The cantons in the soldiers' homes were nothing more than social clubs where the veterans were privileged to gather for sociability, remarks the Worcester Post. The influences which secured their abolition were sincerely devoted to the welfare of the veterans, but unfortunately their efforts were decidedly misdirected.

An admirable act of corporate courage and business conscience has come to light in England, notes the Youth's Companion. The terrible railway wreck at Salisbury, in which so many Americans were killed, is still fresh in memory. At the official inquiry into the cause of the accident, officers and employees of the company came forward and testified in the frankest possible way, without regard as to whether their testimony would hurt the company or not; and before a verdict had been rendered, indeed, before the inquiry had been completed, the directors of the company issued a formal statement that they "took full responsibility for the accident and for all the legal consequences of it."

If one could carry an electric light into all the dark corners of the minds, of even very intelligent men and women, some surprising superstitions would be discovered. Belief in witchcraft, astrology, alchemy, possession of the devil and innumerable other old notions concerning the hereditary diseases and magical remedies, would be found. In every mind of large capacity there are rooms seldom opened, and some that are concealed beyond the knowledge of their owners. Hence, some of the surprising things that are said and done in times of great excitement by even strong-minded men and women. The scientific psychologists are doing much to dispel old superstitions, although some of them seem to be bringing in new ones. We need not be surprised at any outbreak of evil passions or absurd practices when there is sufficient occasion, with motives strong enough to cause the hidden forces of human nature to break forth and manifest themselves, each after its kind.

Says Collier's Weekly: Lives are wasted wholesale in our American cities on the cynical false theory that it is cheap to let people die. Rochester, New York, has been making some experiments which show, in startling figures, how inexpensively human life, at the most perishable period, may be preserved. Several years ago the Health Bureau which has made that city a standard in American municipal hygiene began to demand of itself some explanation of the high mortality among children under five years of age, particularly marked in July and August. Suspicion was directed to the milk supply. Investigation confirmed this. Failing to obtain any guarantee of better conditions from the milk vendors, the Health Officer, Dr. Goler, and his deputy, Dr. Roby, practiced enthusiasts both, set about the establishment of stations where the mothers of young children could be supplied at cost, during the hot months, with milk that was clean and free from disease-producing bacteria. At each station a trained nurse in charge gives the patrons simple instructions in the special care of children during the hot weather. The results of nine years of this method are now at hand. In that time there have been saved, as nearly as may be reckoned, one thousand children more than one hundred children every year. The cost to the city has averaged \$1000. It is a temptation to print this fact in large, black type. One thousand dollars' investment keeps one hundred and ten children alive in Rochester every year, a little less than \$10 per life. Any city says, Dr. Goler modestly, can do the same thing. Perhaps. At any rate, every lives, the saving in doctors' and drug bills, in hospital expense to the city, in pain, anxiety, and grief, and the progressive western New York city seems to have found about the best investment for its money that ever gave returns.

**Agricultural Students at University.** The agricultural department of the University of Georgia has more than 100 students in attendance than ever before in the history of the institution. The class room in agriculture for the first time has overflowed with students, and Professor Johnson had to order out more chairs. The students for the most part are taking the full four years course.

**Exhibit for Jamestown.** A portion of the state exhibit that will portray the resources of the Empire State of the South at the Jamestown exposition will be secured from the displays that will be made at the state fair in Atlanta. Owing to the large number of exhibits that are annually made by the state fair, it was thought that an extensive portion of the state display could be secured after the state fair had been closed.

**Fifteen Killed in Riot.** The recent riot in Atlanta claimed a total of fifteen victims, thirteen negroes and two white persons. These figures are authentic and cover the entire riot, from its inception to the end. They were obtained from the death certificates issued by the health officer, which show the names and addresses of those killed. Included in this list is Mrs. Ira Thompson, who died of fright when two negroes were shot near her home.

**Rawlings Boys Again Resisted.** Milton and Jesse Rawlings have been granted an additional respite of thirty days each. Governor Terrell was influenced to grant the respite through the efforts of the young Rawlings' attorney and the fearful pleas of the boys' mother. Another respite was also granted to Al Moore, the negro on whom testimony the Rawlings boys were convicted. This respite was granted in order that Moore might be a witness in behalf of the state to oppose the application for a new trial.

