## Bowen's Guano Distributor

Is the latest and most successful machine of its kind ever used for distributing commercial fertilizers.

It is provided with all the attachments necessary to produce a complete Distributor; being attached to the Planet Jr. cultivator, which is still a cultivator endorsed by the leading farmers of the world.

**The Bowen Distributor** has many advantages over the average distributor, among which only a few are mentioned here:

1st. In covering the fertilizer, it makes a bed any width from 9 to 25 inches wide, and any height desired.

2nd. The hopper holds more than the average machine, hence it is not so often filled.

3rd. It distributes the fertilizer more regularly than other machines, because the bottom of the hopper is wider, and the outlet larger than that of other machines.

4th. It is the only machine on the market that distributes all brands of commercial fertilizers, whether dry or moist, with an even distribution. Being a knocking machine, it prevents the guano from adhering to the bottom of the hopper, which causes an irregular feeding. The hopper is so constructed as to cause the guano to feed from the center, thereby feeding with the same uniformity when almost empty as when full.

**TESTIMONIALS:**

W. G. Rines, Statesboro, Ga., says: I have sold your Guano Distributor two seasons and have not had a kick. I consider them O. K.

H. J. J. E. Anderson has used these Distributors and recommends them to the farmers of Bulloch county as the best guano distributor to be had.

We also have testimonials from others who have used and recommend these Distributors as follows: J. P. O'Neil, Register; J. W. Williams, Advertiser; M. J. Greene, Journal; W. L. Street, Register; E. B. Simmons, Statesboro.

**Circuit Rally**

And Three Days Meeting at Harville Church, April 27-29, Closing Sunday Afternoon.

Rev. R. S. Stewart, pastor of Bulloch circuit, assisted by Revs. W. R. Hanson and F. L. Stokes, will conduct a three days' meeting at Harville church, beginning Friday, April 27th and closing Sunday afternoon, April 29th.

The meeting will be a special revival effort, and also a circuit rally, seeking preparation for a year of special revival progress, and a forward movement on all lines of church life.

Dinner will be served on the grounds, but it is especially desired that the ladies will bring only plain food and let the feasting be a spiritual one, and not of a kind to hinder worship.

Friends of all evangelical denominations are cordially invited to enjoy these meetings with us, and to assist in setting the standard for better things this year.

**Human Blood Marks.**

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant of Metter, Ky. He writes: "Twenty years ago I had severe hemorrhages, of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." It cures hemorrhages, Chronic Coughs, Settled Colds and Bronchitis, and is the only known cure for weak lungs. Every bottle guaranteed by W. H. H. Ellis, Druggist, \$50 and \$1.00. Trial bottle free.

**NOTICE.**

All persons having purchased guano from the undersigned are requested to meet us in Statesboro, Monday or Tuesday, at Superior court and take up their notes for same.

S. C. Allen, M. M. Donaldson.

## To The Public.

We are pleased to state to the public that we have arranged with The Kalamazoo Corset Co., of Kalamazoo, Mich., for a special demonstration of the "American Beauty" corsets, which are manufactured by them, to be held at our store for one week, and one of their most experienced demonstrators, Miss Perrin of Kalamazoo, will be with us during the week beginning next Monday, 9th, inst.

We will appreciate it very much if you will do us the kindness to call on this young lady, at our store, sometime during the coming week, and whether you are ready to buy such goods at this time or not, we believe your visit will be beneficial to you.

## Doings In The Local Field

The infant of Mr. Mrs. Dempse Rice was buried at Bethlehem cemetery on last Thursday. We failed to learn of the cause of its death.

Little girls, get everybody you can to buy one dollar's worth of Millinery from Mrs. J. E. Bowen and give you their draw on that large doll in the show window at J. E. Bowen's jewelry store.

Mr. John Harris, of Tennille, is visiting his brother-in-law, Mr. E. M. Anderson, this week. Mr. Harris has been in bad health for some time.

Statesboro was treated to a beautiful Easter on Sunday. All the girls were out to show their pretty dresses and hats. The stores had a great week the few days preceding Easter but no greater than usual.

Messrs. J. T. Allen and J. I. Spence have both had some pretty sick children for the past week.

If you want a nice, pretty Easter hat go to Mrs. J. E. Bowen's.

Mr. Cecil Gabbett came down from Swainsboro on Friday and spent the day in the city.

They are catching some fine fish out at the Biggs old mill now.

Mr. Henry Pelot is back from Milledgeville where he has been in the sanitarium for about a year. Henry seems to be perfectly cured.

Sick headache results from a derangement of the stomach and is cured by Chamberlain's Stomach and Liver Tablets. Sold by All Druggists.

Col. W. M. Olliff, of Folkston, came up on Sunday to visit his mother, who is quite sick at her home about four miles west of the city.

See Mrs. J. E. Bowen for your spring Millinery. She has a fine line of ready-to-wear and fancy trimmed hats—the cheapest you ever heard of. Ask for your draw on the doll.

Mr. W. H. Blitch left on Saturday for New York where he goes on a business trip.

Don't drug the stomach to cure a cough. One Minute Cough Cure cuts the mucus, draws the inflammation out of the throat, lungs and bronchial tubes, heals sooths and cures. A quick cure for cough and whooping cough. Its constantly increasing use for many years tells of the fact of its absolute usefulness. Sold by W. H. H. Ellis.

Rev. and Mrs. H. E. Clarke, of Atlanta, were guests of Mrs. R. H. Brown, the past week.

Mr. Remer Brown came down from Swainsboro Sunday and spent the day with his family.

Today the big Sun Brothers' show will be in the city. They will make two performances, one two o'clock and the other at eight to night. If we are to judge by past experience we may expect a thundering big crowd of folks in town today. The men, of course, won't come to the show themselves, they will have "other business in town, and then Salie and the children wanted to see the circus and they just came along to please the old lady and the children.

**Col. T. S. Morgan to Speak Here.**

It is announced that Hon. T. S. Morgan, of Savannah, will address the voters of the county some time during next week, in the interest of Col. J. H. Estill for Governor. Col. Morgan is one of the best orators in the state and what he has to say will be interesting.

**Estill Spoke at Reidsville.**

Col. J. H. Estill, candidate for Governor of Georgia discussed the issues involved in the gubernatorial campaign at Reidsville Monday at noon.

