Doings in The Local Field

If you want your refrigerator filled see J. F. Fields. He will sell you ice at 25c per hundred pounds.

J. F. Fields sells ice at 25c per hundred pounds for the refrigerator.

A little forethought may save you a great deal of trouble. Anyone who makes it a rule to keep Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand knows this to be a fact. For sale by All Druggists.

We are requested to announce that Elder H. B. Wilkinson will preach at Lower Mill creek church on Saturday and Sunday of the present week.

Prof. L. L. Barr, of Portau, is in the city yesterday. Prof. Barr has just closed a successful school at Lester academy and will leave Saturday for Wrightsville, Ga. where he will renew up his studies during the fall and winter.

FOR SALE—The best milk cow in the county. No bid less than \$75.00 considered.

M. L. GLISSON, of Griner & Co.

Mrs. J. A. Satcher and daughter, Miss Eva, of Wards, S. C., are visiting the family of Mr. and Mrs. E. D. Holland for a few days.

Attention is called to the adv. of Mr. J. E. Brown, of Stillson, "The Big Store," which appears in this issue. Mr. Brown is a hustler and has a large stock of new goods to offer you.

There has been no material change in the cotton market during the past week.

Dangerous and Uncertain. For sunburn, tetter and all skin and scalp diseases, DeWitt's Witch Hazel Salve has no equal. It is a certain cure for blind bleeding, itching and protruding piles. It will draw the fire out of a burn and heal without leaving a scar. Boils, old sores, carbuncles, etc., are quickly cured by the use of the genuine DeWitt's Witch Hazel Salve. Accept no substitute as they are often dangerous and uncertain. Sold by W. H. Ellis.

Some Good Crops. It was the pleasure of The News man to walk through the fields of Messrs. H. I. Waters and Charlie Driggers, near Zoar, one day last week.

Mr. Driggers, who farms on part of Mr. Waters' land, has 10 acres of the best sea island cotton we ever saw. He thinks that he will get ten bales on it, but we believe that with no back set he will get twelve. He also has a field of corn that will yield thirty bushels to the acre besides lots of peas, pigs and potatoes, and the beauty of it he raised this together with a fine sugar cane patch and a bale of short cotton, and all by himself, one man and one plow on rented land. He will pay the expenses of the crop, have a year's provisions left for next year and at least \$800.00 to the good in dry cash. Yet we occasionally see a fellow who says he can't make a living.

Mr. Waters also has a fine crop. He lives in one of the best sections in the county.

Mr. L. B. Porter, of Smith Grove, Ky., is in the city. Mr. Porter is with the Citizens Life insurance company of Louisville, and will make Statesboro his home for some time.

Pleasantly Effective. Never in the way, no trouble to carry, easy to take, pleasant and never failing in results are DeWitt's Little Early Risers. These famous little pills are certain guarantee against headache, biliousness, torpid liver and all of the ills resulting from constipation. They tonic and strengthen the liver. Cure Jaundice. Sold by W. H. Ellis.

After September 1st, please leave your orders for sheet music at the Statesboro Music House. All orders filled promptly at city prices. This will save you postage. A piano furnished to try your selections. L. G. Lucas.

Miss Kittle Stubbs is on a visit to friends at Excelsior.

The Only Way. There is no way to maintain the health and strength of mind and body except through the stomach. The stomach must be kept healthy, pure and sweet or the strength will let down and disease will set up. No appetite, loss of strength, nervousness, headache, constipation, bad breath, sour rising, rifting, indigestion, dyspepsia and all stomach troubles that are curable are quickly cured by the use of Kodol Dyspepsia Cure. Kodol digests what you eat and strengthens the whole digestive apparatus. Sold by W. H. Ellis.

Mrs. J. M. Klapp, of Lytle, Ala., is on an extended visit to her daughter, Mrs. L. I. Donaldson. She was accompanied by her little daughter.

Mr. Geo. S. Blackburn is spending a few days at Waycross this week.

Rev. C. D. Adams, of Sylvanias, was in town the latter part of the past week. Mr. Adams states that in his opinion that the cotton crop of Screven county will be practically harvested within the next three weeks. It is nearly all open and being picked very rapidly.

Miss Lilla Burns, of Scarboro, visited relatives and friends in the city Saturday and Sunday.

