Unless they believed that these two propositions were true, they would fight the dispensary, tooth and toenails.

Now can the farmers of the county who are without police protection, afford to have one hundred thousand dollars worth of Statesboro liquor turned openly loose among their boys, farm laborers, and saw mill, and turpentine hands?

The big merchants who have goods to sell, think you can, but hundreds of good men in Statesboro and in the county, don't think you can afford to take this risk, and think it is best to let.

"I can conscientiously recommend Lydia E. Pinkham's Vegetable Lydia E. Pinkham's Vegetable Compound to those of my sisters suffering with female weakness and the troubles which so often befall women. I suffered for months with general weakness and felt so weary that I had hard work to keep up. I had shooting pains and was utterly miserable. In my distress I was advised to use Lydia E. Pinkham's Vegetable Compound, and it was a red letter day to me when I took the first dose, for at that time my restoration began. In six weeks I was a changed woman, perfectly well in every respect. ## REASONS WHY.

Why you should insure in the

NATIONAL LIFE OF THE U.S A

BECAUSE it is the only National Life Insurance Company incorporated by Congress.

BECAUSE it has \$1,000,000,00 Capital Stock all paid in. BECAUSE it is 34 years old and never contested a just claim.

BECAUSE its premium rates are low, and guarantees high.

BECAUSE it will sell you a policy with every figure warranted.

BECAUSE it has a larger percentage of Surplus than any other leading company.

BECAUSE it has more Assets in proportion to its outstanding insurance than any other leading company.

BECAUSE it has more surplus in proportion to its insurance liability than any other leading company in the world, which means that the Stockholders put up more money to guarantee the payment of its claims than any other leading company. BECAUSE it sells you a policy that guarantees to be paid up in full in 15 years for a less annual premium than some companies charge for a 20 Pay Policy.

Why Agents Should Represent The

NATIONAL LIFE OF THE U. S. of A.

BECAUSE its managers belong to no association or compact, and are at liberty to and do pay better commissions than any other leading companies doing business in the south.

BECAUSE its managers pay the same commission on all kinds of policies. They do not reduce the commission on Stock rate and cheap insurance in order to force the

agent to sell to the people the higher priced policies. BECAUSE the Company has just begun to develop the Southern territory, and furnishes better chances for promotion than a company already established.

LAST BUT NOT LEAST.

BECAUSE our policies absolutely guarantee the results, and are sold at prices that come within the reach of all. If you want to know more "reasons why" you should take a Policy or an Agency, Address,

What Has Tommy Been Eating To Grow So Fat and Sassy?

Tom Eason, our Tattnall county Tom, the mighty and great prison commissioner, says he wants it "distinctly understood that he don't intend to be bulldozed by the newspapers." Wonder what Tommie has been eating that he has grown so fat and sassy? We remember, and it was not many years ago either, when Tom needed the help of the papers.

The Journal never was in favor of the prison commission. When it was first established we knew it was a fraud, and was only instituted in order to give a few men a fat office. There was a lot of little fellows out of a job and without the prison commission there would not be enough jobs to go round. No, we don't believe the prison commission has ever been worth a penny to the state, in fact, we think the convicts were better managed before we had the commission, and we hope the next legislature will kill the thing lock, stock and barrel .--- Tattnall Journal.

Now that the smoke of the battle is over, the Dispensary has cleared away and people will have time to think of something else, we have decided to say something more about our State Fair Exhibit. We believe now that our exhibit will be worthy the high name our county holds in the estimation of the people of the state. We believe we will be able to show our exhibit of agricultural products second to none in the state. We have spared neither time nor expense in getting up this exhibit. We have traveled a man from one end of the county to the other, besides the work done from Statesboro. We have located specimens of nearly every product raised in the county. Nearly 200 different items of that many different agricultural and fruit specimens. We will have some of the finest specimens of these articles ever shown. One item we will mention as a sample. We have 12 jars of fruit which cost us \$75,00 to put them up not counting the fruit as costing anything. We have been promised a large number of other specimens of canned and jarred fruits, preserves, pickles, etc., to go in our fruit exhibit. We expect that our fruit exhibit alone will represent a value of about \$600 Then will come our handsome display of agricultural exhibits, vegetables, woods, melons, etc. We will also have a handsome exhibit of bacon and hams. Bulloch is noted far and wide as the home of hog and hominy, and we do not intend that her reputation shall suffer on account of this exhibit. All this represents a big outlay of both time and cash, and we hope that our triends who have old Bulloch's welfare at heart will lend us every aid possible from now on to the end, that our exhibit will be one that will make the hearts of Bulloch's citizenry throb with pride when they visit the Fair. Let us be second to none in all this great state. We can take positions in the front ranks at the State Fair and we must do it. A little aid in the way of the loan of exhibits from those who have something worth showing will accomplish this. Remember we will return all to you. We ask you for no money at all. We have shouldered this expense, if we are awarded any prize money all well, if not all will be well. If you have anything you are willing to lend us for exhibit let us know. The time to do all these things is short. We have a space of 150 teet and we will need lots of stuff to fill it
