GENERAL PRESENTMENTS

Of the Grand Jury of Bulloch County, October Term, 1906.

We, the Grand Jury, selected, chosen and sworn, to serve at the October term, 1906, of Bulloch Superior Court, beg to submit the following reports and presentments:

The following is a report of the book committee appointed at the April term, 1906, to examine the books of the various county officers and other property of the county, which we submit as part of our reports:

To the Grand Jury, Fall Term, Bulloch Superior Court, 1906:

We, the committee, appointed by the grand jury, spring term, 1906, to examine the records of the various county officers and the property belonging to the county, beg to submit the following report:

1. We have carefully examined the books of the ordinary and find them to be neatly and correctly kept.

2. We have examined the books of the treasurer and find them neatly and correctly kept, with the exception that he keeps his personal account and the account of the county together at the Bank of Statesboro; we respectfully recommend that he keep them separate.

We find a balance of Fourteen Thousand Nine Hundred and Five Dollars and Fifty-nine Cents (\$14,905.59) at the bank of Statesboro.

3. We have made a careful examination of the books kept by the sheriff and find all his records neatly and correctly kept. We find that he has no record of City Court bonds, and we respectfully recommend that he be furnished with a book for this purpose.

4. We find the records kept by the clerk in excellent condition, with the exception that he is behind with the indexing.

5. We have made several examinations of the court house at various times and find the roofing and valleys need repairing in several places. We find the court room, jury rooms and

gallery not properly kept by the janitor. We respectfully call the ordinary's attention to this, and recommend that the various rooms and hallways be kept in a neat condition. We find that the vaults of the ordinary's office and of the clerk's office are not fire proof. Realizing this to be a matter of very great importance we recommend that the ordinary have this defect attended to at once.

We have made a thorough examination of the jail and find it in an unsanitary condition; we found the bedding, such as blankets and mattresses, in a very bad condition. They had not been properly aired and washed. We recommend that the jailer have the bedding washed at such times as they may need it, and that he have the mattresses redried when it becomes necessary for the good health of the jail. We recommend that the jail be thoroughly scoured once every week, and that the water tanks and sinks be kept clean.

6. We have made an examination of the various roads worked by the convicts and recommend this system to the people of the county.

7. We have made a thorough examination of the convict camp and found the sanitary conditions excellent in every particular. We found all the rules worked by the gang well kept and properly cared for. We found mules worked by some of the free gangs not in the best condition. All plows, tools and road machines are in good shape.

8. We visited a good many of the school buildings of the county and found some very creditable buildings and nicely furnished. We find that the county has not the deeds to all the buildings. We recommend that the county school commissioner get deeds to all the property where the county has money invested and also have all buildings properly insured.

9. We respectfully submitted this October 20th, 1906.

J. W. Wilcox, Committee.

We have, by committee appointed, examined the books of the justices of

the peace and notaries public of the various districts and find them in good condition and properly kept.

We recommend W. H. Cone to fill the vacancy caused by the resignation of J. A. Fisher on the board of education. It appearing to the grand jury that the terms of office of the following notaries public and ex-officio justices of the peace have expired: A. W. Stewart, 18th G. M. district; M. Y. Parish, 12th G. M. district; W. H. Mitchell, 13th G. M. district; we recommend that each succeed himself in this office.

The grand jury having no legal authority to say who are paupers and should receive aid from the county, we refer it to the board of county commissioners as to who shall be placed upon the pauper list, and leave this matter entirely in their control where the law places it. We are satisfied that the board will grant relief and help to all worthy and indigent citizens and not force them to the trouble of coming before the grand jury, thus doing them an injustice and taking unnecessary time of the grand jury.

We recommend that the convict fund be given to the public schools.

