STATESBORO, GA., TUESDAY, JANUARY 2, 1906.

VOL. 5, NO. 43

Bank of Statesboro

Elects New Officers

At a meeting of the stockholders of the Bank of Statesboro held in their building on Saturday, the following board of Directors were chosen for the year 1906:

B. T. Outland, W. C. Parker, J. L. Mathews, J. W. Olliff, J. L. Coleman, E. L. Smith and W. H. Ellis. The latter two are new names, due to take the place of the late D. R. Groover, and the other takes J. A. Fulcher's place on the board. The reason for the latter change is probably due to the fact that Mr. Fulcher is preparing to leave us, and, consequently, is not in a position to serve longer.

The bank has had a most successful year and has shared in the general prosperity of all other business enterprises in the community.

Lanier-Dorsey

On Sunday last at the home of the bride's sister Mr. and Mrs. Morgan Moore, Mr. D. B. Dorsey and Miss Effie Lanier were united in the holy bonds of matrimony. Miss Effie is one of Laurens' most popular young women and has a large number of admirers all over the county. The groom is one of the most popular young railroad men in this section and holds a trusted position with Savannah & Tennessee railroad. Mr. Mrs. Dorsey will make Savannah their home. May riches and wisdom be their burden.

Smith-Lee

On Friday afternoon a young couple drove up to the home of Rev. T. J. Cobb's on South Main street and told him that they wanted the knot tied that would make them man and wife. It was Mr. A. O. Lee who led Miss Rose Smith to the altar in this manner. Rev. Mr. Cobb being an extremely accommodating turn, of course, did what lay in his power to make their happiness complete.

Found Dead in Bed

On Saturday morning when members of the family went to the room of Mr. Thomas Dixon, living about three miles from town, to call him up they got no response. Upon examination it was ascertained that he was dead. He had evidently passed away with little or no struggle, as none of the members of the household had been attracted by any noise or struggling. The remains were interred in the cemetery at Friendship church on Saturday afternoon.

How to Prevent Bilious Attacks.

One who is subject to bilious attacks will notice that for a day or more before the attack he is not hungry at meal times and feels dull after eating. A dose of Chamberlain's Stomach and Liver Tablets when these first symptoms appear will ward off the attack. They are for sale by all druggists.

The New Preacher.

As a rule people like new things, and sometimes it is for the better and sometimes it is for the worse; but I think the Methodist plan of changing the preachers occasionally is a good one. The two hundred itinerant preachers sent out by the late South Georgia conference have about all reached their work and have entered upon their labors. They have not all been changed, however. Some have been returned to their former work. The Methodist plan is puzzling to some—having the apostolic plan of "sending", but it is a wonderful factor in the hands of God in establishing His kingdom in the world. In Georgia, alone, there are, to-day, over five hundred itinerant preachers, with a lay membership of 108,000 and rapidly increasing. This denomination of this country has missionaries in every heathen nation of the earth, and ere long will penetrate every nook and corner of the globe. Only a few years ago there only two Methodist churches in this county (Bulloch), and to day they have twelve houses of worship, with several other organizations and places of preaching, at which there will soon be houses erected.

But I started out to speak of the "new preacher". Rev. Geo. G. N. MacDonell returns to Statesboro. He is no new man, having served as pastor and presiding elder in this section before. I have known him for more than forty years, and know him to be able and acceptable wherever he goes.

Rev. A. S. Adams goes to the Brooklet circuit. He is a new man to me and to the people he is to serve this year, but of course he is an all-right man and preacher, having served the Swainsboro circuit the last two years and did a good work there.

Rev. P. H. Crumpler comes to this, the Zoar, circuit. He is a new man to most of the people here, though I have known him for many years—met him at district conference and heard him preach. He is a good and faithful worker and I believe he will do a good work here. He will have comparatively a light work here, as one of the upper churches has been taken off of this circuit and assigned to the Garfield circuit, in charge of Rev. E. C. Willis, who is a fine young preacher.

The preacher sent to the Bulloch mission is a stranger to me, but I am sure he is a worthy man and will do good work if he has the cooperation of the people in fighting for the establishment of the kingdom of righteousness in that part of the world.

Rev. I. R. Chambers, who served this circuit the last two years, goes to Swainsboro circuit. The good work he did here endeared him to the people. I have been to and all around all the churches he served, and there never was a pastor more beloved by his people than he. He not only served them well in the pulpit but in a material way. He finished and seated one church that had been started, and built a nice and commodious parsonage, working with his own hands. He has many good qualities as preacher and pastor. To show his faithfulness, I will state that he went forty miles to fill his first appointment and returned to move his family, which some preachers would not have done. It may be possible he had some croakers and grumblers in his charge, which is a chronic disease with some. Jesus Christ had such to contend with while preaching His gospel, and he said unto his disciples: "Woe unto you when all men shall speak well of you."

While the people here regret losing him and his excellent family, they are glad to know that he has gone to a good work and where he can have the advantage of a good school for his children.

We should be content to submit to the powers that be, believing at the same time that we have a good man again to teach us in things Divine.

B. W. DANEY.

The Grip.

"Before we can sympathize with others, we must have suffered ourselves." No one can realize the suffering attendant upon an attack of the grip, unless he has had the actual experience. There is probably no disease that causes so much physical and mental agony, or which so successfully defies medical aid. All danger from the grip, however, may be avoided by the prompt use of Chamberlain's Cough Remedy. Among the tens of thousands who have used this remedy, not one case has ever been reported that has resulted in pneumonia or that has not recovered. For sale by all druggists.

Appointments

There will be regular services at Pleasant Hill as follows: First Sunday and Saturday before, also 3rd Sunday and Saturday before. We hope to meet all the people on the first Saturday, so as to become acquainted with our work at once. Services will also be held at Eureka on the second and fourth Sundays in each month. Services at Union every fourth Sunday afternoon at 8 o'clock, with every fifth Sunday during the year.

