# THE NEWS.

Published at Statesboro, Ga.  
TUESDAYS AND FRIDAYS.

By The Statesboro News Publishing Co.

Mr. Andrew Lang, in the Academy, says: "I doubt whether most collectors desire to be called bookish men. They seldom read the books which they collect."

It is proper management without regard to cost, that enables the farmer to succeed, asserts The Epitomist. The best farmers employ a large amount of labor, and again sell the labor at an advance price. This is the sole explanation of the whole matter. To obtain the best prices, the article sold must be of the best quality.

It is a common fallacy to confound individual wealth in the millions with a wealth of the whole community, thinks the Springfield Republican. There are dangers to a town or State in accumulating inequalities of wealth, even when it is fairly distributed among the citizens. It may lead to public and private luxury, which is a needless use and waste of accumulated riches. But when it is unfairly divided, from one cause or another, it is always an injury to the whole community, and nearly always a worse injury to those who have more than a fair share. That is the condition of a large part of our country to-day, and particularly of the great cities of our country.

"Papa" Nicholas of Montenegro is bound not to be out of fashion. Having read — probably in the Centinel Weekly Advertiser — that his namesake of Russia has gone into the constitution business at the earnest request of the subjects the autocrat of the little state principally has decided that subjects shall also have a constitution — whether they want it or not, relates the New York Press. But if "Papa Nick" wants it, why, to humors the whims of the kind old gentleman is regarded as one of the first duties of a good citizen in Montenegro. Nicholas is a veritable Roi d'Yvetot, who writes poetry, the reading of which by the author to his subjects is the sole atrocity committed by him as an absolute monarch. If the members of the new assembly pass any law restricting the prerogatives of the amateur poets they will be the most ungrateful of people — but it is difficult to see in what other way "Papa Nick's" administration can be reformed.

Towns which half a century ago were famous only for their galleries or their picturesque medieval survivals are now great hives of artisans, point out The Spectator. This change did not come to Germany, as it came to England, when municipal science was in its infancy; and so in Germany we see industry developing from the start under the most scientific conditions. Mr. Low is chiefly struck by the efforts of German authorities to make all parts of their cities agreeable to live in and he thinks their municipal government the most efficient to be found anywhere. Our own public health system is better and our method of paying greatly superior, but the level of apparent comfort in Germany is higher. There are no such contrasts as between Piccadilly and Poplar. The lot of the German workman may be really a harder one, what with the high price of food and exorbitant rents, but at least he has an environment free from the worst kind of squalor.

In what posture, asks a recent popular science contribution, does a bear sleep? We know not, replies Collier's Weekly. Nay, as to the fish, the monkey and the elephant our ignorance is equally complete. Can any of you answer? Of course, you know that most birds sleep on one leg, but what about mackerel and the fox? Snakes and turtles sleep with their mouths open, and whales on the surface of the sea. Rats roll up in a ball. The orang-utan sleeps crouching snags, but at night sleeps more earnestly on its back. This is an age of popular information about science, yet most of these facts are unknown to nearly all of us; for ignorance about the world it lives in is the great predominant fact in every creature's life. Even the foremost man of science knows nothing of the sleep of mollusks, radiates and worms. Also, the nature of sleep is connected with some of the most wonderful vistas that have opened lately to the human mind, as in hypnotism, multiple personality and the relation of consciousness to memory and suggestion. Knowledge never made any mystery less, and never will, for nothing could be more mysterious than the fact of life itself.

# RISE IN FARM LANDS

Prices All Over South Make Phenomenal Advance.

BEYOND FIFTY PER CENT

Winning of the Cotton Fight Places Farmers in the Ascendancy and Enables Them to Store Cash in Banks.

In publishing six pages of letters from bankers and others throughout the south including a wonderful advance in the value of farm lands, The Manufacturers' Record says:

"While it is true that the industrial development of the south is going forward with amazing rapidity, it is nevertheless true that, by virtue of the extent of the agricultural interests of the south, agriculture is yet the foundation of the business of that section. A change from poverty to prosperity of the farmers, and a change from land without a selling value to land in demand at an advance of 50 to 150 per cent over the nominal price of one or two years ago, is the most far-reaching development in southern development of the last quarter of a century.

