Bilious Attack Quickly Cured
A few weeks ago I had a bilious attack that was so severe I was not able to go to the office for two days. Failing to get relief from my family physician's treatment, I took three of Chamberlain's Stomach and Liver Tablets and the next day I felt like a new man.—H. C. Bailey, Editor of the News, Chapin, S. C. These tablets are for sale by all Druggists.

The lid is on in other places in town and the council had as well make the low dives around town close up too.

Dancing Proves Fatal
Many men and women catch colds at dances which terminate in consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared. Refuse any but the genuine in a yellow package. W. H. Ellis

Odd Fellows to Meet

On Wednesday, the fourteenth of November the Odd fellows of the first district will meet here. Seven lodges from Savannah, one Mill Ray, Ludowici and the local lodge compose the first district. Two delegates from each lodge will be present. A large number of visitors are expected in addition to the regular delegates. The convention will be in session one or two days and will end with a big banquet at the Jaekel. The local lodge is making arrangements to entertain the delegates and visitors and during their stay here a number of things will be given in their honor. Division Deputy Grand Master H. Ward will be one of the distinguished visitors. Speeches will be made by delegates from each of the lodges.

This order is a very popular one here and membership includes some of the most prominent men in the city. The local lodge is reported to be in fine condition. It has a large membership.

In Time of Peace

In the first months of Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take. A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by all Druggists.

Attention Cotton Growers.

To the Members of the Sea Island Cotton Association and Long Cotton Growers of Georgia and Florida: I call your attention to the important fact of a much greater shortage of the sea island cotton than was estimated at the Valdosta convention and to the fact that the staple is uniformly better this year than it has been for years. Many of the best growers and buyers over the belt think that the extra good staple and show crop will make it worth 30 cents for the best grades if the farmers will hold it and market it sparingly. The association at Valdosta estimated that the crop was 60 per cent of last year's crop, which was 125,000 bales; 60 per cent of which is 75,000 for this year's crop. Since that time the crop has been cut short at least ten per cent. We have no top crop. A fall crop of last year's estimate of 62,000 bales is all that can be safely relied on. This crop is worth the minimum price, which the association set, and being of a better quality with the heavy falling off during the month of September, makes it worth more. Do not sell a pound under the minimum price set by the association. The demand is strong and there for all lines of cotton goods. We believe that 30 cents for best grade of sea island and 14 or 15 cents for short cotton, can be reached if the farmers will only hold their cotton. F. G. Schell, Sec'y Sea Island Cotton Association of Georgia and Florida. Lake Butler, Fla., Oct. 29, 1906.

Sell More of Chamberlain's Cough Remedy than of All Others Put Together

Mr. George, a merchant at Mt. Egin, Ontario, says: "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada and I sell as much of it as I do of all other lines I have on my shelves put together. One of the many dozens sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best results." For sale by all druggists.

Lanier-Fulcher Co.'s

After all the simplified spelling is not as bad as the "w" habit. Every day of our lives we hear such words as "taken," "got-ten," "putten," and many others used in the wrong sense. "Taken" is the most abused word in the English language.

Martin—Rhoden.

Miss Daisy Martin and Mr. J. H. Rhoden were recently married in Atlanta. Miss Martin formerly lived in this county of which she is a native but for the last few years she has made her home in Atlanta. They are now living in Birmingham, the home of the groom.

A Year of Blood.

The year 1905 will long be remembered in the home of F. N. Tackett, of Alliance, Ky., as a year of blood; which flowed so capiously from Mr. Tackett's lungs that death seems very near. He writes: "Severe" bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored and as time has proven permanently cured." Guaranteed for Sore Lungs Coughs and Colds, at W. H. Ellis drug store. Price 50c and \$1.00. Trial bottle free.

LAND FOR SALE.

I have six hundred and seventy acres of pine land for sale. Sixty acres in cultivation. Good log buildings and timber on the land is pretty fair. Situated two miles from Ochopee river. Anyone wanting to buy drop me a note at Purcell, Ga. C. R. Yeomans.

NOTICE

E. N. Rushing is no longer in our employ, and has not been since August 20th. He has no authority to collect money, solicit orders, or in any manner represent us. Nov. 7th, 1906. Thomas & Folger, Savannah, Ga.

Rimes Land Sold.