P. H. Crumpler, P. C.

A Grim Tragedy

is daily enacted, in thousands of homes, as death claims, in each one, another victim of consumption or pneumonia. But when coughs and colds are properly treated, the tragedy is averted. F. G. Huntley, of Oakland, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, coughs and colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c and \$1 by W. H. Ellis druggist. Trial bottle free.

Christmas Tree at Stillson

Christmas festivities were opened up here last Monday night with a big Christmas tree given by the Baptist Sunday school. An interesting program was rendered before the exhibition of the tree, after which old Santa Claus arrived here on due time to greet the little ones. The tree was loaded with hundreds of pretty and useful presents. Santa Claus did not only remember the little folks, but the grown up and old were remembered very kindly. The house was filled with people until scarcely standing room in the aisle could be had.

Sticking Shivering Fits

of ague and malaria, can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts curative influence on the disease, driving it entirely out of the system. It is much to be preferred to quinine, having none of this drug's bad after-effects. E. S. Monday, of Henrietta, Tex., writes: "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life." At W. H. Ellis's drug store; price 50c, guaranteed.

NOTICE

I have newly built and opened up a first class general merchandise store at Stillson, Ga., where I am prepared and will carry a general stock of merchandise of all kinds, with Mr. H. E. Jones manager. I am also connected with Mr. J. J. Williams, and having erected a first class telephone line five miles out to my farm and in minute communication with my business. Kindly thanking my patrons and the public for past patronage, and hoping a continuance of same. I am, yours respectfully, O. C. Newman.

Sea Island Growers Organize.

On yesterday the Sea Island Cotton Growers of Bulloch county organized in the court house. Mr. W. W. Webb, of Hihari, was here and delivered an able speech to a large and appreciative crowd of farmers and business men.

At the conclusion of Mr. Webb's speech short talks were delivered by Messrs. P. R. McElveen, J. G. Blitch and R. Simmons. All of these gentlemen urged upon the farmers present the necessity of organization, and endorsed the words of the speaker.

Mr. P. R. McElveen was elected president of the county association, Mr. D. E. Bird, vice-president; Mr. M. M. Donaldson, secretary, and Mr. S. J. Williams, treasurer. Those who were present seemed to be enthused with the spirit of the movement, and a good many entered their names as members of the association.

A small fee of one dollar is charged to pay the incidental expenses of the county and state organization.

Mr. Webb will deliver a speech at Metter today, where he expects to organize another branch of the association. Some blanks were along for the use of those who might want to join those who have agreed to hold their cotton for the price set by the association at Valdosta some weeks ago.

It was the general opinion of

those present that the acreage of sea island would pretty heavily cut the coming season, inasmuch as the price is now below the cost of production, it is highly probable that farmers are not going into its culture so heavily as heretofore.

Sea Island Bank Elects Officers.

The annual meeting of the stockholders of the Sea Island Bank was held in its offices yesterday and a-l of the old board of directors were re-elected, with the exception of Mr. W. S. Prestorinus, who asked to be relieved on account of a pressure of other business taking up so much of his time that it was impossible to give it the attention that was demanded of him. Mr. D. E. Bird was elected to fill Mr. Prestorinus' place, and the new board as now constituted is composed of the following named business men and farmers: J. B. Lee, R. L. Durrence, W. B. Martin and D. E. Bird. John F. Brannen was elected president to succeed himself, as was R. F. Donaldson as cashier.

The showing made by the bank was highly satisfactory to its stockholders.

Mr. H. W. Burke, of near Pembroke, placed us under many obligations to him one day the past week by the presentation of a mass of the best turkeys we have seen. Mr. Burke made these turkeys on first years new land.

J. P. Williams Asks for Bids.

Mr. J. P. Williams is asking for bids on the erection of his mansion on South Main street. Contractor A. J. Franklin has had the plans in hand for the past ten days, and we understand he has submitted a bid for the erection of the same. The bids were asked to all be in by the 28th of December, just past, and that it was the intention of Mr. Williams to lose no time in the erection of his residence. When completed it will be the best residence in the city, costing anywhere between \$20,000 and \$30,000. It will be built after modern architecture, and will be finished up in the latest style. Many fine woods will be used in the inside finish and the flooring throughout the reception halls will be of marble tiling. Mr. Williams will make Statesboro his home, continuing his business in Savannah and elsewhere, however.

Spotted Her Beauty

Harriet Howard, of New York, at one time had her beauty spoiled with skin trouble. She writes: "I had Salt Rheum or eczema for years, but nothing would cure it, until I used Bucklin's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c at W. H. Ellis's drug store.

Geo. E. Wilson will sell you Our Own and Pine Land Guano. Remember there is nothing else to equal those brands.

SOLID CAR LOAD Stoves and Ranges.

Nothing around the house is the source of so much pleasure and comfort as a good Stove or Range. It is used over a thousand times a year, and if the material and workmanship are not what they should be, you are bound to have a great deal of trouble and annoyance.

Our "JEWEL" line, made in Detroit, the home of good Stoves and Ranges, are the satisfaction-giving kind, and cannot fail to please you. While they are not cheap at first cost, they will prove themselves to be the most economical in the end, on account of their perfect operation and great durability. It will be a pleasure to show you our line.

Col. Brannen Announces.

As will be seen by reference to our announcement columns in this issue the name of J. A. Brannen is again before the people of the First district for congress.

It is needless for us to dwell on Col. Brannen's good qualities and fitness for the position to which he aspires. Our people know him and have trusted him with their ballots in the past, and it is but reasonable to expect that his home county will accord him that same loyal support that she did in the last race. A majority of about 1200 votes is sufficient evidence to show that his home people stood loyal to him, and against a man they had always delighted to hear of.

