WE WANT Everybody to know

That Statesboro is the best place in this section of Georgia to trade, and that Turner-Elisson Co. is the best place in Statesboro. We are determined to do our part in impressing this great fact upon the people of this section. That is why we advertise—that is why we have special sales—that is why we give such big values.

WE SELL EVERYTHING FOR EVERYBODY TO WEAR.

We guarantee the price of every article we sell to be the lowest in the market. If you buy an article of us and some one else offers you the same goods for less money, you may return our goods and get your money and buy their's. We have only one price, when we cut we cut to all alike

We are the only firm that guarantee their prices. We guarantee them against everything and everybody. We do not propose to be undersold on a single article. Everybody should buy every article where they can get it for the least money. That's our doctrine; the more we get people to believe in it the more our sales increase. If it is something to wear, no matter what quality you want, see us.

Reunion Of Bulloch

Troop At Summit Dec. 1.
(Forst-Blade)

The names and ages of the members of the Company who were present has already been given through your columns. But it is but justice to the citizens of Summit and vicinity, that we return thanks for the striking manifestation of their friendship by the bountiful and splendid dinner that was spread on that occasion, the long table was loaded down with every good thing that a hungry person could wish for, consisting of cakes and pies, barbecued pork, mutton, beef and kid, in fact it was said by some that there was enough left to feed another such a large crowd. But that is the way that big hearted people do things. The stores were all closed and the citizens did all they could to add to the pleasures of the old soldiers, which they certainly appreciated. The Company numbered 115 men when they went to the front, mostly from Bulloch and Emanuel, there was 81 present at the reunion, with about 10 or twelve absentees, making about 48 members now living, and as one that was surrounded with the Company at Hillsboro N. C. on the 26th of April 1865, I can safely say that a more noble and devoted set of boys never went to the front than they. I am always proud of them whenever and wherever I meet them. It was a day of pleasure and one I will not forget. There was not a jar to interrupt the continued flow of enjoyment.

We were proud to have with us a number of grand old veterans who did not belong to our Company and who did all they could by their help and presence to make everything a success.

It was a time of joy and gladness to see the old boys meet and clasp hands, with tears in their eyes, (some of whom had not met in 40 years) and talk over the happenings of the days that tried men's souls. Bulloch, Emanuel, Thomas, Screven, Toombs, Tattnall and Johnson were represented by members of the old Company, but they came and left hoping to meet again.

The reunion on the 1st was the first Company reunion that we have had since the war and a resolution was adopted to have one annually as long as there is enough of the old Company left. The next

Will be at Metter on the 1st Wednesday in November 1906.

I would do injustice to my feelings were I not to return sincere thanks to Col. Alfred Herrington who, by invitation, delivered such a splendid address to the old soldiers, such as can only come from a brilliant mind, and a heart full of love. It was both instructive and consoling to the old veterans. The ages of the members of one Co. now living run from 59 to 77, unmistakably showing that we are now passing through the Saturday evening of life. One by one we are crossing the river, and soon, very soon, there will not be one left to tell the old story.

Then, it will rest upon the shoulders of the sons and daughters of the confederacy, the latter through the press and forum the rostrum have pledged their undying devotion to the righteousness of the principle of which the Southern soldier fought, and the former, whose veins flow with the blood of their father, will do as well.

Guano Factory Dissolved.

The stockholders of the Statesboro Guano factory held a meeting yesterday, and owing to the fact that they could not secure a site it was decided to dissolve, and consequently there will be no factory erected here.

Shooting Scrape.

A small sized shooting affray took place at Field's still, about two miles from town, on Saturday. The participants were Bud Bowen and Raymond Sutton on one side and Stump Stamps on the other. Several shots were exchanged but no very serious wounds are reported. Stamps has two fingers pretty well lacerated by a load of small shot from a gun in the hands of Bowen. Sutton was given a preliminary hearing yesterday and was committed under a \$25 bond.

Died Very Suddenly

On Saturday afternoon, Dock Pelot came in the house at his mother's home, a few miles from the city, and complained of feeling badly. He sat down in a chair and gave one or two gasps and fell over a dead man. A physician was called but the young man had been dead for some time before he arrived. He was about twenty years old and was well liked by all who knew him.

