### One Killed, Two

Wounded in a Race Riot.  
Greenville, S. C., Sept. 14—A  
small race riot was precipitated  
at Piedmont yesterday afternoon  
as a result of an attempted as-  
sault on Mrs. J. M. Long, wife of  
a prominent farmer of Pied-  
mont district, by Bill Henry, a  
desperate negro about 40 years  
old.

The attempted assault occurred  
in the front yard at the Long  
home the negro had formerly been  
employed by Mr. Long.

Mrs. Long's cries attracted sev-  
eral neighbors and frightened the  
negro away.

A posse was quickly organized  
and the negro pursued to an old  
negro shanty, where, with a num-  
ber of negro sympathizers, he had  
harried himself and was pre-  
pared to fight. The posse sur-  
rounded the house and the ne-

gro came out armed for a fight.  
A pitched battle was engaged  
in with the result that J. M.  
Long, husband of the lady on  
whom the assault was attempted,  
was shot through the arm; Dr.  
Trippie, a member of the posse,  
was shot in the breast and struck  
on the head with a crowbar, and  
one of the negroes named Anderson  
was killed.

The negroes were finally routed  
from their position and Henry  
captured and lodged in jail.

Three others fled and are being  
pursued. If they are overtaken  
another battle is expected.

Mrs. Long is not seriously in-  
jured.

tioned in Dixon's "Clansman."

### Over Thirty Feet in Length.

Mrs. S. H. Harvard wife of a  
Prominent Railroad Man  
Sends Great parasite to  
a Druggist

One afternoon about 4 o'clock  
an unusual occurrence took place  
at the drug store when Mrs.  
Harvard, wife of a prominent  
railroad man living in Savannah  
came up and called for the prop-  
riator. She seemed to be excited,  
and carried in her hand good-sized  
glass dish, which upon examina-  
tion was found to contain an im-  
mense parasite, commonly known  
as a tape-worm, which she handed  
over to the druggist with the re-  
mark that one and a half bottles  
of the famous Plant Juice had re-  
lieved her mother of that awful  
thing.

In the course of the conversation  
that followed it developed that  
she had been suffering for the  
past several years with some sort  
of stomach trouble, which no  
physician had been able to diag-  
nose, and that her condition had  
never improved to any appreci-  
able extent, notwithstanding the  
fact that she had taken about  
every kind of medicine that had  
been recommended to her.

Last week her husband persua-  
ded himself to procure a bottle of  
Dillingham's Plant Juice, and she  
began taking it with probably no  
more hope of relief than usual.  
She kept up the treatment, how-  
ever, and on the 5th day was as-  
tonished at the result. Her gra-  
tification and pleasure over the  
relief she has secured can be bet-  
ter imagined than described, and  
she wanted the world to know of  
the wonderful qualities of the  
remedy that has done so much  
for her.

Since being relieved of the tape-  
worm, which measured thirty-one  
feet in length, her condition  
has rapidly improved, the  
misery feeling has left her  
stomach and she is rapidly round-  
ing into the conditions of a healthy  
and happy woman.

The case of Mrs. Harvard like  
that of Mrs. Bridges has attracted  
unusual attention, and has opened  
the eyes of the people to the  
splendid curative power of this  
wonderful remedy.

In speaking of the case of Mrs.  
Harvard a druggist said: "Of  
course I am gratified to be able to  
afford relief to those afflicted in  
the manner shown by her but I  
have never for a moment doubted  
the efficacy of the desired results.  
From the symptoms displayed by  
the patient I was confident I knew  
her condition, and therefore was  
little surprised when the result of  
the treatment was produced.  
The public would be astonished  
at the number of similar cases  
afflicted of which they never hear,  
and many of which escape even  
my observation, but I have never  
known a case, where the proper  
treatment was taken, where fail-  
ure has resulted. The medicines  
Col. Dillingham manufactures  
speak for themselves, and I am  
only too happy to be able to pro-  
vide relief for suffering humanity  
wherever I find it.

The Dillingham Plant Juice  
remedies can be found on sale at  
several drug-stores of the city and  
county, Simmons Co., and Mr.  
Simmons has a complete supply  
on hand.

The remedies consist of Dilling-  
ham's Plant Juice the unfailing  
remedy for liver, stomach and  
Kidney diseases, besides being a  
splendid blood remedy. The  
Plant Juice Liniment, never fail-  
ing in cases of pains, aches and  
bruises; Plant Juice Eucema Cure,  
bruiser; Plant Juice Asthma Cure,  
Plant Juice sallow and Plant Juice soap—  
a fine toilet article and a certain  
cure from pimples and sores.

The prices of these medicines  
are always the same in the drug-  
stores, and they are in every case  
guaranteed to be of the same ef-  
ficacy and value. When you need  
the remedies ask your favorite  
druggist for them.—Sold by The  
Simmons Co., Statesboro Ga.

### Notice of Intention to Apply For Charter.

In accordance with the provisions of  
the laws of the state of Georgia, the  
undersigned, after four (4) weeks notice  
by publication, will file in the office of  
the Secretary of State a petition for  
incorporation as a railroad company,  
of which the following is a copy:  
**STATE OF GEORGIA, Chatham Co.,**  
To the Hon. Phillip Cook, Secretary  
of State.

