## The Statesboro News

(INCORPORATED.)

Statesboro, Ga., Oct. 17, 1905

Published Tuesdays and Fridays by THE STATESBORO NEWS PUBLISHING COMPANY.

Entered at Statesboro, Ga., Post Office as second class mail matter.

The name of Hon. Spencer R. Atkinson is being prominently mentioned for the office of chief justice of the supreme court. In fact the people of the Brunswick circuit are demanding that he become a candidate. They say that there is not a lawyer on the supreme bench from the first, second or eleventh congressional districts; that a lawyer who is familiar with the laws having peculiar application to the people of these districts should be upon the supreme bench, is fully realized, and we are satisfied that no fitter man than Judge Atkinson could be found. He possesses judicial ability of the highest order. Such a man is needed for chief justice and the people will add to the strength as well as the usefulness of that great court by electing him. He should answer the call of his people and become a candidate.

### OVERSTREET DISCUSSES POLITICS.

(Atlanta Journal.)

Hon. E. K. Overstreet, member of the house of representatives from Screven county, spent yesterday in Atlanta and returned to Statesboro last night. He came up to argue a case before the supreme court, but during his visit to the capitol called upon a number of state officials, to pay his respects. Mr. Overstreet is much interested in the election of a congressman from the first district to succeed Hon. R. E. Lester, who, he says, will not be a candidate for re-election.

"Hon. J. A. Brannen of Statesboro, Bulloch county," said Mr. Overstreet, "is squarely in the race for congress, and will be elected, or I miss my guess. He is one of the strongest men in the district, and will have the support of many strong and influential citizens. He is popular with the people and is well qualified to serve the district in congress as an able representative."

"Colonel Lester, I understand, will not be a candidate to succeed himself, and I believe Mr. Brannen will have easy sailing all the way, though opposition is, of course, liable to spring up at any time. The primary, however, is a long way off, and Mr. Brannen proposes to make a thorough canvass."

### Nothen to Fear

Mothers need have no hesitancy in continuing to give Chamberlain's Cough Remedy to their little ones, as it contains absolutely nothing injurious. This remedy is not only perfectly safe to give small children, but is a medicine of great worth and merit. It has a world wide reputation for its cures of coughs, and colds and croup and can always be relied upon. For sale by All Druggists.

### In Memoriam

Resolutions adopted by Bethel Baptist church Sept. 10, 1905.  
The Lord in his all wise providence has seen fit to take from us our beloved brother and deacon, John Campbell, who died at his home near Statesboro, August 17, 1905. His remains were laid to rest in Friendship cemetery.

Brother Campbell was born in Bulloch county, Georgia. When young united himself with Friendship Baptist church, in which he lived a constant member. He was married to Miss Caroline Smith, of this county, Jan. 22, 1879, and eight affectionate children were given them to brighten their home. During his life he was always ready to contribute to the support and cause of Christ. He was a faithful worker in the Sunday school cause, and will be greatly missed by the Bethel Sunday school. In his last sickness he gave many assurances of his acceptance with God. He would whisper to his wife and say, "I want God's will to be done." Though he suffered many days he never murmured, but bore it all with perfect christian fortitude.

Truthfully it can be said of Brother Campbell:

"I love thy church of God  
For her my tears shall fall,  
For her my prayers ascend,  
To her my toils and cares be given,  
'Till toils and cares shall end."

### Wounds, Bruises and Burns.

By applying an antiseptic dressing to wounds, bruises, burns and skin injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soothes and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by All Druggists.

The big California airship will be one of the attractions at the Georgia Farmers' Fair at Macon. This airship sails like a bird over the city, completely under the control of the little man, who sits on a slender framework below. It is one of the marvels of the age.

### Do You Want Strength.

If you want to increase your strength you must add to and not take from the physical. In other words, the food that you eat must be digested, assimilated and appropriated by the nerves, blood, and tissues before being expelled from the intestines. Kodol Dyspepsia Cure adds to the physical. It gives strength to and builds up strength in the human system. It is pleasant to the taste and palatable, and the only combination of digestants that will digest the food and enable the system to appropriate all of its health and strength-giving qualities. Sold by W. H. Ellis.

