### James & Kennedy's B. Sale.

James & Kennedy last week had on display at their store the great Majestic Range. An expert from the factory was here to explain the working of the stoves. Free hot biscuits and coffee were given away. Mr. Robinson of St. Louis was in charge of the sale which proved in every way a success, sixteen ranges having been sold.

### In Time of Peace

In the first months of Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest man. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take. A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cure of colds and it should be kept at hand ready for instant use. For sale by all druggists.

### Post Office Inspector Here.

Mr. George R. Ellis, post office inspector for the southern division of Georgia, has been here this week inspecting the post office which he reports in good condition with the exception that it has never been completed and he requests that that matter be attended to at once. It is the plan of the inspector to connect the various rural routes of the county thus forming an endless chain, as it were, of mail routes that will cover the county. For instance it is his idea to connect the routes going out from here with those leading out from Groveland and Halesondale and other points and in this way have a direct route between these points. He believes that would get the mail to the people quicker than to carry it on the train as at present. He is this week engaged in looking over the rural routes going out from here.  
Mr. Ellis is very favorable impressed with Statesboro and is thinking of making this his headquarters. He is accompanied by his wife.

### Cured of Bright's Disease.

Mr. Robert O. Burke, Elmore, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." W. H. Ellis.

A reliable medicine and one that should always be kept in the home for immediate use is Chamberlain's Cough Remedy. It will prevent the attack if given as soon as the child becomes hoarse, or even after the cough appears. For sale by all druggists.

### Statesboro to Savannah in an Automobile.

A congenial party consisting of Messrs. J. G. Blich, Cecil Brannen, Percy Averitt, Perry Kennedy and Dr. Donehoo went down to Savannah Tuesday in Dr. Donehoo's touring car. Leaving here at four-thirty they were in Savannah in three hours and a half. The run was made in good time in view of the condition of the roads which are very bad in some places. The trip was in every way a pleasant one. The party spent the day in Savannah and leaving there in the afternoon arrived in the city at eight-thirty that evening.

### Had a Close Call.

"A dangerous surgical operation, involving the removal of a malignant ulcer, as large as my hand, from my daughter's hip, was prevented by the application of Bucklen's Arnica Salve," says A. C. Stickel, of Milletts, W. Va. "Persistent use of the Salve completely cured it." Cures Cuts, Burns and Injuries. 25c at W. H. Ellis druggist.

### J. M. Fordham Acquitted.

In city court last week Mr. J. M. Fordham was acquitted before a jury of his fellow citizens on the charge of selling liquor. The case was one of public interest and was largely attended. It was stubbornly fought on both sides, and not until the jury had brought in their verdict was the outcome a certainty, though some had previously foretold the result, to their own satisfaction, perhaps.

It seems that there was no proof of a direct sale, such as was necessary for conviction. There is talk of a damage suit against the city for the recent action of the authorities in confiscating the property of Mr. Fordham, but it is not known if there will be anything done in the matter.

### Chapped Hands

Wash your hands with warm water, dry with a towel and apply Chamberlain's Salve before going to bed, and a speedy cure is certain. This salve is also unequalled for skin diseases. For sale by all druggists.

### NOTICE.

All parties owing us either notes or accounts will please take notice that they must pay promptly. We trust this is sufficient notice. J. G. Blich Co.

### NOTICE OF SALE.

On Tuesday, Oct. 30, 1906, I will sell at my place at Register the following houses, lands and other property: One six room house, good lot buildings with between sixteen and 20 acres of good land. Also one house with four rooms and dining room attached and lot buildings with one-half acre of land. Also one good mule, buggy and wagon, corn, fodder and farming tools and other things too tedious to mention.  
A. J. LEE, Register, Ga.

### Dairy and Food Commission's Report.

The Minnesota Dairy and Food Commission's analysis show that Kennedy's Laxative Honey and Tar contains opiates and croton oil. Opiates are poisons and croton oil is a violent purgative. Refuse to accept any but Foley's Honey and Tar in a yellow package. Foley's Honey and Tar contains no opiates or dangerous drugs and is the best cough and cold cure. W. H. Ellis.

### Famous Strike Breakers.

The most famous strike breakers in the land are Dr. King's New Life Pills. When liver and bowels goon strike, they quickly settle the trouble, and the purifying work goes right on. Best cure for constipation, headache and dizziness. 25c at W. H. Ellis druggist.

### LOST.

Between S E Helms and D D DeLoach's, one promissory note given to S E Helms for \$50, due Nov. 15, 1906. Signed, H. J. Atkins.

### Fronting Both Ways.

The Turner-Glendon Co. is the first store in Statesboro to front both ways. This firm has enlarged their store, opening clear through to Post Office street. This will make it very convenient for the people who hitch their horses in the Brannen wagon yard, which, by the way, is the largest, in fact the only wagon yard of much importance in Statesboro at present. They can step out of their buggy right into the front doors.

