Hoke Smith and the Populist

After using the best years of his life fighting populism and the principles held dear to them, we find Mr. Hoke Smith in these latter days on his knees to the populist, crying, "save me or I perish."

It hasn't been many moons since Mr. Watson felt so outraged at the efforts of the Atlanta Journal to trail him down wherever he went, ordered that that paper be not allowed to enter his home. It hasn't been many other moons either since Mr. Watson was, upon a time, a candidate for the presidency, and while he was away from home assuring his friends in the West that his native state would cast aside political differences and for the sake of state and southern pride would give him its electoral vote. There was none other than Hoke Smith who invaded his home district and denounced him in a public speech in the city of Augusta as being a republican hireling and an enemy to his state. Yet, strange as it may seem, to-day we find Mr. Watson, after having one side of his face slapped, turning the other side to receive a blow as well.

Right here the question suggests itself. What is Watson's plan? In our opinion you will soon see those fellows who have always decried Watson until now they need to use him and his friends, the sickest set of politicians who ever kept at a political funeral in Georgia.

If there is anybody in Georgia who believes that Tom Watson ever forgot a wrong done him or ever loses an opportunity offered him to even up with an antagonist we have not heard of him yet. That opportunity now presents itself to Mr. Watson, in fact it has literally driven up to his front gate and hitched itself. Mr. Watson has lived to see the day come when his old-time enemies and defamers have exhausted the vocabulary of the human language in singling his praises. They have actually made themselves appear ridiculous telling of his virtues. Men who have formerly abused him are now singing his praises in the good old hallooish style.

The reason for all this is that they think they are using him. It "sorter" fits their case now to seek his assistance. They have abused about every democratic officeholder in Georgia, accusing them of everything that is mean with and without provocation until they find themselves cut off from much hope of democratic support, and believing that Mr. Watson carried in his vest pocket the votes of about 40,000 ex-politicians.

Now that Mr. Watson has his old-time enemy led up to the slaughter pen, what will he do? We find now the Dalton Post, the official organ of the populist party in Georgia, is demanding that the word "democratic" be left out of the provisions for the approaching primary, and that it shall read "white primary," and not "white democratic primary," as has been the case in the past few years. The Dalton paper asserts to speak for Mr. Watson when it says he will drop Hoke Smith good and hard if he refuses to stand for the elimination of the word "democratic" in the primary.

If you will read Watson's letter to John Temple Graves, in replying to his invitation to come back home, you will see that he will support no man in the democratic party, and he advises his followers not to do so either.

Now, if Hoke Smith backs on Watson, the latter will throw him hard, and the next question that suggests itself is, can he afford to follow Mr. Watson to the extent that the latter now demands?

In our opinion there is going to be a "drap" in Georgia soon, and a personage about the size of Hoke Smith will fall with a dull, sickening thud. We shall see what we shall see.

POLEYSHONEY AND LAR
Sole Sales Prevents Pneumonia

Strange But True

Several parties were seated around the fire in the well known drugstore of Mr. Ellis, when a gentleman came in and called for a bottle of Dillingham's Plant Juice. After he had been waited on by the clerk, one of the parties spoke and said it was strange how Col. Dillingham could arouse and create such a demand for his remedies. Mr. Ellis, our well known druggist, said that was easily explained. The first thing was that Col. Dillingham is a liberal advertiser, and the second that his remedies were just as represented and that Col. Dillingham stuck strictly to the law of nature in the manufacture of his Plant Juice medicine.

Mr. Ellis said: "Col. Dillingham once explained to me how he manufactured his remedies and it was to the letter. He said he watched everything and was sure it was done right and that it did not vary a hair's breadth. He explained to me a compass registers, a hairs breadth wrong, when a ship is put out to sea it will carry her a thousand miles out of her way in a few days and wreck her. So it is, said Col. Dillingham, with many medicines when first put on the market, there is some varying and finally there is loss of confidence. It is not so with Col. Dillingham's Plant Juice. It is kept up to the Standard, that is the reason I can guarantee his remedies to do all he claims for them."

And Mr. Ellis added "at this season of the year thousands of people are already showing the ill symptoms, that are sure to result from the unusual climate. Heavy food, lack of exercise, overwork and poor ventilation. These spell sickness and poor health. If the stomach cannot do its work properly ill health is sure to follow. Dillingham's Plant Juice is the one medicine that assures a natural digestion that strengthens the stomach and soothes and heals all irritation, congestion and inflammation in the stomach and bowels. It is this that makes it a certain and guaranteed cure for all stomach troubles.

"If the digestion is impaired the blood is impoverished and becomes filled with poisonous impurities deranging the whole system and causing sickness and suffering. Dillingham's Plant Juice acting upon the stomach and digestive organs cures sleeplessness, nervous troubles, headache, backache and general weakness and debility. If you are weak and ailing the chances are that it is due to a diseased stomach. But you can be cured by using Dillingham's Plant Juice. If it does not help you the price is absolutely nothing.

Ellis, The Druggist.

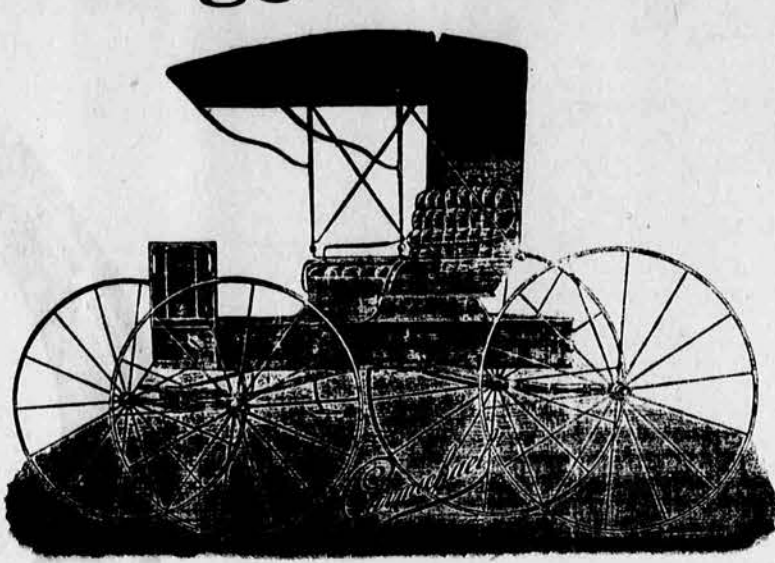

Dangers of a Cold and How to Avoid Them.
More fatalities have their origin in or result from a cold than from any other cause. This fact alone should make people more careful as there is no danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt and effective medicine in use for this disease. It acts on nature's plan, loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by all druggists.

REWARD.

Ten Dollars Reward for my two boys. They have left me without any cause, the oldest one named Frank, goes by the name of Son, with rim over one eye and cripple in right foot. The other boy named Sebora, goes by name of Bubber, dark complexion with full eyes, with burned scar behind left ear. Will pay Five Dollars each for them delivered at Clito. I forewarn anybody from hiring or sheltering them. This 18th day of Jan 1906.

John Polk.
STRAYED.

COL. DILLINGHAM SPOKE LAST NIGHT.

Address By Famous Advertiser Very Eloquent.

TOLD ABOUT HIS HAND AND DIAMONDS.

Lectures Again To-night on the Court House Square.

Col. F. A. Dillingham, the well known philanthropist and advertiser, who is to spend four weeks in this city introducing the remedies which have made him famous, gave his second lecture and entertainment last night before an audience of nearly 500 people, who listened to one of the most eloquent addresses that has ever been delivered in this city.

Col. Dillingham's ability to obtain perfect control over an audience was most perfectly demonstrated. From the moment he appeared on the platform until the last sentence was spoken he obtained the most absolute and perfect attention from the people before him, a feat which is considered very difficult to accomplish when an address is delivered in the open air.

It did not seem to be so much what he said, although his lecture was interesting, but the earnest way in which he said it.

In addition, so evidently at home before an audience so perfectly at his case was he, that it was easy to secure the sympathy of his hearers and carry them with him, which is the principal object of all public speakers.

Dillingham looks to be about thirty-five on the platform and has a McKinley profile and a winning smile.

