WOMEN NOT TRUTHFUL

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked By Male Physicians.

An eminent physician says that "Women are not truthful; they will lie to their physicians." This statement should be qualified; women do tell the truth, but not the whole truth, to a male physician, but this is only in regard to those painful and troublesome disorders peculiar to their sex.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions when those questions are asked, even by her family physician. This is especially the case with unmarried women.

It is any wonder, then, that women continue to suffer and that doctors fail to cure female diseases when they cannot get the proper information to work on?

This is the reason why thousands and thousands of women are now overhauling Mrs. Pinkham. To her they may as well give every symptom, so that she really knows more about the true condition of her patients, through her correspondence with them than the physician who personally questions them.

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge. The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated by thousands of letters received by her proves. Many grateful letters as the following are testaments to her wisdom. Ask Mrs. Pinkham: Advice—A Woman Best Understands A Woman's Ills.

COMMISSIONER GARFIELD'S REPORT

It is Found to Be Favorable to the Great Fishermen.

The report of Commissioner of Fisheries Garfield on the best industry, after about eight months' investigation in Chicago and elsewhere, shows that there has been an enormous amount of exaggeration in the statements that have appeared for some time past in regard to the beef business. This investigation was set on foot by a resolution of the House of Representatives adopted March 7, 1900, and the ascertained facts after a most rigid examination of the methods and general conduct of the business are contained in a report covering 100 pages. Its figures and tables conclusively show that the popular belief in enormous profits made by the large packers, such as Armour & Co., Swift & Co. and Nelson Morris & Co., and in the exclusive control of the business which many think they enjoy, is really without foundation.

The report made to President Roosevelt by Commissioner Garfield is really the first official statement of the actual conditions of the beef business that has been made, and as all the conclusions arrived at are based, as shown by him, upon data officially obtained, there is no reason why they should not be regarded as reliable and in all respects trustworthy.

This report shows why the price of beef has been so low for the last three years ago had information of the overabundance of beef in the market, the doctor's care for about three months, and the only time I was not in pain was under the influence of morphine. The doctor would not have a word to say for me, and I was given up in despair, but one evening I came across one of your advertisements and decided to write you for advice. I did so and commenced to take Dr. Pinkham's Vegetable Compound. I began to improve at once and today I am well woman, and I know it is all due to your advice and medicine.

Mrs. J. H. Farmer of 2809 Elliott Avenue, St. Louis, Mo., writes:

Dear Mrs. Pinkham:—I cannot thank you enough for what your advice and medicine have done for me. They have done wonders for me. I have suffered with female troubles; was very weak; had nervous prostration, and could not do my work. I have been taking Dr. Pinkham's Vegetable Compound for some time, and I feel much better. I have gained in weight from 60 pounds to 120 pounds.

No other medicine in the world has received such widespread and unequalled endorsement. No other medicine has such a record for actual cures of female ills as has Lydia E. Pinkham's Vegetable Compound. Dr. Pinkham treats all sick women free of charge to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

The Farm

They Provide Cheap, Good and Excellent Cooked Sustenance to the Cold and Hungry.

Slatted cages, arranged so that the little fowls can run in and out readily, with a broad, smooth board in the center upon which food is placed, all should be provided. It is essential that the best growth is maintained that young fowls be fed often and in such a way that they grow to a fine size without interference by the mature fowls.

Make the Hens Work. Keep the hens busy. Make them work for their food. Exercise helps digestion and makes rich, red blood, and this means health and vigor. The experienced poultryman knows that the busy, active hen is the one that helps to keep the egg basket full. Scatter millet seed or other fine grain in the litter and the hens will busy themselves scratching it out. Hang up a cabbage where the hens will have to jump to reach it, and you will find that they will keep the hens busy.

Hay as a Money Crop. Hay is really a very good money crop, with prices ranging at \$18 to \$20 a ton. I prefer fall seedling for grass, using corn or potato ground that has been well manured with stable manure and fertilizer. Sow a half bushel of timothy and four pounds cleaned red top per acre. The next spring topdress with 300 pounds of fertilizer containing a high per cent of potash, making the application about May 1.

The topdressing is the key note of a successful crop. By thorough preparation of the soil and the use of manure, I secure three to four tons of the best hay per acre, and have kept it up for several years by simply repeating the topdressing every year. Resulting is found necessary every five to six years.—J. G. Schwab, Jr., in Massachusetts Ploughman.

Chicken House. There has been a good deal said about the chicken house, and it is a very important part of the farm. Increase the bran mash steadily, both in quantity and in thickness, in summer. Do not allow the hens to run with the brood sows. Three days before the pigs are due put the sow in a warm, dry bed of her own at night, so that she will become accustomed to it. Do not use too much bedding, as the pigs often get sick in it and are chilled before they suck, and a chilled pig is of no more value than a dead one.

For thirty-six hours after the pigs come all feed should be kept away from them. The chicken house ought to be a simple affair, built of a few planks, with a few useful points regarding natural heat during cold winter months. A chicken house ought to have a flat roof, with the eaves high enough to clear the walls, too. My reason for having a flat ceiling is so that the natural warmth will be evenly distributed.

CHICKEN HOUSE. Put up all the roosts that you have room for close to the ceiling—chickens will like to roost high.

When the birds are hot and swollen and the fowl is disinclined to stand, rheumatism has taken hold. When the nostrils are clogged with dirt and the eyes water, ward off a possible case of roup by timely treatment. If the case is laid badly the bird will die. When the bird seems lame and has a small swelling on its foot, remove it to a house with no perches and oblige it to rest. When the hen seems to be lame, it is easily cured in the early stages if the cause is at once removed.

When a hen seems to droop down behind and the bird becomes inactive, when laying, she is usually suffering from a disorder of the ovium, and might as well be killed and eaten. When the hen seems to be lame, it is easily cured in the early stages if the cause is at once removed.

When the bird has few weaknesses, with no disease of the liver, and is lighter and gives plenty of bone-forming material. When new fowls are bought quarantine them until sure they have no disease. When a fowl has difficulty in breathing look out for pneumonia. When a fowl has difficulty in breathing look out for pneumonia.

HOT POTATOES AND HOT CHESTNUTS AS FOOD.

They Provide Cheap, Good and Excellent Cooked Sustenance to the Cold and Hungry.

The man with the hot potato can and the man with the hot rusty tree trilled with holes, on the chestnut, all these are good food, all dead animals or poultry should be burned, but if this is not possible, bury them at least three feet deep, and before they are thrown back to the earth use at least a peck of quicklime over the carcass of a pig, half a bushel to a 200-pound hog, or a bushel over a horse or cow. Then all up the hole and tramp it down, with a gallon of lime on top to discourage dogs from digging the carcasses out. We would go to extreme lengths and trouble to burn any animal dead of glanders, hog cholera, anthrax or blackleg, believing that the only correct means of disposing of such carcasses.—Farmers' Voice.

Don't Feed Too Much Grain. At breeding time set down the exact date, and then you will know just what to feed the pigs. If you want strong pigs, you should neither keep your sows penned up in a muck hole, nor stuff them on corn or sour swill, nor, not judiciously, use fat. Most injurious to the pig is the use of an established fact with experienced breeders that corn and cholea go together. Sow a half bushel of timothy and four pounds cleaned red top per acre. The next spring topdress with 300 pounds of fertilizer containing a high per cent of potash, making the application about May 1.