The petition of J. Randolph Ander-  
son, W. W. Williamson, A. S. Gucken-  
heimer, T. F. Walsh, Jr., and W. E.  
O'Connor, all of the city of Savannah  
in said county and state, and of G. S.  
Johnston, J. G. Biltch, J. A. Brannen,  
R. Simmons and D. N. Bacon, all of the  
city of Statesboro, in the county of  
Bulloch, in said state, respectively  
shows:

1st. That they desire for themselves  
and such others as may be associated  
with them, to form a railroad corpora-  
tion pursuant to the laws of the State  
of Georgia, to be known and called by  
the name of the Savannah, Statesboro  
and Western Railway, the same not  
being the name of any existing railway  
corporation in the State of Georgia;  
that the length of said road, as near as  
can be estimated, will be about two  
hundred and ten miles; that the said  
road will run in a general north-  
westward direction from Statesboro, in  
Bulloch county, to a point in or near  
Atlanta, in Fulton county, within the  
State of Georgia; that the said road  
will probably run through the counties  
of Bulloch, and Emanuel from States-  
boro to Statesboro, on or near a direct  
line as may be, and thence through  
the counties of Emanuel, Johnson,  
Washington, Baldwin, Jones, Latham,  
Jasper, Newton, Rockdale, DeKalb  
and Fulton to a point in or near the city  
of Atlanta.

2nd. That they desire the said cor-  
poration to be incorporated for the  
period of 30 years, with the privilege  
of renewal at the expiration of that  
period; that the amount of the pro-  
posed capital stock is to be one million  
dollars of common stock, with the  
privilege of issuing, if and when de-  
sired, five hundred thousand dollars  
additional of preferred stock, and that  
the preferred stock shall have no power  
to vote, but shall be entitled to receive  
dividends when earned, up to the  
amount of six per cent, before any  
dividends shall be paid upon the com-  
mon stock; that the principal office of  
said corporation shall be located in  
Chatham county, Ga.; that petitioners  
do intend in good faith to go forward  
without delay to secure subscriptions  
to the capital stock, to construct, equip,  
maintain and operate said railroad;  
that they have given four weeks notice  
of their intention to apply for said  
charter by the publication of this  
petition in one of the newspapers in  
which the Sheriff's advertisements are  
published, in each of the newspapers  
published in said county, in each of the  
counties through which said proposed  
road will probably run, once a week  
for four weeks, before the filing of said  
petition. Petitioners further desire  
that the corporation have the right to  
issue bonds and in general, to perform  
such acts and enjoy such rights and  
privileges, as are customary in the  
cases of similar corporations.

Wherefore, your petitioners pray  
that the charter of said railway corpora-  
tion may be granted them as herein  
prayed for, and that they, their asso-  
ciates, successors and assigns, be in-  
corporated under and in accordance  
with the laws of the State of Georgia,  
in such case made and provided.  
This 6th day of Sept. A. D. 1906.

### WARNING

This is to forewarn all parties  
against harboring my son, James  
Feldon Bowen, as he has left his  
home without any cause and is a  
minor. Any person or persons  
guilty of violating of the laws  
covering the harboring of minors  
will be prosecuted as provided for  
in the statutes.

Persons are further cautioned  
against trading or making any  
contracts whatever with him, as I  
will not be responsible for same.

Respectfully,  
Pembroke, Ga. James M. Bowen

### How to Avoid Appendicitis.

Most victims of appendicitis are  
those who are habitually constipated.  
Orino Laxative Fruit Syrup cures  
chronic constipation by stimulating  
the liver and bowels, and restores the  
natural action of the bowels.  
Orino Laxative Fruit Syrup does not  
nauseate or grippe and is mild and  
pleasant to take. Refuse substi-  
tutes. W. H. Ellis.

### Stancel-Miller.

Miss Mae Stancel and Mr. Chas.  
Miller were married here Thurs-  
day afternoon, Rev. Mr. Mac-  
Donnell officiating. The young  
people live at Enat and are very  
popular with all who know them.

### JUDGE RUSSELL IS NOW A CANDIDATE.

Atlanta, Sept. 18.—Judge Rich-  
ard B. Russell has been made a  
candidate for one of the judgeships  
of the proposed State Court of  
Appeals without his knowledge or  
consent. In other words, Judge  
Russell's friends have put him in  
the race by paying his \$100 as-  
sessment to Chairman Miller to-  
day, and it was stated by Walter  
R. Brown, who was Judge Rus-  
sell's close friend and adviser in  
his recent race for Governor that  
Judge Russell would not know  
that he is a candidate until he  
sees the announcement in to-  
morrow's papers.

Judge Russell, it is said, has  
received letters from all parts of  
the state urging him to make the  
race, but he decided to keep out  
of it. Mr. Brown has also re-  
ceived letters from many parts of  
Georgia suggesting that he urge  
Judge Russell to enter the race  
for the Court of Appeals, and  
stating that because of Judge  
Russell's well known ability,  
many voters whose ballots were  
cast for other candidates for  
Governor would be glad to give  
him their support for this position.  
Emerson H. George, representa-  
tive from Morgan county, today  
announced his withdrawal from  
the race for the Court of Appeals  
and says he will work for Judge  
Proffit of Elberton, T. F. Green  
of Athens and Judge Fred C.  
Foster, of Maderon.

### The Cheapest Stump Puller

This is not an advertisement.  
I wish to tell the farmers of Bul-  
loch what I saw in Mississippi.  
A farmer was taking out pine  
stumps, and his plan was the  
cheapest and most economical I  
ever saw:

Tools: A mattock, a spade, an  
ax and a ship augur with shank  
about four feet long.

