The railroads have promised to give a rate of one fare for the round trip from points as far away as Texas, Arkansas and New York to Atlanta for the Home Coming for Georgians at the State Fair next October. The tickets will be good for 30 days. There are 80,000 native Georgians living in Texas and more than 100,000 in Alabama.

**How to Break Up a Cold.**  
It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. The first symptoms of a cold are a dry, hoarse cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's Cough Remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold and restores the system of a healthy condition within a day or two. For sale by All Druggists.

The big prizes, \$1,800 for first, \$1,800 for second and other County premiums running down to \$200.00 have aroused great interest all over Georgia.

If your stomach troubles you do not conclude that there is no cure, for a great many have been permanently cured by Chamberlain's Stomach and Liver Tablets. Try them, they are certain to prove beneficial. They only cost a quarter. Sold by All Druggists.

Bartow, Gwinnett, Cobb, De Kalb, Green, Rabun, Habersham and Worth announced sometime ago that they would exhibit.

A hacking cough is most annoying. One Minute Cough Cure draws the inflammation out of the throat, chest and lungs. Sold by W. H. Ellis.

Carroll, Hall, Jackson and Walton have decided to make County Agricultural Exhibits at the State Fair, Atlanta next October.

Prof. A. J. Showalter of Dalton will be director of the All Day Singing at the State Fair. Two days will be given to the singing this year. There was a chorus last year of 3,000 singers. Prof. Showalter says there will be 5,000 singers this year.

**Will Cure Consumption.**  
A. A. Heron, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages. I have never heard of any one using Foley's Honey and Tar and not being satisfied." W. H. Ellis.

In order to get up exhibits for the State Fair, Hall, Carroll, Rabun, Habersham and Polk will hold County Fairs this year. Then the best articles exhibited will be selected and sent to Atlanta as a County exhibit. The railroads haul the County Exhibits to the Fair free.

**Cured Hemorrhages of the Lungs.**  
"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started taking Foley's Honey and Tar, and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. W. H. Ellis.

The America Jersey Cattle Club will give \$1,000 for prizes for Jersey Cattle at the Georgia State Fair, Atlanta, Oct. 10th to 20th.

Atlanta proposes to make the live stock show a great feature of this year's Fair.

Thousands annually bear witness to the efficiency of Early Risers. These pleasant, reliable little pills have long borne a reputation second to none as a laxative and cathartic. They are as staple as bread in millions of homes. Pleasant but effective. Will promptly relieve constipation without griping. Sold by W. H. Ellis.

### Bomb Thrown at Newly Wedded King and Queen.

Would-be Assassin Lodged in Prison and Lays Plot Bare.

Madrid, Spain, June 1.—The city, which was only yesterday the scene of happy rejoicings in celebration of the wedding of Alfonso and Ena, is today cast in gloom, caused by the attempt which was made on the lives of the young monarchs while on their way from the church to the royal palace. The horror of the dastardly crime and the sorrow caused by the deaths of so many innocent victims has unnerved the populace. The people have now no heart for entering into the festivities, which had been planned for the next ten days, and it is probable that the fete will be cancelled.

From the investigation of the police the following is known of the assassin: He is known variously by the names Mateo, Motan, or Manuel Enra. On May 24th he engaged a room at 88 Calle Mayor, from which the bomb was thrown, offering to pay \$5 per day for it if its occupants would move out temporarily. After securing the room the anarchist refused to let anyone enter, alleging that he was indisposed. Yesterday he ordered a big bouquet. In it he concealed the bomb which was hurled at the king's carriage. After throwing the bomb he stepped back into the room, quickly changed his hat and escaped in the confusion caused by the act.

The Publishers' Press correspondent is assured by a high police official that the man who threw the bomb has been arrested and is now confined in the Melilla police station. He also states on high authority that the prisoner made confession that he is the would-be assassin.

It is now known that more than fifty were injured. Five of them are in a dying condition. Among those seriously injured was General Weyler, of Cuban revolution fame. It was he who drove the reconquered into refuge camps, where they were literally starved, causing such a protest in America that finally led to war with Spain and the freedom of the Cubans.

Among those killed in yesterday's tragedy were the following: Carlos, commanding part of the king's escort; Lieutenant Reynier, Lieutenant Pendergast, six soldiers, the marquis of Colosa and daughter, Don Antonio Calvo and niece, aged six years; Jose Sola, military; Louis Ponceca and one royal groom, who was leading a horse drawing the royal coach. The bomb thrower was upon a balcony, where a large number of people were watching the wedding procession which was then in progress from San Geronimo church to the palace, which the royal couple were just preparing to enter.

At once the bridal coach was stopped. Officers and soldiers were felled to the ground by the shock, and the groans of the injured and dying added to the trying misery of the occasion.

The royal coach was still intact practically uninjured. The couple left the equipage, and entering another carriage were quickly driven into the palace grounds. Carriages were torn to splinters mixed with the mingled remains of horses, animals driven wild by the noise, trampling upon the masses of ruin, added horror to the occasion. Scores of horses were killed or injured.

As soon as the first shock passed the injured were taken up from the streets and carried to hospitals and the dead were removed to undertaking establishments. The bomb was thrown from a boarding house, where on May 22 a man from Barcelona took apartments. He gave his name as Moral, and seemed to have no regular occupation. The house was immediately surrounded by the police following the explosion.

Moral attempted to escape, but was caught. However, another successfully eluded the officers. Another Catalan took an apartment there on the same day. His name is Manuel Durand, and it was from his room that the missile was hurled. He was well dressed at all times and seemed well supplied with funds.

The king's carriage escaped only by a few feet, and the distance from where the bomb was thrown and the confusion caused by the crowds alone saved the lives of the newly married royal pair. One of the horses attached to the royal equipage was killed.

The shock excited both the king and queen considerably, and when they reached the royal palace it was noticed that they were in tears.