The topdressing is the key note of a successful crop. By thorough preparation of the soil and the use of manure, I secure three to four tons of the best hay per acre, and have kept it up for several years by simply repeating the topdressing every year. Resulting is found necessary every five to six years.—J. G. Schwab, Jr., in Massachusetts Ploughman.

THE PULPIT.

A SCHOLARLY SUNDAY SERMON BY THE REV. ST. CLAIR HESTER.

Subject: "Church and Family." Brooklyn, N. Y.—The Rev. St. Clair Hester, pastor of the Church of the Holy Trinity, delivered a scholarly and interesting sermon on the subject of the church and family. He said: "The church and family are two things which are often separated, but which are really one. The church is the family of God, and the family is the church of God. We must not forget that the church is not a building, but a people. It is not a collection of men and women, but a living organism. It is not a mere organization, but a living body. It is not a mere institution, but a living entity. It is not a mere society, but a living community. It is not a mere association, but a living fellowship. It is not a mere gathering, but a living assembly. It is not a mere meeting, but a living conference. It is not a mere council, but a living synod. It is not a mere convention, but a living congress. It is not a mere assembly, but a living gathering. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. It is not a mere mass, but a living body. It is not a mere aggregate, but a living whole. It is not a mere sum, but a living total. It is not a mere collection, but a living group. It is not a mere crowd, but a living multitude. It is not a mere mob, but a living people. The Cotton Crop.

It is to be hoped the farmers of Bulloch will not overplant themselves with cotton this year. The world knows that the farmers of the South carried over a surplus of about three millions of bales, and that is keeping the price depressed, and it will remain low until the world sees that we have decreased the present crop. When they see that the crop has actually been cut down twenty five percent the price is bound to go up. It would be suicide for us to pile up a big crop on top of the present surplus, and if we had to take five cents for our green seed cotton and ten or twelve for black seed this fall, it would mean bankruptcy unless we will protect ourselves with plenty of home raised supplies. Even with plenty of home supplies, there is no fun in making cotton for nothing. Plenty of other things will pay on the farm besides cotton, and the farmers are learning this, and the crops of hay, peas, corn, hogs, chickens, eggs, etc., are increasing each year.

A Daredevil's Ride
Often seen in a sad accident. To heal accidental injuries, use Bucklin's Arnica Salve. "A deep wound in my foot from an accident," writes Theodore Schuele, of Columbus, O., "caused me great pain. Physicians were helpless, but Bucklin's Arnica Salve quickly healed it." Soothes and heals burns like magic. 50c at W. H. Ellis' drug-store.

Osborne the Retormer

(KERRY CAMP)
We are in for reformation every time we see a chance.
An' we like to see good's foman with a bright and ready lance,
But seems to me this Osborne with his ready arm and jaw
Should start his reformation on himself an' Yamacraw!
We like to hear bold speeches if they're truthful—to the point.
We like to read 'em letters if the writer's o'g in the joint.
We like to see right flourish the best you ever saw,
But we think that Bill should start it on himself an' Yamacraw!
We know some things are rotten in this state—no doubt it's true—An' the man or reformation finds a goodly lot to do—
We know some things are crooked from kerfuzim to Kershaw,
But I think that Bill should start on himself an' Yamacraw!
We know there's disappointments for the officers—keepers an' there's 'use of tribulations lyin' round 'a every hand.
There's lots 'n' Gov'ny don't not accordin' to strict law,
But Bill should start reform'n' on himself an' Yamacraw!
We know there's politicans who aife selfish to the core,
We know there's hon'ors' ollers who aife trampled on an' sore,
We know some corporations should be brought right up to law,
But Bill should start reform'n' on himself an' Yamacraw!
We see dissatisfaction now an' then anent some things,
We have a lot 'n' jargon on the "jug-glers" an' the "rings,"
We know there's indignation in the patriotic maw,
But Bill should start reform'n' on himself an' Yamacraw!

Cheated Death

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe, of Bear Grove, Iowa, cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and kept them constantly on hand, since I find they have no equal." W. H. Ellis guarantees them at 50c.

Mr. M. S. Futch, of Aroola, was in town on Saturday and called and paid his subscription for another year. Mr. Futch was sure that he did not owe a solitary nickel in all the wide world. His financial condition reminded us a good deal of our own. It being so different with us.

OBITUARY.

The subject of this writing was well known in Bulloch county. He was the son of Elijah Atkins, and belonged to the well known Akin family of Bulloch county. He was born March 10, 1862, was of small stature, and suffered great affliction from a boy with that dreadful disease, white swelling.

However he was blessed with energy, economy and honesty, and with these great traits set out in the world with many of his superiors in strength to make a living.

He was married to Miss Fannie E. DeLoach, of Bulloch county, Dec. 4, 1887, the eldest daughter of Daniel and Sime DeLoach; made his first settlement on the sand hills on the east side of Letts Creek on the place known as the Mattox place. Not being satisfied with the situation, he moved to the beautiful place where he died; built up a comfortable home and made a home, honorable living by farming.

He was the choice of the people more than once for the office of tax receiver. He filled the position creditably and was often selected to help post the books of the county. To him and his living wife were born nine children, seven living, five boys and two girls. Before he died he made his will giving his entire family a home.

The disease with which he was taken away was too strong for him, and he died of it. He was buried in the cemetery at Letts Creek. He was a member of the church, and was a very good man.

H. B. Wilkinson.

EXCURSION TO MACON.

The Central of Georgia will run the following rates to Macon and return, on account of the Georgia Division Traveler's Protection Association, from April 1st to April 30th, as follows: Round trip, half rate for children of five and under twelve years of age. Tickets will be sold April 6, 8 and 9; final limit April 9, 1906, from points in Georgia.

For further information apply to your nearest ticket agent.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by all druggists.

Oh! what joy is in store for everyone. The Statesboro Ice Factory will start up this week and Mr. George assures us plenty of the cold stuff. Let everyone buy ice tickets and help our home enterprise.

TO BE SURE you are making no mistake, the proprietors of the WORLD'S greatest Throat and Lung Remedy offer you a trial bottle free through their advertised Druggist in your town. FOR CURE OF A COUGH OR A COLD there's nothing half as good as

DR. KING'S DISCOVERY
FOR CONSUMPTION

"Three years ago," writes J. O. Edge, of Hanson, Ky., "my little daughter had Bronchitis in a severe form, and after trying other remedies and doctors without relief, we tried Dr. King's New Discovery. The first dose relieved her and in two or three days she was entirely well."

BUILDS LUNGS.
SOLD AND RECOMMENDED BY
W. H. ELLIS, Statesboro, Ga.

The Better Way

The tissues of the throat are inflamed and irritated; you cough, and there is more irritation—more coughing. You take a cough mixture and it eases the irritation—for a while. You take

SCOTT'S EMULSION

and it cures the cold. That's what is necessary. It soothes the throat because it reduces the irritation; it cures the cold because it drives out the inflammation; it builds up the weakened tissues because it nourishes them back to their natural strength. That's how Scott's Emulsion deals with a sore throat, a cough, a cold, or bronchitis.