The remains were interred Sunday morning at the cemetery at Bethlehem church. He was the son of the late David Pelot.

Don't Trade for These Notes.

The public is warned not to trade for two notes for \$100 each, given by J. M. Fordham to Harriett A. Parrish. I have garnished the maker on a judgement due by said Harriett A. Parrish to me, and judgement has been rendered against said Fordham on said note. Debtedness in the justice's court of the 120th district, Bulloch county. Dec. 11, 1905.

M. J. Cowart.

Mr. McLenore Resigns.

At the morning services at the Baptist church on Sunday morning, Rev. J. S. McLenore, the pastor, handed in his resignation as pastor of the church to take effect January 1st. The reason given for his action is that he believes that he can do a better work elsewhere. It is understood that he has several calls from churches in different sections of the state.

Mr. McLenore came here about three years ago from Guyton, and has been pastor of the Baptist church ever since. During his residence here he has made numerous friends who regret very much that he has decided to leave us.

Mr. Rackley Buys Store.

Mr. W. J. Rackley of Egypt, was in the city yesterday and informed us that he had bought the store house now occupied by Bennett's photograph gallery, and will open up a stock of fancy groceries in it after the first of January. The property formerly belonged to Messrs. C. M. Rushing & Co., at Claxton. The price is said to be \$5,500.

Brought Copeland Back.

Sheriff Kendrick arrived home yesterday with Fletcher Copeland, the negro who bulldozed Whiteville, a negro suburb of Statesboro, last spring with a Winchester rifle. Copeland was indicted and gave bond and afterwards sought safety in flight. He was followed to Florida by the sheriff and lodged in jail on yesterday.

New Store at Stillson.

Mr. C. C. Newman, of Stillson, was in town on yesterday and placed with us an order for stationery for his new place at Stillson. Mr. Newman expects to open the latter part of this week. He will carry a full line of up-to-date merchandise. We predict for him a large share of the trade of that section.

It Pays to advertise.

When asked, did that red page
ad. pay you? Mr. L. C. Gibson
answered that "If it didn't I
would not be writing another one
for your paper." He stated that
he had more business than they
ever did before in any one day
and they have had some big days
before. He stated that while it
was true that there was com-
paratively a very small profit in
the goods sold, yet, the great
volume of business enabled him
to be satisfied with a very small
percentage.

This is true, the man who ef-
fectively advertises draws to him
that class of trade, who are hunt-
ing for bargains, people who will
walk right by a dozen stores in
order to reach him, and his volume
of trade is increased, hence, he
can really sell much cheaper than
the fellow can who sits around all
the while in the foggy way and
sweats over his old shelf - some
goods that have lain there so long
that the dust has not been brushed
from them in weeks. The people
like to buy where goods are mov-
ing and the man who advertises
and draws the trade is the man
who can move the goods.

Fifteen Cent Cotton.

The cotton growers of the
South, through and with the as-
sistance of their organization, the
Southern Cotton Association, are
slowly but surely winning the
great commercial battle ever
known to the world. They are
being applauded by millions of
people who are watching the great
fight that is being successfully
waged by them to throw off the
yoke of the thief and speculative
manipulation that has held them
so long, and has been enabling the
speculators to grow enormously
wealthy at the expense of the poor
farmer.

Those who stood loyal to the
association and accepted its ad-
vice as given last January, to fix
a price of 10 cents per pound on
their cotton - demand it and get
it - did so, notwithstanding there
were thousands who "cried their
fears" by saying: "Impossible,
foolish," etc. The amount of
cotton held by the loyal ones was
sufficient to bring the price to 10
cents before the present crop was
ready for market.

On September 7th the associa-
tion advised farmers to ask 11
cents for their cotton, as condi-
tions fully warranted that price.
Many fixed that price and sold
for it.

Now, on December 1st, the fact
that the crop is very short has
been established beyond the shadow
of a doubt, and only a small
remnant of that left unsold, also,
that the markets are bare of dry
goods with future prices enorm-
ously advanced, cotton mills
loaded down with contracts and
orders for goods several months
ahead, and only with about one-
half enough cotton in sight to fill
them. Will they pay 15 cents for
cotton? Why, of course, they
will if you ask it! If you do not
they will take it at 5 cents, as
they have done in the past.

