Ludden & Bates Piano Club.

How it was organized, what it gives members and who join the club. Sales now a hundred a month to satisfied customers who save nearly \$125.

Two months ago dates the advent of the Ludden & Bates Piano Club in the city of Savannah and the country around. At that time we chose the Ludden & Bates Piano Club as our method of introducing the New Scale \$400 Ludden & Bates Piano to the public. Since its first origination and a few people were permitted to know the merits of this elegant piano it has been almost impossible for us to supply the demand for it. Ludden & Bates Pianos have been sold over the entire south for the past 20 years, but never before have we been able to offer the public such value, such piano satisfaction, at a popular price and on such easy terms of payments.

The New Scale \$400 Ludden & Bates Piano appeals alike to musicians and mechanics. As a medium of corroborating our claims for it at that time the piano has allowed no doubt to remain even in the mind of the most skeptical as to the justice of our reputation to make good every promise given or every responsibility assumed.

The New Scale \$400 Ludden & Bates Club Piano is "WARRANTED FOR A LIFETIME" and for the past 25 years the name "Ludden & Bates" has stood for truth, and this instrument in its embodiment of truth is our emblem.

MUSICIANS HAVE CHOSEN IT—because it met their demands in every particular. Its resonance of tone, sympathetic quality and wonderful sustaining power, with its evenness of touch, have made it alike the favorite of singer and player.

BUSINESS MEN HAVE SELECTED IT—because in all its mechanical appearances it has reached the standard of workmanship, and combining its artistic qualities with its pleasing design of case, it offers them A MAXIMUM OF VALUE FOR A MINIMUM OF PRICE.

MOTHERS DESIRE IT—because it promises to implant in the minds of their children the purest conception of tone and to train their fingers to skilled technique, and besides giving the home the greatest air of refinement, it adorns it with majesty; in fact, ALTHOUGH PERTAINS TO THE "LUDDEN & BATES" IS REGAL.

It is the only piano made or sold in the south at an absolute, unchangeable price—to schools, colleges and to the individual alike—\$287.

There isn't a piano sold in the south that will compare with it for much less than double the club price of \$287. Under our club plan nearly 200 people—at least half of whom might never have been able to possess a high-grade piano—are now enjoying the benefits and pleasures of one in their homes.

By organizing the Ludden & Bates Piano Clubs we are enabled to sell pianos in lots of 100 at one price, either for cash or on time, with interest, ABSOLUTELY CUTTING OUT EVERY DOLLAR OF EXPENSE attached to selling in the usual way. The members joining the club with 99 others purchase together, saving middle men and agents' profits and expense. YOU IN QUANTITIES ON A CASH BASIS—take time, if you like, by merely paying interest. This has been our store, without causing extra expense, and BY THIS METHOD we have successfully furnished individuals instruments at a saving of nearly \$125. We ship "Ludden & Bates" Pianos everywhere—memberships come from all over the South.

If interested in the fairest and best piano proposition ever offered, call or send for details and application for membership blanks. Address Ludden & Bates, S. M. H. Bull and York streets, Savannah, Ga.

THE NEWS.

Published at Statesboro, Ga.
TUESDAYS AND FRIDAYS.
By The Statesboro News Publishing Co.

Automobile manufacturers talk of selling machines as low as \$400 next year. When this materializes it will inaugurate a change of fashion. To show their superiority to the medium grade \$600 people the millionaires will be forced to give their devil wagons away and buy airships.

Says the Louisville Courier-Journal: "It has been found that three paymasters in the Japanese navy have embezzled \$165,000 of government funds, and that their peculations extended over a year without discovery. The disclosure seems to give assurance that the Japanese, after all, are a part of the great brotherhood of mankind."

If there is anything history teaches, declares the Omaha World-Herald, it is this: That when a race or a civilization becomes divorced from its religion, when skepticism succeeds faith and paganism displaces a living belief, then is the decline and fall of all the works of profiting impending. Neither individual nor race has any more enduring anchor than an impelling belief in things hoped for, but not seen.

Hon. O. P. Austin, chief of the Bureau of Statistics writes as follows, in The National Geographic Magazine, without transportation there can be no commerce. As civilization has advanced, commerce developed, transportation cheapened, and the wants of man expanded, the importance of the commercial price of the freight has increased until its value has today reached the enormous sum of nearly \$600 millions of dollars per annum.