**May Operate Sugar Plant.** The sugar cane experimental station of the United States government, located in Waycross, will be opened this year after all. Congressman Brantley has been working quietly for several weeks, trying to get the status of the experimental station straightened out, and it is likely to succeed in doing so in time for the state agricultural department to conduct experiments in the making of sugar cane syrup this season. At present nobody seems to know just who has the plant under control.

**Soil Expert Arrives.** W. G. Smith, of the United States department of agriculture, arrived in Atlanta a few days ago and called on Governor Terrell. Mr. Smith is one of the two experts who will be sent to Georgia by the department for the purpose of aiding in the location and establishment of the new district agricultural colleges to be established under act of the recent legislature. Mr. Smith is an expert on soils. He will inspect each of the tracts of land offered to the state for these agricultural schools, and will pass upon the quality of the soil, which will have much to do with the selection of sites for these institutions.

**Council Votes Aid Money.** An appropriation of \$1000 has been made by the Atlanta city council for the fund which is being raised to take care of the victims of the recent riot. The amount subscribed by citizens was \$1227. The city's \$1000 swelled the total to over \$2200. This money was used to pay the expenses of burying the dead, and to help take care of the families of those who were killed or injured. The city council also ordered a reward of \$200 for the arrest and conviction of the victims of the riot. The city council also ordered a reward of \$200 for the arrest and conviction of the victims of the riot.

**Would Abolish Negro Help.** The board of health of Atlanta has decided that it would be best for the department and for the city to get rid of all negro labor, and employ white men. **Another Question Arises.** The various school districts and the several counties of the state which have voted in favor of the local school tax system under the McMichael bill are now making rapid progress.

## THE HOSTS OF LABOR.

There are now upwards of Eighteen Millions in Union Ranks. A report of the New York state department of labor, just issued, states that there are now upwards of 18,000,000 wage-workers in labor unions. Among these are the United States Great Britain and Germany. Such have nearly as many unions as the United States, but the countries in which the movement is comparatively new—Australia, Hungary, Italy, etc., are now making rapid progress.

## TAFT IS IN CHARGE

Provisional Government in Cuba.

## UNCLE SAM INTERVENES

Taft is Made Temporary Governor of Island—Cuban Flag, However, Still Flies to Breeze.

With far less ostentation than accompanies the accession of a new municipal administration, the government of Cuba was formally taken over Saturday by William H. Taft, secretary of war of the United States, who, in a proclamation couched in a kindly and diplomatic tone, indicative of the policy he would pursue, declared that he had accepted the position of provisional governor of the island.

Promptly at noon Governor Taft, Assistant Secretary of State Bacon, and Captain McCoy, Governor Taft's aide-camp, called officially at the palace and paid their respects to the retiring president. Governor Taft spoke kindly to Señor Palma, to whom he said, the people of Cuba owed an unqualified debt of gratitude. President Palma's brief reply was devoted entirely to an expression of relief for the opportunity of shifting the burden of guiding the tempestuous republic to the representative of a nation strong enough to enforce control over it.

The terms of the proclamation caused general surprise, and, in fact, the resignation of the president of the republic of Cuba or to elect a successor leaves the country without a government at a time when great disorder prevails and requires the presence of a strong government to maintain order and to protect the life and property of the island of Cuba and the island's keys adjacent thereto and for this purpose to establish thereon a provisional government.

The provisional government hereby established will be maintained only long enough to restore order, peace and public confidence by the action of the United States and then to hold such elections as may be necessary to determine on those persons upon which the permanent government of the republic should devolve. In so far as is consistent with the nature of a provisional government established by the authority of the United States, this will be a Cuban government, and the constitution of Cuba, forming with the constitution of Cuba, shall be the basis of the government of the island; all the executive departments and all the executive departments administered as under the Cuban republic; the courts will continue to administer justice and all the laws not in their nature incompatible by reason of the temporary and emergent character of the government, will be in force.

"President Roosevelt has been most anxious to bring about peace under the constitutional government of Cuba, and he made every endeavor to avoid the present step. Longer delay, however, would have been in view of the restoration of the cabinet."

"Until further notice the heads of all the departments of the central government will report to me for instructions, including General Alejandro Rodriguez, in command of the rural guards, and other regular government forces, and General Carlos Roloff, commander of the military forces, and all the executive departments administered as under the Cuban republic; the courts will continue to administer justice and all the laws not in their nature incompatible by reason of the temporary and emergent character of the government, will be in force."

