DO IT NOW

ABOUT GOOD ROADS.

Much is being said on the road question, and as usual people disagree. It is reasonable to suppose that every body would like to have good roads over which to travel, and then the only matter of dispute is as to the method of obtaining them.

We have tried all the systems, and of course none of them are perfect, and none of them will give entire satisfaction to all the people. We tried the old plan for a hundred years, and every body knows it was a failure, because the average man is not going to work the roads. The time arrived when a different plan was necessary, and several years ago, the changing was put on the roads, and it is a fact that more valuable work was done than had been done under the old system in fifty years. It was done away with, and virtually nothing was done on the roads until the new road plan was again put on trial, and now we see good work being done all over the county. The chain-gang was also put back on the roads on the first of the year, and they are now engaged in making first class highways for the people. Of course it cost something to have it done, and we will never get them for nothing. The taxes are being paid by the property owners, and they are getting value received.

People ought not to kick about the plan, unless they can point out a better way, and the people in all the progressive counties of the state have adopted our present plan, because it has proven to be the best plan.

The time has arrived when business methods must be applied to the working of the public high ways, because the travel is constantly increasing, and the day is past when two bales of cotton makes a load for two mules. On the other hand, with clay roads, and the hills graded, two mules will haul ten bales of cotton. The chain-gang is now doing work that ought to be seen by every citizen, and he will endorse it, unless he happened to be one of the chronic growlers, or is mad because the road by his house is not the first one worked. It takes time to work all the roads, and it is proper that the roads with the most travel are the ones to receive the first attention. When a road is worked, all the people going over it, receive the same benefit as the man who lives on it.

Roads belong to all the people, and every man ought to be proud of seeing them put in fine traveling condition. The cost to the average man is very small, and not one-half of his tobacco bill. The roads are here for all time and for present and future generations, and many progressive counties are bonding themselves, and expending thousands of dollars a year on them. They increase the value of lands, make country life more desirable, lessen the wear on stock and vehicles, and enables the farmer to haul three times the load, and save half of the time in going and coming. We insist that the method now in vogue is the best way to accomplish something, but if you have a better way, please state it, and the proper authorities will adopt your plan. If your overseers don't work or are stealing the road money, submit your proof to the commissioners, and they will be lifted out of their jobs. If you can do the job better make your application for a position and you will get it.

Don't be eternally kicking. The world is moving, and you had better crawl on the band wagon. If you can't help push, don't pull back. You have done nothing on the roads, and now don't object to somebody else doing it. Let us have them. The burden falls equally on everybody, and everybody receives equal benefit. The poor man don't have to work or pay a bit more under the new system than under the old, if he did what the law required.

The tax levied to keep the chain-gang at work and to buy tools

etc., is paid by the property owners all alike. The more a man has the more he pays. The hills must be cut down, and the sandy roads made better, and this is what the authorities are doing. Why object, unless you can suggest a better way? You would not work under the old law, and it is opposed to the new law, and it looks like you are opposed to any road law.

Go and look at some of the work being done by the chain-gang, and by the overseers in the districts and tell us what's the matter, and it will be corrected. Give your friendly advice and it will be listened to, but don't accuse every body of futility, and kick just to be kicking. Show us some good roads you have built yourself, and show it to be cheaper and better, and everybody will go your way.

Yellow Jack is in New Orleans

New Orleans, July 21.—Drs. Goldthwaite and Moore, of the Mobile board of health, came here to-day on the invitation of the Louisiana board of health to investigate two cases presenting symptoms of yellow fever, and gave it as their opinion that the Mobile board of health immediately put on a quarantine against passengers and household goods.

There will be no quarantine against merchandise, as the shipments of that will be under regulations of the Conference of Southern Health Boards.

The Texas and Mississippi boards of health will have representatives here to-morrow.

Dr. White, of the Marine Hospital service, has been ordered here to take charge of a detention camp, which will be located at Avondale, where travelers can go and remain five days and then, with a certificate of non-infection, will be admitted to any city.

Up to date, there has been no autopsy, and until that has been held the State Board of Health will not make any announcement.