It is gratifying, confesses the Baltimore Herald, to hear that investigators have at last turned their attention to the then "higher up." The tendency has too often been to devote inquiries to the small fry sinners and to rest satisfied with the punishment of those for crimes against society. Traced to a definite conclusion, it will generally be found that the little fellows who prove such convenient scapegoats are really only the tools in the hands of men of higher standing and "unassailable respectability," who have actually profited most by the wrong doing. The big fellow plays the crookedness and turns it over to the less conspicuous individual to execute, reaping the lion's share of the pecuniary benefits and escaping the taint of actual participation. The more of this crew dragged into the limelight and punished the less we shall hear of extensive frauds and wholesale grafting.

If a line be drawn of approximately 400 miles from Washington to Boston, states the New York World, it will pass very close to Baltimore, Philadelphia, Trenton, New York and New Haven. Mark on the map a strip of twenty-five miles each side of this line and you have an area of 20,000 square miles lying in eight states and the District of Columbia. It is less than one-fourth the size of Kansas. Yet this narrow belt is inhabited by nearly 12,000,000 people. The central portion of that strip, including New York, Philadelphia and the towns between and just beyond, contain nearly 8,000,000 souls, in an area about one-fifth part that of Texas. This strip includes the capital of the nation and its metropolis. It is growing in population much faster than the United States as a whole, and its political, social and financial importance in the nation is increasing not only absolutely but relatively. It surpasses in wealth, power and population a strip of like shape drawn from Berlin to Amsterdam, from Paris to Marseilles, or from London to Edinburgh. The only equal arer on the surface of the globe that still surpasses it in these respects is a parallelogram of different form, say 100 miles by 700 miles, drawn to include London and Manchester. And even the heart of England will soon be passed by this heart of the Republic.

BOOM IN EDUCATION.

Great Progress Made in the South During the Past Year. The Southern Educational Association and the Association of Colleges and Preparatory Schools of the Southern States met in joint session at Nashville Thursday. The attendance was large, educators being present from every southern state.

The reports of the superintendents showed remarkable educational progress in the south during the past year. Especially was this the case in Tennessee, Georgia and Alabama.

TO PROBE CHARGE

Conference to Pass Upon the Views of Dr. Bradley.

ALLEGATION IS HERESY

In Justice to Note Divine Many Del. egates Second Motion to Appoint New Investigating Committee.

The session of the North Georgia conference in Newnan Thursday morning was the most sensational and developed three most interesting features.

At the request of Rev. J. N. Snow, and by a vote of the conference, a new committee was appointed to look into and thoroughly examine the charges of heresy which are being preferred against Dr. Bradley, of Trinity church, Atlanta.

When the name of Dr. Bradley was called at the morning session, and the usual question asked by the presiding bishop, "is there any charge against the character of Dr. Bradley?" the presiding elder of the Atlanta district, Rev. Eakes, arose and said:

"There is no charge against him, bishop. Some time ago charges of heresy were preferred against Dr. H. S. Bradley, and after correspondence with you, they were withdrawn to appoint a committee of investigation. They met and after an exhaustive examination returned a verdict that in their estimation there was no trial for heresy necessary. There is, therefore, now nothing against the character of Dr. Bradley."

As soon as Dr. Eakes had taken his seat Bishop Duncan asked if Dr. Bradley wished to say anything to the conference. Dr. Bradley arose and stated that he did not know that there was anything for him to say. Tall and thin, and in a voice far reaching, Rev. Snow addressed Bishop Duncan as follows:

"In the case of Dr. Bradley, I wish to call for a new committee. And with the privilege of the bishop, I shall state my grounds for such request. And now, much fought, the bishop said: 'I know what you mean to do. You could not see whether or not you could see it. But I do not know then simply stated that he had new evidence and had reason for leaving the old evidence gone. At the close of his remarks, Dr. Bradley arose and said:

"I do not wish anything which I may say to lead any one to believe that I would not be glad to have a committee of investigation. I am sure the conference for one purpose, could decide whether I was teaching doctrine acceptable to them or not."

Dr. Bradley in his presence before the conference presented a letter to be remembered figure. With his bright, penetrating eyes and his cool, quiet demeanor, and a simplicity of manner and frankness that could not but be commended, he continued:

KING HAAKON SETS SAIL.

King Haakon VII, Queen Maud and Crown Prince Olaf started from Copenhagen Thursday in the royal yacht Dannebrog for Christiania. Great crowds gathered to witness the departure of the new ruler of Norway.

King Christian and other members of the royal family were at the landing stage, as well as cabinet ministers, diplomatic and court functionaries.

BAPTISTS IN SESSION

Georgia Convention Called to Order in Macon—Ex-Governor Northern is Again Made President.

When ex-Governor Northern called the Georgia Baptist convention to order Thursday morning in the First Baptist church at Macon, the large auditorium of that edifice was filled with delegates from every section of the state—over one thousand being present.