Col. Estill was listened to by a large crowd and he entertained them without saying that the state is in a deplorable condition and you people must elect me governor in order to save the state, but on the other hand he said as most of fair minded men do that the state of Georgia is in a more prosperous condition today than it was yesterday and will be more prosperous tomorrow than it is today.

The Times is not a supporter of Mr. Estill, but God knows that we do like to hear a man tell the truth who is asking the people for the highest office in their gift.

Col. Estill is a conservative man and would make a splendid governor. He was given that warm welcome that Tattall's people always give everyone.

**An Insidious Danger.**

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney cure as the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. Sold by W. H. H. Ellis.

**Mr. and Mrs. J. F. Sands laid to Rest.**

Mr. and Mrs. James F. Sands of near Daisy were laid to rest side by side in a brick vault in the Sands' Field cemetery last Thursday afternoon at three o'clock in presence of a large audience.

Mrs. Sands had been very ill for several months and her death was not a surprise to her relatives and close friends, but it seems like the shock from a stroke of prayer that struck Mr. Sands a day or two before her death was the cause of her dying so suddenly.

Mrs. Sands died last Thursday night about nine o'clock.

Mr. Sands who was struck with a stroke of paralysis last Monday morning, a week ago, was confined to his bed from Monday until Wednesday night, where he died about twelve o'clock.

Mr. and Mrs. Sands had lived happily together for about fifty-one years and were the parents of seven children: Mrs. Lanier, Bid and Luther Sands, Mrs. Dunham, deceased, Mrs. Vee Iler, Mrs. Iler and Miss Beanie Sands. The bereaved children, relatives and friends have the sympathy of the Times.—Tattall Times.

**Get Ready For Spring.**

Living indoors so much during the winter months creates a sort of stuffy, woody condition in the blood and system generally. Clean up and get ready for spring. Take a few Early Risers. These famous little pills cleanse the liver, stomach and bowels and give the blood a chance to purify itself. They relieve headache, yellow complexion, etc. Sold by W. H. H. Ellis.

The Atlanta Journal states that they cheered Hoke Smith so loudly up at Ellaville the other day that the horses and mules got scared and tore loose and ran away. Mr. Smith also spoke in Butler the other day and that night the town caught on fire and was burned up. If Hoke Smith is doing so much as all this by just preaching reform what will happen if he should be elected and put some of it in practice.

## EARTHQUAKES AND FIRE IN SAN FRANCISCO.

### 2000 Lives Lost and Thousands of Persons Injured.

### Half of City, Including Business Section, in Ruins.

### Unable to Cope With the Flames.

San Francisco, Apr. 18.—Earthquakes and fire to day have put nearly half of San Francisco in ruins.

At least 2,000 persons have been killed and a thousand injured, and the property loss will exceed \$100,000,000.

Thousands are homeless and destitute, and all day long streams of people have been flowing from the stricken districts to places of safety.

At 5:18 o'clock this morning a terrific earthquake shook the whole city and surrounding country. One shock apparently lasted two minutes, and there was an almost immediate collapse of flimsy structures all over the city.

The water supply was cut off, and when fire broke out in various sections there was nothing to do but let the buildings burn.

Telephone and telegraph communication was cut off for a time. The Western Union was put completely out of business, and the Postal Company was the only company that managed to get a wire out of the city. About 10 o'clock even the Postal was forced to suspend.

Electric power was stopped and street cars did not run.

Railroads and ferryboats ceased operations.

Fires have been raging all day, and the fire department has been powerless to do anything except dynamite buildings threatened. All day long explosions have shaken the city and added terror to the inhabitants.

Following the first shock there was another within five minutes, but not nearly so severe. Three hours later there was another slight quake.

Reports from districts outside of San Francisco indicate widespread damage. San Jose, fifty miles south, lost many buildings and from fifteen to twenty persons were killed. The annex of the Vendome hotel collapsed and fire broke out.

Stanford university and Palo Alto suffered greatly. At Stanford many of the handsome buildings were demolished and two persons were killed, and six were injured.

At Redwood city the court house and other buildings collapsed.

Menton Park, Burlingame and other fashionable places suffered greatly.

The greatest destruction occurred in that part of the city which was reclaimed from San Francisco bay. Much of the devastated district was at one time low, marshy ground, covered by water at high tide. The Merchants Exchange building, a fourteen-story steel structure was situated on the edge of this reclaimed ground. It had just been com-

pleted, and the executive offices of the Southern Pacific company occupied the greater portion of the building.

**\$2,500,000 Loss at Salinas.**

Salinas, Cal., April 18.—At 5:15 this morning three shocks of earthquake shook Salinas, lasting respectively, five, three and forty-two seconds. They came from the northeast and southwest.

The damage is \$2,500,000. No lives were lost in Salinas. A. Armstrong of Santa Cruz jumping from the window of the Jeffery House and broke a leg.

Every window in the city was broken. Chimneys toppled over and crashed through roofs. Spreckels' sugar factory, three miles from town, was destroyed, causing damage of \$1,500,000.

The high school building was wrecked. Several stores lost their entire stocks.

At 2:25 o'clock this afternoon another shock was experienced, but no lives were lost. Several men, women and children were cut about the face by flying glass.

There is intense excitement. Salinas is cut off from wire communication with San Francisco, 118 miles north.

At Watsonville the Moreland Academy was destroyed by fire and several buildings collapsed.

At Monterey and Pacific Grove there was a slight shock that caused little damage.

At the Delmonico Hotel three chimneys fell through the roof, killing a bride and a and a hotel servant, and injuring several other persons.

At Hollister, Grangers' Union Warehouse was destroyed, Mrs. Griffith was killed and her husband became crazed on account of the shock.

**Four Thieves Executed.**

San Francisco, April 18.—Mayor Schmitz was about early and took measures for the relief and protection of the city. Gen. Funston was quickly communicated with and by 9 o'clock, 1,000 federal soldiers were guarding the streets and assisting the firemen in dynamiting.

Gen. Funston realized that stern measures were necessary and gave orders that looters were to be shot at sight. Four men were summarily executed before 8 o'clock this afternoon.

At a meeting of fifty citizens, called by the Mayor, it was announced that 1,400 tents would be pitched in Golden Gate Park, and that arrangements had been made to feed the destitute in public squares.

**San Mateo Flooded.**

San Francisco, April 18.—As a result of the breaking of the maine of the Spring Valley Water Company, the town of San Mateo was flooded. It was owing to the broken main that the fire gained such headway in the city.

The town of San Rafael, despite its own troubles, dispatched fire fighting apparatus to San Francisco.