Operation: Dig a good deep hole  
on the lowest or down hill side of  
the stump, below lateral roots  
and to main stem of the stump.  
Then bore a hole diagonally  
upward right through  
the main stem of the stump, from  
the bottom of shallow hole to the  
bottom of the deep hole. Use  
a ship augur not less than one  
and a half inch. Other augurs  
will choke, ship augur will not.  
Use a pin nearly size of hole and  
clean out all chips. Let it stand  
a few days to dry out the hole.  
make fire in the deep hole, and  
when blazing good, if it does not  
start through the hole of its own  
accord, push a long pin into the  
hole from high side and jerk out  
quickly. This will start the fire  
through the hole, which being di-  
agonal will draw it through and  
out goes the stump. A few chips  
to start it and then the fire being  
in the center of the stump will  
not rain out and seldom go out.  
The bigger and fatter the stump  
the easier it will burn out. A  
stump pulled out must be hauled  
off or burned up, but a stump  
burned out is both out and gone.

To meet the scarcity of labor  
farmers must use improved in-  
struments, but they cannot do this  
until stumps are out. Get stumps  
out and then use improved tools.  
J. A. Scarborough.  
Sommit, Ga., Sept. 18.

The laxative effect of Chamberlain's  
Stomach and Liver Tablets is grad-  
able and so natural that you can hardly  
realize that it is produced by a medi-  
cine. These tablets also cure indiges-  
tion. For sale by all druggists.

### Turner Shows His Spleen.

Last week's Bulloch Times  
appeared an article on the con-  
gressional situation. In that ar-  
ticle it was stated that I had suf-  
fered constantly at the hands of my  
friends during the campaign.  
That men have assumed to speak  
for me who have formed alliances  
and took positions which defeated  
me. That I had formed alliances  
and made trades with the Estill  
forces by which I was to carry  
Chatham county and a general to-  
tality against myself and friends.  
I called on the editor for specifi-  
cations, and the burden of his re-  
ply was that Mr. J. R. Miller was  
the main cause of all the trouble.  
That Mr. Miller as editor of the  
Statesboro News had injured me  
opposing Hoke Smith, etc. Ac-  
cording to Hoke Smith, Mr.  
Miller had no right to oppose  
Hoke Smith, because I was a can-  
didate for congress, and while the  
convention was in session Turner  
proceeded to publish an editorial  
of the stockholders in his paper  
condemning him—and he says J. R.  
Miller of the Statesboro News, and  
wanted to fight Miller over my  
shoulders. They all know it was  
not his solatitude for my interest,  
nor his "regrets" over what he  
terms, Miller's conduct in the  
campaign. Everybody knows it  
was pure venom and spite toward  
Miller, and to me, because I am  
a stockholder in the News. Accord-  
ing to Turner, Editor Miller had  
no right to oppose Hoke Smith,  
while he had a perfect right to op-  
pose Howell, Estill and Russell.  
Some of the stockholders of the  
News were for Hoke Smith, while  
some of the stockholders of the  
Times were against Smith. Each  
editor did as he pleased regardless  
of who the stockholders were for.  
Now Turner is mad simply be-  
cause he thought I had the right,  
and ought to take the authority  
to make Miller support Smith,  
and he blames me along with  
Miller, for Smith's defeat in Bul-  
loch county. None of the other  
stockholders in the Times do  
blame me, because they have more  
sense.

Turner no doubt expected to  
reap some profit or reward in sup-  
porting Smith—otherwise I can't  
see why he is so mad about it,  
that he has to jump on me while  
the convention was being held in  
Statesboro, and try to do me dirt  
at that particular time. He need  
not blame any of my friends for  
anything they may have done dur-  
ing the campaign. He is not the  
proper man to blame my friends.  
He don't do it in good faith—but  
in bad faith. Not done to help  
me—but to injure me, and he  
knows it. He need not try to side  
step it to my mistake of my son,  
nor my friend Rafe Simmons. I  
do not like to use harsh language,  
and will not do so. But the truth  
is, Turner wants to fight Miller  
over my shoulder and I will not  
allow it. Let him fight Miller  
straight and no doubt Miller will  
accommodate him. Turner started  
this racket and now I commit  
him to the tender mercies of his  
accused enemy. Admitting that  
I did lose votes because Miller op-  
posed Hoke Smith, that was a  
mistake that I can excuse, because  
Miller had the right to do as he  
pleased, and I would rather suffer  
defeat than attempt to throttle a  
man in either his religious or  
political rights, and I am not  
complaining at all things my  
friends done—while he pretends  
that he regrets the acts of my  
friends, and points out their mis-  
takes in the public prints. He  
did it solely to injure me and he  
knows it—and that for no good  
cause. J. A. BRANNEN.

### Statesboro's Big Boom.

Statesboro was never on a big-  
ger boom than at the present time.  
That the city is growing and de-  
veloping along every line of useful  
industry cannot be denied. Slow  
but sure has been the history of  
the city's growth since the first  
railroad was built here fifteen  
years ago. Periods of depression  
have been offset by seasons of  
prosperity. This year, when busi-  
ness has been unusually dull and  
in the face of a short cotton  
crop—the great money product of  
the south—the work of building  
up the city is going ahead at a  
rapid rate.

More buildings are going up  
than at any time in the history of  
the industrial life of the town.  
And the supply is not equal to the  
demand. Families who would  
move here to take advantage of  
the school cannot do so, as there  
are no houses for rent. Not a  
empty house can be found in the  
counties of the town. It is pretty  
safe to say that twenty-five new  
residences are needed in States-  
boro at this time.