This great improvement was done just at this time not to make room for more goods, but to make room for the large and rapidly increasing crowds that are patronizing this store. This store is largely patronized by ladies and at times the store is so crowded with customers that it is difficult to pass in and out, hence the necessity of more room. This firm for some time has been carrying one of the largest stocks in Statesboro, in their line, and this improvement makes this one of the very largest stores in this section.

### Veterans Had Big Time At Reunion.

The Bulloch county veterans returning from Savannah Wednesday report that they had one of the best times in the history of their lives at the reunion in Savannah. The city was turned over to them and they were shown every courtesy that could be shown to veterans of the great war. The reunion was largely attended from this county there going down large crowds on both days of the reunion but particularly on the first day when the trains were crowded to their full capacity. One of the most pleasant features of the whole reunion was the oyster roast that was given in honor of the veterans at the Isle Of Hope by Col. J. H. Estill at his home, "Wymberly." There was a big oyster roast prepared for the guests and fifteen thousand were entertained. The hospitality of the good people was enjoyed very much by the old veterans.

Forty-one crosses of honor were bestowed upon veterans of this county at the reunion. This is of course appreciated very much by the veterans themselves and by their friends who are glad to see them receive the recognition that they so richly deserve. Altogether the reunion was one of the most pleasant that the veterans of this state have ever had.

### Small Midday Fire.

Tuesday about twelve o'clock a fire was discovered in the kitchen of Mr. W. T. Smith and the alarm was promptly given and in a few minutes a crowd had assembled and the fire was soon extinguished. It is supposed that the blaze originated from a defective flue while the midday meal was being cooked. The fire department was prompt to respond to the alarm and it did some good work in putting out the flames. No considerable damage was done. Warren Jones, colored, distinguished himself very much and is now in line for one of the Carnegie medals. Quite a number of the spectators were treated to a good bath during the time that the hose was playing water on the flames. It is rumored that some have caught colds from this rough treatment not being accustomed to such rash measures as those employed by the fire department.

### Bilious Attack Quickly Cured.

A few weeks ago I had a bilious attack that was so severe I was not able to go to the office for two days. Failing to get relief from my family physician's treatment, I took three of Chamberlain's Stomach and Liver Tablets and the next day I felt like a new man.—H. C. Bailey, Editor of the News, Chapin, S. C. These tablets are for sale by all druggists.

### Real Estate Deal.

Mr. W. C. DeLoach this week bought from Messrs. W. G. Raines and W. B. Martin the Bennett cottage on College street, the consideration being about sixteen hundred dollars. This piece of property was recently purchased by these gentlemen from Mr. Bennett for twelve hundred and fifty dollars. In less than a week it was sold at a big increase in price, this being proof that Statesboro real estate is always a good investment. Mr. DeLoach owns some other real estate adjacent to this house and lot and now has one of the most valuable pieces of property in the city.

### Seed Cane Killed.

The cold spell caught the people sleeping and it is safe to say that two-thirds of the seed cane in the county was killed. Few farmers had banked their cane and in most cases it was standing in the field when the cold came. This loss will be severe in many cases for the sugar cane crop is an important one the people can ill afford to get along without it.

## FROM GIRLHOOD TO WOMANHOOD

Mothers Should Watch the Development of Their Daughters—  
Interesting Experiences of Misses Borman and Mills.

Every mother possesses information which is of vital interest to her young daughter. Too often this is never imparted or is withheld until serious harm has resulted to the growing girl through her ignorance of nature's mysterious and wonderful laws and penalties.

Girls' over-sensitiveness and modesty often puzzle their mothers and baffle physicians as they so often withhold their confidence from their mothers and conceal the symptoms which ought to be told to their physician at this critical period.

When a girl's thoughts become sluggish, with headache, dizziness or a disposition to sleep, pains in back or lower limbs, eyes close, desire for solitude when she is a mystery to her mother and friends, her mother should come to her aid, and remember that Lydia E. Pinkham's Vegetable Compound will help her.

Miss Mills has written the two following letters to Mrs. Pinkham, which will be read with interest.

Dear Mrs. Pinkham: (First Letter.) I am but fifteen years of age, am depressed, have clay specks, chills, headache and nervousness. I have been using your Compound for some time and feel much better.

Dear Mrs. Pinkham: (Second Letter.) I have been using your Compound for some time and feel much better. I have been using your Compound for some time and feel much better.

## TO OBTAIN CHARTER

For Big Organization of Cotton Men in the South.

### MANY MILLIONS CAPITAL

Meeting Held in Atlanta to Formulate Plans for Holding Fleece Staple for Intrinsic Value—Details to Be Perfected.