From early morning the offices of the Western Union and Postal telegraph companies in Oakland have been filled with people in all walks of life, filing messages of inquiry as to the condition of friends and interests in other cities of California from the earthquake shock.

**Latest.** The latest reports from San Francisco is that the entire city of half a million people is being wiped off the face of the map. The flames are raging and the water pipes are all burst leaving the people at the mercy of the ravages of the flames.

20,000 people are killed and 200,000 homeless; in fact, the entire city is gone. San Francisco was the ninth largest city in the world. Today it is erased from the map.

**Jim Free Dead.**

The relatives of Jim Free were notified this week that he had died the 28th day of last July in the penitentiary near Albany, Ga., where he was serving a twelve year sentence, convicted of assault upon a nine year old negro girl. The family here had written letters to him and having no reply for so long they made inquiry why it was that young Free had failed to reply to the letters from his relatives, this brought out the information that Free was long since dead.

It seems rather strange that the officials should fail to notify the folks of his death. It is claimed that he died of fever. The officials of the camp report that he was a hard worker and gave the keeper no trouble. He had served out less than two years of his term when he died.

**NOTICE.**

All parties who bought fertilizer from me and want to save cash discount must settle by May 1st.

W. S. Prectorius.

**Entertainment.**

The entertainment given at the Register academy on the 18th, was a grand success. The program rendered consisted of songs, recitations, etc., and reflected much credit upon teachers and pupils.

**Will Speak Wednesday.**

Since going to press we are informed that Col. J. H. Estill and Col. T. S. Morgan, Jr., will address the voters of Bulloch on Wednesday instead of Monday as announced in another column.

**A Beautiful Sight.**

Last Sunday morning at the Methodist church one of the prettiest sights was presented that has been seen in Statesboro in many a day. In addition to the beautiful Easter services was the Baptism of forty-four applicants for membership in the church as a result of the revival conducted by Rev. Mr. Baas, of Macon, and assisted by the pastor, Rev. Mr. MacDonell.

Sunday night four members were added to the Baptist church as a result of the revival at the Methodist church.

## CANDIDATES GALORE.

### Three Gubernatorial Aspirants,

### Address Voters of County, in Statesboro, Next Monday.

There will be something doing in Statesboro next Monday, as the following correspondence, which speaks for itself, shows.

We are to have the following named gentlemen—candidates for gubernatorial honors—here, who will address the voters: Hon. Clark Howell, Judge R. B. Russell and Col. J. H. Estill. It is not announced that Col. Estill will speak himself, but a letter from him states that he will be here, and the letter from Col. T. S. Morgan states that the latter will be here and speak in Col. Estill's behalf.

Headquarters Howell Campaign Committee, Atlanta, Apr. 17th.

Mr. J. R. Miller, Statesboro, Ga.: Dear Sir:—Yours received in regard to railroad rates to and from Statesboro. Mr. Howell will be in Statesboro and address the voters on Monday, April 23rd. In his name I thank his friends in Bulloch for the reception they are arranging for him.

John T. Bouffelalet.

Office of Richard B. Russell, Judge Sup'r Ct West'n Ct, Winster, Ga., April 17th.

J. R. Miller, Statesboro, Ga.: Dear Sir:—It is my purpose to address the citizens of Bulloch county at the noon hour of court on Monday, April 23rd, and I would thank you to give such currency to the announcement in your paper and otherwise as you think proper.

I appreciate very much your kind suggestions made to me during the state fair, and I promised you that I would visit Statesboro during the campaign so as to present to your citizens my position on public questions.

I am very busily engaged speaking in all sections of the state, and as I have no big rallies to bolster up my campaign I have to meet the people face to face. Anything that you may do in the premises will be very much valued by me. Trusting that I may have the pleasure of seeing you when I visit your city, I remain,

Yours very truly,

Rich'd B. Russell.

Swainsboro, April 18th.

Dear Mr. Miller:—Will you be good enough to announce in your paper that I will address the people of Bulloch in behalf of Col. J. H. Estill, on Monday, 23rd, at Statesboro, and oblige.

Yours respectfully,

Thos. S. Morgan, Jr.

These gentlemen have each set that day, probably, without the knowledge that the others had done the same thing. As it will be utterly impossible for all these gentlemen to be heard on one day, their friends here are trying to arrange it so that all but one will postpone until another day, perhaps later in the week. All of them have friends here and the people will be glad to hear what they all have to say, but they cannot hear all of them in one day.

Mr. Howell was the first one to announce the date of Monday

and he will probably be the man on that day. Judge Russell is one of the best stump speakers in the state and his address will be well worth listening to. In his letter he refers to having met the editor of the News at the state fair. It was then that we told him the people of the county would be pleased to hear him, and we hope that he will have a crowd to hear him when he comes, whether it be Monday or some other day. In his race for supreme court judge a few years ago, he went into the race practically unknown and against one of the strongest men in the state, and yet it is to Judge Russell's credit that he carried absolutely every county that he spoke in. He is a power on the stump and has succeeded in getting three joint debates with Hoke Smith by walking up and demanding a division of time, and forcing the man who professed to be "ap'lin" for a "jint" ap'ute, to accept or back down. Russell is a good one and we will be glad to have him with us.

It was at first announced that Col. Estill would speak here on Wednesday, but we see that the date has been changed to Monday. Just why this was done we cannot say. This matter will probably be arranged also. Col. Estill has a strong support in Bulloch. This county gave him a large majority before and the man who says that Estill is not to be reckoned with in Bulloch doesn't know what he is talking about. He is the south Georgia candidate, the only man running from a section of the state that has not been represented in the past 84 years. Col. T. S. Morgan, who is so well and favorably known here, will speak for him, and that insures a fine speech. All that we can tell you now is that all these gentlemen are announced to be here. Just how it will be arranged between their friends remains to be seen.

**AUCTION SALE**

On next Monday, the first day of court, I will have sold at public outcry, on court house square, one Jersey cow and calf, to the highest bidder for cash (Mrs.) R. H. Brown

**Will Give Howell A Cordial Reception.**

The friends of Hon. Clark Howell are preparing to give him a cordial reception on his visit to Statesboro next Monday.

Mr. Howell will come on the train via Stillmore, and he will be escorted to the Jackel hotel, where he will be entertained while here. He comes in response to an invitation signed by more than 400 Bulloch county voters, who are his friends here, most of whom live in the court house district. While he has a strong support in other sections of the county it was not convenient to reach them with the paper for their signatures in such a short time.