## The Statesboro News

(INCORPORATED)

R. MILLER, Editor and Gen'l Mgr.

Entered at the post office at Statesboro as 2nd class matter.

Statesboro, Ga. Friday, Oct. 8, 1909

Published Tuesday and Friday by THE STATESBORO NEWS PUBLISHING COMPANY.

Let Statesboro Have the Agricultural College.

We have said before, and we reiterate it now with added strength and force, that Bulloch county must have the agricultural school of this district. The reasons why we should have it are so apparent that it is hardly necessary that we recapitulate them now, but let us forget it may be well to again call the attention of the people of Statesboro and Bulloch county to our claims for this school.

We are almost the geographical center of the First congressional district. Statesboro, as the seat of this school, would be a great asset to the district. More students would come to a school that is centrally located, for it means a saving of time and money.

Statesboro's markets are the best of any city in the district leaving out Savannah. Her rail road facilities are better. The markets of Savannah can be reached quicker from Statesboro than any other place now trying for this school. The products of the farm that cannot be sold in the local markets can be sent to Savannah and put on market there, reaching that port two hours after leaving here. We maintain that no other town that wants the district college can reach the markets of Savannah in this time.

Statesboro has as good if not better railroad facilities than any town in the First district. She has four passenger trains daily giving outlet to the north, east, west and south and all local and intermediate points. There are four freight trains daily, which are sufficient to look after all the freight of this section. What other town in the First district has such railway facilities as these to offer?

No county in Georgia has such fine agricultural lands as Bulloch; no county has such a diversity of crops; no county in Georgia or any other southern state has such a magnificent agricultural display as Bulloch county is exhibiting at the Macon Centennial fair; no county in this state has forged ahead along agricultural lines as has the county of Bulloch. An unheard of and unknown a few years ago outside of a small territory close home, she is to-day chiefly through the fine showing she made at the state fair—the most widely known county in the State. Bulloch county is the pride of Georgia. It was this county, of all the counties in the state, that was selected to show the counties of north Georgia a thing or two in agriculture at the North-east Georgia fair at Athens two years ago.

The health of the county is superb. Statesboro has the lowest death rate of any city its size in Georgia. This can be proved by statistics.

Statesboro has one of the best school systems and one of the best schools in the district. There are more boarding pupils attending the Statesboro high school than any similar school in the district.

The moral and religious influences of Statesboro cannot be excelled.

Now, citizens of Statesboro and Bulloch county, your duty is plain. You have an opportunity to secure this district agricultural college, an institution that will do more for the growth and development and prosperity of town and county alike than any other that can be secured. You have an

opportunity to perpetuate your name as the greatest benefactor that the county has ever had. The records of the future will vindicate your wisdom in securing this school.

Let us have an institution that offers practical instruction. The cry is going up over all this land and country that classical education is a fake. We have our own opinion on this subject. It is no doubt true that the education needed at this time is a combination of the classical and industrial, such as is offered in the best of the technological schools. Every boy and girl who has a college diploma ought to be able to make a living under any and all conditions. Under our present system of education, unfortunately, this is not the case. This is the greatest commercial age that the world has ever known, and it is up to every boy and girl to know some useful and profitable industry that they can follow when the storms of life come.

Bulloch county is in a state of growth and development. If this school is established in the county the value of farm lands will be enhanced tenfold. It means farming on a scientific basis. It means the introduction of labor-saving machinery that will in a way settle the perplexing labor conditions. It means that new enterprises will be opened up in the county.

Let the work of raising subscriptions for this school go ahead. It is the bounden duty of every man, woman and child in Bulloch county to do what they can and offer what encouragement they can towards the securing of this school.

At the proper time, let us have a grand mass meeting of the citizens of Bulloch county and Statesboro and settle this question for all time by raising the amount necessary to secure the First district agricultural college.

Election Returns.

There was only a light vote polled in this county Wednesday, the people being too busy to turn out to vote in an election in which they had little or no interest.

382 votes were polled in the districts heard from. Two or three districts were late in getting in the returns and consequently their votes will not be consolidated with the other districts of the county. All the amendments were lost in this county.

