THE SOUTHERN SUBMITS REASON WHY ITS RATES SHOULD NOT BE CUT.

The State Railroad Commission has now heard from all the roads whose rates Mr. Brewer of Griffin and Hon. J. Pope Brown of Hawkinsville want reduced. The roads themselves cannot tell accurately how much loss they would suffer but the Southern figures that its loss would be at least \$10,000 a year.

Mr. L. Green, Freight Traffic Manager, the official who has charge of the freight business all over the Southern, made answer for his company last week. Mr. Green, who is one of the greatest experts in the country, began his argument by showing how much the Georgia commission has reduced rates in the last twenty-five years. He took up lumber and showed by the records that the freight charges on it had been reduced in Georgia about one-fifth. Their various ways of doing some things. One way to reduce rates is to increase the minimum car load—that is to make the roads haul more freight for the same money. This is one way. Twenty years ago \$5.00 paid for handling 4000 bricks ten miles. Today \$5.00 will move 8000 bricks twelve miles, that is the roads have to haul twice as many bricks a longer distance to get the same money. Twenty-five years ago it cost \$1.44 to ship one ton of fertilizers ten miles in Georgia. Now it costs seventy-two cents on the Southern. This is just one-half. Today the Southern would haul a ton of fertilizers entirely across the state for \$1.44.

Flour, grain, hay, beans, live stock, cotton pease goods and one hundred other articles were taken up and their rate history was given by Mr. Green. The commission has very seldom made general sweeping reductions, but it has been trimming the rates a little here and a little there year after year. All freight shippers understand of course, that for purposes of rate making, freight is divided into classes and commodities. There are first, second, third, fourth, fifth and sixth classes and then there are lettered classes, A, B, C, D, etc. The commission often takes an article from a higher class and puts it into a lower one. This reduces the rate on that article. All commissions do this, but Georgia's has worked the trick a great deal more than her neighbors. This state has 261 articles with a lower classification than South Carolina and 315 that are lower than Alabama's. The railroad men firmly believe that Georgia's rates are unreasonably low. They show that all of the rates around her allow them to charge more than the Georgia commission's tariff, and they insist that rates in Georgia really ought to be raised. Mr. Green reminded the commission that last Feb. rates were reduced from the north, east and west to Georgia points. Then in May, the commission reduced all class rates from Atlanta, Athens, Augusta, Columbus, Brunswick, Dalton, Macon, Rome and Savannah to sixteen of the leading cities in Georgia.

Commissioner J. M. Brown has estimated that the reductions of last Feb. will amount to \$912,000 per year. Mr. Green declared that all of the reductions made this year in Georgia will cost the Southern railroad alone at least one million of dollars. He stated that very much a greater part of the money earned by his road in

A Birthday Dinner.

Among the rare but delightful episodes scattered along the pathway of life, cheering the weary and worn, giving life and buoyancy to youth, are those delightful assemblages known as birthday dinners. Why is it that we have so few of them?

We believe that the aged grandfathers and grandmothers would appreciate the offering, even if we were so poor that we could bring nothing to honor them with but a kiss and a rose.

It was my good fortune to attend one on last Monday at the home of Dr. I. S. L. Miller.

At an early hour the neighbors began to assemble until there was quite a number gathered to celebrate the anniversary of Dr. Miller. After a few words of welcome from his daughter, Miss Ada, causing all to feel at ease, Mr. James M. Burns engaged the attention of the crowd with one of his nice talks. After this there was a table spread that was amply sufficient to satisfy the appetite of all present, and most undoubtedly it did full justice.

After dinner was over we were treated to some sweet and delightful music by Mrs. Anne Burns, of Scarborough, and Miss Etta Miller, of Elizabeth, N. J.

Judging from the happy and bright faces we were led to the conclusion that all had spent a most pleasant day. But the happy day is over and we take our departure, leaving our best wishes with Dr. Miller and family.

## Relief For All The People

"Plant Juice," the Most Wonderful Remedy of the Age, to be Introduced in This City.

The people of Statesboro and this section of the State will learn with pleasure and satisfaction on that beginning shortly the world famed Dillingham, discoverer and manufacturer of a line of medicine that have performed some of the most marvelous cures of the age, will establish a branch depot in this city for the distribution of those wonderful remedies, and for the purpose of performing some of its marvelous cures.

Col. Dillingham has a system of advertising his remedies strictly original and very unique, and a specially selected company of vaudeville artists will afford amusement and entertainment for the crowds.

The particular remedy which has attracted the greatest benefactor to the human race is Dillingham's famous remedy, "Plant Juice." This preparation has stood the test of trial in thousands of instances and the cures it has wrought when properly taken under the directions of the manufacturer have been most remarkable.

Some of the features of this public dispensation by Col. Dillingham will be worth going to see. In other cities the papers are filled with reports of the wonderful cures brought about by this Remedy, and of thousands who have crowded about the stands appealing for relief from ailments of the body and system.

In some places it has been almost impossible to supply the demand for this new wonderful discovery in medicine. The lecture and dispensers employed by the management have no fear of their ability to produce the results guaranteed, and the opportunity is always afforded those applying for immediate relief to be treated at once. The entertainment to be given is a high class one which any person may witness with the utmost enjoyment. The fame of Col. Dillingham as a philanthropist is world-wide, and with this great discovery, "Plant Juice," within easy reach of suffering

humanity, his stay in this city is certain to be one of gratification and gladness to all. In addition to the great health giving qualities possessed by "Plant Juice," which has made it a house hold favorite in the homes of the United States and Europe, the other line of Dillingham remedies are equally efficacious and valuable. The famous Plant Juice Liniment and healing salve are standard remedies the world over, and their sales have become so enormous that it has been found necessary to establish manufacturing dispensaries in several sections of the country. Branch offices and manufacturers are now located in New York, Memphis, Tenn., Chicago and Cincinnati, with large forces of people engaged constantly in the manufacture and shipment of these favorite remedies. Once introduced they have become a household favorite, and no first class drug store is without

## Statesboro Institute Has Fine Opening

The spring term of the Statesboro Institute opened on yesterday morning under the most favorable circumstances. The opening exercises were held in the auditorium. Rev. G. G. N. MacDonell, Col. A. M. Deal, Judge John F. Brannen and Mr. W. C. Parker delivered some very interesting talks, setting forth that which was expected of patron, teacher and pupil, after which the different classes were organized in the different portions of the building. The enrollment was very satisfactory for the first day, being somewhere in the neighborhood of 250 pupils.

