The announcement of the literary and sailing date of the Hon. William H. Taft's second great excursion to summer seas is awaited with increasing eagerness by many interested persons, remarks the New York Sun.

Enlarging the life of those condemned to blindness is one of the most appealing triumphs of modern thought, declares Collier's Weekly. It is one of the victories which most impressively point the human worth of science.

And boast in the field will give the young of his species an even chance in life, but it takes a man "created in the image of God" to grow fat off the sweat of little children and their mothers, declares the Coast Seamen's Journal.

The world's production of anthracite and bituminous coal in 1905 is estimated at 100 million tons, as against 973 million tons in 1903, which had been the record year. This country furnished almost two-fifths of the enormous supply of fuel.

The modern girl is all for being in evidence, for showing off, declares the Gentlewoman. With all her aspirations it is difficult to find a husband for her. Good-natured, simple young men are getting more and more afraid of the "girl of the period."

The Mint in Philadelphia is making a lot of money for Mexico as a matter of comity and not of profit. This is not usual, says the Philadelphia Record. The Mint is a manufacturing institution that will coin money for any nation that has the price.

It will create some surprise in this country that the English coast from the Thames to Plymouth is armed with 47 guns, which the Government has determined to replace with 6 and 9-inch guns. Our portable siege guns have a caliber of 5 inches; the new ones will be 4.7, but will fire a heavier shot than the old ones, continues the Philadelphia Record. The permanent fortifications along our coast are armed with 8, 10 and 12-inch guns, or are in process of being so armed, and a very large proportion of the guns are of the two larger calibers.

For years, observes the Indianapolis News, and even for centuries, men have criticized women for their supposed extravagance. Up to the present this charge of extravagance has been made by men, and pretty nearly by themselves alone. But now the women are themselves coming to the conclusion that they spend too much money for that which do not profit. Recently the Chicago Woman's club decided that "the most dangerous ailments from which woman today is suffering are the habit of extravagance in everything, prodigality in dress, love for the tacked and frilled existence, instead of praiseworthy devotion for the simple 'life'."

Owing to unusual scarcity of bait, cod fishing in Canadian waters has been very poor and the fishermen turned their attention to dogfish and have made fair wages. A ton of this fish, hitherto useless except as a fertilizer, is landed by two men in a short time, states the Coast Seamen's Journal. The present reduction works can not begin to take care of all the fish which are delivered daily. The consequence is that the fishermen can only fish a few days of the week. In addition to the deliveries of local fishermen at the reduction works, several schooner loads have been sent from Port Hood, Harbor au Bouche, Whitehead, and farther west. The manager has had his hands more than full in trying to handle all the fish that have been delivered. The Government is of the opinion that a market will be found for the canned dogfish, but will erect no more reduction plants until that question has been fully determined.

### A Shell From the War.

A singular accident occurred lately near Franklin, Tenn. A popular tree was cut down on the McDevitt farm and a tenant on the place put a stick of the wood on the fire in his householder when a tremendous explosion took place, mainly injuring a little negro. It was found to be a shell which had been fired by the Federals at the battle of Franklin 41 years ago and which had lodged in the tree without exploding—Jackson (Tenn.) Sun.

## WHEELER LAUDED

Great Host Attends Memorial Exercises in Atlanta.

CAME FROM ALL SECTIONS

Blue and Gray Veterans Join in Paying Loving Tribute to Premier Cavalry Leader, Who Fought Under Both Flags.

Old Confederates who had followed him in his whirling charges through the sixties; wearers of the blue who had striven against him through four long years of fraternal strife; young men still hale and strong who had served with him in Cuba—all gathered in Georgia's capital city Tuesday to do honor to the memory of "Fighting Joe" Wheeler. To Wheeler, when the passing of time and the healing of wounds had made comrades of the blue and the gray, President Roosevelt told the men of Wheeler's command, when he met them in Washington. "He was my comrade as well as yours," said the young man in Atlanta Tuesday, who were proud to have served with him against the Standards. "He was my comrade, too," said the faded wearers of the blue uniforms, their love and admiration of the great American cavalry leader shining strong and clear above the remembrance of the hard blows dealt on either side. Comrades—that was the word that gave the key to the whole occasion; and all Atlanta and all Georgia felt drawn towards the sons and daughters of the leader in a sense of comradeship and kinship.

