Sam Flower Party.

On last Wednesday evening at the home of Mr. and Mrs. H. S. Barr near Adelaide, their daughter, Miss Sallie, entertained to a Sam Flower party in honor of her attractive guests Misses Mae Walker and Belle Harling, of South Carolina.

At 8:30 o'clock the invited guests assembled in the beautifully decorated parlor where a guessing contest was indulged in, and also the drawing of the artificial sun flower for supper. They were then taken into the dining room where ice cream, cake and other refreshments were served.

The parlor, halls and dining room were tastefully decorated with large sun flowers and potted plants. Music was rendered by Miss Belle Harling and many interesting games were played.

At 12:30 o'clock the merry party dispersed to their respective homes, declaring Miss Sallie as a delightful entertainer.

The first, second, third and fourth districts of the Baptist Sabbath school convention met Friday before the third Sunday in July at Thomas Grove Baptist church. There was a large number, more or less than 2,500 people, there. Received over \$3.50 out of the four districts, and all never reported. We had no time on Friday, but Saturday it looked like the speculators were going to take possession. Three stands were erected from Friday evening to Saturday morning, but by the system of our good white friends and a few of our honest colored workers seeking the law made the enemy retreat back in the wilderness, and God's hosts came in with a fine report. It looks like now when we the colored population, go to have our associations and conventions and can't manage the outside of the church call on our good white friends, who have the law in their

hands and will show us how to subdue the law breakers. It looks like if the colored population would start out now they will have better times.

Ten Thousand People Hear Captain Hitch.

Greatest Re-Union in History of the Veterans' Association—The Big Crowd Enjoyed the Day in Great Style.

On yesterday Statesboro was strictly in the hands of the Confederate Veterans of Bulloch and adjoining counties. As early as six o'clock the advance guard of a long and continuous procession of vehicles began to pour into the city from every road that enters Statesboro.

Everybody seemed to be in a good humor, and we believe that all who were here carried home with them the best of feelings for the town and its people.

Capt. Hitch was hailed by a large percentage of the crowd as a returning hero. Men crowded up against each other to shake his hand, and one to stand aside and hear the expressions of the great masses of the people as they shook his hand would lead you to believe that he was among his friends.

Communication

Mr. Editor: In your issue of July 11th there was a communication by "Hayseed" in regard to the working of the public roads under the new law. He writes Mr. Stubbs to come up and look at the paved roads of paradise in the 1820th district. I will now write Mr. "Hayseed" to come down to the 1840th district to gaze on the holy, rooky and crooked roads of purgatory.

Mr. "Hayseed" said he didn't think the gentleman even saw the roads in other counties worked by the same system. I never have either. He referred to Jefferson county where they spent \$800.00 in work on one mile of road. He never stated whether they had the ties and rail laid or not; I guess they have.

"A black spot in the Sun." Mr. "Hayseed," are they building trams on the great Panama and New York railroad? Our commissioners ought to put the chauling on the roads just as soon as they get the swampy places fixed, but it will take five years to do that if all the swampy places are like the ones in this district.

Yes, let the people condemn it, we don't mind the money, but the road not worked and the money gone.

Yes, we pay the overseer \$40 per month to look out over public roads. I am like Mr. Stubbs, I knew we have enough of public roads if Bulloch has got 25,000 inhabitants. Every inhabitant can't have a public road to go by his house.

Our overseer does the collecting himself, and a lot of the miles are at work on the farm, hauling cotton choppers and cotton pickers and drove out on Saturday and Sunday.

If it was \$1.80 in Jefferson county a few years ago, I guess it is not now if they pay \$800.00 per mile.

In most of the sections of the county there were better roads than there are now since the present law came in force.

Now, Mr. "Hayseed," we all know that Rome was not built in one day, nor did the people have to pay a tax of three dollars per year or less to build that city and hire overseers to command the work.

I know if we had to pay a tax to stay in heaven we would not be satisfied, for we would know the new system of working the roads would be there, and then we would want to go up higher.

But I say if Mr. "Hayseed" could get on a front seat he would not venture to ascend the Lord's throne with the new road law on his shoulders.

Come again Mr. "Hayseed." Rattlesnake John.

In a game of ball yesterday on the local diamond between Statesboro and Guyton the latter was victorious the score being 18 to 15.