Do You want Strength?

If you want to increase your strength you must add to and take from the physical. In other words, the food that you eat must be digested, assimilated and appropriated by the nerves, blood and tissues before being expelled from the intestines. RAWLINS GUILTY

Death On the Gallows To Be Fate of Father and His Two Oldest Sons. Together With Alf Moore.

Valdosta, Ga., July 29.—Perhaps the most remarkable murder trial in the annals of the state came to a conclusion at 12:25 this morning when the jury found a verdict of guilty, without recommendation to mercy, against J. G. Rawlins, for accessory before the fact in the murder of Willis and Fannie Bell Carter, two young children of Mr. and Mrs. W. L. Carter.

The verdict against Rawlins this morning ends the case so far as the state is concerned as already Milton and Jesse Rawlins have been found guilty without recommendation to mercy, while Leonard, the youngest boy was found guilty, but recommended to mercy. Alf Moore, the negro hired by the Rawlins to assist in the commission of the crime, has also been found guilty and without recommendation.

Never before in the history of the state have a father and his three sons been before the bar of justice on the charge of murder. Brothers have appeared time and again on joint indictments for murder, but this is the first time where an old man and his three young boys aged 19, 17 and 15 were indicted and found guilty.

The trials occupied two weeks, beginning last Monday morning at 12:25 and ending Sunday morning at 12:25 when the verdict of guilty was brought in against J. G. Rawlins.

As a result of the trial there will be four hangings in Lowndes county, unless the higher courts intervene. J. G. Rawlins, 50 years old; Milton Rawlins, 19 years old; Jesse Rawlins, 17 years old; and Alf Moore, a negro, will all swing for the killing of Willis and Fannie Bell Carter. Leonard Rawlins, the youngest, will spend the balance of his days in the state penitentiary.

Sparrows Destroy Army Worms.

The small army of caterpillars that was reported to be infesting a hay field on West Main street in our last Tuesday's issue have entirely disappeared. Their going is ascribed to the flocks of English sparrows that are numerous around the city.

The worms had gotten a good hold and were simply walking through the fields, destroying everything in their path and increasing at a very rapid rate when the little birds spied them and flocked to the fields in numbers sufficient to do the job of extermination in short order. A sample of them had been sent to State Etymologist Smith at Atlanta, and he reports back that they are the army worm. He asked that other specimens be sent him, but when Prof. DeLoach went out on Wednesday to get them he found only two little worms that the birds had left, though he searched more than an hour.

Guano Factory.

Statesboro is in a fair way to get what has long been wanted—a guano factory. The oil mill has had the matter under consideration for some time but as yet has done nothing in that direction. Now Mr. Lichtenstein of Adrian, who has had experience in the business, is here, and proposes to begin work right away, and is interesting several of our business men with them. They propose to furnish the farmers of Bullock county with fertilizers made at home, and we welcome this new enterprise.

Brooklet May Have Been.

We understand that there is a well defined movement on foot to organize a bank in our sister city of Brooklet. It is said that there will be no trouble in securing the necessary amount of capital and that the business of the town will support one in this little doubt. After a while banks will be so plentiful and so thick that a poor newspaper man can borrow without difficulty.

BIG LION HUNT.

There is a great sensation over on Mill Creek over the report that there are lots of pumas in the swamp.

On Saturday afternoon about six o'clock as John Grover, colored, was returning from Statesboro, just after he had crossed the creek at the Lee ford, his old blind horse took a shy, having seen something that John up to this moment had failed to detect. Upon looking around, sitting up on its hind legs, there sat in about fifteen feet of the road, a yearling sise lion. This caused John's wool to raise on its end. A slight rattling in the bushes on the other side attracted his attention just in time to see a full grown sure enough lion walk into the road a few feet behind him. This was sufficient for the colored friend, having no disposition to tarry further, he put whip to "Old Blind" and the way the dust and sand flew up in the road leading up to Mr. Henry Jones' house a mile distant, was a caution. Mr. Jones being away from home the old horse was put in a sweeping run to the home of Mr. I. T. Newsome, who lives another mile further up the road.