In his voice there is character and truthfulness, as it is powerful, ringing, and clear as a bell, and has a carrying quality to such a remarkable extent that every word spoken by him could be heard distinctly a block and a half away.

His address was earnest and direct, his English so simple and diction so pure that it was easily understood and appreciated by the rich and poor alike.

The place in front of the court house which he has chosen for his lectures is in the heart of the city and where Col. Dillingham insists on speaking most of his spare time. Col. Dillingham last night wore a magnificent semi-"Quaker" garb of imported Khaki cloth of

QUAKER DRAB, broad brim Quaker hat of the same shade, long flowing coat, which reached far below his knees, cassock vest and the old fashioned broadfall Quaker trousers and this costume embellished by magnificent diamonds, made a very striking and imposing appearance. During his address last night Col. Dillingham referred in a humorous way to his reason for wearing so large an amount of diamonds and his conspicuous light colored garb, and said: "Some of you people may think I wear all of these diamonds because I like them. Some because I am especially vain.

"Well, my reason is this: I am an advertiser. I am to be in your city about four weeks, and my object is to get acquainted and become known to as many people in these four weeks' time as possible. Now, if I came into your city as an ordinary individual you would pass me by and never know me.

"As it is now, when you see me for the first time I have impressed you, and you say: 'There goes Col. Dillingham'—and you are right and I am satisfied."

The vaudeville entertainment given last night was high grade and seemed to please the large audience present. The performers are very fine in their different lines and placed on many different specialties and would be a credit to many dollar shows that play here. Henry Richardson believes to be one of the best open air ventriloquists that ever visited this city. Tom Wright sang very sweetly and is a thorough artist on the banjo and guitar. Fred Regis the comedian and dancer, is a performer of rare ability who kept the audience in a roar of laughter whenever he was on the stage. The performance was closed with a very laughable afterpiece entitled "The Telephone", and the large audience dispersed in good humor. The third lecture and entertainment will be given this evening commencing at 8 o'clock.

The Grip.
"Before we can sympathize with others, we must have suffered ourselves." No one can realize the suffering attendant upon an attack of the grip, unless he has had the actual experience. There is probably no disease that causes so much physical and mental agony, or which so successfully defies medical aid. All danger from the grip, however, may be avoided by the prompt use of Chamberlain's Cough Remedy. Among the tens of thousands who have used this remedy, not one case has ever been reported that has resulted in pneumonia or that has not recovered. For sale by all druggists.

The writer was in Bryan county last week and heard many complementary expressions in behalf of Col. Brannen for congress.

In another column will be found the announcement of Mr. W. S. Lee, who offers his name for the office of tax collector in the approaching democratic primary. Mr. Lee is a good, solid citizen and will receive the support of a large number of friends.

BROOKLET.

This Spring like weather makes one feel like reaching for the bell cord over the mule.

It is the quartet of spicels for "clerk" get a few quarts from "Hoke" box they are likely to make things lively in Bulloch.

One of our young men who has recently recovered from a protracted illness of typhoid was asked by a rural friend "how he is getting on" the young man replied that he was convalescing now, "better make your arrangements quick for the great beyond then for I never known any one to get well of convalescing yet, was his friends reply.

Mid scenes of prosperity and the general good feeling that pervades our community, our citizens are agitating of advisability of establishing a Bank at Brooklet. It can be truthfully said that no town was ever surrounded by a more thorough, wide-awake class of farmers and our merchants are up-to-date in every respect and the establishing of a bank here will meet with success and fill a long felt need. All the money necessary can and doubtless will be subscribed with a radius of eight miles.

Rev. Adams preached to a large and attentive audience at Harmony Sunday. A large crowd from Brooklet attended. His theme was "Put on the whole armor of God."

A few of our nemrods will leave Tuesday noon for the coast to shoot ducks.

Our town is steadily growing, four new houses are being built of the modern cottage plan.

The wise ones say that Mr. Averitt of Statesboro will in the near future move his family to Brooklet, we extend them a cordial welcome and congratulate Mr. Averitt upon his choice of a healthful location.

The writer was in Bryan county last week and heard many complementary expressions in behalf of Col. Brannen for congress.

Mr. R. F. Lester requests us to announce to his friends that he expects to be in the race for reelection and kindly asks them to hold their promise.

Capt. W. H. Blitch and sisters have moved into their home at The Turner Place on South Main street.

Col. F. H. Saffold of Swainsboro was a visitor to the city last night.

Dr. W. S. Carl of Rocky Ford was in the city on yesterday.

Mrs. Henton Booth left for Athens on yesterday afternoon to visit relatives.

Only 18 men's \$10 and \$12.50 Suits left at Oliver's. Will let go for \$4.98 per suit.

Mr. Willie Harper and sister is visiting at the home of their father Mr. P. C. Harper near Brooklet.

Rev. J. L. Scruggs of Waycross filled the pulpit at the Baptist church on Sunday.

Five cases of Mill End Goods just received at Oliver's and go into the Grand January Clean-up Sale—8 to 15 yards in piece.
50 Dress Gingham 50
7 1/2 White Dimity Checks 50
150 Madras Cloths, all colors 50
250 yd-wide White Lawns and Madras at 150
12 1/2 Dress Gingham and Shirtings 80c
REMEMBER, Oliver's Clean-up Sale lasts till Feb'y 1st.

In this issue will be seen the announcement of Mr. J. W. Rountree, who offers his name for the office of clerk of the superior court in the approaching primary. Judge Rountree has lots of friends throughout the county who will give him a cordial support. He is thoroughly competent to fill the position to which he aspires and should the people of Bulloch county decide to place him in this important office, we are sure they will have no cause to regret it.

Eighteen men's hard finish Worsteds and Flannel Suits, worth \$10 and \$12.50, will let go in this sale for \$4.98. E. C. Oliver.

LOST
From my place near Statesboro, last Saturday two weeks ago, one spotted sow, red sandy, weighs about 100 lbs. Marked swallow fork in one ear, crop, split and underbit in one. Any information as to her whereabouts will be liberally rewarded.
E. A. Futch, Statesboro, Ga.

FOR TAX COLLECTOR
I take this method of announcing myself a candidate for the office of Tax Collector, subject to the action of the voters in the approaching democratic primary, and will appreciate the vote of my friends and fellow citizens.
Respectfully,
W. S. LEE

STATESBORO, GA., FRIDAY, JANUARY 26, 1906.

VOL. 5, NO. 47

Like a Child Who Follows Candy.

Atlanta Jan. 24.—Charles Daniel, general manager of the Atlanta News, made some sensational and interesting charges in his cross bill and answer to the recent suit of Hon. John Temple Graves, brought to restrain Mr. Daniel from forcing him out of the editorial chair.

Upon petition of Mr. Daniel Judge Pendleton, in Fulton Superior Court, today granted a temporary injunction restraining Mr. Graves from using the editorial columns of the Atlanta News for his personal enhancement or to aid him in his candidacy for United States Senator, restraining Mr. Graves from reproducing any laudatory comment on his candidacy from other papers of the state, and restraining him from taking editorial position in the paper either for or against any of the candidates for Governor of Georgia.

CANNOT PRAISE HIMSELF
Mr. Graves is thus restrained from praising himself in his own paper. This temporary injunction is to hold until after the hearing on Saturday, Jan. 27.

Mr. Daniel charges that Mr. Graves has violated his agreement to resign as editor of the paper within sixty days after his announcement as a candidate for United States Senator. He charges that Mr. Graves has injured the Atlanta News by his editorial policy in indorsing Tom Watson in praising President

Roosevelt and in using the editorial columns solely for the furtherance of his own political and personal ends.

Mr. Daniel further charges that Mr. Graves has been "fed upon flattery." The diet is essential to his existence. This has become a disease with the plaintiff, and renders him through this avenue susceptible of approach. He follows one who flatters just as a little child follows a stick of candy.

Harville.

Elder A. W. Patterson preached an able sermon at the residence of Mr. J. W. Denmark Monday night.

Mr. Raiso Hagan and Miss Anna Mikel attended preaching at Black Creek church Sunday.

Mr. Bob Simmons and Miss Amanda Denmark were among those who attended preaching at Black Creek, Sunday.