"It is far-reaching in many ways. It means that within the last year or two southern farm properties have increased not less than \$1,000,000,000 in value, probably at least \$1,500,000,000. But more than that, it means that under this improved financial condition the southern farmer has gained new courage, new backbone; that he has learned how to market his cotton crop, that he has sought to finish the great battle as to whether the producer or the speculator is to control the price of the staple.

"Having won this fight, the entire handling of cotton from the field to the factory, whether the factory be in this country or in Europe, has entered upon an entirely new stage in its history. It also means that land will be more thoroughly cultivated, for the farmer, a merchant or a manufacturer, is always better able to work to good advantage than the one who is fighting a losing battle.

"During the last six years the total value of the cotton crop, including seed, has been \$2,000,000,000, or \$2,150,000,000 for the preceding six years, showing a gain in the last six years over the preceding six of over \$1,400,000,000. It is not, however, due to this great increase in cotton alone that the southern farmer is in better shape. More and more has the diversification of agriculture gone on; more and more have fruit-growing and trucking, 'hog and homing' and the mechanics of the home industry.

"A study of the bankers' letters develops many facts of very great interest. Many of them tell of an advance in the selling value of farm lands ranging from 50 to 100 per cent within the last two years. One correspondent in South Carolina says: 'In many instances lands are selling for three and four times as much as they would have brought four or five years ago.'"

"Another correspondent in the same state writes that in his county there are seven banks with deposits aggregating \$1,000,000, most of it belonging to the farmers, whereas 10 years ago there was only one bank with deposits of \$125,000.

"In Alabama land which sold five years ago at \$2.50 to \$5.00 an acre is now reported as bringing \$15.00 to \$20.00 an acre and in one part of the state there has been, it is reported, an increase in the last two years of 50 to 200 per cent.

"Throughout the central south, it is very generally stated this increase is due mainly to the increasing prosperity of the farmers and very large crops brought about by the advance in cotton, cotton lands selling to a considerable extent on the basis of the price of cotton.

An Epitome of Items of Interest Gathered at Random.

Eightieth Bank Chartered.

The eightieth bank for 1905 was chartered a few days ago by Secretary of State Philip C. Frazier. It was the Farmers' Bank of Adrian, Emanuel county, which starts business with a capital stock of \$25,000.

There were only thirty-nine banks chartered in 1904, which was the record year heretofore.

Monument to Oglethorpe. By erecting a pretty monument, Brunswick is the first city in the state to this honor General Oglethorpe. The funds for the erection of the monument were raised by the local Oglethorpe Monument Association and the Daughters of the American Revolution.

Strober to Be Extradited. At Montreal, Canada, Judge Lafontaine, extradition commissioner, committed J. N. Strober for extradition to the state of Georgia on a charge of stealing a large sum of money from the Atlantic Coast Line Railroad Company.

School Fund Is \$242 Per Pupil. School Commissioner Merritt that the state school fund for 1905, apportioned in value, probably at least \$1,500,000,000. But more than that, it means that under this improved financial condition the southern farmer has gained new courage, new backbone; that he has learned how to market his cotton crop, that he has sought to finish the great battle as to whether the producer or the speculator is to control the price of the staple.

Equipment for State Troops. Governor Terrell has signed a requisition on the war department at the national guard of Georgia to the value of nearly \$17,000. This includes camp equipment, tents and articles of all kinds that are needed to put the Georgia troops in good shape for field service. This equipment will be paid for with the federal appropriation to the state troops.

Governor Names Court Officers. Governor Terrell has appointed Hon. T. V. Whipple, of Cordele, Judge, and Hon. T. J. Royal, of the same place, solicitor of the county court of Crisp county, recently created, by recommendation of the grand jury. There were four applicants for solicitor and two for judge.

Lower Rates for Columbus. President Carroll of the Columbus board of trade, has received a letter from Apalachicola, notifying him that a new steamship line between that place and New Orleans had been established.