The premiums offered for the best five bushels of the various grains and cereals, by the Georgia Farmers' Fair at Macon, will bring such a display as will show Georgia's prosperity, and the possibility of soil as will gladden the heart of every farmer, and make every Georgian feel proud of his state.

### Wanted No Bail.

Macon, Oct. 18.—United States Marshal George White stated today that Greene and Gaylor would make no application for bail. He said he learned this from conversations with both men before they were placed in Chatham county jail. There has been no expression as to when they will be tried, but they will not desire to leave prison on bail again.

Marshal White has just left the sick room, where he has been since his return from Canada, and desired to refute statements made public that Greene had used oaths frequently on his return to Georgia when newspaper men came for interviews and photographs. He said both men had conducted themselves as gentlemen.

### Full Of Tragic meaning.

are these lines from J. H. Simmons, of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough, that disturbed my night's rest. I tried everything, but nothing would relieve it until I took Dr. King's New Discovery for Consumption, Coughs and Colds which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and Pneumonia. At W. H. Ellis, druggist; guaranteed; 50c and \$1.00. Try bottle free.

The Constitution made a mistake in its write up of the Bulloch county exhibit. It made it read that the county was named after Gov. Bulloch. It was General Archibald Bulloch of the revolutionary fame that our county was named for. The Constitution has been kind enough to correct the error.

### Faith Not Necessary.

You may be just as skeptical and pessimistic as you please. Kodol will digest what you eat whether you eat or not. You can put your food in a bowl, pour a little Kodol Dyspepsia Cure on it and it will digest it the same as it will in your stomach. It can't help but cure indigestion and Dyspepsia. It is curing hundreds and thousands—some had faith and some didn't. Kodol will cure you if medicine can cure you, whether you have faith in it or not. Sold by W. H. Ellis.

## THE NEWS.

Published at Statesboro, Ga.,  
TUESDAYS AND FRIDAYS.

By The Statesboro News Publishing Co.

Great man, the Mikado, declares the Louisville Herald. He has nine wives and the world never hears of any of them.

Any fool can start a war, but wise men are needed when it comes to deciding on the indemnity, declares the Chicago Record-Herald.

Parents who strive to make home life attractive will not, as a rule, need to depend upon curfew laws, admonishes the Philadelphia Bulletin.

The world should surely be good while it has two such persistent preachers as the Kaiser and the President, thinks the St. Louis Post-Dispatch.

Admiral Charles Edgar Clark has gone on the retired list, but the man who sailed the Oregon 14,000 miles and helped to smash Cervera's fleet will not be forgotten.

A writer on "things of interest to women" advises them not to cultivate "the habit of old age." By consulting census enumerators the writer would have found that he was giving superfluous advice, remarks the New York Tribune.

One hundred views applying on the same day in a New York Police Court for warrants on the ground of desertion will supply pessimists, at least, with an answer to the question, "Is marriage a failure?" reflects the Boston Transcript.

The verity of the familiar dictum Similia similibus curantur is being practically demonstrated by a New York dentist who has installed an automatic piano to reel off ragtime to the accompaniment of his murderous buzzer. He finds that his patients forget their molars and think only of wrecking the piano, relates the Boston Transcript.

The farmer who loves his calling can see beauty in all things pertaining to rural life—and as a rule a good profit in addition, says the New York Weekly Witness. But the one who regrets that it ever became his lot to lead the life of a farmer can see neither beauty, cash receipts or anything of that kind. His vision has a range about as far as the mortgage and then stops.

A man who is poor but bent on becoming rich is much more likely to be money-mad than a man who has an independent fortune, only he shows it in a different way, avers the Chicago Chronicle. A man of large fortune who is money-mad shows it by his continued activity in money making. The poor man who is money-mad shows it by envying and hating those who are more successful.

Our newspapers might be much better; they could easily be made more to the taste of the people at large, but their unwelcome crime of being disagreeable as it is, is an exceedingly important public duty, and in their faithfulness and persistent fortitude in keeping it up lies really the biggest part of our hope of a higher standard of honesty in public and private life. There is hope for any kind of recalcitrancy as long as it can be kept out of the papers, concludes Harper's Weekly.