Mr. J. C. Crumley, of Nellwood, spent part of the day yesterday in the city. Mr. Crumley is a delegate to the National Farmers Congress which meets this year in Richmond, Va. on September 12th. Mr. Crumley will attend this meeting.

Mr. Fred C. Wallis will move his family to our town in a few days. This will be quite an acquisition to the social life of our town, and we welcome them to our midst.—Mellen News.

The cool weather for the past two or three days has a tendency to remind one that winter will be on us before we know it.

Judge A. H. MacDonell, of Savannah, was in town yesterday to sit in judgement in the bankruptcy case of P. Williams. Judge MacDonell has visited us before and likes to come to our town. He is a relative of Rev. G. G. N. MacDonell.

Mrs. C. J. Gleason, of Valdosta, is spending some time with relatives in Statesboro.

Mr. F. P. Register and son returned Sunday from a month's trip to North Carolina. Mr. and Mrs. Register are now stopping at the Brooks house.

We are pleased to advise the public that we have purchased from Mr. C. A. Lanier his undertaking line and hearse, and will in the future carry a large assortment of coffins and caskets and can furnish hearse at a moderate cost.

The Simmons Co. Mr. F. C. Wallis informs us that he will probably move his family to Millen, but not in the immediate future. It may be January 1st before he gets off.

Soothing and Cooling. The salve that heals without a scar is DeWitt's Witch Hazel Salve. No remedy effects such speedy relief. It draws out inflammation, soothes, cools and heals all cuts, burns and bruises. A sure cure for Piles and skin disease. DeWitt's is the only genuine Witch Hazel Salve. Beware of counterfeits, they are dangerous. Sold by W. H. Ellis.

JUST TO BE FAIR

The Atlanta News wishes to know who is right about rates.

A dispatch from Birmingham says that Governor Jinks will probably call an extra session of the Alabama legislature. One object of the extra session will be to pass an act giving to Alabama the same railroad rates charged in Georgia.

Commenting on this, the Atlanta News says: "Either freight rates are better than Alabama's, or they are worse. The issue is distinctly made between the politicians, of the two states.

"Only the rates sheets themselves can settle the controversy, and what better service can the Georgia Commission render this honest campaign of education than to publish side by side from official sources the rate sheets of the two states and give the people who vote exact and official information upon one of the vital issues of our politics.

"This is fair. This is honest. This is just.

"And while the commissioners are about it, it might be well to give the people (not in statement and assertion, but in facts and figures) the truth of the Sunday Telegraph, that the present port rates from Atlanta to the Georgia coast cities were lower by nearly 50 percent than the port rates to equal distance in Carolina and Alabama to the coast."

"In this campaign of education it is now the commission's time to give the people the facts.

"No victory won upon mistake or injustice can be wholesome or permanent.

"Let us be just though the heavens fall."

Sad Death of Emit On Thursday last week Miss Anna Kennedy, the daughter of Captain and Mrs. S. H. Kennedy, of Emit, breathed her last after an illness of a few days. The funeral was conducted by Rev. T. J. Cobb, at Emit Baptist church, on Friday, where the enternment was made. The bereaved parents have the sympathy of a large number of friends in their sad loss.

GRUEL WAR IS ENDED AT LAST.

Plenipotentiaries Agree Upon Terms and Peace Now Reigns in the Far East.

Portsmouth, N. H., Aug. 29.—The long and bloody war between Japan and Russia is ended. The terms of peace were settled by Witte and Baron Komura at the session of the conference this morning, and this afternoon preliminary arrangements for an armistice were concluded and the actual work of framing the "Treaty of Portsmouth" was, by mutual agreement, turned over to Mr. De Martens, Russia's great international lawyer, and Mr. Dennison, who for 25 years has acted as the legal advisor of the Japanese foreign office.

The treaty is expected to be completed by the end of the week. This happy conclusion of the conference, which a week ago would have been shipwrecked had it not been for the heroic intercession of President Roosevelt, was sudden and dramatic.