WE'LL SEND YOU A SAMPLE FREE.

SCOTT & BOWNE, 409 N. York St., New York.

Bulloch Acreage Reduced 25 Per Cent.

While the meeting of the Bulloch county branch of the Southern Cotton Growers' Association, which was held in the court house on yesterday, was not a very largely attended session, owing to the fact that the farmers are a very busy just at this time, yet there were representatives there from all sections of the county and the reports are that the cotton acreage is being reduced, some where in the neighborhood of twenty-five per cent in Bulloch county.

Men who planted twenty acres last year are only putting in fifteen this year. As a rule, the reduction is reported to be more than this in the 4th district. Prominent men from that section thought it conservative to estimate that the acreage is off at least from thirty to thirty-five per cent in that section.

Frightful Suffering Relieved
Suffering frightfully from the violent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. See at W. H. Ellis' drug store, guaranteed.

Mr. J. F. Boyet, of Excelsior, was treated on an April roll in a practical manner on Saturday night April the first. His wife presented him with a bouncing pair of twin boy babies. This is the second treat of this kind Mr. Boyet has been the recipient of. Just two years ago he happened to the same good fortune.

WHY SUFFER?
With Headache and Neuralgia when you can be relieved by using "Sore-gone" which is guaranteed to cure Sore and Neuralgia. Four doses 10c. Sold by W. H. Ellis. Manufactured by Neuraigen Co.

DIXIE CLUB.

(Special Correspondence)
Portland, Oregon, March 27.-05
To hear an orchestra cheered in Portland as it plays "Dixie," just as heartily as in any section of the south, would convince visitors from Dixie land that they would have a sure enough welcome here. Members of the Dixie Society of Oregon were invited to attend a reception given by the Michigan Society. The orchestra rendered a medley, but nothing got the cheers that were given "Dixie."

The magnificent development that is now taking place in the south is frequently commented on editorially in the papers here, the press of this city being especially friendly. Within the last few days the editorial columns of leading dailies have accorded most complimentary notice to the splendid progress made by New Orleans and all that section of the south as a result of the thirty-five foot channel at South Pass, and the almost incredible rapidity with which temporary improvements were made so that the business of that city should not suffer through the great Stuyvesant dock fire.

The truly remarkable growth of the exports of Galveston has received much attention, as has the superb advance of Birmingham, Houston and Atlanta.

Although this strong sympathy between our people and the south has always been recognized, until the call was sent out for the formation of a Dixie Society, many people had not realized the great number of former southerners who now claim Oregon as their home—this first meeting resulted in a roll of a hundred and fifty members, and in the very few weeks which have elapsed since its organization the society has gained a third as many more.

The official roster is headed by Hon. George E. Chamberlain, governor of Oregon and a native of Mississippi. Governor Chamberlain made a special trip from Salem in order to preside at the last meeting.

That every southern state might be represented, a vice-president from each was chosen, and Col. R. S. Howard, for many years president of the New Orleans chamber of commerce, is Louisiana's representative; Mr. C. Lombardi, formerly of the firm of Wm. D. Cleveland & Co., Houston, and president of the school board of that city, is vice-president of Texas; for North Carolina, Dr. R. C. Coffey, president and medical director of the North Pacific sanatorium of this city.

The list further includes: Mr. James W. Ansley, Arkansas; Mrs. R. W. Mitchell, Mississippi; Mr. W. H. Games, Missouri; Mr. Vincent Marino, Georgia; Dr. G. M. Wells, Virginia; Mr. J. L. Wells, West Virginia; Judge J. C. Moreland, Tenn.; Col. L. C. Gargis, Kentucky; Mrs. Raleigh Scott, Maryland; Mr. J. P. Pope, Alabama; Mrs. E. J. Smith, Carolina; Mr. C. D. Smith, Florida.

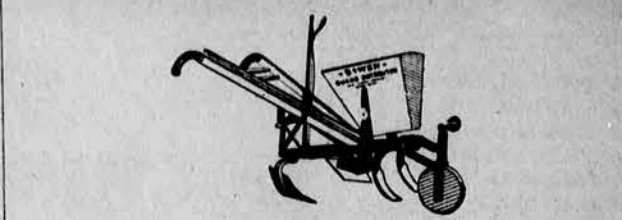

Its secretary, Mr. Tom Richardson, has been prominent in public work in Texas, later holding the position of manager of the New Orleans Progressive Union. As manager of the Portland Commercial club and secretary of the Oregon Development League, Mr. Richardson is engaged in similar work in Oregon.

To arouse the interest of southern friends and relatives in the Lewis and Clark Exposition, to tell them of the delights of an Oregon summer, to welcome them and receive distinguished guests—all these are objects of the Dixie Society. The stationery used in its correspondence gives interesting data on the state and city, for while its members are full of pride and affection for the south they are at the same time intensely Oregonians.

In a word, the close and cordial relations between the Pacific northwest and Dixie will be rendered even closer and more cordial by the efforts and work of the Dixie Society, which extends to every citizen of Dixie an invitation to partake of its hospitality this summer.

W. L. CRISKEY,
Asst. Secy. Dixie Club.

BOWEN'S GUANO DISTRIBUTOR

Saves Labor, Time and Money

Save the work of two hands and horses; provided with all necessary adjustments and attachments to make a first-class Guano Distributor. For full particulars call on the undersigned. Read the following, showing what those who have tried it think of it.

LETTER OF RECOMMENDATION.

We the undersigned can say that Bowen's Guano Distributor is the best we ever saw on the market. We purchased one of its invention last season and it gave us perfect satisfaction. Did all it was claimed to do and is easily operated.

G. A. Jones, J. H. Anderson, J. W. Williams, J. G. Jones, Arthur McCorkle, Jasper Riggs, J. L. Anderson, T. B. Nevil, J. C. Nevil, Ed Brunson, E. B. Summerlin, W. W. Bland, J. F. Dornay.

L. O. Rushing, Dol. Rushing, M. J. Rushing, Edw. Rimes, John Strickland, Enoch DeLoach, Charlie Barrow and about fifty others.

For sale by W. G. Raines Statesboro, Register Trading Co. Register, W. H. Kennedy & Bro. Pulaski, M. J. Bowen & Co. Metter, Claxton Carriage and Hardware Co. Claxton, Gilbert Hardware Co., Robinson Hardware Co. Dublin, and J. D. Weed & Co. Savannah.

COMMUNICATED.

This is a funny old world or at least it is looked at by a funny people. The stars in the heavens and the teacher hammering on his skillets with his old brass eyes, oh! I mean his spectacle case. Good old man he was, but he is done with school house cares now, he is in the long valley of sleep.

Smith's conversation drifted and he was soon singing:
Yes, thy proud Lord's unpitied land! shall see,
That man hath yet a soul, and dare be free,
A little while, along thy saddening plains:
The starless night of desolation reigns.
Truth shall restore the light by nature given!
And like Prometheus bring the fire from Heaven!

Prone to the cold, oppression shall be buried
Her name, her nature, withered from the world.
A One Gallia Shear Cropper.