Mr. Clisby Donaldson and Miss Pinkie Lanier attended preaching at Black Creek church, Sunday.

Mr. Lemuel Lanier and Miss Ola Denmark attended preaching at Black Sunday.

Miss Sula Akins returned home Saturday after teaching a three weeks' music class near Grove-land.

Messrs. Ben Strickland and Elvey McCormick were visitors in this community Sunday night.

Misses Maybell and Essie Denmark were visitors to Blackshear Sunday.

Mr. M. B. Marsh is Dead.

On Tuesday afternoon at his home, about eight miles northwest of the city, Mr. M. B. Marsh passed quietly away after an illness covering several weeks. The remains were interred at the cemetery at Upper Mill Creek church on Tuesday morning. A large crowd of sorrowing friends and relatives were out to pay their respects to his memory.

Mr. Marsh was one of Bulloch's solid citizens, farmers and merchants. He was noted for his honesty and upright life. He was a man whose loss will be felt in this section for some time to come.

Mrs. Sallie Rigdon Passes Away.

On Wednesday afternoon, at the home of her son, Mr. D. L. Rigdon near the city, Mrs. Sallie Rigdon fell asleep and awoke no more. She had been seriously ill for several months and her death came as no surprise to her family and friends. At the time of her death she was in her seventy-fifth year. She was the surviving widow of the late Mitchell Rigdon who preceded her to the Great Beyond some twenty years ago, and was the mother of Messrs. D. B. and D. L. Rigdon, Mesdames F. N. Fletcher and Mike Land.

The remains were laid to rest in the family burial ground near the home where many other members of the family lay sleeping that long sleep.

For any disease of the skin there is nothing better than Chamberlain's Salve. It relieves the itching and burning sensation instantly and soon effects a cure. Sold by all druggists.

"There's a Nigger in the Woodpile."

New York Jan. 17.—The Atlanta News correspondent, learning that Hon. John A. Sibley was in the city, called his attention to the controversy going on in Georgia over the now famous Sibley letter to Hon. Clark Howell.

Mr. Sibley states his position in the following card:

The votes of Georgia, especially those of Augusta and the tenth district, know full well my past loyalty to Mr. Watson. If he were a candidate for their suffering even at this late date there is not a political leader in the state but would place me as fighting under his banner. In his card which I have just read, even granting our conversation to have occurred exactly as he states, it was understood that I would write to Clark Howell and tell him the only way to beat Hoke Smith was to pass the word down the line and have the legislature enact such laws as Mr. Watson advocated.

"Naturally I concluded that if Mr. Howell did as suggested Mr. Watson would give his support, not as a trade or bribe, but in recognition of the great help done the reform forces by cutting the sand from under their feet."

"I knew Mr. Watson had been a contributor to the constitution. I knew that Mr. Smith and the Atlanta Journal never hesitated to vilify him on every occasion and therefore I could not for the life of me see what hold Mr. Smith could have over Mr. Watson if Howell told the sand from under the feet of the true reformer, and it puzzles me now how Mr. Watson can support Mr. Hardwick for congress in place of his friend Major McGreggor, who has always been a 'true reformer'."

There seems to have been a nigger in the woodpile that even my genial, suave, seductive nature could not unearth. When I recall the interview Major McGreggor and I had with Mr. Watson, when the Major read the Clark Howell letter that the McDuffie Journal seems to have known all about, though neither the major nor the writer divulged its contents this coupled with a subsequent conversation had with Mr. Watson in response to an urgent wire to go to see him, makes me now believe there were and are other reasons for his advocacy of Hoke Smith besides his natural antipathy to a fat, chubby politician.

However, this is another story, and as Mr. Watson, the McDuffie Journal and Hoke Smith have not mentioned the substance of this interview, I find it opportune for my genial, suave, seductive nature to discuss it at this writing.

A Grim Tragedy
is daily enacted, in thousands of homes, as death claims, in each one, another victim of consumption or pneumonia. But when coughs and colds are properly treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up, finally she took Dr. King's New Discovery for Consumption, coughs and colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c and \$1 by W. H. Ellis Druggist. Trial bottle free.

Mr. Jeff Aycock Dead.

News of the death of Mr. Jeff Aycock, which occurred at his home in the lower part of the county, reached the city on Wednesday afternoon. Mr. Aycock had been a sufferer from consumption for some time and his death had been momentarily expected for some time.

PULASKI

Pulaski is still on a boom and our merchants are doing a rushing business.

Our young people have organized a Library Society which meets every Friday evening at the academy.

Our Sunday school has been resumed and Prof. W. W. Hart elected as superintendent.

Messrs. Sam and Chestnut Halk and Warren Moore, of Savannah, spent several days here last week on a hunting trip and were guests of Mr. H. R. Williams. Quite a number joined the party Friday and bagged over a hundred quail besides the rabbits.

Mr. R. F. Lester, of Statesboro, was a visitor to our town this week.

Dr. Summerlin of Mt. Vernon, visited relatives here this week.

The Storm Struck Us.

The storm from the great west has swooped down on us in great shape. It was scheduled to have struck us broadside on Tuesday, but the weather man says that owing to such a high pressure on the coast it was held back for twenty-four hours, but today we find ourselves in the hands of the blizzard king.

It will have the effect of holding back the buds on the fruit trees and thus prove a blessing to the fruit growers in middle Georgia, but we folks down here who are caught short on wood are rather slow to hail this blizzard as a genuine article of blessing.

THE NEWS.

Published at Statesboro, Ga.
TUESDAYS AND FRIDAYS.
By The Statesboro News Publishing Co.

That Detroit indifference which unveiled a statue to Stalin in his front yard probably has a sneaking notion that he is squaring himself for the hereafter, suggests the Atlanta Constitution.

Insurance rates are too high, railroad rates are disproportionate, rents are exorbitant, and the prices of food, coal and lumber are burdensome. In such an emergency General Reduction should be promoted to a prominent position on General Prosperity's staff, avows the St. Louis Globe-Democrat.

After they get through dismissing insurance company presidents who are responsible for much of the scandal, suggests the Washington Post, it might help to get an insurance superintendent in New York who would be active enough to detect some of the frauds before they run into millions.

There is nothing like a reasonable amount of reserve if people wish to be fast friends, states the Chicago Chronicle. Human nature is so weak and imperfect that familiarity begets contempt and it is only once in a long while that we come across a human being who throughout life improves on acquaintance.

The Chicago Record-Herald says, William of Germany gets no salary for serving as Emperor, his only income being for his services as King of Prussia. Some of the life insurance presidents who will be unable to understand why William is willing to devote so much of his time as he does to the Emperor's business.

So far as the proceedings of the cabinet are concerned, the withholding or the publication of intelligence as to its discussions is properly a matter for executive regulation, declares the Philadelphia Ledger. The cabinet members are, in a broad sense, merely the President's assistants in the carrying on of the executive functions which are by the Constitution committed to him.

The British Blue Book supplies some interesting particulars as to British India based on the latest census, says the Louisville Courier-Journal. The country contains 1,765,297 square miles, or about half the area of the continental United States, including Alaska. The population is 294,000,000. This is 41,000,000 more than it was twenty years ago, showing an increase of about eight per cent. to the decade. This is not a high rate of increase, but in view of the numerous famines and the death rate it is rather more than would have been expected.

In order to insure a respectful hearing from the world it is sometimes necessary to first become a multi-millionaire, for the possession of great wealth is nowadays regarded as prima facie evidence that a man is well worth listening to, asserts the Coast Seamen's Journal. Money as the symbol of success has acquired much of the dignity of a super-social sovereign who can do no wrong. His sway in a republic lacking the tempering influence of an hereditary aristocracy is, of course, doubly potent over those unfortunate mortals in whom the instinct of snobbery is congenial. What would seem to prove that though fools may contend about the form of government, wise men should concern themselves chiefly with its essence.