For the sake of peace, Japan, with the magnanimity of a victor, at the last moment yielded everything still in issue. Russia refused to budge from the ultimatum Emperor Nicholas had given to President Roosevelt, through Ambassador Meyer. No indemnity under any guise, but an agreement to divide Sakhalin and reimburse Japan for the maintenance of the Russian prisoners were his last words. They had been repeatedly reiterated in Mr. Witte's instructions and in the form of a written reply to the Japanese compromise proposal of last Wednesday, they were delivered to Baron Komura, therefore, first offered the new basis of compromise outlined in the Associated Press dispatches last night (the complete renunciation of indemnity of Sakhalin at a price to be fixed by a mixed tribunal, consisting of representatives of the neutral powers, in fact it not in words, the solution offered by President Roosevelt). Mr. Witte again returned a non possumus. Before leaving the conference building felicitations were exchanged with the President at

Oyster Bay. The work of drafting the treaty will probably be completed by the end of this week. It is explained that it will not be a difficult task, as the treaty except the phraseology is included in the minutes of the meeting.

The Associated Press is authorized late tonight to declare that there are not, and will not be, any secret clause in the treaty.

WHAT JAPAN DEMANDED Portsmouth, N. H., Aug. 29.—The original demands of the Japanese made at the initial meeting of the peace conference are as follows:

Article 1. Recognition by Russia of Japanese preponderance in Korea, with the right to preserve and to give military and financial advice to the emperor; but to maintain the policy of the "open door" and to observe the territorial integrity of Korea.

Article 2. Mutual evacuation of Manchuria.

Article 3. Obligations by Japan to restore Chinese sovereignty in Manchuria, including civil administration.

Article 4. Mutual obligations to respect in the future the territorial integrity and "administrative unity" of China and Manchuria, with equal opportunity ("the open door") for the industry and commerce of all nations.

Article 5. Cession to Japan of Sakhalin island.

Article 6. Russia to surrender to Japan its leases of the Liaotung peninsula, including Port Arthur, Dainy and the Blonde and Elliott islands.

Article 7. Surrender to China of the railway from Harbin to Port Arthur and Niuchwang, with the surrender of all privileges obtained under the concession of 1905.

Article 8. Limiting the Rothstein-Ukhtomsky concession of 1900, under which the cut-off road through northern Manchuria was built to connect the Trans-Siberian and Usuri line, but providing for the ownership and opera-

Grimshaw Promoted.

The many friends of Mr. H. B. Grimshaw are pleased to learn of his promotion to the place of general superintendent of the fifth division of the Seaboard Air Line railway.

Mr. Grimshaw has filled the same position with the Savannah and Statesboro railway twice, and each time his service has been such as to command the highest respect and confidence of all who have come in contact with him.

He leaves us in a few days to take charge of his new duties. His headquarters will be in Savannah. While his friends here dislike to give him up, yet they are pleased to note his promotion to a wider field, and one that he has merited.

His successor has not been named yet. President Anderson of the Savannah & Statesboro railway will name him in a few days. It is thought, however, that Mr. D. M. Bacon, chief clerk in the office of the general superintendent's office under Mr. Hale, will be the man to fill Mr. Grimshaw's place with the Savannah and Statesboro.

Back From Texas. Elder M. F. Stubbs returned on Tuesday from a five weeks' tour of the state of Texas. Mr. Stubbs says that he had no difficulty with the quarantine officers in coming home. He says that the Texas cotton crop is almost a failure. The cotton was first drowned out and was followed by a disastrous drought. He says that there is a boll weevil that is playing havoc with the cotton much worse than the boll worm, that we hear so much about. He thinks the crop is short through the entire section of the cotton belt viz: Texas, Arkansas, Alabama as well as Georgia.

Attacked By a Mob and beaten in a labor riot, until covered with sores, a Chicago street car conductor applied Bucklin's Arnica salve, and was soon sound and well. "I use it in my family," writes G. The North Does Not Indorse Wamaker

(Atlanta News.)

The Atlanta News is correct in the supposition expressed yesterday that the mass of the northern people are not in sympathy with Wamaker's idea of social equality.

What the Journal states tentatively, the News is able to state positively; what The Journal surmises, The News knows.

The editor of this paper for thirteen years upon the lecture platforms of America has been in constant contact with the representative people of the north and east upon the great questions peculiar to the south, in personal discussion with private individuals, and in joint debates upon public platforms.

He has had an exceptional opportunity to know the minds and the spirits of the people of the north in discussion of this identical problem of the races with which we are grappling today.

And we do not hesitate to say, as we have said before, that the great mass of the representative people of the northern, middle and western states are in perfect sympathy with the sentiments of the south upon this question of the races.