A Guaranteed Cure For Piles.
Itching, Blind, Bleeding or protruding Piles. Druggists refund money if Pains Ointment fails to cure any case, no matter how long standing, in ten days. First application gives ease and rest. 50c. If your druggist hasn't it send 50c in stamps and it will be forwarded post-paid by Paris Medicine Co., St. Louis, Mo.

Forget About Your Stomach.

If your digestion is bad the vital organs of your body are not fed and nourished as they should be. They grow weak and invite disease. Kodol Dyspepsia Cure digests what you eat, cures indigestion, and all stomach troubles. You forget you have a stomach from the very day you begin taking it. This is because it gets a rest—recuperates and gradually grows so strong and healthy that it troubles you no more. R. L. Babcock, Amherst, Minn., says: "I have taken a great many remedies for indigestion but have found nothing equal to Kodol Dyspepsia Cure." Kodol digests what you eat, cures indigestion, dyspepsia, sour stomach, belching, heartburn, and all stomach troubles. Its preparation is the result of many years of research. Sold by W. H. Ellis.

The Ad Man in Egypt.

EXCELSIOR

On last Friday evening the community of Excelsior had the pleasure of attending a public debate. The question was, resolved; That the United States was not justified in defending the Cubans. The speakers on the negative were from Metter, and were as follows: Col. Kirkland, Prof. Ethridge, W. J. Willis. The Affirmative speakers were from Excelsior, viz: E. W. Powell, R. J. Turner, Prof. Hardy. The decision was rendered in favor of the negative.

We are glad indeed to have our Metter friends with us and trust they will come again.

The Excelsior high school is progressing nicely under the efficient management of Prof. H. B. Hardy, of Johnston, South Carolina.

State of Ohio, City of Toledo, Lucas County.

I have known Brother B. J. Williams for twenty years as a neighbor, citizen and an honest man. I have also heard him preach and I

THE NEWS.

Published at Statesboro, Ga.
TUESDAYS AND FRIDAYS.

By The Statesboro News Publishing Co.

The telephone had in service four times as many miles of wire as the telegraph and carried fifty-six times as many messages. If the difference be so great at present, what will it be ten years hence?

If a new state prison should be erected on the west side of the Hudson, and the present one on the east side be abandoned, would Oestling go back to the more melodious name of Sing Sing? The Brooklyn Citizen asks.

The United States supreme court has now decided that when a river marks the boundary of a state the boundary is not changed if the river happens to change its bed. Herein the law seems to coincide with the majesty of horse sense, declares the Boston Herald.

One of the latest beneficiaries of wealth is a donation of \$100,000 in New York to build a model tenement house, states the Baltimore Herald. After a while the fear of dying rich will spread upon millions that they will even begin to demand to be assessed the full amount of taxes.

Every legislative body has complete control of its own organization, and may exclude members for conspicuous moral unfitness. Therefore, so long as the majority of any legislative body is opposed to including malefactors in its membership the character of such a body may be kept above par says the Hartford Times (Dem.).

The laboring man is the prime essence of American citizenship, the Hartford Herald avows. He is to our country what the mainpring is to a watch—he makes it go. He should have a generous share of the good things of life, because he deserves them. His claims always merit recognition and his labor a just reward.

While the farmer is crying out for help, and a large amount of produce is being wasted, the Associated Charities are puzzled to know what to do with the congested stacks of our larger cities, says the Tribune Farmer. The railroad contractor can go into New York and hire ten thousand men who will go out with picks and shovels, but still sustain the herded life, while the farmer will not be able to secure ten.

Among the prizes offered for 1905 by the Paris Academy of Sciences is one of 100,000 francs for the discovery of a means of communicating with any celestial body other than the planet Mars, says the New York Tribune. Presumably our communications with the "red planet" Mars are satisfactory to the giver of the prize, or perhaps he thinks we are already hearing too much from Mars by way of the far east.

Governor Stokes of New Jersey in his inaugural address, made this extraordinary statement: "Of the entire income of the state government last year not a cent was contributed directly by the people, yet all of it was expended for their benefit." The maintenance of the state administration, the courts, the public schools and college annexes, the charity institutions, prisons, reformatories, asylums for the blind and insane and the development of the model road system—all to one-third of the magnificent turpines in the whole country—cost the New Jersey taxpayers nothing; every dollar came from what Governor Stokes gently terms "our fiscal policy," meaning the railroad and business corporations that are popularly supposed to own the red sand state, and left \$2,950,000 surplus in the treasury. Naturally Governor Stokes favors the continuance of this policy and strongly defends the corporations that in ten months have paid fees upon \$13,550,000 capital, concludes Town Topics.

SMITH SEEKS COURT'S AID.

Writes of Habeas Corpus Taken at Cincinnati for Himself and Wife. That J. Morgan Smith and wife would resist extradition to New York where they have been indicted for conspiracy with Nas Patterson, Mrs. Smith's sister, was made evident at Cincinnati Friday afternoon.

Two writs of habeas corpus were granted from Judge Smith, one for J. Morgan Smith and the other for the wife, Julia Patterson Smith. It is alleged in the writs that the prisoners are held without warrants, that no charge has been placed against them and that there is no authority in law for detention of either husband or wife.

When War Ceases

How Are We to Handle the Enormously Increasing Population That Will Result.

By George Harvey, Editor of Harper's Weekly.

It is a very interesting subject—the increasing pressure of population upon the earth's capacity for supporting it—which is discussed in the International Quarterly by Professor N. S. Shaler, who, it may be remembered, occupies the chair of geology in Harvard University. The present number of the earth's inhabitants is computed at 1,600,000,000, and it is likely to increase hereafter, owing to the elimination of pestilence and chronic war, at a rate considerably greater than the average rate at which it has increased during the last three centuries. It is certain, on the other hand, that the quantity of tillable soil upon the earth, as well as the stock of other things necessary for man—such as iron, coal, petroleum, copper and other metals or minerals—is far from boundless. When will the demand threaten to exceed the supply?

Professor Shaler calculates that, as regards the earth's agricultural resources, the soil, which, without any considerable engineering work, could now support the present population in tolerable comfort about 4,000,000,000 human beings. He further estimates that by drainage, carried out on the systematic and scientific plan which has been applied to Holland, we could add to the tillable area of the United States rather more than 100,000 square miles.

What we are to do eventually for coal, petroleum and iron is a question less easily answered. We are reminded that in the United States today the average annual output of iron is estimated at 400 pounds for every man, woman and child, whereas four centuries ago the needs of men in the most highly civilized country were satisfied with about four pounds a year per capita. If the consumption of iron goes on increasing, where are we to find the ore? As for coal, the exhausting of the mines in England and in the anthracite districts of Pennsylvania is within measurable distance, and the coal of the bituminous combustible in the United States and China, how long would it meet the wants of 4,000,000,000 human beings? For the maintenance of the recent output of petroleum, the discovery of new deposits is recognized as indispensable. If we may judge from experience, it is improbable that any of the oil-yielding districts already drawn upon in North America and Russia will be productive at the close of the 20th century.

The Ideal of Womanly Beauty

By Ella Wheeler Wilcox.

