Feb. 9. Dr. and Mrs. Pittman will keep their home here and expect to return here to spend their winters.

11 4-H Clubs Plan For 1942

The 336 4-H club boys in Bulloch county have organized eleven active clubs for 1942. These clubs meet each month. Some 340 of them now have their 1942 projects going.

Clubs are holding regular meetings and poultry in their projects this year.

Officers for the 1942 clubs are Ralph Miller, president at Denmark, Edgar Hagin, president at Warnock, Frank J. Jones, president at Seale, DeWesse Martin, president at Nevis, and A. J. Woods, Jr., president at Portia.

Officers for the boys' clubs plan to meet with the girls Saturday to organize a county 4-H club council.

The noise was terrific and all ideas of comfort were thrown to the winds. These tractors were built, making room for power and more power.

Mr. Jones said he is not missing an airport. We left Mr. Sissons with a feeling that the county quotas included G. W. Zetterover, 1 and 1; R. L. Roberts, Groveland, 1 and 1; Sam L. Brannen, 2 and 2 (for tiller plow); Paul Nesmith, 2 and 2; E. R. Warnock, 2 and 2; Emmitt Lee, 1 and 1; R. E. Nesmith, 0 and 1 (for tiller plow); M. P. Martin, 1 and 1; James Clark, 2 and 2.

Certificates for the purchase of obsolete tires and not charged against the local quota included G. W. R. Newsome, 1 and 1; H. L. Allen, Portia, 1 and 1; J. G. Hart, 1 and 1.

Members of Troop 40 of the Boy Scouts announce that beginning this Friday they will gather scrap and waste paper once a week on Fridays.

Bulloch County Will Make Her Red Cross Quota

Allen Lanier, Red Cross disaster chairman, in charge of the local drive, announced this week the assurance that Bulloch county had gone over the top in raising her \$2,500 quota. He stated that reports from the county are still incomplete but that indications are the quota is well over-subscribed. A complete report will be made at an early date.

The formula recommended by Mr. Gaines for 25 gallons of spray is: Yellow cuprocide (83 per cent copper)—4 ounces. Water to make 25 gallons. Stir the vatsol into a half-gallon of water and add the quart of oil. Pump this mixture through the spray nozzle several minutes until a white milk emulsion is produced. Add water to bring the volume to 24 gallons. Stir the yellow copper oxide powder into a gallon of water and pour into the diluted oil emulsion. Hold the nozzle in the spray and operate the pump several strokes to complete the mixing. Make only enough for one application at a time and use immediately.

Woman's Club to Honor Mothers of Sons With U. S.

Mrs. B. H. Ramsey, chairman of the citizenship committee of the Statesboro Women's club, announced this week that all the mothers of Bulloch county boys who are in the armed forces of the United States are invited to be the guests of the club at their meeting Thursday afternoon, Feb. 18, at 8:30 o'clock at the club headquarters.

Mrs. Ramsey said that she is notified of the acceptance of the invitation before the meeting.

February 10 Is Deadline To Quality to Vote on Feb. 18

The voters list for Bulloch county Feb. 18 primary will be closed here Tuesday, Feb. 10, Allen R. Lanier, chairman of the county board of registrars, announced here yesterday afternoon.

Mr. Lanier warned all persons interested to check on their qualification before that date.

Despite the fact that only one office is being contested, the voters of the county are urged to go to the polls to vote. On Feb. 18 the ballot will carry the names of Linton G. Deal, the incumbent, for chairman of county commissioners; T. O. Wynn and Gus Denmark for county commissioners; Harry S. Atkins, for one representative in the Georgia General Assembly, Feb. 18, in his second year and one representative in the Georgia General Assembly, Feb. 18, in his second year. Today's defense program expects every woman to be prepared to serve her country at all times and in many places. Your local state and federal governments are integral parts of this great program. Be qualified to participate in all elections.

Tire Ration Board Issues 27 Certificates in January

The Bulloch county tire rationing board issued certificates to completely absorb the county's January quota of 27 passenger car tires, according to an announcement made this week by J. L. Rentfro, chairman of the local board.

Certificates were also issued for 22 passenger car tubes, 41 truck tubes and 34 truck tubes.

At the same time, the board announced the county's February quota as follows: Fourteen passenger car tires, 12 passenger car tubes, 31 truck tires and 34 truck tubes.

In accordance with the regulations governing the local tire rationing board, the list of persons to whom certificates were issued for the purchase of tires in January is made public this week.

We were in the seat of the lead tractor of a parade of three tractors and dirt scrapers of instruction for every five minutes at the airport yesterday afternoon.

Looking back over the seat of that huge tractor, we watched dirt being moved in our own back yard and expected to be knocked down and drag earth away from one place to fill in another.

Three of these machines working doggedly moved more dirt in one afternoon than we have ever seen moved in our own life.

A Sissons, with whom we were riding, handled his monster with as much ease as a skilled driver handles a 1942 model automobile. Operating him and controlled by seven levers and two pedals, the scrape seemed, under the hand of Mr. Sissons, as maneuverable as Uncle Sam's newest fighting airplane.

According to Dr. Whitman, there has been very little malaria in Bulloch county in the past few years and that this is true of the state generally. However, he added, "it is well known that malaria has its good and bad years, just as do crops."

The purpose of adopting the standard plan for malaria control is to prepare against the time when the disease will again take an upward trend.
