Time For Parents To Look Out

It seems to us that it is now getting high time that parents in this town should look a little closer into the doing of their boys. Two instances have developed lately here to show that it is a general practice of the small boys to carry pistols. Only about ten days ago two little fellows who had been reading some trashy novels about daring deeds in the west got it into their heads to try their hand, slipped out their parents' pistol, and made a bold start "for Texas to shoot Indians." They got as far as Dover, got home sick—finding Texas farther away than they expected—and asked to be brought back home.

One afternoon this week two more were up before the mayor on the charge of firing off their pistols in the corporate limits and threatening the life of a citizen who happened to be passing along. These boys are all from the best of families in town. In every case they have good, Christian parents, but it seems that these parents know very little about the conduct of their boys when they are out of sight. They, too, are all pupils at the school here, and it would seem by this that they are not growing up in the proper way. These are only a very few instances of the daily conduct of these little fellows that have appeared on the surface. One thing this town needs as bad as anything else is a curfew law, to be effective 24 hours each and every day, and to be vigorously enforced every minute during that time, too. Aint it getting about time for parents to look this matter squarely in the face?

Colb's Triplets Were Too Much.

William Cobb, of Ulises, N. Y., is a foundry laborer at \$3.00 a week. He had a wife and five children. While Cobb was working in the foundry a few nights ago one of his children rushed in with news that the stork had brought a little girl. Soon came news of a second girl. Before he could get away from the foundry there came the announcement of a third—all girls. Then Cobb rushed to the telephone and called up the police station. He told the police that there was trouble at his house, and a squad of officers was sent to the home of the Cobbs and found it a place of pitiful squalor and distress. They expected to find burglars or a row of some sort, but instead they found only an old man in a panic, a woman dangerously ill and eight helpless children, the oldest 11 years old. The new-comers broke up the establishment. They and their mother were sent to a hospital, the other children were bundled off to an orphan asylum, and a dispatch says that as soon as the triplets are able to stand the move they will be sent to an infants' home and the mother will be sent to the county almshouse unless she can convince the authorities she can provide for herself. It is supposed the five older children will be farmed out, and as for the old man, the probability is that he will stick to his foundry, or perhaps find his way into some friendly lunatic asylum.

This is the disastrous result of living up to Roosevelt's anti-race suicide notions. It doesn't pay to take too much advice, even from Roosevelt.—Atlanta News.

IMPORTANT NOTICE TO PASSENGERS—SAVE MONEY

The Seaboard Air Line Railway gives notice that passengers boarding trains at stations where there are ticket agents, should in all cases purchase tickets, saving money by doing so. Effective Nov. 1st, 1905 conductors in Georgia and Alabama will collect four (4) cents per mile from passengers without tickets boarding trains at stations where there are ticket agents and when an opportunity has been afforded them to purchase tickets but who have neglected to avail themselves of such privileges. From non-agency stations where opportunity has not been afforded to purchase tickets, the conductor will only collect the ticket rate.

NOTICE

The school will open at Bird academy on Monday March 20th, 1906. All patrons are earnestly requested to be present, as important business is to be transacted.

A Fair For Georgia Negroes

Savannah, March 10.—The mass meeting of the colored people of Savannah, held at the First African Baptist church in the interest of the Georgia State Colored Agricultural and Industrial association, was great success. It was the first mass meeting held to promote the proposed fair. The number of shares subscribed at this meeting, together with those previously subscribed during the week, footed up as follows: Professors at the college, 180; Sister conference of Valdosta, 105; Subscription through Prof. Wright, 500; The mass meeting, 240.

Total shares, 981. The meeting was called to order by President Wright of Georgia.

President Wright in a most earnest speech advocated the fair and appealed to the Savannah colored people to seize the opportunity to make it a success. This was the principal speech. He spoke in part as follows:

"The colored people have been free now a little more than 40 years. It was probably Jan. 1, 1860, when most of the colored farmers began to farm for themselves as hands, croppers or renters, and practically none of them as owners of their own farms. At the end of this period of 40 years it is meet and proper we should take a sort of inventory of our little earnings and belongings, and I hardly think that it would be unmeet for us to make some little exhibition of what in a material way we have achieved in this time."

"Today the colored farmers of Georgia own 1,204,888 acres of land, valued at \$5,455,828. We have \$3,880,441 worth of horses, mules, cattle and stock of all kinds, and \$800,500 worth of plantation and mechanical tools. Counting city, county and all property, our colored people pay taxes on more than \$28,087,084. Now this, it must be admitted, is a pretty good showing for a poor, ignorant people who have had to give some attention to church building and to school going. Any one who scans the statement of property returned by colored taxpayers from 1880 to 1903 must be impressed with some idea of the desperate struggle which the colored people must have gone through with to raise their property from \$5,704,298 in 1880 to \$18,087,084 in 1904, which is an increase of over 300 per cent in this time."

The Bank of England

Covers four acres of the most valuable land in the world, and has a capital and surplus of over One Hundred Million (\$100,000,000.00) DOLLARS

The Bank of Metter, METTER, GA.

Is safer than the Bank of England, AND YOU ASK WHY?

First—Because its management is conservative and safe, and has an enormous financial backing.

Second—Because the deposits in the Bank of Metter are insured against loss just as your home is insured against fire.

And there are many other reasons.

700 Lbs. Good Candy CHEAP

We sell candy at 10c a pound that we use to have to pay 15c a pound for and sell it at 20c. All our competitors have to pay the same old price and sell at the same old price. We sell our candies now cheaper than any merchant in town can buy the same line of goods. On all 20c a pound candies we save you 10c now. We have twenty different kinds of high grade Chocolates and we were never in position to sell them for less than 40c to 50c a pound before, and we bought it as cheap as anybody could buy it from the people we bought from. We now sell you any of the 20 kinds at 20c a pound. If we don't save you 25c a pound on high grade Chocolates we will make you a present of a pound when you prove that we are mistaken. We have to buy one pound of our Chocolate and if you are not pleased just as well as only the makers and myself make any profit on it. Just order one pound of our Chocolate and if you are not pleased just as well as you would be with a 50c pound from any other store in town it don't cost you a cent. We only ask 20c a pound for it.

If you are pleased tell others. If you are not pleased tell us. We have a lot of North Carolina seed peanuts on hand. Get new seed and don't have so many pops in your pinders. RESPECTFULLY,

W. B. MARTIN.