### Communication

Editor News: While time has rolling over and over our little cities have been growing very much; some day they will be large and industrious towns. Just think back four hundred years ago and compare them then and now. It was nothing but a vast wilderness and today it is settled as thick as hops. It is here today belonging to us and none else. We should have our country. Think back when our mighty Columbus, reversing on unknown seas trying to discover a new world. And here it is, large and prosperous. It seems as if Christ dwelt here himself. We don't know what the next century will bring to us, so boys and girls let us all strive to help our country along and perhaps the next century will be as good as the past. The boys and girls seem to be interested in their business, though some have better opportunities than others, but let's make use of what we have. It isn't the opportunity every time; it is the boy or girl who has vim in them.

Just stop a moment. Be sure you are right and then go ahead. Look back at old Andrew Jackson, he didn't have the chance of a speckled monkey, and look what he did—he made our country more famous than any other man. Why can't we rise in fame, boys and girls? We have nothing to prevent us from doing it, and come, one and all, and help roll that awful wheel or it will go down hill faster than it came up, and in the right way we can keep it up where we have it. We must strive to do our duty and all every every notch to a job and title and perhaps we will reach the top some day.

Now, Mr. Editor, thanking you for your kind attention and asking for the favor of you to give the boys and girls advice how they should do so, and what to do; I feel like I know instructions from an experienced, good and moral man.

Yours very truly,  
Joseph K. Beasley,  
Blitch, Ga.

### FUG ACKNOWLEDGMENT

By User of Plant Juice  
Tells of its Wonderful Effect.

A poor gentleman comes forward testifying to the wonderful results obtained from taking Plant Juice. He begins by saying that his wife had been ill for many years, that he spent hundreds of dollars for medical and medical treatment, all to no purpose. And that she gradually declined until he had almost given up hope of her recovery. Ten days ago he heard of Plant Juice remedies sold by Dillingham and he decided to try the treatment.

He brought one bottle of Plant Juice and prevailed upon his wife to try it. She willingly did so, but the usual misgivings of a patient of another medicine she had taken in the last seven years. A fog seemed to give her relief. She kept up the treatment and each day her condition improved. She had grown better each day since she began taking the Juice and Mr. C. Franklin told her that she was in better health than she had been for years. It could have been no other medicine than Plant Juice that brought about the relief. She had taken nothing else. Mr. Franklin wanted the public to know the good Plant Juice had accomplished for his wife. He took this occasion to publicly acknowledge its efficacy, and thanked Col. Dillingham with all his heart for his good fortune in having sufficient faith in it to remedy to give it a trial.

Mr. Franklin spoke with great earnestness in telling his experience with Plant Juice and took occasion to say that if all people were frank as he to acknowledge the results of the treatment of Plant Juice, there would be less suffering among the people and more of them would be happy.

### ELOPED THROUGH BEDROOM WINDOW

Moultrie, Ga., June 5.—Quite a sensation has been created in the Liberty community in the western part of Colquitt county by the elopement and marriage of Mr. Jess Holland and Miss Ida Peterman. There has been strong objections to the marriage from the mother of the girl, as she is only fourteen years old, but the young people planned an elopement, and Saturday night Miss Peterman escaped by the window of her bedroom, and joining young Holland at the gate, they drove to the home of Rev. John Cooper, where they were married. After the marriage they went to the home of the father of the groom, Mr. Jule Holland, and spent the night.

Miss Peterman and her mother, Mrs. Laura Peterman, lived with the brother of the latter, Mr. Jas. Maxwell, and none of the family knew of the elopement until the following morning.

There was great indignation among the family, and several of the male relatives of the girl armed themselves and went to the home of Jule Holland, learning that the bride and groom were there, and demanded that the bride return home with them. She refused to do so at first and Holland ordered the intruders to leave his premises. The Maxwells finally forced their niece to return to her mother. It is not unlikely that there will be other developments as the young people have not repented.

Miss Peterman, while very young, is a pretty country girl, and of one of the most prominent families in the section in which she lives. She is an only daughter of Mr. Peterman, and by the will of her father, inherits his estate, amounting to a very considerable sum. For some reason the mother was not provided for in the will. The Petermans lived in Moultrie prior to the death of the husband and father, and some of the estate consists of Moultrie real estate.

Young Holland is only 18 years old, but he is of a good family, except for the age of the two there might have been no objections to the marriage.

### To Move Court Ground.

We are informed that there is a move on foot to move the court ground of the 47th G. M. district to Arcola. Mr. P. R. McElveen, one of the enterprising citizens of the 47th, whose home is at Arcola, was in the city Monday, and he thinks there will be no trouble about getting the court ground moved to Arcola. A petition has been circulated over the district to this effect, which contains nearly 150 signatures of the property holders of the district. It is reported that only three approached refused to sign. Arcola is located on the railroad and is conveniently situated for all those who have business in court. The petition will be presented to Judges Davis and Brannen of the district court soon.

### Will Have Cheap Rates.

On account of the Sunday School convention to be held here on Thursday, 14th inst. the S. & S. railway agrees to make a special rate of one fare for the round trip from all stations on their road. The morning train will arrive at Statesboro by 10 o'clock. Train will leave in the afternoon at 4 o'clock.

It is confidently expected that the Central railway will name a like rate along their line from Clito to Metter and stations between. These rates have been requested, but up to this writing there has been no reply. The train on the Central railway will doubtless be run on usual schedule which is very convenient for parties coming and going in either direction.

Rev. M. A. Jenkins, of Dublin, who has state reputation as an earnest and forceful speaker, has been chosen as orator for the occasion.

In conclusion I will say that the park used by the convention last year has been tendered us again this year free in every respect, with all the rights and privileges desired. Now let all interested in the welfare of the Sunday School convention come prepared to make this convention the very best in the history of the organization.

W. C. PARKER.

### Boosting Bryan for Presidency in 1908.

Jefferson City, Mo., June 5.—What is generally regarded as the most significant feature of the democratic state convention held here today was the pointed and absolute endorsement of William Jennings Bryan for the presidency in 1908, by David R. Francis of St. Louis, former governor and the secretary of the interior in Cleveland's cabinet.

Ex-Governor Francis was invited to address the meeting. He said in part: "I wish to ask this convention to send its congratulations to the national democracy on the disappearance of our differences. There are no differences between us now. In 1904, what is known as the conservative element of our party asked to be allowed to make the platform and name the candidate. Right liberally did the radical faction concede the honor to the conservative element. You know the result. Now another campaign is approaching. Those of us who belong to what is known as the conservative faction would not be magnanimous, worthy democrats if we did not say to you that we will support your candidate and your platform this time. The differences that have divided the democracy exist no longer."

