Everything is in the name when it comes to Witch Hazel. E. C. DeWitt & Co. of Chicago discovered some years ago how to make a name from Witch Hazel that is specific for Piles. For blind, bleeding, itching and protruding Piles, eczema, cuts, burns, bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Sold by W. H. Ellis.

County Politics Shaping Up.

While Bulloch has so far had little doing in the way of local politics other counties in this immediate section have out a good many of their candidates.

In this connection we have heard only one name mentioned so far in connection with our next year's primary. It is a pretty well understood that Mr. S. O. Allen will be in the race for tax collector. When approached by a News reporter some days ago in regard to the rumor that he may be a candidate, Mr. Allen stated that it was true that he had the matter under consideration, he had been encouraged by numerous friends throughout the county who have assured him of their support in the event that he should enter the race, and while it was too early to make any announcement as yet, but after talking with Mr. Allen we were convinced that he would undoubtedly be in the race.

Mr. Allen will make a strong candidate too. Sol Allen, as he is familiarly known, will make it hot for the man who goes up against him. He is plain, clever and deservedly popular. His friends say that he is a winner.

Jim Carter Caught

Sheriff Kendrick has landed Jim Carter, the negro who killed his wife up in the Lookhart district some time ago, behind the jail bars. Our readers will remember that he shot and killed his wife because she would not go back to Carolina with him.

Best For Children.

Mothers, be careful of the health of your children. Look out Coughs, Colds, Croup and Whooping Cough. Stop them in time—One Minute Cough Cure is the best remedy. Harmless and pleasant. Contains no opiates. Sold by W. H. Ellis.

Birthday Dinner.

On Tuesday at the home of her son, Mr. C. M. Anderson Jr. in the 44th district, Mrs. Vinie Anderson celebrated the passing of the seventy-sixth mile post on life's journey.

There were present nine children, eighty-seven grandchildren and fifty-four great grandchildren. A sumptuous dinner was spread and other refreshments served during the day. It was indeed an occasion that called for rejoicing and the offering of thanks that this good woman had been spared to live and bless the community in which her life had been spent to such a ripe old age.

Mrs. Anderson is hale and hearty and bids good to be with her numerous friends and relatives for many more celebrations of the kind.

Mrs. Fannie Atkins Passed Away.

On last Thursday night after an illness of several weeks Mrs. Fannie Atkins passed away at her home near Upper Mill Creek church.

The deceased was the widow of the late Robert Atkins, and leaves a large number of friends and relatives to mourn her loss.

The interment was made at the cemetery at Upper Mill creek church Friday afternoon. There was a large crowd of sorrowing friends and relatives out to pay the last tribute of respect to her memory. The funeral will be conducted at Upper Mill Creek church by Elder H. Temples on Sunday of this week.

No Unpleasant Effects.

If you ever took DeWitt's Little Early Risers for biliousness or constipation you know what pill pleasure is. These famous little pills cleanse the liver and rid the system of all bile without producing unpleasant effects. Sold by W. H. Ellis.

Rackley-Strickland.

At the home of the bride's parents, Mr. and Mrs. Rackley, at Capota, Screven county, Prof. C. A. Strickland and Miss Rackley were united in the holy bonds of matrimony. Rev. H. J. Arnett of Savannah officiating.

Prof. Strickland is one of our ablest and most popular young men, and Miss Rackley one of Screven's fairest and most accomplished young ladies.

Among those attending the ceremony from Bulloch were Prof. and Mrs. J. H. St. Clair, Misses Mattie and Mollie Strickland, Mrs. Nellie Strickland, Messrs M. Rigdon and H. W. Scott.

The News joins their many friends in wishing the happy young couple a fair voyage and smooth sailing over life's matrimonial sea.

Horses Have Glanders.

Ordinary S. L. Moore had received complaint that the horses and mules were dying with some disease in Hagins district and he sent for a veterinary surgeon, and Dr. James of Savannah came up, and he and the Ordinary went down and investigated. Mr. Aaron Clark had lost an animal, and Mr. Lawson Hagins had lost two, and had another sick with the disease and Dr. James pronounced the disease to be glanders.

The Doctor says it is a very dangerous and contagious disease and is sure death. It is not only dangerous to horses and mules, but to people also. The carcasses ought to be burned, and the stables fumigated with some disinfectant.

Famous Boys' Band, Sept 26th

The Boys' Band of the Georgia Industrial Home, Macon, will give a concert at Statesboro at the auditorium for the benefit of their Home.