The following constitute the faculty for the present term:

Principal, G. B. Franklin; assistant principal, F. A. Brinson; teacher of seventh grade, Miss Maude Atkins; fifth B and sixth grade, Miss Ella Trappell; second and third Miss Pauline Smith; fourth and fifth grade, Miss Hattie Newton; first grade, Miss Mattie Lively; Music, Miss Leslie Brannen; expression, Miss Earle Wood.

## Brannen for Congress.

Elsewhere in this issue will be seen the announcement of Hon. J. A. Brannen, of Statesboro, for Congress. It is hardly necessary to comment on the announcement of this man, for he is well known to the voters of this county, having lived here for a number of years.

We have no hesitancy in saying that Mr. Brannen is our choice for this exalted position of trust and that we fully believe that the people will make no mistake in elevating him to this position of trust. He will probably have no serious opposition as his election is almost a certainty.—Forest Blade.

## Spilled Her Beauty

Harriet Howard, of New York, at one time had her beauty spoiled with skin trouble. She writes: "I had Salt Rheum or eczema for years, but nothing would cure it, until I used Backlin's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c at W. H. Ellis's drug store.

## Hotel Destroyed by Fire at Daisy.

Daisy, Ga., Jan. 6.—The Daisy Hotel was destroyed by fire at 6 o'clock this evening. The flames started in an upper story room and spread rapidly. The citizens gathered hastily and fought the fire as best they could. Their efforts, however, did not avail either to extinguish the flames in the hotel or to prevent their spreading to neighboring property.

The adjoining residences of Mr. John M. Easterlin was destroyed, as were several outbuildings. Across the street was the handsome home of Mr. Jack Whitten. This was in grave danger, but by hard work it was saved.

Mr. Keller Dyess was owner of the hotel. He lost all of its furnishings as well as the building. The total loss will amount to \$8,000 or more.

## Brothers in a Shooting Scrape at Palaski.

Saturday afternoon the two sons of Mr. G. B. Johnson became engaged in a fistfight, the larger one whipping the younger. When the little fellow got loose he ran to the house, got his gun and filled his brother with a load of bird-shot. While the wound is quite painful it is not thought to be fatal. Both boys are small.

## Massachusetts Mutual's Record.

The replies of President John A. Hall of the Massachusetts Mutual Life Insurance company to the questions asked by the Armstrong committee have been obtained by The Union.

In brief, Mr. Hall's statement shows that the company has not participated in any syndicate agreements, has made no political contributions, has paid retainers aggregating only \$925 in the last ten years, has made no payments in connection with legislation in any state, writes no deferred dividend policies, makes no collateral loans, has no investments in industrial enterprises, and that its securities are in bonds, mortgages and high grade railroad stocks.

## 16 Acres A Mule's Limit

Atlanta, Jan. 8.—The appointment of district organizers in each congressional district of the state and the promulgation of a pledge to hold the cotton acreage down to sixteen acres to each mule, were among the important actions of the Georgia division of the Southern Cotton Association, which held its annual meeting at the State Capitol to-day.

The following officers were unanimously chosen without opposition to serve for 1906: President, M. L. Johnson of Bartow; vice president, W. L. Peak of Rockdale; secretary, H. C. Hill of Jasper; treasurer, John D. Walker, of Hancock.

Georgia members of the Executive Committee of the Central Association: W. L. Peak of Rockdale, J. L. Boynton of Calhoun, and J. R. Miller of Bulloch.

The officers who served the division in 1905 was in the election of W. L. Peak, to succeed Vice President John Bostwick of Bostwick.

## DAISY

The people of this section have begun their work for 1906.

The grand fruit supper given at the home of Misses America and Sallie Bowen near Register on last Thursday afternoon was quite a success and all who attended from here reported a pleasant time.

Mr. Eugene DeLoach and sister, Miss Nettie, who were visitors at the home of Mr. I. V. Simmons, near Statesboro, last week, returned home Monday.

Miss Fannie Simmons, of Statesboro, is spending sometime with her friend, Miss Nettie DeLoach.

Mr. Dolphus Bowen, of Register, spent a few days last week with Mr. LeLand DeLoach.

The party given at the home of Mr. and Mrs. Geo. Wilson was largely attended and was enjoyed immensely.

Miss Ora DeLoach has gone on a journey to visit relatives at Jasper, Fla.

## Resolutions

Adopted by Statesboro Baptist church on the retirement of Rev. J. S. McLemore from the pastorate of the church. Whereas, Bro. J. S. McLemore, after a service as pastor of our church during the past three years and eleven months, now of his own accord, has tendered his resignation, to take effect January 1st, 1906, we deem it proper that we, as a church, should adopt the following resolutions appreciative of the services rendered us by him and his estimable wife during their stay in our midst.

Resolved, 1st, That under the faithful pastorate of our beloved brother our church has been greatly blessed and his labors crowned with Divine favor along all lines of church activity, many members having been added to the church, the Sunday school and other societies of the church developed and the financial conditions of the church having improved in a marked degree, not only in support of the work at home, but in contributions for the purpose of preaching the gospel in foreign lands.

Resolved, 2nd, That the labors of Bro. McLemore have been greatly aided by the very earnest support of his wife, a woman of rare culture and true piety, possessed of many noble, Christian virtues—a faithful helpmeet to her husband in his calling. She has endeavored herself to the hearts of our people and her labors in our midst have been most helpful, socially and morally.

Resolved, 3rd, That we, as a church, extend to Bro. and Mrs. McLemore our most cordial esteem and affection, and it is our prayer that they may find warm Christian friends and a loyal church in their new home, where they may be abundantly blessed as instruments in God's hand in leading many precious souls to a knowledge of the Lord Jesus Christ and His truth. May the Lord's richest blessings attend them and their children all their days.

Resolved, 4th, That these resolutions be recorded upon the minutes of this church and that the local papers be requested to publish same and that a copy be furnished Bro. and Sister McLemore.

## Dr. McDow Used Ready Revolver

Columbia, S. C., Jan. 6.—At Lancaster to-day J. Havel Witherspoon, manager of the Lancaster Mercantile Company, was probably fatally wounded, and W. McDow, a clerk in the store, was shot in the hand by Dr. E. S. McDow, a practicing physician of Lancaster.