Judge Russell led the ticket for Court of Appeals by a good majority. Foster and Powell come next in order. The day passed quietly here.

A large crowd was here on that day, but there was not a disturbance of any kind.

The indications are that "Plain Dick Russell" will lead the ticket for Court of Appeals over all the state and nearly all of the amendments will be ratified. All counties heard from report a light vote showing that the people were too busy or were not interested enough to turn out to the polls.

## FOR BOTH

One disease of thinness in children is scrofula; in adults, consumption. Both have poor blood; both need more fat. These diseases thrive on leanness. Fat is the best means of overcoming them; cod liver oil makes the best and healthiest fat and

SCOTT'S EMULSION

is the easiest and most effective form of cod liver oil. Here's a natural order of things that shows why Scott's Emulsion is of so much value in all cases of scrofula and consumption. More fat, more weight, more nourishment, that's why.

The annual autumn gale comes with the same regularity that the South American revolution does.

The Rawlings boys are no doubt enjoying the way in which executive clemency is being exercised to accommodate them.

Robinson's Circus will be here today, and from reports there will be a record-breaking crowd here.

The fool and his money—well, you know the rest.

With the opening of the football season, the Cuban revolution wanes into insignificance. Unless the new rules have worked wonders with that game, it is much more dangerous than a little thing like a Cuban outbreak.

Autumn days, the saddest of year, are nearly here, and the poet who started out to write verse with the burgeoning of trees and flowers in the spring has found that the world did not take to him as he thought it would.

The Kind You Have Always Bought

Bears the Signature of J. H. P. H. P.

The way that "Plain Dick Russell" runs in Bulloch county is quite satisfactory to his many friends here. Besides carrying the county for governor he led the ticket for the court of appeals by a nice majority.

If an article is limited the original is always best. Think it over, and when you go to buy that box of salve to keep around the house, get DeWitt's Witch Hazel Salve. It is the original and the name is stamped on every box of Good for eczema, tetter, boils, cuts and bruises, and especially recommended for piles. Sold by W. H. Ellis.

Enforcing Vagrancy Laws.

The war on vagrants that we have begun in earnest, at last, Elliott Ellis, colored, was convicted in the city of court Wednesday on the charge of vagrancy and given six months on the gang.

The officers of the law are to be congratulated on this piece of justice. There are others that need the same strict enforcement of the law applied to them.

One Minute Cough Cure

For Coughs, Colds and Croup.

An Awful Cough Cured

"Two years ago our little girl had a touch of pneumonia, which left her with an awful cough. She had spells of coughing, just like one with whooping cough and some thought she would not get well at all. We got a bottle of Chamberlain's Cough Remedy, which acted like a charm. She stopped coughing and got stout and fat," writes Mrs. Ora Russell, Brooklet, Ill. This remedy is for sale by all druggists.

## Crops Greatly Damaged

Nashville, Tenn., Oct. 2.—Irreparable damage is being done to the crops of Tennessee by the incessant rains which have fallen during the past two weeks. Commissioner Ogilvie of the Department of Agriculture, declares that the loss will simply be enormous. The rains have prevented the planting of wheat altogether. Thousands and thousands of tons of hay have been utterly ruined. In the lowlands of Middle and West Tennessee the corn crop has suffered enormous damage from overflows. Reports from all the cotton sections say that the seed are sprouting in the bolls, the quality of the staple is being injured and the plant is falling to the ground.

Torments of Tetter and Eczema Cured.

The intense itching characteristic of eczema, tetter and like skin diseases is instantly allayed by applying Chamberlain's salve and many severe cases have been permanently cured by its use. For sale by all druggists.

Cotton Market.

Cotton is somewhat higher this week on account of the tropical storm that has been raging for the last few days. Sea Island, 21 1/2 to 22 cents; upland, 9 1/2 to 10 1/2.

Can you win? You realize that to win in anything in these days requires strength, with mind and body in tune. A man or woman who is not in shape for a day's work or a day's play. How can they expect to win? Kodol for dyspepsia contains the digestive juices of a healthy stomach and will put your stomach in shape to perform its important function of supplying the body and brain with strength building blood. Digest what you eat, relieves indigestion, dyspepsia, sour stomach, palpitation of the heart and constipation. Sold by W. H. Ellis.