Williams Gets a

Verdict for \$1,000

One of the hardest fought civil cases heard in Bulloch county court house in a long time was that of R. M. Williams vs M. M. Holland which was tried at the adjourned term of the city court this week.

The circumstances of the case are as follows:

Last September, while passing the office of Dr. Holland, Mr. Williams saw what he claims to have been a man, he thought to be Mr. A. J. Clary, sitting on the steps and spoke to him, calling him by the name of Clary. Dr. Holland, who was sitting there, took offense at this, inasmuch as he believed that the remark was intended as a slur; he and Clary not being on good terms, Dr. Holland accosted him and struck him a blow in the face, causing, as Mr. Williams alleged, much mental and physical pain, humiliating him in the estimation of his friends and neighbors.

Dr. Holland was fined \$15 in the Mayor's court and again in the city court he was fined \$50 and cost, and Tuesday a verdict for \$1,000 and cost was rendered against him. This makes it a rather costly lick that he gave to Williams on that occasion.

Dr. Holland claims that he is not altogether responsible for the damages alleged to have been inflicted on Williams. Just before the trial he had one in the same eye with a beer bottle in the hands of one Gabay, the bartender in the Pulaski House in Savannah. "The lick there is said to have knocked him down."

A large number of witnesses were sworn, and the following attorneys made up the line in the case: For the plaintiff, R. Lee Moore, Moore & Deal, and Judge H. D. D. Twigg; for the defense, Brannen & Booth and H. B. Strange.

We learn that a new trial has been asked for. The case will probably go to the supreme court.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expensiveness. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by All Druggists.

\$559,729

The above figures show the amount of the gain in the value of taxable property for Bulloch county over that of last year, according to the tax digest just made up. The white polls have increased about 75, and the colored decreased about the same amount. We will give the figures in detail in our issue of Tuesday.

Buy It Now.

THE FIGHT COMES UP ON 26TH.

That Day the New County Committee Will Hear the Contending Parties On the Stephen County Proposition.

The reasons why Metter should or should not be given a new county will be heard before the new county committee of which Joe Hill Hall is chairman, on the 26th, next Wednesday.

It is safe to say that the committee will not be lacking in information, either pro or con. Metter has been stirring herself for some time, gathering in statistics, etc., going to show that it would be a source of great benefit to a large number of people in that section to have a new county cut off, with Metter as its capital, and the people of other sections of the county, and probably a number from the section affected, will be on hand to enter a most emphatic protest. It will be their business to refuse what ever claims that the people of Metter may make.

A mass meeting has been called to assemble in Statesboro on next Monday at eleven o'clock to discuss the matter. The notice has been so worded as to invite all parties living in Bulloch to participate, whether they are in favor of or opposed to the new county. It is hoped that the meeting on Monday will be able to present to the committee the wishes of the majority of the people of not only other sections of the county but a majority of those in the 45th district as well, as that composed the principal portion of the territory to be sliced, with a small section of the 1820th.

The people living in those two districts are especially urged to come out on Monday. It doesn't matter whether they are opposed to it or in favor of the new county; they are wanted in this meeting. The people from other sections who may be interested are expected to be out.

A FEW REASONS WHY

C. B. GRINER & COMPANY CAN

Make the best ICE CREAM and COLD DRINKS to be found in the city.

1. Because they have spared neither time, pains nor money in equipping the handsomest and most up-to-date ICE CREAM Parlor in the city.

2. They are the only people who have a double draft, 20 syrup fountain where two people can work at once.

3. They are the only people who own and use an automatic lightning carbonator. (This carbonator is new and up to date in every respect. It does away with the old style of rocking your tank till you and tank both go to sleep and makes the cold sodas 20 per cent better and 500 per cent quicker. It is in their show window, see it work.)

4. They are the only people who can make and keep seven (7) different kinds of cream in absolute safety.

5. They can serve three drinks while others are serving one.

6. They use nothing in their creams or drinks but the very best that can be secured from the leading wholesale houses in the United States.

7. Their clerks are polite and attentive to every customer, and especially so to small children and ladies.

8. They serve a glass of sparkling ice water free with every glass of cream.

9. They sell enough cream to force them to freeze a new supply every day, so there is no danger of getting old cream for fresh.