Mr. Brannen, as well as his friends, are quite confident of his chances to win. We believe that he will carry twenty-four votes out of thirty-six in the forthcoming convention, and that he will be nominated and elected by the largest majority given a candidate in this district for several years. The men who stood by him the last time are still his loyal friends, and he has the assurance of hundreds of good men who vote against Col. Lester that time that they would be for him this time. Especially is this true of Bryan, Screven, Liberty, McIntosh, Tattnall, Burke, Effingham and Chatham.

Mr. Brannen opened his campaign in a speech at Lyons, the capital of the new county of Toombs, on yesterday. He was given a royal reception, and was assured of the support of hundreds of the best men in the new county that he will carry that county three to one, for anyone else now mentioned against him is conceded by all who have any knowledge of the trend of public opinion in Toombs. He also has the assurance of hundreds of strong friends in Jenkins county that that good county will be found in the Brannen column when the votes are counted by a very large majority.

Both Toombs and Jenkins are new counties and will add two votes each to the convention that nominates. This is the first time that they, as separate counties, have participated, but they are carved out of a territory which gave Mr. Brannen handsome majorities at the last election, and will naturally be expected to be found in his column again.

It is the intention of Mr. Brannen to make a vigorous canvass of the district and leave no stone unturned that might stand in the way to victory. He has been tendered the support of numerous newspapers and public speakers who have assured him of their loyal support throughout the district.

It now seems certain that Hon. J. A. Brannen, of Statesboro, will be the next representative in congress from the First district. He is a strong, able lawyer, and will wear the honors of Lester with credit.—Brunswick News.

Dangers of a Cold and How to Avoid Them.

More fatalities have their origin in or result from a cold than from any other cause. This fact alone should make people more careful as there is no danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt and effective medicine in use for this disease. It acts on nature's plan, loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by all druggists.

New Loan Company Organized.

By reference to our advertising columns will be seen the application for the charter of the Bulloch County Building and Loan Association. A meeting of the stockholders was held in the office of Col. J. E. Brannen, Thursday, and the following named gentlemen were elected as officers of the new concern: J. E. Brannen, president; R. F. Donaldson, secretary and treasurer. Directors: J. A. McDougald, R. L. Durrence, J. G. Blitch, J. B. Lee and J. W. Franklin.

The company starts out with a capital of \$5,000. It is backed by solid business men, and it is its intention to help those who are not able to build homes by themselves. It is expected that the company will be ready for business within the next thirty days.

Contracted for New Store.

Mr. J. W. Wilson closed a contract with Mr. L. B. Blackburn a few days ago for the erection of a two-story brick store building on the site where his office now stands on east Main street. Work on the building will start in the near future. And this will be one step toward the filling of a crying need in Statesboro for more stores and dwellings. It is understood that the upper story of this building will be used for offices. It will be modern in every particular and will add much to that part of the city.

Brooklet Academy to Open.

The spring term of Brooklet academy will open next Monday, with Prof. Paul B. Lewis as principal, and Miss Bertha Blasingame as assistant. Miss Blasingame is from Augusta and has the reputation of being a fine teacher. Prof. Lewis is too well known to need any word of commendation at our hands. He is one of Bulloch's most successful teachers, and, together with the good people of his town, has succeeded in building up one of the best schools in the county. This will be the first term of the free school under the recent act of the legislature giving Brooklet a free school district.

Rates and Progress

President Samuel Spencer writes of the Work of the Railroads

Writing in the Century Magazine for January Mr. Samuel Spencer, president of the Southern railway, discusses the relation of railway rates to the industrial progress of the country. He recites many instances to show how quickly the railroads came to the relief of a community when crops fail or when they are overabundant. For example, one year the corn crop was a failure in Kansas and the roads lowered their rates to carry corn into that state from Iowa and Illinois.

Another year the Nebraska corn crop was enormous and the price being low the roads reduced their own rates so that the farmers could more easily sell it.

Speaking of rates on cotton Mr. Spencer says: "Numerous cotton mills are located in Georgia and the Carolinas, which, of course, compete with the older cotton mills located in New England. Reduced rates from the southern states to these mills are as adjusted as to enable all of them to obtain raw material. This enhances the competition for the purchase of cotton. If the rates on cotton were so adjusted as to be very much higher to the more distant mills it would perhaps result that the growers of cotton would be virtually confined to the nearest mills for their market."

"Rates are likewise adjusted from these mills to the market for cotton goods, in order that the mills may dispose of their product. If these rates were adjusted primarily with regard to distance, each set of cotton mills would have a large territory in which it could sell cotton goods, virtually without competition from mills in other parts of the country."

The point which Mr. Spencer makes is that the railroads are anxious to help every producer, whether he be a farmer, miner, lumberman, fur-nace-man or manufacturer, to reach a wide range of markets. This gives the consumer competition in buying and gives the producer a better chance to sell.

"The policy of the Inter-State Railroad commission, says Mr. Spencer, has been in the opposite direction—that of restricting the consumers to the nearest market. He asserts that the commission could not possibly give prompt and proper attention to the requirements of constantly changing commercial conditions."

Give the commission control of rates, says Mr. Spencer, and either it must take time to investigate and thereby delay passing upon applications, until the relief when granted might come too late to be of any value, or it must grant the application without sufficient investigation, and hence make its supervision perfunctory and harmful."

The railroads have several thousand experts engaged all the time in revising, correcting and changing rates.

Rhodes-Harvery Furniture Co., 209-211 West Broughton St. SAVANNAH.

To Our Friends in Bulloch:

W E have crowded into our salesroom and warehouse the greatest line of FURNITURE ever under one name in South Georgia. We supply a patronage of all classes and have every facility for the prompt, proper and economical handling of orders. Our store is the Savannah Link of the RHODES-HARVERY Great Chain of Twenty-one Stores and buyers for the chain take the entire output of bed factories, mattress factories, chair factories. They buy whole cargoes of floor coverings from the Far East. They search the highways and byways for new findings. Buying in such quantities, we naturally get price successions that are not granted to smaller purchasers—hence we are in position and do give better prices than any furniture store in this section.