For Runaway Blind Tigers

Millen, Ga., Oct. 2.—George Oliver and James Wilson, two negroes, were arrested this morning for running a blind tiger. They have been under suspicion for some time, but at last were caught by Marshall Powell and Sheriff Edgewood.

Wilson carried on a beef business on Main street and in his shop gallons of whiskey were found in half pints and pint bottles. Both negroes were sent to jail to await a hearing to-morrow.

Wounds, Bruises and Burns

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save your time and money, not to mention the inconvenience and suffering such injuries entail. For sale by all druggists.

Robbed The Bank.

San Francisco, Oct. 8.—Armed with revolvers and pieces of gas pipe, two robbers entered the Japanese Bank Kimmon Ginko, also known as the Golden Gate Bank, at noon today and after beating two of the bank officials, escaped with \$5,000 in gold.

S. Urakut, manager of the bank, who was acting as paying teller of the institution when he was struck down, died this afternoon without having regained consciousness.

The robbers selected a time when there were but few persons transacting business in the bank, and the sensational and bold deed was so quickly effected that it was all over before the crowd of people passing the doors of the institution were aware of what had taken place.

While one of the hold-up men engaged the paying teller of the bank, the other walked in the rear of the bank and, going behind the counter, picked up a sack containing \$5,000. The action of the robber who went to the rear of the bank was witnessed by one of the clerks, who immediately raised a cry of alarm.

The cry had scarcely left his lips before he was struck down by the man who was carrying out the gold.

The robber who had been talking to the paying teller drew a piece of gas pipe from his pocket and struck him a blow that rendered him unconscious.

Both robbers stopped long enough to beat their victims into unconsciousness and then walked leisurely from the bank and disappeared. The crime was soon discovered.

Negro Was Saved From Macon Mob.

Macon, Oct. 7.—Since daylight this morning quiet has prevailed in Macon. Three local military companies are still in the streets and posted about the county jail and the city prison.

There has been no attempt anywhere at an outbreak since the military gained control early this morning. Violence, which seemed so apparent everywhere up to daylight, has not occurred, and while there have been slight expressions of ill feeling towards the negroes generally, the one purpose of getting possession of Henry Few, or Hughes, the negro who shot W. G. Solomon and Charlie Adams last night, has been supreme.

His removal to Atlanta this afternoon and the late open announcement of this fact from the police station has relieved all citizens of further fear.

The whole city has turned attention to the conditions of the two prominent young men who lie dangerously wounded at the City Hospital. Adams is shot through the body and suffers from a perforation of the liver, but he is apparently improved, and his friends and family have been somewhat relieved of their extreme anxiety.

Solomon suffered five perforations of the intestines, and an operation was necessary. He is critically ill to-night, and the best that can be said by physicians is that he is resting. His chances for recovery are extremely slight.

Without display that might attract attention, Chief of police Connor had his men place the negro in the patrol wagon and drive him to the Southern Railway station at 1 o'clock. There Patrolman J. E. Bunch took charge, and when the two were in the train moved away. No person suspected that the negro was being removed from Macon.

The militia will be in charge during the entire night.

Sick Headache Cured. Lich headache is caused by derangement of the stomach and by indigestion. Chamberlain's stomach and liver tablets correct these disorders and effect a cure. By taking these tablets as soon as the first indication of the disease appears the attack may be ward off. For sale by all druggists.

Death of Mrs. Prosser. Mrs. W. W. Prosser died at her home a few miles from here Monday morning about one o'clock. She had been ill for a year with dropsy, the disease taking a serious turn ten days ago resulting in her death as above stated. The deceased was a daughter of Mrs. Elizabeth Kingery. She was interred at Friendship cemetery.

Revival at Methodist Church. Rev. J. M. Bass, of Macon, and Mr. Ed Cowan, of McDonough, arrived Thursday night and have charge of the revival at the Methodist church. Mr. Bass is one of the best known revivalists in the state and a successful meeting is assured. He is ably assisted by Mr. Cowan, who has charge of the singing. Services are being held every day at 8 and 7 p. m. A cordial invitation is extended to the public to attend the meetings.

A Badly Burned Girl. Or boy, man or woman, is quickly cured of pain if Bockley's Arnica salve is applied promptly. G. J. Welch, of Takoma, Mich., says: "I used it in my family for cuts, sores and all skin injuries, and find it perfect." Quick relief cure known. Best healing salve made. 25c at Ellis drug store.