This band is acknowledged to be the finest boys' band in the South. The boys have given concerts throughout Georgia, Alabama and Florida and have captured the people every where they have gone. They never fail to please their hearers and to evoke enthusiastic applause.

The band is under the direction of Prof. H. Gooding and the splendid way in which he has the members trained speaks much for his ability as a musician.

Everybody should attend the concert.

Those who attend will be highly entertained and besides they will be helping a worthy cause, as the entire proceeds go toward the support of the home. The Home has no endowment, no money ahead, no state or denominational aid, but is dependent solely upon voluntary charity and the Boys' Band. Don't miss hearing them.

The price of admission is 50 cents for adults and 25 cents for children. Tickets are on sale at Kennedy and Co's store.

J. C. Shaw, advance agent.

Are You Engaged?

Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestion in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years, my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former life. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." W. H. Ellis, druggist, sells and guarantees them, at 50c a bottle.

Mr. Editor: Please allow space in your valuable paper to publish the fifth anniversary of Seaboard Baptist church. The occasion was grand. After listening to one of the ablest sermons by Rev. W. S. Dickerson a collection was called for to which everybody gave very liberally. Among those were Deacon S. W. Jones, four dollars; Deacon T. J. Lanier, ten dollars; Rev. W. S. Dickerson, pastor, ten dollars. Total collection from entire congregation was \$120.07.

As will be seen by notice of a call for an election printed in another column in this issue, the voters of Statesboro will be called to cast their ballots for or against a public school system for the city of Statesboro on the 10th of October.

This action was decided upon as a result of the public meeting held at the court house Monday night. There was a large crowd out, and the matter was pretty thoroughly discussed, and when the proposition was put to a vote to call an election it looked as if nearly everybody was of one mind, to put in force in Statesboro a free school system. While there seems to be considerable opposition to it on the outside, yet very little of it showed its head at the meeting Monday night.

How we have insisted that it is the main strength of the English character that we are not inclined to rivality! What nation is much more frivolously disposed than ours now? says London Truth.

The New York Fire Insurance Exchange, on investigation, finds that there are over five hundred buildings in the United States, of which New York has 1502, or more than half. That speaks well for the commercial capital of the country, thinks the New York Tribune.

A writer in the Saturday Evening Post describes truth as the most valuable asset of modern business enterprise. Certainly many failures in the past may be traced directly to a lack of this asset that no amount of money could offset, comments the Boston Transcript.

About 3300 officers and men of the Japanese army who have been killed since the battle of Liaoyang will receive the order of the Golden Kite from the Mikado, states the Washington Post. They will be pardoned if they are not bolder in showing their appreciation of the honor.

When the total resources of the savings banks of the State of New York are in round numbers one billion four hundred thousand dollars, we can look forward with a good deal of confidence to the conflict with the dangers of concentrated capital of which many social or socialist prophets continuously and vociferously warn us, asserts the New York Times.

The English populace is simple and even childish in its amusements, declares Outing. There is running in one of the London theatres an alleged light opera, in which two comedians for ten solid minutes pound each other with bladders on the ends of little sticks. And the English audiences are swept by gales of laughter during this feature of the show, and cannot seem to get enough of it.

Silk is not a commodity that is bought by people who are in had straits. It is a luxury. Men and women may dress well, even elegantly, without a thread of it. Yet there has never been a year in this country's history when so much silk was bought, either in total quantity or in proportion to the population, as in the fiscal year which has just closed, says the New York Evening Mail.

Oxford gives a social hall mark and training such as no other place in the world can offer, declares the Oxford Variety. But when we come to look the hard facts of daily bread and butter in the face, then it is that many of us wish that we had not spent three or four previous years in acquiring that which though delectable enough as itself as a commercial or monetary asset is of peculiarly small value.

A fireproof building in a wind and a big fire may be an impossibility, says the Birmingham (Ala.) Age-Herald. In such a case the contents of a building would alone invite fire, even if the walls stood intact, and they would not do that. At least they did not in the Baltimore fire. By the phrase, "fireproof building," is meant a building that will resist a small fire—that will burn slowly in any event, and that will enable the fire protection to become available. A building that will stand secure in any fire is an isolated building that contains little wood and no goods of an inflammable nature. There are few such buildings in any country.