The land of the Jordan L. Rimes estate was sold Tuesday, that being a day of legal sale for land. It brought pretty fair prices, although some are of opinion that a year ago it would have brought a great deal more than it did at the time when it was sold. Most of the land was bid in by heirs of the estate. The bidding was never very lively with one or two exceptions. The highest price paid for any lot was the sum of thirteen dollars and forty cents an acre, for lot number three, which was bought by Mr. J. A. Wilson. Below is given the numbers of the lots and the number of acres that each contains, with the name of the purchaser of each and the price paid per acre:

Lot No. 1, 205 acres, sold to Harley Rimes at \$10 per acre.
Lot No. 2, 65 acres, sold to A. J. Wilson at \$10.25 per acre.
Lot No. 3, 125 acres, sold to A. J. Wilson at \$13.40 per acre.
Lot No. 4, 150 acres, sold to J. A. Wilson at \$10.30 per acre.
Lot No. 5, 165 acres, sold to W. J. Wilson at \$12.25 per acre.
Lot No. 6, 185 acres, sold to Allen Rimes at \$8.00 per acre.
Lot No. 7, sold to C. C. Ash at \$1 per acre.
This was one of the largest land sales that has taken place in this county for some time, there being 1,001 acres in all.

Scarcity of Houses.

There is a house famine in Statesboro just now and there is not a vacant house in the city. This speaks well for the business of the place and shows that there is a steady growth of population that means much for the city. No better investment could be made, we believe, than the building of good houses for rent. Several families that we have heard of who wanted to move here to take advantage of the school could not do so as they were unable to obtain a house.

Small Vote Polled in this County.

There was a very light vote polled in this county yesterday, the total vote being 61 as against about twenty three hundred and fifty in the primary. The people were not interested in the contest and stayed at home either engaged in work or not caring enough about the election to turn out and vote where there was so little at stake. It had been urged upon the people more than once to go out and support the Democratic nominees for congress but evidently every one said that there would be plenty of votes without him and so the matter stood. Here the election passed very quietly. There were more votes polled than some though there would be but there were only two hundred and forty four votes polled in this, the most populous district of the county. The Republican strength was a distinct disappointment to the candidate who was supposed to be a good vote in some districts of the county particularly in this his own home precinct. There were four votes cast for Mr. Rigdon here, two white and two colored votes. Few negroes were registered and this is accountable for the small vote of the republican for in most cases where they were registered they invariably voted for Mr. Rigdon. The election here is but an indication of the way it was all over the state.

The official consolidated vote in this county is as follows: Edwards 450; Rigdon 11; Russell, 446; Hill and Powell, 446. In some county precincts only eight votes were polled. The vote was the lightest in years. Mr. Rigdon received seven white votes and four colored votes. He is a fine man and no doubt would have made a better race if he had more time in which to win over the people.

A Dollar Will Do It.

Cotton Bringing Fancy Prices

Had you stopped to think that every bale of sea island cotton sold at the present price brings about \$140 per bale? Such is the case, and as a result a great deal of money is coming into the city. The merchants are growing rich off of the business and the farmers are rolling up good bank accounts. The county is prosperous and the people as a rule are out of debt.

Crosses on the 13th.

Mr. E. D. Holland has received a letter from Mrs. L. W. Dupont, recording secretary of the Savannah chapter of the Daughters of the Confederacy, saying that the crosses of honor will be bestowed upon the Confederate veterans of this county on the 13th instant.

It is important that the veterans arrange to go down in a body. Unless they are there in person or have an excuse signed by three officers of the local camp they will not be given any crosses.

MAJESTIC BAKING DEMONSTRATION NOW GOING ON

We heartily invite our friends to call at our store any day during this week where we are demonstrating the superior qualities of the

New Majestic Malleable and Charcoal Iron Ranges.

The Majestic Malleable and steel range as formerly turned out by the Majestic people has been considered throughout the entire country par-excellence, and far ahead of any other range made. But with the new charcoal iron body in place of steel, making it double its value, and the fact that it is the only range in existence made of malleable and charcoal iron, you can readily see that if quality is considered, the Majestic leads by a big margin. We want you to call at our store next week, and let us explain this new feature—CHARCOAL IRON BODIES; let us explain why it is the best material range bodies, and incidentally, why it is not used on other ranges. We want you to call if you intend to buy or not, as the information gained will serve you in the future.

HOT COFFEE and BISCUITS FREE.