We can furnish your home complete, putting into your kitchen the famous Buck Stove and put in your parlor the most exquisite things known to the furniture-making world. If you have Christmas Presents to buy or want to furnish a home, what you save in prices here will meet your expenses in coming and send you home with a surplus.

THE NEWS.

Published at Statesboro, Ga.,
TUESDAYS AND FRIDAYS.

By The Statesboro News Publishing Co.

A woman does not make a fool of a man. She merely brings it out into public view, observes the Minneapolis Journal.

If Witte brought back any superfluous peace from Portsmouth he can use it to advantage in the neighborhood of Moscow, thinks the Chicago News.

It almost makes a man feel as if he were entitled to some substantial political recognition when he learns that he has for years been contributing through his insurance company, to the campaign fund, avers the Indianapolis News.

The suffering among the rural Bore is due to their inability to work, asserts the Johannesburg Star. The Bore farmers have never learned how and are unable to settle down to a routine of drudgery. Their women regard household service as degrading.

The Richmond Times-Dispatch says:—The tour of President Roosevelt through the South was the most notable, and we may say the most successful, tour made in this generation by any public man. It was an evasion from the time he left Washington until he left New Orleans.

Legislation is threatened in many states during this winter for the suppression of the so-called "patent" medicines. The success of such legislation would mean the abolition of the home medicine chest and would force persons, no matter how remote, their homes from the home of a physician, or how needless the additional expense might be, to call in a physician for every minor ailment. The legislation as proposed would mean greatly increased doctors' bills and what is worse, frequent long delays awaiting the arrival of a physician when a simple remedy, administered by a member of the household would accomplish the result desired.

The man who has been at sea for three months, with little liberty from the routine of warship duties, and who arrives at one of the world's greatest seaports with three months' pay in his pockets, may be pardoned if he is inclined to spend his leisure and his money somewhat extravagantly, thinks the New York Tribune. But it is a mistake to suppose that the blackjack et desiré, above all things, to dissipate his earnings in riot and debauchery. If he does so, it is in most cases because he has nothing better in the way of amusement set before him, and in his limited leisure has little time to seek it. When, however, rational means of enjoyment are afforded him he is likely to avail himself of them to the full.

Colloquial ease is an excellent thing in an orator who is addressing a mixed audience, but he should be careful not to allow himself to descend to those colloquialisms which are current only among the lower strata of his audience. That magnificent organ of English speech which has been perfected by the greatest writers and thinkers of the Old World is in danger of being profaned by the ignoble uses to which in the New World it is subjected, not merely by the illiterate but by the slovenly minded among the educated classes. Carelessness has joined hands with ignorance to defame and deface it. Even the dictionaries in their eagerness to increase the apparent number of words in their vocabularies, for advertising purposes, are extending a hospitality to an illegitimate spawn of words and phrases that must be as short lived as they are base born. In drawing room, in club room, in cafe, a looseness of speech is fast becoming tolerated among people of education and refinement which if it be not speedily checked will result in the creation of an American language that will be a hideous burlesque of the English, which was spoken by our ancestors and which still remains in vogue in the educated circles of Great Britain, concludes the New York Herald.

High Prices Paid for Convicts. The state of Alabama has leased to A. B. Steele & Co., of Atlanta, fifty convicts for three years to work in sawmills at Dothan, Ala. The price is \$20 a month, net, the best ever received in the south. The next best is \$20, made some time ago.

CASH WAS SCARCE

Call Money Reached High Rate in New York.

UNCLE RUSS TO RESCUE

Veteran Wall Street Financier, Sage, Made Ten Strike by Lending Six Million Dollars at the Rate of One Hundred Per Cent.

After having reached 110 per cent on the New York stock exchange and 125 per cent on privately arranged loans, the rate for call money late Thursday afternoon fell to 6 per cent. Just before the close it advanced again and closed 15 bid, offered at 20.

As the money rate fell, the stock market advanced, approximately the highest prices of the day were reached at the close. The stock market, except for an early decline in industrial, was fairly steady throughout the money tension.

The advance in the interest rate was sensationally rapid. From 60 there was a quick advance to 75, 80 and then 100 per cent. When 100 per cent was touched all records since December, 1899, were broken. In that year 185 per cent was paid for call loans. After being at 100 Thursday, there were loans at 90 per cent. The 90 per cent quotation did not last long, and at 11 o'clock 110 per cent was paid for funds, and shortly afterwards a loan of \$100,000 at 125 per cent was reported.

Russell Sage, through his representative, was reported to have loaned \$5,000,000 at 90 to 100 per cent. More than the usual discrimination was shown by the banks in the collateral accepted by them for loans. The rate for 60 and 90-day loans Thursday was 6 per cent and a "commission," making such loans really equivalent to 9 per cent. By 1 o'clock the demand for money seemed to have been largely supplied and money was lent at 60 per cent, falling later to 25 per cent. From 20 per cent there was a further drop to 6 per cent and at 2:45 o'clock the quoted rate was 6 to 10 per cent. President Hepburn of the Chase National bank said, in an interview:

"The enormous volume of business which obtains throughout the country is making a strong demand upon the banking power, and naturally has materially advanced the rates of interest."

The foreign exchange credit which the country would normally have as a result of the shortage of cars, which prevents the rapid marketing abroad of cotton and grain, and also by the concerted withholding of cotton for higher prices.

"Normally, we would anticipate such exchange by our credit abroad, but Europe has troubles of its own. Hence, we are called upon to finance our great volume of business practically with our own resources. It is unfortunate that at such a time and under such circumstances that prices of listed securities should be persistently advanced day by day. It has added to the money strain and is primarily responsible for the high rates of interest."

"Stocks (if worthy) would have found a higher level in a normal market without causing an unnecessary and without causing conditions fraught with possible danger."

COVOTES ON THE RAMPAGE.