The opera house was well filled when the exercises began, both the galleries and lower floor. To the left, as one entered, were seated the daughters of the Confederacy, who had from the first taken an important part in the Wheeler memorial exercises. The Sons and Veterans organizations occupied seats on the right.

Corporal Tanner, commander-in-chief of the Grand Army of the Republic, was present, and hobbled with Colonel John S. Peabody, commander of the local Wheeler camp. And they felt that they were comrades, too. It was a reunion in more senses of the word than the military one; in a most unusual sense indeed. Members of the command who had fought against each other from Bull Run to Appomattox fraternized, and fought their battles over again. Relatives who had fought in the opposing armies, officers who had vanquished or opening foes or had surrendered to them, men who had held one another captive in southern or in northern prisons, met together, as if around a camp fire, after years of peaceful pursuits, and talked it over. Met together, and testified once again that while mutual admiration survives like a flame, all hatred and all sectional feeling have been scattered and dissipated like ash.

Perhaps the greatest sadness was shown at the Kimball house, where the members of the Wheeler family were staying. All morning the lobby was filled with veterans. They called and paid their respects to the daughters of the great cavalry leader; exchanged reverent greetings and then withdrew, filled with emotion. The whole episode, which was to have been one of the main features of the occasion, with veterans of both armies of the civil war, veterans of the Spanish-American war, in line, was abandoned because of the weather.

All throughout the day veterans kept pouring into the city, to the number of many hundreds. They came from Washington, D. C. from Florida, Alabama, Tennessee, North and South Carolina, Virginia, Kentucky, Louisiana, Illinois, Missouri, Kansas, Arkansas, Oklahoma and from all sections of Georgia.

Asked for details of his marriage, Mr. Van Wyck smiled and said: "There are none. We were just married—that's all."

## AFTER PROMINENT GAME.

Report That District Attorney Jerome Has Drawn Warrants for Arrest of Cortelyou and Bliss.

At New York Tuesday morning, District Attorney Jerome appeared before Magistrate Moss in the Tombs police court and applied for warrants to be used in testing the legality of the contribution of insurance companies' funds to political campaign committees.

The name of no person was mentioned at the time. After listening to Mr. Jerome, Magistrate Moss said that before he would issue any warrant in the matter evidence would have to be presented that a crime had been committed.

To establish this evidence, Mr. Jerome asked for the issuance of a number of subpoenas in blank to be used in "John Doe" proceedings before the magistrate. Later in the day these subpoenas were issued. It was said at the district attorney's office that every effort will be made to get the proceedings under way at once.

When news that the warrants had been asked for became public, it was recalled that the names of Postmaster General Cortelyou, chairman of the republican national committee; Cornelius N. Bliss, treasurer of that organization; and George W. Perkins, formerly vice president of the New York Life Insurance company, had been mentioned by Mr. Jerome before Judge O'Sullivan in connection with the warrants.

In taking this action Tuesday, Mr. Jerome is carrying out the policy he announced before Justice O'Sullivan in the court of special sessions last week, when he defended the opinion he had previously rendered, that there had been no crime committed in connection with the campaign contributions. Justice O'Sullivan ruled, however, that if it could be shown there was an intent to defraud the rightful owners of the property, it was for the grand jury to say whether or not the case was one of larceny. He so instructed the grand jury, and urged the grand jurors to fearlessly investigate the matter and not to seek shelter in the face of an unpleasant duty.

### MADE "UNCLE JOE" TURN PALE.

Speaker of House Lambasted by Missouri Representative.

A Washington special says: The house Tuesday witnessed a most unusual scene, the speaker rising on the floor in the midst of a spirited discussion on reciprocity and tariff revision, and disclaiming responsibility for differences between minority members.

It was toward the close of the debate on the urgency deficiency bill, which appropriations, among other things, for the forthcoming conference at Rio Janeiro, when Mr. Shackelford of Missouri read a prepared statement regarding the language he intended to use when taken off the floor last week by Mr. Tawney. Mr. Shackelford said that the bill introduced by his colleague (Mr. Rhodes) to pension Missouri volunteers should pass. "We here, De Armond, Clark, Lloyd, Rucker, Hunt, Wood, Shackelford, all ready and anxious to vote for the measure."