It seems that Dr. McDow had ordered a lamp from the store, which the company refused to send him. He presented himself at the store and demanded of Witherspoon to know the reason for refusing to send the lamp.

McDow struck at Witherspoon over the shoulder of a farmer with whom he was talking. Brown, the clerk, ran up and knocked McDow down. On rising, McDow drew a revolver and began shooting, one bullet piercing Witherspoon's lung, a second striking him in the wrist, and the third taking effect in Brown's hand.

Dr. McDow, when arrested, was found to have two pistols. He was placed in jail.

A special train was run from Rock Hill to Lancaster to render medical aid to Witherspoon, whom the physician says is very dangerously wounded.

The shooting caused intense excitement, the parties being prominent men.

## Death of Mrs. W. H. Ellis.

Just as we go to press on our second edition of this morning's issue, we learn of the death of Mrs. W. H. Ellis, at her home on North Main street. Mrs. Ellis has been sick for several weeks and her death, though much to be regretted, has been daily expected by her family and friends. No funeral arrangements have yet been made.

## LOST.

On January 4, a white and black spotted setter dog, medium size and about 6 years old. Will pay reward for his return or any information as to his whereabouts. Address, P. B. Lewis, Brooklet, Ga.

## Wm. Homer Blitch Dead.

On Sunday morning at six o'clock, Mr. Homer Blitch passed away after a brief illness of pneumonia. He was first taken down on Wednesday and gradually got worse until he died. His funeral was held on yesterday and was conducted by Rev. H. J. Arnott of Sylvania in the presence of a large concourse of friends and relatives. He was buried in the Young grave yard near his home, where his wife and other relatives are sleeping.

Mr. Blitch was about fifty-five years old and had been a resident of Bulloch county for about thirty years, and during all of that time had conducted a large farm and mercantile business at his place near Ogeechee. He was a very energetic and good business man and while he was crippled with rheumatism, yet he was always busy and pushing his enterprises. He had only recently sold his farm and store business, and last week disposed of his personal property, expecting to move to Statesboro at an early day and go in business with his son, W. H. Blitch, Jr.

It is said that in addition to a large estate, he carried about forty thousand dollars in life insurance. He is survived by his son and two daughters, Misses Annie and Minnie Blitch.

His death is a distinct loss to Statesboro, his expressed intention to move here and open a large mercantile business, and together with his great energy, progressive and active methods would have been a stimulus that would have set the pace for others to follow. While it may be that his plans may be carried out to a certain extent by his son, yet his own personal push would have been felt as no other will be. In the death of Mr. W. H. Blitch Statesboro and Bulloch county suffer jointly in a great loss.

## THE NEWS.

Published at Statesboro, Ga.  
TUESDAYS AND FRIDAYS.  
By The Statesboro News Publishing Co.

President Taft, of the University of Cincinnati, is advocating the turning of a student body at his institution to control college ethics. He believes that a student body, which would have general supervision over all student affairs, would be a good thing.

A fortune cannot be built up around any fixed idea, or, in other words, without the exercise of plain common sense says Mrs. Hetty Green, the millionaire investor and financial magnate. I buy when things are low and no one wants them. I keep them just as I keep a considerable number of diamonds on hand, until they go up and people are anxious to buy. That is the general secret of business success.

Fortunately, drinking and other undesirable manifestations of the "flamboyancy and sparkle" which are said to be wanting in the medical student of today are now generally looked upon as "bad form." If the medical student has lost in "flamboyancy," he has gained vastly in true manliness of character, as well as in scientific spirit and range of mental outlook, declares the Medical Journal.

In turning our legation at Tokio into an embassy our government would not recognize the new importance of Japan as a member of the family of nations, asserts the New York Evening Sun. Besides, there is a good business reason. Great Britain has turned her representative at the Mikado's capital into an ambassador. Our country ought not to be handicapped by having Mr. Griscom of lower diplomatic rank than his English colleague.

All members of the imperial family have large fortunes invested out of Russia, usually in France, England and the United States, states the London Times. The Grand Duke Michael Nicolaievitch and the Grand Duke Vladimir Alexandrovitch are believed to be the richest members of the imperial family, next to the Czar himself, whose resources are practically inexhaustible, as he draws at lib. on the imperial treasury and is the owner of vast estates which include valuable mines and forests.

"Lightning, when in the mood, has an ugly habit of drilling," writes an English observer. "It will drill the hardest rock—rock which would turn cold steel; and not only drill but vibrate it. They have found in Cumberland channels from 30 feet deep and from two to four inches in circumference. The interior was hard and glazed where the solid substance had been melted by the stinging flashes. Artificial experiment has shown that a powerful shock from a battery will vitrify finely powdered glass, but not feldspar or quartz. The lightning, however, does it in the manner described—not in one place, but in many, showing that before striking the ground it divided into several branches, each strong enough to penetrate and liquefy the solid rock."

The New York Sun says: good, hearty, hard hitting Americanism is now to be seen all around. The administration of Mr. Roosevelt, the People's President, has been and is driving rogues in office to the jail. Divers senators and representatives in congress cannot delay much longer their matriculation into the penitentiary, and some who have not been tried and sentenced are getting their punishment just the same. The kind hearts and hands that have been guarding the life insurance policyholders against the contamination of wealth, the always preter-respectable and often glibly Chaddbands, Pecksniffs and Turveydrops—what respect they get at present they have to hire. Hatred of bosses, hatred of grafters. Honesty may even get fashionable. Politicians may have to "pander to the moral sense" of the community. All over the country you see the independent, honest, truth telling public man growing popular.

### MISSISSIPPI SOLONS MEET.

State Legislature Assembles in Special Session at Jackson. The Mississippi legislature convened in special session at Jackson Tuesday. Governor Vardaman's message, which was devoted largely to the management of the penitentiaries, was read. Mr. Sample of Holmes introduced a measure to prevent lobbying, which is fashioned somewhat after the Missouri law.

### PERMISSION TO FOIST A FAKE.

Rojevsky Declares England Was Ready to Assist the Japs. A St. Petersburg special says: The remarkable allegation that the British fleet was held in readiness to destroy the Russian fleet if the battle of the Sea of Japan had gone in the Russians' favor, is made by Admiral Rojevsky in a letter published in the Novoye Vremya Wednesday with the permission of the minister of marine.