Children and Domestic Animals Being Destroyed by Them in Mexico. A San Antonio, Texas, dispatch says: Great loss of domestic animals has been sustained recently in Mexico from coyotes and wolves with rabies. Cattlemen from the Rio Grande country say practically all the coyotes beyond the river are mad, and the cattlemen are scouring the country and exterminating them.

Several Mexican children in Coahuila have been bitten and died. The spread of rabies to Texas is feared.

PRICE OF LUMBER ADVANCED.

Committee on Values Raise Figures on Certain Grades. Advice sent out to members of the Southern Lumber Association was to the effect that the committee on values, which has been in session in St. Louis, has made a big advance in prices of certain grades of lumber, the increase per 1,000 feet over prevailing prices being:

Flouring \$2, all grades; ceiling \$1.50, all grades; siding, \$2, all grades; inch boards, \$1.50, all grades; flooring \$1.50, all grades; dimensions \$1.50, all grades.

COAL FOR MISS ROOSEVELT.

Miners to Present Carload of Anthracite as a Wedding Gift. The members of Hamilton, Pa., union No. 2, United Mine Workers of America, have decided to present to Miss Alice Roosevelt, as a wedding gift, a car load of the best coal that can be found in the anthracite region, in appreciation of her father's services in ending the great strike of 1902.

HAZERS ON THE RACK.

Courtmarital Proceedings Against Midshipman Coffin Begun at the Naval Academy.

Courtmarital proceedings against Midshipman Theodore Coffin, Jr., a member of the third class, on the charge of hazing Midshipman Jerome P. Kimbrough of the fourth class began at the naval academy, Annapolis, Md., Thursday.

Midshipman George Hewlett of the third class was the first witness. The witness testified that he had looked in the door of room 52 in Bancroft hall on the evening of December 12, and that he had seen Kimbrough standing on his head and Coffin and Kimbrough's roommate in the room with him. Witness said that he left the vicinity of room 52 and remained away about five minutes. When he returned Kimbrough was still on his head and Coffin was the only other person in the room.

The witness was asked to illustrate what "standing on the head" meant. He put his head on the floor and raised his feet a few inches from the ground in a series of jumps. The exercise apparently put much strain on the legs and arms, and was hard on the head. Kimbrough also exhibited this performance to the court later.

Midshipman Kimbrough was the next witness, and it developed that he was unable to identify Coffin as the man who had hazed him. The rule, it appears, is that no lower class man must look at an upper class man under such circumstances, and this was so rigidly observed in the present case that Kimbrough could not say that Coffin had hazed him. He told, however, how he had been hazed by being compelled to stand on his head.

He had been hazed, he said, until he gave out entirely. Then the midshipman who was doing the hazing gave water over him and compelled him to go on again. He brought the relation up to the point where he lost consciousness.

He had gained consciousness, he said, in the naval academy hospital. Lieutenant Commander Charles H. McVey, Jr., was the last witness during the morning session. He is attached to the department of discipline at the academy and is a member of the board of investigation now going into the subject of hazing at the academy.

The witness during his testimony said that he had learned a great deal about hazing during the last few weeks.

He discovered that Midshipman Hewlett had looked into the room and seen the hazing of Kimbrough. He informed Hewlett that unless he told the names of the midshipmen who had either reported for disciplinary orders or he called before the board of investigation in the morning and compelled to testify.

Hewlett was allowed time to make up his mind, and in the meantime Coffin sought an interview with the witness. At this point the counsel for the accused objected to the testimony, an alleged confession. I asked the court to be allowed to interrogate the witness. This the court permitted, but took a recess at this point.

Upon reassembling the court admitted the testimony of Lieutenant Commander McVey as to Coffin's confession. Coffin, the witness said, admitted that he had stood Kimbrough on his head for about ten minutes.

HALF OF THE WORLD'S OIL

Is Produced in the United States, According to Official Figures. The United States supplied more than one-half of the petroleum produced in the world in 1904. A statement of the world's production of petroleum prepared by the British board of trade, which has just reached the bureau of statistics of the department of commerce and labor, puts the petroleum production of the world in 1904 at 2,300,000,000 gallons, of which 4,718,000,000 gallons were produced in the United States.

RESPITE FOR THE RAILROADS.

Granted by Governor Terrell and Executions Are Postponed. Governor Terrell has granted a respite of sixty days to the members of the Bowlegs family in the case of the Moore case, sentenced to be hanged in Valdosta, Ga., January 5, for the murder of the Carter children.

The respite in the case of old man Bowlegs and his sons were granted on account of the appeal to the supreme court of the United States. In the case of Alf Moore the governor granted a respite for the same reason because Moore is an important witness for the state.

ODELL MAKES THREATS.
Ex-Governor of New York May Expose Some Inside Secrets. Former Governor Odell of the republican state committee made a statement in New York Thursday concerning the contest for speakership of the assembly, in which he is backed by E. A. Morrill, Jr., against J. W. Wadsworth, Jr., who has the support of Governor Higgins. Mr. Odell said: "The gentleman up at Albany, who is doing so much yelling just now, has had some starch injected into his backbone by Roosevelt. He never had any before. When you hear him talk these days the voice is the voice of Jacob Higgins, but the hand is the hand of Ezra Roosevelt. Few persons are deceived by the talk about Roosevelt not interfering in politics in this way in any other states. The fools who take in, but you can't catch the old birds by throwing salt on their tails. It is entirely clear that Roosevelt is back of Higgins in this speakership contest, and so-called impartial denials do not count."

"This is going to be a fight to a finish. I tried in every way to avoid factional trouble, but it has been forced on me and when a fight is so forced I am not a quitter."

"Is the report true that you will have something to say about the collection of campaign funds by Mr. Odell last year?" Mr. Odell was asked.

"Before this fight is over I may have a good deal to say about this and other matters of interest, including the Dewey-Black race for the United States senate. It is almost probable that I will contribute some political literature in the near future some chapters of which may interest people."

THREE BANKS CLOSE

Memphis Concerns Forced to Suspend Business.