When we note the haughtiness of capital and the small esteem in which it holds labor, we receive confirmation of the curious proneness of the human mind to base its judgments on artificial rather than on natural distinctions. Every sane man knows that even if every cent of capital were to perish from the earth, mankind would still get along somehow, but without labor the world would be a howling wilderness inside of a month. Yet we insist in crowning capital as the Diva of modern industrialism, and view labor as the Lazarus, sitting on the doorsteps of Diva's mansion, begging for the crumbs from the abundance of his table! No wonder our civilization is a puzzling array of incongruities that thinking men find hard to reconcile with any known conception of reality, when we have reversed the natural economic order in relation to the production of wealth and the absorption thereof! concludes the Coast Seamen's Journal.

GEORGIA BRIEFS

Fire Chief Seeks Mayoralty.
W. R. Joyner, for twenty-one years chief of the Atlanta fire department, and for thirty-five years a citizen of Atlanta, has made his definite announcement for the mayoralty at the next primary.

Rogers Succeeds White.
Professor J. N. Rogers of Mount Vernon, at present in charge of the agricultural and science department of the United Baptist Institute at that place, has been tendered and has accepted the appointment of assistant to State School Commissioner W. B. Merritt, to take effect February 1, when Commissioner Merritt's present assistant, Walker White, formerly of Forsyth, will retire to become secretary of the Atlanta Young Men's Christian Association.

Convicts at Macon Discharged.
Nineteen convicts sent to the Bibb county chain gang from the recorder's court of Macon have been discharged from the chain gang because of the supreme court's recent ruling in the Pearson case.

At a special meeting of the city council an ordinance was passed establishing a city chain gang. The road commissioners of Bibb have planned to loan the city the necessary tools for beginning work and the city officers will not be housed at the barracks longer than one week.

German Colonists Coming.
The Georgia, Florida and Alabama Railway has issued a circular announcing the appointment of F. R. Graham as agricultural and industrial agent of the road. He will devote his time to interesting the farmers of Georgia and the Carolinas in the resources of the country traversed by the line.

Presbyterian University Assured.
The Presbyterian university of high grade college suggested by the Georgia synod in session at Griffin in November last, now appears to be a certainty. All the latest indications are that the school will be located in Atlanta.

The special committee named by the synod to devise ways and means for the accomplishment of the task indicated and which met in the office of the Southern Railway and the Central of Georgia railway, John Temple Graves, editor of the News, was granted an injunction in the Fulton superior court, restraining the defendant from the sale of the paper, the status or ownership of the paper. The hearing was set for January 27.

Will Remove Offices to Atlanta.
The headquarters and general offices of the Southern Bell Telephone company, which are at Waycross, will be moved to Atlanta. The change in the location of the general offices will include the executive, and engineering, general freight and passenger departments. The offices of the superintendent, purchasing agent and the operating department and general shops of the company will remain in Waycross.

The removal is brought about by the decision of the company to continue its line to Atlanta, which will necessitate the company to have its headquarters in that place.

Murdered on Top of Pole.
John Floyd, a lineman in the employ of the Southern Bell Telephone company, was shot to death at the top of a pole near Savannah and Jesse Roundtree, a fellow lineman, was arrested, charged with the crime. Roundtree denied the charge, and claimed that he can prove an alibi.

Roundtree had been employed by Floyd in the company's plant. The reason for Floyd's going out was that the wires had been downed. This was shown by an examination when his body was taken down. The shooting had evidently been done by some one who had stood almost under Floyd. The shooting was done with No. 4 shot. Two loads had been fired up into Floyd's body at close range.

bacco farms in the ninth district of Georgia. Two experts of the department visited Gainesville to make a thorough survey of the situation and determine upon the location for the experiments.

The idea of the department is to secure about two acres of suitable land in each county, to be taken charge of by the government for the purpose indicated. This will be devoted to the raising of Sumatra tobacco, the perfect leaves of which make the best of all wrappers, while the rest makes excellent filler. The high grade Sumatra now brings \$2.50 a pound.

Power Furnished Free of Charge.
Power for running all the operative exhibits of the 1910 exposition in Atlanta will be furnished free of charge by the Lane & Bolley company, one of the largest builders of steam engines in the world.

A letter from the local representative of the company to Secretary Walter G. Cooper announces the generous offer of the Lane & Bolley company, stating that the company will be glad to "install any or all engines necessary, either of the four valve or Corliss type, and furnish the exposition company all the power they demand."

The plan of the exposition is to have all the exhibits, so far as possible, operative, and it will require a vast amount of power to run these exhibits.

Ex-Policeman Manages Home.
Captain John A. Thompson, an ex-policeman of Atlanta, has been elected superintendent of the Confederate Soldiers' Home by the board of trustees. Superintendent Bowles' term having expired the first of the year, Captain Thompson received six of the ten votes on the first ballot.

Disgraced Senator Tricked.
Durton of Kansas Forced Into View and Allowed Mileage.
One of the most remarkable procedures in the history of the senate occurred Monday in order to avoid a technicality, which prevented Senator Durton of Kansas from drawing his mileage for the present session, in order to have his resignation honored, it is necessary for some official of the senate to take oath that he had seen the senator in the chamber, but since the indictment and conviction of the Kansas senator he has not appeared in the chamber. There is no disposition on the part of any one to withhold the mileage and the senator was therefore asked to step from the cloak room into the chamber for a moment in order that he might be seen by some official. He declined, but an employee engaged him in conversation in the cloak room near the entrance to the chamber. The employee suddenly turned the senator so that he faced the chamber, and the attention of officials previously having been directed toward this room, he was seen from the chamber. It was then certified that Senator Durton was in attendance, and his mileage was paid him.

ENGINE ALONE ON TRACK.
Whole Train Topped Over in Wreck, But No One Was Killed.
Passenger train No. 35 of the Georgia Pacific division of the Southern, running between Rome, Ga., and Abbeville, Ala., was wrecked at Cummingham, ten miles from Rome, at 11:30 o'clock Monday. There was no one killed, but several injured. The engine, which consisted of six cars, three of them sleepers, tumbled over, leaving the engine alone on the track.

Offers Half to Gather Crop.
Lack of Pickers in Many Texas Fields Ruins Much Cotton.
A special from Waco says: Thousands of bales of cotton in several northwest Texas counties will be utterly lost for lack of pickers. In Wilbarger county half the cotton now standing is being offered pickers to gather the crop.

Experimental Tobacco Farms.
At the instance of Congressman Bell, the department of agriculture in Washington will, in the very near future, establish three experimental tobacco farms in the ninth district of Georgia. Two experts of the department visited Gainesville to make a thorough survey of the situation and determine upon the location for the experiments.

DID PRESIDENT PROMISE?
Beef Packers Assert That Roosevelt Assured Them Immunity and Presented a Letter as Proof.
A Chicago special says: President Roosevelt has been the central figure around which revolves the entire case involving the plea of the indicted packers for immunity from further prosecution by the government on charges of being parties to a conspiracy to combine in restraint of trade and commerce.

Attorney William J. Hynes, for the defendants, in his opening statement, Monday, before the jury hearing the immunity plea, read an excerpt from a letter written by President Roosevelt to Attorney General Moody in St. Atchison, Topeka and Santa Fe restate case, which was a part of the communications between the two men called for by Congress some time ago. This letter is taken by the packers as an admission by the president that the department of commerce and labor, and the department of justice worked together to indict the packers, supporting the contention of the packers upon which they rely for immunity.

The defendant packers endeavor to inject the letter into the case as evidence, just as if the president were here and testified concerning it. The letter was written by the president June 12, 1905, at the time the federal grand jury was sitting in Chicago. The letter read by Attorney Hynes, and which will be introduced by defendants, if possible, as evidence from President Roosevelt, follows:

"With my approval the department of justice, with the assistance of the department of commerce and labor, has for some months been endeavoring to find out whether or not they can obtain legal evidence of such willful and deliberate violations of the injunction by any individual. If the grand jury now sitting in Chicago finds an indictment against any individual connected with the packing corporations it will be because in their judgment such legal evidence of the violations of the injunction has been laid before them."

"The letter is a public document, and we will introduce it as evidence in order to have his resignation honored," said Attorney John S. Miller, one of the packers' attorneys. "If the government contends it, we can only call for an original copy."

The reading of the letter came as a climax to the opening statements of the defendants late in the day.