The session opened with devotional exercises, led by Rev. Dr. L. M. Brittain of Atlanta, after which the regular order of business was taken up.

The election of officers for the coming year was attended to as soon as the enrollment of delegates had been finished, and it resulted in ex-Governor W. J. Northern being re-elected president without opposition. The following other officers were elected: D. H. Hagblade, secretary; C. B. Chambers, assistant secretary; and C. B. Williamson, J. C. Solomon, J. S. Callaway and G. B. Campbell, vice presidents.

In an eloquent address, Frank A. Mulholland, of Macon, welcomed the delegates to Macon, and this was responded to by Dr. W. A. Smith of Columbus.

The balance of the morning session was devoted to having reports from various committees, and in the recognition of pastors who had come into the state since the last convention.

Dr. S. V. Johnston of Atlanta, read the annual report of the state board of missions. Many interesting facts and statistics were presented. The report showed that for some missions \$24,000 had been given. To foreign missions \$51,302 was contributed, and for state missions, \$31,000.

The contributions represent a total of \$107,000, against \$89,000 of last year. Dr. Johnston spoke eloquently of the mission work now being done by the denomination, in (China, in the islands of the great American cities and in the factory communities. It developed, too, in the course of his statement, that the remote mountain districts of Georgia are badly in need of mission work.

A feature of the day's session was the address by Dr. W. O. Cuyler of the Baptist theological seminary of Louisville, Ky. The address was interesting throughout, his talk, as he described what had been done by his institution, and he urged that more attention be paid to this kind of work.

The afternoon session was devoted to individual business, and to hearing the verbal reports of the Baptist schools and colleges not under the commission. The report of the commission on the work of the Sunday school board was also heard.

COST OF THE INAUGURATION.

Figures Just Given Out Show That \$175,791 Was Expended.

To inaugurate Theodore Roosevelt president of the United States, last March cost \$145,491, a greater sum than was ever spent for any previous inauguration. The details of this cost were made public Thursday in a report by General John M. Wilson, the chairman of the inaugural committee. Notwithstanding the large expense the committee has turned over a balance of \$14,730.

COTTON SKYWARD

Prices Soar on Publication of Census Bureau Report.

CROP FIGURES SHORTER

Amount Ginned to November 14 is Placed at 7,498,167 Bales—Ex-citement on the New York and New Orleans Boards.

At Washington Tuesday the census bureau issued a bulletin placing the amount of cotton ginned to November 14 at 7,498,167 bales.

In 1904 the product of the ginneries up to November 14 was 7,786,856 and in 1903 8,815,162 bales.

The total crop of 1904 was 13,451,337 bales and of 1903 9,919,969 bales. In 1904 about 73 per cent of the cotton had been ginned by November 14 and in 1903 about 69 1/2 per cent.

The production by states is as follows:

Alabama	945,918
Arkansas	312,104
Florida	55,612
Georgia	1,437,099
Indian Territory	183,550
Kentucky	471
Louisiana	283,074
Mississippi	664,170
Missouri	22,143
North Carolina	510,124
Oklahoma	173,839
South Carolina	914,772
Tennessee	1,825,242
Texas	10,396

Price Soars Skyward

On the exchange in New York, there was a wild bull movement in cotton following the giving out of the ginner's report. The May option advanced 37 points, or almost a cent a pound, in a few minutes. There was a jump of 40 points between two sales.

There was an excited scene on the floor of the exchange, as the brokers fought one another to buy. Estimates as to the showing of the report averaged close to eight million bales, and when the actual figures were published showing 7,498,167 bales ginned to November 14, the rush to buy followed.

New high records for the season were soon made. The confusion was so great that the different prices were being quoted at the same time, at different points around the rings in some instances there were gains of 10 to 20 points between sales.

Before the advance was checked March sold at 11 1/2 and May at 11 1/2 or 10 to 20 points above the low level of Tuesday, and about 10 to 20 points above the previous high level of session of November.

Joseph H. Healey was a leader of the movement which caused the staple to leap \$5 a bale within five minutes, adding \$50,000,000 to the value of total years' crop. Healey is said to have made about \$5,000,000. He controls personally 200,000 bales of "spot" cotton now in New York.

David J. Sully, who was at first reported to have regained his position as king of the cotton market, lost sensation two years ago, was suddenly found on the bear side of Wednesday's market. He was discovered that he made a shift from the bull to the bear side two weeks ago.

Excitement at New Orleans. With the ginner's report coming like a bolt from a clear sky, marked the most exciting day of the year in the New Orleans cotton market. From the lowest to the highest the range in prices throughout the active future positions ran as high as 106 points and the net gain over Tuesday's closing after the satisfied house had taken profits was from \$7 to \$9 points, or from \$4.35 to \$4.45 a bale. Scores of indescribable excitement pervaded the ring as the wild bull movement sent prices skyward.