Foreign landlordism is reaching out its tentacles in the direction of America, asserts the New York Press. A syndicate headed by the Earl of Verulam and the Earl of Lankerville owns a vast tract of land in Wisconsin. Alexander Grant of London has 35,000 acres in Kansas. The English Land company owns 50,000 acres in Arkansas. Mr. Elfenhausen of Halifax has 600,000 in West Virginia. In Scotch concerns, syndicate No. 1, bought 50,000 acres in Florida. The Holland syndicate owns 5,000,000 acres of grazing lands in the west, and the German syndicate 2,000,000.

Nine percent of the married women of the United States work for wages apart from the performance of their household duties. Twenty-three percent add to the household income by taking boarders. More than one family in five have children at work. More than twenty percent of the earnings of the average American family come from the labor of wife and children, if the report of the United States Bureau of Labor is to be given credence. Marriage is becoming more and more a commercial partnership where the man and wife pool their earnings until divorce does part them.

## BIG THEFT BY CLERK

Employee of Adams Express  
Swipes \$100,000.

### A PITTSBURGH SENSATION

Stuff Was in Large Bills in One Package and Was Consigned to a Cincinnati Bank—Company Issues Statement.

The startling discovery was made in Pittsburgh, Pa., Tuesday that the Adams Express company had been victimized to the extent of \$100,000, supposedly through the peculation of an employee.

The following official statement of the affair is given for publication: "At 4:15 p. m. Monday, October 9, a bank of Pittsburgh, Pa., delivery to the Adams Express company at their offices at 610 Wood street, Pittsburgh, a package of currency containing \$100,000. Of this amount, \$30,000 was in \$100 bills, \$10,000 in \$50 bills and the remainder, \$10,000, in \$5, \$10 and \$20 bills.

"The \$100 and \$50 bills, issue of the Farmers' Deposit National Bank of Pittsburgh and the Bank of Pittsburgh, N. A., were in the main entirely new, some had been slightly used. The \$5, \$10 and \$20 bills were old currency. The package containing this large sum of money was consigned to a bank in Cincinnati, Ohio.

"This package was received and receipted for by Edward George Cunniff, who was then acting in the place of the regular money clerk, who was ill.

"Cunniff left the office at the usual time last evening and this morning when he failed to report for duty, a hurried examination was made of his department, and it was learned that about \$100,000 of funds entrusted to him were missing. General Agent Hines of the Adams Express company, immediately called in detectives and placed the matter in their hands.

Later developments brought to light the fact that in addition to the \$100,000 missing, the bank package containing the \$100,000 had not been received at the money forwarding office at the union station, this city.

"Inquiries made at his residence, No. 214 Locust street, West End, Pittsburgh, showed that Cunniff arrived home at the customary time last evening, and after changing his clothes, bade his family goodnight, saying to his wife that he was going out for the evening, and nothing further has been heard from him.

A warrant has been issued charging Cunniff with larceny.

### CAN'T WAIT ON ROOT.

United States Supreme Court Turns Down Secretary of State.

A Washington special says: That the supreme court of the United States cannot stop in the due course of business even to give ear to the secretary of state, was announced Tuesday in connection with the case of E. H. Wimbush vs. Henry Jamison, colored.

The case is on the docket for early hearing, and Attorney Alexander Ackerman, representing Jamison, made a plea for postponement of the hearing for a month, saying that Mr. Root had been employed as counsel, but that his public duties are such that he could not give immediate attention to the matter.

The chief justice said that a postponement of a week might be granted, but not more. "Greatly pleased though the court would be to accommodate Mr. Root, the business must go on," it was then decided to proceed without Mr. Root. Mr. Ackerman appearing for Jamison and Attorney Minter Wimbush for Wimbush.

The case is known as the Georgia chain gang case, and involves the state authorizing the recorder of the city of Macon to sentence offenders against the city ordinances to labor on the public works.

Jamison, who was sentenced to such work, took his case to the United States district court, and Judge Emory Speer released him on the ground that the "punishment was infamous and contrary to the constitution of the United States."

CHICAGO NEGRO RUNS AMUCK.

