## Local Field

Dr. H. R. Town, of Guyton, was a visitor to the city on Friday.

Messrs. M. H. Schaul and W. E. Vinson, of the old and well known firm of Meinhard Schaul & Co., of Savannah, were in the city for two days during the past week. Mr. Schaul is a member of the firm and Mr. Vinson is the popular salesman who handles the firm's trade throughout this entire section of the state. This firm makes a specialty on the Harvard brand of clothing, one of the very best brands on the market, and worn by hundreds of our best and most fashionably dressed people.

Mrs. E. B. Seckinger, of Mobile, Ala., is visiting her parents, Mr. and Mrs. M. F. Stubbs.

Miss Maude Avant has returned to Savannah after a pleasant visit of several weeks in the city.

### Will Have Automobile Line.

Statesboro was treated with a visit from a party of gentlemen from Savannah on Tuesday afternoon. Those gentlemen came through the country in two large automobiles. The purpose of the trip, we learn, was to inspect the roads to see if it will be practical to construct an automobile line between Savannah and Statesboro. The party left Savannah at 2:00 p. m. and arrived in Statesboro at 5:00 p. m., just three and a half hours on the trip of fifty-two miles.

They expressed themselves as being surprised at the good condition of the roads already. They believe that it will be practical to place gravel on the road between here and that city and constitute a first class driveway.

It will be a source of pleasure to the hundreds of people in that city who have automobiles to drive through to Statesboro and return the same day.

Savannah is holding out inducements to northern tourists to spend the winter in Savannah. Those people most all own their own machines, and a driveway from Savannah to Statesboro would bring lots of them here, then, it would be possible for some of them to take up quarters in Statesboro. The driveway would furnish us much inducement at this end of the line as at the other. We hope to see this put into operation.

Bulloch may be asked to contribute something towards the completion of this line, and it is much as we have as much to gain by its construction as anyone else who hope that it will be considered in a favorable light. Every mile of property along the line or adjacent to it would soon double in value.

Let us have a gravel road from here to Savannah.

### Will Sell Cotton at Auction.

On next Saturday morning at 10 o'clock, will be sold to the highest bidder on the streets of Statesboro the bale of sea island cotton that won \$170.00 at two Georgia fairs. Tied to this bale will be all the blue ribbons that it won at the two fairs.

The bale that produced the seed from which this bale was grown was sold by Messrs. W. W. Gordon & Co. on the Savannah market last season at fifty-five cents per pound. The present bale is grown on land that is worth \$1000 per acre and bloomed beneath electric lights. Not a single lock of this bale ever had a drop of rain to fall upon it, and it was ginned and prepared by Mr. Nick Foss, the best expert sea island cotton ginner in southeast Georgia. It was examined by an expert cotton man in Atlanta when it had competition from the sea islands 140 miles south of here, and pronounced it to be the best bale of cotton he ever saw, the largest and strongest staple, with a silk stand not often seen in cotton raised in this section.

### Old Reliable Restaurant.

The restaurant that has stood by you through the dull summer months when there were not so many to patronize it as now, is the one run by me, and the one that still asks you to come around and give it a share of your patronage when you want a strictly first class meal.

### New Harness Shop

The undersigned having opened a harness shop in the rear end of the building occupied by Sutton's barber shop takes this method of inviting the public to give him a call. New harness manufactured on short notice, or old ones made as good as new. I have all the latest tools and machinery in order to turn out first class work and one trial will convince you that my goods are worth a good deal more than the stuff that you get from a distance. My work is all guaranteed to be first class in every respect, and if any of it fails to come up to this standard I am right here to make it good. I also carry a full line of parts and furnishings for repairs in harness. Give me a call.

Respectfully,

### Automobile Craze Next.

We feel it in the air. The next craze to strike this place will be automobile craze. Some would say: "They are so high that very few can own them." You must remember that they are selling them already on the extortion plan as the negro put in when he bought on the installment plan, and soon every little irresponsible fellow who can raise six or eight dollars for the cash payment will be sporting an automobile around Statesboro, making people's horses run away.

The average horse even in the cities where hundreds of them are seen every day is as scared of these things as they would be of the devil himself, and when they get into the hands of the average kid around a town this size, then, harvest of disaster will be full.