The matter was reported and we understand that a large posse was formed and yesterday went into Mill Creek swamp determined to slay every lion in it. The party numbered somewhere in the neighborhood of one hundred as brave men as ever went to any other lion hunt in this or any other county, armed with pistols to kill; shot guns, breach and muzzle loaders, pistols, dirks, stilettos, buie knife, club axes, fence rails, and various other weapons of offense and defense.

At the hour of going to press we had heard nothing from the hunt, though the repeated firing of heavy guns could be heard in that direction, and we are momentarily expecting to see them coming into town with several carcasses to their credit, unless it turns out like a similar chase did in the same community one day last week.

It is reported that "varmints" had been seen and a lion hunt organized. Every old dog and bird dog in the community were put in the chase. After some time a warm trail was struck and the lion tread in his den, the boys could hear the huge monster give growl after growl as the dogs would surround him. They decided the better plan of safety would be to keep a safe distance away till they saw how many of the dogs the lion would actually tear to pieces. After waiting some time one of the dogs came up switching his tail as much as to say: "You can come on now, the danger point has been sufficiently passed." This they did. They noticed a piece of wool in the dog's teeth and reached the spot just in time to see the dogs gnaw the last bit of flesh from the old sheep's bones.

MORE ROAD TALK

I did not think that after wringing in vindication of the present system of working the roads that I had struck a hornet's nest in another part of the county, and I would not now reply to Mr. Darsey if he had quoted me right. He says that if a man differs with me that he, Mr. Darsey, would not be satisfied in heaven. I did not say that, but did say that you could not satisfy some with a front seat in heaven but what they would want to get on the Lord's throne.

Now let us see what Mr. Darsey has to say about it. He calls it hubbub and four-fifths of the county (he says he has been over nearly every part of the county) or almost every man is against it. Surely if that is the case we have not heard of Mr. Darsey living or being in the 1820th district where we have over one hundred miles of road and nine out of every ten indorses the system and are satisfied with the work done on the roads.

Again he says that overseers are working three or four hands—the less hands the longer the job. Now I know he imagines he could work fifteen or twenty hands, or even more than that. That shows he don't know anything about it. I inform him to work six or seven hands successfully is enough without having a road machine, for the reason that while one hand is plowing up the roads to make them wide enough the others dig up stumps and trees, and it will not do to scatter them too much or you will not get any work out of them for the overseer can't be at both places.

I don't know how it is in the 48th district, but we will soon be over our dish for the second time in less than twelve months. Please don't measure everybody's corn by your half bushel, but I don't blame you, push up your owners through the county commissioners and if he don't keep the commissioners to put somebody in that knows how to work a road.

Again he misunderstands me in regard to the present system being the true and just system to work the roads. I only mentioned turpentine and saw mill to show under the old system they cut up the roads and worked no more than the poorest negro or white man, but under the new he has to pay his commutation tax as well as the balance and also a property tax for road purposes. You know the man with property uses the roads more than the man without property, so let them help keep what they wear out by having their property taxed to do it.

My friend strikes it right when he says the overseers should be men of judgement. I say so too. Mr. Darsey still sticks to the old law passed a hundred years ago as the best. There is a great difference between then and now. Just as well go back to the time when they had a cat to pick their shoes full of cotton seed before going to bed so they could spin the next day. I would tell you that old fogelism is a thing of the past, and working under the old road law where a part of the hands worked and the other part lay in the shade and told tales is too. I hope forever gone.

I would request Mr. Darsey to wake up from his Rip Van Winkle sleep and go up in some of our neighboring counties and see the effects of the new order of working the roads and he will come back a wiser man.

Why you are fifty years behind Middle Georgia as far as road working is concerned, except a few counties, and they are like our friend too stupid to work the road on

years.

The boy who takes up bad habits
will not have much chance to
succeed.

Even the women make expert
grafters in some of the govern-
ment positions.

The mean yankees have got so
they will not give the negroes any
work to do, nor allow them to live
among them in some towns.

Why not clean out the State
Normal school, even at the loss of
Ogden's money, and that woman
who pretends to love the negro so
very much.