Come any day during this week and have buttered hot biscuits and hot coffee. Biscuits baked on the Majestic in three minutes while you wait.

Handsome Set of Ware—FREE

With every range sold during this demonstration we will give absolutely FREE one set of Majestic ware worth every cent of \$7.50. This ware will be on exhibition at our store. Everything useful, ornamental and durable. Come in and see it, and you will agree with us that it can not be bought for a cent less than \$7.50, and it is cheap at that.

Come in any day, you are welcome whether you intend to buy or not

Clary's Big Stock Struck by a Hurricane

BADLY DILAPIDATED BY CROWDS OF GREEDY BUYERS, BUT STILL IN THE RUNNING.

THE FIRST DAY of our sale we sold over Three Hundred Dollars worth of goods, and every day since that has witnessed a big increase. The storm of people that have been coming to our store have made a great hole in our stock, but there are many rare bargains yet for those who know a good thing when they see it. We have five clerks in the store and they are insufficient to wait on the great crowds that are coming to the greatest sale in the history of Statesboro, and it is necessary for us to get more help. We have a crowded store all the time and we advise those wishing to buy to come early as my stock will soon be exhausted by such crowds of greedy buyers. We mean business. The goods must go and **THEY ARE GOING** with the rapidity of a swift flowing stream. The goods are all new and first class in every respect, and no such bargains were ever offered to the people of this section. I must make room for a new line and these goods are going at a great sacrifice. Get in the crowd that is headed this way and you will never regret it.

TO SHOW THAT I MEAN BUSINESS I AM GOING TO ADVERTISE MY COST MARK TO THE WORLD. HERE IT IS, READ FOR YOURSELF.

Entered at the post office at Statesboro as 2nd class mail matter.

Statesboro, Ga. Friday, Nov. 9, 1906.

Published Tuesdays and Fridays by THE STATESBORO NEWS PUBLISHING COMPANY.

The cotton crops is about out and now plans for another season will straightway be made. A large crop of sea island variety will no doubt be planted next year than was this.

Tom Watson is going to Atlanta with his magazine. Fifty he could not have been there to have written up the recent rioting. We know that it would have made interesting reading.

The man who won that hundred dollars at the Georgia-Carolina fair thought that he made a fine exhibit. My if he could only have seen old Bulloch's display at the state fair. But then it might have given him the brain fever.

Will Savannah and Atlanta ever be friends? We notice that an Atlanta man said that Savannah will have two hundred thousand population in ten years. Is this not proof conclusive that they are trying to make up. If not why are they fishing for compliments?

If the town council will have a day set aside for a road working we will write it up in our column and urge the citizens to come out and put South Main street in passable condition so that there will be no danger of one breaking his neck when traveling that thoroughfare.

What care the people of this county for politics when there is an agricultural college in store for them? This is worth more than all the candidates that have been telling the country that it was going to rack if they were not elected for to these many years and will prove a greater benefit to the county than all the demagogues in the state.

Our friend Brinson is going after that agricultural college for Stillmore in great shape. But don't everybody know that his town is the sorriest in Georgia. Who ever heard of Brinson but for Stillmore and who ever heard of Stillmore but for Brinson? They are mutually dependent upon each other for fame.

NOTICE.

The following resolutions were passed by city council in regular session held Oct. 9th:

Resolved, that the tax rate for the year 1907 shall be fixed as follows:

Ad valorem tax for general purposes the sum of eight mills on the dollar or eight dollars on the thousand. For the support of the public school, 2 mills on the dollar or two dollars on the thousand, making a total of ten dollars on the thousand.

The following cost bill is established:

For issuing execution, \$1.00
For levying execution, \$1.00
For settling execution, \$1.00
For commission on sales, same as sheriff of superior court.
For each bond taken, \$1.00
For advertising, same as superior court sales.

That all taxes due the city except special tax shall be paid to the city or before the 15th day of November. Executions will be issued after this date against any person, firm or corporation who fails to pay their taxes by this time including tax defaulters for any previous year. The books are now open and ready to collect taxes. R. Lee Moore, Mayor. W. H. Ellis, Clerk.

Association at Olive Branch

The Baptist Association at Olive Branch has been in session for three days this week. It began Wednesday and ends today. Large crowds have been attending. Quite a number from here have been going down each day particularly today when the number was very large. The meeting has been a big success in every way.

Great Reduction Sale!