Nearly every bull looked for a report of 8,000,000 and few of them were supporting the market, except with cotton they had bought below 10 cents. With the reading of the report, the ring became immediately a frenzied mass of howling brokers.

The greatest amount of money made in the present rise is credited to the country buyers from the outside. The professionals made little on the day. In the opinion of well-informed cotton men it will be difficult to purchase spots from this time on at less than 12 cents per pound in the interior, and a tremendously exciting day ended with the belief pretty general that the prospect of a crop equaling the consumption was no longer to be looked for.

METHODIST DIVINES

Of the North Georgia Conference Voted in Thirty-ninth Annual Session at Newnan.

The thirty-ninth annual session of the North Georgia conference of the Methodist Episcopal church, South, was called to order at Newnan by Bishop Lusk at 9 o'clock Wednesday morning.

The feature of the opening day was the appointment of a committee to investigate certain charges against the character of Dr. W. W. Wadsworth, which developed when the report of Rev. J. W. Quillian of the Robertson district was made.

He made a splendid report regarding the work, and when the bishop, as is customary, asked whether there was any report regarding the character of the ministers of his conference, he said all were good, except for "one name," which the conference now knew when Dr. Quillian said down, a gentleman arose in the body of the audience and asked Dr. Quillian if he had reference to him in his last remark.

The man was Dr. W. W. Wadsworth, and who was recently tried by an investigating committee at his home, Hartwell, Ga., and found not guilty.

Dr. Wadsworth said he thought the proceedings of the presiding elder stating the matter as he did to the conference was unkind and unusual.

He said that the presiding elder knew that the committee had found him not guilty, and that there was no reason for him to do other than report that not one person in his district had anything against his personal character or life.

Dr. Quillian stated that he thought he followed closely the Methodist law in proceeding as he had, but that if the bishop thought otherwise, he would be glad to correct himself.

Dr. Wadsworth asked to speak on the place of personal privilege, and said he did not think he was being treated justly. He said that he had never seen such a precedent as this before. He said he could add was willing to stand any number of trials, but that he did not want this new committee appointed, as there was absolutely no use in doing it. He said he was troubled that he should be so isolated in public as this being before the matter up before the conference was doing. He said he thought it was unkind and unbrotherly to give him the humiliation of the public discussion.

Conference voted to appoint a new committee. Dr. Wadsworth has been prominently connected with Methodism for many years. To his friends the charge of immoral conduct on his part came as a great surprise.

The roll was called and showed a goodly number of delegates present—have been at an opening roll of the North Georgia Conference before.

The conference re-elected Dr. John Helot as secretary of the meeting. His popularity and good work have served to make him a fixture in the North Georgia Conference, where he has for thirty years served faithfully and efficiently as secretary.

Rev. M. J. Cofer, the popular business manager of the Christian Advocate, made a strong and stirring speech in regard to the work which The Advocate had done during the past year. He showed that The Advocate had made more progress in the past year than ever before, and that it was planned to give better service to the church through it during the coming year. He thanked all those who had helped him in the work of building up The Advocate.

At the conclusion of the address of Mr. Cofer, conference went into the hearing of reports from each presiding elder regarding the condition of the work in their districts.

NAVAL CADET CODE

At Annapolis Academy Subjected to the Limelight.

A MIDSHIPMAN ON TRIAL

Meriwether Arraigned for Death of a Fellow Cadet—Some Unwritten Laws, Contrary to Regulations are Revealed.

Midshipman Minor Meriwether, Jr., of Louisiana, a member of the third class of the naval academy, was put on trial at Annapolis, Md., Wednesday before a naval court-martial on charges that include that of manslaughter in having caused the death of Midshipman James R. Branch, Jr., of New York, a member of the class above him, as a result of a prearranged fist fight which took place on the evening of Sunday, November 5, last.

An operation was performed on Midshipman Branch the next night, but he died on the following Tuesday morning. The death incident of the death of young Branch, under such circumstances, has been widely noticed and has called attention to the existence at the naval academy of an unwritten code governing the student body, but quite outside the authoritative regulations and generally in violation of them.

Under the "code" every detail of these lights is fixed, the midshipmen on duty abstaining from reporting those connected with them. These facts were very clearly brought out both by the judge advocate and in the cross examination by Lieutenant Commander Robinson, for the defense.

