The Boston Post declares that a direct inheritance tax is the only adequate remedy for tax dodging.

The Washington Post is assured that after San Francisco is rebuilt its business men will be careful in the selection of its fire insurance companies.

Santo Domingo is considering the project of repelling its treasury by charging admission fees to its rural revolutions, observes the Atlanta Journal.

That was a humorous negro of Asheville, N. C., suggests the Atlanta Journal, who brought suit against a directory company for making him out a white man.

The western hemisphere is the logical and legitimate sphere of commercial influence for the United States, asserts the New York Sun. It is our own fault that we make no larger use of them.

Education has been made free, and the masses of Mexico are beginning to observe and think, notes the Detroit News. They find conditions which make them dissatisfied and the lawless element hopes to mend matters by the foolish attempt to drive out the foreigners.

In the long history of life insurance it has been customary for the companies to offer all kinds of inducements to gain competent agents, remarks the Indianapolis Times. They have paid large commissions and ample bonuses. It is a new thing for an agent to pay a company a large price for exclusive territory.

Household pets are having a hard time of it this year, remarks the Boston Transcript. The Holyoke board of health has warned the householders of a section of that city to keep their cats at home or they will be shot, the reason being that they convey in their fur the germs of scarlet fever, which prevails there.

The Providence Journal declares that is a pleasing announcement to the effect that the government of Chili will send a war ship into the Straits of Magellan to transport Secretary of State Root into Valparaiso harbor. Chili thus gives signal of the republic of the north after many years of resistance in quite a contrary feeling.

Sage made money for the sake of money. If he had cared for what it would purchase for himself or for mankind, remarks the New York American, he would have bestowed much of it on charities during his life. But he took no interest in educational institutions, hospitals or the work of relieving the poor, and it may be said to his credit, he did not invest any sums in a vain attempt to buy the good opinion of men on earth or angels in heaven.

TRAIN KILLS MAJOR HOYLE. Popular Army Recruiting Officer Meets Death by Accident.

Major George S. Hoyle, a resident of Atlanta for many years, and a man who was well known throughout the city, both personally and as the recruiting officer of the United States army, with headquarters in Atlanta, died Tuesday afternoon as the result of injuries received by being hit by an Atlanta and West Point train.

MILION FOR EACH CHILD. Father Was Anxious to See What They Would Do With It.

That Captain Frederick Paib gave each of his children one million dollars prior to his death because he wanted to be relieved of his business cares to a certain extent and because he wanted to see what they would do with it, and how they would bear the responsibility, was the testimony of a Monday afternoon in Atlanta. Frederick Paib, collector of internal revenue, before Judge Carpenter in the county court at Milwaukee Wednesday. The proceedings were instituted to determine the amount of inheritance tax due the state.

Life Philosophy of a Gilded Youth

By Wilson Mizner. (He married the middle-aged, millionaire widow of Charles T. Yerkes.)

TIME belongs to no one. He never goes on a strike. While we sleep our enemy is ever at work. Sooner or later he gets us all. Life is always a disappointment. It is a big practical joke.

There's this skating rink fad in New York. It's too much effort. And I never could understand a man's going to a dance with four collars in his hat extracting pleasure hoping around and peering. I'd get excited on anything that would make me energetic. The ideal state of existence is rest. Sleep and food; then food and sleep, and then reverse the process. Be sure it's light, then go to bed. The sun just lulls me to sleep.

People take me for a clothes-rack; a manly-jack; a peaceful fahoon who wouldn't raise his hands to help a fellow, capable of only the most elementary knowledge, two ideas being an unlawful assembly. Dress is a secondary consideration with me. I'm a perfect slop. I only go around so the health commissioners won't complain. As for money, I don't care for it. I have it, but I never care to keep it. If I had \$5 at the end of a year I'd break out in a rash.

How to Limit Big Fortunes

By Professor James Walter Crook, of Amherst College.

FORTUNES may be considered as swollen beyond healthy limits which yield from them \$20,000,000 a year. The methods of relief sometimes proposed are an arbitrary limit to the amount an individual may accumulate; progressive taxation of incomes, and progressive inheritance taxes. Where should the limit be drawn? The limitation is a large number of articles, considering that many were inherited, probably for safety, to a gentleman around the corner, whose honest was \$100,000,000, and there are now many fortunes of \$10,000,000.