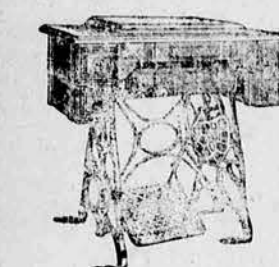

This is not a mere handful of shelf-worn goods but a well selected stock of seasonable goods, amounting in value to \$35,000.00, covering a space of 12,000 sq ft

For the purpose of reducing my large stock of General Merchandise, I have decided that

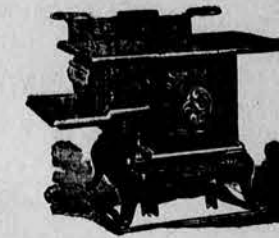

For Two Days Only

I will sell my entire stock of General Merchandise, consisting of Buggies, Wagons, Harness, Saddles, Hardware, Crockery, Dry Goods, Notions, Groceries, Stoves, Furniture and Farm Supplies. I will have plenty of lieutenants to handle the trade and everybody will get prompt attention.

At First COST

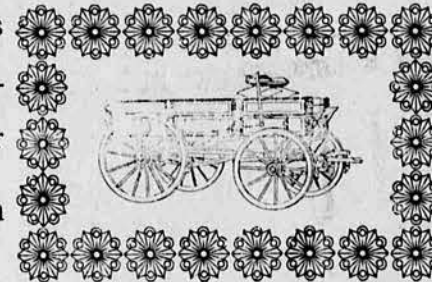

These goods were bought before the rise in price, and you will be given the benefit of these low figures. I am determined that they shall go. I must reduce my stock, and have decided to throw it on the market, for two days only, at actual first cost. We have a beautiful line of silks, laces, embroideries and dress goods.

THE TIME IS
Friday and Saturday, Nov. 16 and 17

In view of the fact that these goods are to go at actual cost, and a big bargain, I will have to ask the cash for each and every article purchased on these two days.

These goods are all first-class, and I am able to offer you a chance that will not come your way again soon. Come out and see if all I say is not true.

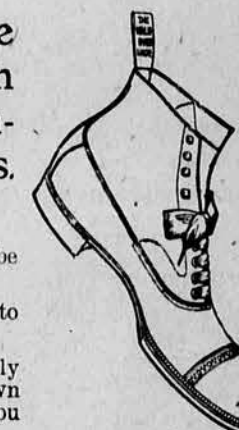

We are agents for the celebrated Milburn Wagons, one and two horse, all standard makes of Buggies, which will be sold at a great sacrifice. Also all kinds of Furniture, Side Boards, Bedspreads, Iron Beds, Chiffoniers. In fact all styles and grades of furniture.

We also handle the famous Remington and L. C. Smith's Shot Guns, a number of which will be sold at cost.

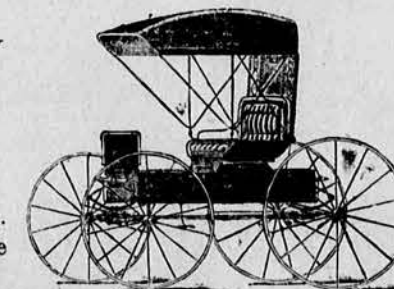

We handle the noted Peninsular line of Stoves and Ranges and will have some genuine bargains to offer on this occasion—bargains that cannot be duplicated anywhere.

Our line of Dress Goods and Silks is the most complete in this section, and the ladies are especially invited to call and inspect this line. We handle the celebrated Walk-Over and Hamilton & Brown brands of men's fine shoes, also the leading brands of ladies' and children's shoes. This will afford you an excellent opportunity to lay in your winter supply of shoes cheap.

Don't forget the days, Friday and Saturday, Nov. 16-17.

We appreciate the fact that we are beholding the rise of three nations to greatness—Japan, China and Russia, asks the Christian Register. Few generations have seen so splendid a sight.

It is only 18 years since the electric motor drove the first street car successfully in this country? It was in Richmond, Va. What could be more amazing than the developments of the electric service since 1887. The steam railroads are falling into line, and it is estimated that the steam roads have already appropriated \$500,000,000 to be used in the purchase of electrical equipment.

A motorman on a trolley car was killed in a collision with another car in a Pennsylvania town. When he was released from the wreck, narrates the Youth's Companion, his hand was found to be still tightly clasping the brake. If the accident had been a battle and the man had been found dead on the field with the colors in his hand, he would have been called a national hero. As it was, he died one of the heroes of peace.