Apalachicola is at the mouth of the Chattahoochee river and being Columbus port, the business men of that city are much interested in the development and extension of transportation facilities there, as the commercial and manufacturing interests of Columbus are directly benefited.

Per Deepening Savannah River. A Washington dispatch states that Senator Clay has introduced a joint resolution in the senate providing for a preliminary survey of the Savannah river from Savannah to St. Petersburg above Augusta. An appropriation of \$10,000 is authorized to carry out the provisions of the resolution.

In presenting this resolution, Senator Clay said he is acting in accord with a petition by the joint convention of the chambers of commerce of Savannah, Augusta and Charleston.

Want Views of Policy Holders. At a meeting in Atlanta a few days ago of the committee of five appointed at the recent convention of Georgia policy holders of the New York Life and Mutual Life of New York Insurance companies, held in the office of Chairman Martin F. Amoruso in the Empire building, the committee decided not to formulate any plans at the present time for presentation to the National meeting, but rather first to solicit an expression of views from various policy holders in old line mutual companies throughout the state and to await an expression from them and their desire to cooperate with the Georgia policy holders' society.

Decision in Libel Case. The supreme court of Georgia, in a decision rendered a few days ago, holds that communications that would otherwise be slanderous are protected as privileged if made in good faith in the prosecution of an inquiry regarding a crime which has been committed, and that statements likewise made in the prosecution of efforts to recover property which has been stolen are also protected as privileged communications. The case calling forth this opinion was that of Starling, Chapman against Miss Amelia Battle, coming from Hancock county.

# ESTIMATE BARRED

No New Figures on Cotton Crop Say Congressmen.

Resolution in House Calling For Another Count in January Is Overwhelmingly Defeated.

A Washington special says: After an interesting session, lasting nearly three hours, the house committee on agriculture Tuesday afternoon decided to table the resolution offered by Representative Lovering of Massachusetts, calling for a new estimate on the cotton crop.

It is said that the action against him was unanimous. The author of the resolution was the only one who spoke in favor of it. He thought the estimates should never be made earlier than January 1, which was nearer the close of the ginning season, and permitted the collection of more nearly accurate data. Of the six factors used by the bureau of statistics in making up its estimates, only one was a known quantity, he declared; the others were guesses or averages of guesses, "subject to the whims and environments of the thousands of agents. He gave four reasons for wishing a new report.

The discrepancy between the department's estimate and the census bureau's gin reports, the "incongruity" of the December yield figure as compared with the October condition figures, the fact that ginning is not nearly as far advanced as in previous years, and the inevitable tendency of the department of agriculture to underestimate the past year's output, being 778,000 bales, or 7.5 per cent.

Representative Burleson of Texas, Webb of North Carolina and Clayton of Alabama opposed the resolution. The measure was defeated on a vote of 150 to 100.

The day was passed without excitement, and ended with an amusing debate on the question of appointing a janitor at \$20 a month to the chamber. The minority refused the offer of the majority in this matter, and with their aid the janitor was rejected.

Mr. Brantly of Georgia took the oath as a member, after which Mr. Richardson of Alabama discussed quarantine regulations.

As a result of the yellow fever epidemic in the south during the past season, Mr. Richardson said a great clamor for federal control of quarantine was now being made. While no man was more anxious to banish that dread disease than himself, he would rather fight yellow fever for the people to come, than sacrifice one fundamental principle of his state in its domestic and local control. He saw no violation of state rights in federal quarantine to prevent disease from foreign countries or from one state to another.

Commenting on the president's message, Mr. Watkins of Louisiana said: "The president has shown that he possesses the conviction of a Bryan, the firmness of an Andrew Jackson; the popularity of a White and the patriotism of the Japanese."

Mr. Watkins was making his first speech in the house, and said it was the function of a "White" to make the people of South Carolina aware of the American people are still honest and it shows what honest men feel toward the disclosure of corruption which have been made."

Up to Next Month Milner Would Have Held Office 24 Years.

Postmaster R. F. Milner died suddenly at his home in Newman, Ga., Wednesday morning.