Gov. Francis described Bryan as "a sincere lover of humanity and a patriotic citizen of the United States." He eulogized both Bryan and Cleveland amid loud cheering.

Gov. Folk also spoke, declaring that Bryan would be nominated for president in 1908 and would be elected. He said the principles which Bryan advocated in 1896 were then considered anarchistic, but now are considered the acme of patriotism.

Former Governor Dockery spoke in a similar vein. The platform which was adopted tonight declares that William J. Bryan was defeated by corrupt campaign contributions by trusts and that he is the greatest American democrat, and that Missouri demands his election to the presidency in 1908; declares against issuing free transportation to political conventions by railroads and asks reduction of passenger rates.

The platform denounces the tariff and censures President Roosevelt for favoring the present system, after declaring for tariff revision. It also censures President Roosevelt for his stand on the railroad rate bill and the republican party for not giving statehood to Oklahoma.

**Coco Cola Bottled Here Now**  
Mr. Landrum George, the progressive and up-to-date manager of the Statesboro Ice Manufacturing company, has just closed a contract for the exclusive right to bottle coco cola in this territory. This great drink, in connection with their right to bottle rock ginger ale and hop ale, places them in position to serve the wants of their increasing trade.

Mr. George is one of our foremost citizens, with that get-uppance about him that has won friends and success for himself and company. Send them your order for home-made ice, coco cola, red rock ginger ale, hop ale and soda water. You will then be patronizing home industry.—2t.

The Statesboro Sunday School picnic will embark for Tybee on a special train over the Central Railway this morning. The rate has been made at \$1.50 for the round trip and half price for children. The prospect is at this time that there will be a large attendance. The train will leave Tybee this afternoon at five o'clock and arrive here about nine.

### Gets His Reward.

After many long years of unsuccessful efforts Will Joice has at last succeeded in breaking into the changing.

Will was up this time for deserting a child that he was the father of. Judge Brannen recognizing the great importance of the better roads movements has assigned Will to a term of ten months on our road system and will not require or even accept a money consideration. During this ten months Will, for the first time in his life, will make his native country the better for his having resided here.

# THE NEWS.

Published at Statesboro, Ga.  
TUESDAYS AND FRIDAYS.

By The Statesboro News Publishing Co.

Bishop Ireland, of California, says that motherhood is going out of fashion. If babies were fashionable it is safe to assume that there would be a great many more.

Candy may be good for fatigue, as a noted physician says, but how about the young man with just twenty cents in his pocket whose girl is waiting for a two-penny box? Wouldn't it make him feel tired? asks the Indianapolis Sentinel.

If men and women realized how important a factor in their health and that of their children food is, they would take steps to find out what eat best adapted to their systems and that food. And the manner of cooking that food is very important, too.

Immigrants threaten to surpass the record of North American cities in growth. The inhabitants of that city now number more than a million, and in the last five years have increased by 257,000. The population will probably double itself in the next eighteen years.

From Bull Frog, Nev., via Omaha, comes an interesting story about Charles M. Schwab, formerly President of the United States Steel Corporation. He has bought property in Bull Frog, notes the Hartford Courant. He's going to build on it "the finest house in the State," and to reside there. Nevada gets Schwab as a citizen. Schwab hopes to get the seat in the United States Senate now occupied by Hon. Francis Griffith Nevada. The term of that Senator expires March 3, 1900.

It is in no cheap hostility to the great transportation interests of the country, but merely in the spirit of the principle of a square deal, that we direct the attention of intending bridge couples, observes the Pittsburgh Chronicle-Telegraph, to the singular fact that in their many recent efforts along their lines the railroad managers are painstakingly silent on the important point of the degree of illumination or darkness to be permitted therein or in the coaches. It is apparent that these tunnels need looking into.

Englishmen have for many years, and especially since the "bull" movements in cotton prices three years ago, sought to develop cotton planting within the empire. Late reports of experiments in Africa are the reverse of encouraging, says the Philadelphia Record, and in India, where cotton culture has been important ever since our Civil War, there is little increase. In the last three years there has been a moderate growth of acreage and a decided decrease in yield. The crop of 1903-4 was nearly a million bales less than that of two years ago.

That brilliant apostate of letters, George Bernard Shaw, says: "A gentleman of our days is one who has money enough to do what every fellow would if he could afford it, that is, consume without producing. The North American Indian was a type of the sportsman-warrior gentleman. The Periclean Athenian was a type of the intellectually and artistically cultivated gentleman. Both were political failures. The modern gentleman, without the hardness of one or the culture of the other, has the appetite of both put together. He will not succeed where they failed. He who believes in education, criminal law and sport, needs only property to make him a perfect modern gentleman."

The overcrowding of the medical profession in Germany is a matter of grave concern. There are now in the empire 23,000 physicians, which doubles the number found in 1870. In other words, there is one physician in Germany for every 1700 inhabitants. In the city of Berlin forty-six per cent. of all the physicians have an income of less than \$700, and five per cent. of the whole number do not have a sufficient income to return for taxation. On the other hand, in the legal profession in Germany fifty per cent. of the lawyers have an income exceeding \$2000. It is estimated that the preparation of a man for the duties of a physician in Germany costs about \$9000, and thus it is seen that the income is often less than ten per cent. of the fixed charge on the capital invested. This leaves practically nothing for the reward of his own personal services, nor for wear and tear.

## GEORGIA BRIEFS.

Man and Wife Both Crazy.

At Moultrie, T. F. Wilson and wife, a couple about 40 years old, have both been adjudged insane, and application made for their admission into the state sanitarium. They have three young children.

Accident to Populists.

J. J. Holloway, chairman of the executive committee of the people's party of Georgia, has issued a call for a meeting to be held in Atlanta on Thursday, June 14, to consider matters of vital importance to the party. All members are urged to be present.

State Chemist Sued for Libel.

For referring to him as "this fellow," a card published in the Atlanta Constitution, May 25, and for using other expressions and alleged innuendoes in said card, Edgar Eberhart, chemist to the state geological survey, has filed suit in Atlanta against John M. McCandless, state chemist, for \$5,000 actual and punitive damages.