It is thought that the negro,
Alf Moore, who has been convicted
along with the Rawlings for the
slaughter of the Carter family at
Valdosta is the negro who was
arrested Statesboro a few years ago.
If this is true hanging is entirely
too good for him.

The committee who went up to
Atlanta to kill the Stephens county
proposition is back thoroughly
satisfied that they have killed the
move. We have not had an oppor-
tunity to interview the other
side, but they are probably equally
confident that their side has
won. We shall see what we shall
see.

About Good Roads

It appears that the road com-
plaint is against the overseers in
the districts. Now if any road
overseer is not doing his duty,
give his name, and state wherein
he is not doing his duty, and the
commissioners will attend to him.
Everybody wants good roads, so
let us have them. If a road over-
seer is not doing his duty, let
him be discharged.

SHILL We Grow

According to the official figures
at the Statesboro post office, The
Statesboro News is the biggest
patron that Uncle Sam has at
Statesboro; notwithstanding the
fact that he recognizes this fact
and delivers all of our papers in
the limits of the county free of
charge, yet we still pay the States-
boro post office more than any
other concern in Statesboro.

The Statesboro News' postage
bill is larger than some men's
grocery bill. We pay the States-
boro post office five times as much
postage on our paper as any other
paper now or ever before pub-
lished in Bulloch county.

In addition to the fact that we
are the biggest patrons of the post
office, we are also the biggest
patrons of the Southern Express
Company at this place. We pay
the express company more money
in the run of a year than some
folks spend on a four-horse farm.
And still we grow.

The Only Way

There is no way to maintain the
health and strength of mind and body
except through the stomach. The
stomach must be kept healthy, pure
and sweet or the strength will
leave and disease will set up. No
appetite, loss of strength, nervousness,
headache, constipation, bad breath
sour; rising, rifting, indigestion,
dyspepsia and all stomach troubles that
are curable are quickly cured by the
use of Kodol Dyspepsia Cure. Kodol
digests what you eat and strength-
ens the whole digestive apparatus.
Sold by W. H. Ellis.

ROAD TALK
It looks like the road question
has become a free discussion, so I
desire to say just a few things
which are facts in our section.
In the first place, the alterna-
tive system or new road law is
something like Mr. Stubbs says,
a humbug. It is entirely impos-
sible for an overseer of the new
system, with four or five hands,
to reach the washouts, storm streaks,
floating bridges, and that occurs
frequently. First on one side
of the district and then on the
other.
Now I don't know who Mr.
Hay Seed is, but would presume
he is a licensed preacher and don't
have to pay or work the public
roads, and I don't think he lives
in our district or he could plainly
see why the overseers can't in-
duce hands to leave their crops
and work on roads for a month at
a time, and it's almost impossible
to get an overseer to follow the
hands.
Give us the old goose neck sys-
tem and if it fails to give satisfac-
tion, then take a little of the
money that we are heavily taxed
for road purposes and pay a squad
of hands to follow the changing,
cutting the grand act as guard and
overseer over changing and
highbred hands.
We can't willingly pay our road
fee and roads not worked in four
or five months.
There was an order given for a
new public road, leading from my
place to Ivanhoe station about
eighteen months ago and was
partly cut out and is standing in
this condition today, so I can say
as Mr. Stubbs says, what is the
matter? give us a system that we
can move off with.
Now we don't condemn the in-
tention of the new system, it may
be good but to my judgement it
will never give satisfaction.
C. H. Warnock.

TEMP TO ARCOLA

It was the pleasure of your
scribe to visit the rising little city
of Arcola on yesterday. Mr. P.
R. McElven is the life of this
place. He conducts one of the
most prosperous mercantile busi-
nesses in Bulloch county, besides
operates perhaps the largest farm
in the 47th district. Mr. McEl-
ven owns the land for two and a
half miles along the line of the
Savannah & Statesboro railway.
He has about 250 acres in culti-
vation, making one of the pret-
tiest farms in the county.
Prof. S. D. Alderman has charge
of the school. He has an enroll-
ment of over 40 pupils. They
have only recently moved into
their new school building, which,
when completed will be one of the
best in the county. It sits back
from the railroad in a fine grove
and presents a splendid appearance.
Messrs. Barnhill & Brown con-
duct a successful turpentine busi-
ness at this place. They are
among the most successful opera-
tors in the county.
Mr. A. J. Hagins of Statesboro,
has leased from Mr. P. R. McEl-
ven his large saw mill and cotton
gin and will run it during the
fall.
The farmers in that section of
the county have suffered some-
what for the lack of rain.