He will deliver an address to the voters of the county at the noon hour of court in the court room. He will begin speaking at 1 o'clock. The people are invited to come out to hear him. The ladies are especially invited to attend, and while there will be no desire to pack the room with school children of tender age, yet if there are any of the pupils who may desire to hear Mr. Howell, an invitation is extended to them.

The speaker will be introduced by either Judge John F. Brannen or Judge S. L. Moore, both of these gentlemen being enthusiastic supporters of Mr. Howell. The following committee on reception has been appointed:

G. S. Johnston, Howell Cone, J. W. Wilson, John F. Brannen, Hinton Booth, J. C. Strickland, S. Landrum George, J. R. Miller, Brooks Simmons, Eld. M. F. Stubbs, S. L. Moore, J. E. McGrover, T. J. Denmark, D. R. Trappell, S. J. Crouch, R. F. Donaldson, Dr. A. J. Moore, Dr. B. L. Durence, J. L. Caruthers, S. C. Groover, C. B. Griner and A. F. Morris.

**FISH!**

We have Shad and Mullet every day when we can get them. We are getting some large rock shad from Ogeechee river. We have Oysters when the weather is cold enough to keep them.

What is better than a good mess of FISH?

## THE NEWS.

Published at Statesboro, Ga.  
TUESDAYS AND FRIDAYS.

By The Statesboro News Publishing Co.

A Pittsburg man claims that he can make his hair fall by the use of electricity. Shouldn't?

How we have to talk of the wonderful things we have not done. The reason for this is that nothing is wonderful after it has been done.

A biologist prescribes a pound of candy or a dose of cooking soda for "that tired feeling." The young American will know which prescription to take.

It is to be hoped that the news that an American cricket player is receiving \$1500 a week in Paris won't start the man next door to practicing here after double time.

Mr. Carnegie says that millionaires who laugh are rare. It is quite possible that Mr. Rockefeller knew this and, wanting to laugh, only once became rare but disappeared altogether.

Lots of people are poor to-day because they didn't know what was going to happen in 1903. Lots more will become poor because they think they know what will happen in 1904.

The announcement that the Pennsylvania Railway Company is preparing to go away with steam engines and use electric motors exclusively, throughout its extensive system, presages the end of the age of steam and the coming triumph of electricity. The statement may seem startling at first, but as a matter of fact the railroads have been experimenting with electric engines for some time and their eventual use was a foregone conclusion. Not only in the matter of speed but in every other respect electricity has the advantage over steam as a motive power.

It is surprising how many people there are in this world who want to increase the discomforts of life. There is always bobbing up some professor or propagandist who informs us that everything we have ever done is wrong and that the only road to physical salvation is to follow his own schedule. And now comes a man from Chicago and tells us that we must not eat soup, pie, puddings and cold meats, except ham, and apparently most persons eat more than is good for them and it is certain that, generally speaking, food is not well cooked. But to lay down a law for the human race is absurd.

The idea that has prevailed up to a very recent date that organic life does not exist at great depths in the ocean, has been exploded by late scientific investigation. As a matter of fact, the pressure of water is so great that ordinary articles of wood are compressed to half their original size if lowered to a depth of three thousand feet. If a human being were suddenly exposed to the pressure of water at that depth he would be compressed to the thinness of paper. A diver at the depth of ten thousand feet would have weight upon him equal to several hundred of the grooves and heaviest locomotives. There are depressions very much deeper, however, and soundings have been made establishing depths of more than twenty-two thousand feet near the Island of St. Thomas in the Atlantic, and of almost twenty-seven thousand feet near the Japanese coast.

Dr. Stondon Hooker, who has applied the blind test ray discoveries to problems of food, explains in the London Express how the colored rays that surround every human being are affected by a "red-hot diet" meaning a diet without meat. There are some visible changes, such as "shrinkage of the features." The face becomes "smaller but more beautiful," a fact which might incline persons with large and unattractive faces to vegetarianism. The eye becomes brighter, the step more elastic, the brain quicker. But perhaps the most remarkable discovery of Dr. Hooker is that the man who is "living a gross life"—i. e., eating meat—comes from deep red to chocolate, while the "red-hot diet" man will generate cheerful rays of lighter red, or, if he is very refined, of yellow. If Dr. Hooker's view becomes general, suggests the New York World, the man who now complains that dark-brown tans in his mouth next day will gleefully announce instead that he is surrounded by dark-brown rays.

## GEORGIA BRIEFS

Bond Issue Voted by Dawson.

Dawson citizens voted the past week in favor of an issue of \$25,000 5 per cent bonds for a sewerage system. A total of 289 votes was cast, only 41 being against the bonds.

Telephones for Farmers.

A number of private telephone lines are being built in Harris county, which is the Hamilton Telephone company. A line has already been built down the Hamilton road from the Harris county capital to within a few miles of Columbus.

Four Years for Parks.

J. S. Parks, charged with the murder of W. H. Brooks, near Moleana, January 8, last, was found guilty by the jury of the relations between the court, and sentenced to four years in the penitentiary. The jury was out about twenty hours. A motion for new trial was made and the defense allowed to give bond in the sum of \$1,000, which he promptly did.

Bond Issue for Good Roads.

The grand jury of Carroll county, which has adjourned, returned the following in the proceedings: We recommend that a \$25,000 bond issue be made by Carroll county for the purpose of building and improving the public highways.

Chancellor Election Postponed.

The board of trustees of the University, at its meeting in Athens the past week, postponed the election of chancellor until the regular meeting in June.

Professor A. T. Akerman of Massachusetts was elected to the chair of forestry, to fill the George Foster chair of forestry. He is an alumnus of the university. After transacting routine business the board adjourned. Fourteen of the 21 members were present.

Great Power Plant Proposed.

The Shoals Milling company at Washington have petitioned the Wilkes county superior court for the privilege of changing the name of the corporation to that of Anthony Shoals power company, and also for the privilege of increasing the capital stock from \$100,000 to \$500,000.

Call for Bank Statements.

Captain R. E. Park, the state treasurer, has sent out circulars to the 357 state banks of Georgia requiring them to furnish him, within the next ten days, with reports of their condition as of April 6, 1906. By a coincidence, the date fixed upon by Treasurer Park is the same as that chosen by the controller of the treasury for the statements from the national banks; and when the returns are in it will be possible to make a composite statement showing the standing of all state and national banks in Georgia.

Another New Road Chartered.