Dana, Ind., Sept. 28, 1902.  
Gentlemen:—FOLEY'S HONEY AND TAR cured me of consumption after I had suffered two years and was almost desperate. Three physicians failed to give me any relief and the last one said he could do me no good. I tried almost every medicine I heard tell of without benefit until FOLEY'S HONEY AND TAR was recommended to me. Its effect right from the start was magical. I improved steadily from the first dose and am now sound and well, and think FOLEY'S HONEY AND TAR is a God-send to people with Throat and Lung Trouble.

## A NATIONAL ORDER

Formed by Blue and Gray at Atlanta Reunion.

GENERAL CARR PRESIDENT

Official Name is "Veterans' Association of the Blue and the Gray and Their Sons"—Reunion Closed With Love Feast.

General Julian S. Carr, U. C. V., of Durham, N. C., was Thursday morning made commander-in-chief of "The Veterans' Association of the Blue and the Gray and Their Sons," and the greatest enthusiasm that had been shown at any of the sessions of the Blue and Gray in Atlanta.

He was nominated by A. M. Clark of Southern Pines, in a ringing speech, and the veterans of the Blue and the Gray arose as one man to second the nomination almost before the name had passed the lips of the speaker. General Carr has been a prominent figure at this third meeting of the veterans of the sixties. He is a distinguished-looking gentleman, typically southern in manner and ready speaker. It is easy to understand that he would be loved for his great personal charm, even if he had not been entitled to all love and honor for his service to his country in the sixties, when, as a boy at the university, he closed his lexicon and shouldered arms for four years of warfare, and afterwards as a citizen when he grew into deserved prominence as lawyer, statesman and financier.

After the election of General Carr to the chief office of the new organization, the other elections followed. The quick succession of many veterans on both sides putting before the convention the names of men who had done valiant service on more than one battlefield during the sixties.

General Carr accepted his election in a voice filled with emotion and pride. "If I followed the dictates of my own heart, I should decline this honor," he said, "for I am only a private in the war of the sixties. I wore no stars on my collar, and no bars on my sleeves. However, comrades, I have never found it necessary to apologize for the lack of stars and bars, but I count it my proudest distinction that I was a Confederate soldier of the ranks—a private in Lee's army."

Captain A. M. Clarke, of Southern Pines, N. C. (federate), was made adjutant general; W. H. Conyers, Palatka, Fla. (federate), was made senior vice commander; D. P. Mull, Fitzgerald, Ga. (confederate), junior vice commander; R. E. Henry, Byron, New Haven, Conn., was made chaplain; Dr. H. A. Murphy, St. Petersburg, Fla. (confederate), was made surgeon general; W. H. Williams, Abbeville, Ga. (confederate), judge advocate; W. H. Marston, Fitzgerald, Ga. (federate), was made inspector general.

"The Veterans' Association of the Blue and the Gray and Their Sons" was decided upon as the official name of the organization.

Auxiliary organizations for wives and daughters were also arranged for. The following are the camps of the organization at present: Fitzgerald, Ga.; Atlanta, Ga.; Port Arthur, Texas; St. Petersburg, Fla.; Palatka, Fla.; Southern Pines, N. C.; New Haven, Conn.; was made chaplain; Dr. H. A. Murphy, St. Petersburg, Fla. (confederate), was made surgeon general; W. H. Williams, Abbeville, Ga. (confederate), judge advocate; W. H. Marston, Fitzgerald, Ga. (federate), was made inspector general.

After his death his heirs sought to recover the insurance money, and were awarded a verdict in the superior court. The transferees appealed the case to the supreme court, which has reversed the decision of the lower court.

**MISSISSIPPI LEGISLATIVE COMMITTEE**  
Knocks Out All Quarantine.

The Mississippi House appropriations committee has agreed to unfavorably report the appropriation bill for the state board of health.

The report of the committee will deny the health board a single cent, not even allowing the usual fund for quarantine purposes for the next two years. The committee simply took the bills between its teeth and the only explanation offered for the action is that Mississippi doesn't care for any more quarantines.