Midshipman A. W. Fitch, who referred the fight which was followed by Branch's death, stated that he had officiated in nineteen such contests and Midshipman McKittick testified that he had taken part in nine. Detailed accounts were given of the arrangements by which the midshipmen on duty abstained from reporting those connected with them. These facts were very clearly brought out both by the judge advocate and in the cross examination by Lieutenant Commander Robinson, for the defense.

Remember not to take up any time coming to Statesboro to trade on Thursday, as that day is Thanksgiving and most all the stores will be closed.

Col. Lester says he will give the other fellow a show. We would like to know just who the Lucy man will be.—Liberty Co. Herald. The answer is easy.—BRAN-NEN.

A primary election is on in Statesboro today without even a solitary, single candidate for a single office to be filled. Has it really come to pass that the office is seeking the man? Let us hope so at least.

Attention is called to the announcement of the candidacy of Col. F. H. Saffold which appears in this issue. Col. Saffold has a large number of warm friends in this section who will give him a warm support in his race for the judgeship of the middle circuit.

The scheme of our friends down beyond the confines of Yamacraw is to get a favorite son out for congress in as many country counties as possible, then all bunch in the convention and elect a Savannah man. It looks as if at present, however, that they are having an up hill business bringing out favorite son candidates. Everybody with a shamble full of sense can see through the little scheme.

Olson's Red Letter Sale.

Of course you have already read the big red letter advertisement of Messrs. Turner-Gilson Co. on our front page today. We presume that you stumbled onto that the very first thing when you picked up the paper. Now if you will only take the trouble to stumble onto their place of business, which, by the way, is one of the largest and best selected line of new goods to be seen in the city, you will have no cause to kick because these things caught your eye. They have in at least a \$12,000 stock of goods and have some exceptionally fine bargains to offer.

Pleased With Our Road Machine

A party of gentlemen from Effingham county were over here one day last week to look into our road system with a view of adopting something similar. This party was composed of Messrs. P. M. Edwards, B. J. Cubbidge, R. P. Mallory, J. M. Thompson, B. K. Shearouse and L. F. Grovenstein. They were shown our system and its working and went away determined to adopt something like it. They were all highly pleased, not only with our roads but with our town and county.

City Primary Today

The white primary for the selection of a mayor and board of councilmen for the next twelve months, will be held today. The polls will be open at 8 o'clock and remain open until 5 o'clock this afternoon.

It is generally believed that the place of mayor will fall upon the shoulders of Col. R. Lee Moore, Col. Johnston, the present incumbent, having declined to allow the further use of his name.

Just who will make up the board of councilmen is rather mixed. There seems to be no special desire on the part of any body to fill the place and any number of gentlemen positively refuse to accept if elected. Among those who were mentioned on yesterday are the following: Perry Kennedy, S. T. Chance, J. D. Blitch, J. E. McCracken, S. J. Williams, E. L. Smith, W. B. Frazier, S. O. Crocker, F. N. Grimes, T. J. Denmark and others. Among so many good names to select from it seems to us that a ticket might be made out of the above.

Georgia's Special Cause for Thanksgiving. Apart entirely from the many tangible reasons which Georgia have from the standpoint of material prosperity for joining heartily in the thanksgiving schedule for Thursday of next week—and which, by the way, should be given on every other day of the year as well—there is one phase of the general blessedness enjoyed by this state that seems to call for special comment.

In many other parts of the country—Missouri, Wisconsin, in Pennsylvania, and elsewhere—the people have cause for special rejoicing over the fact that, after great upheavals, rascality in high place has been overthrown. Here in Georgia we can honestly, and without any holier than thou pose proclaim that our special cause for thanksgiving lies in the fact that we have now, as we have had under democratic administration for several decades, purity in public service and honesty in all branches of the government to a degree not exceeded by any other civil government on earth.

We have among us a few men who inspired solely by selfish motives, have sought to pose as LaFollette and Folks and Weavers; but they are mere imitations of the weakest sort. While they parade throughout the state crying down maledictions upon the heads of all office holders, past and present, they do not even attempt to bring charges of corruption or maladministration against any of those embraced in their general traductions.

The people of Wisconsin have honored LaFollette, the people of Missouri have honored Folk, the people of Pennsylvania have stood squarely by Weaver because—and solely because—these men not only disclosed the presence of actual corruption in the state and city administration, but were brave enough and manly enough to make an open fight against the corruptionists. They were not honored simply for raising a cry, but because they laid bare conditions which called for drastic remedies; and because they did this in an open, honest, manly way that impressed the people with their sincerity and their safety.