CALLS ANSWERED PROMPTLY
Day and Night

Read Subject.

Mr. Editor:
Discussion of any subject does
good, and especially with some-
thing new with which people are
not familiar. When replying to
Mr. Darsey I had no idea of an-
other cross-fire from several dif-
ferent points; and that reminds
me of the last days of the war
when the yankees knew we were
but few kept up a heavy picket
and cross-fire to scare us, but it
did not work and whenever they
tried to crowd us we made them
keep their distance or fall back a
little and so it is with your humble
scribe. Gents, fire as much as
you please, you will not make me
take the hole. There is one thing
shown by some of them, they don't
fight the system, but other causes.
In my last letter I aroused a
heret's nest, and behold in your
next issue, I made an old rattle
crawl out of his hole under a
hollow stump, where he lay dor-
mant for these many years, and
when he opened his eyes he saw
something new and commenced to
strike at once. Now gentlemen,
I want you to know that I intend
the system and not the work, for
that don't concern me. Our dis-
trict is clear of any charge you
make.

GOODING

Please allow me space in your
paper to tell the people about our
good meeting at Langston Chapel
which closed last Friday night.
There were eighteen received into
the church, nearly all grown peo-
ple, and of the very best material
in this section which means a great
deal for the church. The services
were conducted by Rev. L. W.
Ellis. God has given him great
power over sin and blesses him
wonderfully in all his sermons.
He preached fifteen sermons and
did not say anything humiliating
to any sinner about any particu-
lar sin, leaving out the whisky
habit entirely.

**He said that sin had built every
prison and gallows and every court
house that has ever been built. It
looked at one while like he would
get God to put fish on all the old
dry bones in all this country and
put them into living, moving
christians.**

**Our church is about two years
old and we have fifty odd mem-
bers. Praise God for the good
work!**

Respectfully,
W. B. Marsh.

**There is more Catarrh in this
section of the country than all other
diseases put together, and until the
last few years was supposed to be incurable.
For a great many years doctors
pronounced it a local disease and pre-
scribed local remedies, and by constant-
ly failing to cure with local treatment,
pronounced it incurable. Science has
proven Catarrh to be a constitu-
tional disease and therefore requires
constitutional treatment. Hall's Catarrh
Cure, manufactured by F. J. Cheney &
Co., Toledo, Ohio, is the only constitu-
tional cure on the market. It acts
directly on the blood and mucous
surface of the system. They offer one
hundred dollars for any case it fails to
cure. Send for circulars and tes-
timonials. Address: F. J. Cheney &

Arrangements are under way to
have an excursion of Minnesota
farmers to the Macon Fair. Mr.
Ed Hutshane, now a resident of
Minneapolis, seeing the farmers
moving in the direction of the
Dokotas and Canada, is seeking
to turn their faces Southward, and
believes that by a visit to the
Georgia Farmers' Fair at Macon,
they can see at a glance what can
be raised in Georgia.

It was universally admitted that
the poultry show at the Macon
Fair last year was the best ever
seen in Georgia. This feature
will be made a special one this
year, as Mr. James Budd has it
in charge and it will be his pride
to see that it is full and complete.

Every farmer in the State is
requested to give an idea as to
features for Georgia Farmers'
Day at the Macon Fair. This day
will be devoted to the farmers
almost exclusively, and must be
full of features of interest to them.

Dangerous and Uncertain.

For sunburn, tetter and all skin and
scalp disease, DeWitt's Witch Hazel
Salve has no equal. It is a certain

etc., are quickly cured by the use
of the genuine DeWitt's Witch Hazel
Salve. Accept no substitutes they
are often dangerous and uncertain.