Apples are one of the staple articles of export from the United States to England. Last year nearly two and one-half million barrels were exported, and about one-half of them were shipped from Boston and New York. Now a special line of steamers is to be established for the exclusive shipment of apples. The vessels will ply between Boston and London and Hull. Each will be fitted with special facilities for keeping the fruit in good condition and for handling it well, and each will carry twenty thousand barrels.

There is a probability, observes the American Cultivator, that before long travelers on Union Pacific trains will ride through an alfalfa field between Omaha and Ogden—a remarkable attestation field, two hundred yards in width and a thousand miles in length. For a long time the Union Pacific has been considering the problem of eliminating weeds along the right of way, and numerous schemes have been suggested with this end in view, but it was not until demonstration was made that alfalfa will grow without irrigation that the possible key to the problem was found. Now, it is said the railroad company will experiment with alfalfa on the right of way, and should the experiment be successful, alfalfa will be planted between the fences of the right of way the entire distance from Omaha to Ogden. Alfalfa is a hardy and close growing plant, and where it has obtained foothold all other vegetation is strangled.

In fifteen states and territories the national government has set aside forest land to the extent of more than a hundred million acres. Opponents of the idea of national forest reserves have objected to it on the ground that many desirable agricultural districts along creeks and in valleys fall in the reserves and are thus withdrawn from the possibility of settlement and development, and that the resulting loss of taxes is a hardship to the state and county in which the reserves lie. To make up this loss congress provided in one of its latest enactments, the Agricultural Settlement Bill, that all the land which is usable for home building and settlement shall be brought within reach of the people. More than that, under a provision of the Agricultural Appropriation Act, the counties in which the reserves lie are to have ten percent of the receipts of the reserve. Last year the receipts were three-quarters of a million, and in the next few years the increase will be rapid. The money returned to the counties is paid through the state treasuries, and it is to be used only for schools and roads.

HE OWES SIX FIGURES

But only has ninety plunks which he can call his own. Edgar D. Martin, formerly connected with the tobacco firm of H. N. Martin & Co., which failed two years ago, filed a petition in bankruptcy at Louisville, Ky., Thursday. He owes \$161,741, and has assets amounting to \$30, on which he claims exemption. The claim in the petition consists of notes executed in the name of H. N. Martin & Co. for which he was joint surety.

Hudson to Attend Convention. Commissioner of Agriculture Thomas Hudson has accepted an invitation to attend and address the annual convention of commissioners of agriculture for southern states, which will convene at Jacksonville, Fla., on November 15th, remaining in session through the 21st. He will take agricultural conditions in Georgia.

Fourth Georgia Regiment. The twelfth annual meeting of the Survivors' Association of the Fourth Georgia Regiment—R. S. Cheves, president; C. E. Purlow, secretary—will be held in Savannah in connection with the state reunion on November 13th, 1906. Place and hour of meeting can be ascertained at division headquarters.

Mercer Accepts Big Donation. Mercer's board of trustees formally agreed to accept the gift of \$75,000 from the general education board of New York as a start for the \$300,000 endowment fund at a meeting in Macon a few days ago. President S. Y. Jamieson laid the offer before the board and plans were immediately made to have the remaining portion subscribed by the end of 1907.

Nineteen Negroes Secure Release. Judge Roan of the superior court, criminal division, in Atlanta, Friday, issued an order releasing 19 of the 59 negroes indicted, and 42 of whom are in jail for murder in connection with the killing of County Policeman J. L. Heard in South Atlanta. Twenty-three were ordered held for trial.

Life Sentence for Wife Poisoner. In the case of Reason Handley, charged with poisoning his wife, on trial at Irvilleville for two days, before Judge Martin, the jury after being out five hours, returned a verdict of murder in the first degree with recommendation of a life term in the penitentiary, on account of the evidence being mostly circumstantial. Judge Martin pronounced sentence, in accordance with the recommendation. The parties are members of prominent Irville county families, and had been married only two weeks.

Police Charge Fell Flat. G. L. Grover of Chelsea, Chittauga county, who was charged with having sent a bottle labeled Dr. W. W. Hooke's kooler bottle to Mrs. Elly Hooke of that place, which contained strychnine poison, out of which she took a dose, and from the effects of which she died in a short time, had his preliminary trial before Justice Rush at Savannah, Friday, before Judge Grover was discharged by the jury, he holding there was not sufficient evidence to justify binding him over. Quite a large number of witnesses were examined, and great interest was evinced by the people of Chittauga county.

