REASONS WHY

Why you should insure in the NATIONAL LIFE OF THE U.S A.

BECAUSE it is the only National Life Insurance Company incorporated by Congress. BECAUSE it has \$1,000,000,000 Capital Stock all paid in.

BECAUSE it is 34 years old and never contested a just claim. BECAUSE its premium rates are low, and guarantees high. BECAUSE it will sell you a policy with every figure warranted.

BECAUSE it has a larger percentage of Surplus than any other leading company. BECAUSE it has more Assets in proportion to its outstanding insurance than any other

it has more surplus in proportion to its insurance liability than any other leading company in the world, which means that the Stockholders put up more money to guarantee the payment of its claims than any other leading company. BECAUSE it sells you a policy that guarantees to be paid up in full in 15 years for a less annual premium than some companies charge for a 20 Pay Policy.

Why Agents Should Represent The

NATIONAL LIFE OF THE U.S. of A. BECAUSE its managers belong to no association or compact, and are at liberty to and do

pay better commissions than any other leading companies doing business in the south.

BECAUSE its managers pay the same commission on all kinds of policies. They do not reduce the commission on Stock rate and cheap insurance in order to force the agent to sell to the people the higher priced policies.

BECAUSE the Company has just begun to develop the Southern territory, and furnishe better chances for promotion than a company already established.

LAST BUT NOT LEAST.

BECAUSE our policies absolutely guarantee the results, and are sold at prices that con within the reach of all. If you want to know more "reasons why" you shou take a Policy or an Agency, Address,