The brick stores on West Main  
street, below the post office, are  
about completed, and, in fact, one  
of them has already been occu-  
pied. The J. P. Williams resi-  
dence on South Main street, the  
most costly and handsome structure  
of its kind in the country  
counties of south Georgia will  
soon be ready for occupancy. This  
residence is costing \$90,000. W.  
B. Martin is having a \$10,000 re-  
sidence built on North Main street.  
The J. W. Olliff company is hav-  
ing a mammoth warehouse, 100 x  
100 feet, built for the storage of  
buggies and wagons. A two-room  
annex to the Statesboro institute  
is being pushed as rapidly as pos-  
sible to accommodate the students  
of Statesboro. A large brick liv-  
ing stable on the north-east side of  
the court house square is being  
built. Work on a fertilizer fac-  
tory will begin at once. The  
Bank of Statesboro will build a  
new bank building on their lot  
within the course of a few months.

The post office receipts are con-  
stantly growing. They are twice  
as large as they were last year at  
this time.

Now, don't all of these things go  
to prove that Statesboro is living,  
breathing, growing, every hour?  
Just watch Statesboro become  
the Metropolis of "Wiregrass"  
Georgia.

James M. Nichols, a local merchant,  
for something to stop the pain. Mr.  
Nichols says: "I advised him to use  
Chamberlain's Pain Balm, and the first  
application drew out the inflamma-

### Fertilizer Factory Assured.

The fertilizer factory so long  
talked of will be built within the  
next few weeks. A site, which has  
always been the cause of conten-  
tion, has been agreed upon. It  
will be located near the Bulloch  
oil mill, on the S. & S. railway.  
This site meets with the approval  
of the council and they have given

### Wreck on Freight Train

There was a wreck on the east  
bound freight at Gooding, about  
three miles west of Statesboro,  
Wednesday afternoon, caused by a  
number of detached lumber cars  
running into some trucks stand-  
ing on the track. The damage  
done was slight, and one being  
thrown from the track. No one  
was injured in the wreck, the  
worst trouble being delay of a  
few hours in the schedule.

The west bound passenger could  
run no further than the scene of  
the wreck, but a train from Dul-  
wich was on hand and the passen-  
gers were transferred to that train  
with little loss of time. A  
wrecking train came up from  
Savannah and soon the wreckage  
was cleared away. The trains  
were able to run all right Thurs-  
day morning.

### First Car for the Fair.

The first car load of product  
for the fair exhibit at Macon left  
here on yesterday afternoon. It  
was loaded with lumber, grain  
etc., to be used in the decoration  
of a booth to hold the agricultural  
exhibit of Mr. J. R. Miller at the  
Macon fair. A force of workmen  
will go to work on Monday morn-  
ing to construct the booth. Mr.  
R. H. Donaldson will assist Mr.  
Miller again this year and will  
leave for Macon on Sunday morn-  
ing.

### OBITUARY.

In loving remembrance of Miss  
Bernice Brannen, the 15-year-old  
daughter of Mr. and Mrs. Edmond  
Brannen, who passed away Saturday  
morning, September 5, 1906, after  
illness of two weeks with typhoid  
fever. She was laid to rest on Sunday  
morning, the funeral services being  
conducted by Rev. J. L. Smith to an  
immense number of sorrowing friends  
and friends and relatives. All med-  
ical aid and loving hands failed to  
relieve her, but God, in His tender  
mercy, relieved her, by calling her to  
live forever in that home beyond the "Gol-  
den Bar," where there is no sickness  
nor sorrow. The sun of her sweet ex-  
istence shone out brightness while it  
was yet morning and sank down to  
rise and shine again, glorified and re-  
splendent in the paradise of God. We  
know it was hard for her parents,  
brothers and sisters to part with one  
of such a lovely disposition, and whose  
bright smiles brightened up their  
happy home, but we all must be sub-  
missive to God's will, for He knoweth  
best. Not only is she missed here,  
home, but among her host of friends,  
who were always ready and anxious to  
welcome her in their midst. So the  
heavenly father saw fit to welcome her  
into a home He had prepared for her  
where all is love, joy and peace,  
and she is now resting in the imagi-  
nation we see her bright, smiling face  
before us, and feel in our hearts her  
sweet presence still.

Gone? Oh, yes, we know forever,  
but its pure, sweet life, with all of its  
grace and beauty throws beams of  
light into our saddened hearts,  
drawing us in trust with Christ, who  
has a hope on earth and a never fading  
joy in heaven.

Oh, bereaved ones, accept this con-  
solation: She is now resting on eter-  
nity's side awaiting the resurrection,  
when all the faithful shall meet to  
part no more.

Her Cousin,  
EDNA MINCEY.

### FOR THE FARMER AND STOCKMAN

**Effective Trap Nest.**  
A very simple trap nest is thus described by Orange Judd Farmer: One compartment is removed to show the interior construction. Each compartment is made of wire mesh and is twelve inches high and thirty inches wide, while the nest box is twelve inches square and three inches deep. Every poultry raiser knows the value of a trap nest, so it is not necessary to enter into its utility. Any number of them may be constructed side by side, and all supplied in the same manner. The doorway at the front is ten inches wide and twelve inches high. The door is made of wire mesh and is caught at one corner with a screw. When it is set the doorway is open, but when the hen enters she is caught by the door.

### CUBANS BADLY SCARED.

Threat of intervention causes Palma to issue Peace Decree. See separate letter for details.