Whereas, under a recent act of the general assembly of Georgia, an agricultural college is to be erected in each congressional district of the state, and

Whereas, no county in the First district possesses better natural advantages than Bulloch, richer soil, more generous people, nor is any county in the district more entitled to the school than Bulloch, and

Whereas, an active effort is being made by a large number of our citizens to have this school located in Bulloch county, and our people are taking an interest in the movement by liberal subscriptions and otherwise, and

Whereas, a petition has been presented to our body asking that we recommend the appropriation of some reasonable sum of money to be made by our county commissioners to aid in this enterprise, and the said petition having been supported by able and convincing arguments made to our body in behalf of the same and believing that we are acting for the good of

the county, and feeling assured that such an institution would be of incalculable benefit and blessing to our common citizenship, as well as present as in the years to come,

We, therefore, do hereby recommend that our board of county commissioners pay out the sum of Twenty-five Thousand Dollars (\$25,000) (or more if necessary) for this enterprise if it can be secured for Bulloch county, the payments to be made in such manner and at such time as the equity commissioners may determine.

We also recommend that the ordinary call a meeting at an early date, in order that this matter may have further consideration and endorsement.

Information having been brought to our attention that it is a practice of drug stores in the county to keep their places of business open on Sundays, we look upon such practices as an evil to be condemned and promoting a disregard for the sanctity of the Sabbath, and as well as the law of the county, we therefore recommend the county authorities require all drug stores to close their places of business on Sundays and for the benefit of such persons as may find it necessary to buy medicines on Sunday the owners keep posted on their front doors such notices or placards as will inform the public where the owner or some clerk can be found who will attend to their wants.

We appoint W. G. Parker, J. D. Bitch and J. Franklin a committee to examine the books and records of the various county officers and the property of the county, and make their report to the next grand jury.

We recommend that these presentments be published in each of the county papers and that five dollars be paid each for the publication of the same.

We recommend that the sum of five dollars be paid to H. P. Cobb

Mr. Rigdon Announces.

Mr. D. B. Rigdon, our efficient
postmaster, has been nominated
for congress by the republicans
of the district to oppose Mr. Chas.
G. Edwards, the democratic nom-
inee.

Mr. Rigdon's announcement
came out in Friday's paper. He
accepts the nomination of his
party, and asks for the votes of
his fellow countrymen. He has
been a constant republican for
many years, and, having always
been loyal to his party, will nat-
urally expect and receive the full
party vote. Unfortunately for him,
however, is the fact that very
few republicans are registered
in the district.

In commenting upon the an-
nouncement of Mr. Rigdon the
News is confronted with the fact
that while he is a citizen of our
own county, a neighbor and a
good citizen, he is nevertheless,
the nominee of a different political
party to that which we have be-
longed to and participated in.
The nominee of the democratic
party is a native of a sister county,
a good and capable man and the
product of the element of the
democratic party that Bulloch
county stood with during the re-
cent convention. Mr. Rigdon
does not expect our support. He
would not get it if he did
expect it. He does, however,
expect fair treatment at our
hands. He would get that what-
ever he expected it or not. Being
loyal to his party as he is he ac-
cepts the nomination in the face
of certain defeat. It will be the
duty, therefore, of each and every

republican in the district to cast
his vote for Rigdon, as it will be
the duty of each and every loyal
democratic to see that the vote of
Mr. Edwards is a large and com-
plimentary one; that his majority
shall be such that it will show
him that he has the good will and
confidence of his constituents.

Hearst and His Campaign.

Mr. W. R. Hearst is making a
most remarkable campaign for
governor in New York, and wheth-
er he is elected or not he is going
to make the republican candidate.
Mr. Hughes, know that he has been
up against a good hard propo-
sition. The race is a warm one, and
at this stage of the game it is
impossible to tell who will be the
winner. Mr. Hearst has the ad-
vantage at the present it seems.
The large insurance companies,
on account of the recent investi-
gations are prevented from giving
to the campaign fund and this is
a serious hindrance to the republi-
cans. It we are not mistaken
money is the thing that wins in a
New York election, and it is well
known that Hearst is one of the
richest young men in the country.
He is able to finance his own cam-
paign, an advantage that his op-
ponent seems to lack.