MARINES GO TO BOTTOM.
Brazilian Warship Sunk by Magazine Explosion and 196 of Her Crew Found a Watery Grave.
The cruiser Barroso arrived in port at Rio Janeiro, Brazil, Monday, from Port Jacareguia, with those injured by the explosion on the Aquidaban. The Aquidaban blew up at 10:45 Sunday night. Nearly all the officers were killed or injured. The dead number 196, and the injured 26. The explosion occurred in the powder magazine, and the vessel sank in three minutes.

The following members of the commission, which left the arsenal on board the Aquidaban, accompanying the minister of marine, were drowned: Rear Admiral Rodrigo Jose Da Rocha, Rear Admiral Francisco Calhoun Da Graça, Rear Admiral Joao Candido Brath, Captain Alvaro De Lario. Two commanders, two German photographers and one newspaper reporter also were drowned.

All Hosiery Cut to the Quick.
See the line of Ladies' Hosiery, at 4c, 6c, 8c, 11c and up to 19c, that have no equal, and if you need Hosiery, it is a certainty you will come to us for it, because you can buy them cheaper than you ever did before.

And we will not wind up our talk until we tell you about the finest line of

Ladies' Furnishings
of all kinds that was ever in this city, and we believe you know it. There are hundreds of articles, including Fur Scarfs, Winter Underwear, Wool Underwear, Gloves and Mittens, Belts, Hose Supporters, Hand Bags, Purses, Handkerchiefs, Fancy Neckwear, Perfumes, of all kinds and Toilet Articles, Ribbons, Fancy Combs, Collars, Jewelry, etc, etc, and they will cost you less money than the other fellow gets for what he has been carrying for the past two or ten years.

Greatest Corset Excitement
Squeezing Corset prices. Such prices as we make for the next thirty days will do the work, for certainly no sane person will pay twice the prices elsewhere that we ask for the same quality. **A SURGICAL OPERATION HAS TAKEN PLACE IN LADIES' WAISTS.**

We have cut the prices so deep that they are not recognizable, and now they are yours, if you get here in time. Buy them at 48c, 69c, 98c, up to \$3.67 worth 60c to \$5.00.

THE GREATEST CLOTHING SALE
that you have heard so much about will be in full blast as soon as the doors open, with every other department throughout the store in the same way. Suits for the men, suits for the boys, overcoats for the men, overcoats for the boys. We have clothing for everybody, and it is going to be clothing day down here every day, and if you ever did want anything or ever did need anything in your life, IT IS CERTAINLY CLOTHING. We have one lot of mens suits at \$3.69 that would be considered cheap in any of these stores at \$5 to \$6. We have another pile of suits at \$4.78 worth from \$5 to \$10. You will find another stack of mens suits at \$5.98 that would be considered cheap in any of these war-priced stores at \$10 to \$12. Then we have another lot of suits at \$6.97 that would be as good as gold dollars at \$12 to \$14 in any other store in this town, and the kind we are selling at \$8.87, \$9.98 and \$11.98 are absolutely worth

1-3 more, and you are paying it elsewhere. Everything we have in the Overcoat line and Little Suit line go out at prices that will please every man and child within the walls of this city.

THE OVERCOATS
we are going to sell at \$4.87 will cost double that in any other store in this town. **TURNER-GLISSON CO.** bids you welcome under the roof of their big store, and that means it is a welcome that comes from the bottom of their heart. We want cash and we want it quick. We want to part with our clothing and overcoats, mens hats, etc, and we want to part with them quickly. We are going to sell these overcoats, and at such prices as have never been heard of before in this city. In fact, clothing bought here costs you a mere trifle. You will hear some of the other merchants say we are giving it away, but we cannot help what they say. If you want anything in this line, you will certainly be here and buy half a dozen suits and fit out the whole family.

MEN'S SUSPENDERS HERE
will cost less than boys' suspenders elsewhere. Rockford socks will go to all the people at 4c per pair, and you get the benefit.

MENS WORK AND DRESS SHIRTS
worth 50c to 75c, Turner-Glissson Co. has cut 'em loose at 38c and 45c. Dress shirts that are sold the world over at 75c to \$1 will be on sale here during this cash getting carnival at 49c; mens driving gloves and mens working gloves will be included in this sale.

MENS HATS AND CAPS
come in for their share of these. We have a great stock. They are brand new, just bought from the wholesale market, and the prices of these goods will be slaughtered with the balance. **WE ARE GOING TO TALK UNDERWEAR** because we are going to talk direct from the shoulder. An immense line of ladies underwear at prices that speak out in great big plain figures. In other words, many garments in this house, you can buy two for the price of one elsewhere. Mens underwear comes under the same ban. We have it in all weights and all prices, but our prices are always the lowest.

CALICOES AND GINGHAMS
will be cheaper than dirt elsewhere. With us it is cash we want, and we want it good and plenty.

A FEW DON'TS.

Don't wait too long; don't be skeptical; don't miss the opportunity; don't fail to tell your friends; don't over-buy yourself; don't be broke next week; don't miss the place; don't kick and crowd; don't get mad if someone tramps on your corns in the rush for bargains; don't ask us to take back or exchange goods on Saturdays—we cannot do it—too busy.

Attend the Carnival of Cash Getting.

Such as was never attempted and carried into effect in this city. Lay in your supplies. Now we say, when the doors open here next Saturday morning we bid you **Welcome**. You will find gentlemen at the front doors and at the side door, welcoming you in as never before. Everything is on display. Nothing in reserve, and nothing in this house but what costs you considerable less than elsewhere, and you will find the most courteous set of clerks that ever stood behind the counters in this city. All we can say to you is to **COME** and

Attend This Cash-getting Carnival That Commences Jan. 27, and Ends Feb. 24.
at Midnight. We Bid You Welcome.

Admiral Highborn Praises Pe-ru-na

Admiral Highborn, Rear-Admiral of the U. S. Navy, Washington, D. C., writes: "After the use of Peru-na for a short period, I can now cheerfully recommend your valuable remedy to every one who is in need of an invigorating tonic."—Philip Highborn.

An Ever-Present Foe.
The soldier and the sailor are especially subject to catarrh in the bladder, and on the field Peru-na is found equally efficacious in overcoming this physical enemy. It taken in time it will prevent colds from developing into catarrh. Peru-na is a safe remedy to be relied upon as an efficacious remedy to promptly overcome it.

Peru-na will relieve catarrh, whether acute or chronic, but a few doses of it taken in the first stages of the disease will be more effective than when the disease has become established.

The King of Uganda, in British East Africa, rejoices or grieves in the somewhat pickish and chow-chow name of Daudi Chual. This august sovereign—may his tribe increase—is now "going on" eight. ALL SICK WOMEN
SHOULD READ MRS. FOX'S LETTER

In All Parts of the United States Lydia E. Pinkham's Vegetable Compound Has Effectuated Similar Cures.

Many wonderful cures of female ills are continually coming to light which have been brought about by Lydia E. Pinkham's Vegetable Compound, and

Mrs. Fannie D. Fox
through the advice of Mrs. Pinkham, of Lynn, Mass., was able to get rid of her women absolutely free of charge.

The present Mrs. Pinkham has for twenty-five years been a student of the ills of her sex; she has consulted with and advised thousands of suffering women, who today are not only their health but even life to her helpful aid.

Mrs. Fannie D. Fox, of 7 Chestnut Street, Bradford, Pa., writes:

Dear Mrs. Pinkham:
I suffered for a long time with female trouble, and finally was told by my physician that I had a tumor. I did not want to submit to an operation, and you wrote me, I received your letter and did as you told me, and to-day I am completely cured. My doctor says the tumor has disappeared, and I am once more a well woman. I believe Lydia E. Pinkham's Vegetable Compound is the best medicine in the world.

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. She asks nothing in return for her advice, and to thousands of women has proved to be more precious than gold.

Turbine Steamships

The use of steam turbines has been common for some time in stationary plants and in small vessels. Instead of the piston-and-valve arrangement which is the foundation principle of the old steam engines, the turbine takes the steam directly from the boiler into a cylinder filled with blades, and the expansive force of the steam acts against these blades, on much the same principle as a turbine water wheel. There is no alternating reciprocal motion, but a constant revolution at even pressure which can be transmitted directly to the revolving screw.