Killed Policeman, a Colored Woman and Wounded Another Man.

At Chicago, Tuesday night, Robert Newcome, colored, ran amuck and before he was finally captured by the police he had killed one policeman and a negro woman and fatally injured another man.

Newcome went to the home of Florence Force, colored, and during a quarrel shot her, killing her instantly. Robert Snow, also colored, who went to the assistance of the Force woman, was shot by Newcome and fatally injured.

## KILLED IN MUTINY

Five Officers of a Schooner  
Killed by Three Negroes.

### MURDERERS IN CHAINS

Vessel Put in at Southport, N. C., in Charge of Prize Crew—Dreadful Quarrel Arose Over Breakfast Coffee.

The schooner Blanche H. King, Capt. J. W. Taylor, Brunswick, Ga., under 23, for Philadelphia, put in at Southport, N. C., Wednesday afternoon, bringing in from three negroes, at remained of the crew of the schooner Harry A. Barrett, Capt. Russell, from Mobile, Ala., 23, for Philadelphia, the 24, mate, cook and an engineer and the holding aboard having been murdered in a mutiny at sea and their bodies thrown overboard.

The body of a fourth negro of the crew was found lying on deck, where he, too, had evidently been murdered. Captain Taylor of the schooner sighted the Berwind early Wednesday morning, about 20 miles off Cape Fear bar and was attracted to her by the manner in which she was being steered, having several times come close to running down the King.

A near approach to the Berwind showed that she had been practically abandoned. Captain Taylor and crew boarded the vessel and placed the three negroes in irons, bringing the two vessels off the bar, when one of them was towed in by Wilmington tugboats, which later went out after the other schooner, a gale prevailing on the outside.

The Berwind being from a territory against which Southport is quarantined for yellow fever, the three negroes in irons are held at quarantine until arrangements can be made for their removal by the federal authorities. It develops from the stories of the negroes brought in irons by the King that the mutiny arose as the result of a quarrel aboard ship early Tuesday morning, about some coffee that was being brewed for breakfast.

The King was signaled by the Berwind 30 miles east of Frying Pan lightship and in response to a signal Captain Taylor sent his mate, the engineer and others to board the Berwind. The decks of the schooner were crimson with blood, giving evidence of a fierce encounter. The berth of the mate was spotted with blood, indicating that he was butchered in bed.

After the boarding party from the King handcuffed the mutineers on the ship one of the negroes complained that the irons were too tight and hurt him. When one of the boarding crew loosened the bracelet on the negro's arm, the captive whipped out a pistol and shot one of his crew. The presumption being that the man killed had signaled the King against the wishes of the three others.

The total list of killed is four whites and one negro, the names of none of whom can be learned. The King left a prize crew aboard the Berwind, which is still off the bar, and United States Commissioner F. Collier and Deputy Marshal C. O. Cox will take charge of the captives.

### NEGRO VETERAN PASSES AWAY.

Amos Rucker, who died at his home in Atlanta, a faithful and patriotic old antebellum colored man, died in Atlanta Wednesday. Possibly no negro was more widely known and more warmly esteemed, especially by the remaining forces of the old Confederate veteran heroes.

He did service during the civil war in the Thirty-third Georgia regiment, and since the war has been living in Atlanta. There has never been a Confederate reunion to which he did not go, no matter how far the distance.

### CHARGE AGAINST CIRCUIT JUDGE

Forced Postoffice Employees to "Donate" to Campaign Fund.

The charge of soliciting and accepting campaign contributions in the campaign of 1902, made against United States Circuit Judge Baker of Indiana by the civil service commission has been referred to the department of justice by the commission. The commission gave out an official statement of the case in which it was said: "The statute of limitation is the only defense which can be opposed to the charge."

### MRS. ROOSEVELT'S ITINERARY.

Will Turn Back at Newell Instead of Atlanta as Reported.

A Washington dispatch says: Mrs. Roosevelt will accompany the president on his southern trip as far as Newell, Ga. Roosevelt will be the third stop on the trip, being reached on Friday, the 20th. From this station Mrs. Roosevelt will return to Washington by train.

## FARMERS' UNION MEETS

Convention Held in Atlanta With a Large Attendance of Delegates. Proceedings Interesting.

