GERS-SAVE MONEY G.B. Burhans, of Charlisle Center, N.Y., writes: "About four years ago I wrote you stating that I had been enterly oured of a servere kidney trouble by taking less than two bottles of Foley' Ridney Cure. It enterly stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of hose symptoms during the four years that have elapsed and I am evidently oured to the cured, and heartly results of the cured, and heartly results of the cured, and heartly results of the cured of the cure the ticket rate.

The sensibility of the eye depends upon the expansion of the pupil.

One fruitful source of trouble for people who have to wear glasses is that they do not keep them clean.

Beauty culturists have taken the eyes under their care from a decorative well, indeed it is quite the vogue to have rour veil and coat match in color.

Features of W. L. Douglas' Adminis-tration and Jobbing House.

The dedication of the new adminiserected at Brockton, Mass, by the W.

L. Douglas Shoe Co. as a part of its
mammoth manufacturing plant at Montello was marked by the thoroughness
and attention to detail characteristic
of the firm in all its undertakings.

As the new building is said to be the
most complete and convenient of any
ever built for a commercial house in
the United States, so were the expresslopes of appreciation by the many persions of appreciation by the many per-sons who visited it for inspection sin-cere and of a highly congratulatory

the eye, especially the offices, which are marrels in many ways. Fifteen

comfort out of such a coat at this season on her trips out into the country, body.

The eye is affected by the health like other organs of the body, and the great object should be, by healthy of disease and keep a pure mind and a healthy body.

It is quite astonishing how dependent the eye is upon a person's digestion, and there is a strong sympathy between the eye and the ear.

To insure bright and strong eyes through life it is most necessary to take care of them in early youth Many an infant's eyesight has been marred for life by a careless nurse exposing the eyes to too strong a light and every precaution should be taken. The wise do not try their eyes by doing fine work by artificial light.

Rest is a wonderful recuperative. The sensibility of the expension of the pupil.

One fruithil source of trouble for one of such a coat at this season on her trips out into the country, and an interfuments, their provided and an intervence of the country in the expension of the pupil.

Comport out of such a coat at this season on her trips out into the country, and and it provided and an attention of the life by the carely and at the end of that time there were not every spring simply as a give of guests. This spring it took a few visas of guests. This spring it took as a fine champing to the require warm clothing for the large size of guests. This spring it took a few visas of the Cuticura Resolvent Pills are ledgency switchloard and booths for use of guests. The directors' room is a fine champing to every spring simply as a give corner of the 'building. This command the couplying the space in the north-grands and furnished in many proprietors. The provided responsibility of the eye and the ear.

Every woman who motors must give and will poploiments are in the proportion of Mr. Douglas, the president. The worg best cream and astringent is none too give the expension of the other of country in the proportion of the eye depends upon the expension of the pupil.

One fruithil source of trouble for