Decide for yourselves - let them
have it at its actual value, 15
cents, or let them take it at their
price, 5 cents - it is yours - do as
you please, but remember that if
you sell for less than its value, 15
cents, you are not only injuring
yourself, but every other owner of
cotton is being denied his price
while you are giving yours away,
which prevents the advance as
long as they can get it for less
than its value.

Hundreds of thousands of bales
are being "lugged" to the Southern
Cotton Association for 15 cents,
enough to force the price to its
value very soon, unless buyers can
get yours that is not pledged at
their price. In this event, the
price cannot reach its value until
yours has been taken out of the
way and at their price - then the
loyal ones will again reap the bene-
fits of their Association's hard
work in their behalf.

RICHARD CHEATHAM,
Sec'y So. Cotton Association

Every Ounce You Eat.

Every ounce of food you eat that

or Judge of Middle Circuit.

To the Voters of the Middle Circuit:
I think it proper at this time to an-
nounce the fact that I will be a candi-
date to succeed myself as Judge of the
Middle Circuit. For eight years I served
the people of the Circuit as Solicitor Gen-
eral, endeavoring at all times to dis-
charge the duties of that office with
fairness, impartiality and courtesy.
Upon the promotion of Judge Evans
to the bench of our Supreme Court I
was an unopposed candidate before
the people for the Judge-Ship to fill
out his unexpired term of two years.
My unanimous election to this office
necessitated a complete abandonment
of my law practice. I submit that I
am fairly entitled to at least a full
term. If in your judgment I have made
an efficient and impartial judge of
that section of our state, I am with
faith on my own behalf, except that I
have labored earnestly in practically
every case that has come before me
to render efficient service to the
people. Whether I have succeeded or
not others must say. If so, I am fairly
entitled to an endorsement of my ad-

THE NEWS.

Published at Statesboro, Ga.
TUESDAYS AND FRIDAYS.

By The Statesboro News Publishing Co.

All American States except Alabama, Georgia, Kentucky, Louisiana, South Carolina, Vermont, Virginia and West Virginia the date of inauguration of Governors is in January. Only one State in the country, West Virginia, adheres to March as the month of inauguration.

Australia is up to date in many things far in advance of such conservative countries as the United States. For instance, Australia has a "press agent," one John Plimmer, a Sydney newspaper man, who receives a salary of \$2,000 a year to keep British, American and Continental newspapers informed of the latest doings of the lively Commonwealth of the Southern Hemisphere. He seems to be already busy.

It is evident that the rural delivery has come to stay, and that the expense of extending it must be faced in any calculations for the future, says the New York Tribune. The initial cost of establishing new delivery routes will continue to be a serious drain on postal revenues. Yet the necessity of this extension is beyond question. As a means of education and of national development the rural free delivery experiment has already proved its worth, and as the system grows it will become more nearly self-supporting.

Says the Boston Traveler:—If you are not well, don't talk about it. To do so only exaggerates your consciousness of physical discomfort. Also, it casts a shadow of gloom over other people. They grow restless about asking you how you feel; it gives them cold chills to be continually told that you are "not very well," or "do so well," or "about the same." Do you know that a good deal of this is imagination? If you braced up and told people cheerily that you felt tip-top, nine chances in ten you would feel tip-top pretty soon. You'd forget the ailing habit. Don't let yourself become a slave to such a miserable little absorber of health and happiness as the perpetual habit of "not feeling well."

Japan has already had two awakenings, and is now undergoing the third, remarks the New York Tribune. The first was political, an awakening from old feudalism and despotic isolation to a state of enlightened popular government and intercourse with the world. The second was military, in which awakening she crushed the power of China and then struck that of Russia such staggering blows as it had never received before. The third, which has already proceeded a considerable distance, and which will be speedily completed as a sequel to the late war, is an industrial awakening, in which Japan will probably show herself one of the most formidable competitors the great manufacturing and commercial nations of Europe and America have ever known.