10 They have an expert soda water and ice cream man in charge of that line who will be very glad to see that you are treated royally and receive the very best drinks and creams that can be made. He challenge the best.

Personal Interest.

"Oh, yes, I believe in temperance, its advocates, grand and true, Shall ever have my sympathy. In the work they are trying to do. But with me, you see, it's this way: My children are grown up you know And not one of my boys could be tempted Inside a saloon to go.

"They have no use for tobacco, And as for a cigarette There's nothing to them more disgusting.

So, you see, I've no need to fret, For my boys are all safe! And the girls? Oh, they In truth are too firmly grounded To ever be led astray.

"S. while I believe in temperance, And its advocates, grand and true, Shall ever have my sympathy. In the work they are trying to do, Real personal interest I do not feel, For, thanks to the training they've had, My children are safe, and henceforth for me There's nothing to do but be glad!"

Ere a year passes by with heart-rending sobbing

Her glad song of triumph is hushed, For home to that mother they carried her boy—

Her first-born—all mangled and crushed! How came it? 'Twas drink, the curse of this land!

An' the little lips it ne'er passed It cut him down in fair manhood's morn—

It murdered that boy at the last! 'Twas the tragical story, repeated so oft

Regarding it little we think: "A railway disaster, the fault of some one

Under the influence of drink!" Time passes away, but swiftly away, In that home where once was all joy, And a fresh sorrow comes, harder still to be borne

Than even the death of her boy. A beautiful daughter, light of the home,

Entrusted her sweet life unto one, Who promises well to be noble and true,

But ere long by the drink is undone! Another sad story, so common, alas! The details I hardly need tell, Of a soul in the wrestle with appetite

Here, Surrounded by strongholds of hell, Of a soul at last conquered, of manhood bereft,

Of a heart-broken wife, loving still, Trying bravely to save a once noble man,

Ere a drunkard's grave he shall fill! Oh, parents, as long as this demon Of drink is abroad in our land,

Our children are not safe, and shall you and I Unprepared for battle e'er stand? Let us gird on the armor, and trusting in Him

Who will be to us wisdom and power Let us ne'er lay it down until we have threatened the foe

That threatens our homes every hour. Mrs. A. B. Wade, Statesboro, Ga.

SEA ISLAND CROP OF WEST INDIES.

The sea island cotton growers, factories and buyers in this country are vitally interested in reports that are coming in from various parts of the West Indies relative to the success, or to be more exact, the want of success, that has attended the making of sea island cotton in that territory, for with these reports pass away the bugaboo that for several seasons the English spinners have held over the heads of American producers, threatening them with a dangerous rival in this important industry.

For some time the effort had been made by foreign spinners or allied interests to become independent of the American crop, of fine cotton, or to develop a source of supply that would be sufficiently large to enable them to bring pressure on the American crop, and get supplies at lower prices. In order to develop this foreign territory they have not only offered every facility possible in the way of securing seed for crops, but have paid really higher prices than the staple was worth in order to encourage planting.

That all these efforts are doomed to failure is shown by the reports that have recently been received at Savannah. The Barbadoes crop, it is reported, that earlier in the season had been expected to reach 6,000 bales, turned out to be but 1,450, and from Cuba comes the report that the crop is a total failure.

It is asserted by those most familiar with the growing of sea island cotton that a profitable crop, which means a satisfactory yield of a good marketable crop, can not be secured below the frost line. In the West Indies the planters have had the further disadvantages of a climate too wet at one season of the year and too dry at another, numerous insect pests and a class of labor that is not only untrained to such work, but too indolent to attend to it when properly instructed.

In the case of the Cuban crop the report is made that the plant was attacked by caterpillars and that it was impossible to rid the field of them, because the workmen feared to use Paris green. Another difficulty that the foreign planters will have to contend against the coming year will be the inability to secure seed from this country, that is, from South Carolina, where the best seed are secured. This is due to the alliance recently made by the planters in that territory, that no seed will be allowed to leave the state.

WILL CONTINUE EXPERIMENTS. The foreign planters have not given up the fight for within a short time one of the big coffee plantations of Porto Rico has bought up the cotton fields, and will endeavor to grow a satisfactory crop. One of its agents, W. A. Bennett, was in this city a short time ago, seeking information relative to the business that he hoped to use to advantage in his venture. Another firm has cleared fields on the Isle of Pines south of Cuba, and will make the experiment there.