The danger attending the use and wearing of adulterated leather is not perhaps fully realized. A large amount of the cheap leather is weighted with glucose and barium, especially the latter, so that when the test is applied, such adulterated leather may pass as first class material. Leather so treated, however, has the peculiar quality of absorbing moisture freely and retaining it to an extreme degree. The result is that a test made of this chemically treated material is in actuality never dry. Even in the driest weather the perspiration of the feet is sufficient to render the footwear dangerous, as such natural moisture acts upon the inner sole and collects there.

Fever Spreads in the City
Despite Heroic Work.

NINE CASES FOR MONDAY

Most Encouraging Report Comes from New Orleans—United States Government Takes Hand in the Quarantine Regulations.

Nine new cases and one death is the yellow fever record for Pensacola, Fla., Monday, concluding at six o'clock, when the various physicians working in conjunction with the state board of health made their reports. Suspicious or doubtful cases number about twelve.

The one death was that of A. Wolfburn, vice consul of Norway, who died after a brief illness. He was taken ill five days since and did not call in a physician. A post-mortem examination revealed the fact that he had died of yellow fever of the most malignant type.

Citizens have been called upon to assist the physicians and appoint a relief committee.

Uncle Sam Takes a Hand. The United States marine hospital service has taken a hand in the quarantine situation and according to a letter received in Atlanta Monday by the Georgia state board of health, his issued sweeping instructions preventing passengers from stopping anywhere in the territory east of the Mississippi river, from Washington, D. C., through Charleston, Danville, Charlotte, Spartanburg, Atlanta, Annapolis, the Tennessee river, Vincennes, Ind., St. Louis and thence to the Arkansas state line.

The Georgia state board of health is requested to have its inspectors notify all passengers from yellow fever points of this quarantine regulation. Notice is also given that government inspectors have been appointed to enforce this rule, and that penalties may be incurred for its violation.

The territory indicated as south of the line in question is all regarded as "infectible" territory, and for that reason the marine hospital service proposes to prohibit persons who have been exposed to yellow fever from entering this section until the point where such infection exists is free of the disease.

Good Report for New Orleans. The report of no deaths in New Orleans Monday, the first time since the announcement of the presence of the fever on July 21, when contrasted with the record of 1878, presents quite a coincidence, because September 11, 1878, was the record day for deaths during that epidemic, 90 being recorded. Aigiers reports seven of the new cases. The report of no deaths in Algiers.

Dr. White has given out the component parts of the new vaccine, which will be used hereafter, in the fight against the disease. It is composed of equal parts of crystal carbolic acid, and gum camphor, and three ounces will be sufficient to thoroughly fumigate 1000 cubic feet of space. He advises against its use by citizens generally on account of danger in handling it, and is having his forces thoroughly educated in its use before they will be entrusted with it.

The most interesting feature of the country news was the report from the health officer of St. John parish, of the existence of about twenty-five cases at Lake, a lumber town in that parish, and his statement that the patients were not being properly cared for, and that they had been concealing the illness. He has taken charge of things there, and reported three new cases.

GROWS WORSE IN BAKU.

Russian Soldiers Fire into Crowd of Workmen, Killing Seventeen. The latest private telegram to be received in St. Petersburg from Baku reports that the situation there is growing worse.

Other unconfirmed dispatches assert that the rioters are stubbornly continuing their attacks, and that the Tatars and Kurds are plundering in the "Blacktown" district. The dispatches say that on Sunday the soldiers fired into a crowd of Russian workmen, killing seventeen.

RICHMOND PRINTERS STRIKE.

Walk-Out Occurs to Enforce Adoption of Eight-Hour Day. Ninety-eight of the hundred and one printers, employed in job offices in Richmond, Va., walked out Monday afternoon because of the refusal of their employers to accede to the union demand for an eight-hour work day on and after January 1 next. The newspaper forces are not taking part in the strike.

The Statesboro News

(INCORPORATED.)

Entered at the post office at Statesboro as 2nd class mail matter.

Statesboro, Ga. Friday, Sept. 13 1906

Published Tuesdays and Fridays by THE STATESBORO NEWS PUBLISHING COMPANY.

The boys and girls are going to college now and the base ball nines and the loiter clubs will receive additions.

The yellow fever is spreading all around in the gulf states and goes to the small towns as well as the large ones.

Look out for the glanders among your horses and mules, and if you discover it, the only thing to do is to kill the stock.

Save the hay, and you will have milk and butter during the winter season, and save the corn for hogs.

The chaffing is doing some excellent work on the roads now, and if the Commissioners will get a superintendent, and improve road machinery it will help wonderfully.