After holding two executive sessions at the Piedmont Hotel in Atlanta, Friday, it was stated that the members of the executive committee of the Southern Cotton Association had taken definite steps toward the organization of the Southern Cotton Company and a charter for holding the fleece staple for intrinsic value—details to be perfected.

While the meetings were in session, it was stated that the members of the executive committee were organized in regard to the new plan of organizing a great corporation of southern men for the purpose of protecting the price of cotton and by buying all cotton offered at less than 10 cents, establish a strong market share as would do away with every effort and influence of speculators to depress the price of cotton and bring the staple to a price corresponding to the demand.

It was also stated that President Jordan would call a meeting of the committee in Birmingham, Ala., in January, the exact date to be announced later. A delegation from Birmingham visited the committee and offered such inducements for the holding of the next meeting in Birmingham that the offer was accepted. At this time a big convention of the Southern Cotton Association will be held the same as that held in New Orleans.

Announcement was also made that the present low price of cotton was considered at the meeting and all of the members present stated that they would do all in their power to get cotton to hold their cotton for 10 cents or better. By this means and influencing others to meet the same, they would stop the sale of all cotton at any price lower than 10 cents and by means of the fact that the Southern Cotton Company had been organized, the committee members stated that the price could soon be brought back to figures commensurate with the actual worth of the staple.

With the organization of this company it is the purpose to offer stock at \$5 per share in order that the proposition may be within the reach of everyone. Further details regarding the organization have been placed in the hands of committees which will make their reports in the near future, when further information regarding the proposition will be announced to the public.

In the consideration of the present crop, it was stated that according to the estimate of the members of the executive committee, this crop would amount to 11,145,000 bales and that the estimate recently published according to the growers' report was purely for the purpose of influencing the market and evidently very much exaggerated.

A resolution was passed asking congress to enact a law which would prohibit the speculation in cotton futures in the United States.

The following resolution by W. H. Seymour, of Alabama, was also passed unanimously:

"Resolved, That it is the sense of this meeting that cotton producers in the several cotton states use their utmost endeavor in securing the passage of a law by the next legislative session of their respective states requiring growers to make weekly reports to the state department of agriculture of the number of bales of cotton ginned."

A BUMPER CORN YIELD.  
Crop of 1906 Will Be in Neighborhood of 1,000,000,000.

The preliminary report of the department of agriculture, at Washington, according to a bulletin issued Saturday, shows the production of corn in 1906 to be 2,981,000,000 bushels, or an average of 30.2 bushels to the acre, as compared with an average yield of 28.8 bushels estimated in 1905.

It is estimated that about 40.4 per cent of the corn crop of 1906 was still in the hands of the farmers on November 1, 1906.

## FORTY-SEVEN DEAD

While Thirty-Eight are Hurt as Result of Collision.

### VICTIMS ARE CREMATED

Frightful Disaster Occurred on Baltimore and Ohio Railway and Was Caused by Blunder of some Employee.

More than one-half the passengers on an immigrant train on the Baltimore and Ohio railroad were killed and injured in a collision Monday between the passenger train and a freight train near Woodville, Ind.

One hundred and sixty-five passengers were on the train, and of these forty-seven were either killed outright or were injured to such an extent that they were pronounced dead.

Thirty-eight people were injured and several of them had serious wounds. The disaster was caused by a blunder of some employee of the railroad company, but just where the blunder was made has not yet been determined.

The passenger train which was loaded with Russian Jews, Serbians and others, was being driven westward by the engineer of the freight train, and was not informed that the passenger train was running in the same direction.

As soon as the first section of the immigrant train had passed the switch at Babcock, the freight train, in charge of Engineer Burke and Conductor Mack, started westward. A light stove was falling, which increased the darkness in the early morning, and as the freight was rounding a curve just west of Woodville the second section of the immigrant train came in sight a short distance away, tearing toward Chicago at the rate of 40 miles an hour.

The two trains came together with unrelenting speed, and in the crash the passenger coaches and several freight cars were knocked into kindling wood, and together with the locomotive, went rolling down a 10-foot embankment.

Fire broke out almost immediately in the wreckage, and although a number of the injured were saved by the desperate efforts of the train crew and surviving passengers, the greater part of those who were pinned down in the wreckage were burned to death. The flames spread through the wreckage so rapidly that it was impossible to save a number of people who were but slightly hurt, but were held fast by timbers that weighed them down. These were burned in plain sight of the throng which stood around the scene of the disaster, utterly unable to lend assistance in any way.

The fire continued until all the shattered cars were entirely consumed, and of the forty-seven persons whose deaths followed the collision, 40 were burned to ashes.

### While Thirty-Eight are Hurt as Result of Collision.

Frightful Disaster Occurred on Baltimore and Ohio Railway and Was Caused by Blunder of some Employee.