This turbine principle saves fuel, but its greater advantages are in its simplicity of operation, the reduction of the machine parts required, the direct transmission of power and the freedom from vibration.

The transmission of power from fuel to effective energy is still in its infancy. No commercial turbine has been built in this country, and the theoretical power of coal is only 10 per cent.

The history of coal is comparatively modern. It is only in the last few years that we have begun to use it in large quantities.

PERAL'S TURQUOISES.
The famous turquoise mines of Nishapur in Persia are farmed by the Muayini-Tuljar of Meshed, in partnership with the Ruz-Tuljar, for an annual payment of 2000 pounds, or nearly double the sum paid twelve years ago. He in his turn sublets all but a few wells.

THE MINING IS UTTERLY PRIMITIVE AND UNSCIENTIFIC.
The mining is utterly primitive and unscientific, and owing to that and to the fact that every Persian desires to possess a turquoise, gold stones are dearer than at a London jeweler's, but inferior qualities and matrix rule lower.

Southern Ports Show Up Well as to Export Trade.

FIGURES ON BREADSTUFFS

Value of Grain Shipped Out of Gulf and Southern Ports Showed Increase of 66 Per Cent Over Last Year.

That southern ports are increasing their importance as exporters of breadstuffs is shown in the latest issue of the Manufacturers' Record (Baltimore), which says:

"During the twelve months of the past calendar year, the value of breadstuffs exports from this country increased over that of the preceding year from \$23,111,312 to \$36,111,312, or by \$13,000,000, equal to 56 per cent."

The increase at leading southern ports was from \$10,000,000 in 1904 to \$15,000,000 in 1905, or by \$5,000,000, equal to 50 per cent.

"Six southern ports—Baltimore, Newport News, Norfolk, Portsmouth, Galveston, Mobile and New Orleans—exported more than a third of the total exports, and the increase in value of their exports was more than 57 per cent of the increase at all ports."

"The trend of this traffic toward the ports of the Mississippi is shown for a number of years is destined to become stronger still. The twelve months lately ended has seen the completion of a new line of railroad down the Mississippi valley, following an existing line of the same system to reach New Orleans."

"A fourth company is by piecemeal building a road that is soon destined to cut New Orleans, while the contract was lately awarded for a fifth enterprise which will build links to connect up several railroads for the purpose of making a New Orleans and Denver through line. A sixth plan is that of another large system to get into the Louisiana metropolis by means of a line which at present seems to be no more than a lumber road."

"On the Atlantic side of the mountain ranges three new lines are now under construction to give coast routes to the coast. One of these is from New Orleans to New York, another from the Kentucky and Southwest Virginia fields, and the third is to extend out of the Birmingham district of Alabama."

"The road to be in prospect, and, beside, one important line in West Virginia has only lately been finished, a road which through its intimate connection will reach this district to accommodate. It is that of road from Kentucky, West Virginia and Ohio to the great lakes, and two or three lines in England as matrix, which are termed arable at Meshed, are exported in considerable quantities to that country."

"The export of precious stones, as given in the statistics, is evidently much smaller than the output, and probably there is a good deal of smuggling. In spite of this the registered exports amount to over 9,396 pounds, which sum may, perhaps, be quadrupled to arrive approximately at the total output of the mines."

THE LITTLE WIDOW
A Mighty Good Sort of a Neighbor to Have

"A little widow, a neighbor of mine, persuaded me to try Grape-Nuts when my stomach was so weak that it would not retain food of any other kind," writes a grateful woman, from San Bernardino Co., Cal.

"I had been ill and confined to my bed with fever and nervous prostration for three long months after the birth of my second boy. We were in despair until the little widow's advice brought relief."

"I liked Grape-Nuts food from the beginning, and in an incredibly short time it gave me such strength that I was able to leave my bed and enjoy my three good meals a day. In two months my weight increased from thirty-five to 115 pounds, my nerves had settled, my neighbors were amazed to see me gain so rapidly and still more so when they heard that Grape-Nuts alone had brought the change."

"My four-year-old boy had eczema, very bad, last spring and lost his appetite entirely, which made him cross and peevish. I put him on a diet of Grape-Nuts, which he relished at once. He improved from the beginning, and in a short time he was as fat and as healthy as a pig. The Grape-Nuts diet did it. I will willingly answer all inquiries. Name given by Postum Co., Battle Creek, Mich."

There's a reason. Read the little book, "The Road to Wellville," in page.

SAFE CRACKERS PERSEVERE.
After Fourth Attempt Robbers Succeeded in Looting Bank.

After four attempts, which finally proved successful, robbers Sunday morning broke the safe of the Bank of Dale, Oklahoma, and secured \$25,000 and a large sum of money.

It is thought that the thieves belong to the same gang that has been robbing banks near Oklahoma City for the past three months.

RICH MEN BUNCOED

Town Topics "Borrowed" Big Sums from Money Kings.

STARTLING ASSERTIONS

The Stock of Vampire Magazine Worth Only 10 Cents a Share, Says Colonel Mann.

Colonel W. D. Mann, editor of Town Topics, testified at the Haygood criminal trial at New York Monday that he had borrowed nearly \$200,000 from J. P. Morgan, James R. Keene, W. K. Vanderbilt, William C. White, and other prominent financiers.

Many of these loans never were repaid so far as Colonel Mann could recall and others were repaid in stock of Town Topics company at \$1,000 a share.

The largest single loan was obtained from James R. Keene, who loaned the Town Topics editor \$90,000. From W. K. Vanderbilt, Colonel Mann obtained \$25,000, from J. P. Morgan, \$25,000, from W. C. White, \$10,000, from Collis P. Huntington, \$10,000, from John W. Gates, \$10,000, Charles M. Schwab, \$10,000, Thomas F. Ryan, \$10,000.

When Colonel Mann testified that many of these loans were paid in Town Topics stock at \$1,000 a share James W. Osborne, counsel for J. P. Morgan, asked if the par value of the stock is not 10 cents a share. Colonel Mann replied that it was.

A contract was produced showing that \$25,000 was paid by William J. White of Cleveland for a subscription to Town Topics, and the book which was issued under Colonel Mann's direction.

Mr. White's name was not in this book and Colonel Mann was asked why Mr. White paid the money. He replied that he did not know, and, hearing that Mr. White was a prominent Cleveland man, he had approved of his subscription. The price of a subscription to Town Topics was \$1,000 a year, and Colonel Mann was asked what Mr. White paid the extra \$1,000 for.

"He wanted four pages instead of two," Colonel Mann replied, and Colonel Mann's dealings with United States Senator William A. Clark of Montana were taken up by Mr. Osborne. The witness said he never received any money from the senator, but that he was a member of his family. Mr. Osborne asked:

"I am not aware of it," said Colonel Mann.

"That series was stopped and you became friends with Senator Clark?"

"Yes,"

"How did you become friendly with him without money?"

"There was some correspondence with him," said the witness. "The senator came to my office and talked for an hour or two. He said he was building a railroad. He said he was going to issue bonds only when the road was complete, and that I could have some of the bonds then. From that day to this I have not seen Senator Clark."

Asked whether there was a key to the other paragraphs in Town Topics, Colonel Mann said there was none. His attention was then called to two paragraphs in Town Topics, known in the same man as the one of which is anonymous, but apparently about the same man as the one of which is anonymous.

"That is it, a matter of the galleys," was the reply.

THREE DIE IN COLLISION.
Freight and Switch Engines Crash Together Near Atlanta.

A head-on collision occurred between a freight train and a switch engine on the Seaboard Air Line railroad at Atlanta, Friday evening at 5:32 o'clock, an engine and two freight cars were killed and two injured. An engineer and fireman saved their lives by jumping. The dead were: Walter S. Taylor, engineer of switch engine; leaves wife and two children. E. B. Rock, telegraph operator; leaves wife and five children. Thomas J. Eden, fireman on the switch engine.

STRIKING CIGAR MEN DEPORTED.
Citizens' Committee in Key West Send Malcontents Back to Cuba.