BAUTY seems to have no established standards. Were the Venus of Milo or any other classic Venus to drop her marble immobility, and come to life today, I have no doubt she would be more criticized than admired.

Personally, I admire dark men and fair women. Whether she possesses the qualities or not, woman is supposed to typify light and hope—to suggest the angel, in fact—and angels are always represented as fair, because they dwell in realms of light. Man typifies power, strength, force—and we naturally associate these attributes with dark men, rather than with blondes.

A blonde may be an intellectual giant, but there is almost invariably a pronounced weakness in his character which makes him less a manly man than his swarthy brother.

My ideal of a beautiful woman, the type of woman who would most attract me were I a man, is one not under five feet four and a half inches, not over five feet five, in her walking shoes.

Her hair—between 135 and 140 pounds; hair any shade from light lustrous brown to silver blonde—the latter preferable. Eyes like crushed violets, with slight shadows underneath; a mere suspicion of a tilt to a Grecian nose—just enough to save from severity of line; a low brow, a rounded chin, thin lips, an upturned corner, and an expression at once amiable and intelligent, but not intellectless.

Let the intellect be discovered—it must not be aggressively assertive. The background for this picture must be a skin of delicate quality and as suggestive of refined care as the teeth and hair.

The whole personality must radiate health, and through the features must shine a good, loving and sympathetic heart, or else the possessor is only a well-groomed image, not a beautiful woman.

While this is my ideal, yet I know scores of beautiful women who are quite distasteful, as I know scores of beautiful flowers which are not the carnation pink or the rose.—New York American.

HE handshake of some people makes you think of accident and sudden death. Contrast this ill-boding hand with the quick, skilful, quiet hand of a nurse whom I remember with affection because she took the best care of my teacher. I have clasped the hands of some rich people that spin and toil not, and yet are not beautiful. Beneath their soft, smooth roundness what a chaos of undeveloped character!

All this is my private science of palmistry, and when I tell your fortune it will be by mysterious intuition or spyglass and not by the recognition of the unobscured character in your hand. Not only is the hand easy to recognize as the face, but it reveals its secrets more openly and unconsciously. People control their countenances, but the hand is under no such restraint. It relaxes and becomes listless when the spirit is low and dejected; the muscles tighten when the mind is excited or the heart glad; and permanent qualities stand written on it all the time.

As there are many beauties of the face, so the beauties of the hand are many. Touch has its ecstasies. The hands of people of strong individuality and sensitiveness are wonderfully mobile. In a glance of their finger-tips they express many shades of thought. Now and again I touch a fine, graceful, supple-wristed hand which speaks with the same beauty and distinction that you must see in the handwriting of some highly cultivated people. I can feel how pretty little children spell in my hand. They are wild flowers of humanity, and their finger motions wild flowers of speech.—The Century.

THE

Glory of the United States

By Anatole Leroy-Beaulieu.

On my view, what makes the greatness of the United States among the nations is less the tremendous economic development than its political institutions and its consciousness of liberty in every field of action and life. This comes back to saying that what has made its greatness is less the country itself than the men who inhabit it. It is less the great expanse of the territory and its natural resources of soil and of wealth underground than the qualities and the energies of the people who have cultivated the magnificent plains and the beautiful mountains of North America, and made them the basis of a great empire and a great nation. But for this empire to be born and for this nation to take form, life and proper, it was necessary that it should be inhabited by people capable of exploiting and binding together these vast expanses. In this sense one might say that it is the American who has made America, although between the Atlantic and the Pacific, as elsewhere, there was a mutual influence of men on the land, and the land on men. But as great as this last was, the first seems to have been even more powerful, and this is one of the causes, from my point of view, bringing about the originality and the superiority of the United States.

The causes of its success and of its greatness are not merely material causes due to the generosity of nature toward it. They are, above all others, moral causes, due to the character, the education, the energy and the spirit of enterprise of Americans.

HOARSE COUGHS —STUFFY COLDS

PLEURISY
PNEUMONIA
and CONSUMPTION

FOLEY'S
HONEY AND TAR

stops the cough and heals the lungs and prevents serious results from a cold.

Consumption Cured

Foley & Co., Chicago.

Gentlemen:—FOLEY'S HONEY AND TAR cured me of consumption after I had suffered two years and was almost desperate. Three physicians failed to give me any relief and the last one said he could do me no good. I tried almost every medicine I heard tell of without benefit until FOLEY'S HONEY AND TAR was recommended to me. Its effect right from the start was magical. I improved steadily from the first dose and am now sound and well, and think FOLEY'S HONEY AND TAR is a God-send to people with Throat and Lung Trouble.

Yours very truly, Mrs. Mary Ambrose.

FOLEY'S HONEY AND TAR contains no opiates and does not constipate like ordinary cough medicines.

THREE SIZES—25c, 50c and \$1.00

The 50 cent size contains 2½ times as much as the small size, and the \$1.00 size almost 6 times as much.

CZAR SUES FOR PEACE

Report That He Has Asked M. Delcasse, French Foreign Minister, to Act as the Intermediary.

JAPAN IS WILLING

Indications That Great Conflict in Manchuria Will Soon Be at an End. Japan Wants to Act Alone.

A telegram received in London from a North German capital says: "I have just learned on reliable authority that Russia has asked M. Delcasse to act as an intermediary and open peace negotiations with Japan."

"Delcasse has signified his willingness to negotiate for peace. It was stated in the Russian press that the Russian Government is essential to success."

A St. Petersburg dispatch is as follows: "Russia has outlined the conditions under which she is prepared to negotiate for peace. It was stated with every semblance of authority that, thanks to the good offices of the United States and France, the question of peace had assumed practical shape."

"When peace negotiations commence it will be between Russia and Japan and direct and not through any intermediary," was Minister Hayashi's comment at the Japanese embassy in London Tuesday night, when shown the dispatch from a northern European capital stating that M. Delcasse, the French foreign minister, had been asked to act as intermediary to open peace negotiations. Minister Hayashi said he attached no importance to the statement, but believed that France was trying to influence Russia to open negotiations for peace.

"So far as I know," he added, "no negotiations have begun, but when Russia is ready to make terms, Japan will be happy to consider them."

Minister Hayashi repeated his previous statements that Japan is not seeking peace rumors, but steadily preparing to prosecute the war to the bitter end.

At Foreign Secretary Lansdowne's residence it was stated that it would be useless to ask Lord Lansdowne for an expression of opinion at the present juncture, as he must decline to give out any statement on the subject of peace.

Russian Army Continues Retreat.

Advice from the front state that the Japanese are again moving forward and the Russian rear guard has fallen back from its position about 127 miles north of Sipinghai (fourteen miles north of Tie Pass), to Chomaisol, which is situated forty miles below Gushu Pass.

Practically complete reports show that the Russian army sacrificed general commissariat stores to the amount of \$1,250,000 and stores for an army corps amounting to \$500,000 held at Mukden, most of it being set on fire.

The boots and uniforms among the stores of which the whole army was in need, arrived from Europe four days before the Russian retreat from Mukden. General Kuropatkin ordered the removal of the stores, but his order was not executed.

