**The Baby Ease Company**  
**Double Their Capacity.**

For sometime past, Mr. T. P. Marshall, proprietor of the Baby Ease Company, has had in contemplation the removal to Macon of the plant for manufacturing the great remedy. The fire, which a few days since destroyed the plant at Holton, Ga., has hastened this determination. The business is at present being carried on in temporary quarters, but Mr. Marshall has already prepared plans for the immediate erection of a splendid structure in Macon for the manufacture of the most phenomenally successful proprietary remedy ever originated. So steadily has the business of this concern grown that it will be necessary to double the former capacity of the company which shows the popularity this great baby medicine has attained.

A careful canvass of Macon shows that out of every 621 families with infants in their homes, 539 are using the world's best baby medicine, Baby Ease. It is interesting to note the vast progress and popularity of this great baby medicine which is based solely on the fact it is "what it is cracked up to be."

A representative of the company left a few days since for St. Louis where he will establish a branch office with the view of introducing this medicine in the country west of the Mississippi river.—Macon News.

In our issue of Friday last contained the first authentic announcement of the candidacy of Judge B. T. Rawlings for reelection to the position he now so ably fills. Judge Rawlings' friends claim that he is entitled to a second term and they will insist on the principle in the forth coming race. He has given entire satisfaction on the bench as far as we have been able to learn, and will have many warm friends to rally to his support. He will be opposed in all probabilities by Hon. F. H. Hon. J. A. Brannen for Congress.

Hon. J. A. Brannen of Statesboro has written letters to friends in Swainsboro stating that he will certainly be in the race for congress. Mr. Brannen, it will be remembered, opposed Mr. Lester last year and was only defeated in the convention, which met at Reidsville, by two votes. Bryan county, Mr. Brannen's old home, only went for Lester by about 15 votes in the primary, and Liberty gave Lester a very small majority. It is now said that conditions in those counties are much more favorable for Mr. Brannen than they were then. Besides the addition of Jenkins and Toombs counties, each of which will have two votes in the congressional convention and both are in the list termed as "country counties," to the first district, gives Mr. Brannen, who is from the country county of Bulloch, an additional advantage in that the new counties are not in the Savannah sphere of influence.

Editor Alf Herrington has been prominently spoken of, but he states that he will not oppose Mr. Brannen. Lonnie Brannen is a great favorite in Tattnall and will carry the county by an overwhelming majority.--Tattnall Journal.

**\$100 REWARD, \$100.**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

## The Statesboro News

(INCORPORATED.)

Statesboro, Ga., Sept. 20, 1905

Published Tuesdays and Fridays by THE STATESBORO NEWS PUBLISHING COMPANY.

Entered at Statesboro Ga., Post Office as second class mail matter.

This Indian summer has put a move on the late crops and will be of vast help to the late cotton, peas, potatoes, etc.

Times have grown hot in Toombs and Jenkins counties. The election for county officers will occur this week, and we notice they have reached the circular stage.

Clark Howell is not speaking yet, but he is getting things down in black and white in fine shape. When the peach trees begin to blossom we predict warm old times in Georgia.

Bosism in politics means more or less graft and corruption. Look at Saint Louis, Philadelphia, and other boss ridden towns, but sooner or later a long suffering people rise up and clean out things.

At any rate it is not likely that we will hear of any more hundred thousand dollar suppers given by the Life Insurance magnates at the expense of the policy holders. Hyde's undoing is a warning.

We have always said that the gold bug-yankie politics was just like the Republicans, and now it has been proven. Even Parker who made the last race for president, and who is better than his kind, says that the out-throats have been running the government.

The name of the next congressman from this district will be BRANNEN.--Tattnall Journal.

Politics Begin to Stir.

The political pot will soon begin to simmer in Bulloch, if it don't then all present signs will fail.

Among the new names mentioned in connection with next year's race are those of Mr. L. O. Atkins and Mr. John G. Jones. Both of these gentlemen will probably be in the race for receiver of tax returns. Both are good men and have strong friends who will give them a loyal support.