The crisis came to the cigar makers' strike at Key West Wednesday when a second committee of the Tobacco Union, the only one remaining after refusal to consider any proposition to settle the strike. On a signal given the citizens' committee, heavily armed, surrounded the Tobacco Union headquarters and the committee of twenty-five and took them to the steamer Massachusetts, which sailed at once for Havana.

CLOSE SHAVE FOR MELDRIM.
Greene and Gaynor's Attorney Narrowly Escaped Being Fined.

Colonel W. K. Mann, leading counsel for Greene and Gaynor, narrowly missed, in the federal court at Savannah, Monday, sharing the experience of his associate, A. L. Lawrence, who last week was fined \$100 for contempt of court.

Judge Emory Spear construed certain remarks of the attorney as out of order and in contempt of court, but accepted an explanation and, notwithstanding the matter, thus closing an intensely dramatic scene.

Brooklyn, N. Y.—At St. Mark's P. R. Church, the Rev. Dr. Spencer Sumner-Edwards Roche, the rector, will preach the sermon on "Elijah's Life." The text was from I. Kings, xix:9. "And he came thither, unto a cave."

The lessons present quite fully the life of that grand old prophet Elijah. From the time of his birth to the day he died, we are able to follow his life. I shall attempt to draw such lessons as may fit the hour. Let us see how we may apply the lessons of his life to us here, the mount of God. Give your thoughts to this statement, "And he came thither, unto a cave." We shall speak of the coming and of the cavern; of the grief the journey brought; of the peace the journey revealed. Throughout we must remember that we study a typical case of Almighty God's dealing with men. Let us begin with the text, "The Lord said and did to Elijah. He would have us believe He says and does to our-

"It is very probable that the daily press of the future will be highly specialized, so much so that we may anticipate one daily devoted entirely to politics, another to sport, and another to literature. I am entirely devoted to literature, and so on," said Sir Alfred Harmsworth, in the course of an interview granted to the World's staff correspondent. "I think that in the future each grade will be able to take any one or all of them, as he pleases. Of course, we already have daily papers entirely devoted to sport, and it will be a matter of time before the same will be true for papers devoted exclusively to some or other subject. In London, for instance, there are several daily papers trying to cover the ground of the London mother in their supply of news, and not a few of them losing a great deal of money. In time to come this will give place to specialization in the directions which

forth and stand on the mount before the Lord." There came sweeping down the granite crags of Sinai a gust and then a blast and then a hurricane that uprooted the ancient trees, and rolled the loose fragments of rock against one another till they flew in pieces like millstones subjected to too swift a revolve.

Twelve months ago, when the "Lords of the Earth" were still in the hands of the "millionaires" of the English journalism, contributed an article in the World on "How to Achieve Business Success." He then wrote during the last twelve months of his life, "I have nearly doubled in number during these twelve months also the English public has been rather startled to find that the 'Lords of the Earth' have been drawn from the population of the kind with which his name is associated. He has turned his attention to old established papers, some of which have been in circulation for centuries. Many of them have been removed—and some definite statements have been made to that effect in the London Standard." The "Lords of the Earth" have made it their business to "Harrass" the world has been compiling arrangements for duplicating his London enterprises in New York. On his side the "Lords of the Earth" have been making statements in New York. Sir Alfred

Harnsworth replied: "They are absolutely true. I have no objection of having my name put up any establishment in the State. I have arranged for the publication of a book, and I have no objection to its spontaneous demand arose for it. The sale is all. If I were foolish enough to think of entering into a business, I should have just as much chance as an American would have in entering to the English public if I were to publish a book in England. If you will give the statement that I intend to try my hand in the American market the most absolute contradiction."

With regard to illustrations, the experience of the daily newspaper is that it should either be fully illustrated or not illustrated at all. Frequently the illustrations in the Sunday editions of the *Washington Post* and *Times* are increasing their number in the Daily Mirror. The public demand is that the newspaper shall contain one thing of the nature of a picture on every page. That there is a large public growing up which prefers solid reading matter to a combination of letter-press and illustrations is shown by the growing number of subscribers to the *Illustrated London News* and *Illustrated Times* on both sides of the Atlantic.

It is suggested that the extent variety of your business, its all-bracing character, is bringing your creations more and less into line with the tastes of the market.

Spiritual Exercise.

The best forms of physical exercise bring delight and satisfaction to the body. Muscles, nerves and joints are kept in constant employment. The best forms of mental exercise secure rich returns to the thinking faculties. The mind is stimulated and quickened to larger powers of attainment and enjoyment by each hearty effort. In fact, our own experience in various directions has enabled us to obtain success on similar lines. There cannot be anything to deplore in the growth of the intellect. The mind that succeeds on the basis of competition.

"I confess, however, that I am not an athlete, which I consider one of my misadventures in the State. As a single business self-sufficient manufacturer for myself requires that I require."

It is abundantly in order that we may be able to make my own pen. So we hope to make everything.

a bow of faded ribbon, and his incessant gambols and pranks found favor in the sight of his beggar-boy

master. It was plain to see that the boy loved the dog, and between the two there was the complete under-

All persons having lane fences on the main public roads of the county are hereby requested, while resurveying their lands, to leave ample room to build a 30-foot road through said lanes. By order of the county commissioners, January 18th, 1906. S. L. MOORE, Clerk Co. Com'rs.

Great Cavalry Leader Surrenders To Death

New York, Jan. 25.—General Joseph Wheeler, the famous Confederate cavalry leader and a brigadier general of the United States army since the war with Spain, died at 5:35 o'clock this afternoon at the home of his sister, Mrs. Sterling Smith in Brooklyn.

The veteran of two wars was 69 years old, but in spite of his age there was hope until yesterday of his recovery from the attack of pneumonia which caused his death.

It has not been decided where the body will be buried, but probably it will be in Arlington cemetery near Washington. Announcement of plans for the funeral will be made tomorrow.

General Wheeler was taken ill six days ago at his sister's home, where he has been living recently. He contracted a severe cold, which developed in pleurisy and pneumonia. From the first his wife told against him but the family did not give up hope until last night when the disease was found to have effected both lungs.

Gen. Wheeler's immediate relatives were Mrs. W. J. Harris and the Misses Anna, Lucille and Carrie Wheeler had been summoned from the South and arrived early in the week.

His son, Major Joseph Wheeler Jr. U. S. A. now stationed at West Point was also present, as General Wheeler's sister, Mrs. Smith, and her son.

The family was summoned to the bedside of the patient at midnight last night, when the doctors in consultation concluded that the end was but a matter of hours. The general was then awake and conscious and his mind was apparently active. He seemed to know that death was approaching and though too weak to speak, he succeeded in giving signs of recognition and encouragement to his children.

Later the general sank into a peaceful slumber and at the request of the doctors, the family quietly withdrew from the sick man's bedside.

General Wheeler was never again more than semi-conscious. He lingered until evening and passed away quietly.

Call for a Great Convention.

The Sea Island cotton growers of Georgia and Florida, bankers and business men are hereby called to meet in Valdosta Feb. 8th at 10 o'clock a. m.

All farmers are requested to attend. A uniform reduction of acreage for all the sea island cotton growing counties of Georgia and Florida will be established. Plans for improving our staple, and for a better handling of our cotton, will be discussed, also to devise means for a closer relation of the producer and the spinner.

The presidents of all county associations are requested to notify all sub-divisions that county meetings will be held on Feb. 3rd for the purpose of electing delegates to the Valdosta meeting. There is a great deal of work to be done and I believe great good will result from the meeting. Active efforts will be made to get reduced rates on all the roads.

Yours very truly, Harvie Jordan, President.

Spilled Her Beauty.

Harriet Howard, of New York, at one time had her beauty spoiled with skin trouble. She writes: "I had Salt Rheum or eczema for years, but nothing would cure it, until I used Bucklin's Arnica Salve." A quick and sure dealer for cuts, burns and sores. 25c at W. H. Ellis's drug store.

Had Bogus Grant for 219,000 Acres.

A man who gave his name as J. T. Peavy, and said he was from Nebraska, called at the office of Secretary of State Philip Cook yesterday, to investigate a title which he said he had bought to 219,000 acres of land in Washington county, Georgia.

The title on the face of it appeared to be a good one. The only trouble was that the first link in the chain was a bad one. It was a bogus Georgia land grant, one of the many which have been tricked in at various points in the country, and out of which the purchasers have secured only a little sorrowful experience.