The poor wretch who sells his vote is a despicable creature. His right to cast a vote is the evidence of his citizenship and his quality with all his fellows in the scheme of self-government. But the man who buys his vote, or contributes the money to buy his vote, is more despicable. Buyer and seller are both public enemies; but the buyers of votes, more favored by fortune, are the greater offenders. They know better than they do, and deserve the following blistering censure laid upon them by ex-Attorney General Wayne MacVeagh: "Whoever helps to destroy the only basis in a republic for respect for law—a pure ballot and honest suffrage—by buying votes with money or office, or any other form of corruption, is a traitor to the free institutions that our fathers founded, and his proper place is in the penitentiary; and whoever, in view of the appalling revelations of these days, continues to furnish political managers with the means of such corruption ought to be clothed in the same garb and occupy a cell in the same prison."

BOOST IN COTTON

Follows Crop Report Issued at Washington Monday.

JORDAN SAVES THE DAY.

His Protest Against Proposed New Methods of Making Estimates Was Successful—Millions Saved to the Farmers.

The cotton crop bulletin issued on Monday by the department of agriculture at Washington estimates the total yield at 10,167,818 bales of 500 pounds gross weight, not including lint. The area picked and not picked is estimated at 26,117,153 acres, a reduction of 832,399 acres, or 3.3 per cent reduction from the acreage estimated as planted.

It was officially announced that the delay in the issuance of the report was caused by a wide divergence in reports of yield per acre, which caused prolonged discussion.

Southern congressmen who were at the department at the time are strongly of the opinion that the prolonged discussion was over another matter, that is whether the estimate should go out in bales of 500 pounds or 475 pounds.

Harvie Jordan, president of the Southern Cotton Association, who was on hand, is given credit for bringing about the final decision, which is in favor of the 500 pound bales which have been the standard in the past. Mr. Jordan reached the city early in the day. He went at once to the department of agriculture bearing with him a telegram said to have been signed by Assistant Secretary W. M. Hays, chairman of the crop reporting board, sent to urge a change, and in most instances they say that they do not care to accept orders at the top prices for the present at least.

It is understood that the manufacturers object to the publication of incomplete reports based upon estimates. "The beautiful and prosperous south, entering upon a season of great commercial activity, requires," said a dispatch from President Dana, Ind., Sept. 28, 1902, "Virginia and Virginia, 9,000 each; Louisiana, 5,000; Texas, 4,000; Kentucky, 6,018; Tennessee, 782; North Carolina, 183; South Carolina, 328; Georgia, 518; Arkansas, 432; Indian Territory, 458; and Oklahoma, 399."

Mr. Sargent recommended that instead of having the majority of foreign immigrants received at the port of New York, as at present, efforts should be made to have them landed at other sea ports. Samuel Gompers, president of the American Federation of Labor, spoke in favor of restricting immigration, saying that the overwhelming number of foreigners is a detriment to American workmen.

MILL MEN DISPLEASED.

Cotton Manufacturers at Fall River, Mass., Resent Action of Growers in Holding Up the Strike.

JORDAN SAVES THE DAY.

His Protest Against Proposed New Methods of Making Estimates Was Successful—Millions Saved to the Farmers.

The cotton manufacturers at Fall River, Mass., expressed themselves as greatly dissatisfied with the government's system of issuing cotton reports, and some of them are asking that action be taken by the manufacturers of New England looking toward its abolishment.

It was pointed out that one of the largest firms of cotton brokers in the country, with headquarters at Philadelphia, has been making its customers to sign petitions to the government, looking toward the same end.

One of the mill officials said, in an interview, Tuesday: "The immediate effect of the report in this manufacturing center has been to reduce the wage margin 5 per cent to stifle the demand for cloth, and to upset the calculations of mill men who have been trying to buy cotton from southern planters at some fixed price."

"Telegrams received from the south show that planters are relying on the accuracy of the government report to such an extent that they will not offer their product below the speculative figures fixed on the New York exchange, and in most instances they say that they do not care to accept orders at the top prices for the present at least."

It is understood that the manufacturers object to the publication of incomplete reports based upon estimates.

A Warsaw special says: The abolition of the minor state martial law was gazetted Tuesday and the general assembly of the Polish army is now completely freed from military rule.

The authorities have prohibited a proposed meeting of the striking post and telegraph employees. The disorganization of business can be judged from the fact that while before the strike the Warsaw office handled 22,000 telegrams daily the office now handles only 1,500.