Will Put Up Still.

Mr. F. P. Register closed a deal with Mr. Geo. W. Deal of Clito on Saturday whereby Mr. Register obtains a lease of Mr. Deal's timber. A check for the nice little sum of \$1,800.00 is what clinched the deal. Mr. Register will put in a big turpentine distillery at or near Clito.

The Architectural Record recently called attention to the fact that the rise in the price of steel, brick and Portland cement were having the effect of making fireproof houses as cheap as or cheaper than frame.

The American Navy, rightly states the New York World, designed by Americans, is made up of American-built ships, commanded by officers educated in an American naval academy and manned by courageous, everyday Americans.

Oxford men were coarse athletes in the old uncivilized days. But all that is changed. A few men who are not in the right set still swim at games, but the rest, the great majority of men, care far more for the pattern of a waistcoat than the capturing of a century. Education has made great strides since the school days, concludes a writer in the London World.

In an address by Mr. William Hughes, insurance secretary, "The old proverb which says that a creaking door hangs long on its hinges, requires abundant illustration in the numerous cases of confirmed invalids who live to old age, and the number of persons now living who have been rejected or heavily rated up many years ago by insurance companies may no doubt be reckoned by the thousands."

Within three years, at most, practically worthless land, so heavily charged with injurious salts as to be unfit for any form of agriculture, may be reclaimed to grow an ordinary field crop, relates the Scientific American. The method of doing this is simple, and the expense involved is such that the work may in many instances be economically undertaken by individual, corporate, or State initiative. The total expense of reclamation, taking everything into consideration, is but a small fraction of the enhanced value.

Once upon a time it was considered almost improper for a girl to be able to swim. If she should fall into the water it was supposed that Providence would provide a man to pull her out, reflects the London Telegraph. There might, of course, be no man, but it was better to drown than to be unaided. We have advanced. It is no longer unadvisable to be alone in the water. All round the coast today sisters are as keen as the brothers on the morning swim. The public baths find it necessary to give up a day or two a week to ladies. This certainly is all to the good.

The spirit which has prompted Perry to spend years of his life in the lonely wilds of the desolate Far North, and a fourth time to venture for the farthest attainable limit, while of a different degree, requires greater resolution and far more extensive sacrifices, is similar to that which has actuated Sir Thomas Lipton in his persistent struggles for the America's cup; that is to say, it is the "sportsman's" spirit, in the full, most genuine development. Commander Perry is a "game" American all through, avows the Buffalo Courier. May he come back safely, and with the success his indomitable pluck deserves.

It seems that our penal institutions are always in need of expert bookkeepers, says the Commonwealth. Every time we hear of some prominent banker or financier being sent to the penitentiary for dishonesty we hear also a few days later that the prisoner has been put to work as a bookkeeper in the wardens' office. It always happens that the new bookkeeper is a man who plunged to the extent of millions and lived like a prince while he was busy getting away with other people's money. One is compelled to wonder why it seems necessary to have so many bookkeepers at a penitentiary, and why it is that the above described class of prisoners always furnishes the necessary men.

### STATE REUNION CALLED OFF.

General Harrison of Alabama Veterans, 60 Announcements.  
General George P. Harrison, commanding the Alabama division, Confederate veterans, has announced that, without doubt, the state reunion, slated for October 24 and 25 at Huntsville, will be abandoned. The Huntsville camp has asked a postponement, which will mean abandonment, as it could not be held that far north this late October.

## REFUGEES RETURN

New Orleans People Who Fled City Turn Homeward.

### CONFIDENCE IS RESTORED

Belief Prevails That Scourge Will Soon Be Routed—Summary of the Fever Situation at the Various Infected Points.

Increasing crowds on the streets of New Orleans indicate the steady coming home of citizens who went away on their summer vacation or who left the city at a time when it seemed probable there would be a very serious epidemic of the fever.