More than one-half the passengers on an immigrant train on the Baltimore and Ohio railroad were killed and injured in a collision Monday between the passenger train and a freight train near Woodville, Ind.

One hundred and sixty-five passengers were on the train, and of these forty-seven were either killed outright or were injured to such an extent that they were pronounced dead.

Thirty-eight people were injured and several of them had serious wounds. The disaster was caused by a blunder of some employee of the railroad company, but just where the blunder was made has not yet been determined.

The passenger train which was loaded with Russian Jews, Serbians and others, was being driven westward by the engineer of the freight train, and was not informed that the passenger train was running in the same direction.

As soon as the first section of the immigrant train had passed the switch at Babcock, the freight train, in charge of Engineer Burke and Conductor Mack, started westward. A light stove was falling, which increased the darkness in the early morning, and as the freight was rounding a curve just west of Woodville the second section of the immigrant train came in sight a short distance away, tearing toward Chicago at the rate of 40 miles an hour.

The two trains came together with unrelenting speed, and in the crash the passenger coaches and several freight cars were knocked into kindling wood, and together with the locomotive, went rolling down a 10-foot embankment.

Fire broke out almost immediately in the wreckage, and although a number of the injured were saved by the desperate efforts of the train crew and surviving passengers, the greater part of those who were pinned down in the wreckage were burned to death. The flames spread through the wreckage so rapidly that it was impossible to save a number of people who were but slightly hurt, but were held fast by timbers that weighed them down. These were burned in plain sight of the throng which stood around the scene of the disaster, utterly unable to lend assistance in any way.

The fire continued until all the shattered cars were entirely consumed, and of the forty-seven persons whose deaths followed the collision, 40 were burned to ashes.

## Pardon for Dayton.

The clipping below will be of interest of the people here. They will no doubt recall the incident which caused some excitement and a great deal of talk at the time. Dayton and his pal passed through here a few months ago and the people of this county were probably saved from a robbery by the turn of events at Dover. It will be remembered that the two men in an encounter with Mr. W. L. Mock overpowered him and tied him out in the river swamp, making their escape. They were later arrested in Savannah and it was a fight between Dayton and a policeman that was responsible for his conviction.

He and his pal were suspected on robbing a bank at Forsyth and being connected with other crimes over the state? The announcement of his pardon by the prison commission has created a great deal of surprise in this county. There seems but little doubt that the young man was guilty of the charges laid at his door, and that he should be pardoned after serving only a short part of his sentence has caused considerable talk.

Atlanta, Nov. 17.—The Prison Commissioner today pardoned J. P. Ryan, Jr., alias James Dayton, the 19-year-old boy, who was given a ten-year sentence in Chatham Superior Court for assault with intent to murder Policeman Christian of Savannah.

Young Ryan was arrested in Savannah, on suspicion of connection with a bank robbery at Forsyth. He says he was put through the "third degree" by the Savannah police in their

effort to get a confession from him. He struck Policeman Christian, he says, with no other idea than that of making his escape from unjust confinement. This resulted in the ten-year sentence.

J. P. Ryan of LaPere county, Michigan, the boy's father, was here today with T. S. Morgan, Jr., of Savannah, his attorney. Young Ryan left home when he was 10 years old and wrote his father from North Dakota for money. After that the father never heard from him again until he located him in the Fargo camp of the Georgia penitentiary.

Not long ago Ryan's left hand was cut off by a saw in the sawmill at Fargo, and many suspected it was deliberate action on the boy's part rather than accident. He had time and again declared his imprisonment was unjust and that he would not work.

Killed by Falling Lumber.

The seven year old son of Mr. W. M. Parish was killed at Parish yesterday afternoon by a pile of lumber, which he was stacking falling on him and crushing him to death. The news came in over telephone and the particulars could not be learned.

## Another Bank for Metter

There is strong talk of another bank for Metter and the next few weeks are likely to witness some development along this line. The bank that is already at Metter is, we understand, in a prosperous condition and the consensus of opinion is that there is enough room for another bank in this growing and prosperous little city. This speak well for the business life of the place. The section around Metter is one of the richest and most prosperous in the county and has a good deal of wealth and this section will help to support the bank almost as well as the city of Metter.

Baraccas Doing Fine Work.

The Baracca class of the Baptist Sunday school is in a prosperous condition and is doing good work. Organized not yet two years, on trial part of this time and regarded as an experiment, it has proved to be one of the most popular and important church organizations in the city. The membership is large, the total enrollment reaching the forty mark. In the class are some of the best church workers in the city. Every time that the church gives to missions or any other worthy cause this class is prompt to respond and can always be depended upon to give liberally. What success has been accomplished has been due to the untiring efforts of Mrs. Quattlebaum, who has been the life and the spirit of the class from its inception to the present time. Much good has been done and still more remains to be done by the Baracca class of Statesboro.