An investigation will have to establish the responsibility for the communications telegraphs cut.

The London Times' St. Petersburg correspondent telegraphs as follows: "The entire absence of private and press telegrams from the front, together with a laconic message from General Linerich Tuesday, dated at Harbin, and saying, 'No reports from the armies,' evokes fears that communications have been cut, and that the Japanese have turned the Russian positions."

COURT BANISHES GUY HALL.

North Carolina Man Must Leave State for Illegally Selling Booze.

B. Guy Hall, whose name was much mentioned during the trial of Wilcox for the murder of Nellie Cropley at Elizabeth City, N. C., three years ago, has been ordered by a judge of the superior court at Raleigh to leave the state.

The constitution permits such a sentence in North Carolina. Hall was convicted of selling whiskey in prohibition territory.

TRI-STATE QUARANTINE

Against Tropical Countries Effective from First Day of April.

The quarantine regulations for Alabama, Louisiana and Texas against all tropical countries and ports coming under the suspected list is effective from April 1st.

Many quarantine officials have already left for their stations, and those who have not are preparing to do so.

GEASLER ROUSSEAU CONVICTED OF SENDING INFERNAL MACHINERY TO FLORIDA.

In New York, Monday, Geasler Rousseau was convicted before Recorder Croft of having sent with malicious intent the infernal machine to the Mallory steamer in that city on May 6, 1903. The prisoner received a one year term and without cost of maintenance, and was remanded to the tomb for sentence later.

FAREWELL CABINET SESSION

Before President Goes Away on His Extended Trip to West.

President Roosevelt and the members of his cabinet conferred together Friday for the last time before the president goes away on his southern and western trip, and probably he will be absent more than two months. Little beyond routine matters was taken up.

GOVERNOR TO THE FARMERS.

Georgia Chief Executive Urges on Good Work of Cotton Association. Governor Joseph M. Terrell of Georgia, who has from the very first taken a strong interest in the work of the Southern Cotton Association, as who always has the interest of the Southern farmers at heart, is out in a strong article in which he urges the farmers of the south, and especially the farmers of Georgia, to hold their cotton, reduce the acreage this year and to use less fertilizers.

In speaking of the work of the association, Governor Terrell says, among other things: "I have watched with great interest the work of the Southern Cotton Association. Its officers and the officers of the various state divisions have done a good work in so thoroughly organizing the growers and in securing the farmers of the south, and especially the farmers of Georgia, to hold their cotton, reduce the acreage this year and to use less fertilizers."

"The south has never lost anything by standing together. It has never succeeded by drifting apart. Had it not been for the union of moral forces during the dark days of the reconstruction the manhood of the south would have passed away with its property interests. The southern planter needs this same determined and united strength in the present fight, the cotton growers are making against the evil that is threatened in an effort to control the product of human labor by speculation in Wall street. There should be no legends. Now is the time to act, in order that the best results may be guaranteed."

"Diversification of crops to take up the land not planted in cotton and a greater effort than ever before to raise food supplies at home will put the southern states in better shape than ever before. Too many of our people have devoted themselves entirely to cotton, and have from year to year used the money they received in cotton for buying their food supplies."

"There is all sorts of talk about people who are going to take advantage of the fact that other fellows are going to plant less cotton. Like the very few during the civil war when our sons were at the front, there was a small number who refused to fight so they could reap a harvest of wealth from the patriotism of others, there will be a handful in every community who will go ahead and plant more cotton. But these can almost be counted upon your fingers."

"I believe the people of the south are thoroughly aroused on this great question and that they are going to reduce their acreage, hold what cotton they can for better prices and when next fall arrives, I believe the crop of cotton will be much shorter than in years, and that the price will be much higher than it is today."

BEEF TRUST WITNESS BRIBED.

Such is Sensational Charge Made by Federal Grand Jury at Chicago.

A Chicago dispatch says: The federal grand jury investigating the alleged beef trust returned an indictment Tuesday against Thomas J. Connors, general superintendent for Armour & Co.

The charge is interfering with a witness summoned to appear before the grand jury. Mr. Connors, who is one of the J. Ogden Armour's most confidential employees, and is the active head of one of the largest packing companies in the world, was arrested shortly afterward on a bench warrant by a United States deputy marshal and taken to the grand jury room. After considerable delay the prisoner was released on a \$5,000 bond.

MISS LEE LAID TO REST.

Body is Placed in Mausoleum Beside Father, Mother and Sister.

At Lexington, Va., Friday, the remains of Miss Mildred Lee, youngest daughter of General Robert E. Lee, were placed in a crypt of the mausoleum at Washington and Lee university.

The other members of the family buried there are her father and mother, and one sister, Miss Agnes Lee. Funeral services were held in R. E. Lee Episcopal church. Eight students of Washington and Lee university acted as pallbearers.

SCOUTS OF MIKADO PROBABLY CARRYING OUT FLANKING MOVEMENT.

A telegram received in St. Petersburg Thursday from St. Petersburg, says: "The Chinese report that a Japanese column, which is probably carrying out a flanking movement, has been seen 27 miles northeast of Sipinghai, 74 miles north of Tie Pass."

More Delay for Fugitives.

After a lengthy and acrimonious controversy between counsel the Bremer-Kayser case was again postponed until April 10, to give counsel an opportunity to further study the exhibits filed.

Law Evaded, No Harm Done. Quothes Magnate Rogers.

ROCKEFELLER DEFENDED

Declares Dr. Gladden Would Not Trust Church Deacons With the Ten Commandments for a Space of Ten Days.

At New York Friday H. H. Rogers, vice president and director of the Standard Oil company, made a statement as to the conduct of the Standard Oil company, which was evidently prompted by the prudential committee of the American board of foreign missions in accepting a gift of \$100,000 from John D. Rockefeller, Mr. Rogers said:

"Ministers say queer things. Dr. Washington Gladden says that everybody knows that John D. Rockefeller has obtained his money dishonestly. With as much reason I could say that everybody knows that Dr. Gladden would not trust the ten commandments for ten days with the deacons of his church because they would surely break some of them and bend the rest."

"Slavery in certain sections of the United States was legal until President Lincoln's emancipation proclamation. Rebates on railroads were just as legal until the passage of the interstate commerce commission act. After an exhaustive examination by the industrial commission, authorized by congress, July 18, 1898, in a review of evidence, the commission reported as follows:

"It has been charged as a matter of general belief on the part of almost all the opponents of the Standard Oil company that these discriminations in various forms have been continually received, even up to date. On the other hand, the commission has found in toto and most emphatically by every representative of the Standard Oil company with reference to all cases excepting one, which they claim was a mistake, that no discrimination was being promptly paid on discovery of the error."

"The Standard Oil company not merely challenged the opponents to bring forth proof of any case, but also invited them to produce official records of railroads to show that the company had in no case received any favors or asked for them."

WILL INSIST ON PAY

Japan Not to Waive Compensation for War Losses.

CASH OR ITS EQUIVALENT

Jap Financial Commissioner in London Says Question of Indemnity is Only One to Be Considered Between the Belligerents.