The secretary of state has granted a charter to the Bostwick Railway company of Bostwick, Morgan county. It will be a very short line, only six miles, and will tap the Central railroad at Bostwick. It will run through one of the richest sections of the state and will greatly enhance the value of property along its line, and will be a big impetus to the thriving village of Bostwick.

The capital stock of the charter is \$20,000, and enough of this has been paid in to begin work at once.

Seaboard Headquarters "Immovable."

A committee of the Savannah chamber of commerce that was appointed to present the advantages of the city to the officials of the Seaboard Air Line and seek to have the general offices of the company located in Savannah, received a message stating that the general offices of the company, which are at Portsmouth, Va., will be moved. This information will be a great disappointment to the Savannah chamber of commerce, which has been most prominently mentioned as the city to which the offices would be removed from Portsmouth. Savannah had begun an organized effort to secure the offices.

Steamship Company Organized.

The directors of the Brunswick Steamship company met a few days ago for the purpose of organizing the company. The following officers were elected: President, Harry M. Atkinson; vice president, P. S. Atkinson; secretary and treasurer, C. L. Dimon; secretary and treasurer, R. E. Cullman. The Brunswick line is having built at the plant of the Fore River shipbuilding company two large steamers which will be completed as soon as possible. The company also has orders in for four more, which are to be turned out at intervals of six months each.

Ready for Monument Unveiling.

Preparations have been completed for the unveiling of the monument to the heroes of the battle of Georgia.

## THE NEWS.

A Pittsburg man claims that he can make his hair fall by the use of electricity. Shouldn't?

How we have to talk of the wonderful things we have not done. The reason for this is that nothing is wonderful after it has been done.

A biologist prescribes a pound of candy or a dose of cooking soda for "that tired feeling." The young American will know which prescription to take.

It is to be hoped that the news that an American cricket player is receiving \$1500 a week in Paris won't start the man next door to practicing here after double time.

Mr. Carnegie says that millionaires who laugh are rare. It is quite possible that Mr. Rockefeller knew this and, wanting to laugh, only once became rare but disappeared altogether.

Lots of people are poor to-day because they didn't know what was going to happen in 1903. Lots more will become poor because they think they know what will happen in 1904.

The announcement that the Pennsylvania Railway Company is preparing to go away with steam engines and use electric motors exclusively, throughout its extensive system, presages the end of the age of steam and the coming triumph of electricity. The statement may seem startling at first, but as a matter of fact the railroads have been experimenting with electric engines for some time and their eventual use was a foregone conclusion. Not only in the matter of speed but in every other respect electricity has the advantage over steam as a motive power.

It is surprising how many people there are in this world who want to increase the discomforts of life. There is always bobbing up some professor or propagandist who informs us that everything we have ever done is wrong and that the only road to physical salvation is to follow his own schedule. And now comes a man from Chicago and tells us that we must not eat soup, pie, puddings and cold meats, except ham, and apparently most persons eat more than is good for them and it is certain that, generally speaking, food is not well cooked. But to lay down a law for the human race is absurd.

The idea that has prevailed up to a very recent date that organic life does not exist at great depths in the ocean, has been exploded by late scientific investigation. As a matter of fact, the pressure of water is so great that ordinary articles of wood are compressed to half their original size if lowered to a depth of three thousand feet. If a human being were suddenly exposed to the pressure of water at that depth he would be compressed to the thinness of paper. A diver at the depth of ten thousand feet would have weight upon him equal to several hundred of the grooves and heaviest locomotives. There are depressions very much deeper, however, and soundings have been made establishing depths of more than twenty-two thousand feet near the Island of St. Thomas in the Atlantic, and of almost twenty-seven thousand feet near the Japanese coast.

Dr. Stondon Hooker, who has applied the blind test ray discoveries to problems of food, explains in the London Express how the colored rays that surround every human being are affected by a "red-hot diet" meaning a diet without meat. There are some visible changes, such as "shrinkage of the features." The face becomes "smaller but more beautiful," a fact which might incline persons with large and unattractive faces to vegetarianism. The eye becomes brighter, the step more elastic, the brain quicker. But perhaps the most remarkable discovery of Dr. Hooker is that the man who is "living a gross life"—i. e., eating meat—comes from deep red to chocolate, while the "red-hot diet" man will generate cheerful rays of lighter red, or, if he is very refined, of yellow. If Dr. Hooker's view becomes general, suggests the New York World, the man who now complains that dark-brown tans in his mouth next day will gleefully announce instead that he is surrounded by dark-brown rays.

### Combination Failed.

The Hoke-Smith democrat and Tom Watson populist combination failed to work in Rockdale county on last Friday—that is it partially failed.

In that county there was a combination of the followers of the two gentlemen named above. One side was to elect the senator and one side the representative, Col. W. L. Peek, owing to his widespread popularity, as the first nominee of the populists in Georgia for governor in 1892, and the fact that he was a member of the national committee of the Southern Cotton Association, was allowed first choice and his son-in-law, Mr. Irwin, was the man slated for senator, on the Hoke-Smith ticket. The Hoke-Smith democrats selected the man for representative. Did we say the scheme partially failed? Yes, inasmuch as the election of Irwin was concerned it did. The Hoke-Smith democrat, according to the Atlanta Journal, was elected over six hundred majority, while the Hoke-Smith populist got badly defeated, running third with three in the race, the nominee for senator being a Clark Howell democrat.

Of course there may not be anything in all the above, but it sorter looks strange to us that the Hoke-Smith populist should get so badly defeated while the Hoke-Smith democrat gets such a rousing majority. It sorter looks to us like there was something dead up the branch.

Boys, just lick the hand that smites you and you will get that what you deserve. Peek and Irwin got their little package done up in good shape; they got it where Lucy wore the beads, and others will get the same thing after they have put their ballots in for a man who has always trailed them down and besmirched them.

It is an old saying and a true one that all is well that ends well. The combination to break up "the rotten democratic party," as Hoke Smith puts it, worked in Rockdale county like it will in other places. All Hoke Smith wants is populists votes. Then the job is complete.

We have said it before and we say it again: there is nothing in common between the Hoke-Smith democrats and the Tom Watson populists and in each and every case where they have bedded together the results have been disastrous to the populists.

In Rockdale Hoke and his followers invited Peek and his son-in-law to join his crowd to "bust" "the ring." The ring got "busted" but it broke on the heads of Peek and Irwin. Hoke Smith and the pops went in cahoot, the Hokeites got the office and the pops got the cahoot.