There are said to be fifty men in Pittsburgh alone whose fortunes exceed that amount, and in the case of some well known fortunes the encouragement amount to upward of \$10,000,000. It is a consequence of the encouragement which the heavy taxation of the wealthy will give to extravagant public expenditures.

Demoralizing Effect of Money

By Walter Beverley Crane.

THE first and most conspicuous of the moral influences of money, as they are developing themselves in our actual life, is that which is a consequence of the undeniable but prodigious fact that most rich people are radically convinced that to be rich is in itself a merit.

It is amazing, but it is so. There are persons of this description who positively scorn other people because they are not rich, too; who look upon dollars as the one test of merit, and who regard poverty as a disgrace.

It is deplorable, but it is so. To ask such persons, men or women, to believe that their money is nothing but a mere accident, a simple hazard of the game of life, would be like telling them that two and two make five; they could not comprehend the allegation without regarding it as a mockery. Of course, your plutocrats will laugh and quote Voltaire: "It is more easy to write about money than to have it; and those who have it laugh at those who can only write about it."

DREAM FISHING.

I do not go to fish for fish. I go to fish for the day. When up the dawn comes to wash the dew from the grass, I do not go because I know that I will catch the fish that I want. I go to catch the fish that I want.

Molly and the Prince

By WALTER E. GROGAN.

"You must be the Prince," said Molly, right to you don't you die. It you do, it comes anointed with a crown," she added, "is 'cited today, I think it's washing. Washing is very wearing to the temper."

"I don't know much about washing," Mr. William Hopkins observed, "but I should think that some years ago had changed its habit of black for brown, and putting it in to go out, as the chair, elderly man who had shuffled in, 'Me, my dear, I'm O'pkins, Bill O'pkins, my dear. I want to see your pa, which the young lady as opened the door says to him, 'You must be the Prince, said Molly, right to you don't you die. MADE RAID ON JAIL

Two Men Shot by Members of Mob in Mobile, Ala.

WERE AFTER A NEGRO

Charge Was Criminal Assault and Prisoner Had Been Jailed. Where-Mob Doubted the Sheriff's Statement.

Tuesday night, at Mobile, Ala., Roy Hoyle, special officer of the Mobile and Ohio railroad, and one of the most widely known and best liked men in the vicinity, was fatally shot, and Alderman Sidney Lyons, chairman of the city council, was slightly wounded in the hand during a fight at the county jail between deputy sheriffs and a crowd of mob, determined to capture Dick Robinson, a young negro.

The negro, who is only 17 years of age, and was said to be wearing his first pair of long trousers, attacked Robinson, the 12-year-old daughter of Ruth Sossaman, who lives about three miles from Mobile. Detectives were placed on the track of the negro, and within three hours he was captured.

He was not taken to the jail at all and was at least eight miles from the city when he was determined to have him approached the building, as early as 6 o'clock in the evening crowds of men commenced to gather here all day yesterday.

While several men, including Hoyle and Lyons, were still in the jail a portion of the crowd led by a tall, rawboned man, whose name is not known, seized the jailer, and a mob of about 500 men, armed with clubs, stones and other missiles, entered the jail.

At once the members of the mob commenced a fusillade and shot and killed Hoyle and Lyons. The mob was widely scattered, and in a few seconds Alderman Lyons, who had been on the inside of the jail, came out, and holding up his hand, from which the blood was streaming, announced that he had been shot, and that Roy Hoyle had received a bullet in the left lung. There were loud cries of "Ho!" and "Ho!" as the mob formed the crowd that Hoyle could live but a very short time.

Hoyle and Lyons were taken to the hospital, and the fact that he had been shot while looking through the jail in order to ascertain if the negro was there, and that he had been shot, and that Roy Hoyle had received a bullet in the left lung. WERE AFTER A NEGRO

Charge Was Criminal Assault and Prisoner Had Been Jailed. Where-Mob Doubted the Sheriff's Statement.

Tuesday night, at Mobile, Ala., Roy Hoyle, special officer of the Mobile and Ohio railroad, and one of the most widely known and best liked men in the vicinity, was fatally shot, and Alderman Sidney Lyons, chairman of the city council, was slightly wounded in the hand during a fight at the county jail between deputy sheriffs and a crowd of mob, determined to capture Dick Robinson, a young negro.