Because of the shortage of seed that will result from the alliance of the Carolina planters the foreigners are endeavoring to get a stock for the next crop by selecting the best from this year's growth. As the seed they have been using is a hybrid produced by a Carolina planter, and as the originator himself does not know by what method he secured the seed, or whether the variation has become fixed, it is believed a selection on the part of the Barbadoes planter may lead to some curious results though, judging from past experiences, they are hardly likely to be satisfactory ones.

A Wet Weather Song.
When we see the rain coming we've been praying for so long, When the dark clouds frown and threaten and the birds forget their song; When the rain comes down in torrents and the thunder snap and pop, Well, we know we sorer need it, but we want to see it stop.

The clouds just keep a storming and thundering and shouting, Just keep on to a raining till you draw them fellows out! And so it keeps a storming and a raining day and night, But the clouds are rifting somewhere and the sun is shining bright.

That rain crop keeps a croaking and a bobbing up and down, He says: "I'll take my wind and rain and tear up the dry town! I remember in the darkness when the rain is drenching you, That the sun is always shining and the evening skies are blue." M. R. Smith, Waters, Ga.

Best Her Double.

"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter, of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was best double, and had to rest my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; At W. H. Ellis' drug store; price 50c.

THE NEWS.

TUESDAYS AND FRIDAYS.

By The Statesboro News Publishing Co.

The invisible supply is one of the most mysterious factors in industrial life. Whether it be sugar, cotton, rice, or any other staple commodity.

At last Whitehead Field has achieved his ambition. King Edward's capital recognized was as him to a heart-warming by long waiting, declares a New York City daily.

Many, according to the atmosphere of the time, has a peculiarly pleasant climate. It is doubtful, however, if he or anybody else will really know much about it until some one of the yellow journals has sent a space writer up there to get detailed information.

The teaching of the art and science of housekeeping and home-making is no longer a fad, but is becoming a work of necessity. The new way for teaching housekeeping is on the farm all that should be. Education along the line of one's life work enables and dignifies labor.

Prominent residents of Massachusetts, including Governor Douglas and Patrick A. Collins, Mayor of Boston, have been taking steps to preserve the house of Paul Revere, in North square, near the old North Church, in Boston, from which he started on his night ride to arouse the countryside way up to Concord and Lexington, April 19, 1775. The place was about to be torn down, but a number of citizens have undertaken the task of raising \$17,000 to buy the property. It will be put in good condition, restored to its colonial dignity, and preserved as a Revolutionary relic.

German papers report that a new anesthetic drug has recently been discovered in Japan, the product of a plant growing in that empire. This anesthetic has been called scopalamin and is said to be superior in its effects to all other articles of this kind. It is administered hypodermically and produces a sleep lasting from eight to nine hours, says U. S. Consul Guenther, of Frankfurt, Germany. If the assertions concerning scopalamin are confirmed it will certainly be used in surgical operations, as it is claimed that it does not produce the slightest ill after-effects, which are always to be feared with anesthetic ethers.

Whether we look to the dockyards which the Japanese have built for the making and repairing of her own fleet, to her strenuous maintenance of her own agriculture and industry, or to her self-reliance retention of the financial responsibility for her own undertakings, we find revealed the same determination to stand independent and self-contained, reflects the London Express. It is a patriotism as comprehensive that it can stand without loss of dignity to the consideration of the minutest detail and it holds the secret of the great future which seems to be opening up before the youngest of the nations.

In too many American homes boys are growing up, not having a proper regard for labor. We are not going to place the blame, but we suspect the parents. They have not made the boy do his duty around the home. They have felt that every hour he is out of school he ought to devote to play. Play is a good thing, and there must be some of it in every young life. But it is better for the boy that he be made to discharge his duties and do his errands. It would be surprising to know how many people in moderate circumstances hire men to mow their lawns with healthy, strong boys about the premises doing nothing, concludes the Des Moines Capital.

The Prince of Monaco is rendering to aerial navigation a service more valuable than the invention of flying machines. He seems to have set on foot a really systematic study of the air currents in the upper atmosphere. During one of his long cruises last year he perfected a system of kites which enabled him to secure useful results at an altitude of about 15,000 feet. In order to secure the advantages of coordination and comparison, his highness has induced the German Government to order a series of similar experiments on certain windships, while the Portuguese Government has also decided to institute a service of the kind in connection with Lisbon Observatory. Here is an international work in which other governments might render aid, thinks the London Globe.