Whenever a man has licked the hand that smites him he loses the respect of the man whose hands he licked. It has only been two short years since Hoke Smith and his element denounced Watson and his element as Republican hounding, etc. Yet Col. Peek and others in Georgia are whooping themselves hoarse for Hoke Smith. That is Peek was doing the whooping act up to last Friday, but he hasn't been heard from since the votes were counted, and he learned his true state with his newly made friends.

## Politics Make Strange Bed Fellows.

There never was a truer saying than the above. Passing events go to show its truthfulness each and every day.

Less than two years ago, Hoke Smith and his personal organ, the Atlanta Journal, were trailing down Tom Watson and the populists, denouncing them for everything that was mean and vile. The fight made by these forces for its bitterness and calumny has never been surpassed and seldom been equaled. They fairly hunted Watson and his followers down and trampled them in the dust. Mr. Watson had had the cheek to run for president as the nominee of his party and for this reason the vials of their wrath were poured upon his head.

Just preceding this the same fight and the same tactics had been played by the same gang against William R. Hearst, who had run in the democratic nomination. Hearst was guilty of one crime, one only—that he had a record of standing for the interest of the great common people of this country against the Wall street element of the democratic party, as represented by Grover Cleveland, Alton B. Parker, August Belmont, Pat McCareen, Hoke Smith and the Atlanta Journal. The editor of this paper was a Hearst delegate to the state convention. In that convention the men who stood to Hearst and against the Wall street element were denounced as nothing but populists.

The interest of the people failed and the great corporations, aided and abetted by Hoke Smith and his organ, triumphed. They saddled on the democratic party as its nominee for the presidency nothing more or less than a Wall street republican wearing the name of democrat. The result at the polls is too well known to be repeated. In short the people of the United States administered to them such a drubbing as has not been experienced before since the war. Today we find this act appealing to the voters of Georgia on an entirely new line. They go not to the men they have always abused and besmirched. They declare that the democratic party is rotten and that Watson and the pops will join with them they will bring on a new state of things in Georgia. Last we forget the democratic party is just what this same crowd has made it.

In the years of the recent past we had still another element in the democratic party—men who agreed with Watson and the populists on most of their demands for reform, but differed with them on the question of going out of the party. Among this element none were more prominent than Mr. Clark Howell, editor of the Atlanta Constitution. Mr. Howell and the Constitution have a record for always being fair towards their political opponents. So fair were they that we have frequently heard the Constitution referred to as the only populist daily in Georgia.

A few years ago, when feeling ran high in Georgia, there was a disposition on the part of the over-zealous element of the party to cut off every populist who was elected to the legislature, regardless of as to whether he was entitled to his seat or not. In a number of cases there were contests filed and men who were elected as populists unseated and democrats seated in their places. A sample of it was from an adjoining county—that of Effingham, for instance. In the legislature referred to Mr. Clark Howell was elected speaker of the house—as a democrat, of course. There was a certain contest up from one of the middle Georgia counties, where a populist had been fairly and squarely elected by his people to a place in the legislature. The prospects were that the effort to unseat him would succeed. Mr. Howell, realizing this and recognizing the great injustice of such an act, vacated the chair and went on the floor of the house and made a strong appeal, protesting against the unfairness of the act that was about to be forced on the house of representatives. He appealed for the man because his county had elected him and he, therefore, was entitled to his seat. He was bitterly denounced by those who were in the scheme as being a populist. An old Irishman from one of the lower counties, elected by negro votes, waived his walking stick about his head and denounced him for all that was vile because he, as a democrat, had the manhood to defend the man who was elected as a populist simply because his people had elected him.

Now, what do we see? The men who were trailed down and besmirched and abused are asked to join hands with their old enemies and against the man who was their friend in the hour that they needed his assistance. An effort is being made to organize them in a body into the camps of the men who have, for the past fifteen years, lost no opportunity to abuse and bedevil them. They are to turn their backs on the element of democrats who have treated them fairly and honestly during all these years. The sight of the populist line-up with their uncompromising enemies would be amusing in the extreme if it were not so ridiculous.

In all ages of the world's history it has always been chargeable to the weak and the ignorant, that they will lick the hand that smites them. But we confess that this is the first instance that we have ever seen a patriotic and intelligent citizenry asked to do the licking act.

The book says "Ye shall know them by their fruits." That, as we understand it, is that the best test of what a man is by the record that his life's work has made him. Then, in all fairness, why the populists should organize and go into the camps of the men who have always been their bitter political enemies is beyond our comprehension. Will they do it? Some of them may, but we believe in the breast of the men who make up the rank and file of the former populist party there still smoulder embers of appreciation for the kind acts and fair and honorable treatment accorded them by men who rose to the standard of being big enough and broad enough to men who justice though they had covered them in defeat. If honorable methods and fair treatment fails to appeal to men, and in its stead the policy of the future is to lick the hand that smites you, then we confess that we are bordering on strange times and strange customs.

The democratic party is not half so black as the men who are responsible for its mistakes would paint it to you. The great masses of the party are honest, and the great majority of its leaders are true. The great state of Georgia is the empire state of the south in fact as well as in name. The men who paint it black and appeal to you to help them break up the "ring" are the very men who compose the "ring."

All those who want to lick the hand that smites them have a right to do so. There is no law in Georgia to prevent a man from making himself appear ridiculous; but after all this smoke and thunder have passed away and the man who has preserved his integrity and stood by the men who have treated him honestly and fairly in the past, will have something to his credit, whether in victory or defeat, that none others will have—the consciousness that he has done his duty as a citizen and a voter.

### Reply to "Subscriber."

Editor News:—In your issue of last Tuesday I gave an account of the good meeting just closed here at Eureka, and in my closing paragraph I stated that Rev. J. K. Chambers had done good work on this charge the two years he was pastor; bringing it up from a mission to a self-sustaining circuit, which everybody, who is well posted, knows is true. But I saw, in Friday's issue, that someone, who was ashamed to sign his name, crawled out of his hole and tried to butt me off the bridge by telling the public that I am mistaken in this and other matters. He tried to "correct" me by saying that this had been a self-sustaining circuit for several years.

It is surprising that a man should be a member of a church for these many years and not know the standing of his church. If "Subscriber" would take and read his church paper and attend the business meetings of his church, he would learn many things that he doesn't now know.