The convention of the Georgia division of the Farmers' Union was formally called to order in the hall of the house of representatives in the state capital, Atlanta, Wednesday morning at 10 o'clock by President C. S. Barrett of Thomaston.

Immediately after the convention was formally opened President Barrett introduced State Senator J. C. Venable, who offered up a short but fervent prayer that God might guide the rulers of the convention and enlighten them as to their duty on every point.

After prayer the secretary-treasurer of the Farmers' Union, R. F. Duckworth of Thomaston read his report, showing what amounts had been received and the nature of the disbursements.

When this report was finished President Barrett, who also acts as state business agent of the Farmers' Union, read his report. The organization was growing, literally, by leaps and bounds.

General discussion followed, and after the members had finished complaining both Mr. Barrett and Mr. Duckworth the main feature of interest was presented. This was the reading of Mr. Barrett's address as president of the union. When Mr. Barrett had concluded, there was some mighty cheering done by the 400 or 500 delegates present.

Members of the convention then got right down to bedrock business, and various committees were appointed. The committee on fertilizers was first to report. This committee decided to fix the minimum price of cotton seed at \$20 a ton.

The committee on fertilizers also passed a resolution asking all farmers, members of the union, to manufacture their own fertilizers at home. It is argued that the farmers can do this very readily by merely purchasing the materials and mixing them with special machinery, which is inexpensive and easy to use for mixing the chemicals as those used by the guano factories.

The night session was interesting and fruitful of good in the way of concrete work.

### MINE WORKERS ENJOINED.

Judge Clarke Grants Permanent Injunction Against Union.

Judge C. D. Clarke of the United States district court in Chattanooga has granted a permanent injunction against the United Mine Workers of America and individual members of the order. The injunction was granted in a suit brought by the Tennessee Consolidated Coal Company, following the murder of miners at Tracy City.

### TWENTY-FOUR NEW CASES.

Wednesday's Yellow Fever Record in Pensacola—More Money Wanted.

The yellow fever summary for Pensacola for Wednesday was as follows: New cases 24, total cases 231, deaths none, total deaths 45, discharged 121, under treatment 165. An effort is being made by the city to get the state board to appropriate \$4,000 with which to fight the disease.

### PROMINENT NEGRO A CONVICT.

Ex-Congressman Murray of South Carolina Must Serve Term.

George W. Murray, colored, a former member of congress, was sentenced at Columbia, S. C., Wednesday, to serve three years in the penitentiary for forgery. Murray, who is reported to be quite wealthy, was charged with forging the name of an old negro on certain notes for land. At the time of his arrest Murray was released on \$5,000 bond, which it is thought will be forfeited.

### FOUR HUNDRED DEATHS TO DATE

## TAFT WHOLE THING

Secretary of War to Be Absolute Boss of Canal Work.

### WILL NOT BE HAMPERED

Says if Responsibility Rests on Him He Must Have Free Hand—Will Report Only to President Roosevelt.

A Washington special says: Secretary Taft will sail on a naval vessel from New Orleans for Panama about November 1. It is not his intention to remain very long on the isthmus, his main object being to talk with Governor Magdon and Engineer Stevens and to look over the situation as it now exists in the way of construction and preparation.

At the conference with the resident engineer when it was decided to leave the administration of the canal in the war department, Secretary Taft made it plain that if he was to have the responsibility for the canal he would be supreme in its management, and there would be no intermediary between himself and the president.

The secretary will take absolute charge of all the important business transactions regarding the canal, and its management, operating through the isthmian commission.

A dispatch from Colon says: The members of the advisory board of the consulting engineers of the Panama canal devoted the whole of Monday to an examination of the Emperio-Culebra cut, going over the ground and inspecting the dumps and the work already accomplished and now in progress.

The party of engineers, at the same time, went to Panama to re-examine matters at the Pacific terminus of the canal. Later in the afternoon the party went to the canal offices at Panama, where they examined the canal papers, charts and plans, more especially those bearing on the localities recently visited.

All the visitors are in good health except that they have been annoyed by the bites of grass lice.