Conditions in those states called for the overthrow of corruption. Conditions in Georgia, it is known to all men, have shown absolutely not a single case of corruption in high office—not a single case of dereliction to duty on the part of any of the states public servants. Vague insinuation there has been; but when furnished the opportunity to specify—to point out the individuals under suspicion—the critics have not failed to do so, but realizing that they had nothing with which to sustain their general criticism they had not even attempted to do so.

Responding to general talk about possible wrong doing, the legislature of Georgia has upon two separate occasions within the past few years, appointed committees of investigation. One of these was the Blalock committee, the other the Hall committee. These committees were composed of able, honest and efficient members of the general assembly, and no man can say that in the membership of either committee there was a single legislator who sought to cover up or to whitewash.

The result of these investigations, as known to all men, demonstrated more clearly than ever before that the state government of Georgia in all its branches—executive, legislative and judicial—is without reproach.

In the midst of the disclosures relative to crooked methods prevailing at the New York state capital in reference to insurance companies and insurance legislation, it is, to illustrate the difference between New York and Georgia, most gratifying to learn from so capable and so highly honorable an official as Insurance Commissioner Wright that there has never been a time when his efforts in behalf of policy holders and the

people have not met with prompt and ready response at the hands of the legislature. General Wright states that he has never suggested a change in the laws—has never made any suggestion regarding possible legislation—which was not immediately accepted by the legislature of Georgia and without opposition; and there is no man in this state but will bear eloquent testimony to both the integrity and the efficiency of William A. Wright.

So it has been in all other branches of the state's service. We in Georgia have reason to be supremely thankful because there is nothing in our state administration, from one end to the other, that in any way involves the character, the honesty or the ability of those who administer the affairs of the state.

We are thankful because material conditions from one end of the state to the other show progress and prosperity; and we are especially thankful because the conditions, as is known by all men, give no warrant for the howling of the Calamity Howler who hopes by weak imitation of the real reformer to ride into office.—Atlanta Constitution.

Big Sale Was Success.

The big sale at Clarys was a big success on Saturday. The store was crowded all day and until a late hour at night. The management informs us that they had the best day on Saturday that they had this entire season. They carried a half page ad. in Friday's Statesboro News, and it did for them as it does for others—bring the crowds. They authorize us to say that the sale continues during the week. There is a genuine bargain for all those who come.

In Time of Peace.

In the first months of the Russian-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have alighted their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use, for sale by all druggists.

Messrs. R. Simmons and P. R. McElveen returned on Friday morning from Valdosta where they attended the Sea Island Cotton Growers Convention. Mr. Simmons was elected one of the members of the executive committee of the same. Statesboro Party

Killed Fifteen Deer.

A party of Statesboro hunters returned to Savannah last night from Ossabaw Island, after a two day's hunt, bringing with them fifteen fine deer and a quantity of ducks. The party all expressed themselves as having a fine trip in every way. The fifteen deer they killed exceeded in weight twentyodd that were killed by another party recently. They were the guests of J. W. Larissey while on the island. The party came from Statesboro, with the exception of Mr. Nat Hughes, who is from Stillmore. The others were Judge J. F. Brannen, Dr. J. B. Cane, Hon. T. B. Thorne, Lieut. O. E. Cane, Mr. S. J. Williams, Mr. F. E. Field, Mr. R. F. Lester, and Mr. W. S. Pretorius. Lieut. Cane killed his first deer on the hunt and was given the usual blood smearing.—Savannah News.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitution remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a humming sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by this method, which is nothing but an inflamed condition of the mucous surfaces.

We offer one hundred dollars for any case of deafness (cause by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c.

Doings In The Local Field

Mr. L. E. Allen came in on yesterday and stated: "I owe only one dollar in the world and I want to pay that," and he proceeded to do it by having his subscription to the Statesboro News marked up another twelve months.

FARM FOR SALE.—Three hundred and forty acres, two miles from Waycross, sixty acres in cultivation, fifty acres stumped, all high and dry land, except a deep branch, on one of the boundary lines, sufficient for watering stock, one mile of wire fence, farm house and barn, price reasonable, apply to J. R. Knight, Waycross, Ga.

The party who bagged so many deer on Oasabaw island are all back and happy. They have been kept busy telling the boys how it all came about.

Mr. Joseph Tillman, of Jimpe, spent several days the past week visiting his brother, Mr. J. E. C. Tillman at Pineora.

Mothers everywhere praise One Minute Cough Cure for the sufferings it has relieved and the lives of their little ones it has saved. A certain cure for Coughs, Croup and Whooping-Cough. Makes breathing easy, cuts out phlegm and draws out inflammation. Sold by W. H. Ellis.

Mr. H. H. Moore has just received returns from eight sales of Florida cotton which he sold at 18-1-2 cents per pound. Mr. Moore furnished one stalk of this cotton for the county display at Atlanta which was pronounced by all to be the best stalk of cotton at the fair.