Now, I wish to inform "Subscriber" that according to Methodist parlance there is a difference between a mission and a circuit, and that this work has always been a mission, supported in part by the mission board. It still stands in the line of missions; but in view of the fact that the membership had been greatly increased during the last two years and the church is in good shape the board of stewards, at the beginning of this year saw proper to assess the members sufficiently, if paid, to make the work self-sustaining, which brings it up to a circuit in the proper sense. This is done after one of the churches being taken off and put on another work.

Rev. P. H. Crumpler, the present pastor, is a good man, a good preacher and truthful, and at the quarterly meeting held at the beginning of this year reported that he had found the churches in good order. I was secretary of that conference and know whereof I speak. His report goes on record in his own identical words.

The venom that "Subscriber" pours out at the mention of Chambers' name discloses the fact to everybody that he belongs to that little crowd who has been fighting the preachers the last fifteen years. My observation is that the person who attends the business meetings of the church and reads the Bible and his church paper, never fights the preachers. This applies to all members of other churches as well as Methodists. I never say nor write anything unless I know it to be true, and am not ashamed to sign my name to it.

I recommend the reading and studying of 5th Galatians, beginning at 19th verse.

B. W. Darsoy

### IMPORTANT NOTICE TO PASSENGERS.

SEAS-SAVE MONEY  
The Seaboard Air Line Railway classifies its passengers boarding trains at stations where there are ticket agents, saving money by doing so. Effective Nov. 1st, 1900 conductors in Georgia and Alabama will collect four (4) cents per mile from passengers without tickets boarding trains at stations where there are ticket agents, and when an opportunity has been afforded them to purchase tickets but who have neglected to avail themselves of such privileges. From non-agency stations where opportunity has not been afforded to purchase tickets, the conductor will only collect the ticket rate.

### Small Crowd at Circus.

The Sun Brothers circus, having two exhibitions Tuesday as was advertised. The show arrived at 7 o'clock, from Savannah, where an exhibit of 101 was given Monday night. The parade took place at 1 o'clock, and in many respects it was better than it was last year when the show was here. The men in the cage with the two live, fierce-looking lions was really the best thing they had, and the parade was much longer than it was a year ago.

The attractions in the big tent was a little short of expectations. The clowns were very poor, and failed to impress any one as being very funny. There was some fairly good contortion and trapeze work and good riding, but the whole thing had an air about it as being slow.

An extra fee was charged to look at the few animals that were along. This was a departure from former customs. There were no gambling nor short change schemes that we have heard of. The show was really as clean as one of its class could be expected to be, though the attractions were no up to expectations.

The men at the head of Sun Brothers' show seem to be very clever and their dealings with the public seem to be straight. There were two things that operated against the show this year: One was that Van Amburgh's crowd of thieves and cutthroats, that were here last December, had the effect of disgusting many people with all shows, whether they have any connection with that gang or not, and the other was due to the fact that the farmers were up to their eyes with their farm work and it was next to suicide for them to turn loose and go to a show at this time. Though they probably made expenses here, after all.

The morning session was begun at 9:30 and an unusually interesting program was rendered. The subject, being "Christian Stewardship," was broad and deep, bringing home to many hearts the question: "Am I, as a professed Christian, a profitable and faithful steward to my kind, Heavenly Master?"

After the devotional exercises and a beautiful address of welcome and response, the roll call of delegates was pleasingly responded to. A good report was given of almost every society represented. After a song our subject was ably discussed by the different ladies.

The pastor of the Statesboro Baptist church favored the meeting with an able and spiritual address for dinner. The bounteous repast was served on the grounds. Many gentlemen and ladies of the town came out and enjoyed dinner with us, and we think it is not saying too much to say that the hours intervening between the morning and afternoon sessions were a decided success.

The afternoon session was conducted by the young ladies of the societies, and every heart present had reason to be filled with thanksgiving and praise to note the apparent enthusiasm and advancement among our young ladies.

An interesting and beautiful program was rendered. We feel 'twas a day long to be remembered by everyone present as one of spiritual uplifting and mountain top visions of great possibilities in our Father's kingdom. Let us all thank and praise our precious Savior for his glorious salvation, and try with renewed zeal to spread the glad tidings of great joy to the uttermost ends of the earth.

### Set's Letter.

I am sitting with opened windows, into which the "sweet south" is breathing. Our gardens are redolent with vermal fragrance. The time for the singing of birds has come, and no country can boast of more charms in this respect than south Georgia. The wood lark and mockingbird are songsters of the first order. They are sometimes taken to the north in cages, but in this case one seldom hears the rich gushing of their natural strains as when they sit among the bushes and pour out melody for hours. The plovers are all in motion and with this there arise many agreeable associations.

My wife went off visiting yesterday. Nobody called me to dinner. Everything seems like a tunnel to me. Lonesome is not the word for it. There is not a word for the feeling when the maternal ancestor is not cruising around; when we cannot hear the rattle of her dress, nor the sound of her voice, or see her stitching away on some garment or reading over again the last letter from our daughter.

There is nothing in the world that gives such emphasis to the love of God for His creatures as flowers and birds. We need food and of course would die without them. But the birds and flowers are extra gifts to minister to our senses. How fortunate for us that as we grow older we love them better. When I was young and busy and had ambition to rise in the world I cared little for birds or flowers, but now they are my special pleasure. Now I fully understand the meaning of that lovely verse: "Consider the lilies how they grow."

It is strange what a desire some people have for long distance charity. The statistics show 65,000 arrests last year, and yet Boston sends missionaries to Turkey and prescribes and teaches for the blacks in the south. Georgia has only 380 white convicts in her penitentiary, while Massachusetts, with only a little larger population, has 1,000, and New York state, with three times the population of Georgia, has 8,000 convicts besides numerous reformatories with several thousand inmates. The truth is that every state and large city has enough of the lawless, the ignorant and the destitute to care for and is certainly to overlook them, and hunt misery afar off. But we are getting along pretty well in this blessed land of flowers.

I hope the Lord will direct the president in all things. The south does not expect him to Tylerize his party on the protection tariff or any other republican principle, but it does expect him to appoint the best men to office, regardless of their politics. And if his party kicks and threatens, as the whigs did John Tyler, let him take the blame. Price 35 cents per box. Try it. For sale by A. H. Druggists.

It has met with unparalleled success in the treatment of these diseases. Price 35 cents per box. Try it. For sale by A. H. Druggists.

### Brannen Was Here.

Hon. J. A. Brannen our next congressman was in Reidsville this week.