The candidate of the Inde-
pendence League at first Hearst was
the regular democratic nominee
but this was not without much
stubborn opposition from the
bosses of Tammany. There are men
in the democratic party in New
York who have fought Hearst as
bitterly as the republicans. But
in spite of all the odds against
him he has made and is making a
wonderful race. The laboring
vote he will carry almost solid. It
is to them that he makes special
appeal and the appeal is not un-
heard. The idea of city control
and ownership of public utilities
is a vote winner in the state and
particularly in the city of New
York. There the poor are so used
to being kept in the dust that any
change whereby the conditions
will be improved will be gladly

welcomed by the working classes
of the national metropolis. A
large percent of the population
of a great city do not know nor do
they care what the issues involved
are. They can be bought, and
knowing this and having the
money to buy votes, it is just
likely that Hearst will be elected.
It is known that he is the most
bitter enemy that the trusts have
today. He has fought them for
his millions, and through his pa-
pers and magazines he has never
lost an opportunity to throw a
bomb into them when possible.
The hatred and opposition to
trusts is becoming national. Efforts
have been made for some
years to regulate them, but they
are so large and powerful that the
efforts have met with but little
success. Hearst, of all things,
stands for the regulation and con-
trol of the monopolies that are
becoming a menace to the whole
country. And on this very princi-
ple he may win many votes in
New York.

It is a wide leap from the so-
called democracy of Hearst to the
good old time rock-ribbed and
solid democracy of our fathers at
the time of Hamilton and Jefferson.
But the times are changed and the
conditions under which we live are
totally different from the days
when the republic was in its in-
fancy. A spirit of unrest that
broods no good for the future of
the country is upon the people.
To the cry of reform they will
rally around the standard of any
leader who is strong enough to
lead. About William Randolph
Hearst there is a wide difference
of opinion. Some say that he is
a weak man and is kept on his
feet by the able force of men with
which he has surrounded himself.
We are inclined to think that he
is a man of more strength than
the people give him credit for,
but that as it may be mak-
ing a great race and his career
will be watched with interest.

Send Vagrants to Panama.

We quote below an editorial
from the Savannah Press on the
question of sending the vagrants
to Panama. The suggestion is a
good one, we think, and the edi-
torial in question is fraught with
good common sense and we com-
mend it to our readers:

"The proposition that the idle
negroes be sent down to work on
the Panama canal is an important
one. It has been suggested that
this would solve the labor prob-
lem in Panama, and at the same
time help to settle the race ques-
tion in the South. The man who
made this suggestion to the presi-
dent declared that no force would
be required to secure their serv-
ices."

"If some way could be found to
ship the thousands of idle negroes
who now swarm in the cities and
live off of other people, to Pan-
ama, or any other place, it would
be a blessing to the South. These
people cannot be induced to go
into the cotton fields. They are
believed to be at the bottom of
much of the trouble now reported
in the state, and are now filling
up the chain-gang and the jail. If
Colonel Thompson of Chattanooga,
who is the author of this bril-
liant idea, can suggest some way
of getting these people to Panama,
he will confer a favor upon the
country and the colored race. It
is certainly the idle negro who
makes the trouble in the South, and
it is this kind that reflects on the
better class of negroes. Panama pre-
sents an ideal field. The govern-
ment needs laborers. The canal
zone has been cleaned out, the fe-
ver mosquito has been drowned in
oil, and living conditions have
been improved. The Southern
negro is not so susceptible to yellow
fever. Panama is more like
his native habitat in South Africa.
As between the American negro
and the average Panamanian there
is little difference. He might go
to be a voter and an office holder in
the president's new republic, and
the time might come when he

could attend the locks and drive
the mules along the towpath of
the canal.