In Ohio, Illinois and Indiana there is a prejudice against the races which utterly surpasses any similar feelings entertained toward the negro of the south. The race riots in New York, in Delaware, Chicago, Evansville, Carterville, Danville, Evansville, Felicity, and at Leavenworth, and a thousand other cities in the north, are simply the outcroppings of the spirit which the negro aggressiveness and assertions always and inevitably bring down upon him from the dominant race.

The News would be willing to stake the solemn promise of its future upon a wager that with a fair vote upon this question Mr. Wamaker and his radical philanthropists would be buried under the largest majority that ever contained a public issue in the north.

And this opinion is not from mere hearsay evidence, or built upon the foundation of a sentiment that we would like to have, but is founded upon fact and intimate personal association extending over a dozen years.

Hereafter we would have our southern people restrain from crediting the Wamaker spirit to the entire people of the north. We would have them believe as we believe that the representative spirit of the northern people is not only cordial and kindly toward the south as a section, but it is entirely in sympathy with the south's attitude toward its great problem.

We need now and shall need more sorely in the future the help and cooperation of our northern fellow citizens in the final solution of this question. They are our friends and sympathizers, and when the time comes to submit to public ballot or to a real public opinion the difficulties and the trials of the south upon this question will surely receive the help and cooperation which one great branch of the Anglo-Saxon race gives another in a question which affects the integrity of the race and the welfare of our common government.

It is high statesmanship and the broadness of wisdom that we people of the south should cultivate the sympathy and good will of the northern masses who are not represented, either by the fanatics of abolition or the trimmers in politics, the mistaken philanthropy, or the time-serving newspapers who do not know the sentiment that they seek to represent.

More particularly do we urge upon our southern newspapers and public men that in their comments upon this and similar incidents they shall forbear a mistaken criticism of the northern people and discriminate between

Kennedy-Sewell

Agreeable to the announcement of some days ago Miss Maggie Kennedy of Statesboro, Ga., and Mr. Lovick Sewell of Metter, Ga., were married at high noon Aug. 9, 1905. After refreshments the party left for Talbotton, Ga. To brighten the coming to Mr. Sewell's former home a selected party met them at Paschal on the afternoon of the 10th. The reception given the happy young couple was announced some days before. In response to invitations about fifty guests assembled at the beautiful and hospitable home of Mr. and Mrs. James L. Sewell which never appeared more lovely than on this occasion. The veranda, reception room and spacious hall were decorated with rare pot plants, while the dining room was under the skylight touch of Mrs. R. A. Maxwell and Miss Ella Marshall presented a truly Edenic scene, white and green being the color scheme. The walls beautifully adorned with smilax and other lovely climbs looked down by a white light on the table crossing at right angles, exquisite in loveliness with green foliage, white blossoms, dainty dishes, bright silver, beautifully embossed cakes, the most beautiful one immediately in front of the bride and groom indicating the union of two hearts, two lives. The menu was very dainty and palatable and gracefully served after which for some time the merry voices of many happy couples rang out on the evening air, indicating the beautiful and sunny side of life of the assembled guests. The presents were numerous and beautiful, forcible attestations of love and esteem.

Mr. and Mrs. Sewell begin their new life under very favorable auspices. She being from two of Bulloch county's best families and possessing so many attributes of grace, loveliness and true worth she is well fitted to be the companion of Mr. Sewell, whose many sterling qualities of head and heart are too well known in his old home to need comment and already stands high in the business world, being cashier of a very flourishing bank and destined to rise higher. The most judicious commendation however, "is a union of a christian lady and gentleman, which union no doubt will receive God's richest blessings. ONE PRESENT.

Sick Headache. "For several years my wife was troubled with what physicians called sick headache of a very severe character. She doctored with several eminent physicians and at a great expense, only to grow worse until she was unable to do any kind of work. About a year ago she began taking Chamberlain's Stomach and Liver Tablets and today weighs more than she ever did before and is as well as well." says Mr. Geo. E. Wright of New London, New York. For sale by All Druggists.

Public is Aroused. The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys, Mary H. Waters, of 646 St. Clair Ave., Columbus, O., writes: "For several months, I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at W. H. Ellis' drug store; price 50c.

IN MEMORY Of Brother B. G. Lanier. Brother Lanier departed this life April 28, 1905. He was 59 years old and had been a member of the Primitive Baptist church at Ash Branch, Bulloch county, Ga., seventeen years, having united with the church on the second Sunday in September, 1887, and had always led a quiet and exemplary life—always filling his place at his church meetings, unless providentially hindered.