Chief Justice Simmons who died this week at his home in Atlanta was one of the state's leading men. He was a plain man, a learned lawyer and an upright judge.

At last accounts Carnegie was still a rich man and we fear he will not die poor as he said he wanted to. Let Carnegie give the South a few millions of his tariff gotten gains and it will sorter even up with us.

An election will be called to create a free school system in Statesboro. It is manifest that a majority of the people are in favor of the system, and in fact the time has come when it is demanded, and the people should go ahead, and give the measure the two-thirds majority required by law, and if it should prove to be an error it could be abolished. Tuition has to be paid any way, and the taxpayer would not know the difference in the cost of tuition, and it might be the means of having a better school system, and be beneficial to the town and country.

Says His Stock Must Go.

A News reporter called at the store of F. L. Clary yesterday, and when we inquired what was the nature of the hurried call, Mr. Clary said: "I'm confidentially, but don't say anything about it, but you see all this stock of goods filling these shelves to the brim. They have got to go. I have decided to turn them loose on the market regardless of cost, at prices that a man or woman with one eye and half sense will not hesitate to grab them." Then again he stated: "Since thinking about it, there is no need to hide your eyes under a bushel, so put it in the paper; put it as strong as you please and I will back you up to the hilt. I am determined that there shall not be such an array of bargains offered by a single house in this town as I have to offer. I have the goods and I intend to push them out of this store through the front door, and send with them a lot of the best priced customers that ever darkened a door in Statesboro; while their smiles will be at my expense, yet the goods must go. Put in a half page on the front so that he who runs may read and come to my sale."

So it is in the paper, go and get the bargains, Clary has got them and all you have to do is to go after them.

Numerous and Worthless.

Everything is in the name when it comes to Witch Hazel. K. C. DeWitt & Co. of Chicago discovered some years ago how to make a salve from Witch Hazel that is specific for Piles. For blind, bleeding, itching and protruding Piles, eczema, cuts, burns, bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Sold by W. H. Ellis.

FOR SALE.

In West Statesboro, one six room dwelling, two stalls, good well of water, two acre lot, terms, E. D. Holland, Fire insurance and real estate agent, Sept. 14, 1906.

MONEY FOUND.

Have you lost any money? If so call at the News Office, describe the denomination of the bill and get the same.

Kodol Dyspepsia Cure
Digests what you eat.

Johnson-Rolston.

On Wednesday afternoon at the Methodist parsonage, Mr. Edward Rolston and Mrs. Vencie Johnson were united in marriage. Rev. G. N. MacDonell officiating. They are at home to their friends at the home of the bride two miles south of the city.

Can You Eat?

J. B. Taylor, a prominent merchant of Christiana, Tex., says: "I could not eat because of a weak stomach. I lost all strength and ran down in weight. All that money could do was done, but all hope of recovery vanished. Hearing of some wonderful cures, effected by use of Kodol Dyspepsia Cure, I concluded to try it. The first bottle benefited me, and after taking four bottles, I am fully restored to my usual strength, weight and health."

A Berlin cable dispatch, quoted by the New York American, says that Emperor William told Congressmen Bartoldt that he (Emperor William) had been asked by the Czar to request President Roosevelt to take the lead in bringing about a peace conference. This being true, it was William and Theodore, who was the original peace promoter. Bartoldt isn't a little cheeky in William to try to get Theodore's glory?

Attacked By a Mob

and beaten, in a labor riot, until covered with sores, a Chicagoan, an orchestra conductor, applied Bucklin's Arnica salve, and was soon sound and well. "I use it in my family," writes G. J. Welch, of Tekonsha, Mich., "and find it perfect." Simply great for cuts and burns. Only 50c at W. H. Ellis, drug store.

A Philadelphia Republican newspaper

refers to President Roosevelt as "the biggest man in the world to-day." Oh, no; that is hardly correct. The President weighs only about 190 pounds, while M. W. White, two and a half inches taller and weighs 225 pounds. And then there is secretary Taft, carrying upwards of 250 pounds on a frame better than six feet long. There is a very affable hardware drummer that comes to this city who is almost twice as big as President Roosevelt, since his weight is very nearly 370 pounds.

YOURS TRULY
L. G. LUCAS

In Memoriam.

The death angel visited our home on July 21st 1906 and took from us our darling little brother, Evans Lord. Oh how hard it was to give him up; he was such a loving and affectionate child. He was born June 28th 1889 and died July 21st 1906.