### Young Lady's Death.

On Monday afternoon, at the home of her father, about twelve miles west of Statesboro, Miss Lize Brannen passed peacefully into the unknown beyond, after an illness of only a few weeks with that dreaded disease, consumption. The funeral was held on Tuesday, Rev. G. G. N. Macdonell of the Statesboro Methodist church conducted the services in the presence of a large number of relatives and friends, of the deceased. Miss Brannen was a member of the Methodist church at this place, she had been united recently in the office of the Singer Sewing Machine Co. here, and during her stay in the City made many friends, all of whom sincerely regret the news of her death. It is reported that she was engaged to be married to a gentleman from Florida next spring. Her two sisters, Mrs. Besenger of Florida and Mrs. Tomb of Savannah were present at the funeral.

### Infants Death.

On Friday of last week the spirit of little Midge, the seven-months-old infant of Mr. and Mrs. H. S. Parrish took its flight. The little one was the light of the home of its fond parents, and its death is a sad blow. It had only been ill for a short time. The interment was made on Saturday in the town cemetery.

### Nature Needs But Little.

Nature needs only a little Early Riser now and then to keep the bowels clean, the liver active, and the system free from bile, headaches, constipation, etc. The famous little pills "Early Riser" are pleasant in effect and perfect in action. They never gripe or sicken, but tone and strengthen the liver and kidneys. Sold by W. H. Ellis.

### Rather Shady Tactics.

A reform candidate should pursue reform methods. The recent struggle for the control of Fulton county executive committee and the methods resorted to by Mr. Hoke Smith's faction reminds us that "all is not gold that glitters."

The struggle for the election of the executive committee was simply a beginning of the great struggle that is to be felt in every county in the state. Each side wanted to control the newly elected committee and had out a ticket. The meeting was called at the superior court room at 7:30 p. m., and at a little after 8:00 o'clock, just four hours before the meeting time, it is alleged that supporters of Mr. Hoke Smith hurried every bum that could be raked and scraped in a city as large as Atlanta, and blocked them up against the court room door, and these men who were there to occupy space, were drenched from time to time with mean whiskey. They finally got so boisterous that the door was broken in, and several hours before the time set for the meeting the small room was filled with this class.

In addition to the mob referred to, it is also reported that a full carload of Confederate Veterans were hauled in from the Confederate Veterans' home, and they, too, were drenched with had liquor. A second carload was started, but the superintendent of the home stopped this.

It was indeed a sad sight to see designing politicians hurdling these old heroes up for election purposes like so many negroes, and drenching them with whiskey. Taking advantage of their weakness to carry a point was a step that a man claiming a divine call should not resort to. True, they had their right to participate, but out of respect to the great cause for which they once fought they should have been allowed to have walked up and cast their ballot as other people did.

But it seems that the Smith crowd got it in the neck after all. When the chairman of the meeting arrived, he saw two-thirds of the crowd crowded out, and promptly and properly called every one to go out in front of the building and hold it on the square where all could get a square deal and have an opportunity to participate. The Smith crowd refused to take part in the monster meeting held on the outside and remained inside and elected a committee of their own, eleven of which have refused to serve, for the reason that they consider the big meeting presided over by the regular

chairman the regular democratic meeting. The secretary of the state executive committee has announced that the committee elected on the outside will be the one recognized by the state committee. This was a big victory for Howell.

The meeting in the court room is said to have been composed of about three hundred, and the one on the outside more than one thousand. If Mr. Hoke Smith is compelled to adopt such methods in his home town in an effort to pack a meeting he seems to have little claims on the good people of the state. We have not heard of him posing as "The Reform Candidate" since the Atlanta meeting of which we have just described.

### OMIT Property to Be Sold

By reference to our advertising columns will be seen that the lands of the estate of J. L. Oiliff, late deceased, will be sold at Administrators Sale here on First Tuesday in December. This includes some of the most valuable property in and around this city.

### In Time of Peace.

In the first months of the Russian-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by all druggists.

### Will Make Improvements.

We are informed that on January 1st the store now occupied by Gould's Grocery on East Main street. Will be removed and a handsome two story brick structure built in its stead. Mr. Gould has not decided yet where he will move his Grocery.