Practically all fear of the fever has passed, and the influx of natives promises to be uninterrupted from this time forward. The heavy movement of freight of all kinds through the streets also points to the fact that the quarantines are being lifted and that business is increasing.

Notices of modified quarantines are being received daily, and there is little doubt that the scare is passing in the country districts and that normal business will be resumed much earlier than was the case in 1897 and 1898.

The daily report continues encouraging, and is especially so in the matter of the deaths and new foot. Of the new cases, only six are above Canal street, while the deaths are all below Canal street. The official report, up to 6 p. m. Tuesday was as follows:

New cases 24, total cases to date 2,639, deaths Tuesday 4, total deaths 345, under treatment 321, cases discharged to date 1,873.

One new case of yellow fever developed in Pensacola Tuesday, the patient being within the infected district. He had been ill for several days, but it was not until Tuesday night that he was reported upon officially. The summary of the cases to date is: Total cases 44, deaths 3, under treatment 3. No vessels for points up the coast are now allowed to leave the port with freight unless they go into quarantine and remain there for a period of five days.

Two new cases of yellow fever were reported for the day in Natchez, one being that of Postmaster John H. Walworth. The other patient is a colored woman. Eleven cases are under treatment, all being of the same mild type which has characterized the fever since its inception.

Six new cases of yellow fever, the largest day's record since the disease appeared there, were reported in Vicksburg Tuesday. To date there have been forty-one cases and five deaths.

Cash and Securities Found to Agree Exactly With the Books.  
The count of the cash, notes, bonds and other securities in the treasury of the United States incident to the transfer of the office of United States treasurer from William Ellis H. Roberts to Charles H. Treat, was completed at Washington Tuesday. The result was found to agree exactly with the treasury books. The total of July 1, 1905, was found to be \$1,259,559,278.58.

This total is an increase of \$462,672,839.41 over the amount transferred by Mr. D. M. Nelson, the outgoing treasurer, to Mr. Roberts, on July 1, 1897.

### SENSATION BROUGHT OUT

Charge Made That Lawyer Hamilton Has Been Paid Immense Sums by Company to Lobby With New York Legislature.

Political contributions of the New York Life Insurance company and the connection of Andrew Hamilton of Albany, with the alleged political activity of the company, were the points around which the hearing before the legislative insurance investigation, turned Wednesday.

President John A. McCall of the New York Life Insurance company was the chief witness for several hours and he was subjected to a fire of questions by Charles E. Hughes, counsel for the committee, concerning the money paid for political purposes.

That \$235,000 has been paid by the New York Life Insurance Company to Andrew A. Hamilton of Albany, that no accounting for this money has been made except to President McCall verbally and that Hamilton attends sessions of the legislature at Albany in the interest of the New York Life Insurance company, was brought out by testimony given by Mr. McCall before the legislative insurance investigating committee.

Mr. McCall said that the various sums making up the \$235,000 paid to Hamilton had been given him in connection with different real estate deals, but Mr. Hughes, after considerable questioning, developed the fact that none of the money had been paid to Hamilton as such, but that it had been applied to such deals. Mr. McCall also said that Hamilton was not allowed money to influence any member of the legislature, or that he advised such courses. The \$235,000 Mr. McCall said he was sure would be paid by Mr. Hamilton on demand of the New York Life Insurance company.

"If it is not," said Mr. McCall, "I'm responsible and I'll pay it." Hamilton received for legal services, he said, \$100,000 a year from the New York Life Insurance company.

Referring to the \$50,000 contribution made by the New York Life to the republican campaign fund in 1904 and to the attitude of the republican campaign managers, President McCall said:

"My life was made weary by the democratic candidates chasing me for money in this campaign. Some of the very men who today are being interviewed in the papers and denouncing men who contributed to campaigns were crossing my path every step I took looking for money. One of the candidates himself, 'Tilden,' if he would show up his books when he was chairman of the democratic state committee, it would give you a fit. He never rejected a dollar in the world, he would take every dollar that was paid to him."