Surely the providence of God is mysterious, why death should come to him just budding into hopeful manhood and being loved by all who came within the sunshine of his presence. We only know that God's ways are the best, and knowing this we can only submit to his will. He was an affectionate and dutiful son, but we know that God wants him to be with him, therefore he is that we bow in humble submission to the divine will of our Savior. He leaves a father, two sisters and five brothers to mourn his death. His sweet voice is hushed and his place is vacant in our bereaved home, but his loss to us is his eternal gain, and may God the giver of all blessings shine down his love and comfort our broken and wounded hearts, and may he help us to live such lives that when the summons comes to call us one by one to that better world, we may be ready to cross over and be with our darling little Evans, where sickness, sorrow and death never comes.

From the evidence he manifested I believe death was a happy change he died without a struggle, and said to his loved ones standing by that he was ready and willing to go and live with Jesus. He now sleeps in the Lord grave yard, in Williamson county. Written by his sister in love, Mrs. W. D. Lord.

Resolved, 1: That we bow in humble submission to the will of our Heavenly Father who doeth all things well, believing that our loss is his eternal gain.
Second: That this church extends heartfelt christian sympathy to the family and loved ones, and we point them to Him who has said: "My grace is sufficient for you."
Third: That a copy of this be furnished the family and spread upon our church record.

Body of Herzog Found Hanging to a Tree

Minot, N. D., Sept. 12.—The dead body of Charles E. Herzog, who left a written confession that he was guilty of a murder committed near Youngstown, O., over thirty years ago, has been found by a posse of searchers.

The body was hanging to a tree in a secluded ravine in the country of Wallace. Pinned to his breast was a piece of wrapping paper on which was written a confession of his crime.

Around his neck was a shroud of thin green stuff such as women use for face veils. It is recalled by a former Youngstown man here that Lizzie Grombacher wore such a veil when murdered and that part of it was used to strangle her.

The piece found about Herzog's neck is supposed to be the remainder of the veil, as he showed such a piece to a fellow ranchman, to whom he told the story of his crime, declaring that he had kept it all these years to use in ending his own life some day.

There is considerable dissatisfaction in regard to the R. F. D. as it is established on this route. It goes considerably out of the way to accommodate a few and leaves out many others who are just as important. There is talk of asking for a change in the route as it is thought that it should be arranged so as to accommodate the most people within the twenty-five miles.

Why are Cashiers Freely.

"What is there in the work of a cashier that makes him so unpleasant? I'd like to know," said a young business man to the New York Sun. "I'm in and out of office all the time and meeting all kinds of men; some are agreeable and others don't leave any kind of an impression, but I never saw a cashier in my life who wasn't a 'frowny' and unpleasant proposition."

"Most of them hand out money to you with the air of doing charity and as though they were giving it out of their own pockets and the kindness of their hearts."

"An air of extreme reluctance and pain in parting with the money is another common characteristic. I have known cashiers who would actually tell a collector to call another day for his money when they had it there in the drawer and there was no earthly reason for delay except the cashier's desire to appear important."

"There is a cashier in a downtown office who is well known for his frostiness. One of his ways is to keep the victim waiting at the little window as long as possible, while he turns over several pages of his books, moves his inkstand, shoves along the blotting pad and goes to the office to speak to his assistant. At last he leisurely comes back and hands you your little envelope with the air of conferring a gift."

"Another man will hand you a receipt or book to sign with the same ghost of a pencil or pen and look mortally offended when you ask for one. There must be some kind of germ in the handling of notes and money that gets into the blood of cashiers. I can't account for their manner any other way."—BX

One Minute Cough Cure For Coughs, Colds and Croup.

Big Day for Rattlesnakes.

One day last week Mr. and Mrs. W. W. Woods, who live in the Pine Grove section established a record for killing rattlesnakes. During the forenoon, while Mr. Woods was working his field he succeeded in killing a good-sized rattlesnake. On returning to the house for dinner he boastfully informed his wife of what he had done. Mrs. Woods immediately informed her husband that he was not in it when it came to killing rattlesnakes, and showed two that she had killed in the chicken stable during his absence. After dinner Mr. Woods' attention was attracted to the barn by the barking of a dog, and upon investigation found another rattlesnake making its way into a hole. Mr. Woods called his wife to watch for the appearance of the snake and he returned to his labor in the field. The good housewife armed with a club and in company with two dogs, began the watch. In a short time the snake crawled out and met his fate at the hands of the wife. This made four snakes for the day, and the last killed was 5 feet 4 inches long.—Elgin (Ore.) Recorder.