ADELAID.

Fodder pulling is the topic of the day with the farmers now.

The school at the Byrd school house closed last Wednesday with a big picnic. From ten until twelve o'clock a. m., the crowd was entertained by Col. J. E. Brannen, who delivered an able address on "how to improve our district schools" which was very helpful. At the close a bountiful dinner was spread, which every body seemed to enjoy. After dinner came a very interesting program, rendered by the pupils. Music was furnished by Messrs Isaac Bloodworth and Bud Smith and Misses Cora Cowart and Maggie Langford.

Mr. Ben Mincey, from Savannah, is visiting his parents at this place.

Mr. Z. H. Cowart has erected a fine residence. This building is said to have cost \$1200.

Mr. Steve Nichols, of Savannah is at home on a short visit to his parents. He will return to Savannah about August 4th.

The Epworth League at this place is progressing nicely.

Miss Lula Hendrix and brother were on our streets last week.

Miss Cora Cowart is anticipating visiting friends in Savannah in a few days.

We regret to chronicle the illness of the little son of Mr. and Mrs. J. M. Mincey; also Miss Mary Kingley is ill with typhoid fever.

The school at Lester is progressing under the management of Prof. Lewis L. Buie. He has the largest school that has been taught at Lester in some time.

Mr. Fred Deal, Miss Bertie Deal and Mr. Turner, of Excelsion, attended the school closing last Wednesday.

Everybody seemed to enjoy the protracted meeting at Lotts Creek last week.

We are very sorry to hear of the illness of Mr. Millard Cowart. Hope he will be better soon.

Miss Amelia Nichols is at home from a visit to Savannah.

Flendish Suffering

is often caused by sore, ulcers and cancers, that eat away your skin. Wm. Hedell, of Flat Rock, Mich., says: "I have used Bucklen's Arnica Salve, for Ulcers, Sores and Cancers. It is the best healing dressing I ever found." Soothes and heals cuts, burns, scalds, etc. At W. H. Ellis' drug store; guaranteed.

School for Boys.

The fall term for the SCHOOL FOR BOYS will open September 4th. It is the purpose of this institution to prepare BOYS for the FRESHMAN CLASS in the colleges and to help those obtain a liberal education who may be deprived of college training. The students will have access to a library of 200 volumes and a reading room. The first floor of the Masonic building will be used until better equipments can be provided.

Good Board can be obtained at a reasonable rate.

Special Notice.

The time is growing close when we will have to know what we will have to do in the Bulloch county exhibit, and we would be glad to hear from anyone who has something in the way of good agricultural products, fruits or vegetables. We will send for this as far as possible, and as we have always done, will either return it or give you its value.

Mr. Miller has a one hundred acre farm this year and much of the exhibit has been raised on this farm, but he expects to put up an individual exhibit, and besides on one farm will produce the articles making up an exhibit that would be creditable to a great county like Bulloch.

If you have anything that you can let us have let us know. Mr. Miller or Mr. R. H. Donaldson will see you. Mr. Donaldson is now making a tour of the county in a buggy and anything that you may do for him will be appreciated.

Line Hunt Ends in Failure.

The lion hunt on last Monday in the swamps of Mill Creek resulted in a failure as far as lions are concerned, but the boys rounded up a good deal of other game. As far as we have been able to ascertain the following is about what they bagged: 117 rabbits, 9 pole snakes, 2 opossums, 1 coon, 8 joint snakes and one watermelon patch ruined. No sign of any lion was scented, but last accounts the negro who claimed to have seen him had not been lynched.

City Court in Session.

The regular monthly term of the city court has been in session for the past two days. There is nothing of special importance to report. Up to yesterday afternoon two negroes had been convicted; one West Lovett for adultery and Chas. Perry for concealed weapons.

School Will Close.

On next Friday the school of Prof. L. M. Mikell, at the Mikell academy, about three miles east of the city, will close. There will be the usual exercises in the way of recitations, reading, spelling matches, etc. Prof. J. E. Brannen, county school commissioner, and Col. F. T. Lanier, will be on hand and each will make an address.