Referring further to the democratic campaign of 1904, Mr. McCall said:

"Their shadows were across mine every morning. I thank God that Bryan and free silver were beaten and that I had a hard time in their defeat." Applause followed this statement, the demonstration was checked by the chairman, who said he would have no room cleared of spectators if or when was not kept.

In 1902, Mr. McCall said, there was a congressional election by the New York Life Insurance company because both parties had gold platforms. As to the contribution to the republican campaign fund in 1904, Mr. McCall said he did not care how many of the policy holders agreed with his action. He made the contribution honestly, believing it was justified and for the interest of the policy holders.

### FIFTY NEW FEVER CASES.

Report for Wednesday in New Orleans--Authorities Not Discouraged.  
Another increase in the number of new cases of yellow fever in New Orleans was reported Wednesday, but made no impression upon the health authorities, who regard the situation as definitely under control. The cases came with a rush, so that at 1 o'clock thirty-three had been reported, but hereafter until the closing hour the additions were reported slowly until 6 p. m. 60 cases at 6 p. m.

## TO MEET HIGH PRICES

European Cotton Spinners Will Resort to Shorter Time in Mills, Says Delegate Dale.

Governor Stokes of New Jersey opened the New England Cotton Manufacturers' convention at Atlantic City, Wednesday, with a speech of welcome, during which he defended the attitude of the state of New Jersey toward trusts. His remarks were applauded. Responses were made by Robert E. Walsley of New Bedford, Mass., an exponent of the association. President James B. McCall of Pawtucket, R. I., in his annual report said:

"Cotton manufacturing has lagged behind other branches of commerce in the recovery from the depression of 1903. The extreme fluctuations in the price of raw cotton and the consequent disturbance of values and manufactured goods tend to destroy the confidence of buyers and to encourage them to continue an indefinite policy. For the year just closed the total exports of cotton amounted to over forty-five million dollars in comparison with twenty-two million the preceding year. There has also been a growing trade with Japan, the Philippines, India, Cuba and several countries of South America."

The president also said that the Southern Cotton Growers' Association has done excellent work in exposing the dishonesty of officials in the bureau of statistics of the agricultural department. He said estimates of the acreage and condition issued by the government should be both capable and honest.

At Wednesday night's session the speech of Samuel S. Dale on the international congress of cotton spinners was read and excited deep attention. Mr. Dale said the origin of the congress was the temporary scarcity of American cotton last year, which gave speculators an opportunity of cornering with little poor cotton was left on the market. He detailed his enthusiastic welcome to his arrival at Manchester and said the main purpose of the international organization is to prevent a scarcity of raw cotton.

"This, of course, can be accomplished only in one of two ways," he said. "The first is to produce more cotton. The first method, which means short time, although the one plan on which the delegates unquestionably place their main reliance, was conspicuous by its absence from the program and was not made prominent in the discussion. There was, however, no mistaking the spirit of the congress. The members were united and they were in deed determined, their determination to meet high prices for American cotton with organized short time."

"At the discussion of the second method, colonial cotton seemed to be the hope of European cotton millers. The speaker said that the present dependence on the American crop."

"At one session of the congress the baling of cotton came up for discussion, and bitter complaints were made on the way in which American cotton is received in Europe. In this congress, which represented purchasers of American cotton to the value of \$250,000,000 per year, there was not a man who could say one word in favor of American baling."

### REFORMERS PUT OUT TICKET.

## PACKERS PAY FINE

Four Plead Guilty to Conspiracy in Chicago Court.

### HAND IN SUM OF \$25,000

Accepted Rebates from Railroads in Violation of Law--One Almost a Nervous Wreck from Mental Suspense.

Four officials of the Schwarzhild & Sulzberger Packing company of Chicago were fined an aggregate of \$25,000 by Judge Humphrey in the United States district court at Chicago Thursday. The fines followed a plea of guilty to indictments charging conspiracy to accept railroad rebates. The defendants were: Samuel E. Weil of New York, vice president of the company; B. S. Cussey, traffic manager; Vance D. Skipton and Charles E. Todd, assistant traffic managers. Mr. Weil was fined \$10,000, the other three \$5,000 each.