The great topic of conversation to the exclusion of everything else in Havana Saturday was President Roosevelt's letter regarding the situation. President Palma declined to be interviewed on the subject, but it is known that he has every confidence of a "square deal."

Commander Caldwell called the navy department that the revolution leaders assured him that they had ceased hostilities and again offered to bring him their arms, etc., and disband their forces. Commander Caldwell stated he believed that he could, if authorized, and the inauguration at once. Up to Sunday night, however, no instructions in this connection had been received. The commander also reported to the department that negotiations for peace had been opened with the government, and that he believed an end of the trouble would result. He added that he was informed constantly as to the attitude of the revolutionary leaders.

In an open letter, Alfredo Zavala, president of the liberal party, offered on behalf of the liberals to negotiate peace on the basis that Senator Fola should continue as president; that two of the cabinet ministers shall be members of the liberal party; that the municipal officers removed last year shall be restored; that the electoral laws shall be revised and that new elections of senators and representatives shall be held, and also elections of governors and provincial officers to fill the vacancies of those removed last December. Senator Zavala says that the revolutionists have accepted all these terms, and he is now waiting to go on; that the government was expecting help from the United States. Three American warships are the most imposing and interesting objects in Havana bay. Their presence was designedly, yet politely, typical of the fact that it is the intention of the United States to take a hand in Cuban affairs to the extent at least of bringing order out of the present chaotic condition.

On the other hand the government is making final strenuous efforts to restore peace in the island and thus avoid any kind of American intervention. The object of these endeavors, it is stated, is that it may be able to say by the time Secretary of War Taft and Acting Secretary of State Bacon arrive that peace has been secured and therefore there is no need for the American government's intervention, either to restore peace or insure permanent tranquility.

Members of the government state they are making efforts in connection with the advice in President Roosevelt's letter; that they have no objection to the friendly assistance of the United States in the matter if it becomes necessary, but they believe they can settle it between the government and the revolutionists without the necessity of any intervention. At least one of the men who are attempting to accomplish this end, aided, with fair prospects of success. This is the latest phase of a rapidly changing situation that developed last Sunday afternoon when an extraordinary gazette was issued containing a peace decree signed by President Palma.

### WAS BEMOANING CRY OF ALEXANDER, EXILE EMBEZZLER.

ARRESTED IN PITTSBURG

Pled From Augusta, Ga., Last July After "Hitting" Banks for Nearly \$200,000—Broken in Health and Spirits.

Broken in health and spirits by the terrible experiences of the past three months, Thomas W. Alexander, formerly a wealthy broker and prominent socialist leader of Augusta, Ga., was arrested in a hotel at Pittsburgh, Pa., Sunday night charged with the forgery of documents on which he is said to have realized \$200,000 before his sudden departure from Augusta two months ago. Alexander and his brother were partners in a brokerage business, and his downfall is attributed to speculation in cotton.

The prisoner was permitted to remain temporarily in his room at the hotel under guard of two detectives. He signified his willingness to return to Augusta without requisition papers.

"I would face my accusers a thousand times rather than live the past two months over again," sobbed the prisoner, as he sat in his room.

Since his hurried departure from Augusta, after his financial crash, Alexander has been a fugitive. Traveling almost constantly, he has been in the hands of the police in New York, Philadelphia, St. Louis, Chicago and other cities, until with his nerves almost completely wrecked, he finally arrived in Pittsburgh Friday.

Going to a hotel he registered as Thomas W. Barton. He had not been in the city more than a few hours until the Augusta officials had been tracing his whereabouts. When the detectives walked up to Alexander in the lobby of the hotel, he was nervously pacing back and forth, his chin sunk upon his breast.

"You are under arrest, Mr. Alexander," said one of the officers.

"My God, caught at last! Hurry, take me out of this crowd," was the reply.

The detectives escorted him to his room. There he broke down completely. At first he was not willing to return to Augusta without a legal fight. He seemed to dread his return to the city where only two months ago he was one of the leading business and club men. Finally he consented to go without a requisition.

Alexander at the time of his disappearance was a man of remarkably striking appearance, tall and well-built, with a clear eye, and nervous energy. The man who will go back to answer to the city where only two months ago he was one of the leading business and club men, and that a shadow of his former self.

He told the officers that after making his escape he traveled constantly.

### THE HORSE OF YORE.

Was Thirty Feet in Height and Was Hard to Mount.

Out in Wyoming a lot of scientific grubbers have unearthed the fossil remains of a horse thirty feet high and more than thirty feet long. The grubbers seem to have pined the horse together without any comment, and they are now waiting for information concerning either his genealogy or his track record.

A horse thirty feet long would appear to be a magnificent creature. If he belonged to the cave man the latter certainly had his hands full. A horse so tall that a thirty foot ladder would be necessary to reach his back would be a pride of the stable—although no ordinary stable would begin to accommodate him. If the cave man had a ladder, and couldn't borrow one, the next best thing to do was to climb a tree. Then try to imagine him climbing a tree with his hands full of a heavy bundle on his back, only to find when he attained the right altitude that the horse had moved beyond reach and was peacefully browsing on the tall grass of the jungle!

Of course a thirty-foot horse could be expected to cover much more ground than the ordinary animal of the same breed—even at a walk. And if he took it into his head to work his way across lots there would appear to be no reason to think that he would go down before him like strubble, and a merely playful cavort would carry him over raging torrents. When a thirty-foot horse alighted at a bit of white paper in the roadway the chances are that he jumped clear over into the next county.