Record Broken at Andersonville.

The 30th of May was a red-letter day in the history of Andersonville. Everything passed off quietly. There were no arrests, shooting or disturbances. As has been the usual program. Grand Army posts 17 and 14, department of Georgia and South Carolina, participated in the memorial services. Since the war a strong posse of citizens of America were on hand to prevent rioting among the thousands of negroes assembled.

Slayers of Ramsey Found Guilty.

The trial of Joe Swanger and Jim Franklin in Murray superior court at Spring Place, for the murder of Hon. A. K. Ramsey ended in a verdict of guilty with a recommendation to mercy as to Franklin and a consent verdict for assault and battery as to Swanger.

Judge Fife passed a life sentence as to Franklin and gave Swanger one year in the chain-gang.

Educators Prepare for Meeting.

The fortieth annual session of the Georgia Educational Association will be held on Cumberland, June 21-23. Great interest is always displayed at these conventions, and the coming meeting is expected to be exceptional in point of interest, attendance and enthusiasm. Much business of paramount importance, together with persistent discussions of interest to the association, will come before the convention.

Big Land Deal Consummated.

A. C. Carlton, a Moultrie man, has closed a deal for property in Decatur county valued at nearly a quarter of a million dollars. The property consists of 17,000 acres of land, on which there is a thirty-five-horse farm in operation, five hundred head of cattle, over one thousand head of hogs, a turpentine still with thirty-five crops of hogs, a saw mill with a capacity of 25,000 feet of lumber daily, and 7,000 acres of fine round timber.

State Buses Seize Monopoly.

Governor Terrell has directed Attorney General John C. Hart to bring suit in the name of the state against the Atlanta Baggage and Cab company and the Atlanta Baggage and Cab company for the abatement of the monopoly which the latter company enjoys at the terminal station. The decision of the governor was taken on receipt of a petition from attorneys for the independent company, who stated that they also represent many members of the Travelers' Protective Association, as well as numerous private citizens.

The suit arose from the refusal of the terminal station authorities to give checks for any baggage delivered at the station without railroad transportation by any other than the Atlanta Baggage and Cab company.

Records Will Cost State \$7,000.

Governor Terrell has received a letter from the secretary of war in reply to the former's letter of inquiry stating that the information required by the roster commission of Georgia, which is compiling the records of the troops from this state who served in the civil war, would cost the state \$7,000.

This far exceeds the estimate made by the governor and the commission, who thought that the expense would not exceed \$1,800, and the sum named by the secretary of war seems excessive.

It is possible that the legislature may appropriate the sum required for the additional records, or possibly a bill may be introduced in congress to allow the state to have free access to the files of the war department.

Plenty of Work for Solons.

On Wednesday, June 27, the last session of the present general assembly will open. In the house there are 146 bills for a third reading, and thus it is seen that the income is often less than ten per cent. of the fixed charge on the capital invested. This leaves practically nothing for the reward of his own personal services, nor for wear and tear.

The other business is for a second reading, tabled bills and resolutions, those with unfavorable committee re-

ports and others referred to committees and not reported back. Should no other bill come to the legislative mill than the "unpublished business" from last session, there is more than enough of that to keep the house and senate hustling for the full after days, and still leave sufficient for the next general assembly to grind on.

Nine hundred and twenty-seven bills and resolutions originated in the house alone last session, and enough more in the senate to bring the grand total up to near 1,100. Of this huge total only some 400 passed successfully the gamut to completed enactment.

Rawlings' Sentenced Three Times.

J. G. Rawlings and his sons, Milton and Jesse, and Alf Moore, the alleged negro accomplices in the murder of the Carter children, were again sentenced to be hanged by Judge Robert G. Mitchell of the superior court at Valdosta Saturday afternoon. This makes the third time within a period of a little more than ten months that the men have been sentenced before the bar and heard the words pronouncing them to death.

Judge Mitchell fixed the date for the execution on Friday, July 13.

Old man Rawlings was the first to receive sentence, and in reply to the judge's question, if he had anything to say, he made a lengthy speech in behalf of his boys, but said nothing regarding his own sentence.

He said that neither of the boys had anything to do with the murder of the Carter children; that they had not had a fair trial, and had not been treated fairly. He told the judge that he blamed his attorney, Mr. Cooper, with the conviction of his boys, saying that if Cooper had taken his advice that the boys would have been cleared, but that he would have been convicted.

Milton was the next to receive sentence, followed by his brother and Alf Moore. Both of the boys spoke a few words, protesting their innocence, and said that their lives had been sworn away by Alf Moore and W. L. Carter, father of the murdered children.

When Alf Moore's turn came, he said that he had but little to say, except that he had told the truth in the trials and had made his peace with God.

Georgians Get Big Contract.

A Washington dispatch says: After several days' conference with officials of the isthmian canal commission and Chief Engineer Stevens, Senator Baughman succeeded in completing arrangements by which the South Atlantic Cable and Manufacturing company of Savannah and Waycross will give the contract for the construction of 3000 feet cars and perhaps 400.

The Georgia company was the lowest bidder under the call for 1,000 cars, but could not insure the delivery required, causing a temporary hitch. Senator Bacon took the matter up with the officials with view to securing a portion of the contract with delivery such as the company could fill. This has finally been arranged, the deliveries to be between the first of December and the end of January. The Georgia company gets 300 of the cars and perhaps 400 at its price of \$1,125 for each car.

Increase in Georgia's Wealth.

The wealth of the state of Georgia shows an increase of \$37,717,001 for the year 1903 over the preceding year. Comptroller General Wright's annual report for the year ending December 31, 1903, has just been put in the hands of the printer. It shows that the valuation of property and corporate interests in the state for the year 1903 was \$494,820,288, against \$457,061,729 for the year 1902. Specific increases in valuation were as follows:

Improved lands, 1904, \$132,242,387;

1905, \$141,721,775; city and town property, 1904, \$135,740,104; 1905, \$143,724,077; bank shares and surplus, 1904, \$13,471,537; 1905, \$20,653,225; merchandise, 1904, \$27,906,851; 1905, \$30,276,095; manufactures, 1904, \$26,026,391; 1905, \$28,387,318; horses, cattle and mules, 1904, \$29,662,245; 1905, \$32,563,474; household goods, 1904, \$18,258,829; 1905, \$19,572,619; poll tax (white), \$209,460; (colored), \$115,373.