**MAISON CLUB ASKS COURT TO PREVENT**  
Negroes from Organizing.

At Macon, Ga., Tuesday, Judge Rogers deferred the hearing on the death against Richardson, Mason and Harle, convicted of having killed Mitchell and David C. Chalmers, four years ago, in order to collect insurance on their lives. They will be shot unless Governor Creel pardons them.

## WOMAN PRISONER KILLED

Deputy Sheriff's Pistol Fell From His Pocket and Bullet Pierced Brain of Mrs. Crabb.

Wednesday night on the Wrightsville and Tullahoma passenger train at Lovett, Ga., a pistol fell from the pocket of Deputy Sheriff John A. Walden, and was fired.

The ball entered the right eye of Mrs. Lorena Crabb, piercing the brain, and causing her death in about an hour. Mrs. Crabb was in the custody of the deputy, and a man by the name of E. M. Joiner was in the train with her. Joiner had Mrs. Crabb's satchel, and was going to the door of the coach with it. Walden caught the satchel and endeavored to prevent Joiner from taking it. In the scuffle the pistol fell from the pocket of the officer, with the above result. There were a number of people on the car, who testify that the killing was an accident, and was unavoidable.

Mrs. Crabb was arrested in Dublin on a warrant sworn out by Mrs. Wyatt, mother of the woman, who charged her with deserting her children. She was arrested on Wednesday by Sheriff Price, who placed her in charge of Walden, to be carried to Macon.

The woman died shortly after the train reached Macon. Joiner asked that she be placed in his custody, even after the officer refused to do this. The satchel which Joiner tried to take from the train contained a pistol and a box of cartridges.

No blame is attached to the officer, who was simply endeavoring to do his duty.

**HARLAN TO QUIT BENCH.**  
Promises to Resign from Supreme Court to Head Church Work.

The Washington Post says that Associate Justice John M. Harlan of the United States supreme court, announced to the officials of the New York Avenue and the Assembly Presbyterian churches, that if the latter would consolidate their efforts, would contribute giving \$25,000 as a nucleus for a fund to build a new building for the two consolidated churches, he would resign his position on the supreme bench to take personal charge of the work, and see that it is successful.

Thursday night the congregation of the Assembly church adopted a resolution to build with the New York Avenue church with provision for the \$25,000 to be used for the new church.

**STRIKE SEEMS IMMINENT.**  
Coal Operators and Miners Fall Again to Reach Agreement.

The joint meetings of the bituminous coal operators and miners of the central competitive districts composed of western Pennsylvania, Ohio, Indiana and Illinois, and of Missouri, Kansas, Texas, Arkansas, Oklahoma and Indian Territory, reached a final agreement at a meeting in Indianapolis Thursday on the wage scale to go into effect at the expiration of the present scale and the conference of the central district committee of the southwestern district decided to report a disagreement to the joint conference of that district.

**VICTORY FOR TRANSFERREES.**  
Supreme Court Passes Upon Sale of Life Insurance Policies.

A supreme court decision in an American, Ga., case rendered Thursday, has an important bearing in transferred life insurance policies. Prior to his death, a year ago, Thomas A. Allen, a transferred life insurance policyholder, had been transferred from the American, Ga., company to the American, Ga., company. The transferees appealed the case to the supreme court, which has reversed the decision of the lower court.

**NO CASH FOR HEALTH BOARD.**  
Mississippi Legislative Committee Knocks Out All Quarantine.

The Mississippi House appropriations committee has agreed to unfavorably report the appropriation bill for the state board of health.

The report of the committee will deny the health board a single cent, not even allowing the usual fund for quarantine purposes for the next two years. # THE STATESBORO NEWS.

STATESBORO, GA., TUESDAY, APRIL 10, 1906

VOL. 6, NO. 5

Mr. O. B. Griner having just returned from Oronoke island states that there is not a single Hoke Smith advocate on the entire island. Hoke ought to go down there and listen to the wild waves beat against the rocks on the shore.

Mr. S. L. Bowen, of Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed, and when I did I could not stand straight. I took Foley's Kidney Cure. One dollar bottle any part of the second cured me entirely." Foley's Kidney Cure works wonders where others are total failures. Sold by W. H. Ellis.

