What Has Tommy Been Eating To Grow So Fat and Sassy?

Tom Eason, our Tattnall county Tom, the mighty and great prison commissioner, says he wants it "distinctly understood that he don't intend to be bulldozed by the newspapers." Wonder what Tommie has been eating that he has grown so fat and sassy? We remember, and it was not many years ago either, when Tom needed the help of the papers.

The Journal never was in favor of the prison commission. When it was first established we knew it was a fraud, and was only instituted in order to give a few men a fat office. There was a lot of little fellows out of a job and without the prison commission there would not be enough jobs to go round. No, we don't believe the prison commission has ever been worth a penny to the state, in fact, we think the convicts were better managed before we had the commission, and we hope the next legislature will kill the thing lock, stock and barrel .--- Tattnall Journal.

A Fugative Pleasure.

If you ever took DeWitt's Little 430-432-434, West Broad Street. ure is. These famous little pills cleathe liver and rid the system of all bile without producing unpleasant effect They do not gripe, sicken or weaken but give tone and strength to the tis-sues and organs involved. W H Howell, Tex. says "No better pill can be used than Little Early Risers for cor stipation, sick headache, etc." Sold by W H Ellis.

A Big Strike.

The news of a big strike in the Victor Mines, near Sumpter Ore- Opposite Union Depot, - SAVANNAH, gon has been received by Prof. C. Richardson, President of the Richmond Business College, Savannah, Ga., who, in company with Dr. H. E. Smith, Dean of the Medical Faculty of Yale College recently visited the property and were present at the time the vein was encountered, but left Sumpter before its full extent was ascertained. The report states that "this is the same vein that made the Cracker Oregon, whose property joins the Victor, recently jump to \$1.00 per share." The Savannah Stock-holders are to be

Our Fair Exhibit.

Now that the smoke of the battle is over, the Dispensary has

cleared away and people will have time to think of something

else, we have decided to say something more about our State

Fair Exhibit. We believe now that our exhibit will be worthy

the high name our county holds in the estimation of the people

of the state. We believe we will be able to show our exhibit of

agricultural products second to none in the state. We have

spared neither time nor expense in getting up this exhibit. We

have traveled a man from one end of the county to the other,

besides the work done from Statesboro. We have located speci-

mens of nearly every product raised in the county. Nearly 200

different items of that many different agricultural and fruit spec-

imens. We will have some of the finest specimens of these ar-

ticles ever shown. One item we will mention as a sample. We

have 12 jars of fruit which cost us \$75,00 to put them up not

counting the fruit as costing anything. We have been promised

a large number of other specimens of canned and jarred fruits,

preserves, pickles, etc., to go in our fruit exhibit. We expect

that our fruit exhibit alone will represent a value of about \$600

Then will come our handsome display of agricultural exhibits,

vegetables, woods, melons, etc. We will also have a handsome

exhibit of bacon and hams. Bulloch is noted far and wide as

the home of hog and hominy, and we do not intend that her rep-

utation shall suffer on account of this exhibit. All this repre-

sents a big outlay of both time and cash, and we hope that our

triends who have old Bulloch's welfare at heart will lend us ev-

A \$400 Piano Given Away.

To the Most Popular Young Lady In State of the International State of the I Bulloch County.

THE STATESBORO NEWS, in order to show its appreciation for the very liberal subscription patronage accorded it in the past, and, in order to increase our list, has decided to present to the most popular young lady in Bulloch county, on the evening of December the 31st, 1903, a handsome \$400 piano. The conditions of this present are, as follows: Every new

subscriber paying One Dollar for a year's subscription, or, every old one paying up shall have the privilege of casting One vote for the young lady of his choice, or, in other words, every dollar, as applied to subscription money on the STATES-DRO NEWS, will entitle the party who pays it to One vote. No ballot will be allowed on subscription for sums less than

ceipt will constitute a ballot. This contest will open on Monday next, September 14th and close at noon on Dec. 31, 1903. An arrangement will be made about the depositing of these ballots. A man, whose integrity will be unquestioned, will have charge of the ballots during the time. They will be sealed in an envelope when delivered to his keeping so that he will not know who is being voted for, and a committee of three disinterested gentlemen will be appointed to count the ballots and announce the result. Those details, along with some others, will be arranged a little later and announced through these columns. This handsome instrument, which is in every particular, a high-grade, well finished piano, was manufactured for McArthur, Sons & Co., Savannah, Macon and Atlanta, the only piano factory in the South. It is known as the McArthur & Sons' Piano, and is now on exhibition in the large show window of The Simmons Co., States-

desire to look at it. This will be a handsome present for some young lady and one that the daughter of the most wealthy parents will appreciate; but, it may be won by some young lady whose parents are not financially able to afford for their daughter such a luxury, and if she wins it it will not cost her one penny, not even the freight, as the instrument is already in Statesboro and paid for.