Epitomized News of Interest
Gathered at Statesboro.

State Prohibition Bill Introduced.
Mr. Covington of Columbus has introduced a state prohibition bill in the house. It prohibits under penalty the manufacture or sale of intoxicating liquors within the state. Mr. Covington says he is going to make a hard fight in its behalf, and he expresses the belief that he has good chances for success.

Convicted After Seventeen Years.
Oliver Wilcox, colored, was convicted a few days ago in Talbot superior court of manslaughter and sentenced to ten years in the penitentiary. Wilcox was charged with killing Rosa Fletcher, another negro, November 1, 1888, nearly seventeen years ago. He was arrested in Coffee county last November.

After Emanuel Territory.
Perhaps the county occupying the most unique position in the matter of creating new counties, is that of Emanuel. The member very naively expressed it that the onslaught on the territory of Emanuel by four proposed new counties, was but the eternal fitness of things, as "Emanuel" means sacrifice.

Death Claims General Thomas.
General B. M. Thomas died at his home in Dalton Sunday afternoon. Periodicals was the cause of his death. He was a graduate of West Point, and was a distinguished brigadier general in the confederate service. He was one of Dalton's ablest citizens, and had been in the army for a number of years, and held that position at the time of his death.

F. F. Morgan, chairman of the board of the directors of the Georgia division of the Travelers Protective Association, has given the press a very pointed statement about the association and state politics.

He declares that the association is not in politics, and that the effort to make it appear so was without any basis of fact. He referred to the dropping of the association by certain newspapers into politics, and spoke of some members of the Georgia division who had stated what he denominated as not true.

After Ducktown Copper Company.
Senator G. W. Phillips, of the forty-second district, has introduced in the senate a resolution providing for the investigation of the damage alleged being done by the Ducktown copper company of Tennessee, in the northern part of Georgia.

Most Unique Penitentiary Charge.
At Abbeville, near New Heath, a charge of the largest planters in Richmond county, was given a preliminary hearing before United States Commissioner W. C. Lane at Augusta on the charge of poisoning, and bound over to the next term of the federal court, under a bond of \$15,000.

The case was brought by the wife of W. E. King, who declares that her husband is being kept in bondage and forced to work for a salary that is not sufficient to keep the wolf away from the door.

In explanation, she declares that over her husband she has a warrant charging larceny, that by means of this he is held on the farm, and in fear of prosecution forced to work at wages that mean starvation for the family.

Rhodes denied the allegations.

Georgia School Statistics.
The advance sheets of the annual report of the State School Commissioner Messers have been distributed among members of the legislature. The report shows among other things of interest that there has been an increase in school population in Georgia of nearly 10,000 in 1904 over 1903.

Reports from all the heads of the different departments of the state university show these institutions to be in excellent condition.

SIX NECKS ARE SAVED.

Military Foretells a Lynching in Alabama—Half a Dozen Negroes Held for Murdering Woman.

At 10 o'clock Sunday night Governor Jett at Montgomery received the following telegram from Gadsden, Ala.:

"My jail and prisoners confined therein threatened by mob. Prisoners in jail charged with rape and murder of white woman. Need military assistance. Answer."

The governor immediately wired Captain L. B. Hare, commanding the Gadsden company of the state troops, to place his company at the disposal of the sheriff, and to keep the executive office advised of further developments.

The negroes in the Gadsden jail are: Vance Gardner, Will Johnson, Ed Johnson, Bunk Richardson, Jeff Atford and Fannie May. The victim of the crime was a white woman, which they are alleged to have committed, was Mrs. S. J. Smith, white, a widow.

The deed was committed Saturday night, but was not discovered until an early hour Sunday morning, when one of the negroes now under arrest, Vance Gardner, reported that he had found the dead body of Mrs. Smith, a white woman, in a field near the jail, and discovered the nude body of the woman, lying, partially concealed, in some bushes by the roadside, about three-quarters of a mile from Gadsden.