As postmaster, Mr. Milner, for length of service, has been equalled in but few cases in the entire United States. He first became postmaster in February, 1872. When he would have gone out of office the first of next year to be succeeded by Mrs. W. V. Atkinson, he would have served six terms or a total of 24 years.

# MARTIAL LAW IN MOSCOW

Renewal of Great Strike Results in Military Rule in Ancient Russian Capital.

Reports in St. Petersburg from Moscow late Wednesday afternoon indicate that the general strike was successfully inaugurated and is spreading rapidly. Even the electric light plants are closed.

Governor general Dousanoff has declared the city to be in a partial state of siege which gives the civil authorities exceptional powers of arrest, etc. The provincial authorities have already been empowered to suspend the right of the press to act on their own responsibility even to the extent of the proclamation of martial law.

The railroad stations at St. Petersburg were occupied by troops Wednesday afternoon and the government made an attempt, with the aid of the railroad battalions, to maintain some sort of train service, especially to the German frontier and also to keep open cable communication with points above.

Professor Milukoff, leader of the constitutional democrats, issued a last despairing appeal to the proletarian organizations against a general strike, declaring his belief that it would lead to success and inevitably would lead to repression and perhaps to great bloodshed which might be fatal to the whole emancipation movement. His moderate counsel, however, was not heeded by the hot-headed revolutionists, who are determined to try conclusions with the government under the conviction that they can overthrow the monarchy.

On account of some confusion the general strike was proclaimed at Moscow at noon yesterday instead of Thursday, as planned. It was inaugurated with a complete suspension of the street railroad service.

The government orders on the new struggle greatly crippled. The situation in the Baltic provinces is growing worse and in the Caucasus the renewal of the outbreak of the Tartars and Armenians has produced another reign of terror. The inhabitants of Tiflis and other cities are begging the authorities to furnish them with arms for the purpose of organizing a militia for self protection.

At Sebastopol new mutinies have occurred and 1,600 soldiers have been dismissed and are under guard. The troops at Kharkov, however, the inhabitants are still administering the city.

The weather has become very cold. Deep snow covers the country as far south as Kiev. It is believed that a few days of hunger and starvation will bring the people to desperation and provoke uprisings and attacks on strikers and perhaps general pillage.

Jury's Verdict Against Attorney Charged With Conspiracy.

Abraham H. Hummel, lawyer, was convicted of conspiracy in connection with the Dodge-Morse divorce case in court at New York Wednesday.

He was sentenced within a few minutes after the jury's verdict had been pronounced to one year's imprisonment and a fine of \$500, which is the maximum penalty for the misdemeanor of which he was adjudged guilty.

Depending upon the result of this case are actions in other indictments against prominent persons, which have grown out of the Dodge-Morse divorce case.

**CENSUS BUREAU CROP REPORT.**

Up to December 15, Number of Sales Ginned Were 6,282,191.  
The census bureau issued a bulletin Wednesday, showing the quantity of cotton ginned from the growth of 1905 to December 15 to be 9,282,191 bales, counting round bales as half bales, as compared with 11,971,477 bales on the same day in 1904, and 8,526,244 bales for the same date in 1903.

Row Over Stores

It seems that the attention of the courts will have to be called to adjust the difference between more than one party in Statesboro, in regard to the rent of certain stores. First, the store occupied by F. L. Blitch, has been rented to W. H. Blitch, the store where Proctor Bros. are and has arranged for them to take the store where they now live, but all negotiations are broken by the refusal of Blitch to get out. He has been served with the sixty day notice to vacate as required by law, and the time will expire on the first of January. Mr. Blitch has employed counsel and expresses a determination to sit it out. He claims that when he rented from Dr. Cone that he was to have the place as long as he wanted it, provided he would pay the same rent that others would pay; this he says he is willing to do. Dr. Cone has rented the store to Mr. Blitch, who is arranging to come in next week, and Blitch is making no arrangements to get out, so there comes the tug of war, so to speak.

