Their ages range from 54 to 84, with an average of about sixty years. It will be seen that five states are represented in the list, to-wit: Georgia, Alabama, South Carolina, North Carolina and Florida. Numbers came from Bryan, Screven, Tattnall, Emanuel and Effingham. "Black Terror" in Boston.

A half dozen times, perhaps, within the last two or three years, marked copies of a Boston newspaper—the Times—has been sent to this office containing severe criticisms of the South in general and the Telegraph in particular because of editorial articles which have appeared in these columns discussing frankly the race problem of this section—a problem which now becomes national. The Telegraph, on more than one occasion, warned its critics that the "problem" would come home to them sooner or later. The Northern mails yesterday brought to us a copy of the Boston Post containing the following announcement made in black type spread across two columns, under a large scare head, declaring the presence, in that city, of the "Black Terror," which had caused a panic among the women and great activity among the police: "Assaults on girls by colored men have become so frequent during the past week or two that in some sections of the city the women are in a state of terror, and the police of some of the districts are in a state of frantic activity. In Cambridge, in the South End in the Franklin Park district, the 'black terror,' as the colored assailant comes to be called, has caused a feeling of panic among women who have occasion to be out after dark. The chief source of activity last evening was in the Franklin Park district, where two girls were attacked. The story which followed, or one of them, reads in part like this: "Two of the most daring and dastardly of the many recent assaults on girls by colored men took place last evening in Franklin Park. "The victims of the attack, both Brodway girls, were Sara Hamers, aged 18, of Clarkson street, and Virginia Avery, 17, of 7 Fowler street. "The scene of the assaults, which took place between 4:45 and 6:00 o'clock, was practically the same, on a lonely road in the vicinity of the Franklin Park golf links. "Belated golf players happened to come along in time to prevent the colored miscreant from accomplishing his purpose in both cases. "Here is another one in part in the same issue of the Post: "For several weeks a negro has terrorized the women residents of the South End by following them at night. In three instances young women, unattended, have been so badly frightened that they have been obliged to their homes by nervous prostration. In two cases within a week negroes have been knocked down by the negro and, while they escaped being injured, were badly frightened. "Monday, about dusk, Patman Gould learned that a negro had been striking a woman and started on a hunt for him. Just as he got into Sawyer street a young woman came running toward him. She was greatly frightened and her clothing was covered with dirt. From her the patrolman learned that a negro had dragged her into a doorway and threatened to kill her. The patrolman took the negro to the East Dedham street station. He gave his name as Joe Merrill. "In this case the negro was convicted and sentenced to two months in the 'House of Correction'—a punishment not equal to the usual penalty for petty larceny. If the negro had stolen a chicken or a loaf of bread, down East justice would probably have sent him to the rock pile for twelve months; but for an assault upon a poor, and perhaps friendless, white girl he gets to a rather high-toned 'house of correction'—to be fed while he listens to moral lectures. "This thing—this race trouble—is going to go all the way around. It is no longer a Southern problem, it is a national one.—Macon Telegraph.