LARGE CAPITAL INVOLVED

Heavy Loans and Stringency Immediate Cause of Collapse—Depositors May Get Every Cent of the Money That is Due Them.

Anticipation of a heavy run on the Merchants' Trust company at Memphis, Tenn., preliminary intimation of which was given by the withdrawal of many deposits Tuesday afternoon, was the immediate cause of the suspension of that bank and the appointment of a receiver Wednesday.

The American Savings Bank and Trust company, 178 South Main street, which is dominated by the directorate at the Merchants' Trust company, fearing that the failure of the other institution would cause a run on its own deposits, also suspended payment until the affairs of the Merchants' Trust company shall have been adjusted.

Savings Bank Absorbed.

The American Savings Bank and Trust company, it develops, recently absorbed the Mechanics' Savings bank at Main and Calhoun streets, and took charge of the latter company's business. It is stated by the officials of both institutions that the depositors will be fully protected and paid dollar for dollar.

The stockholders of the Merchants' Trust company, it is said, will suffer to the extent of 20 per cent on the capital invested, as the liquidation of the bank's finances is expected to entail a slight loss.

The assets of the Merchants' Trust company greatly exceed the liabilities. The American Savings Bank and Trust company, according to its latest statement, is in excellent condition, and is carrying more ready cash than is usual for an institution of its size.

The Merchants' Trust company has on hand only \$20,000, the remainder of its capitalization being loaned. The fact that the bank had overextended the stringency of the New York money market are given as the direct causes of the suspension.

John P. Edmondson, a prominent attorney of Memphis and one of the directors, has been appointed receiver for the Merchants' Trust company. A. Y. Allen, cashier of the American Savings Bank and Trust company, has been appointed receiver of that institution.

The decision not to open the doors of the Merchants' Trust company on Wednesday morning was reported after an all night conference of the board of directors.

W. A. Percy, attorney for the Merchants' Trust company, and the directors of that institution make the statement that all depositors, both of the Merchants' Trust company and the American Savings and Trust company, will be paid in full.

Statements of the financial status of the closed banks at the close of business, December 26: Merchants' Trust company—Assets, \$2,565,035; liabilities, \$2,132,319. American Savings Bank—Assets, \$755,703; liabilities, \$758,703. The deposits in both institutions exceed \$2,000,000.

NEARLY SIX HUNDRED MILLIONS

Is Value of Property of All Kinds in the State of Georgia.

According to the returns made to tax receivers all over the state of Georgia by individual property owners and those made to Comptroller General Wright by corporations, the value of all the property in the state for 1905 is \$577,957,338, or \$17,073,133 more than in 1904.

OCEAN GRAVE FOR CREW.

Schooner Is Wrecked and Only the Mate Escapes Drowning. Captain Leonard of the schooner Helen Thomas, arriving at Port Thomas, Tuesday, from Galveston, reports the wreck of the three-masted schooner Washington of Port Thomas, Nova Scotia, and the drowning of the entire crew, excepting John F. Williams of St. Johns, New Brunswick, the mate.

OPEN DOOR IS ASSURED.

Most Important Feature of Treaty Between Japan and China in Relation to Manchuria.

A Washington special says some important details of the treaty between Japan and China signed a few days ago at Peking have reached the state department by cable. China consents to lease to Japan the Liao Tung peninsula at the southern extremity of which is Port Arthur and Dalian. This territory was formerly held by Russia under lease from China. China concedes to Japan the control of the railway of the peninsula northward as far as Chang Chin. This is one of the spurs which connects with the Russian Siberian railway system.

China also concedes to Japan the right to build a railway from An-Tung on the Yalu river to Mukden, the ancient capital of Manchuria, probably along the route of the famous old military or caravan road.

Most important of all the provisions of the treaty is an article whereby China agrees to open to world commerce and trade all principle ports and cities, including Harbin, the modern Russian capital of the province and its important railroad center which, in the opinion of the state department officials, the financial success of the long struggle by the United States for the open door.

NEGROES IN BLOODY FRACAS.

Bully, With Revolver, Attempted to Break Up a Christmas Party.

The latest reports received in Valdosta, Ga., from the fight between negroes and whites that one negro was instantly killed, five or six seriously wounded, and one, at least, mortally wounded. The latter negro was almost dismembered by a load of buckshot and was carried to Jacksonville, Fla., in a dying condition.

This negro, whose name is given as Will Johnson, is said to be the man who began the row. He is reported to have entered a house where a party of negroes were having a festival and, whipping out a big pistol with the declaration that he proposed to kill the crowd, began shooting.

All of the negroes belonged to a turpentine camp near Ewing. It is said that four men were unaccounted for after the melee, and it is believed they were shot and tied to the woods.

SHOES TOO GOOD FOR HIM.

Farmer Resorts Insult by Murdering Merchant in His Store.

Because John Schalk, a prominent merchant of Waltham, Kas., told Edward Morris, a farmer, when the latter inquired the price of a pair of shoes and then complained that they were too good for him to wear, Schalk was stabbed to the heart with a pocket knife. A hundred horrified Christmas shoppers witnessed the murder. Schalk was a wife and eight small children. Morris, who is in jail, has a family of six.

NEW COTTON LINE OFFICIALS.

Horace Emerson Remains at Head of Traffic Department.

Following a meeting of the directors of the company in New York, a reorganization of the traffic department of the Atlantic Coast Line, with Horace M. Emerson at its head, has been announced. At the meeting of the directors the office of traffic manager was abolished and the office of general traffic manager created. Mr. Emerson being elected to the position.

COULD CLEAR CALEB POWERS.

Such is Declaration of Wounded Man in California Hospital.

Charles E. Ehler, on a cot in the county hospital at Bakersfield, California, suffering from a wound presumably self-inflicted, has admitted that he has information as to the killing of Governor William Goebel of Kentucky, which, he alleges, would clear Caleb Powers, former secretary of state of Kentucky, now under sentence of death for complicity in the murder of Goebel.