### Quarantine Still On.

We are requested by the authorities of the Central of Georgia Ry. to say that the quarantine restrictions are still being enforced by the city authorities of Savannah. Parties should provide themselves with a health certificate before boarding a train for Savannah or be subjected to the embarrassment of camping at Meldrim until they can wire back home.

### The Bulloch County Association.

The regular annual meeting of the Bulloch County Baptist Association convened with Bethel church, about six miles west of here, on Wednesday and will close today.

There is a full attendance of delegates from the various churches of the association and a number of visiting ministers. Drs. Pack and Jamison of Atlanta have been in attendance, and have each filled the pulpit at the Baptist church in this city during their visit to the county this time.

Every ounce of food you eat that fails to digest does a pound of harm. It turns the entire meal into poison. This not only deprives the blood of the necessary tissue-building material, but it poisons it. Kodol Dyspepsia Cure is a perfect digestant. It digests the food regardless of the condition of the stomach. It allows that organ to rest and get strong again. Relieves Belching, Heart Burn, Sour Stomach, Indigestion, Palpitation of the Heart, etc. W. H. Ellis.

### Skating Craze Becomes Chronic.

Statesboro seems to be in the grasp of a regular craze on the skating question. It has reached the point that a large crowd will gather every night on the walk surrounding the court house, and until a late hour make the town hideous with the terrible racket they put up. The thing has reached the point where it should be curbed.

### Bilious Attack Quickly Cured.

A few weeks ago I had a bilious attack that was severe I was not able to go to the office for two days. Failing to get relief from my family physician's treatment, I took three of Chamberlain's Stomach and Liver Tablets and the next day I felt like a new man. —H. C. Bailey, Editor of the News, Chapin, S. C. These tablets are for sale by all druggists.

# THE NEWS.

Poet Laureate Austin declares that there have been no great women poets. This opens the way for the report that there has been no great poet laureate since Tennyson.

At one time French was spoken all over the world. In 1905 it is the language of 45,000,000 people, including the French colonies, while German is spoken by 100,000,000 and English by 150,000,000.

What makes people so mad when their investment proves a failure is that they might have had a lot more fun spending the money themselves than in giving it to a board of directors to squander.

Russia doubles her population every fifty years. Norway and Sweden in fifty-two years. Great Britain and Germany in fifty-five. Belgium in seventy-nine. Italy in eighty-four. Spain in 104. Austria-Hungary in 110 and France in 123.

To live in a modernized city, with a minimum of taxes and a maximum of conveniences, one must do his full duty in the preliminaries, maintains the Philadelphia Record. Urban improvement is the order of the age throughout the world.

The government of the Netherlands has instituted a competition with the object of discovering a process of cutting diamonds which will dispense with the use of an alloy dangerous to health. For a complete solution of this problem a prize of \$275 is offered.

An array of statistics has been published to prove the danger of horse traction on our highways. The returns are brought down to the end of the year 1904, the whole period covered being two years and four months. For accident the figures are: 9567 accidents; 9351 persons injured; persons killed, 359, or more than one death per day.

Bridal parties of the future may not see Niagara Falls in its present beauty, but they need not be unhappy. An explorer of Argentina says that the falls of the Iguaazu, about a thousand miles north of Buenos Ayres, are larger than Niagara or the Victoria Falls of the Zambesi. Whether or not the statement is exaggerated, there is evidently a new, delightful excursion for the newly married.

A German geographer calls attention to the fact, known to few, that the Rhine gets some of its water from Italy. Some miles above the Via Mala the Rhine is augmented by a turbulent mountain torrent, whose chief tributary is a brook that comes from the Val de Lei, which politically belongs to Italy, though separated from the rest of that country by glacier covered mountains over which there is a trail to Chiavenna.

The German Lutheran Immigrant Society in New York has just begun the use of its new and splendid building. After the fatigues and trials of a steamer passage and after running the gauntlet of the inquisition on Ellis Island it will be no little comfort to German immigrants to have the assurance that they will not be without friendly advice and assistance. This society has been in evidence for many years, and by its watchfulness and energy has saved multitudes of desirable immigrants from wrongful deportation.