The land owned in this state during 1905 was valued at \$13,545,275.

MILES' ASSERTION PROVES TRUE

Disclosures Anent Packing Houses No

This far exceeds the estimate made by the governor and the commission, who thought that the expense would not exceed \$1,800, and the sum named by the secretary of war seems excessive.

It is possible that the legislature may appropriate the sum required for the additional records, or possibly a bill may be introduced in congress to allow the state to have free access to the files of the war department.

Plenty of Work for Solons.

On Wednesday, June 27, the last session of the present general assembly will open. In the house there are 146 bills for a third reading, and thus it is seen that the income is often less than ten per cent. of the fixed charge on the capital invested. This leaves practically nothing for the reward of his own personal services, nor for wear and tear.

The other business is for a second reading, tabled bills and resolutions, those with unfavorable committee re-

ports and others referred to committees and not reported back. Should no other bill come to the legislative mill than the "unpublished business" from last session, there is more than enough of that to keep the house and senate hustling for the full after days, and still leave sufficient for the next general assembly to grind on.

Nine hundred and twenty-seven bills and resolutions originated in the house alone last session, and enough more in the senate to bring the grand total up to near 1,100. Of this huge total only some 400 passed successfully the gamut to completed enactment.

## The Statesboro News

(INCORPORATED.)

J. R. MILLER, Editor and Gen'l Mgr.

Entered at the post office at Statesboro as 2nd class mail matter.

Statesboro, Ga. Friday, June 6, 1908

Published Tuesdays and Fridays by THE STATESBORO NEWS PUBLISHING COMPANY.

The Georgia Weekly Press association will meet on July the 17th at Hartwell, Ga.

Rev. Sam Small is back in the ministry again. We hope that Sam will stick this time.

The police have finally succeeded in bringing order to the Tennessee state democratic convention.

The farmers are up to their eyes in the grass now. It looks at this time as if the hay crop would be great.

The Democrats of Missouri have launched the Bryan boom for 1908. Bryan is a man who grows stronger the more the people see of him.

An Exchange says that inasmuch as Reed Smoot is not going to be United States senator any more he can now take all of his wives to his bosom.

The White House is nearly deserted since the berating over the rate bill, as most of the Republican politicians fear they might be included in the Ananias class.

Hoke Smith and Clark Howell are to meet on the stage in Atlanta tonight—both on their native heath. There ought to be a warm time coming in Atlanta.

On Tuesday the two political elements in Savannah will go to the polls. The issue is the offices. There seems to be nothing else that would appeal to the average voter.

The Brunswick News, published just outside of the district, in a county adjoining McIntosh, sees Brannen as the winner for congress all right. This thing has so impregnated the district that it is actually lopping over the edges.

Up to this time no further attempt has been made to blow up the boy king of Spain with a bomb. We had rather be a Georgia clodhopper than to be king of a people like the ones that make up the Spanish Empire.

There is one good thing that the Ananias proceedings over the railroad rate bill legislation has accomplished. Mr. Chandler is now attending strictly to the business of the Spanish Claims Commission.

An aggregation of Statesboro fans have been over to Sylvania playing ball this week. The boys played one game and got beat 7 to 4 in favor of Sylvania. Next day they remained over to redeem themselves and ended up their career over there in a game that resulted in a score of 6 to 0000000 in favor of Sylvania. We hope that this will have the desired effect of cooling the ball fever for the season. There is entirely too much grass in the crops over here for folks to be losing time going around playing base ball.

## Will Russia Cry Stoessel?

The report comes from St. Petersburg that a military court has condemned to death Lieutenant General Stoessel, who surrendered against Port Arthur after a stubborn and heroic defense. If sentences of death have actually been passed upon Stoessel and carried out, the world will receive a shock. What ever the usage may have been in the Russian military code, Russia could not justify such an act of cruelty and injustice as that which a Russian courtmartial is said to recommend in the case of General Stoessel. The civilized world would cry out in indignation against a deed so barbarous.

What are the facts in this case?

For months General Stoessel held Port Arthur against the powers of the Japanese army, repelling attack after attack with a valor not exceeded by the fearless courage and persistence of his foes. Thousands of his men were killed and thousands lay in the hospitals suffering from wounds or disease. The Japanese army greatly outnumbered the forces which Stoessel could oppose to the stubborn foe. The most important Russian positions had been carried. It seemed to be only a question of days before the fortress must yield to an army whose strength was too great to be withstood. In these circumstances General Stoessel capitulated, on terms that were not dishonorable. Why should he now be put to death for an act which reflected credit upon his humanity and his consideration for his soldiers, without discrediting his loyalty to Russia?

It has been said that republicans are grateful. It is not conceivable that the United States would reward a soldier who had served it faithfully with death, as Russia, according to report, proposes to reward Stoessel. If the latter had been in the service of this republic and had fought as bravely for this country as he fought for Russia at Port Arthur, he would have been given rank among the nation's heroes, and the government of a grateful people would have cared for him when he was disabled by old age for active service. The American people are a blending of the practical with the sentimental and if they are ever guilty of ingratitude it is not in the case of warriors like Stoessel. General Stoessel is one of the most pathetic figures of modern times. Given an impossible task—the defense of Port Arthur, with an inadequate garrison, the fortress being insufficiently supplied with ammunition and food—he held out, with the courage of his race, until he could no longer hold out. His defense of Port Arthur added to the glory of the Russian soldier and, even in defeat, enhanced his prestige. For this splendid service to the empire, for maintaining the best traditions of the Russian army, it is reported that he is to be shot to death by order of a military court. The theory is that he should have allowed his soldiers to perish to the last man in a useless effort to stay the advance of the Japanese.

If the British had adopted this theory in the war with the Boers some of their most prominent generals, who surrendered, would have been put to death by court-martial. Stoessel deserves to be honored by his fellow officers and by his countrymen. He deserves every reward to which an honorable and brave soldier is entitled. To shoot him because he surrendered when resistance was no longer possible would put Russia in an unenviable position before the world. It is not by such methods that loyal and heroic soldiers are made.—Valdosta Times.