Row number two is between Messrs. C. M. Rushing, T. M. Bennett and a gentleman by the name of Rackley from Egypt. The circumstances here are about as they are in the Blitch and Cone case. Mr. Bennett has the store owned by Mr. Rushing rented for a photograph gallery and says he was to have it as long as he wanted it and refuses to move. Mr. Rackley has sold the place to Mr. Bennett the sixty days notice to vacate, which will mature Monday. Mr. Rackley has moved to town and is ready to put in a stock of goods next Monday, but Mr. Bennett is still in and expresses an intention to stay in. Mr. Bennett claims that the sale is only a sham to get him out, and that he will test its validity in the courts. It seems that in both cases the only trouble is, too many people want to do business in the same building. The two parties mentioned are compelled to fight for existence for the reason that there is not another building in town for rent, and they have no place to go. It is either fight for their present place, or go out of business. This shows the crying need for parlors in Statesboro. Yet our high property owners are sitting around and indifferent to the situation.

After the Automobiles.

A petition is being circulated over the town, asking council to prohibit the running at large of automobiles on the streets of this city. It is alleged that these untimely devices for travel are a menace to the people who are compelled to drive horses into the city. These horses are noted for taking to flight on the appearance of one of the automobiles on the streets. The petition has been pretty numerously signed. It is also alleged that they are a standing menace to the country people, who do not feel safe in trusting their women folk with a horse to come to town where they are liable to come in contact with the automobiles.

NOTICE.

Statesboro, Ga. Dec. 30, 1905. The regular annual meeting of the stockholders of the Bank of Statesboro will be held in its banking house in Statesboro, on December 30th, 1905, at 10 o'clock a. m., for the purpose of electing a board of directors for the year 1906. S. C. GOSNEY, Cashier.

Chance-Howard

On Monday afternoon, at the home of the bride's parents, Mr. and Mrs. L. D. Chance at Jimps, Mr. D. C. Howard and Miss Annie Chance were united in marriage, Rev. T. J. Cobb officiating. Both young people are well known and deservedly popular among a large circle of friends.

Lanier-Rushing

On Sunday afternoon last, at the home of the bride's parents near Brooklet, Mr. J. E. Rushing and Miss Clara Lanier were united in marriage. The bridegroom is one of Bulloch's successful teachers and stands well among a large number of friends and acquaintances. The bride is the pretty daughter of Mr. J. B. Lanier and is also very popular.

Kennedy-Dekle

On last Sunday morning at the home of the bride's parents near Register, Mr. Geo. Dekle and Miss Eva Kennedy were united in marriage. Both of the contracting parties have a large number of friends and relatives in Bulloch, and are numbered among our best young people.

Hagan-Richardson

On last Wednesday night at the home of the bride near Stillson, Mr. J. W. Richardson and Miss Sallie Hagan were united in marriage, Rev. T. J. Cobb officiating. The young people are well and favorably known to a large circle of friends.

Lee-Montgomery

On Wednesday evening at the residence of Rev. J. S. McLemore, Mr. Willie Montgomery and Miss Laura Lee were united in marriage, Rev. Mr. McLemore officiating.

Members of Statesboro Chapter No. 50 Royal Arch Masons are requested to attend the next convocation the first Friday night in January. Business of great importance is to come before the Chapter.

Big Demand for Horses.

The demand for business horses, stores, etc., in Statesboro is simply fierce. There is at least a half dozen law suits probable over the possession of buildings to do business in this town, yet our land owners are standing idle and allowing the town to be dwarfed on account of a lack of places in which to do business.

There are contemplated for the near future several structures, but the probabilities are that they will not be ready in several months yet.

Among the new buildings now contemplated is a two-story brick building by the Groover estate, at the site now occupied by Gould's Grocery. While this will be an improvement on the old single story brick shack that now occupies this space, yet its erection will not increase the number of business places one bit, only a better store than the one now there. Mr. J. W. Wilson is asking for bids on a two-story brick structure adjoining the one to be built by the Groover estate, and several others are talked of, but there is nothing definite on them as yet.

We hope to see our land owners realize for once the fact that the town is too small for the surrounding country, and go ahead and build a number of good substantial stores, all of which will be filled by good desirable tenants.