The evidence obtainable shows that Mrs. Smith was attacked on her way to the jail, and after having been repeatedly assaulted, was dragged by her hair down an embankment, over rocks and stumps into a clump of bushes, where she was left, after efforts had been made to cut her hair and to remove her stockings and were found nearby, having been torn from her, and her false teeth were found in the road. The woman's neck was broken.

The ground at the scene of the crime showed that the woman had put up a desperate struggle for life and honor and a pair of scissors and a case-knife were close to her body, weapons which she had evidently used against her assailants.

Mrs. Smith was last seen on Saturday night, when she and her two sons attended a show in Gadsden. These boys were said to have been drinking, and to have become separated from their father, who was passing and was aroused by cries of "Help" and "Murder." Going to the scene he found Mrs. Smith prostrate on the ground with a negro standing over her and endeavoring to stuff a towel into her mouth. He says that he called to the men to stop, but was told to leave immediately.

A mob of 300 people gathered on Broad street in Gadsden at dark and late Sunday night marched on the jail, demanding that the doors be opened. Sheriff Chandler and Judge J. H. Dickey were prepared for the mob, and the mob became very angry and had pikes of iron immediately. Congressman Burnett and Judge Dickey made talk and the mob dispersed, but they were less than 100 men present. The mob lacked a leader, which undoubtedly prevented bloodshed.

EARTHQUAKE RATTLES MAINE.
Several seismic shocks felt over a large portion of the state.

An earthquake shock, affecting a large portion of Maine, occurred at 5:10 a. m. Saturday, and was noticeable for about ten seconds. The trembling woke many people from sound sleep. It was reported from Bangor to Kittery, and from above Farmington to the coast at Rockland.

Russian Sappers Murder Officers.
A regiment of Russian sappers, stationed at a small village in the mountainous district of Tiflis, has murdered all its officers, and it is rumored has joined the revolutionists.

The Child Labor Bill.
(Atlanta News.)

On Tuesday afternoon the advocates of the child labor bill will have a hearing before the committee on labor and labor statistics. Hon. Madison Bell, who is the father of the present measure before the house, will address the committee, and he has had strong assurances which lead him to believe that his bill will be favorably reported by the committee.

The news this afternoon publishes an able and scholarly article from the pen of Mr. Frank Orm, giving the genesis and philosophy of the great reform under discussion. It presents a phase of the question but little understood, and will be read with absorbing interest by a large circle of appreciative readers.

The friends of the measure have made a strong and persistent fight to secure this much needed legislation. It is a reform suggested by the dictates of common humanity. When we think of the thousands of children, feeble and immature, spending their lives at unwholesome occupations, in common fairness to themselves and to the whole social system, they should be at school, every impulse of the heart goes out to them, and we feel that one more determined effort should be made to redeem them from the bondage in which they live.

IVANHOE

Misses Sarah and Susie Deal, of Arcola, were the guests of Miss Sarah Martin last Wednesday.

Little Miss Corine Lee, of Brooklet, is the guest of Mrs. C. H. Cone.

Meas. Edgar Cone and Will Groover were in Savannah on Saturday of last week.

It affords us much pleasure to make special mention of the ice cream supper that was given at the hospitable home of Mr. and Mrs. C. H. Warnock of near Stillson on Wednesday night of last week. It was indeed a grand success in every way. As the guests arrived they were ushered into the parlor where they were entertained with music. About nine o'clock all were invited out on the lawn, here a most bountiful supper of ice cream and cake awaited them. After supper the young people amused themselves by playing games. About twelve o'clock we were again invited to supper. It was indeed a happy occasion, one that will long be remembered by those in attendance.

Misses Maud and Lillie Belle Brown and Minnie Williams were the guests of Miss Carrie Wright Wednesday.

Mr. Harold Williams, of Mel-drim, was a visitor at the home of Mr. J. W. Wright last week.

The "Juniors," of the Fellowship Junior Union, enjoyed a picnic that was given at the home of Miss Mattie Cone last Friday. Miss May Spier, of Statesboro, made an interesting talk and told us how they won the banner. We are going to try for it next year.

Mr. and Mrs. P. H. Cone, of Hubert, visited the latter's father, Mr. J. M. Martin, last Friday night.

Miss Polly Wood, of Statesboro, was the guest of Miss Mattie Cone one day last week.

Mr. and Mrs. C. H. Warnock spent Sunday with relatives in Savannah.