### HOW SOUTH'S COTTON IS USED.

Census Bureau Shows Production and Distribution of Staple.

The census bureau at Washington Monday issued a bulletin showing the production and distribution of the staple of the United States available between September 1, 1901, and September 1, 1902, to be 14,455,994 bales. Of this the surplus was 1,305,309. Of the total 13,632,279 bales were included in the crop of 1901 and the remainder in that of 1902. Of the quantity consumed in the United States 2,138,829 bales were used in northern and 2,101,151 in southern mills.

In addition to the totals, 14,469 bales of foreign cotton were imported into the United States during the year.

### MRS. ROOSEVELT WITH PARTY.

President's Wife Will Accompany Him as Far as Atlanta.

A letter from Secretary Loeb to the North Carolina state fair authorities at Raleigh says that in the party with President Roosevelt on his visit to Raleigh, on October 19, and on his southern trip will be Mrs. Roosevelt and maid, Secretary Loeb, Surgeon General Rixey, H. C. Latta, John L. McDrew, John McHenry, John L. Greenway, L. S. Brown, representatives of three press associations, one photographer, two secret service men and two messengers. Mrs. Roosevelt will accompany the party as far as Atlanta.

### FOOD CONTRACT ANNULLED.

Panama Canal Commission Turns Down Market & Co.

The last action of the Panama canal commission, before sailing from Colon to New York, Wednesday, was the annulment of the contract awarded to J. E. Markel of Omaha, Neb., for feeding and caring for the employees of the canal.

The reason for the action is that Chief Engineer Stevens is handling the commissaries successfully, rendering unnecessary the arrangement with Mr. Markel.

### ALABAMA CROP IS SHORT.

So Reports President of State Cotton Growers' Association.

In a report Monday of the cotton crop conditions in the state up to October 1, President W. H. Boyce of the State Cotton Growers' Association of Alabama shows that the condition as compared to last year is 67.3 per cent, that is counting last year's crop as 100. On his estimate the crop of the year will be 975,565, compared to over a million last year.

## CAMPAIGNS AND LUNCHEONS

Drew \$162,000 from Coffers of Mutual Life—High Officials of Company on the Witness Stand.

The sessions of the insurance investigating committee in New York were terminated for the week at the adjournment Tuesday, because of the death of Fred Nixon, speaker of the assembly of the legislature of New York, and his home in Westfield. The day's testimony did not elicit any information of a sensational nature beyond what had been discounted in the testimony of previous witnesses. The feature was the presence as witnesses of the executive officers of the Mutual Life insurance company. These were President Richard A. McCurdy and Vice Presidents Grannis and Gillette.

While it had been hinted last week that some expenditures charged to legal expenses might have been contributions to campaign committees, it was announced definitely by Dr. Gillette that the Mutual Life contributed \$100,000 to the republican national committee last year; that in 1900 \$35,000 was contributed and in 1896 \$15,000 was given for campaign purposes.

Dr. Gillette testified that he paid these amounts personally in cash, and later in the day Mr. McCurdy said that while he knew campaign contributions had been made, he did not know the amounts. He said that no contributions had been made to the campaign committees before 1896.

Vice President Grannis knew little about the contributions to campaign funds, but justified them on the same ground as President John A. McMurphy, the free silver plan in the democratic platform was a menace to the interests of the policy holders.

In taking up a detailed list of the company's expenses, Dr. Gillette said that the company last year paid \$72,000 for lunches for the employees. It is a custom with the company to furnish their clerks with luncheon. This was at the rate of about \$250 a day.

President McCurdy was on the stand all the afternoon session. Mr. McCurdy testified that he never knew what Mr. Thebaud, his son-in-law, was getting out of the business of C. H. Raymond & Co., and said he did not think it was any of his business to ask about Mr. Thebaud's personal affairs. He said the company did the business to get in commissions and that was all he knew.

All contracts were made without his knowledge. Witness said on the matter of salaries that he never requested that his salary be raised, and all such increases he took as a concession to his management of the business. They were always made by the committee on salaries of their own volition.

Toward the close of the session Mr. McCurdy made the startling statement that an insurance company was not an institution founded to make money for the policy holders, but was, or should be, a great philanthropic enterprise, founded to increase and spread its benefits over the entire earth.