The land grant possessed by Mr. Peavy was for 219,000 acres of land in Washington county, and was alleged to have been made to Enoch Nilson. The grant purported to have been recorded in Book 4E, page 514, in Secretary Cook's office.

A reference to the book and page in the question showed that it contained a grant of 55 acres in Wilkes county to Isaac Hodge.

Mr. Peavy when asked what he paid for this bogus land title, declined to say, remarking that he had got into it too heavily to let it go.

GOING TO WASHINGTON COUNTY. He was not satisfied with the result of his investigation, and remarked, as he left the office, that he was going over to Washington county any way, and see what he could do there. He was advised that any more expense would simply be sending good money after bad.

There have been numerous sales of fraudulent Georgia land grants in various parts of the country of late, and every now and then some party turns up at the secretary of state's office to investigate one of these bogus titles.

A short time ago, a man named Dines was convicted in St. Louis of obtaining money under false pretenses as the result of selling a bogus Georgia land grant, and was given a five years' sentence.

The Egg Thief Caught.

For several days previous farmers had been missing small packages from their wagons where they had been left standing on the streets here. One day last week Mr. Henry B. Jones was in town and brought a bucket of eggs and had exchanged them for some cloth. The bucket was placed in his wagon standing on the street but was soon missing. Later in the day Mr. J. A. Brannen brought in a cheese box filled with twelve dozen eggs; soon it was missing, a search located them in a cabin occupied by two worthless, straggling negro women, viz: Sweet Pierce and Sugar Dish. The bucket with the cloth was also there. The women claimed the cloth, saying that they had bought it up town, but said the eggs were brought in by Nathan Livingston, perhaps the sorriest specimen of a mulatto negro in Statesboro, and that is saying a whole heap.

Livingston was arrested and placed in jail and the goods taken in custody. The women have not been arrested as yet, but will in all probability be placed where they belong in a short while. The officers are working on the case, and it is believed that they are part of a gang who have been systematically stealing for a living here some time.

Blackburn-Mikell.

On Thursday evening at the home of Mr. and Mrs. A. J. Higgins on College street, Mr. and Mrs. Mikell and Miss A. Blackburn were united in the holy bonds of matrimony. Rev. G. G. N. MacDonell officiating.

The wedding was a quiet affair as only a few intimate friends of the contracting parties were aware of their intention to get married.

Little Boy's Death.

On yesterday morning at their home about six miles south of Statesboro, Mr. and Mrs. John Kennedy had the misfortune to lose their son, Sidney, six years of age. The little fellow had been sick for several weeks with fever.

The remains were laid to rest in the family burial grounds near the home. Mr. and Mrs. Kennedy have the sympathy of many friends in their sad bereavement.

A Grim Tragedy.

It is daily enacted, in thousands of homes, as death claims, in each one, another victim of consumption or pneumonia. But when coughs and colds are properly treated, the tragedy is averted. F. G. Huntley, of Oakland, Ind., writes: "My wife had the consumption and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, coughs and colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c and \$1 by W. H. Ellis druggist. Trial bottle free.

Burned Water Tank.

One of the latest cases of incendiary work that we have heard of was the destruction by fire of the water tank of the Savannah & Statesboro Railway Co. near Cuyler on Saturday.

It seems that some rascal desired to do the road dirt and set the pump house on fire. This connected to the water tank, which was not being used at that time, and destroyed it also.

A Jamaica Lady Speaks Highly of Chamberlain's Cough Remedy.

Mrs. Michael Hart, wife of the superintendent of Cart Service at Kingston, Jamaica, West Indies Islands, says that she has for some years used Chamberlain's Cough Remedy for coughs, croup and whooping cough and has found it very beneficial. She has implicit confidence in it and would not be without a bottle in her house. Sold by all druggists.

All parties are hereby warned not to hire Sidney Higgins, colored, as he is under contract to work for me this year, 1906. F. R. Brannen.

The Labor Problem

One of the most vexatious problems now has its hold on this section of the country, is the labor trust. In speaking of this matter we refer locally.

It is next to impossible for a man to get labor on the farm, and when you do it is so worthless as to render the business a hazardous undertaking. You cannot depend on the average negro. They will start in with you and the least jar comes, he deliberately picks up, sticks out his lip and walks off.

He knows that the next door neighbor is anxious to employ him at what ever price he chooses to set; he must have his money in cash as he goes, so that he leaves nothing to hold him to his contract but his word, and it is equally worthless.

Another phase of the labor problem is the servant problem. The average negro woman seems to be able to live luxuriously in idleness, and it is next to impossible to get one to cook or wash. If you do, you have got to be on your guard all the while for fear that you will insult her dignity and she will walk out after the supper is over with enough cold notions in her apron to feed a half dozen negroes, and if she chafes she will be back to cook breakfast, if not she will not.

There is one element of worthless negro men loafing around here stealing to keep up the negro woman and a lot of negro women robbing the pantries and smoke houses to keep a lot of worthless negro men in idleness. Between the two sources of robbery the town is about to go to the bad. Take the average negro woman who cooks, and if you refuse to allow her the unlimited possession of the keys to the pantry or smoke house you had just as well spit in her face.

We believe that the hour has come to regulate the servant and labor problem in this town and county. Labor as it is now is a burden and a menace to the good of the people who own the homes and the farms. It is expensive and unreliable.

We notice that the authorities of the central of Georgia railway are recognizing this fact, and their industrial agent, Mr. J. M. Mallory, is making an effort to import some other class of labor into this country, and asks if we want our shores to be swarmed by Italian and other kinds of labor to take the place of the negro. We hope that all those who are in need of labor, both for farm or house servants, will correspond with Mr. J. M. Mallory, at Savannah, and take this matter up. The negro is a successful laborer, and the one that suits this country, but he is prone to take advantage of the scarcity of labor and the slack manner in which it has been handled in this country until he has become an unbearable nuisance.

The Grip.

"Before we can sympathize with others, we must have suffered ourselves." No one can realize the suffering attendant upon an attack of the grip, unless he has had the actual experience. There is probably no disease that causes so much physical and mental agony, or which so successfully defies medical aid. All danger from the prompt use of Chamberlain's Cough Remedy. Among the tens of thousands who have used this remedy, not one case has ever been reported that has resulted in pneumonia or that has not recovered. For sale by all druggists.

Col. Dillingham Again Interests Large Audience.

Performs Wonderful Feat in Curing Eldridge (Bunk) Partin, the Well Known Farmer 3 Miles from Thomas County.

Col. Frank A. Dillingham's fourth lecture, entertainment and band concert took place on the court house square last evening. The weather was beautiful and the audience which greeted the great advertiser must have numbered over two thousand. "Once again he demonstrated his right to the title of the "Great Advertiser," by performing a most remarkable feat on Eldridge (Bunk) Partin, farmer, the popular and well known planter. Mr. Partin has suffered for over twenty years with partial deafness and ringing, roaring sounds and noises in the head, which caused him a great deal of worry and embarrassment.

Mr. Partin heard of the almost miraculous cures being made by Col. Dillingham and last evening came on the platform, when the great advertiser invited personal suffering from deafness, partial paralysis, stiff joints, headache, neuralgia and other aches and pains, to come on the platform and be cured free of charge.

Mr. Partin has been partially deaf for over twenty years and also was troubled a great deal with noises in the head. Col. Dillingham applied the Plant Juice Liniment to the deaf man's ear for about a minute. He then held his watch two inches distant from the deaf man's ear and Mr. Partin said he could hear it tick distinctly. Col. Dillingham then retreated a distance of about fifty feet and enquired: "Do you hear me?" A smile immediately illumined Mr. Partin's face and he instantly gave a cordial reception.

The entertainment last night was an excellent one. Col. Dillingham carrying with him some unusually good vaudeville artists.

The band concert as given in connection with the entertainment was very much appreciated.

Entertainment will start as usual this evening at 7 o'clock. The headquarters in front of the court house, where Col. Dillingham can be seen from 9 to 5, have been crowded ever since the opening night, as a great many people seem anxious to talk with the celebrated advertiser and are always