The negro, who is only 17 years of age, and was said to be wearing his first pair of long trousers, attacked Robinson, the 12-year-old daughter of Ruth Sossaman, who lives about three miles from Mobile. Detectives were placed on the track of the negro, and within three hours he was captured.

While several men, including Hoyle and Lyons, were still in the jail a portion of the crowd led by a tall, rawboned man, whose name is not known, seized the jailer, and a mob of about 500 men, armed with clubs, stones and other missiles, entered the jail.

At once the members of the mob commenced a fusillade and shot and killed Hoyle and Lyons. The mob was widely scattered, and in a few seconds Alderman Lyons, who had been on the inside of the jail, came out, and holding up his hand, from which the blood was streaming, announced that he had been shot, and that Roy Hoyle had received a bullet in the left lung. There were loud cries of "Ho!" and "Ho!" as the mob formed the crowd that Hoyle could live but a very short time.

NO NOMINATION MADE.

The convention to nominate a candidate for congress met in Savannah last Friday and adjourned at midnight on Saturday until next Wednesday.

On account of the fact that Brannen and his delegates have made every reasonable offer many people who voted for Sheppard before have become disgusted and say they will vote for Brannen.

Now the council can take that fifty dollars collected for the circus plus another hundred and fifty and put the streets in passable condition.

It has come to the pass that Statesboro can entertain ten thousand people offhand. She did it Friday the day of the circus.

Now the season for fairs is on all the counties will have this honor, on paper of claiming that they have the best agricultural lands in the state.

Probably the convention wants to inspect all the hotels in the district before making a nomination. A better one than the Jaekel cannot be found and we suggest that the convention return to its first love.

Russell, Powell, and Hill are men who will do honor the Appellate Court. A better selection could not have been made. All are able jurists and thoroughly conversant with the finer points of the law.

The indications are that the convention will celebrate the national day of thanks giving without having made a nomination. They can celebrate it in good form if some of Savannah's famous artillery punch is still available.

No Retrenchment.

What was said editorially in these columns a few days ago about certain Savannah politicians and Savannah machine politics will not be retracted.

That votes were bought in the election in Savannah referred to in the editorial in question there can be no doubt. The day after the election every daily in the state told of the buying of votes and the corruption on.

Everybody knows who was the power behind the throne in the election. They know who furnished the sinews of war and who furnished the cash necessary to purchase votes enough for a winning ticket.

News Editorial

Bone of Contention.

Some time ago this paper printed editorial enumerating some of the low and dirty practices of Walter Sheppard and his delegation during the recent campaign.

The editor of this paper, who is an alternate to the convention, has been too busy with his agricultural displays, as stated before, to attend a meeting of the convention until Saturday night.

An Answer to Article

on "Hell's Half-acre."

I saw an article in your issue of Tuesday, Sept. 26, headed "Hell's Half-acre," in reply to which I want to say that the author of it exaggerated the matter in the first thing he said—even the headline—and continued the exaggeration all the way through.

I am glad that we have one man in our town whose eyes are larger and can see more than the marshal and councilmen all combined. Now, I don't want to be misunderstood. I advocate peace and good order and stand for the execution of the laws of our fair state. Have we all done this?

Now, touching the business described in his article, I claim that they are doing a legitimate business. I pay the taxes on the property and they pay the taxes and license to do business. Now, if they are not doing a legitimate business and go beyond the requirements of the town laws, then it is the business of the marshal and council to look after all such matters. They bring some of the best men of our town I am willing to trust them to do justice to all parties. They have done this in the past and I am willing to trust them in the future. So, the place described in his article is in the hands of these men set apart to investigate all such matters as that. It is not in the hands of any one man. Some of the best citizens of the town use part of this property that has such a black name over it, and I have never heard of any complaint from them.

Now, so far as the filth, disease and sin is concerned, I think you will find as much in other parts of the town equally as bad as that, and when the writer of the above mentioned article is willing to give justice to all alike, he can say the same thing. Now, I think if the author of the "Hell's Half-acre," is going to take the authority to do the work that he has gone into, the town ought to elect him marshal and city councilman and let him start the work at once. Then we will no doubt have a town clean of so much filth, sin and disease, of all kinds, and other things described in his article. X. Y. Z.

Wounds, Bruises and Burns

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soothes and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save your time and money, not to mention the inconvenience and suffering such injuries entail. For sale by all druggists.