General Joel L. Seward. Brigadier general commanding the south Georgia brigade of Confederate Veterans, has issued the following general orders:

"Every one who can should attend the annual reunion of the Georgia division, United Confederate Veterans, at the beautiful and hospitable city of Savannah, on the 13th and 14th of this month.

"The railroad fare will be 2 cents a mile for the round trip and the hotels and boarding houses will give 25 percent discount. Moreover, provisions are being made for the pleasure and comfort of all who attend while in Savannah.

"That those who attend will have a good time and greatly enjoy the occasion is assured.

"Miss Florrie May Heath of Thomasville is hereby appointed sponsor and Miss Kate C. Hall of Brunswick maid of honor for the South Georgia brigade, with Colonel T. N. Hopkins of Thomasville and Major W. B. Borroughs of Brunswick as escorts."

State Should Accept Refinery. Commissioner of Agriculture Thomas G. Hudson has recently inspected the government syrup refinery at Macon, and in the next few years the increase will be rapid. The money returned to the counties is paid through the state treasuries, and it is to be used only for schools and roads.

REIDUCLES BIBLE DOCTRINES. This Professor Says Scriptures Should Be Discarded—Will Give Reasons. Professor Schuetzel of the Berlin university has come out in an attack on the Bible, claiming that he has found good and acceptable reasons why it should be discarded as a guide. He spent five years in research. He is preparing a treatise, which he says, will soon be ready, in which he ridicules the old doctrines of the Bible.

learned valuable lessons from the refinery. Having served its purpose, the government, through an act of courtesy, has offered the plant and adjacent farm to the state free of all cost, provided the state will agree to continue the operation of the refinery and the cultivation of cane.

Fee System Denounced. Not for many years has a grand jury of Fulton county had more laborious duties to perform than the grand jury for the September term, which made its general presentations in two days' time to the county superior court.

The system of compensating county officers by fees is condemned, and the judges of the county executive committee to submit this question to a vote of the people of Fulton county. It is characterized as a travesty on a republican institution. Fifty thousand dollars or more, the grand jury declares, would be actually saved to the taxpayers of the county by the abolishment of the fee system and the substitution of salaries therefor. It is recommended that candidates pledged to this reform be nominated for the legislature of 1908, and that the salary system be also extended to justices of the peace.

In no uncertain language, the presentments criticize the failure of the police force, taken as a whole, to adopt stringent measures at the very inception of the recent riot to protect the innocent and helpless.

Cotton Worth Over Twelve Cents. That the cotton producer should show in action upon the strength of the recent "ginnings" report and the "bear" claims of a late crop, is the warning given by President M. L. Johnson of the Georgia Division of the Southern Cotton Association.

"There is no doubt in my mind that the ginner's report, to October 25th, showed the mark," President Johnson said, "I base my belief not only upon the fact that we have not had sufficient picking weather since the September report to justify the figures given, and every one is generally aware of the bad weather we have had, but also I am confirmed in my opinion that the figures were too high, by numerous reports which I have received since the ginner's report was published, indicating very clearly that the receipts of cotton did not justify these figures."

"Again I note the claims evidently from 'bear' sources of a late crop—a claim which a moment's thought will convince any one is absurd. The early frosts which are general throughout the cotton belt, stopped the development of the cotton and brought the crop to early maturity."

VICTORY FOR STATE OF GEORGIA

Question of Jurisdiction in Copper Case Settled in High Court. In the case of the State of Georgia vs. the Tennessee Copper company, an effort on the part of Georgia to secure the suppression of the fumes of smelters located at Ducktown, Tenn., the supreme court of the United States on Monday overruled the demurrer filed by the company without opinion. Final hearing was set for February 25 next. A temporary restraining order was denied.

This action of the United States supreme court means that Georgia's plea for injunction to prevent further destruction of its forests and vegetation in the northern section of the state has a standing in that court, and that it will be given a hearing on its merits.

It also means that Georgia has practically won her main contention, that as to the infringement of the United States supreme court. It was a fight in which the copper trust was involved, for there are numerous other cases of a similar nature in other states which can now be brought before that court. It was a decision which primarily upholds the right of a state to sue in the United States supreme court, citizens of other states, on behalf of the state or its citizens. In this it establishes an important rule of practice for which there has heretofore been no precedent.