A Fearful Fate.

It is a fearful fate to have to endure the terrible torture of Piles. "I can truthfully say," writes Harry Colson, of Masonville, La., "that for blind bleeding, itching and protruding Piles, Buckle's Arsenic ointment is the best cure made." Also best for cuts, burns and injuries. See at W. H. Ellis druggist.

Two fine milch cows. Apply to B. E. Turner.

Mr. Jordan L. Rimes Is No More.

On Tuesday afternoon the spirit of Mr. Jordan L. Rimes took its flight. Mr. Rimes had been in ill health for some time, but his death was not expected at that time. The deceased was one of Bulloch's solid citizens and numbered among the best men that the county has ever raised. He has a large family connection and hundreds of friends to mourn his loss.

Christmas Tree at Baptist Church.

On Tuesday night the members of the Baptist church Sunday school were treated to a visit from old Santa Claus who brought to them a nice Christmas tree heavily laden with many nice toys, etc. A large crowd was out to see the delivery of the presents, and an appropriate program was rendered. Each and every member of the Sunday school was remembered with something nice in the way of a present and had been promised. The tree was intended to be exclusively for the members of the Sunday school, and no other presents were expected. The occasion was a most successful one.

**IN STATE.**  
**DITCH IN LUMBER.**  
A. Dillingham Will  
and Delight Hundreds  
With Free Advertising  
Concert.

The contemplated visit of Col. Frank A. Dillingham, manufacturer and dispenser of the newest and most wonderful discovery of the age, "Plant Juice," has created more than the ordinary interest among our people, and the opening night promises to be a memorable event in Statesboro. In addition to the dispensing of the remedies Col. Dillingham gives a most pleasing entertainment. The press of the south, especially the cities where he has visited in the last season, are teeming with stories of his wonderful success, and testimonials by the thousands are freely given by those who have been permanently cured by his wonderful medicines.

Unlike a great many of the patent medicine dispensers the Plant Juice remedies do their own advertising. Once introduced in a community they have invariably become the household favorite and are essential in the well regulated family as the food of the table.

Col. Dillingham's method of presenting his remedies and cures to the public is as unique as it is entertaining. He has in his employ a company of Vaudeville actors of the very highest class, and presents a program, interspersing the dispensing of his medicines, at once pleasing and profitable to all.

In one southern city recently a leading daily newspaper in describing the visit and entertainment of Col. Dillingham declared that the entertainment alone was worth going miles to see and hear, while the number of cures performed before the public gaze was something remarkable and never before witnessed in the south.

The greatest success has attended the sale of the Plant Juice

remedies, a new discovery, being manufactured and dispensed by Col. Dillingham and his representatives. It is having a most remarkable sale, and is doing a wonderful work for the relief of suffering humanity.

There is nothing in the entertainments given by this company or performers to prevent the most fastidious from attending. Col. Dillingham requires the most careful attention to detail in the entertainment of the crowds and gives his own personal supervision to all the details. Great crowds taxing the capacity of the space occupied have greeted them everywhere, and from present indications the reception at Statesboro will be no exception to the rule. Persons suffering from long standing ailments will receive the most earnest attention.

The advance agent of Col. Dillingham, who is in the city, reports that all the arrangements are practically completed for the entertainment of the crowds and the first evening entertainment will be preceded by an elaborate parade of the principal streets of Statesboro, Georgia.

**Water Cure for Constipation.**

Half a pint of hot water taken half an hour before breakfast will usually keep the bowels regular. Harsh cathartics should be avoided. When a purgative is needed, take Chamberlain's Stomach and Liver Tablets. They are mild and gentle in their action. For sale by all druggists.

**FARM HANDS WANTED.**

I want farm hands with families prepared to work for wages or shear of crops. I have everything necessary for farming except the labor. Apply at once to George E. Wilson, Harville, Ga.