There will doubtless be a number of young ladies in different parts of the county voted for and no one can guess as to who will win it. We have already about 2,000 subscribers and a desire to further interest the young and rising generation so as to increase our list. We have made this liberal offer, one that the average country weekly cannot afford to make. We believe that once a young man becomes a subscriber he will continne. That is our experience in the past, so if you want your best girl to have this instrument you should come up and enroll your name and not only cast your ballot for her but get your friends to do likewise. Remember, too, that this con test is not confined to the young men but to the ladies, as well the married men, the widowers, the old bachelors and, even old maids. All who are registered can vote and all who sub-

tion, which appears in the November and the Southern Farm Magatine: "I aim convinced that the average white tarmer in Georgia has plant fixed chiefly to Wall street, and to Mikell stayed in this section, he writer says:

A few failures should not prety of intelligence to succeed with prominent business men in other parts ty of intelligence to succeed with of the state, but the Wall street influences, if he will turn his mind in that of the state, but the Wall street influences. One graph difficulty is in ence is considerable. In this connects stock, if he will turn his mind in that direction. One great difficulty is not because of the state, but the Wall street influence is considerable. In this connection a story is told that may have some foundation. It is that the reason Mr. Root decided to leave the cabinet was that he might be in a position to help overcome the opposition among New York Republicans to Mr. Roosevelt are so few and far between that it is impossible to depend upon them without close personal supervision. The best plan is for the farmer to take hold of this matter himself. There is less drudgery in it than clerking in a bank or dealing out groceries and as in cotton growing. Banks and merchants will furnish money and supplies of the state, but the Wall street influence one here is less drawdgery in the case of state and as in cotton growing. Banks and plies of the state, but the Wall street influence one here is less as drawdgery in it than clerking in a bank or dealing out groceries and as in cotton growing. Banks and plies of the case, it is argued that he can be of great service. The american of man for the state, but the Wall street influence one of the state, but the Wall street influence one of the state, but the Wall street influence one that he may have some foundation. It is that the reason Mr. Boot the cabinet was that the might be an a bester community by having a better community been a successful literary teacher. It has been a faithful worker in the Sunday school as well, and the Sunday school as well, and have concaisonable to su phos just as readyly and the same number of acres of great service in smoothing over the necutive as the same number of acres in cotton. The question of men for the work, therefore, resolves itself velt.

Yours, the patrons of the Pitman Academy planting second crop Irish potatos is from The Southern Cultivates. into a question of whether the Georgia farmer will see his opportunity and make the effort to take advantage of h."

There may be something in this alleged plan, but it is doubtful if there is. If Mr. Root had remained in the

of these two terms, but lest you may have forgotten, I will stop a moment to say that an organic substances and is mineral in its nature, a piece of rock or of iron is inorganic. The control is inorganic substances. An inorganic substance is the opposite of these, and is mineral in its nature, a piece of rock or of iron is inorganic. The control is inorganic substances and is mineral in its nature, a piece of the control is inorganic. The control is inorganic substance is the opposite of these two terms, but lest you may ill leave in a few days for Pablo Beach, Fla. where they have relatives.

The Lookout Mountain is estopically adapted to this time of the year, but several other varieties will do about as well, the figures his friends have made.

Unless all signs fail powerful inflences will be brought to bear by members of his own party in New York to give in a few days for Pablo Beach, Fla. where they have relatives.

dential candidate of his party next year. His party in a number of the states in that section has indorsed him for the nomination and it will do so in in other states. He got an enthusiastic indorsement from the Nebraska Republican convention on Tuesday. In fact, he has been indorsed by all of the Republican state conventions that have been held this year in the West.

Of course he feels certain of the outpet from an article on beef production in Georgia by Professor C. & Willougaby, of the Georgia Experiment Section, which appears in the Novembaranumber of the Southern Farm Magastine. There is no cause him to lose the state.

dential candidate of his party next year, His party in a number of the states in that section has indorsed him for the nomination and it will do so in in other states. He got an enthusiastic indorsement from the Nebraska Republican convention on Tuesday. In fact, he has been indorsed by all of the Republican state conventions that have been held this year in the West.

Of course he feels certain of the nomination. Still, he does not like the idea of having so much opposition in New York, his own state. There is no doubt of course that the delegation from New York will be in favor of him, but there may be enough opposition, which appears in the Novembaranumber of the Southern Farm Magastine. Why a Painter Smiles

The practical painter says, it makes him smile when a man insists on Patton's Sun-Proof Paint. It always means another job from the man next door. Envy is just another name for human nature.

Patton's SUN-PROOF Paint

is famous for its lasting qualities. Made from a scientific formula of the best materials, machine mixed in exact proportions, it is the only paint that resists the sun and weather. Never peels, eracks or chalks off, and guaranteed to wear for five years. Send for book of Paint Knowledge and Advice (free) to