The widespread and growing destruction to forests and vegetation caused by the processes of smelting copper ores by those Tennessee companies have aroused the people of North Georgia to a determination to put an end as speedily as possible to this evil.

SHORTAGE OF LABOR

Menaces Progress of Many Industries in the South.

SOME FACTS AND FIGURES

Presented Through the Columns of The Manufacturers' Record—The Fields Neglected and the Railroads Handicapped.

Correspondence to The Manufacturers' Record (Baltimore) dwelling upon the extent of material developments now under way in the south, describes the widespread scarcity of labor hampering that development. It says, in part:

"Probably the most striking illustration of the scarcity of laborers in the south is seen in the cotton fields. During a trip of over a hundred miles through an important cotton region in Georgia and Alabama a very careful count was made of the number of cotton-pickers seen, and the total was fourteen, when, judging by the distance traveled, the condition of the cotton needing immediate picking, there ought to have been more nearly 1,400."

"Another illustration is given in the fact that the proposed exposition in Atlanta scheduled for 1910 has been abandoned, not because of the inability to secure the money, but because it was made clear that the vast majority of it it would be practically impossible to secure laborers to erect the buildings. Every contractor in the city is crowded to the utmost to take care of regular work, every manufacturing enterprise is likewise short of laborers and the country at large is so busy that laborers could not be brought in from elsewhere."

"This scarcity of labor is most pronounced in the facility of railroads to carry out much needed improvements. There is scarcely a railroad in the south that is not cramped with business of some of the leading systems it might almost be said that they are practically broken down from inability to handle with any degree of promptness either passenger or freight traffic. Many thousands of cars, many hundreds of locomotives and many thousands of miles of double track are needed if the railroads of the south are in any way to endeavor to measure up to the growing business ahead of them."

"So rapid has been the growth of the coal mining industry in the south of southeastern Kentucky, southern Virginia and northeastern Tennessee that operators are now confronted with the serious problem of a scarcity of labor. Within the past few years the coal mines of the south have been constructed in this mountainous region, numerous undeveloped coal areas have been opened and a great increase in coal production has been realized. Probably 100 new operations have been started within the past year in the region centering about the meeting point of these states, and notwithstanding the fact that several thousand foreign laborers have been brought into the mining camps this summer, the supply of miners is still inadequate."

"Given a fair supply of labor, the railroads could increase their facilities to such an extent as to be able to handle business, but to do this not simply millions, but tens of millions, must be expended before the railroads of the central south can begin to catch up with the development and increase of travel and traffic throughout that section."

ANOTHER STRIKE SETTLED.
Machinists on Southern Pacific Win Fight for Advance in Wages.
The strike of machinists, apprentices and helpers in the Albers shops of the Southern Pacific railway was settled Saturday afternoon, and the men will return to work. The reinstatement of the men discharged by the master mechanic and all employees of the shops are to receive an advance of 25 cents per day in wages.

ANOTHER RIOTER CONVICTED.
Man Who Took Part in Atlanta Trouble Is Found Guilty.
I. H. Carr, charged with rioting on the night of September 22, was convicted in the Atlanta criminal court Monday morning, Judge Chalmers presiding. Sentence was deferred.

Carr was indicted along with a number of other men who were charged with participating in the disturbances in which a number of negroes were killed. His case, however, was tried separately and the others will be taken up later.

DOCTOR USED A FORTY-FOUR.
Savannah Man Perforates His Head With Leaden Bullet.

At the Savannah Yacht Club, at Thunderbolt, one of the leading social organizations of Savannah, held Monday afternoon, Dr. Edgar H. Nichols, a well known physician, blew his heart out with a 44-caliber revolver. He died instantly. Dr. Nichols left no note giving the reason for his suicide.

A PROCLAMATION

Promulgated by President Roosevelt, Designating November 29th as Thanksgiving Day.