Consumption Cured. Dana, Ind., Sept. 28, 1902. Gentlemen—FOLEY'S HONEY AND TAR cured me of consumption after I had suffered two years and was almost desperate. Three physicians failed to give me any relief and the last one said he could do me no good. I tried almost every medicine I heard tell of without benefit until FOLEY'S HONEY AND TAR was recommended to me. Its effect right from the start was magical. I improved steadily from the first dose and am now sound and well, and think FOLEY'S HONEY AND TAR is a God-send to people with Throat and Lung Trouble. Yours very truly, Mrs. Mary Ambrose.

FOLEY'S HONEY AND TAR contains no opiates and does not constipate like ordinary cough medicines.

DIRECTED TO SOUTH

Civic Federation Would Send Immigrants to Dixie.

THE SCHEME DISCUSSED

A Million Newcomers Arrived During Present Year and Eastern States Received Nearly All of Them.

The United States immigration question was taken up for discussion on Wednesday by the National Civic Federation in session in New York city. August Belmont, president of the National Civic Federation, opened the session.

The statement that over 1,000,000 immigrants have come to the United States during the past year, and that the south and west, the sections of the country which needed and wished for these new citizens, did not get them, was made by Frank P. Sargent, United States commissioner general of immigration. Mr. Sargent proposed that the United States heretofore distribute immigrants according to the needs of the country.

"I have just received a few figures," he said, "showing where this immigration goes to. Of the 1,026,491 immigrants who arrived last year, New York received 215,111; Pennsylvania 21,787; Massachusetts 72,150; Illinois 72,750; six states of the union received 777,748 or 75 per cent of the whole, which gives some idea of how popular those states are abroad and how rapidly they gained last year."

"The beautiful and prosperous south, entering upon a season of great commercial activity, requires," said a dispatch from President Dana, Ind., Sept. 28, 1902, "Virginia and Virginia, 9,000 each; Louisiana, 5,000; Texas, 4,000; Kentucky, 6,018; Tennessee, 782; North Carolina, 183; South Carolina, 328; Georgia, 518; Arkansas, 432; Indian Territory, 458; and Oklahoma, 399."

CONGRESS AT WORK

Fifty-Ninth Session Formally Convened at Washington.

BOTH BODIES ORGANIZED

House Called to Order by Clerk McDevell—Senate Adjourns Out of Respect to Memory of Senator Platt.

The first session of the 59th congress convened in Washington Monday at noon.

Vice President Fairbanks called the senate to order, while the house was called to order by Clerk McDevell.

This session has been looked forward to as one likely to be more than ordinarily interesting.

The matters to be urged on the attention of congress include the questions of protecting the interests of the policyholders of insurance companies, statehood for the remaining territories, Panama canal construction, immigration and the treatment of the Chinese under the present exclusion law, raising revenue against a possible deficit, control of corporations engaged in interstate business, corrupt use of money at elections, the Philippines, Santo Domingo and other western republics, tariff questions, as well as the usual diversified subjects which the various executive departments annually present to be reviewed by congress.

Regular attendants missed the usual mountain of flowers which are usually sent to members. A year ago a resolution was adopted prohibiting the bringing of flowers into the senate chamber, and the rule has had the effect also of stopping the sending of such testimonials to the house.

IN THE SENATE.

It was a familiar scene when Vice President Fairbanks called the senate to order. There were a few changes in the membership. Death has taken away Senators Bate of Tennessee, and Platt of Connecticut. There were no changes among the senators present.

DECISION AGAINST PLUMBERS.

Patrick, the lawyer convicted of the murder of William Marsh Rice, was sentenced Wednesday to die in the electric chair in the week beginning January 22 next. Sentence was pronounced by Justice Rogers in the criminal branch of the state supreme court.

BACON APPOINTED REGENT.

Takes Place of Cockrell on Smithsonian Institution Board.

Upon the suggestion of Chief Justice Fuller, who is head of the Smithsonian institution, at Washington, Vice President Fairbanks has named Senator Bacon as one of the regents of that famous institution.

CANAL CASH SURE

Appropriation to Have Clear Road in Congress.

NEED SIXTEEN MILLIONS

A Summary of Second Day's Sessions of House and Senate—President's Message the Principal Feature.