## STORMHITSALBANY

List of Killed and Injured Miraculously Small.

### PROPERTY DAMAGE GREAT

Whirling Terror Came and Was Gone in a Twinkling, Leaving Wide Swath of Wrecked Buildings in its Path.

A tornado of terrific force passed over Albany, Ga., and vicinity Wednesday at 1:15 o'clock, coming from a southwesterly direction and spreading wreck and destruction over portions of a dozen blocks.

Several persons are dead and others will die as the result of injuries while many are more or less seriously hurt.

The wreckage left by the tornado, it seems a miracle that a score were not killed outright, the tribute claimed in the way of human lives being astonishingly small.

The storm was immediately preceded by a blinding deluge of rain; the heavens were darkened as at twilight and the wind attained a frightful velocity. It struck the Thair place, just southwest of the city, where it killed a negro boy and fatally injured two members of the family of J. E. Davis (colored). The buildings on the place were completely demolished.

Striking the big plant of the Virginia-Carolina Chemical Company, the storm demolished the two principal buildings in the twinkling of an eye. The acid chamber, four or five stories high, was crumpled like an egg shell, as was the large brick structure containing the battery of ovens. A colored employee was killed in the collapse of the latter building.

Walker Sanders, assistant manager of the plant, was standing beside the negro and received serious injuries. His escape was a miracle.

The track of the tornado was not more than 75 yards in width, but it left the face of the earth clean where ever its full force was felt.

From the cannon factory it jumped to a tight settlement of negro cabins. Here twenty-five buildings were completely demolished. Some were occupied by as many as a half dozen persons, mostly women and children, and while a great many were injured, not one was killed outright. Furniture, bed clothing, etc., were blown entirely away.

In the midst of this group of homes was the colored Methodist Episcopal church, a large and rather imposing structure. It was completely destroyed, together with its furniture.

### EXPRESS POUCH WAS LOOTED.

Sum of \$18,000 Swiped in Transmittal from Augusta to New York. It developed in Washington Thursday that about \$18,000 was taken from an express pouch between Augusta, Ga., and New York. The Southern Express company received the notice at Augusta, from there it went to Columbia, S. C., and it arrived in Washington early Sunday morning. The Adams Express company then sent it to New York and there the loss was discovered. Officials of the express companies are making an investigation.

### STORM WRECKS SCHOOLHOUSE.

Two Boys Killed and All Other Pupils More or Less Injured. A tornado struck the schoolhouse of Josie beat, in Alabama, Thursday, and two boys were killed by falling timbers.

### ENRAGED LOVER RUNS AMUCK.

Kills Sweetheart, Fatally Wounds Her Mother, Sister and Himself. Matthew Styer, 23 years of age, a dental student at the University of Minnesota, at Caledonia, rendered desperate by the refusal of Pearl Wheaton to marry him, broke into her home Tuesday night and shot and killed the young woman and fatally shot her sister, Ruth, her mother and himself.

## JORDAN RILES SPINNERS.

Manufacturers Take Exception to the Remarks of President Jordan of Southern Cotton Association.

In an interview at Boston, Mass., Thursday night on the proposed preliminary conference between cotton growers and manufacturers in New York, January 24, J. R. MacColl, president of the New England Manufacturers' Association, took exception to remarks said to have been made by President Jordan of the Southern Cotton Association at Atlanta Wednesday.

The remarks attributed to President Jordan of the Southern Cotton Association, in a speech at Atlanta, are misstatements of fact, and I trust he has been incorrectly reported by the newspapers. He is stated to have said: "Now these spinners have come to us for a conference with the view of arriving at a satisfactory price for cotton."

"At the Atlantic City meeting of our association, held in September, Richard Cheatham, secretary of the Southern Cotton Association, said: 'The policy of the Southern Cotton Association has been since its inception to cultivate friendship and better trade relations and understanding with the manufacturers of our great staple crop.'"

"To that end, the association has appointed a committee from among its most intelligent and competent members, to confer with you at such a time as may be convenient to a similar representative committee from your body to take under consideration such matters as vitally affect the interests of both. I feel that much lasting good will result from such a conference."

"As a result of this and other suggestions, a preliminary conference of delegates from manufacturing and cotton growing associations have been arranged for January 24 in New York."

"The purpose is, it is deemed advisable, to formulate plans for a joint conference of cotton manufacturers and growers to be held in April, at which there will be present a representative from the international federation of Europe. Fixing the price of cotton is, in my opinion, not likely to receive much attention. This will continue to be determined as it always has been by the old economic law of supply and demand, but apart from this, there are many matters that can well be discussed at such a gathering, and with beneficial results to all the interests represented."

### SCHIFF PREDICTS A PANIC.

Well Known Banker Declares Currency Reform is Imperative.

"Unless there is currency reform, a panic, besides which former panics will seem insignificant," was predicted by Jacob Schiff, head of the banking firm of Kuhn, Loeb & Company, in a speech before the New York chamber of commerce Thursday.

Mr. Schiff said he did not regard such a panic immediately imminent, but believed it was unless some thing is done to remedy the lack of elasticity of the present currency system.

### EXPRESS POUCH WAS LOOTED.

Sum of \$18,000 Swiped in Transmittal from Augusta to New York. It developed in Washington Thursday that about \$18,000 was taken from an express pouch between Augusta, Ga., and New York. The Southern Express company received the notice at Augusta, from there it went to Columbia, S. C., and it arrived in Washington early Sunday morning. The Adams Express company then sent it to New York and there the loss was discovered. Officials of the express companies are making an investigation.

### SENATOR BLACKBURN LOSES.

Kentucky Legislative Caucus Nominates Judge Thomas Paynter. Judge Thomas H. Paynter of the Kentucky court of appeals was nominated by the first ballot taken in joint legislative caucus at Frankfort, Tuesday night to select a democratic candidate for United States senator to succeed J. C. S. Blackburn. The nomination carries with it the certainty of election, as the democrats have more than two-thirds of the combined members of both branches of the legislature. The vote was as follows: Judge Thomas H. Paynter 25, Senator J. C. S. Blackburn 24, W. B. Haddeman 19, Congressman David H. Smith 13, necessary to nominate 23.