Danger From the Plague. There's grave danger from the plague of the coughs and colds that are so prevalent, unless you take Dr. King's New Discovery for consumption, coughs and colds. Mrs. George Walls, of Forest City, Me., writes: "It's goodness to people living in climates where coughs and colds prevail, find it quickly cures them. I prevent pneumonia, cures hiccups, gives wonderful relief in asthma and hay fever, and makes weak lungs strong enough to ward off consumption, coughs and colds. 50c and \$1.00. Guaranteed by W. H. Ellis' drug store. Trial bottle free.

Death of Mr. J. G. Newman. Mr. John G. Newman, an account of whose illness was in Friday's News, died Friday morning about four o'clock. He sank rapidly Thursday, becoming unconscious early in the morning, and in this state he continued until the end came.

Mr. Newman was one of the most prominent men in the county. He had been with the J. W. Olliff company for eight or ten years and at the time of his death held a responsible position with that company as assistant bookkeeper and collector. He was a member of the Primitive Baptist church and was one of the important officers of that church.

He was a Mason, a fact not known to many people. The funeral services were held at the Methodist church, being conducted by the Rev. G. N. Macdonald and Elder Powell. The pall bearers were Messrs. H. B. Strang, M. M. Donaldson, S. F. Olliff, M. W. Waters, E. M. Anderson and H. J. Proctor. The funeral was largely attended, all business houses closing during that hour. There were many and handsome floral tributes. The interment occurred in East Side Cemetery.

Corporation Must Pay Fee. Atlanta, Ga., Oct. 6.—Thousands of Georgia corporations, located in every county in the state, are braving the penalty of \$50 fine which may be put upon them, after November 1 next, fail to comply with the act of the last general assembly, requiring them to register with the secretary of state for which the law charges a fee of only \$1.

There appears to be a disposition on the part of some corporations to ignore the law, a few thinking, doubtless, that attention will pass unnoticed. Attention has been called to the fact, however, that there is a legal record of every Georgia corporation in the office of the clerk of the court and it may be put down that none of them will escape.

Although the law has been in force for two months, and only three weeks remain in which to comply with its terms, less than 1,000 out of some 15,000 to 20,000 corporations doing business in Georgia have registered. The small corporations are responding more freely than those of larger proportions, but none of them are giving heed to the law with that promptness which will be necessary if they are to comply with it by the required time, November 1.

Under this law every corporation doing business within the state, whether a foreign corporation or working under a Georgia charter, is required to comply with the terms of this registration act by November 1. Secretary of State Philip Cook has already sent out thousands of copies of the law and registration blanks showing just what must be done, and these will be sent promptly upon application to any who may desire them.

Death of Mr. J. G. Newman. Mr. John G. Newman, an account of whose illness was in Friday's News, died Friday morning about four o'clock. He sank rapidly Thursday, becoming unconscious early in the morning, and in this state he continued until the end came.

Four Masked Men Lynch a Negro in Arkansas.

Argenta, Ark., Oct. 7.—As a sequel to the killing of John Lindsay and the wounding of his son, Policeman Milton Lindsay, here last night, presumably by Garrett Colum and Charles Colum, two negroes, H. Blackburn, a negro, was lynched to-night at 10 o'clock at the corner of Sixth and Main streets.

The trouble originated on Sept. 12, when a white man named R. R. McDonald killed a negro musician named Wiley Shelby. Next day at the request held at the Colums' undertaking store, a dummy arose in which Robert Colum was killed and Deputy Constable Ed Lindsay and Garrett Colum were severely wounded.

Policeman Milton Lindsay, a brother of Ed Lindsay, and his father were walking past the Colum store when they were fired upon from ambush. John Lindsay was killed and his son severely wounded.

When the police and citizens attempted to enter the store they were fired upon. It is supposed Charles and Garrett Colum did the shooting. Later in the night, thinking the Colum brothers were still locked in the rear rooms of the store, the place was dynamited, but the negroes had escaped unseen in the darkness.

At 1:30 o'clock this morning Will Harding, a painter, was stopped on the street by unknown parties, whether white or black he could not tell in the darkness. He was asked if he was white or black. On replying that he was white he was told to go back, and while leaving he was shot in the back.