A basket dinner will be spread.

Steve Ellison Caught.

Steve Ellison, the negro who escaped from the county chain gang in a short time after he was placed at work, is again doing time for the best interest of the roads of Bulloch county.

Sheriff Kendrick has had an eye single to Steve's whereabouts for some time, and last Monday ran upon him in Allendale, S. C. He had gone over there where he has a brother and other relatives. Steve is a slick "nigger," but the authorities say he will be a slick one for sure if he succeeds in getting away again.

EMIT

Rain is much needed in this vicinity.

The many friends of Mr. Geo. Richardson regret to hear of his illness at his home near Jay.

The Fever Situation.

Despite all the claims of the health board of New Orleans the fever situation in that city is steadily growing worse. It seems to have been there since June, and the fact that yellow fever prevailed there was disclosed by outside physicians.

The fever has appeared in Shreveport, La. and Montgomery, Ala. The latter city only reporting one case, but the other cities and towns are quarantining against her, and it would not be surprising to see it pop out in other cities.

Atlanta has opened her doors wide to the refugees and Savannah has declared a quarantine, but in our opinion the quarantine ought to prevail against Atlanta. If the refugees are already there and pouring in by the thousands, as reported, it is as dangerous as New Orleans.

It will be too late to take these steps after the plague takes a hold in your city.

Rushing—Coleman

On last Thursday evening at the home of the bride's parents, Mr. and Mrs. J. B. Rushing, living about three miles east of the city, Mr. G. C. Coleman and Miss Alice Rushing were united in marriage, Elder D. R. McElveen officiating.

The happy young couple will make their future home in Emanuel county.

Lanier Sells Shoe Business

A mercantile deal of considerable importance was consummated here on Tuesday by which Mr. C. A. Lanier has sold out his shoe business to Messrs. J. A. Fulcher, J. E. Brannen and C. M. Anderson. The new firm has already taken charge and will continue the business in the same old stand. We learn that they will use the same firm name, viz: Lanier-Fulcher Co., for the present.

Mr. Lanier will leave us about September 1st and will make his home at Athens, as stated in our issue of last Tuesday. He will remain in the city during August, and during this time expects to close up the accounts that are due him, and will be pleased to have his friends call on him and settle without delay. Mr. Lanier has rented his home to Mr. L. C. Glisson.

Miss Wood Entertained.

At the home of the Brooks hotel on Tuesday evening Miss Earl Wood entertained in honor of her friend, Miss Carlyne Lee of Gordon, Ga., a few of her friends.

This was one of the most delightful entertainments of the season and was thoroughly enjoyed by all. The program was lengthy, and aside from a number of instrumental solos rendered by Misses Leslie Brannen, Eunice Lester and Carlyne Lee, several games were played, after which a love making contest was given by the young men with suitable answers from the ladies, in which Col. Howell Cone and Miss Carlyne Lee took first prize, showing a remarkable degree of perfection in the science of juggling with this momentous subject. Mr. Homer Parker and Miss Lelia Blitch took the "boobs" prize which consisted of a bottle of catchup. There about thirty couples present.

Refreshments were served during the evening.

Take Kodol After Eating.

After a hearty meal a dose of Kodol Dyspepsia Cure will prevent an attack of indigestion. Kodol is a thorough digestant and a guaranteed cure for indigestion, Dyspepsia, Gas on the Stomach, Weak Heart, Sour Stomach, Bad Breath and all Stomach troubles, sold by W. H. Ellis.

The First Bale Arrives.

Statesboro received her first bale of new cotton Wednesday morning. Mr. D. C. Mone brought in a bale which tipped the scale at above the 500 mark. It was bought by Messrs J. G. Blitch Co. at 10¢ cents. It was the short staple variety. This is perhaps the earliest that Statesboro has ever received a bale of new cotton, being August the 2nd, fully two weeks earlier than last year.

The cotton failed to attract the amount of interest on the streets that the first bale usually does, for the reason that at the same time there were a number of bales of old cotton on the streets at the same time. There has not been a single day since the first bale arrived here last year that there has not been some cotton on the streets.