A gentleman returning from Augusta, where he has been a student in the August Medical College, where are hundreds of young men there as students from all over the State, and this gentleman informed us that at least two to one were for Clark Howell for governor, but he believed that Richmond county would go for Estill as it did before.

A lady writes: "I have been a sufferer from Dr. King's New Life Pills to be the best remedy she ever tried to keep the stomach, liver and bowels in perfect order. You'll agree with her if you try this painless purifier that infuse new life. Guaranteed by W. H. Ellis, druggist. Price 25c.

The Hoke Smith club of Bibb county still numbers 84 and the Howell club more than 1,000. These little straws show how things are going in Georgia.

Human Blood Markers. A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant of Bro. Ky. He writes: "Twenty years ago I had severe hemorrhages, of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." It cures hemorrhages, Chronic Coughs, Stuffed Colds and Bronchitis, and is the only known cure for weak lungs. Every bottle guaranteed by W. H. Ellis, Druggist. 50c and \$1.00. Trial bottle free.

A club of several hundred members was formed in Atlanta to further the interests of Hon. Clark Howell, for governor, one day during the past week. By the way, Hoke Smith has not accepted the challenge made to him by Mr. Howell, yet, to the effect that if he couldn't beat Smith two to one he is in his home county, he would get out of the race. We keep on saying it, that the place for a man to show strength is the place where the folks know him best.

Devil's Island Torture is no worse than the terrible case of Piles that afflicted me 10 years. Then I was advised to apply Bucken's Arnica Salve, and less than a box permanently cured me, writes L. S. Napier, of Rugeley, Ky. Heals all wounds, Burns and Sores like magic. 25c at W. H. Ellis druggist.

Hon. Clark Howell, candidate for governor, addressed the people of Reidsville, in the court house yesterday, and was given a rousing reception by the people. The race in Tattnall is between Howell and Estill. The Hoke Smith sentiment over there seems to be rapidly dying out.

FOLEY'S HONEY AND TAR  
For children's safe, sure, no opiates

Howell Wins in Tift.

The first real test of the campaign was made in the primary in Tift county on Friday. A prominent gentleman of that county, being no less a personage than the mayor of that city of Tifton, ran for representative on the Hoke Smith franchise platform, and against him ran a man named Bowen who was a Howell supporter. The report from the primary held there on Friday gives Bowen a majority of 263 over the Hoke Smith candidate. This is only a straw pointing to the way things are going in Georgia. There is more wind about the Hoke Smith boom than anything else. The boom has been pretty well punctured and the wind is losing rapidly, after which said boom will only be a sad memory.

Sun Brothers Circus Coming Again.

Mr. C. S. Clarke, advance agent for Sun Brothers' circus, was in the city one day during the past week to arrange details for their big circus to exhibit here again this spring. This same show was here last April, and the News is free to say that it was the best one that has ever struck Statesboro. We are assured that there will be no gambling allowed and that the show is much improved since it was here. It was witnessed by several thousand people when it was here last spring and we have yet to hear of a single kick that has been made here against it. The date fixed for the show is April 17th. In all probability there will be a big crowd here on that occasion.

A Card.

It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe, coughs, and prevents pneumonia and consumption. Contains no opiates. Refuse substitutes. Sold by W. H. ## The Better Way

The tissues of the throat are inflamed and irritated; you cough, and there is more irritation—more coughing. You take a cough mixture and it eases the irritation—for a while. You take

## SCOTT'S EMULSION

and it cures the cold. That's what is necessary. It soothes the throat because it reduces the irritation; cures the cold because it drives out the inflammation; builds up the weakened tissues because it nourishes them back to their natural strength. That's how Scott's Emulsion deals with a sore throat, a cough, a cold, or bronchitis.

PUBLIC ACKNOWLEDGMENT

By a User of Plant Juice.

Who Tells of its Wonderful Effect.

Another gentleman comes forward to testify to the wonderful result obtained from taking Plant Juice. He says by saying that his wife had been ill more than five years, that he had spent hundreds of dollars for medicines and medical treatment, all to no purpose, and she gradually declined until he had almost given up hope of her recovery. Ten days ago he heard of the Plant Juice remedies sold by Col. Dillingham and he decided to try the treatment.