At 2 o'clock, James Mahoney, a contractor, and A. L. Belding, a reporter for the Little Rock Gazette, were fired upon from four different quarters with shotguns. Mahoney was painfully shot in the hand and Belding's clothes were peppered with bird shot.

Today H. Blackburn, a negro who conducts a confectionery store in Argenta, was arrested on suspicion of being one of the men who fired on Mahoney and Belding. As a precaution Mayor Fancette swore in fifteen extra policemen and the sheriff sent several extra deputies to assist the police.

Shortly before 10 o'clock to-night four masked men entered the police station from the rear and one covered the turnkey with a pistol while the others got his keys and quickly unlocked Blackburn's cell and took him out the back way. Not a shot was fired and there was no disturbance, so that Policemen Pratt and two deputies who were standing on the street a few blocks away, knew nothing of what was going on until they heard several shots fired at Main and Sixth streets. Going there they found Blackburn already dead, hanged to a telegraph pole, while the crowd were apparently merely onlookers.

When first arrested Blackburn said he only arrived from Lake Village Saturday night after the shooting. There was positive evidence however that after the Lindsay case he was first fired upon by a negro house adjourning and fired at John Lindsay, also that later he delivered inflammatory speeches to crowds of negroes at several points.

Two performances were given, though only one was announced. The crowd at night was not so large by several hundred as at the afternoon performance. The circus went from here to Millen.

Nothing to Fear. Mothers need have no hesitancy in continuing to give Chamberlain's Cough Remedy to their little ones, as it contains absolutely nothing injurious. This remedy is not only perfectly safe to give small children, but it is a medicine of great worth and merit. It has a world wide reputation for its cures of coughs, colds and croup and can always be relied upon. For sale by all Druggists.

The Circus. John Robinson's circus was here Friday for two performances and showed to the largest crowd ever seen in Statesboro. A conservative estimate places the crowd at ten thousand people. From every nook, hamlet, hedge and byway they came until the town was one sea of people. One could hardly get along, so dense was the crowd. From over all this county they came and the number was swelled by those from other counties, some coming as far as twenty or thirty miles.

At the afternoon performance the large tent was filled to overflowing. All could not be seated and quite a number had to remain standing.

The circus was good. It was better than we expected to find it. The writer has seen quite a number of big shows, but he has never seen one that he enjoyed as much as the one that was here Friday. It has many new and entertaining features that we have never seen before in any other show. The street parade was not as spectacular as some others that the writer has seen, but the inside of a circus is what counts and that was all to the good.

Convention Reassembles; No Nomination Yet.

When Judge Adams declined the nomination to congress it became necessary for the convention to meet again and try to make a nomination. By agreement the convention met at Savannah Friday at noon. It remained in session until Saturday night when an adjournment was taken until Wednesday of this week. It will assemble at Savannah again, an opportunity to remove it to Clayton having been defeated.

Hon. J. A. Brannen and his delegates came home Sunday morning.

Nothing was done at the session just closed. Several dark horses were put up but none of them could secure the number of votes necessary to nominate. It was a stormy session. Feeling ran high and it looked at times as if there would be personal difficulties, but each time trouble was averted by the interference of cooler heads.

E. K. Overstreet, of Scriven, is said to have made the hottest speech not only of the entire convention but in recent years in the whole state. Local politics in Savannah and the blind bulldog dog policy of the Sheppard side were the subjects of his scathing denunciation.

When Mr. J. R. Miller walked into the convention hall Mr. Guckenheimer, who had been referred to in this paper as a part of the Savannah machine politics, arose and asked that Mr. Miller explain his attitude or leave. Mr. Miller at once relieved him of all anxiety by telling him that he would stay there until he got ready to leave, and as for explaining the article in question he could do that, saying that the half had never been told. One word brought on another and Mr. Miller started towards Guckenheimer with the intention of knocking some of the corruption out of him, but was restrained by friends.

If any advantage was gained by either side it is impossible to say what it was. The deadlock is on good and hard and it may not be broken before the November election.

Nothing to Fear. Mothers need have no hesitancy in continuing to give Chamberlain's Cough Remedy to their little ones, as it contains absolutely nothing injurious. This remedy is not only perfectly safe to give small children, but it is a medicine of great worth and merit.