With the entering of the plea, the declaration was made that unless at least one of the cases is immediately settled, the life of Samuel Weil, who is vice president of the company, and is one of the defendants, is in jeopardy. He is said to be a nervous wreck, and fears were entertained for his life if he had been allowed to continue under the strain of a trial.

The plea was entered, it is declared, after a complete understanding had been reached between counsel for the defendants and Attorney General William H. Moody.

While in Chicago, the attorney general was apprised of the condition of Vice President Weil, and it is said, agreed to the entry of a plea of guilty, with the understanding that the jail provision of the law under which the indictment was returned should be waived and merely a fine imposed. The same concession was made in the case of the other three defendants.

The four defendants were charged with unlawfully combining and agreeing to solicit rebates for the Schwarzhild & Sulzberger company from railroad companies. Charges were made that the defendants conspired with each other in presenting supposed claims for damages, which were in reality claims for rebates.

During the sentence the court room was absolutely still, and the defendants were visibly affected. At the last word of the court there was a great stir, a buzz of conversation, and it was necessary for the court clerk to rap for order.

Meanwhile the check for the payment of the fines was quickly made out and the four Schwarzhild & Sulzberger officials stepped out of the court room free men.

### MILLER'S DATES CANCELLED.

Presence of Negroes in His Company Objected to by Southern Citizens.  
Several days ago when P. C. Miller, the noted entertainer, was preparing to leave his Virginia home for Atlanta to appear at the benefit of the First Baptist Church, as the first of a number of entertainments to be given by him in Georgia and South Carolina cities, he was notified that on account of the request of the managers of cities where he was to have appeared all his dates had been cancelled. The reason given for the cancellations was that the patrons of the Alhambra attractions did not wish to go to see an attraction where negroes were to be a part.

While in Atlanta Miller spoke with deep feeling of this action of the Alhambra. The principal part taken by the negroes in his company is the quartet. Mr. Miller stated that he had these negroes along in order to illustrate phases of the life of the southern darky, and that he had never occurred to him that he would offend any one.

### A SPREAD IN PENSACOLA

Six New Cases Developed in Florida City--Situation at Other Infected Localities Improving.

Six new cases of yellow fever developed in Pensacola, Fla., Thursday, showing a gradual increase in the number of cases to develop each day. The cases reported are scattered all over the city, and are not traceable to the original district. Owing to the opposition shown by residents the physicians are having a hard matter to get the fever under control. The total cases to date are 55, deaths 9, discharged 32, under treatment 14.

The record of new cases in New Orleans for Thursday was lower, and the list of deaths and new foot was also, which, following the rather heavy report of Wednesday, is gratifying.

Only nine of the new cases are up town, while four of the new foot cases in that part of the city. Of the deaths, two occurred in the emergency hospital.

The country situation shows no material change. Two positive cases of yellow fever were diagnosed at Gross Two, in Ilwaco parish, Bunkie and Bayou Dula also turned up with one case each. They are almost in the same neighborhood.

An autopsy was held on the case of suspicious fever reported at River View in Vernon parish, and it was proven no yellow fever.

Other country reports were: Kenner--Five new cases. St. Bernard--Three cases. Tallahassee--Six new cases. Gross Two--Two cases. Bunkie--One new case. Bayou Dula--One case. Alexandria--Two new cases. Patterson--Sixteen new cases, one death.

The Mississippi yellow fever summary for the 24 hours ending at 6 p. m., Thursday, was as follows: Natchez--three new cases, one death, one new focus. Vicksburg--three new cases, no deaths, 44 cases to date. Hamburg--one suspicious case, no deaths.

No new cases reported from any point on the Gulf coast.

### ROOSEVELT AND CORTLEYOU

Given Cheers at Suggestion of Two Southern Delegates.