## Estill is "O. K."

We are in receipt of a communication from McLane camp of U. C. V., No. 595, of Savannah, in regard to the false charges against Estill. These vicious attacks are still being made and circulated. Col. Estill served in the Confederate army and was seriously wounded and honorably discharged. It is disgraceful to make these mean attacks on an honorable citizen just to defeat him for office. The Searchlight is not for Estill for governor, but may be driven to support him on account of these malicious falsehoods told to defeat him. A campaign he is just as mean as any other lie.—Poulan Searchlight.

The above from the Searchlight expresses our sentiments so clearly that we give it space. We wish to call special attention to one expression, i. e. "A campaign he is just as mean as any other lie." This we endorse with all the force and vehemence at our command. We have always contended that the man who weds dirt, in politics, will do the same thing in business. All he wants is an opportunity. The "shop-worn" cry of "All is fair in politics" is as black a lie that ever fell from lying lips. What ever is unfair in business, is unfair in politics, and you can just say we said so.—Turner County Banner.

How to Break Up a Cold.

It may be a surprise to many to learn that a severe cold can be broken up in one or two days' time. The first symptoms of a cold are a dry, loud cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's Cough Remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold and restores the system of a healthy condition within a day or two. Following The Flag.

When our soldiers went to Cuba and the Philippines, health was the most important consideration. While T. Morgan, retired Commissary Sergeant, U. S. A., of Boston writes, "I was two years in Cuba and two years in the Philippines, and being subject to colds, took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now, in New Hampshire, we find it the best medicine in the world for coughs, colds, bronchitis and all lung diseases. Guaranteed by W. H. Ellis, Druggist. Price 60c and \$1.00. Classed Populists With Negroes.

When Hoke Smith spoke at Lawrenceville during the Atkinson and Hines race for governor, he said that the negroes and populists had gotten together in the same boat, where they belonged, and should be allowed to stay together. Now is begging for their support. Upon what ground can a populist who has a scintilla of self-respect vote for him.—Lawrenceville Herald.

## An Open Letter In Reply to Questions Being Asked

The questions can be summed up in two: First, what do I think of the general presentations of the various grand juries in which they endorse my opponent, the present incumbent, for re-election, recommending him to the voters, and in several instances setting out the reasons why he should be re-elected, and second, what effect will said presentations have upon my candidacy.

The second question being one that refers to an interest should be answered, and will be answered by the voters of the circuit when they cast their ballot, and should not be discussed by me in a letter dealing with the right or wisdom of the general presentations to the people. The question then is, is it right or wise, or is it wrong or unwise for a grand jury to recommend any candidate who is to be elected by the votes of the people, whether the candidate be an officer or out of office, to endorse his candidacy and to set out the reasons why he should be elected or re-elected to said office?

I am of the opinion that the question as above stated is one in which the general public have an interest and should consider without reference to its effect upon any individual, no matter who he may be, or for what he may seek the votes of the people, and it will not doubt be readily conceded that if it is right to make such a recommendation then it is wise, or on the other hand if it is wrong to make such a recommendation, then it is unwise. Now, in this letter I take the position generally that such conduct on the part of grand jurors is wrong and unwise, and shall give my reasons therefor without reference to any particular grand jury or its effect, either for or against any particular candidate.

First, when a grand jury is sworn they become a part of that particular term of the superior court. Certain business in the court cannot be transacted without a grand jury no more than it can be transacted without a sheriff, a clerk, a solicitor-general or a judge, and the law lays down and defines clearly and distinctly the duties of a grand jury, and in no instance does the law require or direct or suggest that it is the duty of a grand jury to recommend, endorse or advance reasons why any candidate running for any office elective by the people, whether said office be a judge of the superior courts, an ordinary, a clerk, a sheriff, a tax collector, a tax receiver, a coroner or a bailiff. Then we must concede that when a grand jury endorses, recommends, or gives the reasons why one candidate would be elected judge of the superior courts against another, they go beyond any duty laid down by law for them to discharge or perform.

Second, when of their own volition they select one candidate and give that candidate the recommendation and endorsement, and set out a reason why he should be elected they then, as sworn officers and a part of the superior court, enter into politics and undertake to influence the voters of their county to vote for one candidate against another, and thereby lose sight of the fact that they are grand jurors sworn to faithfully discharge their duties, but turn themselves into a political caucus and undertake to elect one man and defeat another.

Third, if it is right and wise for the grand jurors in their presentments to go into politics and recommend a judge then why do they not continue in doing right and recommend the candidate that should be elected for ordinary, for sheriff, and for all other officers elected by the people? Why should they undertake to guide the people and to mould their conduct in favor of one man for the office of judge against another, and in doing this, what

they must deem a right and wise thing, fail to recommend, endorse and plead the cause of other candidates elected by the people and which should be of as much interest to the welfare of their county as the judge of the superior courts?

Fourth, if it is right and wise for them to thus enter into politics, their acts should be fair and impartial, and without favor, affection, reward, or the hope thereof, would it not be their duty then to make a thorough investigation, summon witnesses, bring the candidates before them, and find out every circumstance connected with the candidate, everything that induced them to become candidates, and to inquire with dispassion into their character, their ability, and their fitness for said offices, and if they fail to do this, then is it not just to say that they have done wrong and unwise? The very first part of their oath contains these words: "You shall diligently inquire and true presentment make of all such matters and things as shall be given you in charge or shall come to your knowledge, touching the present service." Now we could not presume that any judge who was a candidate for re-election would charge a jury that it was their duty to recommend, endorse and set out a reason why he should be elected in preference to his opponent, and we can hardly believe that any Grand Jury, outside of the Grand Jury of the home county of the opponent of the judge presiding and seeking re-election, would have the hardihood to endorse a candidate for judge who opposed the judge presiding and incorporate such endorsement in their general presentment and read it in the face of the judge and ask him to place upon it a judgment ordering it to be spread upon the minutes of the Court and publish it in the papers, then it is these beliefs are true it makes it impossible for the Grand Jury to make a true presentment, and therefore, their duty not requiring them to make any at all, it seems reasonable to conclude that a correct idea of right and a clear understanding of the word wisdom would demonstrate to them that wisdom would say, "Keep out of politics and endorse no man but allow each voter to settle in his own mind his choice for judge, and express that choice at the ballot-box, as he must do, no matter what the Grand Jury should place in their general presentment.