As a way of making the thirty-footer more of a curiosity than a nuisance, let us suppose a man to be blind and unreasoning. When he chanced his blind path across the ground, the very first horse alighted at a bit of white paper in the roadway the chances are that he jumped clear over into the next county.

### THE PULPIT.

A BRILLIANT SUNDAY SERMON BY THE REV. D. H. OVERTON.

Subject: God's Obligation to Man.

Brooklyn, N. Y.—The Rev. Daniel H. Overton, pastor of Greene Avenue Methodist Church, preached the following sermon on Sunday night in the Methodist Episcopal Church at the union service with his own congregation. The subject was "God's Obligation to Man." The text was from II. Timothy 1:13: "Who saved us, and called us with a holy calling, not according to His own purpose and grace, which was given us in Jesus Christ by His own compassion."

There is the law of God and there is the gospel of God. Often have I spoken of the law of God, now I will speak of the gospel of God. The law of God is the law of duty, and the gospel of God is the law of love. The law of God is the law of duty, and the gospel of God is the law of love. The law of God is the law of duty, and the gospel of God is the law of love.

### NEURO COOKS TO FORM TRUST.

Servants Also Will Combine in House Cleaning Organization.

Some of the leading negro men in Richmond, Va., have organized the Virginia House Cleaning Company. Its object, as stated in the charter, is to form a gigantic co-operative "trust" of all janitors, female and male house servants and cooks now employed in the homes of white families and in the hotels and restaurants of the city. The concern intends to substitute trained house cleaners wherever worthless ones are found.

### DOCTORS AT DISGRACEFULLY.

While They Wrange Injured Men Died or Others Suffered.

Two persons were killed and thirty were injured by the collision of two heavily loaded electric cars in San Francisco Sunday. Following the accident, a clutch of authority occurred between surgeons of the railway and City Emergency hospital as to who should render aid to the wounded. The police finally took a hand and the injured were taken to the Central Emergency hospital.

### LAND OPENING CELEBRATED.

Great "Blow-Out" Pulled Off at "101" Ranch, Oklahoma.

Forty thousand people attended the celebration of the thirtieth anniversary of the opening of the Cherokee strip of the "101" ranch, near Bliss, Oklahoma, Sunday. The celebration consisted of wild west shows and Indian exhibitions. Five hundred Indians took part.

### SHOT AT NEGRO, KILLED GIRL.

Balliff, Attempting to Make an Arrest, Sent Fatal Bullet Into Tent.

While attempting to effect the arrest of a desperate negro during the performance of Jones' circus at Sanderson, Ga., Balliff A. P. Heath fired a bullet into the tent which struck a girl and killed her.

Black Spots All Over Face—Cured by Sarsaparilla.

Black Spots New Clear as Ever—Attributed to the Cuticura Remedies.

"About four years ago I was afflicted with black spots all over my face and a few covering my body, which produced a severe itching irritation, and which could not be cured by any other means. I was suffering to such an extent that I was forced to call in one of the leading physicians of my town. After a thorough examination of the diseased complaint they announced to me that the eruption was due to the impurities of my blood. I was given a course of medicine for the same for the length of one year, but the treatment did me no good. Finally my sister purchased a set of the Cuticura Remedies, and after using the contents of the first bottle of Cuticura Resolvent in connection with the Cuticura Soap and Ointment, the breaking out entirely stopped. I continued the use of the Cuticura Remedies for a few days, and after that every spot was entirely gone and the affected parts were left as clear as the rest of my face. I have since used the Cuticura Remedies, and have cured me of that dreadful disease, eczema, but other complaints troubles me. I am now a healthy man. My name is John A. Selma, Ala. Oct. 28, 1905."

After a thorough examination of the diseased complaint they announced to me that the eruption was due to the impurities of my blood. I was given a course of medicine for the same for the length of one year, but the treatment did me no good. Finally my sister purchased a set of the Cuticura Remedies, and after using the contents of the first bottle of Cuticura Resolvent in connection with the Cuticura Soap and Ointment, the breaking out entirely stopped. I continued the use of the Cuticura Remedies for a few days, and after that every spot was entirely gone and the affected parts were left as clear as the rest of my face. I have since used the Cuticura Remedies, and have cured me of that dreadful disease, eczema, but other complaints troubles me. I am now a healthy man. My name is John A. Selma, Ala. Oct. 28, 1905."

Russell Sage is not the first man, suggests the Baltimore American, who dumped his troubles on a woman.

It must be plain to everybody who thinks about the matter at all, observes the New York Sun, that the crime of passion, as part of private revenge, if it is followed by a certain number of acquittals, may create a very difficult problem for those whose duty it is to preserve law and order.

Tippling or tipping—which is the worse? might serve as a topic for up-to-date debating societies. We all know the enormity of tippling, but it is only when one goes back from his vacation—his picnic supply and his faith in himself—will he realize beyond repair that he has realized the total depravity and awful enormity of the tippler.

The entire issue of \$30,000,000 of two per cent. National Central bank has been subscribed for, the bids averaging above 102 3/4. This is believed, observes the New York World, to be the first time that any government has succeeded in selling two per cent. bonds at a premium. Whatever influence popular currency conditions peculiar currency conditions had in making this price the bids are nevertheless a remarkable demonstration of financial confidence in continued prosperity.