Three cheers for President Roosevelt were proposed by Paul L. Lindsay of Georgia, vice president, and a candidate for the presidency of the Rural Carriers' Association, in session at Indianapolis, Thursday. "I come from a southern state, which has never given any other way except democratic," exclaimed Lindsay at the conclusion of an eloquent speech, "but I want to give three ringing cheers for President Roosevelt, the greatest president we ever had." As soon as the cheers for President Roosevelt had died away, A. J. Brown, of Alabama, proposed "three cheers for Cortleyou, our next president, and again the delegates arose as one man."

### ALBERS IS FOUND GUILTY.

American Convicted of Resisting Nicaraguan Officers.  
The state department is informed that the Nicaraguan court, in session at Ocotlán, has convicted William B. Albers, the American resident agent at Jalapa, of the Port Limon Conspiracy on the charge of resisting legal process and insulting President Zelaya. Sentence has not yet been imposed, however.

While it is believed in Washington that Mr. Albers may have been indiscreet in forcibly resisting the Nicaraguan officials, a diplomatic inquiry will be made into the entry upon his premises of these officers to test the correctness of his claim that the intrusion was unwarranted and illegal.

#### For Congress—J. A. Brannen

Editor Tattnel Journal: Your favor asking if I will be a candidate for Congress received. Yes, I expect to make the race, and expect to win. Having come so near winning before, my friends generally think I ought to run this time. As you know I lost Bryan by only about twenty votes, and Liberty by about 150. The big counties of Tattnel, Bulloch, Emanuel and Screven all gave me good majorities before, and now we have two new counties in our section, Toombs and Jenkins. I shall never forget old Tattnel for her loyal support in the last campaign, and I appreciate your statement that this good county will stand by me again. With best wishes, I am, Your Friend J. A. Brannen.

From the above it will be seen that C. B. Brannen will be a candidate for Congress, and this decision on the part of Mr. Brannen will be hailed with delight by his host of friends, not only in Tattnel, but the entire district.

#### Will Not Oppose Brannen

The Journal has it from good source that if Lonnie Brannen is a candidate that Hon. Chas. G. Edwards will not oppose him, but will give him his active support. Edwards has stated all along that he would not be in the race against any good, strong man, from the country-counties, but on the contrary he expected to support the candidates from the country-counties, who ever he might be, and in this he is sincere.

Edwards has had strong pressure brought to bear on him to get him in the race, and indeed he would make a formidable candidate, as he is well and favorably known throughout the entire district and he is a young man of sterling worth and rare ability and would make a strong figure in the National Hall.

If other aspirants from the "country persuasion" will do like Edwards and leave the field open to Brannen he will literally clean up the willows with any man that the Savannah "gang" can put forth.

The Journal is heart and soul in line for the interest of our people, and we are very strongly of the opinion that Savannah has had the "job," as politicians would put it, quite long enough and that the next election will see Brannen victor.

The Journal also has it from headquarters that Brannen will undoubtedly be in the race, which means that the Hon. Lonnie Brannen, who sprang from the plow-handles of a Georgia farm to the great big statesman that he is, will be our next Congressman. One great thing that can be truthfully said about Brannen is that he is absolutely "safe" and that is what we want in this day and time, a safe man to legislate for us.

## THE BIG FARMERS MEETING

Hon. Harvie Jordan and Others to Discuss Matters of Importance to the Farmers of the County

Savannah & Statesboro Railroad Has Offered a Rate of One Fare for the Round Trip.

Tomorrow will be a big day in Statesboro. Hon. Harvie Jordan, the man whose work has saved the farmers of the south several million dollars during the past few months, and whose work today is putting money into their pockets, will be here to make a speech to the farmers of the county. There will be others here to talk on other subjects than cotton, among whom will be, perhaps, Hon. W. J. Brantly, congressman from the Eleventh district.

Mr. Brantly's record in congress is that he has stood up to the great sea island cotton growing interest of Georgia, Florida and South Carolina. He has the honor of obtaining more recognition for the farmers of his district than has any other from the state.