Meas. J. H. Blitch and T. N. Blitch, of Blitchtown, attended the Junior Union picnic at Ivanhoe last Friday.

Miss May Spier visited relatives here last week.

Misses Maggie and Nellie Wright spent Sunday with friends at Hubert.

CHOLERA INFANTUM.

Child not expected to live from one hour to another, hurried by Chamberlain's colic, cholera and diarrhea remedy.

Ruth, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by All Drugists.

In Memoriam.
On the 23rd of June 1905 God through his infinite love and wisdom saw fit to take from our midst, a dear friend, J. J. Smith, one of the most prominent, young men of our community, though the brightest and sweetest flowers are always plucked first, and I, his lonely widowed wife, am left grief-stricken and bowed down with sorrow to lose such a noble-hearted and affectionate husband so early after marriage, having been married one year, five months and thirteen days. I feel my helplessness and I am willing to try to be resigned and bow in humble submission to His most holy will, for "His will be done and not mine."

I can only look around about me and exclaim: Oh! most Holy Saviour, as thou has seen fit to take from me my loving companion let it work good for me, that my cares may be taken from the things of this world, something more divine, and try to meet him in that bright world where earthly cares, trials and tribulations are no more. I feel sure he is at the right hand of God in that world where peace abideth day by day, while grief and worry flee away where joy forever reigns. He never made no profession as a Christian, though he had ever mark of a Christian's life every day of his life in health also during his sickness, and when God in his mercy saw fit to remove him, called him, then he closed his eyes as if he was going to sleep and passed sweetly away.

My head and stay is called away, And I am left alone, My husband dear, who was so near. Is dead and gone.

It breaks my heart, 'tis hard to part, With one who was so kind; Where shall I go to vent my smart, Or ease my troubled mind?

In wisdom's ways we spent our days, Much comfort we did find; But he is gone, in dust he lays And I am left behind.

Naught can I find to ease my mind, In things which are below; For earthly joys but vex my joys, And aggravate my woe.

But I'll repair to Jesus, Where I'll ease my troubled breast; To Christ above who is my Lord And my eternal rest.

And Oh, that he would send for me! And call my spirit home; To worlds of rest among the blest, Where troubles never come.

His wife,
Mrs. I. L. Smith.

The Road Question.
Mr. Editor: I gave a few facts on the road question some time ago with no intention of a controversy with any body, but it seems that I must have hit some one up in the 1820th, signed—"Hayseed."

He says up in Jefferson county they spend \$800 per mile on their roads. He further states that they work road machinery and the chaingang.

What is the matter with Bulloch, she has a chaingang and a road machine that cost \$600 and twenty-two head of as good mules as any county, and the money too?

I will ask Mr. "Hayseed" what is the matter, why not work some? We have had this new system for about five or six years and they have got the money and no work done, only here and there.

I had rather pay twice the amount than to work, but I don't favor paying all the time and no work done.

He says: "Oh, this is good enough, let's go on." That is natural for a fellow to say when he has got a good job, one that pays him \$2.00 per day and good teams furnished him. Oh, he says the overseer used his own horse, but he failed to say just what price was paid him for the use of that horse. He is good and accommodating to furnish a horse free. Did he, or did he not?

I will inform Mr. "Hayseed" that we are not concerned about what Jefferson county is doing. It seems that my friend is setting away back on his claims about what Jefferson county is doing, but says nothing about what Bulloch is doing only up in the 1820th, where he has seen a few flats filled in and some places ditched and the dirt thrown the wrong way.

I agree with Mr. "Hayseed" when he says there was not a first class road in Bulloch county when this new law was passed. I will inform him that there is not one in the county today.

When you write again please sign your name we would like to know who you are.
Respectfully,
Jas. L. Stubbs.

STANDING LOYAL TO BULLOCH COUNTY

Enthusiastic Meeting Held in Opposition to the Cutting Off of Any More Territory

A mass meeting of citizens of Bulloch county was held at the court house yesterday. A fairly large crowd was present, considering that only a few days notice had been given of the meeting and a great many are busy gathering fodder.

The meeting was called to order by Hon. S. L. Moore, ordinary, as temporary chairman. Judge Joshua Everett was elected permanent chairman and Mr. Hinton Booth secretary.