A London special of Thursday is as follows: Peace talk is prevalent everywhere, but that negotiations have commenced is still positively denied by all official circles here. The foreign office disclaims even having any knowledge of peace proposals. It is quite evident, however, that while the first definite step may be taken at any moment, any advances further than indicated in the Associated Press dispatches may be postponed indefinitely.

Baron Hayashi, the Japanese minister in London, declared in an interview Thursday evening that he had no information in regard to the announcement contained in the St. Petersburg dispatches that Russia had indirectly made known to Japan the negative conditions on which peace might be concluded, namely, no cessation of territory, and no indemnity, leaving Japan to determine whether peace negotiations could be begun upon that basis, but he said unreservedly that the terms then mentioned could not even be considered, and added:

"A cessation of territory and an indemnity are the only points negotiable, as Japan's ante-bellum demands have already been secured by Japan."

M. Takahashi, the Japanese special financial commissioner, in an interview, said to the Associated Press: "The way cost between \$250,000,000 and \$300,000,000 the first year, and it is estimated that it will cost \$350,000,000 during the present year. It would be unprecedented in the history of the great wars that no indemnity and no territory be given up by the vanquished."

"While it is beyond my province to discuss the amount of any indemnity, I can express my personal opinion that as the war was forced upon Japan it is not likely that she will waive the right to indemnity and cessation of territory when conditions are met."

"What indemnity will be demanded I cannot say, but it is my private opinion that it will at least cover the expenses of the war. If Russia saunters, she will be another mistake, for it will be another mistake of judgment on her part."

"We can maintain a sufficient army in Manchuria to keep out the Russians indefinitely, but this will necessitate Japan remaining in Manchuria and administering the province on a war footing, which we do not desire. Manchuria is fertile and productive, and an army can be maintained there more economically than in the case of the opposing force in Siberia. If Russia is prepared for the test of a war of finances, we are willing. The longer the war lasts the more certain it will be that it will not be resumed."

M. Takahashi spoke interestingly regarding the international conditions in China since the China-Japanese war. He said China was now making rapid strides along the lines on which Japan had developed. China was sending pupils abroad to study and bring back in foreign constructors. Many of these were Japanese and a rapprochement between the two countries was steadily being effected. The Manchus were delighted with the Japanese administration, which it was in force, because they found no lawlessness and perfect peace.

The Chinese government, M. Takahashi added, proposes reorganizing the army of China and recreating its navy. The Japanese believe that within a few years China will be able to defy Russia.

In this connection, a foreign office official said to the Associated Press that he believed Japan would occupy Harbin and also maintain the nucleus of a garrison in Manchuria by an arrangement with China for a period of years after the war.

He added that there was not the slightest doubt that the Japanese would maintain the open door and refrain from all active manipulation of the Manchurian government.

More Delay for Fugitives.

After a lengthy and acrimonious controversy between counsel the Bremer-Kayser case was again postponed until April 10, to give counsel an opportunity to further study the exhibits filed.

BANKERS' BACK MERGER.

Deal for Consolidation of Steel Properties in South Seemingly Closed.

Definite form has been given to the negotiations for the merger of southern iron companies through the intervention of the project of the leading houses of Blair & Co. and Laidlaw, Thomson & Co. of New York.

The banking houses would not discuss the progress which the transaction has made, but said that some arrangements through them for the consolidation might be reached. One of the bankers said that all reports of a completion of the transfer were premature.

Besides the Tennessee Coal and Iron company, the Shenandoah and the Alabama Consolidated, it is expected that the Pioneer plant of the Republic Iron and Steel company and possibly one or two smaller concerns will be included in the merger.

The capitalization and liabilities of these three properties is in the neighborhood of \$125,000,000, and it will be on this basis with additions for working capital and the cost of the new company will be formed.

Carnegie Donates to Negro School.

Col. and Mrs. H. B. Strang returned last week from Hot Spring.

Kodol Dyspepsia Cure Digests what you eat.

Alderman Coughed Up.

From the New York Sun.

Alderman James Gaffney, feeling gay and hungry, led a party of his friends into Still's oyster house, at 195 Third avenue, last Monday night and demanded food. The alderman himself had no use for oysters, but ordered chops and tea. He was overruled by Sgt. Charles Place of the Tenderloin, who insisted that Gaffney try his friend Still's famous bivalves.

Gaffney had eaten two and started on the third when he began to choke so violently that his friends pounded him vigorously on the back. Their efforts were successful and the alderman coughed up a large pearl. He didn't recognize the pearl in its native state and passed it over to "Old Gus," the head waiter, with the remark that he supposed anything he couldn't eat belonged to the house.

Sgt. Place being well acquainted with pearls in natural and other states, from his long service in the Tenderloin, insisted that the queer looking object was of great value. He was corroborated by Henry Janfer, a jeweler, who entered during the discussion and declared that the pearl was a very fine one and worth over \$500.

"Old Gus" says it is the biggest tip that he ever received.

A SONG

The following song was learned by Mrs. G. W. Morris during her sickness with typhoid fever:

"I'd hard to part with those we love, To meet no more on earth To leave our husband and our homes And chide that we gave birth.

But come to me my dear child, I have a home for you, I know its best for loved ones to rest, I will see you safely through.

This world's a land of toil and strife Of sorrow pain and care, When you can wander home above To a land that is most fair.

So come to me my dear child, To a home beyond the shore Where sickness, sorrow and death Will ne'er stress thee any more.

A rugged weary path you've had, With foes on every side, With such dear child you have to meet Before you cross the tide.

So come to me my dear child, To home beyond the sky, Where pain and sickness dwelleth not And pleasures never die.

I send angels round thy throne To sing sweet songs to you, They love and claim you in your sleep Because you've been most true.

Now come to me my dear child, To a home that's fixed on high Where angels dwell with ever more And never never die.

A golden crown upon your head A harp within your hand, A silver voice to sing sweet songs, When you join that beautiful band.

LOST.

On Sunday last March the 6th, between M. J. McElveen's and my place one promissory note made by M. E. Byrd to myself for \$35.00. Finder will please return and get reward.

J. C. Nevils, Statesboro, Ga. R. F. D. No. 8.

FLY

Plowing is the general occupation of the farmers in this section. We are glad to know that Mr. C. N. Marsh's mule which has been lame so long is fastly improving.

Mr. Daniel L. Deal will open up his school at Enterprise academy on next Monday, April the first.

Mr. M. B. Marsh is using cotton seed meal and acid this season in the place of guano.

The farmers of this section has out their cotton crops off considerably to that of last year and bought less guano.

Mr. C. N. Marsh has added to his machinery a cotton seed crusher and is prepared to do the work and guarantee satisfaction.

The City Court

The quarterly session of the city court has been in session for the past two days. The time of the court has been taken up with the civil docket, both yesterday and day before. The following business has been disposed of:

State vs Jordan Peavy, charged with the stealing of a boat from Mr. P. C. Richardson on the Ogeechee river; verdict not guilty.

The case of Rufus Gresham, charged with the same offense and being a companion case to the one of Peavy was not pressed.

State vs J. T. Parker, charged with trespassing on the lands of C. M. Capps; verdict not guilty. This is the outcome of a quarrel over rival bridges on the Ogeechee river near Rocky Ford.