**Broke His Jaw Bone**  
One of the consequences of a Christmas frolic is a broken jaw bone on the part of Mr. S. H. Proctor. The circumstances are as follows:

On Monday evening it seems that Frank Groover had an engagement with a young lady to take her to a party in town. Proctor, it is alleged, went to the young lady and told her that Groover was drinking and advised her against accepting his company to the party; by reason of this advice the young lady broke her engagement with young Groover. This enraged him, and upon learning the cause he sought Proctor, waiting for him, or meeting him as they came out from the party, asked him, "What have you been telling lies on me about?" Proctor answered that he had not, when Groover struck him several blows in the face, breaking his jaw bone in one or two places and shattering several of his teeth. Proctor is said to have offered no resistance, and bystanders prevented any further blows.

The injured young man was carried to Savannah where he was placed in the Telfair hospital for treatment.

The wound is a very serious one, and one that will take several months to heal. Just what was used as a weapon no one seems to know. Groover claims that it was only his fist, others advance the theory that it was a loaded billie or something of that kind. Inasmuch as the skin was not broken discredits the theory of knucks or any hard surfaced instrument. It is expected that prosecution will follow.

**Cure for Sore Nipples.**

As soon as the child is done nursing apply Chamberlain's salve. Wipe it off with a soft cloth before allowing the child to nurse. Many trained nurses use this with the best results. Price 25 cents per box. For sale by all druggists.

**Blown Up With Powder Charge.**

One of the many accidents recorded during the Christmas holidays was the one of which Mr. Dave Bragg, of Portal, was a victim.

Mr. Bragg was returning home on Saturday afternoon with a wagon load of goods for Christmas. Among the articles in the wagon was a bag full of gunpowder. Mr. Bragg noticed that the bag had been torn and the powder was leaking out in the bed of the wagon; he stopped and emptied the contents of the bag into his coat and pants pockets, being enough powder to fill all of them. He then decided to strike a match and flash off the scattering powder

on the floor of the wagon body.

The flash ignited the powder in all of Mr. Bragg's pockets, blowing him completely out of the wagon and setting him on fire, and had it not been for two other gentlemen being along he would have been burned to death. His injuries while painful are not serious.

**Nature Needs but Little**

Nature needs only a little Early Riser now and then to keep the bowels clean, the liver active, and the system free from bile, headaches, constipation, etc. The famous Little Pills, Early Risers, are pleasant in effect and perfect in action. They never gripe or sicken, but tone and strengthen the liver and kidneys. Sold by W. H. Ellis.

**Killing at Field's Still.**

On last Saturday night Field's still ground near Enal was the scene of a killing scrape. John Crawford shot and killed Kit Kennedy, both being negroes. It is said there are some extenuating circumstances, and that it is probable that there will be no prosecution.

**In Mad Chase.**

Millions rush in mad chase after health, from one extreme of faddism to another, when if they would only eat good food, and keep their bowels regular with Dr. King's New Life Pills, their troubles would all pass away, prompt relief and quick cure for liver and stomach trouble. 25c at W. H. Ellis drug store; guaranteed.

**LOW RATES FOR COTTON CONVENTION**

New Orleans, Dec.—Railroads in the cotton belt of the south have announced a rate of one fare for the round trip for the mass convention of the Southern Cotton Association to be held in New Orleans January 11, 12 and 13. This is the same rate given last January when the farmers, merchants and bankers from Virginia to Oklahoma to the number of over 3000 met at New Orleans to organize the association. The coming meeting is the first general convention to have been held since the original meeting and indications point to even a larger attendance. President Jordan states that he would like to see 5000 delegates at New Orleans and in view of the remarkable and enthusiastic co-operation of the cotton producers during their eleven months of organization, Mr. Jordan's estimate may not fall much short of the desired number. The New Orleans meeting will be held under the auspices of the New Orleans Progressive Union and New Orleans Cotton Exchange who are defraying all expenses. Secretary Henry Mayo of the New Orleans Progressive Union announces that Odd Fellows' Hall has been selected as the meeting place. This is one of the largest halls in the city and is on camp street facing the square opposite the City Hall, just five blocks from Canal street, is well heated and lighted and convenient to the various exchanges, the hotels and all street car lines.