"There is no reason why the
American negro shouldn't get
along swimmingly in Panama.
There is only one trouble; he
probably wouldn't want to go,
and how are we going to make
him go? There would be abun-
dant chance for him to be made
collector of the port at Colon or
Panama, and to become internal
revenue collector of the Culebra
district. At present the labor
there is from the West Indies,
and is very unsatisfactory. The
mosquitoes have ceased to fly,
but the dirt hasn't yet commenced
to fly. Unless the general govern-
ment or the states set up a penal
colony no one knows how the
Southern vagrant can be ship-
ped to the canal belt and put to
work on the steam shovels and
the picks. Wages are high,
the eight-hour system probably
prevails and lynchings is as yet
unknown. The government has
set up good hospitals, guaranteed
plenty of supplies, and the
vagrant would have the choice of
French or American tools, as his
taste might incline him to. Now,
Panama seems to be the solution
of the race problem, provided we
could induce the idle negro to go
there. Colonel Thompson says we
would not have to use force. Will
the Colonel please tell us how the
surplus colored laborer in the
South can be shanghaied and
shipped to Panama?"

Court Adjourned.

The fall term of Bulloch super-
ior court adjourned Friday at
noon after having been in session
for five days and a half. Some
cases of importance were dispo-
sed of but the case in which the
people were most interested did
not come up. The court handled
the business that came before it
with great despatch. The grand
jury finished their work at two
o'clock Friday afternoon and
were then dismissed. Some very
important matters came up for
their consideration and they
treated them in a manner entirely
satisfactory to the people of the
county.

Judge Parker endeavored him-
self to the people of the county by
the able and fearless manner in which
he presided over the court. He
returned to his home at Baxley
Friday afternoon. Solicitor Gen-
eral Alfred Harrington returned
to his home Saturday afternoon,
remaining over here during the
day to get matters straightened
out.

The crowd seen here during
court was the smallest ever seen
at such a court. The people were
bushy and stayed at home. Any-
way it seems that court does not
excite as much interest as it did
in the years gone by.

Lady Dies Suddenly.

On last Saturday afternoon Mrs.
Gennie McCorkle passed suddenly
away at her home in the 4th
district. Her husband, Mr. A. L.
McCorkle, had gone over to Ox-
ford on that day, leaving his wife
in apparent good health. Re-
turning that afternoon he found
her cold in death. They had
been married only a little more
than a year and one child is left
as the issue of their union. The
remains were laid to rest in the
cemetery at Ephesus Baptist
church on Sunday evening in the
presence of a large number of
sorrowing friends and relatives.

Controversy Over

"Hell's Half Acre."

During the absence of the editor in chief at the state fair there arose in this office a very heated controversy between Mr. J. D. Jones, acting editor, and Mr. D. L. Lanier, over an attempt made by the News to put the lid on what Mr. Jones termed, "Hell's Half Acre." It seems that while conducting said controversy Mr. Jones made a mistake and dipped his pen in a bottle of ink which is kept in this office to be used on a certain long eared brand of "liberty loving statesman" who occasionally insists on running our business for us.

While the News as stated to Mr. Lanier and his brother-in-law Mr. W. C. Parker, who accompanied him up on Saturday afternoon does not care to be understood as apologizing for the description made of the dive referred to, yet we rather think that Mr. Jones overdid the thing in using the language towards Mr. Lanier that he did; Mr. Lanier appearing in the public prints as "X. Y. Z." We are sure he had no personal feeling towards Mr. Lanier, and we are also sure that the News had none. Men use terms in heated controversy some times when they really do not mean to reflect upon a man's private character and good name. Mr. Lanier is a good citizen, and we again assure him that no hard feelings are held towards him in this office.