When a new consul had been appointed to represent France in San Francisco, before leaving Paris he called on the official having charge of consular affairs, who said: "Oh, by the way, the Governor-General of Tahiti is a great friend of mine. If you ever run down there to spend Sunday, be sure to call on him." It takes only about four weeks for a steamer to sail from San Francisco to Tahiti. This recalls the remark of Robert Louis Stevenson in regard to Samoa, where he lived so long and eventually died. While the novelist was paying his last visit to his native land a friend, whose recollection of geography was rather shaky, asked: "Where the deuce is Samoa, Stevenson?" "It's the second turn to the left after you leave San Francisco," said Robert Louis, whose memory of maps only ran to recollection that he was going to Samoa from the Pacific Coast one always stopped first at Honolulu.

# FREEDOM FOR FINNS

## ARE GIVEN INDEPENDENCE

Free Government Set Up in Helsinki, the Capital, and Backed up by Troops Sent from the Russian Empire.

The London Times, in Saturday's issue, published the following dispatch from St. Petersburg, dated November 3: "Finland has won her freedom. A manifesto embodying all the demands presented by the popular delegates at Helsinki to Prince John, Uloensky, the governor general, will be submitted by Secretary of State Linder for the imperial signature at Peterhof Saturday night. The keystone of the new Finnish constitution is the responsibility not of the monarch as hitherto, but of the secretary of state and the diet. The president of the Finnish republic will be elected by the Finnish people. It is intended to signify that although the emperor grants constitutional freedom he intends to preserve the severance of the grand duchy from the empire."

A St. Petersburg special says: The text of the imperial manifesto granting amnesty to prisoners, signed by Emperor Nicholas, declares that by virtue of the intention expressed in the manifesto of October 30, to accord the population inalienable principles of civil liberty, free pardon is granted to political criminals of various categories, who are enumerated and also to participate in strikes and other responsible for breaking contracts.

The pardon extends to those now in prison and to those not yet tried or on whom sentence has not been pronounced. Persons convicted of crimes committed over ten years ago are to be released and will be sent to Siberian colonies. Those who are now colonists there will be allowed, after four years, to choose their place of residence, but are prohibited from living in the capitals, St. Petersburg and Moscow, for three years. Convicts not falling under these categories have their sentences reduced one-half and persons condemned to imprisonment for life have their sentences reduced to fifteen years' imprisonment. The pardon extends to all prisoners who benefited by previous manifestos. Persons arrested by imperial or administrative order are released, those condemned to death or liable thereto have the penalty commuted to fifteen years' imprisonment at hard labor.

The amnesty decrees includes political offenses committed up to October 30, 1904. It is believed to be the head of Susanna A. Geary, the dress suit case victim, was recovered in a leather handbag from the bottom of the harbor at Boston Sunday. It was dragged to the surface very near the point where Lewis W. Crawford and William Howard, who have confessed to disposing of the dismembered girl, said they dropped it from the stern of an East Boston ferryboat. The head completes the body of the girl. The trunk was found on September 21, and the limbs were picked up October 27. The bag was weighted down with a quantity of shot.

According to the latest dispatches that have come out of Russia, Count Witte is making his home felt. His hand is on the helm, and disorders are beginning to cease. Dispatches are brief from the riot centers. An Odessa dispatch says: "It is believed that the worst is over. Owing to the mobs being satisfied with two days' carnival of murder and destruction by name, the revolt against law and order is dying down partially, perhaps, because of lack of material upon which to prey."

In several towns the entire Jewish quarter has been devastated and the inhabitants killed or wounded. In Odessa soldiers are making a house-to-house visitation seeking for bombs and arms. They are also searching passengers on the street cars. Almost the entire Jewish quarters of Moldavia, Slobodka and Bugatovka are devastated and their inhabitants have either been killed or wounded or have sought refuge in other sections of the town. The whole fury of the mobs was directed unchecked against the Jews.

## REFUSES TO SEND SOLDIERS.

Alabama Corner Nonplussed Over Order to Arrest the Sheriff. The governor of Alabama has refused to send troops to aid the coroner of Baldwin county to arrest the sheriff, telling him that, very probably, he will be advised by his lawyer that he has a right to summon a posse to meet the situation. This is the first time application has been made for troops to take one man and that man harmless so far as bodily harm goes, as he is a peace officer himself.

## WILL DISPOSE OF SMOOT CASE.

Further Testimony Will be Heard if Offered, Says Burrows. Senator Burrows, of Michigan, the chairman of the committee on privileges and elections, who has arrived in Washington for the coming session of congress, said Sunday night that he expected to have the case of Senator Reed Smoot of Utah disposed of before the term ends.