Mr. W. R. Akine Jr., of Easterling, after spending a day or so with relatives in this county, returned to his home yesterday afternoon. Mr. Akine called at the News office, renewed his own subscription and that of one of his neighbors, and also handed in another new one. He seems to be prospering in his new home.

Messrs. Morgan and Amos Akine have just returned from a few days trip to visit relatives in Liberty county.

A New Industry.

Our good friend, Mr. J. B. Iler, called for us on Saturday and stated that if we had any desire to see the prettiest thing in the way of genuine truck farming that he had ever looked at, his buggy was ready and we would drive to his place on Savannah Avenue to see his cabbage bed.

Mr. Iler has enough plants to set out at least twenty-five acres of cabbage as pretty as any we ever saw in May. They are now about ready to set out and his ad. will be found in another column. He has used every precaution to get the very best seed, using the famous Pet Henderson seed, Early Jersey and Charleston Wakefield, and will be pleased to furnish all those who may need them with good plants. See his ad. in another column.

BROOKLET.

On account of continued sickness Brooklet is rather quiet now.

Mr. J. N. Shearouse, Mr. Remer Warnock and Miss Etta Hall, all of our town, who have been quite sick, are now on the road to recovery.

Cane grindings are all the go now around Brooklet.

The birthday party given by Miss Myrtle Robertson on last Monday night was enjoyed by all the attendants.

Mrs. T. E. Hays, of Statesboro, is staying with her sister during her illness.

Rev. Mr. Crumpler will fill his last appointment at Brooklet church next Sunday night. He cordially invites everybody to come out and near his farewell sermon.

Thanksgiving is close at hand. We will kill the big turkey.

The teachers and pupils of Brooklet school are arranging a very nice program for Thanksgiving. The exercises will be given on the afternoon of the 29th of November.

Brooklet is still growing. There are several new houses being erected.

Miss Bertha Lee spent a few days last week with Miss Minnie Sease of Ludovic.

Dr. H. I. Simmons, of Haley-ondale, speaks of moving to Brooklet this winter.

Barn Burned at Blith.

On Friday night about twelve o'clock the roaring of the flames awoke the family of Mr. J. C. Goolsby living near Blith, and the barn and stables were found to be in a light blaze. The building and its contents, such as corn, fodder, and other agricultural products were a total loss. A fine cow that was in a stall in the burning building was also destroyed.

We understand that there was no insurance on the property. The origin of the fire is unknown, but thought to have been the work of an incendiary.

Chapped Hands.

Wash your hands with warm water, dry with a towel and apply Chamberlain's Salve just before going to bed, and a speedy cure is certain. This salve is also unequalled for skin diseases. For sale by all druggists.

Miss Wood Entertained.

Miss Polly Wood entertained a few days ago with a "Peanut" party at the Brooks House in honor of her cousin, Miss Mable Wood, of Jacksonville.

Those present were: Misses Mary Cone, Anna Hughes, Tilla Hughes, Agnes Parker, Beatie McCoy, Maude Brannen, Gertrude Rountree, Della Wilson, Mable Wood and Polly Wood; Messrs. Orville McLemore, Dell Anderson, Frank Groover, Harvey Brannen, Joe Ben Martin, Charlie Mathews, John Stamps, Dan Lester, Wesley Cone and Homer Lee. Maude Brannen and Frank Groover won the first prize and Agnes Parker and Homer Lee the booty.

Miss Wood and Miss Dowson received. Dainty refreshments were served in the dining room which was beautifully decorated for the occasion.

Sells More of Chamberlain's Cough Remedy than All Others Put Together.

Mr. Thos. George, a merchant at Mt. Elgin, Ontario, says: "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada, and I sell as much of it as I do of all other lines I have on my shelves put together. Of the many doses sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best results." For sale by all druggists.

Mineral Springs in Bulloch.

Parties coming to town from that section of the county lying along the Canoochee river report that there has been discovered a mineral spring on the land of Mr. Parker near Claxton, in this county. STILLBORN

Our little town is still on the boom. Two new residences and one new store are nearing completion.

Mr. Zack Brown will soon be a resident of our prospering little town. He is having an extension added to his house which he will occupy in the near future.

Hon. T. B. Thorne, together with a party from Statesboro, passed through here Friday with fifteen fine deer which they slaughtered on the Oasabaw island. The lifeless bodies of fifteen deer in one pile was a sight for us Stillborn folks to see.

The Stillborn Debating Society has been reorganized for the winter and the first subject discussed, "Resolve that Columbus deserves greater honor for discovering America than Washington for defending it," was hotly contested Friday night and was decided in favor of the affirmative.