Judge Paynter's nomination ends one of the hardest fought senatorial struggles of the past twenty years of Kentucky politics. His nearest opponent was J. C. S. Blackburn, the incumbent, who represented Kentucky in the house and senate, with but one interruption, for nearly a quarter of a century.

## SIXTEEN ACRES TO PLOW

is Pledge of Georgia Farmers Made at Annual Meeting of State Cotton Association in Atlanta.

District organizers will be sent into each congressional district of the state to more strongly organize the Georgia division of the Southern Cotton Association in every county of Georgia during 1905, and the work will be pushed as it has not been before since the association was organized.

This important step was determined upon by the Georgia division, which met in annual convention at the state capitol in Atlanta Wednesday.

Among other resolutions passed by the convention was one prescribing a pledge for the Georgia members that they will not, during 1905, plant more than 15 acres of cotton to the plow, and that they will besides raise at home a full supply of provisions for home consumption.

President M. L. Johnson and practically all of the old officers of the Georgia division were re-elected to serve during the new year.

Every speaker had something to say about the prosperous conditions prevalent in the state, and alluded to the fact that there is more money in the country now than there has been since 1890.

This was particularly noticeable in the strong address of President Jordan, who also warned the association against the danger of allowing politics to enter its deliberations, because the history of other associations of a like character showed their wreck had been due to this very fact.

A resolution endorsing President Jordan for reelection to the presidency of the Southern Cotton Association at the coming meeting in New Orleans, endorsing Richard Cheatham for reelection as secretary of the central association and endorsing John D. Walker of Hancock, treasurer of the Georgia division for the position of treasurer of the national association, was unanimously adopted. This resolution will be transmitted to the New Orleans convention.

## DEMANDS DEPEW'S RESIGNATION

This is Purport of Resolution Before New York Legislature.

The New York state legislature started off at Albany with a rush Wednesday.

Aside from the reading in both houses of the annual message of the governor, the most important developments were the election of Speaker James W. Wadsworth, a long debate in the senate over a resolution requesting the resignation of United States Senator Chauncey M. Depew, on the ground of disclosures in connection with the Equitable Life Insurance Society, which ended in the withdrawal of the resolution for the time being.

## BIG ORDER FROM SOUTHERN.

Contract Given Out for Total of \$729 Cars for Freight Service.

One of the first steps taken by the Southern railway for the year 1905 was the placing of an order for \$729 cars for the freight service. This order has been necessitated by the tremendous growth of freight traffic in the large portion of the south fed by the Southern railway. While the exact figures could not be learned, it is known that the contract exceeds \$5,000,000.

## ORR GETS McCALL'S PLACE.

New Head of Insurance Company Will Get Only \$25,000 Per Year.

Ridge, N. C., killing three men and fatally injuring two others. The bodies of the dead men have been recovered.

## HOWARD A LOSER

Convicted Murderer of Governor Goebel Fails in Appeal

HIGH COURT AGAINST HIM

Kentuckian Must Serve Life Sentence as Imposed Says His Friends Should Appeal to President Roosevelt.

The supreme court of the United States Tuesday affirmed the decision of the Kentucky court of appeals in the case of James E. Howard vs. the State of Kentucky. Howard was tried three times in the circuit court of Franklin county, Kentucky, on the charge of murdering Governor William Goebel, of Kentucky, on January 20, 1900, and convicted each time.

He is now under sentence of life imprisonment, and he brought the case to this court to secure a review of the ruling of the Kentucky court of appeals, affirming a decision of the circuit court against allowing him another trial. His principal allegation was that the proceedings of the trial court in the matter of selecting and discharging jurymen was irregular.

Justice McKenna delivered the opinion, affirming the conviction of Howard for killing William Goebel. He reviewed the complaint of Howard's attorneys that the discharge of J. C. Alexander as a juror was in violation of the fourth amendment. Justice McKenna said in part:

"We cannot assume error in the decision of the court of appeals. We accept it as we are bound to do as a correct exposition of the law of the state, common, statutory and constitutional. Our inquiry can only be, Did the state law as applied afford plaintiff in error due process, as those words are used in the fourteenth amendment? We think it is not necessary to enter into a lengthy discussion of what constitutes due process of law."

"It may be admitted that the words 'due process of law' as used in the fourteenth amendment protect fundamental rights.

"What those are cannot ever be the cause of much dispute. In giving them protection, however, it was not designed as was observed by the chief justice in re Converse, supra, to interfere with the power of the state to protect the lives, liberty and property of its citizens; nor with the exercise of that power in the adjudication of the courts of the state in administrative cases where the process provided by the law of the state.

"These words are apposite in the present case. There is not an intimation that the juror selected in Alexander's case was not as competent as he. Nor can he say that the discharge of Alexander took from the other jurors who had been chosen to try the case or to give to plaintiff in error the right to a new panel."

Howard, who has been in the county jail at Louisville for several months, received the news of the supreme court's decision calmly, but expressed confidence that some action would yet be taken in his favor.

"The matter has gone to the United States supreme court," he said, "and for that reason it is now a matter in which President Roosevelt can act. I think that those who have been interested in my case will present the facts to the president, and I feel sure that when he learns the true state of affairs he will interfere in my behalf. I have been convicted of the murder of Mr. Goebel, but I am innocent of the crime."

## PUBLIC DEBT STATEMENT

Shows Decrease for Year of Nearly Five Million Dollars.

The monthly statement of the public debt shows that at the close of business December 30, 1904, the total debt, less cash in the treasury, amounted to \$994,859,718, which is a decrease as compared with December 1, 1905, of \$4,883,313.

## BRAZIL INTERPOSES WALL.

American Products Are Practically Banned by a New Tariff.

A serious blow has been struck at the American export trade by Brazil, according to advices received by cable from Petropolis, the diplomatic hub of Rio.

This is to the effect that an order has just been issued putting in force the new tariff, which bears with great severity on imports of American flour, grains and many other important commodities.

## FATHER EXTERMINATES FAMILY.

In Fit of Insanity He Kills Wife, Son and Daughter and Slaves.

Abolished by the deserted appearance of the farmhouse of Clarence Barnum, who recently located near Rochester, Mich., neighbors broke into the house Tuesday morning and found the father, evidently there had been a terrific struggle as the mother and children battled for their lives.