But as to the nature of the place referred to we have nothing to take back, it has been a nuisance the entire summer, a running sore bursting and stinking in the very heart of the city, a place where loafing negroes meet and mingle, concoct crimes and schemes that mean no good to the welfare of the city and community. A place for idly loiterers, to meet and carouse, and especially so on the Sabbath day. It is just such dives as this that Atlanta has been forced to close the doors

during the past few weeks. It was the universal opinion of the authorities that in just such holes of the one referred to were seeded the many crimes that blighted so many homes in the suburbs of the city, terminating in four cases of assault on white women in a single day, then it was that an outrage public would stand it no longer, arose and went out with a two edged sword as it were, and cut them down regardless of guilt or proof. Then the city council met and closed the dives but it was too late, more than a score of white women had been the victims of these outrages, and the streets of the city had run with blood.

An ounce of prevention is worth a pound of cure. It is all right to close the drug stores on the Sabbath that white men and boys may not congregate and revel in coca-cola and Cuban perfects but it is our first duty to close the low white and negro dives that infect our community and endanger the lives of our property, our citizens, no matter if a bohemian-in-law is reaping a paltry sum in the way of monthly rent, let these dives exist and allow the criminal negroes to meet and concoct schemes and form "Fore Day Clubs," go out and ply the torch to some unprotected home as they have done in the past, and when an outraged people take the law in their own hands again as they have done in the past. The News will sit back on its dew claw and say: "Boys protect your homes and families."

Result of Neglect.
In most cases consumption results from a neglected or improperly treated cold. Foley's Honey and Tar cures the most obstinate coughs and colds and prevents serious results. It costs you no more than the unknown preparations and you should insist upon having the genuine in the yellow packages. W. H. Ellis.

HORSES FOR SALE

We Must Have That College.

The action of the grand jury in unanimously recommending the appropriation of twenty-five thousand dollars for the building of that agricultural college was a move that means more to the people of Bulloch county than anything that has transpired here in many years. The state will establish one of these colleges in each of the eleven congressional districts of the state, and will maintain them out of certain funds. The county that gets one will be richly rewarded in the years to come. It will enhance the value of every piece of property in the county, and will afford our boys an opportunity to get an education along agricultural and industrial lines that they could not obtain otherwise.

The entire state expects Bulloch county to get this college. This county is regarded as the best county in the entire state and a failure to land this college here would be a disappointment to every section of the state. Bulloch bore off all the honors at the recent state fair and she is entitled to this college. It has been shown that she can raise everything that grows in this climate, and to-day is the banner county of the state. When this college is complete the students will roll in from every section of the state. Men who want to give their boys an agricultural training will want to send them to a school where each and every branch can be taught successfully. In that school the question of the growing of all crops will be studied and on the adjacent farm will be taught in a practical way the manner of their cultivation. Bulloch county has shown to the world that she grows all these crops successfully and this is the ideal spot where the first district college should be located. It will stand in the forefront of them all and necessarily will require more to construct it than any other one in the state.

That such an institution will benefit everyone goes without saying, and it will especially benefit

THE STATESBORO NEWS.

\$1.00 A YEAR. STATESBORO, GA., FRIDAY, NOVEMBER 2, 1906 VOL. 6 NO. 35

Fire at Metter.
The store of the Metter Trading Co. was burned Tuesday night. The loss is about \$10,000 with partial insurance. The doors of the safe came open from the excessive heat and all the notes and accounts of the company were destroyed. There were about \$15,000 in notes and accounts.
The store of Joe Watson was also burned. The loss in this case was about \$3,000 with insurance on about two-thirds of the amount.
The origin of the fire is not known, though it is supposed to have started from a lamp which was left burning in the Metter Trading Co.'s store. The lamp was turned down low and left burning and it is supposed that it exploded.

Will Change His Business.
Attention is called to the large page advertisement of F. L. Clary in this issue. Mr. Clary has been in the shoe and dry goods business for the past three or four years. He has built up one of the best trades in that line in the city. He is a hustler and never allows himself to be undersold; in other words, he is always there with the goods. He is now closing out his entire line and publishes his cost mark. He guarantees that he is selling at actual cost and offers to make a handsome donation to any charitable institution in the county if he is caught selling goods above cost. He will change his line in the near future. Just what line he will engage in he does not now state, but promises to do so soon.