Brother Lanier was married to Miss Martha Rodgers, daughter of the late Evin G. Rodgers, in 1899 and eight children blessed this union, all of which survive him. He was ordained to the office of deacon in 1898, Elders Aycock, Cribbs and Smith officiating, and has ever been faithful conscientious in all of his dealings as a deacon and member of the church and toward his fellowman he enjoyed the confidence and esteem of the entire brotherhood and all who knew him. Truly a good man is gone. He will be sadly missed by the church and the entire community. He leaves a loving companion, six daughters, two sons and a large circle of loving friends to mourn his loss. He was possessed with a true love which alone comes from God. From the evidences he manifested we believe death was a happy change as he died without a struggle, and we feel that our loss is his eternal gain, for we feel that he is now sweetly sleeping in the arms of a wiser and glorified savior.

His remains were laid to rest in the Ash Branch church cemetery in the presence of a large crowd of friends and relatives. Elder J. Smith preached on the occasion using as a text: "The Christian life of Brother Lanier; may God bless the bereaved ones in our prayers.

J. H. Smith, E. B. Hughes, L. M. Lanier, J. D. McElveen, Committee.

The Cleveland Leader says: "Unlucky China, revived and great, may be John Hay's most imposing monument."

Rev. D. Wylie, of the Scotch Presbyterian church, New York, says good of gold is universal in America. Yes, Doctor, and in every other land where grass grows and water runs, comments the Herald.

The project of draining the Everglades is up again and it looks this time as if something would be done. It will give to Florida three million acres of rich and virgin soil, an gift of a principality and one not to be slighted.

"Train butchers" on the Pennsylvania and Long Island railroad system in control of the Union News Company, have been found that they must not sell "trash" literature hereafter. The "Red-Eyed Dick, the Train Robber," style of book, in which there is a wreck of a train on the first page of the book, with armed bandits holding up the passengers, a staple of the railroad reading, must go.

It is probably true that the world is growing better, but that is no reason why we should rest on our oars in the struggle for still better conditions. On, on, ever onward, so long as the world turns! If the world is better today than it was, it is because those who live before us worked to that end, and we must keep the work going, so as to leave the world better than we found it. To cease agitating and clamoring, even for a day, would be treason to posterity and a dead loss to ourselves, for in human society, as in other realms of nature, nothing ever stands still, and if we do not wish to be set back in time we must keep moving forward.

Some of the worst fears that beset those who have the welfare of the world at heart, or who are responsible for the character and education of the young, may be reduced to naught when we take into account the part which heredity plays as a regulator. Without going into the great contentions of Spencer and Wellesman, we may accept it as a rule, declares the Christian Register, that heredity concerns itself mainly with the traits of human life which come first into view, which lie deepest in the physical organization and the mental constitution of the race, and that the tendency is constantly to recur to the strong, underlying, permanent qualities and powers in the stock from which the individual springs. This fact explains the reproduction from generation to generation and from century to century of family traits and racial characteristics. Whenever we are written, descriptions, learn that a child is quite as likely to inherit from an ancestor of three centuries ago as he is from his grandparents.

According to Harper's Weekly the most difficult questions that now assail the management of the American colleges are how to pay the professors larger salaries and how to make the athletes work for nothing. The latter question is the harder of the two. Mr. Carnegie has helped with the problem of the professors' pay, and several of the older universities are raising big funds to the same end; but to keep them from drawing salaries is a more complicated matter. It is accepted in all the colleges that players and contestants in intercollegiate games must be amateurs; players, that is, who do not play, and have never played, for hire. Just as the Elkins law drives the railroad lawyers to the concocting of devices whereby unlawful rebates may lawfully be paid, and drives freight-agents to dark transactions and unrevealed bargains, so the action of the law of amateurism seems to drive the college lawyers and the team-managers to devices by which useful amateurs may lawfully be hired, or may be paid surreptitious wages without its coming to public knowledge.

NEGRO TROOPS NOT WANTED. Memo on Foot in Alabama to Have Them Disbanded.

Attention has been circulated in Selma, Ala., among officers and former members of the state troops, asking those in authority to master out the negro members of the Alabama national guard. The petition has been very generally signed and the movement will be pushed.

Respectfully, J. J. NESSMITH.

NEW ORLEANS CAUTIOUS

Action is Taken to Put Stop to In-discriminate Influx of People from Infected Points.