## OVER FIVE MILLION SURPLUS

Shown in Monthly Statement of Receipts and Expenditures.

A Washington dispatch says: The monthly comparative statement of the government receipts and expenditures show that the total receipts for December, 1905, were \$53,550,162, and the expenditures were \$48,925,245, leaving a surplus for the month of \$5,412,718.

## NEGRO GOING BACKWARD

is Declaration of Vardaman in Legislative Message Opposing Giving State Money to Colored Schools.

Governor James K. Vardaman, in his annual message to the Mississippi legislature, which assembled Tuesday, again took a strong stand against spending public money for the education of the negro, saying, in part:

"What shall we do with the negro? Certainly the education suited to the white child does not suit the negro. This has been demonstrated by 40 years of experience, and the expenditure in the southern states of nearly \$200,000,000.

"As a race, the negro is deteriorating morally every day. Time has demonstrated that he is more criminal as a free man than as a slave, that he is increasing in criminality with mental rapidity, being one-third more criminal in 1890 than he was in 1850. The startling facts revealed by the census show that those who can read and write are more criminal than the illiterate, which is true of no other element of our population.

"In the south, Mississippi particularly, I know he is growing worse every year. You can scarcely pick up a newspaper whose pages are not blackened with an account of an unmentionable crime committed by a negro brute and this crime I want to impress upon you is but the manifestation of the negro's aspiration for social equality, encouraged largely by the character of free education in vogue, which the state is loyally tending to the white people to maintain."

It is your function to put a stop to the worse than wasting a half million dollars annually—money taken from the white man's pocket and devoted to the purpose of trying to make something of the negro which the Great Architect of the Universe failed to provide for in the original plan of creation."

### Brannen Opens Campaign.

Candidate from the First District Ad-  
dresses a Thousand Voters.

The following from the Lyons  
Progress of January 5th, will be  
of interest to our readers:

Hon. J. A. Brannen addressed a  
large assemblage of Toombs county  
voters at the temporary court  
house in Lyons last Monday and  
he made a great impression. Col.  
Enoch Giles first opened the hall  
with a few well chosen remarks,  
introducing Hon. Alfred Her-  
rington, who, in turn, in one of  
the prettiest introductory speech-  
es we have ever heard, introduced  
the speaker of the day.

We had been told by many that  
Lionie Brannen could not speak,  
but our informant was certainly  
misrepresenting facts, for he cer-  
tainly delivered one of the best  
all round talks we ever listened to.  
True, he used no flowery  
language, but he talked plain  
common sense and he left no  
doubt in the minds of his hear-  
ers as to where he stood on certain  
important questions.

In the course of his remarks he  
declared against graft, upheld the  
campaign against corruption,  
went on record against the use of  
railroad passes by legislators,  
judges and other public officials,  
favored the passage of child labor  
legislation, and the enactment of  
laws requiring foreign corpora-  
tions doing business in the state  
to be incorporated here, denounced  
the use of liquor and money  
in political campaigns, "to  
thwart the will of the people,"  
gave assurance that every inter-  
est and section of the district will  
be carefully guarded, if he is elected,  
says he has no hobbies to gratify,  
will meet every issue that comes  
up and deal with it in accordance  
with his best judgement, and will  
serve the interests of the people  
to the best of his ability.

Col. Brannen spoke of Savan-  
nah and gave his pledge that he  
will see that its interests, commer-  
cially and in every way, are sub-  
served.

The crowd cheered continually,  
thus showing that a great majority  
were in full accord with his candi-  
dacy.

Col. Walter Sheppard was pres-  
ent and Col. Brannen referred to  
his single blessedness in a pleas-  
ant way, causing the house to  
cheer vociferously. He spoke  
well of his opponent, but left no  
doubt in the minds of those pres-  
ent as to who would go to con-  
gress.

Lionie Brannen will win in  
Toombs hands down unless some  
unforeseen thing should arise, and  
it is now our opinion that he will  
be our next congressman.

**Sickening Shivering Fits**  
of ague and malaria, can be relieved  
and cured with Electric Bitters. This  
is a pure, tonic medicine, of especial  
benefit in malaria, for it exerts a  
direct influence on the disease, driv-  
ing it entirely out of the system. It is  
much to be preferred to quinine, hav-  
ing none of this drug's bad after-  
effects. E. S. Monday, of Houston,  
Tex., writes: "My brother was very  
low with malaria fever and jaundice  
till he took Electric Bitters, which  
saved his life." At W. H. Ellis's drug  
store; price 50c, guaranteed.

Lionie Brannen has formally  
announced his candidacy for the  
democratic nomination for con-  
gressman from the First. Enough  
said. The people will do the rest.

**A Grim Tragedy**  
is daily enacted, in thousands of homes,  
as death claims, in each one, another  
victim of consumption or pneumonia.  
But when coughs and colds are prop-  
erly treated, the tragedy is averted.  
F. G. Huntley, of Oaklandon, Ind.,  
writes: "My wife had the consump-  
tion, and three doctors gave her up,  
finally she took Dr. King's New Dis-  
covery for Consumption, coughs and  
colds, which cured her, and today she  
is well and strong." It kills the germs  
of all diseases. One dose relieves.  
Guaranteed at 50c and \$1 by W. H.  
Ellis, druggist. Trial bottle free.

of Mr. H. H. Moore in this issue.  
We carried a stalk of Mr. Moore's  
cotton to the state fair, and  
while it was not entered for any  
special prize yet it was conceded  
by all to have been the best stalk  
of cotton at the fair.

Mr. T. M. Moore, of Tattnall  
county, sent the News a twelve-  
pound cow horn turkey yesterday  
that attracted the attention of all  
who saw it. It was a fine sample  
of what can be raised on South  
Georgia soil.