President Roosevelt's message to congress Tuesday received the attention of the house for two and a half strenuous hours. Its reading was listened to with marked attention, and at the conclusion the document was applauded.

Preliminary steps were taken toward appropriating the needed emergency funds for the Panama canal, and this legislation was scheduled for Wednesday. Should unanimous consent be refused for its consideration, a special rule from the committee on rules will be available, which will put the bill on its passage after a limited period for discussion.

The house received and ordered referred to one of the regular education committees, a protest from the fifth congressional district of Illinois stating that Anthony Michalek, who was sworn in Monday as a member of the house from the district, is not a citizen of the United States.

WHO OWNS THE CENTRAL?

The Southern Does Not And Cannot, Says President Spencer.
Atlanta, Dec. 11.—Who owns the Central of Georgia Railway? Three times this question has been before the Georgia Railroad Commission and every time the answer is the same—the reorganization committee of the old Richmond Terminal Company.

Mr. Samuel Spencer, President of the Southern Railway, was questioned for two hours the other day by the railroad Commission here and he gave the history of the Central's ownership in detail.

Every company, of course, is owned by its stockholders.
Back in 1887, a majority of the Central's stock was bought by Pat Calhoun and associates. They sold it to another company, called the Georgia—not the Georgia Railroad, but the Georgia Company. This latter company was bought by the Richmond & West Point Terminal Company. In 1892, the Richmond Terminal went into receivership. Among its assets was the majority stock of the Central of Georgia.

In 1894, the Southern Railway was formed and it bought a large part of the Richmond Terminal's property. The Southern Railway Company, however, did not get possession or control of the Central's stock because there was very grave doubt about the owner, the Richmond Terminal, being able to give a title which would be good in Georgia.

So the Richmond Terminal's reorganization committee held on to the Central stock and still holds it.

Mr. Spencer said that the Southern does not own a share of a dollar's worth of anything in the Central and never has. He declared that the Southern does not control and never has controlled the Central. It is controlled absolutely by the President and directors who are elected by the vote of the Richmond Terminal's reorganization committee. Not one of the three members of the reorganization committee has any interest in the Southern Railway.

From Mr. Spencer's testimony, it appears that the Southern is in the position of a man who has bought a farm but cannot get title to it.
Mr. Spencer added that he did not think it would be good policy for the Southern to own the Central even if it were legal to do so.

Major Hanson, President of the Central, testified that the road is operated as an independent property and competes with the Southern for business more sharply than with any other road.

Prof. Robert E. Park, professor of English at the State University at Athens, will spend the holidays in Statesboro the guest of Col. Hinton Booth and Mr. Doy Jones. Prof. R. J. H. DeLoach will also spend the holidays here.

Found Dying On Door Step.

Lyon, Ga., Dec. 12.—J. Tillman
Dix, a prominent lawyer and a
large property owner, was shot
in the head some time during last
night and died this afternoon.
It seems from all accounts that
the shooting was done by a negro
man and woman, Peter Dukes and
Mollie Harper, on whose front
porch the body of Mr. Dix was
found.

Dukes and the Harper woman
were arrested early this morning
and are now in the Montgomery
county jail, charged with murder.
Both stoutly deny the charge,
even saying that Mr. Dix shot
himself. Dukes said Mr. Dix was
trying to shoot him and in scuff-
ling to keep from being shot the
pistol was fired.

The people do not believe either
the woman's or man's story, as
it would have been almost im-
possible for Mr. Dix to have fired
the shot. The affair has caused
no little excitement in Lyons
to-day.

A Struggle for Life.

Editor News:—If you will allow
me space in your paper I will give
a short account of an accident
which befell me on December 8th,
at James McElveen's mill. While
crossing the bridge with a load of
lumber my mules and wagon all
fell into the creek. I jumped off
the wagon on to the bridge. See-
ing that the mules heads were out
of the water, I pulled off my coat
and in I jumped and swam to my
mules. I tried to untie the han-
stings but failed. The animals
pawed me under the water, but I
recovered and again swam to them
and released them by cutting the
harness, when they both swam
out. Neither myself nor the mules
were hurt, but we were nearly
frozen.

I extend sincere thanks to the
kind people who assisted me in my
trouble.

I think the country ought to as-
sist Mr. McElveen in building a
good bridge across the creek at
that spot, as it is a short route to
many places.