Immediately after the able speech of Col. Estill addressed our citizens upon the political issues of the day, he was highly applauded for he was surrounded by staunch friends and supporters who will see to it that old Tattall will be almost solid for him on election day. The watch-word down this way is "Burrh for Brannen."

## A BIG DAY IN STATESBORO

### Howell and Russell Entertain the Voters of Bulloch in the Good Old Fashion Style.

Yesterday was a red letter day, politically speaking, in Statesboro, and if there is anything in the loud cheering and continued rounds of applause going up from the throats of a thousand people, Bulloch county has been turned around politically, insofar as the race for governor is concerned.

The court allowed until 8:30 o'clock for the speaking. Dr. I. S. L. Miller, who, by the way, is an Estill man, presided.

Mr. Clark Howell was the first speaker of the day. He was introduced by Hon. S. L. Moore, in a brief but eloquent address. Mr. Howell delivered one of the most conservative and honest speeches that has ever been heard from a political speaker in this county. He was given frequent applause and his points were cheered by hundreds of people. There was no effort to interrupt him, and, in fact, there seemed to be no disposition to do so. The crowd seemed to endorse each and every word that he said, and at the conclusion of his speech he was given a round of applause that showed that his words had found lodgment in the breasts of those who heard him.

Judge R. B. Russell, of Windsor, Ga., was the last speaker. He was introduced by his life long friend, Hon. G. S. Johnston. Judge Russell, for one and a half hours, delivered a speech that fairly shook the great court house to its foundation with the repeated cheering of the crowd who seemed to be in thorough sympathy with him. His appeal was eloquent and

### Tillman Is Baited in Senate.

Washington, April 20.—The earlier part of yesterday's session of the senate was made interesting by the savage attack of Senator Hopkins upon Senator Tillman because of the latter's defense of lynching and the alleged suppression of the negro vote by shooting and burning. So heated did the arguments become that it was necessary for the chair to preserve order by strictly enforcing the rules of the body.

Senator Tillman started the trouble by bringing up an old controversy with the senator from Illinois in regard to the action of the banks of Chicago coming to the relief of the Walsh bank of that city. He asked Senator Hopkins if the report that Walsh had been indicted for alleged frauds under the banking laws was not true, which Hopkins denied.

To sustain the charge that the senator was not telling the truth, the senator from South Carolina quoted from several newspaper reports which gave the information that Walsh had been arrested and held for the grand jury, but that the case had been five times continued and that it was suspected that a strong influence in Washington was being brought to bear in the case.

The charges of Senator Tillman against Senator Hopkins and he took the opportunity of turning the tables and charged Tillman with inhuman treatment of the negroes in South Carolina. Burning of men and women at the stake with his consent and knowledge were among the other crimes charged to him. Thoroughly angered, the Southern senator retorted that the protection of civilization demanded lynching for crimes against womanhood whereupon Senator Hopkins charged him with favoring similar action to suppress the negro vote.

As the controversy became still more heated, Senator Foraker of Ohio was brought into the matter because of the recent outbreaks against the negroes in Springfield. He declared however, that the people of his state were in sympathy with the negroes, as were also all the senators except Tillman. At this point the chair demanded order and the incident was closed.

### Problem to Feed

San Francisco, April 20.—The problem to-night confronting the city government and federal authorities is how to feed the multitude of destitute. Supplies are coming in by train load, but as yet the system of distribution is not in complete working order.

At the Presidio military reservation, where probably 50,000 persons are camped, affairs are conducted with military precision. Water is plentiful and rations are dealt out all day long. The refugees stand patiently in line and there is not a murmur. This characteristic is observable all over the city. The people are brave and patient and the wonderful order preserved by them has been of great assistance. In Golden Gate Park are camped, 200,000 persons. A huge supply station has been established there and provisions are dealt out.

Many thousands are camped in vacant lots and squares scattered about the city, and these are the unfortunate that are hard to reach.

Six hundred men from the Ocean Shore Railway arrived to-night with wagons and implements to work on the sewer system. Inspectors are going from house to house examining chimneys and issuing permits to build fires.

### The Cotton Market.

Sea island cotton is going at 20 cents per pound in Statesboro. A great deal has been marketed here within the past few days, and the best cotton has been selling at 20 cents per pound. It is thought that the increase in the price has had the effect to bring most of the supply on hand to market.

Last winter, when the Southern Cotton association advised holding sea island cotton for 20 cents a pound, the knowing (?) ones said we would never get it, and the association was a set of fakes who did not know what they were talking about; but 20-cents cotton today tells you who were the fakes in that matter.

### Worms Playing Havoc.

The potato bug has made his appearance much earlier this year than ever before, and is playing much havoc with young Irish potato plants, beans, etc. In some instances the bug infested the young plants as soon as they came out of the ground. Farmers are using paris green, "Bug Death," etc., but in many instances the gardens are being destroyed by these insects.

### Will Not Affect His Business Here.

Mr. R. Simmons requests us to say that the rumor that he intended to move his business from here was unfounded. It is true that he has made some investments in south Georgia, and should he decide to move there himself, his business here would not be affected in the least.

### Attention Public.

On May 10th, at 4 p. m., there will be speaking at Odd Fellows' hall (Mill Bay Lodge, No. 248); speakers: Brothers T. J. Cobb, G. S. Johnston, T. A. Olmstead and J. M. Murphy. After the speaking there will be given a box supper for the benefit of the Lodge. Young ladies are requested to bring well-filled boxes. Refreshments and good music. Come one, come all.

### School Closing at

#### Allen Academy.

Friday the school taught by Prof. Willie Woodrum closed at the academy near the home of Mr. S. C. Allen. There was a large crowd of patrons and friends out to witness the closing exercises. The recitals and dialogues were rendered in a manner to indicate that the work in the school room had been efficient and thorough, although the exercises credit was reflected on both teacher and pupil.

A basket dinner was spread at the noon hour, which was the best we have ever seen. The long table fairly groaned beneath its load of good things to eat. Everyone present had enough and lots to spare. This school which has succeeded closed had been the most successful one ever taught at this place.

### Estill Visits Quitman.

Quitman, Ga., April 20.—Col. J. H. Estill was in Quitman today. This was his first visit here during his campaign for Governor. He met many people in the streets and stores, and was cordially received. Col. Estill has a great many friends and supporters here. He will return to Quitman during the May term of court, and will make an address. His visit here will make many more friends for him. He left this afternoon for Valdosta.