**Misstatement of Actual Facts**  
Never before in the history of  
the cotton trade has such a multi-  
tudinous amount of "bear" dope  
and intentional misrepresentation  
of actual facts been given to the  
south through paid advertisements  
in the columns of the press and  
by the distribution of circulars  
latters through the mails. Oper-  
ators, who are moving heaven and  
earth to depress future contracts  
and the prices of spot cotton, are  
engaging their brains in the mod-  
ern art of juggling figures and  
making new high records in dis-  
torting statistics in the supreme  
effort to make a small yield of  
American cotton take on the ap-  
pearance of a plentiful supply.  
Hundreds of thousands of dollars  
have been spent in the past two  
months in cablegrams, telegrams,  
paid articles in newspapers,  
postage and market letters in  
an herculean undertaking to  
deceive the public, discourage the  
farmers and local spot holders  
into rushing the remnant of this  
crop on the market, unsettle public  
opinion in the south temporarily  
so as to break the market and  
induce liquidation. The spinners  
have threatened to withdraw from  
the market, which is an absurdity  
in the face of their enormous com-  
mitments of the entire output of  
their mills for the next six to  
eight months. Prominent "bear"  
leaders take peculiar interest in  
daily publishing comparative esti-  
mates of this crop with years that  
have gone before. These tangled  
and much jugged statistics eman-  
ate from the offices of gentle-  
men who breathe atmosphere of a  
climate one thousand miles from  
Southern cotton fields and whose  
eyes have not witnessed the actual

**condition of a single cotton field**  
this year. The statistics and daily  
reports which they put out in the  
stupendous effort for private gain  
are simply the nightmares of over-  
charged brains reflecting individ-  
ual views in the forlorn hope of  
changing at least temporarily the  
interest of the spot holder is not  
considered. The great despera-  
dism is paper and hot air. Thou-  
sands of people read this "bearish  
dope" scattered over the south  
daily and know it to be false, yet  
they tremble in doubt and surren-  
der their honest convictions and  
Southern manhood before the  
edicts which emanate from the  
fine Italian hands of their ene-  
mies. This crop can no more be  
compared with past yields in the  
matter of picking, ginning and  
selling than could the enormous  
production of 1904. Let every  
man in the South stand pat on  
the actual conditions which con-  
front him. Spurn these jugged  
statistics as you would an adder  
invading the holy precincts of  
your home and remain fixed and  
unshakable in your determination  
to secure higher prices for the bal-  
ance of this crop, which will un-  
questionably prove to be one of  
the smallest grown in a number of  
years.

### ASTRONOMICAL LETTER.

Never, perhaps, will those who admire the beauty of the heavens have an opportunity to behold a grander display than may be seen now in the evening sky on a clear night about 10 o'clock. It is worth while of any one, however little they may know of the heavenly bodies, to take a look and think about what they see.

Beside the brilliant constellations visible one may also see three of the largest planets of the solar system. The planets are easily distinguished. They shine with a steady light, like the moon, the light being reflected from them, while the stars shine with their own light and twinkle.

Select an open space and stand facing toward the south. About due southwest and half way from the horizon to a point overhead, you will see Saturn and Mars very close to each other. The red one above and a little to the left is Mars, the other one Saturn. Mars is 141,000,000 miles from the sun and 4,280 miles in diameter; Saturn is 886,000,000 miles from the sun and 71,000 miles in diameter and is therefore 745,000,000 miles farther from us than Mars, but as they are following us around the sun they have reached the points in their orbits where a line through them almost strikes our earth and presents the astronomer with an opportunity to compare them seldom afforded. They were less than one degree apart on the 24th of December.

Next look almost overhead, at ten p. m., and Jupiter, the largest planet in the solar system, 86,500 miles in diameter and 488,000,000 miles from the sun, may be seen. Our earth passed between the sun and Jupiter on Nov. 24, but as we go around twelve times while he goes around once we passed ahead and will overtake him again next December about Christmas, when he will rise at sunset. He is now almost betwixt the Seven Stars or Pleiades and Orion and Taurus, the latter sometimes called the Ellen Yards.

Taurus is in the form of the letter V, the point turned southwest, three stars in line on each side, and a double star in the middle of the line on each side. This is the Bull's nose and head. Find the points of his horns about twenty degrees northwest. It is about ten degrees southeast of Jupiter. Directly in line with Taurus and Jupiter and farther southeast lies Orion, the most beautiful constellation in the heavens, four large stars make the king's shoulders and feet. In length they are about twenty degrees apart and in width ten degrees. Diagonally across the line is his belt of three stars of the third magnitude called the "Belt of Orion," while toward the feet are three small stars called "Orion's sword."

Orion is the king, attacking the bull, Taurus. See if you can find Orion's right arm and his drawn sword as he stands to strike. Beyond the feet of Orion about thirty degrees, still southeast, is Sirius, the Big Dog of Orion, who will help his master, and north-northeast of Sirius about forty degrees is Procyon, the Little Dog, who has also come to the help of king in his attack on Taurus. Sirius is the brightest star visible in the heavens.

The bright star northeast of Taurus is Capella or the "Goat," and the three stars near the Goat are called the "Kids." Let the boys find them if they can. East of Capella you will see two bright stars about the same size and about eight degrees apart. This is the constellation Gemini, or the "Twins." The name of one is Castor and the other Pollux. See if you can find their names in the bible in the Acts of the apostles.

East of Gemini, in the constellation Cancer, or the "Crab," is a white spot. This is a nebula, visible to the natural eye. It is not a single star but a cluster of stars so far away that we cannot see any single star in the group without a telescope, but with a telescope they come out and you know they are stars. See if you can find it.

There is nothing in our sight more truly beautiful and wonderful than the starry heavens.

J. A. Scarborough.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (cause by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

### Largest Advertisement Ever Run in Statesboro.

With today's issue of the Statesboro News the advertising record has been broken in Bulloch county. By reference to this issue you will find two full page advertisements run by the firm, viz: that of Mr. E. C. Oliver, occupying the second and third pages of today's paper.

Mr. Oliver is one of our most enterprising business men, and believes what is worth doing at all is worth doing well. When he has anything to say he believes in saying it in full, and when he has a lot of bargains to offer as he has today, he believes in putting it in letters so plain that "the who runs may read." In this instance, as well as all other occasions, you can depend on what E. C. Oliver tells you to be true. When he tells you that he is offering you a bargain take it, and you won't regret your purchase. In this case he has decided to run off his winter stock if he has to sacrifice it in order to do so, and he assures you that he has sunk the knife deep into solid values that you may have no trouble in recognizing the true value of the opportunity that will present itself to you when you visit his store on Monday and during the balance of this month. His goods are all new and saleable, but they are winter goods and must go to make room for his spring stock.

Don't neglect the opportunity to call and examine the values he has to offer you on this occasion. In selecting this medium Mr. Oliver expresses faith in its ability to lay his wares before the thousands of readers.