Hon. S. L. Moore stated the object of the meeting in a few well-chosen words. Among other things he stated that Bulloch county as it now stands is ranked among the foremost counties in the state and that dismemberment would rob us of our prestige and high standing in the legislature, in political conventions and with the state at large. He spoke earnestly and was liberally applauded.

Mr. J. G. Blitch placed before the body a motion that a rising vote be taken on the question of the formation of Stephens county. The question was put and 11 ayes except one or two, and thus placed themselves on record as being opposed to the new county.

Mr. R. Simmons made a ringing speech, showing many reasons why the new county would not be advantageous even to the town of Metter.

Hon. J. J. E. Anderson, member of the legislature, made a strong argument against the dismemberment of Bulloch. He denounced as false all the rumors and statements that have been circulated to the effect that he is in favor of the new county. He stated that if only one vote was cast in the house against Stephens county, the good people of Bulloch could rest assured that that one vote was Julian Anderson's.

The enthusiasm of the crowd was at a high pitch and Mr. Anderson's eloquent and stirring appeal against the proposed "knifing" of his home county were roundly applauded. Mr. Anderson was very enthusiastic and made a strong, logical argument, stating that his heart and soul were against the movement and pledging all his influence to prevent Bulloch being forced to divide her territory.

And whereas the territory to be cut off has always been recognized by the people of Bulloch county politically and otherwise and especially in the distribution of officers.

And whereas the formation of said new county is utterly without reason and is opposed to by most people in and out of said territory.

Wherefore be it resolved: That we, the people of Bulloch county in mass meeting assembled, oppose the creation of said new county and we do hereby instruct our senator and representatives to oppose the measure both in the house and senate and before the committee.

The following committee on official data was appointed: Howell Cone, chairman, S. L. Moore, and B. J. Atwood.

Upon motion of S. L. Moore, volunteers were called for to go to Atlanta on Wednesday to appear before the legislative committee on new counties to protest against the cutting off of any of Bulloch's territory. The following volunteered to go: B. J. Atwood, L. H. Kinyery, J. G. Blitch, L. H. Franklin, W. E. Jones, Howell Cone, S. L. Moore, J. E. Donohoe, Joshua Everett, C. B. Aaron, B. J. Parish, Z. T. DeLoach, R. Lee Moore, E. L. Trapnell, and A. M. Deal.

The following were appointed as a committee on general information: H. J. Proctor, Jr., F. T. Lanier, and R. Lee Moore.

A noticeable feature of the meeting was that there was a large representation from the territory affected, who are opposed to being cut off. Petitions are in hand protesting against the formation of the new county, and it is believed that a majority of the tax payers as well as a majority of the voters in the territory proposed to be cut off have signed these petitions. The committee will go to Atlanta fully prepared to make a strong fight, with these petitions and with a large number of strong arguments and facts in hand. The Kimball house bar and other bars have been notified to tap an extra keg or two for the boys on their arrival.

The crowd was as large as on any previous day, and the interest was just as intense.

Mr. Cooper's argument was based for the most part on the theory that A. J. Moore, the negro, was the real murderer of the Carter children.

Mr. Thomas analyzed the evidence very closely, and exhibited the two guns and the knife, to which frequent reference was made in the testimony. He insisted that the state's case had been established by the defendant's own witnesses. He held that the crime was the outcome of a conspiracy on the part of a gang. Mr. Cooper had declared that the McDonalds should have been arrested as accomplices. Mr. Thomas met the point by saying that the traverse jury could not assume that the grand jury was through with its work. [Both attorneys received the closest attention, and once Judge Mitchell was compelled to warn the audience.]

When they had concluded Judge

large majority of the white citizens, the tax payer and the property owner, who live in the territory to be cut out from Bulloch county, seriously object to the formation of said new county of Stephens, because they see no reason why they should be taxed to erect public buildings and other necessary expense.

And whereas the territory to be cut off has always been recognized by the people of Bulloch county politically and otherwise and especially in the distribution of officers.

And whereas the formation of said new county is utterly without reason and is opposed to by most people in and out of said territory.

Wherefore be it resolved: That we, the people of Bulloch county in mass meeting assembled, oppose the creation of said new county and we do hereby instruct our senator and representatives to oppose the measure both in the house and senate and before the committee.