# CHILDREN ARE MANGLED

In Wreck of Bank Building by Gas Explosion—Besides the Killed, Thirteen Persons Were Hurt.

A special from Lansing, Mich., says three children are dead and thirteen are injured, one fatally, as the result of an explosion there Sunday, which destroyed the Miners National bank.

The dead, Steven Goodman, aged 12 years; Alice McGee, aged 10 years; Edward McRath, aged 12 years. James F. Mulich was fatally injured. A gas leakage in the basement of the bank building was primarily responsible for the explosion and loss of life. Gas was detected coming from the building, and two workmen went in the basement about 3 o'clock Sunday morning with lighted candles to investigate. The flames evidently ignited the gas in the basement, for a tremendous explosion followed.

The two workmen were blown through a basement window and landed unharmed in an open box car standing on a nearby track. The building was completely wrecked. The three children were passing the building on their way home from church, and were caught in the falling debris. All the teams in the city were summoned to the scene and the work of moving the huge piles of debris and extricating those under them was rushed.

The explosion broke windows in many stores in the business district and scattered the papers and documents of the bank for blocks around.

Later in the year cities in Louisiana, Mississippi and other states will be visited. The party to leave November 12th will go via the Monon to Louisville and thence to Frankfort, Paris and Lexington, Ky., to Chattanooga, Kingston, Tenn., to Rome, Marietta, Atlanta, Augusta, Millen, Macon, Albany, Americus, Columbus, Macon, Opelika, Montgomery, Selma, Birmingham and Decatur, Ala., returning via Nashville to Chicago. The trip will occupy two weeks, and it is proposed to meet and talk with the leading business men of the cities where stops are made.

## GIRL'S HEAD FISHED OUT.

Taken from Waters of Boston Harbor. Enslaved in Hong Kong. What is confidently believed to be the head of Susanna A. Geary, the dress suit case victim, was recovered in a leather handbag from the bottom of the harbor at Boston Sunday. It was dragged to the surface very near the point where Lewis W. Crawford and William Howard, who have confessed to disposing of the dismembered girl, said they dropped it from the stern of an East Boston ferryboat. The head completes the body of the girl. The trunk was found on September 21, and the limbs were picked up October 27. The bag was weighted down with a quantity of shot.

## DEADLY WORK OF TORNADO.

Wind Storm in Oklahoma Kills Seven People and Injures Many. Mountain View, an Oklahoma town, was swept by a tornado late Saturday afternoon, killing seven people and doing much damage. The school house, two churches, two livery barns, one hotel, a cotton gin and about twelve dwellings were blown away, and many more houses are wrecked.

## JEWES ARE SLAUGHTERED.

Disseminated, Outlawry and Pillage Continue to Hold Sway in Many Russian Cities and Towns. Dispatches of Friday from Russia were very meager owing to the disturbed condition of the country. The situation in St. Petersburg, where order is maintained by a show of armed force, remains critical, though improvement is shown in the resumption of operations by electric lighting plants.

Communication by rail with the frontier has not yet been re-established. From many of the interior cities come reports of conflicts in which the Jews appear to be the principal sufferers. In Kiev the loss of life and property has been very great. In Theodosia, Kosiroma and Saratoff the disorders have been most serious. There is an unconfirmed report that Kishineff has been totally destroyed by fire.

A London newspaper's St. Petersburg correspondent estimates that in the leading provincial towns of Russia 1,000 persons have been killed and 10,000 seriously wounded in the last twenty-four hours. The revolutionary movement in Finland is unchecked, the Finnish national guard is opposing advances of Russian troops and compelling them to retire.

The Kiev correspondent of Reuters Telegram company (London) says, under date of November 3: "The Jewish quarter has been given over to plunder, rapine and murder ever since the emperor announced the granting of a constitution. On that day, during a monster demonstration in front of the law hall, a shot was fired, and the Jews were killed. The Cossacks and dragoons immediately charged into the crowd, firing right and left, and the police and others dragged away the dead and wounded, numbering more than 150, into the neighborhood court yards, while the terror-stricken demonstrators fled, pursued by a mob of ruffians, who attacked them as they fled."