These two full pages are not inserted for nothing; no one would suspect that he could print it on thousands of papers without an equivalent in cash, so when you see this amount of space used by one Statesboro firm it shows that he knows the value of the home paper as a medium to reach the whole people of not only this but many in the adjoining counties.

We repeat it. This is the biggest advertisement ever carried by a Statesboro newspaper.

### Starting a Lion Farm.

Mr. W. H. Kennedy is one of our most enterprising citizens, realizing the crying need for diversified industry in this city, has started the commendable industry of a genuine lion farm. To substantiate this assertion one has only to visit his home on South Main street and see there three little fellows were captured by Mr. Fordham on Mr. Kennedy's farm about seven miles in the country and brought to town Wednesday morning.

The cubs were found in a bed made in an old slab pile where a saw mill had formerly been run on his land, and taken in while the mother was away. While they are very small, and their eyes are not yet open, yet their shape and features resemble very much that of the old puna or mountain lion which was killed by Messrs. Wilkinson and Beasley last spring, and whose hide is now stuffed and on exhibition in the store of The Simmons Co., after making a circuit of two Georgia fairs last fall.

Mr. Kennedy, of course, is at a loss to know what kind of a specie of animal it is that he has in custody, but will make an effort to raise them.

### National Bank Makes Showing.

The second regular annual election for directors of the First National Bank was held in the offices of the bank Tuesday morning, when the following board of directors was elected to serve for another year: Brook Simmons, W. W. Williams, F. P. Register, F. E. Fields, F. N. Grimes, M. G. Brannen and J. B. Rushing.

After the election of directors that body met and re-elected Mr. Brook Simmons president and Mr. J. E. McCroan cashier.

The showing made by the bank was a most satisfactory one, the sum of \$4884.15 being placed to the account of individual profits and surplus from the earnings of the bank for the past year. The meeting was quite a pleasant one as well as a business affair. The First National has a strong band of business men to guide its affairs.

### An Appeal to Farmers.

To Farmers of Bulloch County: We must cut the acreage of cotton if we want to get pay for our work. We must not make more than we can gather with our own force. I look for a wet year. The laborer wants \$1 per day, but we cannot pay this price. We must cut the cotton crop one-third, plant corn, oats, potatoes, velvet beans and raise hogs. We can sell everything we can raise. If a man will plant ten acres in oats and hay and put the same amount of fertilizer to it that he does to cotton he can make more clear money on it and raise ten head of hogs. We must hold our cotton until next October or have 20 cents for it. Why can't every farmer unite. We have had two of the best years for making cotton I ever saw, and I know men who hired their cotton chopped and picked, and they have only the stalks left. I expect to do my part for our farmers.

### Fire at Enal.

On last Saturday night the dwelling on Mr. T. B. Moore's farm was burned. We failed to learn the particulars as to the origin of the fire.

### By the way, Col. Waring Russell hasn't lifted the lid down in Savannah yet.

### With five candidates in the race for governor it will impress one that the office is no longer chasing the man.

With high priced mules, high priced lands, a high priced fertilizer and high priced labor, how far ahead are the breakers?

All these insurance scandals they have unearthed lately kinder makes a fellow afraid to die for fear he can't get his insurance money.

An exchange notes the arrival of the early strawberry in the local market, but is honest to admit that it is not in his financial class.

Hoke Smith wants to stop the negro from voting and Jim Smith wants to stop him from getting any white school money. Between the Smiths it looks like cuffy is getting it where Mollie wore the beads.

### The Atlanta Journal was a bit previous in its issue on Wednesday with Clark Howell running towards home. After the debate was over it was Hoke Smith who flew to the tall timber.

It seems that Hoke Smith was not Mr. Watson's first love after all. His friend Sibley's letter shows that his support was first offered to Clark Howell in exchange for the support of the disfranchisement plank which Mr. Howell spurned. Hoke Smith can claim the distinction of being Mr. Watson's second choice.

We notice the name of Col. Bill Warnell mentioned in connection with legislative honors in the good old county of Tattnall. We believe that in the event that Tattnall should herself proud to put Bill in the legislature that her interest would be in good hands. In the event of his candidacy we are going to ask to be allowed to cast one vote even if it don't count in the general aggregate.

### Change in Firm.

The firm of McLean-Everett Co., of Metter, has been dissolved, Messrs. J. R. and J. B. Everett buying out Mr. J. D. McLean's interest. The firm hereafter will be known as J. B. Everett & Bro.

### APPOINTMENTS.

Elder Casey, the Lord willing, will fill the following appointments: Night of third Sunday in this month; Metter; Monday, at the Lake; Tuesday, Upper Lots Creek, and Wednesday, Rosemary. M. F. Stubbs.

### Remember the January clean-up sale is at E. C. Oliver's and lasts until February 1st.

### Funeral of Mrs. Ellis.

The funeral of Mrs. W. H. Ellis, whose death was announced in our Friday's issue, was held from the Baptist church, of which she was a member, on Wednesday morning. Rev. T. J. Cobb conducted the services in the presence of a large crowd of sorrowing friends and relatives. The interment was made in East Side cemetery.

Mrs. Ellis leaves two children, one an infant of about one month old, and the other five years of age.

### Graham-Waters.

At the home of Mr. and Mrs. T. J. Malone, of Mill Ray, on Sunday Jan. 7, Mr. J. R. Graham and Miss Ada Waters were joined in the holy bonds of matrimony. J. J. Malone officiating. The groom is a son of Mr. and Mrs. J. W. Graham and one of the firm in the wheelwright and blacksmith business. Miss Ada is the beautiful and accomplished daughter of Mr. and Mrs. W. A. Waters of Callie. The ceremony was witnessed by quite a number of the friends of the young couple who wish for them prosperity and happiness through life.

### Reduced Acreage of Sea Island.

Lake City, Fla., Jan. 6.—The Association of Long Staple Cotton Growers, which met here today, adopted resolutions strongly advocating a reduction in long staple cotton acreage next year of 25 per cent. The resolutions also favored the establishment of warehouses in county seats and insisted on changing the day of paying fertilizer bills to Dec. 1, instead of Oct. 1.

The farmers are urged to borrow money from banks rather than mortgage the cotton crop, and also to sell no cotton in the seed. The association here holds nearly \$100,000 worth of long staple cotton.