He bought one bottle of Plant Juice and he prevailed upon his wife to try it. She willingly did so, but with the usual misgivings created by the continual failures of all other medicines she had taken in the last seven years. A few doses seemed to give her relief. She kept up the treatment and each day her condition improved. She had grown better each day since she began taking the Plant Juice and Mr. Franklin stated that she was then in better health than she had been for six years. It could have been no other medicine than Plant Juice that brought about the relief, for she had taken nothing else. Mr. Franklin wanted the public to know the good Plant Juice had accomplished for his wife, and he took this occasion to publicly acknowledge its efficacy, and he thanked Col. Dillingham with all his heart for his good fortune in having sufficient faith in the remedies to give it a trial.

Mr. Franklin spoke with great earnestness in telling his experience with Plant Juice and took occasion to say that if all people were as frank as he to acknowledge the true result of the treatment of Plant Juice, there would be less suffering among the people and more of them would be happy.

Will Have to Add to School Building. We are informed that there is considerable agitation in the city over the best means to provide more room for the school. A few years ago when the present building was erected it was thought that ample arrangement had been made for years to come, but now we are confronted with the spectacle of a crowded building, one not sufficient to hold the children of the town who, in point of necessity, have to go there to school. One plan is to build another building on the same lot for the more advanced grades; another plan is to add a few rooms to the building we already have, and another is to build a separate building in another part of the city. This would necessarily be built in north Statesboro. The latter plan has been adopted by Dublin and other cities where they have found one building too small.

RAWLINGS CUT BOLT FROM PATCH IN CELL.

Valdosta, Ga., April 7.—An attempt to escape from the county jail by the pickpockets who were convicted some time ago and the famous Rawlings, father and son under death sentence for the murder of the Carter children, was discovered and frustrated this morning. The prisoners had sawed the bolts in two which held in place a patch in the cell and in a few hours longer would have effected their escape from the jail.

The prisoners claim that they secured the saws from the tool kit of a plumber who has been working in the jail, but it is believed that they were furnished them in some manner by parties on the outside. Two saws were found in the cell.

Brown-McElveen.

Wednesday, April 14, 1906 was an ideal day for the solemnization of marriage. All nature rejoiced in the glory of a glad spring day—the type of what should be the result of a union actuated by the mightiest passion of the soul—love.

On this day Miss Beale Brown, of Stillson, and Dr. J. M. McElveen, of Brooklet, were joined together in holy wedlock, pompously at the appointed time, Mendelsohn's wedding march pealed forth in all its beauty, and Miss Mattie Brown and Mr. R. H. Warnock entered the room, followed by Miss Fannie Floyd with Mr. Rufus Brown. Then cometh the bride leaning on the arm of the groom. They stood beneath a canopy of bride's wreaths, while the Rev. T. J. Cobb pronounced the words that made them husband and wife. The bride was beautifully arrayed in a white silk, and carried a bouquet of carnations and bride's roses in her hand.

The presents were many and valuable as well as useful. The wedding feast compares with any ever had in Bulloch county. The bride is the youngest daughter of Mr. and Mrs. Z. Brown. She possesses many excellent traits of character that render her ideal wife for a good husband; she is also accomplished, but has never been allowed to lose sight of the practical side of life. The groom though young, is already recognized as one of the leading physicians of the county. By a conscientious devotion to duty, he has proven himself worthy of the noble wife of his choice.

They left immediately on the special train for Oculer where they boarded the train for a bride's tour. The entire number of guests accompanied them as far as Oculer, and the special train returned to Statesboro that night. May their wedded life be one glad, sweet song of love. May Heaven's choicest blessings be theirs till some bright, shining angel shall one day bid them to the "marriage feast of the Lamb." One Present.

Brown-Hatton.

The marriage of Miss Edna Lucille Brown, of McRae, and Mr. Nathan Scott Hatton, of Brooksville, Fla., took place at the home of the bride on the morning of April 1st. It was a quiet but beautiful affair, to which only a few intimate friends and relatives were invited.

The pretty cottage on College street was made unusually attractive for the occasion. Many growing plants and bowls of fresh-cut flowers were used in all the rooms and halls. The west corner