"There has been a great mistake made," he said, "about the real provision of life insurance companies in these latter years. People have been led to believe that the main purpose was to make money for its policy holders. In my view that is not the purpose of such companies. They are eleemosynary. When one is insured in a company he should take into consideration the fact that he has entered a great philanthropic concern that is in duty bound to spread itself, even though this growth prevents him from realizing as much as he expected."

## Bullochs Fine Exhibit

(Continued from Page One.)

of built it out of my head." Which in turn also proves that modesty is one of the largest crops to be found in the county which he represents, being the oldest living citizen of Statesboro, a fact of which he is very proud.

GREAT STRIDE OF STATESBORO  
When Mr. Miller first arrived in Statesboro it was nothing more than a cross-roads, quietly continuing its long sleep of a century. Today this capital of the county named after Governor Bulloch boasts 4,000 souls and a prosperity made possible by both the enterprise and the energy of its citizens and exceptional fertility and marvelous resources, due to the special kindness and generosity of the Creator. But again, the exhibit tells this story in a way that all who run may read.

Mountains cats appear to be another product of Bulloch, the same kind that lures President Roosevelt to the west in his search for the mountain lions of the Rockies. But this tremendous specimen is that of a stray mountain lion, the first and only one that has been captured in this state this long, long time.

The mountain lions left Georgia with the Indians and according to many, this is the only Georgia mountain lion still remaining in the state. It is perfectly safe being caged in a sort of log cabin made of eight varieties of sugar cane except that the top of this cabin has a pagoda-like appearance that suggests the Oriental rather than the Georgia type of architecture.

### VERSATILITY OF THE SOIL.

Just notice these: 100 varieties of hay, fifty varieties of wheat, as many of oats, sirups that appear as sweet as the memories of a first love affair; twelve varieties of sweet potatoes, some large and some small and all of the tempting things that appeal to and make valuable live stock in making them strong for work or fat for the market, varieties of hemp, that grows on the earth, in the air or the water under the earth, world without end, in Bulloch county, amen.

And no intention of sacrifice at that.

Vegetables from Chinese cabbage to common field peas and back again, they are all included. Turnips bigger than our imagination can paint them; 40-pound watermelons that make visitors long for cutting them, pumpkins for unbacked pies that make visitors talk about Thanksgiving day next month and everything else you can think of and can't think of. It's just the same way with fruits, from persimmons to the most luscious of peaches, pears, apples and everything else. It would take a book bigger than a seed catalogue to tell separately of the good things exhibited in Bulloch.

But while Mr. Miller has so many good things in his display, there are others still better. These are the kind that come in jars and under the direct supervision of Mrs. Miller and Miss Mae Morgan who are just as enthusiastic in their way as are the men folks connected with the exhibit and who have worked so hard for its success. These include 500 bottles of home-made wine in fifty varieties. Wouldn't that make a signed pledge thirsty? And also some 2,000 jars of preserves, jams, pickles, jellies, meat sauces and everything known to the goodly housewife who finds her highest and best development in satisfying the biggest and most appreciative appetites that grow in Georgia. It's impossible to go into details. Just the labels are enough to make a trustee want to break the commandment that deals with the sin of stealing. And Presi-

dent Roosevelt will see them all, for he has accepted an invitation to inspect Bulloch county's displays.

Yesterday thousands thronged the big exhibit. Many were from Bulloch county. These left no doubt about this matter for they told each other the fact in tones so loud that all those who passed by could hear. And the citizens of Bulloch looked much like the products displayed, larger than the average, prosperous and happy and healthy. All stopped to congratulate "Neighbor Miller" and tell him he was sure of the prize, but more than that, he had done more for his county than any one could ever appreciate except those who knew something of the tremendous work and expense involved.