Fifth, the Grand Jury being a part of the Court recommends that the presiding judge be re-elected and endorse him and gives

the same reason why he should be re-elected as he gave in public announcement to each newspaper of the circuit and for which he paid his own money thereby starting a campaign and spending his money in announcing the campaign; when this general presentment is made and read in open court, the judge presiding, the candidates, signed a judgment on the bench in open Court and ordered said general presentment containing the statements showing why he should be re-elected, spread on the minutes and also ordered by said judgment the publication of the said general presentment in the newspapers. Now, notice! The recording on the minutes of the general presentment is paid for out of the county fund. The newspaper who publishes said presentment gets an order from the county Treasurer to pay him, the editor of said paper for the publication of said general presentment, so you see this the judge of the Grand Jury, and under his own signature to a solemn judgment of his own Court, takes from the public fund of this county, money and makes the same a part of his campaign fund, and while his first announcement made over his signature, setting out his reasons for running, is paid for by himself, his second announcement over his own signature is paid out of the money belonging to the taxpayers of the county, and it is also paid over his signature.

Now, if it is right to pay the small amount necessary for the recording and publication of the few lines that recommend, endorse and furnish the reason for the re-election of the judge presiding, then would it not be right to pay out a larger amount for the same purpose, for if a man can spend one cent of the public money exclusively for his own benefit, then why not allow him to spend all of the public money for his exclusive benefit?

Obviously yours,

F. H. Saffold.

Beloved Maryland Statesman Succumbed Unexpectedly, Though He Had Been Ill Several Months.

Arthur Pue Gorman, United States Senator from the state of Maryland, with a record of service of more than twenty years, minority leader of that body, and one of the foremost democrats of the nation, died at his home in Washington at 9:05 o'clock Monday morning.

Senator Gorman leaves a widow and six children as follows: Miss Ada Gorman, Mrs. Wilton J. Lambert, Mrs. R. A. Johnson, Mrs. R. W. Hills, all of Washington; Mrs. Stephen Gambrell of London, England; and Arthur Pue Gorman, Jr., of Laurel, Md., a member of the Maryland assembly.

White Senator Gorman had been ill for many months. He had shown some improvement lately. Heart trouble was the immediate cause of death.

Up to the time of his demise, Senator Gorman was conscious. It was his request that he should be buried in the Hill cemetery, in Georgetown, Md., across Rock Creek from Washington, as by the will of the state of Maryland, which has sent him to the Hill cemetery.

The reading of the message was closely followed by the members of the house.

The members generally seemed shocked by the revolting conditions indicated in the message. The president's message was a most drastic and comprehensive one.

Shocking Conditions Revealed.  
The following is a summary of the report of Reynolds and Neill, the special committee appointed by President Roosevelt to investigate the packing house scandals:

The report says that two and a half weeks were spent in the investigation in Chicago, during which "we went through the principal packing houses in the stock yards district, together with a few of the smaller ones."

## Deluge In The Local Field

### WHEN YOU THINK OF HARDWARE, THINK OF RAINES.

Mr. Grover Hendrix and Mr. S. T. Dean visited Claxton Saturday.

Brooklet Trading Co. are agents for Carhart's overalls at Brooklet.

Dr. I. S. L. Miller, of Mill Ray, was in the city shaking hands with his many friends on Wednesday.

A hacking cough is most annoying. One Minute Cough Cure draws the inflammation out of the throat, chest and lungs. Sold by W. H. Ellis.

18 lbs. granulated sugar to the dollar at Brooklet Trading Co.

Mr. W. H. Blitch has been sick for several days this week.

A full line of Edison's talking machines, also Edison's records, will be found at the Statesboro Music House. Records 85c. each. L. G. Lucas, prop'r.

Quite a number will go down to Aroola this morning to be present at the school closing there. Prof. S. D. Alderman is the efficient principal of this school.

Dr. T. F. Brannen has been on the sick list this week.

The following young ladies returned Wednesday afternoon from Milledgeville where they have been attending the Georgia Normal College: Misses Sallie Rigdon, Lucy Bird, Willie Trappell, Sallie Beasley, Lula Everett.

Mr. Homer Parker returned from Macon this week where he has been at Macon University.

Mr. Jasper Parish, of the upper section of the county, was in town one day this week.

The city court has been making its usual grind during the past day or two. There have been no cases of special interest disposed of.

The heavy rain in the upper section of this county has done considerable damage to the young crops. We have escaped most of the heavy raining to this community that has visited other sections.

Mr. E. H. Donaldson has been on the sick list for several days during the past week.

The sincerest tribute that can be paid to superiority is imitation. The many imitations of DeWitt's Witch Hazel Salve that are now before the public prove it is the best. Ask for DeWitt's. Good for burns, scalds, chafed skin. Highly recommended and reliable. Sold by W. H. Ellis.

Attention is called to the petition for incorporation in another column of the McElveen Improvement Co., of which Mr. Aaron McElveen and others of Aroola are incorporators. It is understood that Mr. P. R. McElveen will also be connected with this business. Mr. McElveen has been engaged in the mercantile business for a number of years at this place, and his connection with the new firm assures its success.

The sworn statement of the manufacturers protects you from opticians in Kennedy's Laxative Honey and Tea, the cough syrup that drives the cold out of your system. Sold by W. H. Ellis.

There will be an examination for county school teachers held in Statesboro on June 29th and 30th.

J. E. Brannen, C. S. C.

In another column will be seen the notice for incorporation of the Pulaski Ginney. Messrs. G. O. Franklin, Wilson Warren and others are at the head of this enterprise and intend to put in a first class ginney.

**Piano Tuning.**  
The only piano tuner in Georgia will be in town Monday next. Anyone wishing fine work done just drop a card to Jerome Follette, Statesboro, Ga., or leave order at the Rountree hotel and Mr. Follette will do the rest. No canvassing done—That's all.