Diversification vs Over Production.

The Southern Cotton Association will not let the farmers of the South reduce the cotton acreage for 1906 less than that planted in 1905. The Association does ask and insist with all the force at its command that the acreage planted in cotton throughout the belt in 1906 be not increased during the planting season of 1906. Let the faithful word of every Southern farmer be diversified, and through that agency produce an abundance of food supplies to maintain each farm. Permanent independence, thrift and prosperity can only be enjoyed by Southern cotton growers through the adoption and maintenance of a system which will make each farm self-sustaining. It is the only medium through which the present iniquitous credit system, which has so long held our people in bondage can be effectively broken up and relegated to the past. It is the only medium through which the great masses of cotton producers can ever hope to control the sale of their cotton in the markets of the country and force consumers and buyers to pay them fair and just prices for the staple. Any system which forces the producer to market his crops rapidly in order to meet maturing obligations to pay for supplies that could be more cheaply raised at home will ever tend to make a slave of the grower, minimizing the rights of manhood which every Southern cotton raiser should enjoy to the fullest extent.

OVER-PRODUCTION A SERIOUS MENACE.
In the spring of 1905 a crisis serious and potential faced the cotton growers of the south by reason of over-production of cotton in 1904. The Southern Cotton Association at that time waged an active and effective campaign for a reduction in the cotton area to be planted in 1905. The advice of the Association was loyally supported by the cotton growers throughout the entire cotton belt and a reduction of fully five million acres was stricken from the cotton area for 1905 and planted in other crops. The result of this display of good judgment on the part of the farmers is today seen in bringing the production of cotton within the legitimate demands for consumption, good prices for the staple and well-led corn crops and smoke houses from North Carolina to the Rio Grande River. The agricultural, commercial, industrial and financial interests of the South are to day enjoying an era of prosperity far in excess of any period experienced within the past half century. To maintain our present position and forge ahead in the achievement of greater successes, it is imperative that no serious mistake be made by the planters who are now making their arrangements for the spring planting of 1906. Let every man pause and calmly consider his future even while enjoying the flush of a victory which has been the most marvelous ever won in modern times.

PRESENT ACREAGE SUFFICIENT.
The present estimated twenty-seven million acres planted in cotton is sufficient under normal climatic conditions to produce enough cotton to meet the demands of spinners for the American staple. Any material increase in the cotton acreage for 1906 will tend to stagnate the cotton market and depress prices below their legitimate value. The legitimate laws of supply and demand is the only true medium of regulating fair and legitimate prices for our great staple product. The Southern Cotton Association through

BIG RUSH IN XMAS GOODS.

Santa Claus Opens Headquarters in Statesboro.

What will be the greatest rush for Christmas goods ever known in the history of Statesboro and Bulloch county is now on. A News reporter, in making the rounds yesterday, dropped in at the store of C. B. Griner & Co. We saw what looked to be enough Christmas toys and other goods to supply several counties. Upon the expression of our surprise at such an enormous amount of these goods, Mr. Griner, a member of the firm, said:

"Just come here. Look at these packages that are being packed to send out all over the city and surrounding country, and you will see that we are not overloaded. If that was all that we had we would be out by Wednesday night, but look here at the rush order that is going in for more as fast as Uncle Sam can take it."

This firm is the most extensive dealers in Christmas goods in the city, and carry far the best line. They are crowded now from morning till night with hundreds of eager customers.

Santa Claus gives notice through this issue of the Statesboro News that he will be at Griner's, and ready to see that all the good little boys and girls get something nice for Christmas. He will operate from this place in this entire section. All will be treated alike. There may have been cause for complaints in the past that the rich and favored had got better presents than the children of poor parents, but Santa Claus has determined that all shall be treated alike this year and he has selected Messrs. Griner & Co. to carry out his plans for him. These presents are marked so low, down that even those who are in

poor circumstances can get something nice for a small outlay. See the advertisement of this firm occupying a full page space in this issue.

Mr. Bishop Buys Farm.
Mr. L. L. Bishop of Swainsboro, was in town this week looking up a farm. He has completed the deal by which he becomes owner of the Ben Lee place, bought from Mr. W. H. Blitch. Mr. Bishop will move his family down after Christmas.