On Wednesday Acting Governor Karsan promised prominent Jewish merchants that immediate and strong measures would be taken for their protection, but the pillage assumed colossal proportions, and the police and military forces were completely ineffective. They are firing upon persons who defended themselves against looters and on houses where Jews had fled on their assailants. While almost all the Jews were laid in ruins, Christian establishments were untouched. Thousands of families have been ruined, and the theater of anatomy is filled with corpses. Attempts were made without success to wreck the offices of the liberal newspapers, and it is stated that some forthcoming lawsuits are likely to reveal the names of prominent organizers of these attacks.

"Many corporations have wired Count Witte, begging protection, and he ordered that vigorous measures be taken, but without effect."

## EXPLOSION KILLS TWO MEN.

Fatal Accident Occurs in a Power House in Washington. Two men Wednesday were killed and three seriously injured during the same afternoon by an explosion in the Potomac electric power house at the corner of Fortien and B streets, northwest. The explosion blew off the head of a 12-inch cylinder on the main steam pipe. The damage to the plant was comparatively small.

## GUN PLAY AT NEGRO DANCE.

Five Shot, One Killed and Another Seriously Wounded. Five negroes were shot, one being killed, at a dance at Chelsea, a negro village, near Huntsville, Alabama, Friday night. Sam Ruffin, a drunken negro, opened fire on a crowd of dancers. A daughter of a white branch was instantly killed. Cliff Branch was fatally wounded, while two other women and a man were shot and are expected to die. Ruffin escaped.

# GEORGIA NEWS

Epitomized Items of Interest Gathered at Random.

Reward for Murderer. Governor Terrell has offered a reward of \$100 for the arrest of Geo. Parham, a negro, who is charged with the murder of Zetta Wilson. The killing occurred in Meriwether county on October 17, and is said to have been the result of a fight during a game of cards.

Georgia's objection is solely to the methods employed, which result in the releasing of abundance of sulphurous fumes, which spread over the surrounding country, particularly over the counties of Murray, Rabun, Paulding, Union and Towns in north Georgia, and completely destroy the vegetation.

Work on Railroad Started. Work on the Athens and Jefferson railroad has been practically started. The surveys have been gone over and grade finally settled. The grading will begin a few miles from Athens, and will be carried toward Jefferson. It is estimated that the road will be completed in twelve months.

Work to Begin Within a Month. Work on the reformatory for the detention and correction of youthful criminals, which will be located at the state prison farm, in Milledgeville, will be begun within a month. Chairman J. S. Turner of the prison commission is authority for this statement. He says the building will be ready for occupancy by next spring. At its regular meeting the commission will adopt the plans submitted by Architect A. C. Bruce.

Meyerhardt Again Heads Masons. In the race for the office of grand master of the grand lodge of Georgia Masons, in the sessions at Macon last week, present Grand Master Max Meyerhardt of Rome was re-elected over Thomas H. Jeffries of Atlanta by a vote of 517 to 252. There was great interest in the result.

There was no contest for any other office, and as fast as the votes counted he east and the results counted the old officers were announced re-elected.

Removed Railroad Deal. It is rumored in Adel that the Seaboard Air Line Railway company has bought the South Georgia and West Coast railroad, which operates trains from Adel through Quitman to Perry, Fla.

The officials of the Seaboard made a tour of inspection over the South Georgia road in a private car a few days ago. They have also checked up the South Georgia road's business in the head office at Quitman. If this deal is made the Seaboard will probably build a line from Atlanta to Ocala in order to connect with their road from Abbeville.

## Must Reweigh Freight Cars.

Criticism in the supreme court of the reweighing of freight cars by the railroads operating in Georgia, has been issued by the railroad commission. The circular is one of importance. It states that numerous inquiries and complaints have been made to the railroad commission, with reference to the weights of empty cars, as used in determining the net weights of carload shipments by deducting from the gross weight the weight of the car used as printed on the side thereof. It is the opinion of the commission that all empty cars should be reweighed and the correct weight of each car stenciled thereon, together with the tare weight, according to which car was last weighed.

## State is Fighting Trust.

The cases of the State of Georgia against the Tennessee copper companies in the supreme court of the United States will be argued on December 4. Attorney General John C. Hart has received a letter from the clerk of the court, informing him that the cases had been set.