The return of Mayor Belcher, of Paterson, and his sentence to State prison for twelve years, upon his confession, meet every requirement of tragedy and poetic justice. Here was a man of high place, remarks the Newark Call, who fell to the darkest depths; who sought oblivion and found it intolerable and who, having tasted the drug, returned to face punishment, willing to suffer all public disgrace and punishment rather than longer endure the horrible loneliness of unrepented crime.

The following from a North Carolina paper, the People's Paper, of Charlotte, is worth remembering: Buy a farm, young man. No matter how small it may be, buy a farm and prepare to do so that your land will provide you a living. Twenty years from now the man that owns his farm will be independent and will have at his command the means of a livelihood. The expansion of manufacturing cannot go on forever, and there will come a day in this country, as there has in others, when the supply will exceed the demand and the only absolutely safe occupation will be farming. Buy a farm while one may be had.

Obviously an impartial commission of experts would be the ideal tribunal to pass on all cases of supposed insanity. But the exact opposite is the case, declares the New York Herald. Instead of arriving at a joint conclusion the learned gentlemen take sides against each other, and confusion is worse confounded. It is this practice that lowers expert scientific testimony past all hope of that respectful recognition that it might otherwise justify claim. The experts are usually very evenly matched and valiantly swear emphatically opposite to each other on apparently the same facts. Even "the most intelligent jury" is at a loss to know which is which, and the judge is usually no better off.

Printer's ink, liberally and indiscriminately applied, is today recognized as one of the fundamental factors in the promotion of a city or a business enterprise, observes the Atlanta Constitution. A man or body of men may own or control a gold mine or a diamond bed. But unless they apply the world of that fact, both are likely to remain unexplored and unproductive. The need of persistent and wide-awake publicity is the more patent in this day of three commercial rivalries. Practically every Southern city of any enterprise or pretensions is engaged in an aggressive campaign with the object of impressing its trade advantages on possible customers, of increasing its roll of patrons in its immediate territory, and reaching out into new and untouched fields.

GEORGIA BRIEFS

Deadlock Hard and Fast.

The congressional convention of the First Georgia district convened again the past week in Statesboro after an adjournment of the conclusion of 461 ballots without a choice. Col. Leo Moore sprang quite a sensation by reading two affidavits that Mr. Shepard, the day following the majority, thinking he had the popular majority in the district, was heard several times to remark that for that reason he should be nominated. Now that it appears that Mr. Brannen received a popular majority of over 1,300 votes Mr. Shepard refuses to yield.

Aid For Agricultural Colleges.

Governor Terrell did some important work for the new district agricultural colleges to be established in Georgia on the occasion of his recent trip to New York, from which he has just returned. While in New York Governor Terrell was in conference with several of the members of the committee on the college board, and as a result of these conferences the board agreed to take up the Agricultural College, the new district agricultural colleges and other agricultural institutions at its next meeting, and see to what extent it could lend them its assistance in the work they are doing.

Not Yet, But Soon.

The battleship Georgia, which is soon to be commissioned, cannot yet be named. It is believed that the name she should bear is not yet decided. This information was brought back from Washington by Governor Terrell, who has just returned from a trip East. The Georgia will be the first battleship to be built in this country, and it will be the only one to be built in this country. It will be the only one to be built in this country.

Negroes Bypass Street Cars.

The Savannah Electric company is now facing a boycott from the negroes on account of the putting into effect of the law providing for the separation of the whites and blacks on the street cars. The action on the part of the company was not voluntary. The city council passed a city ordinance forcing the company to separate the races on the cars. The negroes immediately began to walk and leave the cars. In this they are being encouraged by the negro preachers and others.

State Will Appeal.

The state will file with the state supreme court an appeal from the judgment of Judge Pennington, of the Federal superior court, declaring unconstitutional the section of the general tax act that places a two and one-half per cent gross tax receipt upon all express, telegraph and telephone companies. This case was brought into Judge Pennington's court by the Southern Bell Telephone and Telegraph company, which declined to pay an assessment of \$20,000 made by the state. Complaint was filed in the state supreme court on the 15th of the month. The amount claimed by the state covers a period of four years.

A Delayed Platform Plank.

A delayed plank in the platform of the democratic party, as adopted by the recent state convention held in Macon, and aimed at the jug counties in city counties as just come to light. This plank, which is announced as a part of the platform, and will stand by its own merits. "We recommend the passage of such laws by the legislature as will effectually protect the prohibition against the importation of intoxicating liquors within their borders." Secretary Cabanis explains that the reason this plank was left out of the platform, as published, is that it was written in a separate piece in a copy detached from the typewritten copy and got lost in the shuffle.

District Agricultural High Schools.

The law establishing an Agricultural High School in each Congressional district is a distinct advance in the best features of the experiment in agricultural education. It incorporates being made by Miss Berry, near Rome, thus enabling us to establish such a school in each of the eleven districts. The law requires that these schools shall be under the general direction of the Board of Trustees of the University of Georgia to secure unity of plan and efficiency. All fees arising from sale of fertilizer, seed, etc., are appropriated for the establishing and maintaining of these schools. Each school will have a faculty of about \$4,000. One trustee is appointed from each county. This will give us 14 men directly interested in Agricultural Education, and associated with the Agricultural College. Each school is to be given 200 acres of land and buildings, and reaching out into new and untouched fields.

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chief study. Like thousands of others, Mrs. Ora A. Stephens, of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, its grand for throat and lung troubles." Guaranteed by W. H. Ellis, druggist. Price, 50c and \$1. Trial bottle free.

FIFTEEN NEGROES ARE SLAIN IN ATLANTA RIOT.