State vs Clifford Walton, colored, charged with assault; verdict of guilty; fine \$250 and cost, or serve a term on the gang.

State vs Lonnie Mincey, colored, concealed weapons; verdict of guilty; fine \$75 and cost, or ten months.

State vs F. C. Parker, concealed weapons; verdict of guilty; fine \$75 and cost. The prosecutor in this case was Julius Waters. We understand that there is a warrant out for Waters for the same offense and that he will be tried at the next term of court.

State vs Nelson Hicks, colored, concealed weapons; verdict of not guilty.

The civil docket will be taken up this morning, and we understand that there are a number of important cases for trial.

Respectfully, Peter Nicholas, West End of Simmons Block.

The Cotton Market.

There has been a good deal of cotton in the Statesboro market during the past week. Prices remain about what they have stood at for the past month. Sea islands selling all the way from 10 to 17 cents, and short cotton all the way from 6 to 8 cents. The demand in the markets is reported to be very active.

Invented Perpetual Motion.

We are informed that Mr. Beil H. Olliff has about perfected what he thinks will solve the problem of perpetual motion. Mr. Olliff has been engaged in this work for several months, perhaps longer, and now believes that he has the problem solved. We understand that it works by a pressure process, and those who have seen it say that it is a go.

Mr. N. V. B. Foss has also been working out a plan to perfect the same thing, but after seeing Mr. Olliff's he has more confidence in it than he has in his own and will go ahead and assist Mr. Olliff in making his plan a success.

The United States government has offered a premium of \$10,000 to the party who perfects this patent, and in addition to that the patent itself will be worth millions to the man who invents it.

Ball Game On The 20th.

We learn that there will be a match game of ball between the Statesboro first nine, and the Y. M. C. A. first nine of Savannah, on the Statesboro diamond on the afternoon of the 20th of this month. It will be remembered that these two teams went up against each other last summer was a year ago, and were pretty well matched. It is expected that there will be a well played game.

The home boys hope to have their grounds inclosed by that time, and be ready to entertain the visitors in great shape.

Announcement.

Having purchased the drug business of Mr. S. J. Crouch, we take this method of saying to the people of Statesboro and Bulloch county, that we have a full line of Pure Drugs and Medicines, Toilet articles, etc.

We will endeavor to keep the business up to the high standard attained by Dr. Crouch, and hope to merit the patronage of the people in our line. We have secured the services of a first class licensed pharmacist, Mr. J. H. Hennevis of Atlanta, and prescriptions will be filled with care and dispatch. We have a first class Soda Fountain where only the very best cold drinks are dispensed, we use the best grades of extracts, and invite the patronage of the public in this line.

You will find us both courteous and prompt to serve your wants, and hope to be favored with a share of your business.

Respectfully, Karl E. Watson & Co.

New Harness Shop

The undersigned having opened a harness shop in the rear end of the building occupied by Sutton's barber shop takes this method of inviting the public to give him a call. New harness manufactured on short notice, or old ones made as good as new. I have all the latest tools and machinery in order to turn out first class work and one trial will convince you that my goods are worth a good deal more than the stuff that you get from a distance. My work is all guaranteed to be first class in every respect, and if any of it fails to come up to this standard I am right here to make it good. I also carry a full line of parts and furnishings for repairs in harness. Give me a call.

Respectfully, J. G. MITCHELL.

Candy Factory.

The undersigned has opened a candy factory in Statesboro. The public are invited to call and inspect the prettiest line of pure and fresh candies ever seen in the city. Having had a number of years experience in my line, I am prepared to furnish you with all the latest in both stock and fancy candies, caramels, bon bons, etc. These goods are made out of the pure materials and are much better than most of the goods that you buy. Patronize home industry, especially so when you get better goods for your money.

Don't fail to call on me, and inspect my line of candies and novelties.

Respectfully, Peter Nicholas, West End of Simmons Block.

Russia's Great Loss

Harbin, April 5.—Complete returns received at headquarters gives the total Russian losses in killed, wounded and prisoners at the battle of Mukden as 107,000. The wounded are being taken away from here over the Siberian railroad as rapidly as possible in order to free the hospitals preparatory to a renewal of the fighting.

By General Linevitch's order the bands play daily at all the Russian positions.

Russians Driven Off.

Tokio April 5.—8 p. m.—Imperial army headquarters reporting today says:

"A part of the Changtu force drove the Russians out of Tushun, two miles north of Changtu, and also out of Sumienchong, nine miles west of Tushun and occupied both places on April 5."

"After driving the enemy from the neighborhood of Sumienchong, six miles southeast of Tushun, our force reached the vicinity of Santankuo, on April 4, at noon, when they were fired into furiously by about 600 Russian cavalry retreating north along the railway."

"Our force dispersed them."

Another New Industry

Statesboro still continues to move forward. One of the latest industries to locate here is a candy factory. A news reporter called on the proprietor, Mr. Peter Nicholas, on yesterday and was shown through his place located in the brick store at the west end of the Simmons block.

We were very much surprised when shown the many varieties of candies being put up for the trade right here in our town. The goods will compare favorably with any that can be purchased anywhere, and the fact that these goods can be bought fresh every day and the knowledge that they are manufactured out of pure materials should commend them to our people. We hope that Mr. Nicholas will be given a patronage that will justify his venture here in the line of a candy factory.

The Right Name Is DeWitt.

DeWitt's Witch Hazel Salve cures sores, boils, burns, blisters, bruises, piles and all skin diseases. E. K. Zickfoose, Adolph, W. Va. says: "My little daughter had white swelling so bad that place after place of bone worked out of her leg. DeWitt's Witch Hazel Salve cured her."

It is the most wonderful healing salve in the world. Beware of counterfeits. Sold by W. H. Ellis.

Lecture Tonight.

Dr. Edwin Hall, the well known lecturer, will give one his lectures at the auditorium tonight at 8:00.

Dr. Hall was to have been here last Wednesday, but owing to the fact that he missed connection the engagement was postponed.

It is needless for us to comment on the ability of Dr. Hall as an orator, as he has a national reputation, and has appeared before us several times before, and will always receive a hearty welcome at the hands of the people of Statesboro. It will be remembered that he lectured here last fall on "How to Get Married and Stay Married," which was enjoyed very much.

The subject for tonight will be "The Fool Killer," and will no doubt prove to be very entertaining, and, inasmuch as Dr. Hall is to let a portion of the proceeds go to our school library, all who can should go out tonight and help this worthy cause.

We understand that Mr. Parish had no insurance on the property burned.

Barn and Stables Burned.

On Tuesday night the barn and stables of Mr. Joseph Parish at Portal, was destroyed by fire. About 100 bushels of corn, 800 bundles of fodder and some farming tools were destroyed. A mule and cow were saved with a great difficulty, the mule had the hair all singed on its back, and the cow was badly burned. The barn was in a light blaze when Mr. Parish and family were awakened by the roaring of the flames.

Mr. Parish and his father-in-law were both pretty badly burned while rescuing the stock from the burning building. It is not known how the fire originated. One or two suspicious looking tracks were seen around the building next morning, but as yet there is no clue that will solve the origin of the fire.

We understand that Mr. Parish had no insurance on the property burned.