## It is an American Copper and Standard Oil that the State of Georgia is fighting in this suit.

While the companies in question are known as the Tennessee Copper company and the Tennessee Sulphur, Copper and Iron company, they are the properties of none other than the copper trust. Thus it is that Georgia, in asking the United States supreme court to enjoin these companies, is being one of the most gigantic trusts in the world.

## Wilson's Slayer Caught.

Dick Hardy, the negro who killed Max Wilson, a prominent white farmer of Heard county, near Franklin, a few days ago, has been captured and jailed by the sheriff.

Mr. Wilson was strung on a stump when the negro shot him in the back, killing him instantly.

The murder was prompted by revenge. Three months ago, Wilson killed Hardy's brother in self-defense. It is said that Hardy has repeatedly said that he intended to kill Wilson.

Four other negroes, George Houston and his two sons, Ed and Charles, and Pless Almond, are said to have backed Hardy in the commission of the crime, and they have been taken in custody by the officers.

White Man to Succeed Rucker. There is current in Atlanta, according to The Journal, a persistent and seemingly well founded report to the effect that Henry A. Rucker, the negro internal revenue collector for the northern district, will be replaced by a white man by President Roosevelt in the near future. Those in position to know insist upon the correctness of the report, and say a change will be made shortly, although the name of his successor has not been ascertained in connection with the report.

Some time ago it was reported that Rucker would be removed by the president and a white man appointed to succeed him. At that time, however, it was said that President Roosevelt would decline to remove the collector unless something could be found against his official record, and this, it was said, was regarded as very good by the chief executive.

Since that time, however, it is said, the president has changed his mind about the matter, and has at last fully determined to name a white man to succeed the collector.

## More Room Needed for Girls.

It is believed the legislature at its coming session will have presented before it a stronger light than ever before the necessity of increasing the facilities for the proper instruction of young girls in Georgia, such as the Georgia Normal and Industrial college at Milledgeville.

There were just 110 applicants turned away from the Georgia Normal this year, according to President M. M. Peck.

The school now has 373 students in the regular departments, besides sixty others in the model department, and the classes are all just as full as it is possible to fill them.

## Stevens' Case Unique.

A long and difficult case requiring several weeks of close attention, expensive and delicate features in that which developed at Macon the past week in the commitment of W. D. Stevens to jail with a bond fixed at \$500 to await a trial in the United States court on a charge of fraudulent sale of the mail to and from New York "green goods" men in circulating letters for the purpose of swindling on a large scale.

## According to the evidence furnished

by Postoffice Inspector H. T. Gregory before Commissioner L. M. Erwin, this game was worked among Georgia farmers. Stevens himself admitted that he had lost \$200 when he first dealt with the "green goods" people. When the inspector was put upon the case it was through complaints made by others, but in answering a proposition with a view of offering opportunity for the swindlers to work the game upon himself he was refused by Stevens, according to his statements to the officers.

## Department Report on Ravages of

the "Pestiferous Rust Mite." The department of agriculture at Washington in a report just issued says the red spider or rust mite has been quite prevalent in some sections of the cotton growing area of this country during the past two years. The spider is a minute yellowish red mite which feeds on the cotton plant, principally on the under sides of the leaves, but at times attacking all parts of the plant. The report says the pest is probably distributed throughout the entire cotton growing area of the south, although during the years past it has appeared in injurious numbers only in 1903 when it caused considerable damage to cotton in South Carolina and Georgia.

Published Tuesdays and Fridays by THE STATESBORO NEWS PUBLISHING COMPANY.

When prices are good the people are bound to be prosperous.

Hearst gave the Tammany bosses more than they were looking for.

Probably the bosses in Savannah will take warning from the fate of the bosses in New York, and other places.

Mr. Palmer of Waynesboro was on Wednesday and took with him the men convicted in the recent term of the superior court. Mr. Palmer is not only a lawbreaker but he is hiring those from other counties in the work of improving her roads. Along this line, we must acknowledge that our sister county is more progressive than we are.

The woods are already full of prospective candidates. The chances are that no Bulloch County office will go unthought during the next campaign. Bulloch is filled with a patriotic citizenry, a large portion of whom are willing to yield to the entreaties of their many friends and loan their time to the looking after the business of "the dear people."