### BROOKLET.

We learn that Mr. Parker has donated his triangular lot, just north of the depot, to the Baptist building committee, and that in the near future a handsome church of modern architecture will be built on it.

The new ginney is being built, and from the appearance of the surroundings it will be second to none in the county when completed. It is claimed that they can gin green-seed cotton at the rate of 500 pounds every twenty minutes.

The writer has been over the county in the past month and he can truthfully say that Brooklet has the best cotton prospects.

The voters of the Newelwood district are requested to meet in Brooklet Friday night, June 8th, at Dr. McElveen's drug store, for the purpose of organizing a Hoke Smith club. Some good speakers will be on hand and a real good time is assured those who can come. Speaking will begin at 8 o'clock sharp.

Dr. Thayer and Mr. Wayne Parish made things lively for the bream in Ogeechee river Wednesday and Thursday. Their catch was something less than 100.

The college girls and boys are in evidence again and I never saw sweeter smiles and prettier girls. It really reminds one of the good old summer time.

Editor News: As I promised to give those who signed the petition for the removal of the site for holding court and elections in the 4th district the results of my canvass, I avail myself of the opportunity to give them notice through the News, as it goes to almost every home in the district.

I have not yet canvassed the entire district, and have 148 names to the petition. There are names to the petition to whom I have not presented it. Several of these will sign it when they have an opportunity to do so. The number who have already signed represents about 85 per cent. of the voters of the district.

As a matter of information I will say that there are two or three men who are asking the people to sign a petition, which states that they have reconsidered the matter of moving the precinct and that they now wish it moved to Stilson. I have no reason to believe that any of them wish to change. I went to them and stated the circumstances as they were. I did not get every one around the proposed precinct that I could have gotten before going to those farthest off, and giving them the first chance to reject or accept the proposed change. They have spoken for themselves and I have no fear of, nor do I suspect, any desire on their part to change, as I have never yet known my friends to change or go back on what they said or did.

I have not presented the petition to but three who refused to sign it. One of these stated that he would not sign either way but was satisfied as it was.

P. R. McElveen

If all the Republican Senators were like Mr. Fulton of Oregon, the country would escape unnumbered evils. "I have looked over Senator Fulton's record in Congress," said Mr. Rayner the other day, "and I find that he never offered any thing of any sort at any time."

Being the only Republican member of Congress from Oregon in either house, who has escaped indictment for land frauds, may account for his modesty.

### Preparing Land For Cultivation.

West Palm Beach, Fla., June 5.—The Florida East Coast Railway Company, in conjunction with the East Coast Canal and Transportation Company, having decided to drain some of their land southwest of town, had an engineer look it over, and last week Engineer Frank Sheen, of this city, established a line of the north canal and dyke, starting in the center of section twenty-eight, township forty-three, south range, forty-three east, running due west four miles from east line of above section. Today Engineer Sheen started out with eight assistants to run west and south lines, taking a team and fifteen days' supply of provisions along. The west line may run as much as twenty miles south, then the south line will run to high land through which the canal will be cut to carry the drainage into Lakeworth. The plan is to cut the canal, throwing the dirt on the outside to form a dyke on the south side. The canal will carry all inside water off and out, thus making cultivatable thousands of acres of the best vegetable and fruit land in the state. This is nothen to do with Governor Breward's scheme to drain the Everglades, but is a private undertaking by the progressive land departments of the Florida East Coast railway, assisted by the East Coast Canal and Transportation Company, and will drain lands of private parties beside the company lands, but at no cost to private owners. The plan will be pushed to early completion, so as to have thousands of acres of land ready for occupancy this fall.

If you knew the value of Chamberlain's Salve you would never visit to a doctor. Here are some of the diseases for which it is especially valuable: sore nipples, chapped hands, burns, frost bites, chilblains, chronic sores, itching piles, tetter, salt rheum and eczema. Price 25 cents per box. For sale by All Druggists.

**Stilson.**  
The farmers of this community are busy fighting "general green," who has recruited his forces since the recent continued showers. He is a brave general, and one that does not believe in a hasty retreat.

Messrs. H. E. Jones and Tom Waters spent Sunday last in Jacksonville.

We learn that there is a movement to bring the court house of this, the Briar Patch, district to our little town. Your correspondent thinks it would be a much wiser plan to bring the Statesboro court house here, if only long enough to patch up the highways and repair a few bridges which are in very bad condition.

The continued sounds of saws and hammers indicate the rapid upbuilding of our little town.

Mr. J. E. Brown, Dr. F. F. Floyd and Mr. J. W. Westberry spent Tuesday night in Statesboro.

We predict that on the day of the primary election Stilson will be found in the Clark Howell column.

**PETITION FOR CHARTER.**  
Georgia, Bulloch County.  
To the Superior Court of said County:  
The petition of George O. Franklin, Wilson Warren and others, of said State and County, respectfully sheweth:

1. That they desire for themselves, their associates and assigns to become incorporated under the name and style of The Pulaski Ginney.

2. The term for which petitioners ask to be incorporated is twenty years, with the privilege of renewal at the end of that time.

3. The capital stock of the corporation is Eight Thousand Dollars (\$8,000.00) divided into shares of One Hundred Dollars each. Petitioner however asks for the privilege of increasing the aggregate Twenty Thousand Dollars (\$20,000.00).

4. Two Thousand Dollars (\$2,000.00) of said capital stock has already been actually paid in.

5. The object of the proposed corporation is pecuniary gain and profit to its stockholders. The business to be done is that of general merchandise to buy and sell groceries, all kinds of country produce, dry goods, notions and hardware, and all such articles and things as are usual in such business and that may be profitably bought and sold in connection therewith, including buggies, wagons, harness, farm supplies, machinery, and other articles of a similar nature.

6. The principal office and place of business of the proposed corporation will be at Pulaski, in said State and County.

Wherefore, petitioners ask to be made a body corporate under the name and style aforesaid, entitled to the rights, privileges and immunities, and subject to the liabilities fixed by law.

This the 7th day of June, 1906.  
A. M. Deal and Fred T. Lanier, Petitioners' Attorneys.

**SHERIFF'S SALE.**