A bright and merry little party of young folks enjoyed a grand straw ride in a two-horse wagon last Friday night. They attended the cane grinding at Mr. James Wright's where they were entertained with various games and refreshed with delicious juice.

Mr. R. J. Brown, of Brooklet, spent Sunday with home folks.

Dr. D. B. Brawell has been confined to his room with fever for several days.

Cane grinding is in full bloom and everybody seem to be enjoying them.

Company Failed

to Get Captain.

Company A, First Georgia infantry, located at Statesboro, Bulloch county, which gained notoriety in connection with the double lynching in that county something more than a year ago, was disbanded yesterday by orders issued from the adjutant general's office and has now gone permanently out of business.

The trouble with the Statesboro appears to have been its inability to secure a captain. The company's last captain, H. J. McMillan, resigned some two years ago, a considerable time before the Statesboro lynching took place.

At the time of the lynching the company was in command of First Lieutenant C. E. Cone, whose second lieutenant was H. L. Griner. Both of these officers have remained constantly with the company since that time, and each has been tendered the captaincy but declined it for business reasons. The company has had the same difficulty in securing a captain elsewhere, and for this and other reasons, it is stated, has practically requested its own disbandment, through its officers. It is stated at the adjutant's office that the company has a full complement of men, and outside of the fact stated there was no complaint against it for lack of interest at the present time.

This was one of the companies called out by the governor and under command of former Captain R. M. Hitch, of Savannah, whose Savannah company was also with him, on the occasion of the trial of the two negro murderers, Reed and Cato. After the negroes had been tried and sentenced to be hanged a mob formed, took them away from the militia and lynched them. The affair led to a court martial of the officers involved, following which the captain commanding was dismissed from service of the state. Both Lieutenants Cone and Griner were tried before the court. The former was acquitted of the charge against him, while Lieutenant Griner was found guilty on certain specifications and reprimanded by the governor.—Atlanta Constitution.

Smith-Howell Debate.

Columbus, Ga., Nov. 28.—The Smith-Howell debate is a great topic of discussion in Columbus nowadays, and the advocates of each candidate are convinced there will be much excitement here on that day.

The question of the time for holding the debate has arisen, and at first it was thought it advisable to hold it at night, but as the opera house, the only large auditorium in the city will be used that night by a theatrical company, it will be impossible to get it. As the court house would not do, and the out-of-door debate out of the question, the only thing possible is an afternoon debate, from one to four, or two to five o'clock. This would enable people from the surrounding country to come to Columbus in the morning and return home that night, most of the incoming morning trains arriving here from nine until ten o'clock, and they leave from five until nine-thirty at night.

Enormous crowds are expected in Columbus on the day of the debate, large delegations being expected from Macon, Atlanta and other cities some distance from Columbus, besides those from the towns and villages. The opera house will seat, with chairs on the stage, about 2,000 people, and it is expected that there will be half that many turned away on the afternoon of the debate.

Refused Permit for Fertilizer Plant
Acting upon a petition from the property owners in East Statesboro hear the site of the proposed plant of the Statesboro Guano Factory council, at a special session, refused to grant a permit for the erection of a fertilizer plant on the lot near the railroad crossing. This action was taken after part of the material had been placed on the ground for the erection of the building. It is not known if Mr. Litchstein, the promoter of the plant, and his associates will take the matter into the courts or arrange for a site at another place further out of town. Council expressed its willingness to grant a permit for the erection of the plant where it will not be objectionable to the property owners.

His death came soon afterwards.

The funeral was held at Friendship Baptist church on yesterday morning, Rev. T. J. Cobb conducting the services. Mr. Lee was the father-in-law of Mr. W. T. Shuman of this place and lived with him.

Give False Alarm.

On Tuesday afternoon at five o'clock, when the "big duke" gave the alarm of fire, and the chief, Maull, together with his force of fire fighters made a dash for the town reel and went flying down South Main street, what looked like was to be a panic took place. The streets soon filled up, and everybody was ready to go on break neck speed to see the boys put out the fire, but some racial shouted out, "False alarm, they are just trying the speed of the boys." This gave it away and all the fun was spoiled with the crowd.

The boys made an excellent showing. No ordinary size blaze could have resisted them long.

The Cotton Market.

The market has shown considerable activity during the past week. Short cotton is selling now in the local market at and above 11 cents while sea islands are selling at 18 cents for good cotton. There is a feeling all along the line that prices on both long and short staple will advance. Parties in a position to guess pretty well say that 15 cents for short and 22 cents for long cotton will be seen by February the first.