## TUESDAY'S ELECTIONS.

The elections held in several states and cities last Tuesday, brought many surprises. Even rotten old Pennsylvania and the dirty city of Philadelphia threw off the Republican machine and elected decent democrats to fill the city and state offices. And Ohio, so long the idol of the Republicans has come to the fold of democracy. Proud and corrupt old Tammy in New York city has been knocked out by the people, and Hearst came in an ace of winning for the majority. The political machines have been defeated everywhere and it looks as if the days of the bosses are passing away. The people will submit to corruption and rottenness for a long time, but finally they wake up and kick out the unclean and dirty rascals, who get into power occasionally. The people are beginning to teach the bosses in the cities that common honesty is to be preferred to rascality and corruption in politics.

**For Judge of Middle Circuit.**  
To the Voters of the Middle Circuit:  
I think it proper at this time to announce the fact that I will be a candidate to succeed myself as Judge of the Circuit. For eight years I served the people of the Circuit as Solicitor General, endeavoring at all times to discharge the duties of that office with fairness, impartiality and courtesy. Upon the promotion of Judge Evans to the bench of the Supreme Court I was an unopposed candidate before the people for the Judge-Ship to fill out his unexpired term of two years. My unanimous election to this office necessitated a complete abandonment of my law practice. I submit that I am fairly entitled to at least a full term. If in your judgment I have made an efficient and impartial Judge. On that subject of course I can say nothing on my own behalf, except that I have labored earnestly in presiding over your courts, to do so impartially and to render efficient service to the people. Whether I have succeeded or not others must say. If so, I am fairly entitled to an endorsement of my administration and of my record.  
H. T. Rawlings

**Railroad Rates in France.**  
What the Traffic Manager of the Most Important Railroad of France Thinks of our Regulations.  
N. C. Nullemaire, Traffic Manager of the Paris-Lyon-Mediterranean railway, says in discussing the American railroad rate system:  
"Your American method of making a railroad tariff, leaving the companies free to make the price of transportation, subject only to correction by the government in instances of abuse of discretion, is a better one than our French method. Indeed, I don't see on what other principle your traffic could be made, inasmuch as your railways are privately owned and operated. I can't understand how any government could make rates for such railways.  
"The French railways, in fact, always make their own rates; that is to say the government never assumes to lay down or prescribe a rate for us. We make new rates and changes as we think equitable and just. We are then obliged, before putting them in force to submit them to the government for approval, and argue it out with them. The position taken by the government is usually due to political pressure from some locality or industry and is therefore generally not along sound business lines. They argue something that runs counter to the laws of nature and the laws of trade, and our rate is more a matter of politics rather than of sound railway administration, leading constantly toward a distance tariff. In twenty years, at the rate we are going, I don't know where we shall land."

I have on my shelves put together. Of the many dozen sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best results." For sale by all druggist.

**Mrs. Lucy Olliff Is No More.**  
On Saturday afternoon at the residence of her son, Mr. Jas. F. Olliff, at Adabelle, the spirit of Mrs. Lucy Olliff passed away. Mrs. Olliff was the widow of the late John Olliff, who, in his day, was one of the most prominent men in Bulloch county.  
The deceased had reached a ripe old age, which was probably the cause of her death. She was a good woman and reared a large family of children, living mostly in this county.  
She remains were interred on Sunday at Lower Lotts Creek church where she has been a consistent member for many years. A large crowd of sorrowing friends and relatives were out to pay to her memory a tribute of respect.

**Miss Agnes Blackburn Passes Away.**  
On Friday morning just before ten o'clock the angel of death again for the second time this year hovered over the home of Mr. and Mrs. Geo. S. Blackburn, on South Main street, and bore away the spirit of their only daughter, Miss Agnes, a lovely girl just blooming into womanhood. It was only last spring that this family was likewise afflicted by the taking away of a grown son, which together with the death of Miss Agnes, renders the affliction particularly hard.  
The deceased had been ill with the fever for six weeks. At one time it was hoped that she might recover, but about two weeks ago the deceased took a turn for the worse. She told those about her bedside that her time had come to go, and frequently sang: "I'm Going Home to Die No More."  
The funeral, which was largely attended, was held from the Methodist church in this city of which she had been a member since early girlhood. The services were conducted by the pastor, Rev. G. G. N. MacDonell. The interment was made in East Side cemetery.