Negro Mashed at Clito.
This morning Aleck King, a negro man working for the railroad company, was caught between the car and platform at Clito and pretty badly mashed. It seems that there was one car that was a little wider than the others, and the negro had not taken this into consideration when he stood between the platform and the moving train. He was caught and pretty badly rubbed by the moving car. He was brought into the city and given medical treatment. His injuries are serious and may prove fatal.

Jordan Calls for Mammoth Convention

The cotton producers of the South, bankers, merchants and representatives of other business interests are hereby called to meet in convention at the City of New Orleans, La., January 11th, 12th and 13th, 1906. We want five thousand delegates to be present, representing the entire cotton territory of the South when the convention is called to order at one o'clock P. M. on January 11th in the splendid auditorium of the Washington Artillery building.

The farmers generally have expressed a desire for this convention similar to the one held at New Orleans last January. The South has won a notable victory in handling her great staple crop since that time and it is but meet and proper that the people should come together and rejoice over the great blessings which they have enjoyed and to emphasize their determination to continue the present reign of prosperity through the future. There are many things of vital importance to the future welfare of the South that will command the attention of the convention. Many eminent speakers from all parts of the country will take conspicuous part in the program. All Agricultural Organizations are invited to send delegates. No restriction on number of delegates to be appointed. County meetings should be held throughout all the Cotton States on Saturday, Dec. 23rd, for the purpose of appointing or electing County delegates.

Heads of the various State Agricultural organizations and Farmers' Unions can appoint delegates from the states at large. Discussion will cover the importance of holding the balance of the unsold crop for fifteen cents—extending the organization of the Southern Cotton Association; trade relations between the producers and spinners; building warehouses to facilitate the handling of cotton; diversified agriculture and raising

home supplies; maintaining the present area of cotton for 1906; closer relations between farmers and bankers extending our markets for American cotton in foreign countries. These and other matters vital importance need the attention of the people. Hold your county meetings on Dec. 23rd, elect strong delegations, and send list of names to the general office of Southern Cotton Association, 920 Empire Building, Atlanta, Ga. Let every county in the South be well represented and let the world begin to acknowledge the business ability of the Southern planter.

Railroad rates will be one fare for the round trip from all sections of the belt.
Yours truly,
HARVEY JORDAN
Pres. Southern Cotton Assn.

Christmas Trade Picking Up.
The stores have taken on a decided holiday appearance. All the places where Christmas goods are on sale have been crowded during the past few days, and the demand for Christmas goods is greater than ever known before. Several dealers are now ordering their second supply of toys, etc. They see in the early buying a tendency to buy more than ever before, and to buy higher class goods. During the next week Statesboro will be in the hands of the Christmas shoppers. We are now enjoying an era of unprecedented prosperity and the people are disposed to be liberal with the little ones. We would advise those who intend buying Christmas goods to come as early as possible, for the rush is going to be the greatest ever known here.

A Fearful Fate.
It is a fearful fate to have to endure the terrible torture of Piles. "I can truthfully say," writes Harry Colon, of Masonville, La., "that for blind bleeding, itching and protruding Piles, Bucklin's Arnica salve is the best cure made." Also best for cuts, burns and injuries. 25c at W. H. Ellis druggist.

Torture of a Preacher.
The story of the torture of Rev. O. D. Moore, pastor of the Baptist church, of Harpersville, N. Y., will interest you. He says: "I suffered agonies because of a persistent cough, arising from the grip. I had to sleep sitting up in bed. I tried many remedies, without relief, until I took Dr. King's New Discovery for Consumption coughs and colds, which entirely cured my cough, and saved me from consumption." PERFECTION OF SELECTION.

A complete system of filtration is used throughout, and the water supply is obtained from a pure mountain spring, conveyed to the distillery through iron pipes insuring non-contamination with surface waters. The purity of our product is self-evident from every point. The whisky is bottled and double over open wood fire in copper vessels, filtered twice and is perfectly purified. The methods we use to produce our famous brand could almost double that of the modern art method, and yeast infected, quick aging processes now used. Our Whiskies aged by the natural aging of time, and the Reserve Records show that we have more primitive method aged Corn Whiskies in the States than any other distiller in the country.