The text of the president's Thanksgiving proclamation is as follows:

"A Proclamation—The time of year has come when, in accordance with the wise custom of our forefathers, it becomes my duty to set aside a special day of Thanksgiving and praise to the Almighty because of the blessings we have received and of prayer that those blessings may be continued. Yet another year of widespread well-being has passed. Never before in our history or in the history of any other nation has a people enjoyed more abundant material prosperity than is ours; a prosperity so great that it should arouse in us no spirit of selfish pride, and least of all, a spirit of heedless disregard of our responsibility; but rather a sober sense of our many blessings and a resolute purpose, under Providence, not to forfeit them by any selfishness of our own. Material well-being, indispensable though it is, can never be anything but the foundation of true national greatness and happiness. If we build nothing but this material foundation, our national life will be as feeble as a house where only the foundation has been laid. Upon the material well-being must be built a superstructure of individual and national life, lived in accordance with the laws of the highest morality, or else our prosperity itself will in the long run turn out a curse instead of a blessing. We should be better reverently thankful for what we have received, and earnestly bent on turning it into a means of grace and not of destruction."

"Accordingly, I hereby set apart Thursday, the 29th day of November, as a day of Thanksgiving and supplication, on which the people shall meet in their homes or their churches, to devoutly acknowledge all that has been given them and to pray that they may, in addition, receive the power to use these gifts aright."

"I have, therefore, I have hereunto set my hand and caused the seal of the United States to be affixed."

"BY THE PRESIDENT:
"THEODORE ROOSEVELT."
"ELI H. ROOT,"
"Secretary of State."

TO ARBITRATE STRIKE.

Southern Machinists Will Return to Work as Result of the Conference Held in N. Y. City.

A Washington special says: The strike of machinists on the Southern railway, which was inaugurated recently for an increase in wages, was settled Friday.

The men will return to work without prejudice on account of the strike. The men who remain with the company are to continue at work. Those who have been employed since the strike will be rehired from the shops, but without prejudice as to their continued employment by the company in other places or as to their future employment in the shops if needed.

The wages offered to the machinists prior to the strike are to apply from November 5 and the company's proposition to arbitrate the difference between that scale and the demand of the union has been accepted.

This adjustment took place at a conference in New York between members of the National Civic Federation, the officers of the Southern Railway company, the president of the International Association of Machinists and the local committee of Southern railway machinists.

Special instructions will be issued as to how to proceed with these new employees. The company's proposition to arbitrate the difference between that scale and the demand of the union has been accepted, and the company's proposition to arbitrate the difference between that scale and the demand of the union has been accepted.

BRYAN PULLS FOR HEARST.

Indorses Candidacy of Editor in the Race for Governor of New York.
William J. Bryan has written a letter to H. R. Cole, borough president of Brooklyn, indorsing the candidacy of William Randolph Hearst for governor of New York state. Mr. Bryan's letter follows:

"My dear Mr. Cole: I am very anxious to see Hearst elected and would have come to New York to help him if I thought an outside speaker would have been of assistance. From indications, however, he is going to win, as he ought to. If I have any friends there I want them to vote for him."

Mr. Cole, in giving out the letter, said:

"Mr. Bryan's letter should be enough for all democrats in this state. For independence, I cannot imagine that they are going to take the advice of the practical leaders of the old predatory system. They will, I think, before voting, ask themselves why every leading beneficiary of what was known as commercialism in politics, is now bitterly and hysterically hostile to Mr. Hearst. Some of Mr. Hearst's newspaper opponents must think the American public has lost its sense of honor when they solemnly quote the statements of Croker and McCullough, those ideal reformers."

"Mr. Hearst's record last night in the New York election, I think, helps Mr. Hearst. It reminds me of the poster which contributed so much to our success last year. A cowardly slander is a cowardly slander, no matter who utters it. A special from Omaha, Neb., says: William J. Bryan, when shown the extract from his letter indorsing the candidacy of William Randolph Hearst for the governorship of New York, said:

"That letter is authentic. I have been writing letters and giving out interviews all through the campaign to the same effect. I have informed Mr. Hearst and I want to see him elected."

QUESTIONABLE HONOR.
This Man is Either Champion Cotton Picker or Champion Liar.
Zeb Johnson, a young man living near Macon, Ga., claims to hold the world's record in cotton picking. In the presence of eleven other pickers, he has just gathered in one day 1,135 pounds of cotton, and in the forenoon of the same day picked over 700 pounds.

PROFESSORS HAVE A "SNAP."
They Outnumber Students in This Highly Endowed College.
Preparations have begun in Boston for the celebration next year of the centennial of Andover Theological seminary. There are only eleven students in the school, but it has an endowment of one million dollars, and its professors outnumber the students.

Last year only six gained a degree. During the last six years six students were graduated. The enrollment for any year.