Every farmer in the county ought to be here. He will learn something that will be of interest to you.

Mr. P. R. McElveen, president of the Bulloch county branch of the Southern Cotton Growers Association, will preside over the deliberations of the meeting. There will probably be a large crowd out.

The following letter from Mr. Jordan explains itself:

Atlanta, Ga., Sept. 25, 1905.  
Mr. J. R. Miller,  
Statesboro, Ga.

Dear Sir: I have your favor of the 20th inst., and note that your people think it would be best at this time to hold only a one-day session. This is quite satisfactory to me, and I will come down with my assistants on Saturday, the 30th.

Trusting that you will have an excellent gathering, and with best wishes, I beg to remain

Yours very truly,  
Harvie Jordan,  
Director.

We have the best ginners for sea island cotton and do good work. Bring us your cotton. Bulloch Oil Mills.

We buy remnants of seed cotton. Bulloch Oil Mills.

Put in Skating Rink. Mr. C. M. Cumming announces that he has ready, a first-class skating rink, located at the armory on South Main street. He has there ample space for the conducting of an enterprise of this kind and will be ready for business as soon as his skates arrive, which he is looking for every day.

#### Fire Department Organized.

Statesboro fire department was organized at the court house Tuesday evening, Sept. 20, with the following members:

W. D. Davis, chief; W. B. Moore, first assistant; B. P. Maull, second assistant. Members: W. M. Hagline, W. M. Proctor, D. B. Turner, W. G. Jones, M. L. Glasgow, D. Barnes, Ed Cartledge, J. W. Forbes, Morgan Waters, J. H. Donaldson.

W. B. Moore was elected secretary and authorized to purchase a minute book for the fire company at city's expense.

Fire company to be known as Hose Company No. 1 until name taken away by more effective company.

Company required to practice one and one half hours twice a month, to wit: First and third Tuesday in each month, or such time as may be fixed by the chief.

Members required to be at the court house at practice hours, and to receive 50 cents each, if on time and do the required practice.

On fire occasions, first man at hose house to receive \$1.00 extra, and each man doing duty at fire to the satisfaction of chief, to receive \$1.00.

Hon. G. S. Johnston, Presiding.

The new company is made up of good men who can be depended upon to do their full duty when the flames threaten any building in our city. This is a good step that has not been taken too soon.

Mr. W. D. Davis will make an ideal chief, being cool and possessing of a steady nerve under all circumstances. Mr. W. B. Moore, his assistant chief, served twelve years on the Rome Georgia Volunteers Fire Department, and it was this that induced the city authorities to ask him to assist in the organization of the Statesboro Volunteer Fire Department.

Mr. W. G. Jones has also seen service in fighting fire. Mr. B. P. Maull, too, has some experience along this line.

#### Notice Farmers

#### Killed His Wife

Over at Register last Saturday night, Allen Walker and his wife gave an ice cream supper, and soon after the negroes got to frolic and stepping high, Allen decided that his wife was growing too gay, picked up his handy Winchester and blew a light hole through her. The result is the wife has gone to join the angels and Allen is languishing behind the bars of the Bulloch county jail charged with murder.

The murderer made little or no attempt to escape, so we are informed, and when Sheriff Kendrick went over Sunday morning he had little difficulty in putting his hands upon me.

#### New Firm at Brooklet.

By reference to our advertising columns will be seen that the young city of Brooklet has a new firm in the name of the Brooklet Trading Company. Messrs. Wayne Parish, D. L. Alderman, R. W. Rustin and C. B. Griner are the incorporators of the new firm. They are all good men and we see no reason why they should not make a strong firm.

#### Purchased a Fine Horse.

The Statesboro Huggy & Wagon Company have just purchased one of the prettiest tussler horses ever seen in a city this size. They are equipped with a full line of coffins, caskets and burial goods of all descriptions, and with a good pair of horses can take care of your loved ones in case of death, should it visit your home.