Action was taken at a meeting of the state board of health in New Orleans Friday to enable the federal authorities to put a stop to indiscriminate travel between infected points and the city, the idea being to prevent Italians and others from returning to New Orleans from settlements where the fever now exists and causing fresh infection.

This action was desired by the marine hospital service in the belief that they are now controlling the fever and that there is a possibility of eradicating it entirely by October 1.

The resolution is general in character and authorizes any local health officer of infected localities to prohibit the introduction into their territories, of persons acclimated, unacclimated, or said to be immune, when in their judgment such introduction would add to or increase the prevalence of the disease. Persons known to come regularly in an infected locality in Louisiana are to be admitted into their homes when they furnish satisfactory proof of residence. It was explained that the resolution would interfere in no way with travel between New Orleans and points in St. Tammany and Tangipahoa parishes, where many families of New Orleans now find an asylum.

Nor will anyone be prevented from coming from the Mississippi golf coast provided they have not been in the infected zone in Mississippi City. As a result of the resolution the health authorities will be enabled, with the co-operation of the railroad companies, to prevent ingress of Italians and members of other nationalities, negroes, tramps and other irresponsible elements from all those points where nests of fever have been developed.

The yellow fever situation has been regarded as having undergone no change. Dr. Wylie's announcement that if the people will faithfully screen and disinfect and obey the regulations which have been made, and if all elements continue as at present, the danger of the resolution of the health authorities will be an entire cessation of the infection within the next thirty days, has spread a more hopeful feeling throughout the community.

There was some rise in the number of new cases Friday over Thursday, but the health authorities said no unfavorable conclusions were to be drawn from that fact, and that there was likely to be variation of this character from day to day. The fact that the deaths per day do not exceed those in the comparatively slight yellow fever in 1877 and are insignificant in number in comparison with those of 1873 is still the point basis for the widespread optimism that prevails.

A visit to the emergency hospital also confirmed what has heretofore been said that a certain proportion of the cases there as elsewhere in the city develop into malaria or dengue in the course of treatment. The fever report for Friday up to 6 p. m. was as follows: New cases, 65; total to date, 1,665; deaths Friday, 6; total deaths, 222; remaining under treatment, 249.

Lon Trilled to His Lairs.

On Saturday morning Mr. H. I. Waters came in town with the measure of the track of a huge lion, and also the track of a smaller one. Mr. Waters was sure that the king of the forest was in hiding near the Sand Hill ford on Mill creek. Several parties went back with him and the way they made the echoes ring up Mill creek swamp was a caution. After a chase of some time the lion was run to cover along with its cub. When they had advanced sufficiently near they had no difficulty in seeing that it was Rube Olliv's old big footed dog and a puppy that they had been trailing. Thus the question of the swamp being filled with wild beast has been settled.

New York's Typhoid Epidemic.

Typhoid is a disease to be dreaded far more than yellow fever yet it does not inspire the same terror among the people. If New Orleans had today 5,000 cases of typhoid fever and a death rate of 80 a day nothing would be thought of it; there would be no disturbance of business no quarantines and no fear anywhere. But little more than 700 cases of yellow fever and less than 100 deaths in a population of more than 300,000, have been sufficient to spread such terror as to cause New Orleans to be quarantined against a dozen states, and a most injurious embargo to be imposed upon her commerce so far as the mere question of human health is concerned the yellow fever in this city is a trifle compared to the typhoid epidemic that is now raging in New York. The medical officer of the New York health board has submitted a report showing that up to August 1st there have been 51,000 cases of typhoid and 808 deaths in that city. There is no panic in New York and the wheels of trade and industry have suffered not the slightest check. The health officials of New York have no hope of seeing an abatement of a hope that may not be realized if it is true as stated that the water supply is polluted, because science has demonstrated that the typhoid germ is not destroyed by cold but can be killed only by boiling the water; that is used for drinking purposes; hence unless this precaution is taken the disease will thrive quite as well in winter as it does in the summer months. The city of Washington is also suffering from a visitation of typhoid and the daily increase in the number of cases threatens an epidemic of this dreadful disease, but as we have already said the people will not be greatly disturbed by it. The appearance of a dozen cases of yellow fever in New York and Washington however, would probably be sufficient to create a stampede which would depopulate those cities.