But after everything is said and done there are better qualities displayed in this exhibit than those mentioned, although they are not entered for prizes and would be the very last to recognize their worth and these are the people who come from Bulloch to give the goodly people from all parts of Georgia a chance to see what can be done in a seacoast county of the state. These include Editor Miller, whose newspaper, one of the most influential of the state, has done so much for the development of Statesboro and the county; his very good wife, Miss Mae Morgan, R. H. Donaldson and Herbert Franklin. And still better than any of these is one of the latest products of Bulloch county, in fact the very best product even when all of her wonderful resources are remembered, a very recent member of the Miller family who looked down from the sheltering arms of the mother love on both the exhibits and the thousands of admiring and wondering spectators quite as a matter of course, her big eyes apparently realizing that she has the greatest of all privileges as her right, that of being a native Georgian and in the midst of her parents a still greater honor, if such is possible, that of being a native of Bulloch county.

## BULLOCH WINS SECOND PRIZE

Bulloch County Is Awarded First Prize of \$500.00 At the State Fair, and Bulloch Comes In for Second Prize of \$1,200.00.

We were going to press Mr. Miller wired the News from Atlanta that the committee in charge of the awarding of prizes at the state fair in Atlanta has made up their decision and bestowed the first prize of \$1,600.00 upon the county of Bartow and that Bulloch outranks all the rest, coming in for second place, with a purse of \$1,200.00.

This announcement comes somewhat as a surprise, for Mr. Miller and a great many others confidently expected that Bulloch would take first place. The dissatisfaction is such that notice of contest has been filed with the committee by the Bulloch county management. It is contended that in a majority of points Bulloch excelled the exhibit of Bartow. The question raised in the contest will be passed upon by the committee within a few days, and it is to be hoped that they can be induced to alter their decision in our favor.

Still, it is not so bad to be given the second place at the greatest agricultural fair ever held in the state of Georgia. Atlanta offered large inducement to exhibitors and the displays set up at the state fair this year have been the best and most extensive ever shown before in the history of the state. It was frequently remarked that the agricultural exhibits shown in Atlanta would have done credit to the St. Louis fair.

Bulloch county has been thoroughly advertised to the world through the exhibit sent up to Atlanta, and the people from all sections of the state and from other states have been most favorably impressed with what Bulloch county can do. There is no doubt but that the county will reap a large amount of substantial benefits from having been represented up there and the winning of second place among so many competitors is very greatly to our credit.

LOST.

From the A. R. Lanier place, 5 miles south of Statesboro, on Oct. 14th, 14 hogs, all marked crop in one ear and crop and half crop in the other except one black short unmarked. Several of these hogs are black with white face and about 8 of them barrows.

Will gladly reward any one who can tell me where they are.

## To the Trading People of Bulloch County.

We have a little town here which we all should feel proud of. It now has a population of about 3,000 and is located in the heart of the best farming section in Georgia.

The people have just voted for a free school and carried it by a big majority, and in fact, they are ready for any forward movement. The farmers can find ready sale for their produce, as this is the best sea island cotton market on the globe. Every merchant in town thinks of buying some if he don't.

We have about thirty merchants doing business here; only one Racket store, run by C. B. Griner & Co., and one thing we are tired of, and in fact, they are ready for any forward movement. The farmers can find ready sale for their produce, as this is the best sea island cotton market on the globe. Every merchant in town thinks of buying some if he don't.

### Full Of Tragic meaning.

are these lines from J. H. Nimmons, of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough, that disturbed my night's rest. I tried everything, but nothing would relieve it until I took Dr. King's New Discovery for Consumption, Coughs and Colds which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At W. H. Ellis, druggist; guaranteed; 50c and \$1.00. Trial bottle free.

### New Chief Elected.

In response to a called meeting Tuesday night those interested in fire fighting gathered at the court house and elected a chief to fill the vacancy caused by the resignation of Mr. Dan Davis. The result was B. P. Maul was elected chief and the first and second assistants remain as heretofore, W. B. Moore and G. L. Jones, respectively. It is understood that each of these men have had long experience in fighting flames and will prove themselves valuable men to the department.

### An Awful Cough Cured.

"Two years ago our little girl has a touch of pneumonia, which left her with an awful cough. She had spells of coughing, just like one with the whooping cough and some thought she would not get well at all. We got a bottle of Chamberlain's Cough Remedy which acted like a charm. She stopped coughing and got stout and fat." writes Mrs. Ora Bussard, Brubaker, Ill. This remedy is for sale by All