Mass Meeting.
A mass meeting of all the citizens of the county has been called for next Tuesday the 6th day of November in the court house at 11 o'clock in the morning to consider the best and proper steps to go about the work of raising subscriptions for the agricultural college. It is urged that every body come and lend a helping hand to this movement. On that day Hon. J. S. Steward of the University of Georgia and one of the best informed men on agricultural subjects in the South will be here to go over and fully explain the aim and purpose and to give an information of the practical working of these schools. He is closely identified with the farmers of the state and no man in the state has done more to educate and improve the condition of the working man and improve rural schools than the man who will address the people here on that day.
The people of Bulloch county face a most serious proposition. They had just as well reckon with the fact and face conditions as they are.
This college is not yet assured for this county and unless there is some good hard licks put in within the next few days the school will go elsewhere. Now this is not a pessimist nor the growl of a miser but we know whereof we speak. The people of this county have never been active in their efforts to secure this institution. They have been cold and callous from the beginning and thus they are yet. This is not the spirit that does things and the outside world is a living proof that it is not. They say they want the school but there has been no concerted effort made by the people as a whole and unless they wake up to the situation at once it will be too late.
Opportunity knocks but once at each man's door and what is true of the individual is also true of the county and the nation in a larger sense. This is the golden opportunity and we must take time by the forelock. Such another chance will not rise in an hundred years. When the people now living are dead and remembered only by their good or bad deeds as the case may be this institution will be here flourishing and making the county greater and richer on account of the lives that have been inspired with learning's golden gifts.
Because the grand jury has recommended that the county appropriate a large amount for the school does not mean that it is time to quit work for the money may not be able to be used on account of the illegality of the thing. What the people of this good town and county have got to do is to go to work and reach way down in their jeans and come up with amounts so large that they can settle the financial part of the question for all time to come. And that is all that is lacking. When the money has been raised the board of trustees will award the college to this county without one dissenting voice. Statesboro is the natural and logical place for the location of this school. After we have attracted the attention of the state and the whole South by the magnificent and unparalleled showing at the state fair we are going to let the thing slip away when it is almost in our grasp.
In unity there is strength. Let the people work together in unison and harmony. Let all petty differences be buried and putting their shoulder to the wheel let the good citizens of this county give the movement such an impetus that when the board of trustees go to looking about for a location we can lay every thing at their feet, money lands and the moral support of the county. Then and then only will the school be a certainty for us.

Mrs. Mikell Entertains.
Mrs. Virgil Mikell gave a very delightful entertainment in honor of Miss Dora Powell Wednesday evening at her home on North Main street. About thirty five of the younger set were present and spent a very pleasant evening. Games were played and during the evening delightful refreshments were served.
Injured by a Gin.
Mr. Jasper Davis, living a few miles from Metter, had his arm cut off in a gin Tuesday. The wound is a most serious one and fears for his recovery are felt. The limb was cut off above the elbow, close up to the shoulder. The arm was cut off while raking out some cotton seed from under the gin.
New Buildings.
Several new buildings are going up now. Mr. J. E. Parker, the sewing machine man, is having a handsome residence erected near the college and J. B. Rushing is having a new house built on South Main street. The handsome new house of Mr. T. J. Donmark in West Statesboro is nearing completion. It is one of the prettiest in the city.
Death of Mr. Riggs.
Mr. Joshua Riggs died at his home a few miles from here Saturday from bright's disease after an illness of about two weeks. The deceased had been in feeble health for some time but about two weeks ago his condition became serious and the disease terminated with the fatal results above described. Mr. Riggs was one of the most prominent men in the county. He leaves a wife and a large family connection to mourn his loss. The funeral was held at Bethel church Sunday afternoon and was largely attended. The deceased was about fifty seven or sixty years of age.