Cotton Crop Off

Atlanta, Sept. 2.—According to the August crop report given out today by the state department of agriculture, and made up from data filed by nearly 1,000 correspondents in all parts of the state, on an average date of August 30, there has been a considerable falling off in the average of most of the Georgia crops.
The most interesting feature of the report is showing made with regard to cotton. Georgia's crop last year was more than 2,000,000 bales. The average Georgia cotton crop for the last five years is 1,528,000 bales. The reports this year show that the crop will be slightly less than 75 per cent of the average, or about 1,150,000 bales. This is considered a remarkable falling off, even with the adverse weather conditions which have prevailed.
In other words the Georgia cotton crop this year, as compared with that of 1904 is cut just about one-half in two.
The heavy and continuous rains, followed by the two weeks' drought caused serious damage to the cotton crop in the way of rust, black rot, shedding, etc. Some farmers complain also of the destruction of squares and bolls by insects. Owing to the weather conditions the crops became very grassy, which prevented their proper working.
The report shows the condition of the various crops throughout the state, as compared to an average, to be as follows:
Cotton, 74.8 per cent; corn, 87 per cent; rice, 91.8 per cent; sugar cane, 88.8 per cent; sweet potatoes, 89.0 per cent; tobacco, 84.6 per cent; stock hogs, 97 per cent.

In Memoriam.

God's ways are not our ways; they are past finding out and we would not penetrate them if we could. We know God is too wise to err, and too good to be unkind. We know not why but in his wisdom he has seen fit to remove from this earth the sweet spirit of Mrs. Annie Mikell, daughter of Mr. and Mrs. Ira Dickerson, who was born Nov. 22, 1878, and died Dec. 11, 1904, in her home in Savannah.
After an illness of several weeks the sweet spirit of Annie wended its way back to the God who gave it, and entered into a world of eternal bliss. She was a dutiful daughter, a loving wife, an affectionate sister and a true friend.
It is hard to understand why she should be taken so young. Not in life can the groom be lifted from her loved ones, only as they enter upon their heavenly home, join again with her brighter life, can they see and understand why it was best for her to be taken. While we mourn her loss, we believe we may with boldness treasure to ourselves "exceeding great and precious promises" of the life to come, into whose rest we confidentially believe she has entered with joy. We look forward to the time and life to come when we shall again meet, and God shall wipe away all tears from our eyes.
She was survived by her husband and one child, who has since joined her in her heavenly home, a father, mother, five sisters and two brothers.
May God help them all to submit to his will, knowing he is right in all that he does and that he will soon gather them all to himself in heaven where all will rest from weary toil, and drink from the fountain of his eternal fullness forever.
We join in full sympathy with all of her loved ones, and especially the aged father and mother, praying that the God of all grace may abound toward each one until that day when we shall all meet to part no more.
Her funeral was held at 10 o'clock, Monday, at the home of Mrs. Annie Lou Hanna, Harville, Ga.
The funeral of Mr. John Campbell at Friendship church was largely attended on Sunday. Rev. J. S. McLemore conducted the services along with the members of Ogeechee Masonic Lodge, together with visiting members from others.

New Harness Shop

The undersigned having opened a harness shop in the rear end of the building occupied by Sutton's barber shop takes this method of inviting the public to give him a call. New harness manufactured on short notice, or old ones made as good as new. I have all the latest tools and machinery in order to turn out first class work and one trial will convince you that my goods are the stuff that you get more than a distance. My work is all guaranteed to be first class in every respect, and if any of it fails to come up to this standard I am right here to make it good. I also carry a full line of parts and furnishings for repairs in harness. Give me a call.
Respectfully,
J. G. MITCHELL.

Three Jurors Cured

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.
Mr. G. W. Fowler of Hightower, Ala., relates an experience he had serving on a petty jury in a murder case at Edwardsville, county seat of Calhoun county, Alabama. He says: "While there I ate some fresh meat and some soups and it gave me cholera morbus in a very severe form. I was never more sick in my life and I was sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead saying that he had what I sent for, but that this medicine was so much better he would rather send it to me than to let it go. I took one dose of it and it was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." For sale by All Druggists.

Services Well Attended

The services at the Methodist church are well attended. Miss Emma Tacker, of Nashville, is conducting the services and there is considerable interest manifested in the meetings. Two services a day are being held. Rev. Mr. Mathews, presiding elder of the Dublin district, has been present part of the time.