Head of Georgia Division of Cotton Association Makes Comparison. President M. L. Johnson, of the Georgia Division, Southern Cotton Association, in a brief Christmas interview, presents an interesting contrast in the conditions which confronted the southern planter a year ago and those of today.

SARAH'S FEELINGS LACERATED.

Aged Actress Appeals to French Mate Escape Drowning. Through her managers, Sarah Bernhardt, who is on a farewell tour of this country, has appealed to M. Jusserand, the French ambassador in Washington, to protest against what she terms a discrimination of the so-called theatrical syndicate against her as a citizen of France.

SAN DOMINGO ROW

Will Not Be Meddled With by Uncle Sam Just Now.

IS LEFT TO ITS FATE

Decision to "Hands Off" Reached at Conference at White House. Serious Situation Prevails in Little Island.

A Washington special says: For the present there will not be any interference by the United States in the difficulty which has arisen in Santo Domingo. The trouble is regarded by the state department officials as entirely an internal one, and so long as outside interests are not affected, this attitude of non-interference will be maintained. If, however, conditions should change materially, and lawless acts should be committed against Americans and American interests, involving the collection of Dominican customs by this government, or other acts of violence occur which, in the opinion of the officials in Washington, would make it proper for this government to interfere, this attitude will be taken and measures adopted to quell the trouble.

This decision was reached by the state department officials and confirmed at a conference at the white house late Tuesday afternoon, in which the president, Secretary Root, Secretary Taft and Secretary Bonaparte participated. The cabinet officers remained at the white house until nearly 6 o'clock p. m. The gathering, however, was not called specifically for the purpose of discussing matters developing in Santo Domingo, but to consider several questions which the president was anxious to dispose of preliminarily to his departure for an outing of several days in Virginia.

Advice received by cable at the state and navy departments from an insurrectionary movement and the governor of that province has defied the general government and barricaded the town. The Dominican government has issued a decree removing the governor. The state department has determined that this is an internal difficulty, and will not intervene at this stage.

The secretary of war received the following telegram from the controller and receiver of the Dominican customs, Edwards, dated at Santo Domingo:

Carlos F. Morales, dissatisfied with cabinet support, left capital Tuesday night with few followers. His intention seems to be to join Jimlinista in opposition to Horacistas. Conflict between the two forces is imminent probably in vicinity of San Juan or vicinity of Puerto Plata. Carlos F. Morales may attempt to establish new capital and create a new cabinet. Political excitement, but without disturbance present. Recession is not affected yet, George R. Colton should be at Monte Cristi Tuesday.

A cable dispatch from Santo Domingo, dated Monday's date, was as follows: Following the announcement that the president of the republic, Morales, has left the capital for an unknown destination, troops were sent in pursuit of the chief magistrate. What took place after that cannot be definitely determined.

RAILROAD DEAL REPORTED.

Rumor Says Central of Georgia Has Secured Baltimore Air Line.

A report has reached Savannah, Ga., that Hon. George M. Brinson, owner and president of the Baltimore Air Line, has sold that road to the Central of Georgia railroad, the consideration being in the vicinity of \$400,000. This deal is said to have been consummated several days ago.

"LID LIFTERS" IN TROUBLE.

Would-Be Reformers in St. Louis Are Subjected to Heavy Fines.

Officials of several of the organizations popularly termed as "lid lifting clubs" which were held recently under instructions of Governor Folk are being arrested in police cars at St. Louis, Wednesday, on charges of violation of the liquor law. Fines were assessed ranging from \$30 to \$100. Judge Tracy denounced the organization, declaring that in nearly every instance they are merely subterfuges for the evasion of the Sunday closing law.

SAY REVOLT HAS FAILED.

Czar and Count Witte Receive Assuring News from Moscow.

A St. Petersburg dispatch says: Empress Nicholas and Count Witte received Tuesday night a report from General Doubassoff, governor general of Moscow, saying that the revolt there had failed, that the military had the situation in hand and that whatever defection may have existed among the troops had been overcome.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitution remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (cause by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A CARD

To our friends and the general public:

We beg to announce that as the season will soon be here, we will again begin the manufacture of ice from pure distilled artesian water. Our factory is now being thoroughly overhauled and with our increased facilities, we will be better prepared than ever to handle the large and ever increasing demand for our home made ice and soda water.

Our high grade Soda Water, Hop Ale, Root Beer and Champagne Elder Flitz, which has been so satisfactory and popular in the past, will be of the same high quality that has heretofore distinguished it.

We earnestly solicit a continuance of your patronage, and will at all times endeavor to serve you promptly. Let patronize a home industry and keep the money at home be your watch word.

Respectfully yours,
Statesboro Ice Mfg. Co.,

FARM HANDS WANTED.

I want farm hands with families prepared to work for wages or share of crops. I have everything necessary for farming except the labor. Apply at once to George E. Wilson, Harville, Ga.

Mr. W. E. Gould Is Dead.

On Friday night after an illness of twenty-three days, Mr. Willie E. Gould breathed his last, at his home in East Statesboro. Mr. Gould had suffered an attack from typhoid fever, and this, together with a complication of other troubles, caused his death. The funeral was held from the Baptist church of which he was a member. The Pastor, Rev. J. S. McLenore, conducted the funeral services in the presence of a large crowd of sorrowing friends and relatives. The interment was made in the town cemetery.

The deceased was about forty-two years of age, and leaves a wife and six children. He had been engaged in the mercantile business here for two or three years, being the business manager of Gould's Grocery. He had many strong friends in both the town and county who sincerely regret to learn of his death.

For Tax Receiver

To the voters of Bulloch County: I hereby announce my candidacy for the office of Tax Receiver of Bulloch county, subject to the democratic primary, and, if elected, I promise to discharge the duties of the office to the best of my ability.