Some of the Reports Give the Number of Killed at 30, With Many Others Wounded.

Atlanta, Sept. 23.—The police now report fifteen negroes dead, and reports of fresh attacks by the mob are coming in every few minutes.

One report has it that there are four or five bodies of negroes lying in a lumber yard out Marietta street, a mile from the center of the city.

The disorder was by no means confined to the center of the city, but broke out on all sides.

Another report brought in at 1:40 a. m. says the mob has just killed a negro on Peters street. Several others had been beaten but all the negroes in that section of the city made themselves scarce.

Another report to the police has it that a white man was lately cut by a number of negroes in the neighborhood of the Piedmont Hotel. The negroes escaped and no arrests were made.

Atlanta, Sept. 23.—Rumors have it that at least twenty-five to thirty or more have been killed, but it is impossible at the time to confirm these reports.

Atlanta, Sept. 23.—At 2 o'clock this morning the downtown district is quiet. All reserve police are duty with Winchester rifles. A heavy rain has begun and this has cleared the crowd and police are patrolling the streets.

Atlanta, Sept. 23.—Col. Clifford Anderson of the 11th Georgia Regiment in charge of a squad of 100 militiamen, is patrolling the center of the city. It is not expected that more than a full company will be mobilized in the morning. What action is to be taken to-day will depend upon developments at sunrise.

Atlanta, Sept. 23.—Ten negroes are known to have been killed and unverified reports have been received of as many more killed by a wild mob assembly on the streets tonight who captured and delt roughly with every negro who came along.

The police could do nothing with the crowd.

Violence broke out in various parts of the city, and apparently about the same time.

The principal mob gathered in the center of the city on Peachtree street, at the junction of Marietta and Decatur. Every passing street car was held up in the search for negroes.

OTHER ACTS OF VIOLENCE. In addition to the violence delt negroes wherever they could be found, plate glass windows were smashed several small truit stands were wrecked, and the mob in its will recklessnes seemed to hesitate at nothing.

The people were incited to this violence by reports of three attempts at assaults upon white women on the outskirts of the city to-day. Half a dozen extras, detailing these assaults under deflating headlines covering the half of the page were got out tonight by the afternoon papers, and these

Convention Meets Again.

(Special to the News.) Waynesboro, Sept. 24.—The congressional convention of the First district met here today for its fourth session. This, however, is the first time it has met here; the other three sessions having been held at Statesboro.

The deadlock is still on and there is no sign of a break by either side. The delegates will stand by their instructions to the last. The advantage claimed to have been gained by the Sheppard forces in having the convention removed from Statesboro to Waynesboro is not as great as they seemed to think it would be.

McKenzie, the alternate from Burke county, who voted with the Sheppard delegation to remove the convention, will not be allowed to sit in the convention as a delegate again.

Some of the delegates arrived Sunday and Sunday night, but most of the delegates came in on the train this morning. Both of the congressional candidates, Messrs. Brannen and Sheppard, are on hand.

The personnel of the convention does not differ materially from that of the other sessions. Secretary Warnell is at his post ready to look after the roll call and balloting.

The convention met in the court house at 12 o'clock and was called to order by Col. E. P. Miller, the chairman, who has previously presided over the sessions of the body.

"We are not trying to get Alf Moore hung, but this is the only chance that we can see to prove us innocent of that awful crime. Alf says he was at Carter's when the Carter children were killed. We know that we were not there, and if Alf tells the truth when he goes on the gallows he will tell that we were not there and that he never saw us until he saw us in this jail. I don't look reasonable that Alf will tell a lie on us on the gallows—Almost all mudsuckers confess on the gallows, and we think Alf will.

"GIVES US A CHANCE." "We can't see where it will do anyone any injustice for Alf to be hanged twenty or thirty days ahead of us and it gives us a chance to establish our innocence. It looks like if the people are after the truth they will insist on this being done, and we do earnestly beg the good people all over the state to help us get the governor to set our sentence twenty or thirty days after Alf Moore's. If so, we feel that the truth will come and that we will go free. If the negro should happen not to clear us, we will be in no worse fix than we are now. Yours truly, "Milton and Jesse Rawlins."

"The boys have got that thing down exactly right," said J. G. Rawlins. "That's the solution of the whole matter. The nigger will squeal when they put that rope around his neck, but let me get back to what I was reading awhile ago."

Rawlins Boys Believe Alf Moore Will Save Them Valdosta, Ga., Sept. 21.—Jesse Rawlings, the youngest of the Rawlings boys, sent for The Journal correspondent to come to the county jail this morning, as he had a statement which he wished to make. The reporter responded and found Milton and Jesse engaged in writing a statement.

"Set down there and let me shoot at you a few times while the boys are finishing that up," said the elder Rawlings, who was reading the Bible. He began reading the chapter which relates to the visit of Nicodemus to Christ and followed it up with scores of passages from other chapters. The boys finally finished up their statement, which is as follows:

STATEMENT FOR PUBLIC. "To the public: We wish to say in the outset that we are innocent of killing the Carter children, but the way that the thing is being managed, it looks like a being managed, it looks like a slim chance for us to establish our innocence. We wrote Mr. and Mrs. Cooper to come down here and we thought we could get them to do something for us. We don't want our case carried to the ward board at all. What we want is to get the governor to set our sentence twenty or thirty days past the day set for Alf Moore to hang, for we feel satisfied Alf will tell the truth when he goes on the gallows. If he does tell the truth it will establish our innocence and we will be given our liberty.