J. G. Jones.

For Tax Collector

I hereby announce myself a candidate for the democratic nomination, for Tax Collector of Bulloch county, for the next election. I am a Bulloch county boy, whose life is known to every citizen of the county. If you deem me upright and entitled to the office, I will heartily appreciate your support.

S. C. Allen.

For Tax Receiver

The friends of Mr. L. O. Atkins hereby announce him for receiver of tax returns subject to the ensuing Democratic primary, and respectfully ask for him the support of his fellow citizens.

W. W. Williams
Jas. B. Rushing
Brooks Simmons

For Judge, Middle Circuit

To the White Citizens: Having entered the race for Judge of the Middle Circuit, I make this my newspaper announcement to the best of my ability. I am actuated by a desire to fill the office. I earnestly solicit the support of all the people and will feel gratified, indeed, should this position be accorded me by the voters, who have the right to confer upon any lawyer this honor.

Respectfully,
JOSEPH F. OLLIFF.

FOR SHERIFF

At the solicitation of my many friends, I take this method of announcing myself a candidate for the office of sheriff of Bulloch county, subject to the action of the democratic party. If elected I pledge myself to perform the duties of the office to the best of my ability, and respectfully ask your support, which I assure you will be very highly appreciated.

or Judge of Middle Circuit.

To the Voters of the Middle Circuit: I think it proper at this time to announce the fact that I will be a candidate to succeed myself as Judge of the Circuit. For eight years I served the people of the Circuit as Solicitor General, endeavoring at all times to discharge the duties of that office with fairness, impartiality and courtesy. Upon the promotion of Judge Evans to the bench of our Supreme Court I was an unopposed candidate before the people for the Judgeship to fill out his unexpired term of two years. My unanimous election to this office necessitated a complete abandonment of my law practice. I submit that I am fairly entitled to at least a full term. If in your judgment I have made an efficient and impartial Judge. On that subject of course I can say nothing but to render efficient service to the people. Whether I have succeeded or not others must say. If so, I am fairly entitled to an endorsement of my administration and of my record.

Brannen's Opening Speech

In Toombs County.

Lyons, Ga., Jan. 1.—Hon. James A. Brannen of Statesboro was given a warm welcome here today. He spoke to a representative gathering of the people of this section of the first congressional district. Hon. Alf. Harrington, in his introduction, referred to him as the candidate representing all of the interests and every section of the district.

There was no mistaking the friendly feeling among the people for Col. Brannen, and his speech was warmly applauded. He discussed the various issues that are before the people. He declared against graft, upheld the campaign of Weaver and Folk against corruption, went on record against the use of railroad passes by legislators, judges and other public officials, favored the passage of child labor legislation, and the enactment of laws requiring foreign corporations doing business in the state to be incorporated here, denounced the use of liquor and money in political campaigns, "to thwart the will of the people," gave assurance that every interest and section of the district will be carefully guarded, if he is elected, said he has no hobbies to gratify, will meet every issue that comes up and deal with it in accordance with his judgment, and will serve the interests of the people to the best of his ability.

Col. Brannen spoke of Savannah and gave his pledge that he will see that its interests, commercially and in every way, are subserved.

Col. Brannen is confident of his election. He is going to make a thorough canvass of the district and proposes to meet the people of every section of it before the convention.

Infant's Death.

On Tuesday afternoon the infant of Mr. S. A. Hall died after an illness of several weeks. The little one was laid to rest in the town cemetery on Wednesday morning. Rev. G. N. Education the Ruination

of Negroes in South.

Jackson, Miss., Jan. 2.—Gov. K. Vardaman, in his annual message to the Mississippi Legislature which assembled today again took a strong stand against spending public money for the education of the negro, saying in part: "What shall we do with the negro?" Certainly the education suited to the white child does not suit the negro. This has been demonstrated by forty years of experience and the expenditure in the Southern states of nearly \$300,000,000.

"As a race the negro is deteriorating morally every day. Time has demonstrated that he is more criminal as a freeman than as a slave, that he is increasing in criminality with fearful rapidity, being one-third more criminal in 1890 than was in 1880. The startling facts revealed by the census show that those who can read and write are more criminal than the illiterate, which is true of no other element of our population.

"In the south, Mississippi particularly, I know he is growing worse every year. You can scarcely pick up a newspaper whose pages are not blackened with an account of an unmentionable crime, committed by a negro brute and throw, is but the manifestation of the negro's aspiration for social equality, encouraging largely by the character of free education in vogue, which the state is levying tribute upon the white people to maintain.

"It is your function to put a stop to the waste of money to the tune of a half million dollars annually, money taken from the killing white men and women of Mississippi—and devoted to the vain purpose of trying to make something of the negro which the Great Architect of the Universe failed to provide for in the original plan of creation."

Bank Buys New Site.

On Tuesday the board of directors of the Bank of Statesboro purchased from Mr. J. W. Olliff the Hall hotel corner. The price paid was \$8,500. The size of the lot is 112 x 156 feet. This same property was bought by Mr. Olliff only a few years ago at \$5,000 with the buildings on it. They were sold for something like \$1,000.

It is understood that Mr. Olliff offered this site to the new hotel company only a few months ago for \$7,500, and his offer was turned down, and now that he has sold for \$1,000 more than the price asked six months ago, shows to what extent values are increasing in this city.

Fifteen years ago Capt. W. N. Hall traded a few acres of poor farming land on the Ogeechee river for another adjoining lot nearly as valuable, which his estate owns today, and everybody said that "Rafe Simmons had runned Capt. Hall." This was one thing that the general public got fooled on.

The bank will improve this property during the coming summer. They will erect a handsome bank building and will build several stores besides. The location is one of the best in town, which partly explains why the price was what it was.

LOST NOTES

All parties are warned not to trade for the following notes, lost on Dec. 20, 1905, made payable to the undersigned: One on George Kirby for \$30; one on C. J. Logue and R. L. Jones for \$40; one on A. M. Johnson for \$25; and one on R. K. Nesmith for \$5.
